SUBCHAPTER D. CONTRACTS WITH BAYLOR COLLEGE OF MEDICINE AND BAYLOR UNIVERSITY COLLEGE OF DENTISTRY

Sec. 61.091. DEFINITIONS. In this subchapter:

(1) "Bona fide Texas resident" means a person defined as a "resident student" in Subchapter B, Chapter 54 of this code, and rules, regulations, and interpretations promulgated under that subchapter by the board or the Commission on Higher Education.

(2) "Established public medical schools" means The University of Texas Medical Branch and Southwestern Medical School.

(3) "Undergraduate medical student" means a person enrolled for a regular schedule of courses in pursuit of a Doctor of Medicine degree.

(4) "Scholastic year of disbursement" means the period of time commencing on September 1 of each calendar year and terminating on August 31 of the next succeeding calendar year. The first scholastic year of disbursement commences on September 1, 1970, and terminates on August 31, 1971.

(5) "Average annual state tax support per undergraduate medical student enrolled at the established public medical schools" means an amount calculated by dividing the net general revenue appropriations to the established public medical schools for the fiscal year next preceding the scholastic year of disbursement by the total number of undergraduate medical students enrolled in those schools on October 15 of the fiscal year.

Sec. 61.092. CONTRACTS WITH BAYLOR COLLEGE OF MEDICINE. (a) The board may contract with Baylor College of Medicine for the administration, direction, and performance of all services and the provision, maintenance, operation, and repair of all buildings, facilities, structures, equipment, and materials necessary or proper to the education, training, preparation, or instruction of bona fide Texas resident undergraduate medical students.

(b) Funds received by Baylor College of Medicine under Subchapter A or B, Chapter 63, may be used only to support programs that benefit medical research, health education, or treatment programs at the institution.

(c) If Baylor College of Medicine elects to administer the fund established for the institution under Subchapter B, Chapter 63, Baylor College of Medicine and the board must enter into a contract that requires Baylor College of Medicine to administer the fund in the same manner and subject to the same regulations, including disclosure requirements, as would apply to the comptroller if the comptroller were administering a fund under Subchapter B, Chapter 63.

(d) This subchapter may not be construed to empower the board to limit, alter, modify, or in any other manner change or approve, or negotiate for changes in or approval of, the administration, direction, and performance of these services or the provision, maintenance, operation, and repair of buildings, facilities, structures, equipment, or materials.

Sec. 61.093. DISBURSEMENTS. (a) In the exercise of the authority described in Section 61.092 of this code, the board may disburse to Baylor College of Medicine, during each scholastic year of disbursement, an amount equal to the average annual state tax support per undergraduate medical student at the established public medical schools, multiplied by the number of bona fide Texas resident undergraduate medical students enrolled at Baylor College of Medicine. However, the board may never disburse an amount exceeding the amount appropriated by the legislature for this purpose.

(b) Subject to the limitations described in Subsection (a) of
this section, the board may establish, by contract with Baylor College of Medicine, the method by which the disbursement shall be accomplished, and may prescribe reasonable rules and regulations necessary to ascertain the average annual state tax support per undergraduate medical student at the established public medical schools.

(c) Money appropriated for payment of contracts under the authority of Section 61.092 shall be paid to Baylor College of Medicine as follows:

(1) 40 percent of the yearly entitlement shall be paid in two equal installments to be made on or before the 25th day of September and October; and

(2) 60 percent of the yearly entitlement shall be paid in six equal installments to be made on or before the 25th day of November, December, January, February, March, and April.

(d) The amount of any installment required by this section may be modified to provide the Baylor College of Medicine and the Baylor College of Dentistry with the proper amount to which each college may be entitled by law and to correct errors in the allocation or distribution of funds. If an installment under this section is required to be equal to other installments, the amount of other installments may be adjusted to provide for that equality. A payment under this section is not invalid because it is not equal to other installments.

Sec. 61.095. RESTRICTIONS. The rights, powers, and authority granted in this subchapter shall not be subject to restriction, limitation, obligation, or requirement provided in Section 61.058 of this code or Articles 665 through 678m, inclusive, of Vernon's Texas Civil Statutes, notwithstanding any other provision in this subchapter.

Sec. 61.097. CONTRACTS WITH RESPECT TO RESIDENT PHYSICIANS.

(a) The board shall contract with Baylor College of Medicine for the administration, direction, and performance of services necessary or proper to the education, training, development, and preparation of resident physicians for a career in medicine.

(b) In the exercise of the authority under Subsection (a), the board shall disburse to Baylor College of Medicine the money appropriated by the legislature to the board for that purpose. The money disbursed to Baylor College of Medicine under this section shall be spent by the school exclusively for the education, training, development, and preparation of resident physicians for a career in medicine.

that specified in the appropriation by the legislature, or more than the difference between the tuition at the private institution attended and the tuition at public colleges and universities.

(b) The proper amount of the tuition equalization grant shall be paid to the student through the college or university in which the student is enrolled.

(c) In no event shall a tuition equalization grant paid pursuant to this subchapter in behalf of any student during any one fiscal year exceed an amount equal to 50 percent of the average state appropriation in the biennium preceding the biennium in which the grant is made for a full-time student or the equivalent at public senior colleges and universities, as determined by the board.

A student who but for this subsection would be awarded both a tuition equalization grant and a TEXAS grant for the same semester or other term is entitled to receive only the grant of the greater amount.

(e) Notwithstanding any restrictions provided by Subsection (c) on the amount of a grant, a tuition equalization grant for an academic period for an undergraduate student who establishes exceptional financial need in accordance with the procedures and rules of the coordinating board may be certified by the institution at which the undergraduate student is enrolled in an amount not to exceed 150 percent of the amount of the grant that the student would otherwise have been awarded for that period under the other provisions of this section.

SUBCHAPTER G. REGULATION OF PRIVATE POSTSECONDARY EDUCATIONAL INSTITUTIONS

Sec. 61.301. PURPOSE. It is the policy and purpose of the State of Texas to prevent deception of the public resulting from the conferring and use of fraudulent or substandard college and university degrees; it is also the purpose of this subchapter to regulate the use of academic terminology in naming or otherwise designating educational institutions, the advertising, solicitation or representation by educational institutions or their agents, and the maintenance and preservation of essential academic records. Because degrees and equivalent indicators of educational attainment are used by employers in judging the training of prospective employees, by public and private professional groups in determining qualifications for admission to and continuance of practice, and by the general public in assessing the competence of persons engaged in a wide range of activities necessary to the general welfare, regulation by law of the evidences of college and university educational attainment is in the public interest. To the same end the protection of legitimate institutions and of those holding degrees from them is also in the public interest.

Added by Acts 1975, 64th Leg., p. 1867, ch. 587, Sec. 1, eff. June 19, 1975.

Sec. 61.302. DEFINITIONS. In this subchapter:

(1) "Degree" means any title or designation, mark, abbreviation, appellation, or series of letters or words, including associate, bachelor's, master's, doctor's, and their equivalents, which signifies, purports to, or is generally taken to signify satisfactory completion of the requirements of all or part of a program of study leading to an associate, bachelor's, master's, or doctor's degree or its equivalent.

(2) "Private postsecondary educational institution" or "institution" means an educational institution which:

(A) is not an institution of higher education as defined by Section 61.003;

(B) is incorporated under the laws of this state,
maintains a place of business in this state, has a representative present in this state, or solicits business in this state; and

(C) furnishes or offers to furnish courses of instruction in person, by electronic media, or by correspondence leading to a degree or providing credits alleged to be applicable to a degree.

(3) "Agent" means a person employed by or representing a private postsecondary educational institution who solicits students for enrollment in the institution.

(4) "Commissioner" means the Commissioner of Higher Education.

(5) "Board" means the Texas Higher Education Coordinating Board.

(6) "Person" means any individual, firm, partnership, association, corporation, or other private entity or combination thereof.

(8) "Recognized accrediting agency" means an association or organization so designated by rule of the board for the purposes of this subchapter.

(9) "Educational or training establishment" means an enterprise offering a course of instruction, education, or training that the establishment does not represent to be applicable to a degree.

(10) "Representative" includes a recruiter, agent, tutor, counselor, instructor, and other instructional and support personnel.

(11) "Fraudulent or substandard degree" means:

(A) a degree conferred by a private postsecondary educational institution or other person that, at the time the degree was conferred, was operating in this state in violation of this subchapter;

(B) if the degree is not approved through the review process described by Section 61.3021, a degree conferred by a private educational institution or other person that, at the time the degree was conferred, was not eligible to receive a certificate of authority under this subchapter and was operating in another state:

(i) in violation of a law regulating the conferral of degrees in that state or in the state in which the degree
recipient was residing; or

(ii) without accreditation by a recognized accrediting agency; or

(C) if conferred by a private educational institution or other person not described by Paragraph (A) or (B), including a private educational institution or other person that, at the time the degree was conferred, was not eligible to receive a certificate of authority under this subchapter and was operating outside the United States, a degree that the board, through the review process described by Section 61.3021, determines is not the equivalent of an accredited or authorized degree as described by that section.

Sec. 61.3021. REVIEW OF DEGREE NOT OTHERWISE REGULATED BY SUBCHAPTER. (a) The board by rule shall establish a process for reviewing and approving a degree conferred by a person described by Section 61.302(11)(B) or (C). (b) The board may charge an applicant for a review under this section a fee in an amount the board determines will cover the cost of conducting the review.

Sec. 61.303. EXEMPTIONS. (a) The provisions of this subchapter do not in any way apply to an institution which is fully
accredited by a recognized accrediting agency, or an institution or degree program that has received approval by a state agency authorizing the institution's graduates to take a professional or vocational state licensing examination administered by that agency. The granting of permission by a state agency to a graduate of an institution to take a licensing examination does not by itself constitute approval of the institution or degree program required for an exemption under this subsection.

(b) The exemptions provided by Subsection (a) apply only to the degree level for which an institution is accredited, and if an institution offers to award a degree at a level for which it is not accredited, the exemption does not apply.

(c) An exempt institution or person may be issued a certificate of authorization to grant degrees.

(d) An exempt institution or person would continue in that status only so long as it maintained accreditation by a recognized accrediting agency or otherwise met the provisions of Subsection (a).

(e) The board shall provide for due process and procedures for revoking the exemption status of an institution or person.

(f) A private postsecondary educational institution may not establish or operate a branch campus, extension center, or other off-campus unit in Texas except as provided by this subsection or the rules of the board. This subsection does not apply to a private or independent institution of higher education as defined by Section 61.003.

(c) The board is empowered to specify and regulate the manner, condition, and language used by an institution or person or agents thereof in making known that the person or institution holds a certificate of authority and the interpretation of the significance of such certificate.

(d) A person commits an offense if the person:

(1) grants or awards a degree or offers to grant or award a degree in violation of this section;

Sec. 61.305. APPLICATION FOR CERTIFICATE OF AUTHORITY. (a) A private postsecondary educational institution that has been in operation for not less than two years may apply to the board for a certificate of authority to grant a degree in a specified program of study on application forms provided by the board.
(b) The application form shall contain the name and address of the institution; purpose of the institution; names of the sponsors or owners of the institution; regulations, rules, constitutions, bylaws, or other regulations established for the government and operation of the institution; the names and addresses of the chief administrative officer, the principal administrators, and each member of the board of trustees or other governing board; the names of members of the faculty who will, in fact, teach in the program of study, with the highest degree held by each; a full description of the degree or degrees to be awarded and the course or courses of study prerequisite thereto; a description of the facilities and equipment utilized by the institution; and any additional information which the board may request.

(c) The application must be accompanied by an initial fee set by the board in an amount not to exceed the average cost of reviewing the application, including the cost of necessary consultants.

Sec. 61.306. ISSUANCE OF CERTIFICATE. (a) The board may issue a certificate of authority to grant a degree or degrees and to enroll students for courses which may be applicable toward a degree if it finds that the applicant meets the standards established by the board for certification.

(b) A certificate of authority to grant a degree or degrees is valid for a period of two years from the date of issuance.

(c) The board may not issue a certificate of authority for a private postsecondary institution to grant a professional degree or to represent that credits earned in this state are applicable toward a degree if the institution is chartered in a foreign country or has its principal office or primary educational program in a foreign country. In this subsection, "professional degree" includes a Doctor of Medicine (M.D.), Doctor of Osteopathy (D.O.), Doctor of Dental Surgery (D.D.S.), Doctor of Veterinary Medicine (D.V.M.), Juris Doctor (J.D.), and Bachelor of Laws (LL.B.).

Added by Acts 1975, 64th Leg., p. 1867, ch. 587, Sec. 1, eff. June
Sec. 61.307. AMENDMENTS TO APPLICATIONS. (a) The chief administrative officers of each institution which has been issued a certificate of authority shall immediately notify the board of any change in administrative personnel, faculty, or facilities at the institution or any other changes of a nature specified by the board. 

(b) An institution which wishes to amend an existing program of study to award a new or different degree during the period of time covered by a current certificate may file an application for amendment of the certificate with the board. The application shall be accompanied by a fee set by the board to cover the cost of program evaluation. If the board finds that the new program of study meets the required standards, the board may amend the institution's certificate accordingly.

Sec. 61.308. RENEWAL OF CERTIFICATE. (a) A private postsecondary educational institution which desires to renew its certificate of authority shall apply to the board at least 180 days prior to the expiration of the current certificate.

(b) The application for renewal shall be made on forms provided by the board and shall be accompanied by a renewal fee set by the board in an amount not to exceed the average cost of reviewing the application, including the cost of necessary consultants.

(c) The board shall renew the certificate if it finds that the institution has maintained all requisite standards and has complied with all rules and regulations promulgated by the board.

(d) A private postsecondary educational institution may be granted successive certificates of authority for a period not to exceed the number of years provided by rule of the board. The board
rules must recognize that certification by the state is intended to safeguard the public interest until an institution has developed the strength to satisfy appropriate accreditation standards and it is intended that an institution advance from certification status to fully accredited status in due course.

(e) If, after a good-faith effort, an institution cannot achieve accreditation within the period of time prescribed by the board, the institution may appeal for extension of eligibility for certification because of having been denied accreditation due to policies of the institution based on religious beliefs or other good and sufficient cause as defined by rule of the board. The board shall consider the application of any accreditation standard that prohibited accreditation of the institution on the basis of religious policies practiced by the institution as a prima facie justification for extending the eligibility for certification if all other standards of the board are satisfied.

Sec. 61.309. REVOCATION OF CERTIFICATE OF AUTHORITY. The board may revoke a certificate of authority to grant degrees at any time if it finds that:

(1) any statement contained in an application for a certificate is untrue;

(2) the institution has failed to maintain the faculty, facilities, equipment, and programs of study on the basis of which the certificate was issued;

(3) advertising utilized on behalf of the institution is deceptive or misleading; or

(4) the institution has violated any rule or regulation promulgated by the board under the authority of this subchapter.

The coordinating board shall include in the study a survey of educational and general building quality, if the legislature provides funds for the survey.

(c) The legislature shall approve, modify and approve, or reject the recommendations of the coordinating board under Subsection (a) or (b).

Sec. 63.102. ADMINISTRATION AND USE OF FUNDS. (a) The governing board of an institution or component for which a fund is established under this subchapter may administer the fund of that institution. If a governing board elects not to administer the fund, the comptroller shall administer the fund. The administrator of a fund established under this subchapter shall invest the fund in a manner intended to preserve the purchasing power of the fund's assets and the fund's annual distributions. Annual distributions for any fund shall be determined by the investment and distribution policy adopted by the administrator of the fund for the fund's assets. Expenses of managing the assets of a fund shall be paid from the fund. If a governing board administers a fund, the governing board may manage and invest the fund in the same manner as the board manages and invests other permanent endowments, and the board shall make distributions from the fund in a manner consistent with the board's procedures for making distributions to other endowment beneficiaries. If the comptroller administers a fund, the comptroller may acquire, exchange, sell, supervise, manage, or retain, through procedures and subject to restrictions the comptroller considers appropriate, any kind of investment of the fund's assets that prudent investors, exercising reasonable care, skill, and caution, would acquire or retain in light of the purposes,
terms, distribution requirements, and other circumstances of the fund then prevailing, taking into consideration the investment of all the assets of the fund rather than a single investment.

(b) Except as provided by Subsections (c), (d), and (f), money in a fund established under this subchapter may not be used for any purpose.

(c) The amount available for distribution from each fund may be appropriated only for research and other programs that are conducted by the institution or components for which the fund is established and that benefit the public health. The comptroller or the governing board shall report to the legislature the amount of funds that are eligible for appropriation. An amount appropriated from the fund established for The University of Texas Health Science Center at San Antonio may be used to establish, maintain, and operate a children's cancer center and the campus extension in the city of Laredo. An amount appropriated from the funds established for the components of the Texas Tech University Health Sciences Center located in El Paso and for The University of Texas at El Paso may be used for the establishment and operation of an institute of public health in El Paso. An amount appropriated from the fund established for the components of the Texas Tech University Health Sciences Center at locations other than El Paso may be used for research and other programs that benefit the public health in areas outside El Paso. An amount appropriated from the fund established for The Texas A&M University Health Science Center may be used for the establishment and operation of the Coastal Bend Health Education Center in Corpus Christi.

(d) The comptroller or the governing board of an institution or component may solicit and accept gifts and grants to the institution's or component's fund. A gift or grant to the fund may be expended and used in the same manner as an amount distributed from the fund under Subsection (c), subject to any limitation or requirement placed on the gift or grant by the donor or granting entity.

(e) Sections 403.095 and 404.071, Government Code, do not apply to a fund established under this subchapter. Section 404.094(d), Government Code, applies to the fund.

(f) An institution of higher education that has accepted a gift under Subchapter I, Chapter 51, that was conditioned on the receipt by the institution of state matching funds from the eminent scholars
fund may use money the institution receives under this subchapter to provide the state matching funds, treating that amount as if it were a distribution to the institution from the eminent scholars fund for purposes of Subchapter I, Chapter 51.

(2) award grants on a competitive basis;
(3) consider the availability of matching funds; and

On approval and delivery, the credit agreement is incontestable for any cause.
(c) The board may authorize bonds or notes to bear interest at a rate or rates (either fixed, variable, floating, adjustable, or otherwise, all as determined in accordance with the resolution authorizing the issuance of the bonds or notes, which may provide a formula, index, or contractual arrangement for the periodic determination of interest rates without the requirement of specific approval, by the board, of each determination) not to exceed the maximum net effective interest rate allowed by law. The resolution under which the bonds or notes are issued may delegate to one or more designated officers, employees, or agents of the board the authority to act on behalf of the board, while the bonds or notes remain outstanding, in fixing dates, prices, interest rates, interest payment periods, and other procedures specified in the resolution so that, among other things, the interest on the bonds or notes may be adjusted from time to time by the officer, employee, or agent to permit the bonds or notes to be sold or resold at par in conjunction with secondary market transactions.

(d) The board may enter into financing programs under which the board may issue notes for any lawful purpose for which bonds or notes may be issued and may make provision for the notes initially issued under the programs to be refinanced, renewed, or refunded throughout the period of the programs by the issuance, sale, and delivery of additional notes. The notes may be secured in any manner provided by law for securing notes or bonds, and also may be secured by the proceeds of the sale of notes, the proceeds of the sale of bonds, or credit agreements, all as the board provides in the resolution authorizing the financing program and the issuance of notes under the program. The board may:

(1) provide in the resolution authorizing the financing program for the maximum principal amount of notes to be outstanding at any time under the financing program;

(2) provide for the authorization of one or more officers or employees of the board to act on behalf of the board in selling and delivering notes and fixing their dates, prices, interest rates, terms of payment, and other procedures relating to the notes as specified in the resolution;

(3) contract for the future sale of notes under which designated purchasers are committed to purchase notes from time to time on the terms and conditions stated in the contract, including a credit agreement executed in connection with the notes;
(4) provide for the payment of consideration that the board considers proper for the purchase commitments, and provide for the payment of the consideration out of proceeds from the sale of notes or from any other source that is available for the purpose of paying the notes or that may otherwise be legally available to make the payments; and

(5) exercise any other rights and powers that are granted to issuers of obligations under Chapter 1371, Government Code, which also governs the approval by the attorney general of the notes, related credit agreements, and other contracts or instruments and the registration of the notes by the comptroller.

(e) This section shall be construed liberally to effect the legislative intent and purposes of this section, and all powers granted by this section shall be broadly interpreted to effect that intent and those purposes and not as a limitation of powers.

Sec. 65.461. BOND ENHANCEMENT AGREEMENTS. (a) In this section:

(1) "Bond" or "note" means a bond or note that the board is authorized to issue according to law, including Section 18, Article VII, Texas Constitution, Chapter 55 or 66 of this code, or other applicable law.

(2) "Bond enhancement agreement" means an interest rate swap agreement, a currency swap agreement, a forward payment conversion agreement, an agreement providing for payments based on levels of or changes in interest rates or currency exchange rates, an agreement to exchange cash flows or a series of payments, or other agreement, including an option, put, or call, to hedge or modify payment, currency, rate, spread, or other exposure.

(b) The board may at any time and from time to time enter into one or more bond enhancement agreements that the board determines to be necessary or appropriate to place the obligation of the board, as represented by the bonds or notes issued or to be issued, in whole or in part, on the interest rate, currency, cash flow, or other basis desired by the board. A bond enhancement agreement is an agreement
for professional services and shall contain the terms and conditions and be for the period that the board authorizes. The fees and expenses of the board in connection with a bond enhancement agreement, including any payments due from the board under a bond enhancement agreement, may be paid from and secured by a lien on and pledge of all or any part of any of the revenue funds of the board and its institutions, proceeds of the sale of bonds or notes to which the bond enhancement agreement relates, or from any other source that is legally available for the purpose of paying the bonds or notes and the interest on the bonds or notes or that may otherwise be legally available to make those payments. Payments due from the board under a bond enhancement agreement relating to bonds or notes issued pursuant to Section 18, Article VII, Texas Constitution, are deemed to be for the support and maintenance of The University of Texas System administration and may be paid from the available university fund.

(c) The resolution of the board authorizing a bond enhancement agreement may authorize one or more designated officers or employees of the board to act on behalf of the board in entering into and delivering the bond enhancement agreement and in determining or setting the counterparty and terms of the bond enhancement agreement specified in the resolution.

(d) The resolution of the board authorizing a financing program pursuant to Section 65.46 may include authorization of one or more bond enhancement agreements.

(e) Unless the board or its designee elects otherwise in its authorization or approval of a bond enhancement agreement, the bond enhancement agreement is not a credit agreement for purposes of Chapter 1371, Government Code, or Section 65.46 of this chapter, or any successor to such laws, regardless of whether the bonds or notes relating to the bond enhancement agreement were issued in part under either such law.

(f) This section shall be construed liberally to effect the legislative intent and purposes of this section, and all powers granted by this section shall be broadly interpreted to effect that intent and those purposes and not as a limitation of powers.

With the approval of the comptroller, the board of regents of The University of Texas System may appoint one or more commercial banks, depository trust companies, or other entities to serve as a custodian or custodians of the permanent university fund's securities with authority to hold the money realized from those securities pending completion of an investment transaction if the money held is reinvested within one business day of receipt in investments determined by the board of regents. Money not reinvested within one business day of receipt shall be deposited in the state treasury not later than the fifth day after the date of receipt.

Any such bonds or notes may be so refunded by the issuance of refunding bonds or notes, either to be exchanged for the bonds or notes being refunded and cancelled, or to be sold, with the proceeds to be used for the redemption and cancellation of the bonds or notes being refunded.

Sec. 66.23. REFUNDING BONDS AND NOTES: APPROVAL; REGISTRATION. All refunding bonds or notes authorized to be issued under this subchapter and the records relating to their issuance, including any proceedings relating to the redemption of any outstanding bonds or notes, shall be submitted to the attorney general for examination, and if he finds that they have been issued in accordance with law, he shall approve them, and then they shall be registered by the comptroller of public accounts, and after such approval and registration they shall be incontestable. The board may sell, lease, and otherwise manage, control, and use the lands in any manner and at prices and under terms and conditions the board deems best for the interest of the permanent university fund, not in conflict with the constitution. However, the land shall not be sold at a price less per acre than that at which the same class of other public land may be sold under the statutes. No grazing lease shall be made for a period of more than 10 years.

(a) The board of regents shall cause to be done such surveying or resurveying of the blocks and subdivisions of the university lands as may be necessary to enable the lines of the blocks and sections and fractional sections to be determined and identified and have such corners as may be necessary to that end permanently marked. When it
is impracticable to establish such lines and corners as originally
surveyed, or when such sections have not been actually surveyed on
the ground, the blocks shall be surveyed or resurveyed and divided
into surveys of sections and fractional sections, and as many corners
thereof as may be necessary for the identification shall be
permanently marked. The surveyors to do such surveying shall be
employed by the board. The field notes of such surveys shall be
returned to the general land office, and when correct and in
accordance with law shall be approved by the commissioner of the
general land office, filed in the general land office, and become
archives therein.

board of regents has the sole and exclusive management and control of
all minerals, other than oil and gas, in lands set aside and
appropriated to, or acquired by the permanent university fund. The
board may sell, lease, and otherwise manage and control the minerals,
other than oil and gas, in those lands as may seem best to it for the
interests of the permanent university fund. The board may also
explore and have explored and developed the minerals and may make any
contract or contracts with any person, association of persons, firm,

lease issued under this subchapter for agricultural or grazing
purposes, the lessee shall be required to implement a soil and water
conservation plan reviewed and approved by the board of regents of
The University of Texas System under procedures adopted by the board.
The board, in reviewing a plan, and the lessee, in implementing a
plan, may be assisted by the United States Department of Agriculture Soil Conservation Service.

Added by Acts 1985, 69th Leg., ch. 613, Sec. 7, eff. Sept. 1, 1985.

Sec. 66.46. EASEMENTS ON UNIVERSITY LAND. (a) The board of regents of The University of Texas System may execute grants of easements or other interests in property for rights-of-way or access across land that belongs to the state but is dedicated to the support and maintenance of The University of Texas System for telephone, telegraph, electric transmission, and powerlines, for oil pipelines, gas pipelines, sulphur pipelines, and other electric lines and pipelines of any nature, and for irrigation canals, laterals, and water pipelines.

(d) An easement under this section may not be granted for a term that is longer than 10 years, but the easement may be renewed by the board of regents. The rent to be charged for an easement under this section shall be an amount agreed to by the grantee and the board.

(e) Income received from university land under this section shall be credited to the available university fund.

(f) Payments under this subchapter that are past due shall bear interest at a rate equal to the rate imposed by the comptroller under Section 111.060, Tax Code, for delinquent payments due the state, except that if the board of regents enters into an agreement with the grantee of the easement specifying a lower rate, the payments bear interest at that lower rate.

(g) Each easement granted under this section shall be recorded in the county clerk's office of the county in which the land is
located, and the recording fee shall be paid by the person who obtains the easement. The person who obtains the easement shall furnish to the board of regents a certified copy of the easement.

(i) A person who constructs, maintains, owns, or possesses a facility or structure on university land without a proper easement or lease is liable for a penalty of not less than $50 or more than $1,000 a day for each day that a violation occurs. The penalty shall be recovered on behalf of the board of regents in a civil action by the attorney general.

(j) A person who owns, maintains, or possesses an unauthorized facility or structure is, for purposes of this section, the person who last owned, maintained, or possessed the facility or structure.

(l) This section does not affect the authority of the board of regents under Section 66.41.

(m) The board of regents shall establish procedures by which a person seeking an easement or other interest under this section may seek relief from a rate or damage schedule that the person believes does not represent the fair market value of the interest being sought.

The board shall develop and implement policies which provide the public with a reasonable opportunity to appear before the board, to speak on an issue under the board's jurisdiction, or be heard with respect to a declaration of forfeiture. The board shall give written notice to each lessee whose leasehold interest may be forfeited. Such notice shall be given at least 21 days before the meeting at which the board will consider
forfeiture of the lease. The notice shall state the time, date, and place of the meeting of the board and include a statement of the board's policy concerning the public's opportunity to be heard with respect to a declaration of forfeiture. Notice shall be properly given when mailed to the last known address of the lessee based on the records of the board of regents or, if the records do not contain an address, to any address that may reasonably be determined to be an address for the lessee.

(b) The members of the board, personnel and counsel employed or assigned to assist the board, the board of regents, staff of The University of Texas System, the commissioner and staff of the General Land Office, the board of regents and staff of The Texas A&M University System, the office of the comptroller, the office of the attorney general, and any other agency or official of the state with a reasonable business interest in state or university lands, minerals, or resources may consult with each other and exchange information related to the administration of leases, collection and disposition of royalties, whether in cash or in kind, and any other matter related to the lease, sale, or production of, or the exploration for, oil, gas, or any other mineral or resource, including geothermal, wind, and solar energy on state or university lands. The information so exchanged and consultations and related
communications shall be or shall remain confidential and shall be
privileged from discovery in the same manner and to the same extent
as if the persons consulted, which includes counsel, were members of
the same agency. Sections 52.134 and 52.140, Natural Resources Code,
shall not prohibit the consultations or exchange of information

Sec. 66.66. LEASE SALES. (a) Oil and gas leases shall be
offered at public auction or by sealed bid, or through a combination
of public auction and sealed bid, as the board elects. Contracts for
development may be awarded in the same manner.

(b) The board shall publish notice that the board will receive
bids for oil and gas leases or contracts for development of oil and
gas in two or more daily newspapers in this state and in other
publications as the board may choose.

(c) The notice shall be published at least 30 days before the
date the bids will be opened.

(d) The notice shall state that land is to be offered for lease
or a contract for development and that a person may obtain a
publication from The University of Texas System offices that
describes the land offered and the minimum terms.

(e) The board of regents may solicit and include advertising in
the publication describing a lease sale. Fees paid for advertising
shall be deposited into the special fee account established by
Subsection (g) and are available for the same purposes as described
in that subsection.

(f) The board may withdraw any lands advertised for lease
before the hour set for receiving bids.

(g) Each bid is subject to the payment of a special fee equal
to one and one-half percent of the total bonus whether stipulated or
bid, which special payment shall constitute a special fund from which
the board of regents shall defray the expenses of the sale, including
the payment of the general operating expenses for geology,
engineering, field inspection, and auditing oil and gas production of university lands and including salaries and traveling expenses of persons employed by the board of regents for those purposes.

(h) The board of regents may direct the comptroller of The University of Texas System to transmit to the state comptroller for deposit to the credit of the permanent university fund unexpended balances remaining in the special fee account after reserving a sufficient amount in it for the payment of current expenses as set out in Subsection (g).

Sec. 66.67. LEASE TERMS. (a) The oil and gas lease for each tract shall be offered for a bonus to be determined by high bid in addition to the stipulated royalty or for a stipulated bonus and a royalty to be determined by high bid. Each tract shall be offered separately and the minimum bonus or royalty, depending on the basis for the bid, and the length of the primary term for each tract shall be set out in the official publication describing the tracts and terms.

(b) Except as otherwise provided by law, the minimum royalty rate shall be one-eighth of the oil or gas produced or the value thereof.

(c) The primary term of a lease shall not exceed 10 years.

(d) Each lease shall be subject to the provisions of this subchapter and rules promulgated by the board.

(e) The successful bidder shall pay to the board of regents on the day the bid is accepted the full amount of bonus, whether stipulated or bid, and the special fee in the form of payment specified by the board.

Sec. 66.68. MARGINAL PROPERTY ROYALTY RATES. (a) In this section:

(1) "Barrel of oil equivalent" means 6,000 cubic feet of natural gas per 42-gallon barrel of crude oil or a volume of gas with a minimum heating value of 6,000,000 British thermal units (6,000 Mbtu), whichever is greater.
(2) "Lease" or "leases" means an oil and gas lease issued or approved by the board that is valid and in force on or after the effective date of this section.

(3) "Qualifying property" means land subject to a lease issued under this subchapter.

(4) "Qualifying reservoir" means a reservoir having an average daily per well production equal to or less than 15 barrels of oil equivalent during a period established by the board by rule and underlying either:

(A) a qualifying property; or
(B) a pooled unit including a qualifying property.

(5) "Reservoir" has the same meaning as "common reservoir" as defined by Section 86.002, Natural Resources Code.

(b) The board may provide by rule that the royalty rate for qualifying reservoirs may be reduced to not less than one-sixteenth (6.25 percent). In determining whether to grant a reduction in the royalty rate, the board may consider whether the qualifying property is being operated efficiently, including whether the property is pooled or has reasonable potential for the application of secondary or tertiary recovery techniques.

(c) If a qualifying reservoir for which royalty rate reduction is sought under this section is included in a unit subject to the authority of the board, the board may modify the terms and conditions of the unit as a condition of approving a reduction in the royalty rate.

Sec. 66.69. AWARD OF LEASE. (a) Except as otherwise provided in this subchapter, the board shall award a lease for each tract to the person offering the highest bid that includes the terms adopted by the board and consistent with this subchapter.

(b) The board may reject all bids for one or more tracts.

(c) The commissioner shall execute a lease awarded by the board in conformance with this subchapter.

Sec. 66.70. ADDITIONAL LEASE PROVISIONS. An oil and gas lease
issued under this subchapter shall include the provisions required by this subchapter and additional provisions not inconsistent herewith that the board may adopt to preserve the interests of the state. On submission of an application by all lessees under the lease in the form required by the board and payment of any applicable fee set by the board, the board may amend a lease that does not include provisions required by Sections 66.71, 66.72, and 66.73 to include those provisions in the form adopted by the board at the time the lease is amended.

Sec. 66.71. LEASE PROVISIONS. (a) An oil and gas lease issued by the board shall provide for payment of a delay rental. During the primary term of the lease, the lease shall terminate on the anniversary date of the lease unless:

(1) oil or gas is being produced in paying quantities from the leased premises;

(2) drilling operations are being conducted on the leased premises; or

(3) the lessee pays timely in the manner provided in the lease the amount of delay rental stated in the lease.

(b) If oil or gas is discovered in paying quantities on any tract covered by a lease, the lease as to that tract shall remain in force as long as oil and gas is produced in paying quantities from the tract, provided that the other provisions of this subchapter are complied with by the lessee.

(c) An oil and gas lease issued by the board shall provide that royalty may be taken in kind at any time and from time to time at the discretion of the board in the manner provided in this subchapter.

Sec. 66.72. CESSATION OF PRODUCTION; DRILLING AND REWORKING. Each lease shall provide that in the event production of oil or gas on the leased premises, once obtained, shall cease for any cause within 60 days before the expiration of the primary term of the lease or at any time or times thereafter, the lease shall not terminate if the lessee commences additional drilling or reworking operations
within 60 days thereafter, and the lease shall remain in full force and effect so long as such operations continue in good faith and in workmanlike manner, without interruptions, totalling more than 60 days during any one such operation; and if such drilling or reworking operations result in the production of oil and/or gas, the lease shall remain in full force and effect so long as oil or gas is produced therefrom in paying quantities or payment of shut-in gas well royalty or compensatory royalties is made as provided in this subchapter.

Sec. 66.73. SHUT-IN ROYALTY. An oil and gas lease issued under this subchapter shall provide for the extension of the lease by the payment of shut-in royalties on terms as the board may adopt.

Sec. 66.74. LEASE EXTENSION OR SUSPENSION. (a) At the expiration of the primary term of a lease, if production of oil or gas has not been obtained on the leased premises, but drilling operations are being conducted in good faith and in a good and workmanlike manner, the lessee may apply in writing to extend the lease for a period of 30 days. The application shall be filed with the board of regents on or before the expiration of the primary term.

(b) The applicant shall submit with the application a fee in an amount set by the board of not less than $7.50 for each acre in the lease requested to be extended.

(c) If the commissioner determines that the conditions of this section have been met, the commissioner, or a designee appointed by the commissioner, shall execute a written extension as provided by this section.

(d) As long as drilling operations are being conducted in good faith and in a good and workmanlike manner, additional extensions of 30 days each may be granted up to an aggregate of 360 days. The lessee must submit a written application and payment on or before the last day of the extended primary term. The payment for each additional 30-day extension shall be in an amount set by the board of not less than $7.50 for each acre in the lease.
(e) The board may elect to suspend a lease and all of the conditions and covenants contained in the lease if there is a legitimate dispute regarding the validity of the lease. The board may rescind the suspension at any time, in which event the lease shall resume as of the date the suspension is rescinded and shall continue for the remainder of the period specified in the lease as the primary term, or, if the primary term ended prior to the suspension, the lessee shall have 60 days to commence production or drilling and reworking operations.

Sec. 66.75. PROTECTION FROM DRAINAGE; COMPENSATORY ROYALTIES.
(a) The lessee shall protect the leased premises from drainage. The lease may contain express terms regarding drainage as the board may adopt.

(b) Subject to the provisions of this section, the commissioner may execute agreements that provide for the payment of compensatory royalty in lieu of drilling offset wells that may be required to protect the leased premises from drainage from a well or wells located on non-university lands, or university lands leased at a lesser royalty, situated within 1,000 feet of or draining the leased premises.

(c) Agreements providing for the payment of compensatory royalty must be approved by the board.

(d) Agreements providing for the payment of compensatory royalty must be found by the commissioner and the board to be in the best interest of the state.

(e) Nothing in an agreement for the payment of compensatory royalty shall relieve the lessee of the obligation of reasonable development or of the obligation to drill offset wells, obtain suitable regulatory relief, propose appropriate pooling or unitization arrangements, or conduct other activities to protect the leased premises from drainage as to other producing horizons.

(f) An agreement for the payment of compensatory royalty shall provide that compensatory royalty be paid at the royalty rate provided in the lease and shall provide that compensatory royalty be paid on the market value of production from the well located on non-university lands or university lands leased at a lesser royalty.
situated within 1,000 feet of or draining the leased premises.

Sec. 66.76. ASSIGNMENT; RELINQUISHMENT. (a) Rights acquired in a lease or contract for development issued under this subchapter may be assigned; provided, however, for an assignment to be valid and effective, the assignment must be filed in the county or counties in which the leased premises are situated and a legible copy of the recorded assignment must be filed with the board of regents within the time set by the board, accompanied by a filing fee and any applicable penalty for late filing set by the board for each lease assigned and a summary in the form adopted by the board of regents.

(b) Rights to a lease or to an assigned portion thereof may be relinquished at any time by having an instrument of relinquishment or release recorded in the county or counties in which the area relinquished is situated and a legible copy of the recorded instrument filed with the board of regents, accompanied by a filing fee set by the board.

(c) An assignment or relinquishment of a lease or a portion thereof or an interest in a lease shall not relieve the lessee of accrued obligations, including the payment of royalty, penalty, or interest, and the lessee shall remain liable therefor.

(d) In the enforcement of lease obligations, the board and the board of regents shall be entitled to rely on the state of title reflected by the records of the board of regents.

Sec. 66.77. ROYALTY PAYMENTS AND REPORTS. (a) Royalty as stipulated in the lease and all other amounts due under this subchapter shall be paid to the board of regents at Austin, Travis County, Texas. The lessee of record in the records of the board of regents shall be responsible for making or causing to be made all payments required by this subchapter at the required times and in the form and manner determined by the board of regents or otherwise required by law.

(b) The board shall set by rule the date for making royalty payments and for filing any reports, documents, or other records.
required to be filed by this section. The date set by the board must be on or after the fifth day of the second month succeeding the month of production of oil and on or after the 15th day of the second month succeeding the month of production of gas.

(c) A royalty payment is timely made if the payment is deposited in a postpaid, properly addressed wrapper, with a post office or official depository under the care and custody of, and postmarked by, the United States Postal Service before the applicable due date.

(d) The lessee shall provide to the board of regents with each royalty payment:

(1) an affidavit of the owner, manager, or other authorized agent completed in the form and manner required by the board of regents and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas, the number assigned by the Railroad Commission of Texas, and university lease numbers;

(2) a purchase statement or other document showing the price at which the oil and gas was sold;

(3) a check stub, schedule, summary, or other remittance advice showing by the assigned lease number the amount of royalty being paid on each lease; and

(4) other reports or records that the board of regents may require to identify the well and lease and verify the gross production, disposition, and market value.

(e) The board of regents may implement such practices and procedures with regard to accounting for royalty payments as it may determine to be in the best interest of the state.

Sec. 66.78. INTEREST AND PENALTIES. (a) If royalty is not paid when due, a penalty of one percent shall be added to the unpaid amount due. If the royalty is not paid within seven days after the due date, a penalty of an additional four percent of the royalty due is imposed. If the royalty is not paid within 30 days after the due date, a penalty of an additional five percent is imposed. The minimum penalty under this subsection is $25 or the minimum penalty in excess thereof set by the board. The board shall not add a
penalty under this subsection in cases of title dispute as to the state's portion of the royalty or to that portion of the royalty in dispute as to fair market value.

(b) Interest shall accrue on delinquent royalties beginning on the 61st day after the due date. The annual interest rate on delinquent royalties is 12 percent. Interest accrued under this subsection shall be in addition to any delinquency penalty due under this section.

(c) The board of regents shall add a penalty of 25 percent to delinquent sums due under this subchapter if the board determines that the delinquency is due to fraud or an intent to evade the provisions of this subchapter on the part of the lessee or the lessee's agents, employees, or assignees.

(d) If a report, affidavit, supporting document, or other instrument required to be filed under Section 66.77 or Section 66.80 is not filed when due, a penalty accrues in the amount set by the board but not less than $10 per document for each 30-day period of delinquency or fractional part thereof.

(e) Collection of penalty and interest charges under this section are in addition to any rights, including forfeiture, that the board or the board of regents may exercise for failure to pay a royalty or to submit a report or other instrument when due.

(f) The board may provide by rule procedures and standards for reduction of interest charged or penalties assessed under this subchapter or other interest or penalties assessed relating to unpaid or delinquent royalties or other amounts due.

Sec. 66.79. PAYMENT OF ROYALTY IN KIND. (a) An oil or gas royalty due under a lease on university lands shall be paid in kind at the discretion of the board.

(b) The option to take royalty in kind or to take cash royalties may be exercised by the board at any time or from time to time on not less than 60 days' notice to the lessee.

(c) The board shall enter into contracts or other instruments or agreements to dispose of the portion of the royalty taken in kind, which may include contracts for sale, transportation, or storage of the oil or gas. The commissioner shall execute contracts approved by
the board under this section that are consistent with applicable law.

(d) The board of regents may enter into insurance contracts or other agreements to secure or guarantee payment of contracts or other instruments or agreements to dispose of the portion of the royalty taken in kind, including contracts for sale, transportation, and storage.

(e) If the board has elected to take royalty in kind, the board may elect that delivery of the correct amount of oil or gas shall be at the wellhead, at the oil and gas separator, into a pipeline connected at the well, or at such other location as may be specified in a royalty in kind provision in the lease or other agreement. Such delivery by the lessee shall satisfy the lessee's obligation for payment of the royalty due under the lease. This section shall not be construed to surrender or in any way affect the right of the board of regents under existing or future leases to receive royalty on the basis of market value of production not taken in kind.

Sec. 66.80. RECORDS. (a) The lessee shall provide to the board of regents a copy of every contract for the sale or processing of oil or gas and any subsequent agreement and amendment thereto, together with a summary in the form adopted by the board of regents, within 30 days after the contract, agreement, or amendment is made.

(b) The books and accounts, receipts, and discharges of all wells, tanks, pools, meters, and pipelines, and all contracts and other records pertaining to the production, transportation, sale, and marketing of the oil and gas, shall at all times be subject to inspection, examination, and copying by the commissioner of the General Land Office, the attorney general, the governor, the board of regents, or the board, or the representative of any of them.

Sec. 66.81. AUDIT INFORMATION CONFIDENTIAL. (a) All documents and information secured, derived, or obtained during the course of an inspection or examination of books, accounts, reports, or other records of the lessee or a third party, as provided by this subchapter, and contracts, agreements, or amendments provided to the
board of regents under Section 66.80(a) are confidential and may not be used publicly, opened for public inspection, or disclosed, except for information set forth in a lien filed under this chapter and except as permitted under Subsections (c) and (d). This section shall not apply to records or information provided by the lessee under Section 66.77.

(b) Documents and information made confidential in this section shall not be subject to subpoena directed to the board, the board of regents, the commissioner, the attorney general, or the governor except in a judicial or administrative proceeding in which the state and a person with an equitable or legal interest in the lease or land to which the information relates are parties.

(c) The board, the board of regents, or the attorney general may use documents and information made confidential by the provisions of this section and contracts made confidential by this subchapter to enforce the provisions of this subchapter or may authorize their use in judicial or administrative proceedings in which this state is a party or may authorize their examination by employees, agents, or contractors of the board of regents or the state auditor for audit purposes.

(d) This section does not prohibit:

(1) the delivery of documents and information made confidential by this section to the lessee or its successor, receiver, executor, guarantor, administrator, assignee, or representative;

(2) the publication of statistics classified to prevent the identification of a particular audit or items in a particular audit;

(3) the release of documents or information otherwise available to the public;

(4) the release of documents or information concerning the amount of royalty assessed as a result of an examination conducted under this subchapter or the release of other information which would have been properly included in reports required under Section 66.77;

(5) sharing of documents or information among state agencies pursuant to Section 66.65. Shared documents or information will remain confidential under this section; or

(6) the release of documents or information authorized by the lessee.

Sec. 66.82. FORFEITURE; OTHER REMEDIES. (a) If a lessee fails or refuses to perform a material requirement of this subchapter or the lease, the board may, after notice to the lessee and an opportunity to be heard, declare a forfeiture of the lease or an interest in the lease. Material requirements include but are not limited to:

(1) failure or refusal to pay a sum due, including penalty and interest, within 30 days after the sum becomes due;
(2) failure or refusal to tender oil or gas for delivery as in-kind royalty;
(3) making a false report concerning exploration, production, or royalty;
(4) failure or refusal to file an assignment as required by this subchapter;
(5) failure or refusal, after demand, to file or make available for inspection and copying a record or document required to be filed or made available for inspection or copying under this subchapter or rules promulgated thereunder;
(6) failure or refusal, after demand, to protect the leased premises from drainage; or
(7) the breach of an obligation under the lease or this subchapter.

(b) Forfeiture is not the exclusive remedy. The attorney general, at the request of the board of regents, may bring suit for damages or specific performance, or both, or other remedy, at law or in equity.

(c) The board, in its sole discretion, may authorize reinstatement of a forfeited lease on terms the board may determine at the time of the declaration of forfeiture.

Sec. 66.83. LIEN; ABANDONED PERSONAL PROPERTY. (a) The board of regents shall have a statutory first lien on oil and gas produced from the area covered by the lease to secure payment of all unpaid royalty and other sums of money that may become due under the lease or this subchapter.
(b) By acceptance of the lease, the lessee grants to the board of regents an express contractual lien on and security interest in all oil and gas in and extracted from the area covered by the lease, all proceeds which may accrue to the lessee from the sale of the oil and gas, whether the proceeds are held by the lessee or another person, and all fixtures on and improvements to the area covered by the lease used in connection with the production or processing of the oil and gas to secure the payment of royalties and other amounts due or to become due under the lease or this subchapter and to secure payment of damages or loss that the state may suffer by reason of the lessee's breach of a covenant or condition of the lease, whether express or implied.

(c) The statutory and contractual liens and security interest described in this section may be foreclosed with or without court proceedings in the manner provided under Chapter 9, Business & Commerce Code. The board of regents may require the lessee to execute and record instruments reasonably necessary to acknowledge, attach, or perfect the liens.

(d) Personal property, including casing, equipment, and fixtures remaining on lands covered by the lease more than one year after the expiration or other termination of the lease shall be considered to be abandoned. The board of regents may take title to abandoned personal property in any manner and keep or use the proceeds for any purpose allowed by law. The lessee shall pay to the board of regents on demand the positive difference between the cost of disposing of abandoned personal property and the proceeds, if any, from the disposition.

Sec. 66.84. PAYMENTS; DISPOSITION. Payments under this subchapter shall be made to the board of regents, which shall:

(1) transmit to the state comptroller for deposit to the credit of the permanent university fund all bonus, rental, and royalty payments;

(2) transmit to the state comptroller for deposit to the credit of the available university fund all filing, assignment, and relinquishment fees and all other payments except those described in Subdivision (3); and

After the transfer of the institute to The University of Texas System, the employee shall not be entitled to credit in the Employees Retirement System for service subject to transfer to the Teacher Retirement System under this section.

(1) to provide academically gifted and highly motivated junior and senior high school students with a challenging university-level curriculum that:

(A) allows students to complete high school graduation requirements for the foundation high school program and the distinguished level of achievement under the foundation high school program and earn appropriate endorsements as provided by Section 28.025, while attending for academic credit a public institution of higher education;

(B) fosters students' knowledge of real-world mathematics and science issues and applications and teaches students to apply critical and computational thinking and problem-solving skills to those issues and problems;

(C) includes the study of English, foreign languages, social studies, mathematics, science, and technology; and

(D) offers students learning opportunities related to mathematics and science through in-depth research and field-based studies;

(2) to provide students with an awareness of mathematics and science careers and professional development opportunities through seminars, workshops, collaboration with postsecondary and
university students including opportunities for summer studies, internships in foreign countries, and similar methods; and

(3) to provide students with social development activities that enrich the academic curriculum and student life, including, as determined appropriate by the academy, University Interscholastic League activities and other extracurricular activities.

(c) The academy is a coeducational institution for selected Texas high school students with an interest in and the potential to excel in mathematics and science studies. The academy shall admit only high school juniors and seniors, except that the academy may admit a student with exceptional abilities who is not yet a high school junior. The board shall set aside adequate space on the university campus in Brownsville to operate the academy and implement the purposes of this section. The academy must operate on the same fall and spring semester basis as the university. Full-time students of the academy must enroll for both the fall and spring semesters. Faculty members of the university shall teach all academic classes at the academy. A student of the academy may attend a college course offered by the university and receive college credit for that course.

(d) Except as otherwise provided by this subsection, the university administration has the same powers and duties with respect to the academy that the administration has with respect to the university. The board shall consult with the vice president for academic affairs and the dean of the School of Education and other members of the administration as the board considers necessary concerning the academy's administrative design and support, personnel and student issues, and faculty development. The board shall consult with the dean of the College of Science, Mathematics and Technology and other members of the administration as the board considers necessary concerning the academy's curriculum development, program design, and general faculty issues. The board, in consultation with university administration, shall:

(1) establish an internal management system for the academy and appoint an academy principal who serves at the will of the board and reports to the vice president for academic affairs;
(2) provide for one or more academy counselors;
(3) establish for the academy a site-based decision-making process similar to the process required by Subchapter F, Chapter 11, that provides for the participation of academy faculty, parents of academy students, and other members of the community; and
(4) establish an admissions process for the academy.

(e) The student-teacher ratio in all regular academic classes at the academy may not exceed 30 students for each classroom teacher, except that the student-teacher ratio may exceed that limit:

(1) in a program provided for the purposes prescribed by Subsection (b)(2) or another special enrichment course or in a physical education course;

(2) if the board determines that a class with a higher student-teacher ratio would contribute to the educational development of the students in the class; or

(3) if an academy class is combined with a university class with more than 30 students.

(f) The academy shall provide the university-level curriculum in a manner that is appropriate for the social, psychological, emotional, and physical development of high school juniors and seniors. The administrative and counseling personnel of the academy shall provide continuous support to and supervision of students.

(g) For each student enrolled in the academy, the academy is entitled to allotments from the foundation school fund under Chapter 42 as if the academy were a school district without a tier one local share for purposes of Section 42.253. If in any academic year the amount of the allotments under this subsection exceeds the amount of state funds paid to the academy in the first fiscal year of the academy's operation, the commissioner of education shall set aside from the total amount of funds to which school districts are entitled under Section 42.253(c) an amount equal to the excess amount and shall distribute that amount to the academy. After deducting the amount set aside and paid to the academy by the commissioner of education under this subsection, the commissioner of education shall reduce the amount to which each district is entitled under Section 42.253(c) in the manner described by Section 42.253(h). A determination of the commissioner of education under this subsection is final and may not be appealed.

(h) The board may use any available money, enter into contracts, and accept grants, including matching grants, federal grants, and grants from a corporation or other private contributor, in establishing and operating the academy. Money spent by the academy must further the purposes of the academy under Subsection (b).

(i) The liability of the state under Chapters 101 and 104,
Civil Practice and Remedies Code, is limited for the academy and employees assigned to the academy and acting on behalf of the academy to the same extent that the liability of a school district and an employee of the school district is limited under Sections 22.0511, 22.0512, and 22.052 of this code and Section 101.051, Civil Practice and Remedies Code. An employee assigned to the academy is entitled to representation by the attorney general in a civil suit based on an action or omission of the employee in the course of the employee's employment, to limits on liability, and to indemnity under Chapters 104 and 108, Civil Practice and Remedies Code.

(j) Except as otherwise provided by this section, the academy is not subject to the provisions of this code, or to the rules of the Texas Education Agency, regulating public schools.

(f) For each student enrolled in the academy, the academy is entitled to allotments from the foundation school fund under Chapter 42 as if the academy were a school district without a tier one local share for purposes of Section 42.253. If in any academic year the amount of the allotments under this subsection exceeds the amount of state funds paid to the academy in the first fiscal year of the academy's operation, the commissioner of education shall set aside from the total amount of funds to which school districts are entitled under Section 42.253(c) an amount equal to the excess amount and shall distribute that amount to the academy. After deducting the amount set aside and paid to the academy by the commissioner of education under this subsection, the commissioner of education shall reduce the amount to which each district is entitled under Section 42.253(c) in the manner described by Section 42.253(h). A determination of the commissioner of education under this subsection is final and may not be appealed.

(g) The board may use any available money, enter into contracts, and accept grants, including matching grants, federal grants, and grants from a corporation or other private contributor, in establishing and operating the academy. Money spent by the
academy must further the purposes of the academy under Subsection (a).

(h) The liability of this state under Chapters 101 and 104, Civil Practice and Remedies Code, is limited for the academy and employees assigned to the academy and acting on behalf of the academy to the same extent that the liability of a school district and an employee of the school district is limited under Sections 22.0511, 22.0512, and 22.052 of this code and Section 101.051, Civil Practice and Remedies Code. An employee assigned to the academy is entitled to representation by the attorney general in a civil suit based on an action or omission of the employee in the course of the employee's employment, to limits on liability, and to indemnity under Chapters 104 and 108, Civil Practice and Remedies Code.

(i) Except as otherwise provided by this section, the academy is not subject to the provisions of this code or to the rules of the Texas Education Agency regulating public schools.

apparent that the interest of the state can best be served by the granting of the easements and leases.

(b) Each easement granted under this section shall be on forms approved by the attorney general and shall include a complete description of the land on which the easement is to be granted, the period of time covered by the easement, the amount of money to be paid by the grantee to the grantor, or other consideration for the granting of such easement. Sec. 85.27. FLOOD CONTROL EASEMENTS. The board may convey flood control easements over land under its jurisdiction and control to water control and improvement districts of this state. No flood control easement shall be conveyed unless the board receives from the district reasonable consideration for the conveyance. The conveyance shall be under the terms and conditions that the board deems in the best interest of the university system.

Sec. 85.28. AIRPORTS. (a) The board may construct or otherwise acquire an airport for any institution within the system. It may maintain and operate the airports in connection with the teaching of courses in aeronautical engineering and for purposes in cooperation with the national defense program and for other purposes which will not interfere with those uses.

(b) The board may acquire by purchase, lease, gift, condemnation, or otherwise, and may use, operate, and maintain any kind of property or property interest necessary or convenient to the exercise of powers under this section. The power of eminent domain shall be exercised in the manner provided by general law, including Title 52, Revised Civil Statutes of Texas, 1925, as amended, except that the board shall not be required to give bond for appeal or bond for costs.

Sec. 85.29. RESEARCH AND EXPERIMENTATION FOR TEXAS DEPARTMENT OF TRANSPORTATION. (a) The department may contract with the university system or a component or agency of the university system to conduct research relating to transportation, including the economics, planning, design, construction, maintenance, or operation of transportation facilities.

(b) An agreement entered into under this section is not subject
to Chapter 771, Government Code.

(c) The comptroller may draw proper warrants in favor of any part of the university system based on vouchers or claims submitted by the system through the department covering reasonable fees and charges for services rendered by members of the staff of the system to the department and for equipment and materials necessary for research and experimentation under a contract entered into under this section.

(d) The comptroller shall pay warrants issued under this section against any funds appropriated by the legislature to the department. The payments made to the system shall be credited and deposited to local institutional funds under its control.

(e) In this section:

(1) "Department" means the Texas Department of Transportation.

(2) "Transportation facilities" means highways, turnpikes, airports, railroads, including high-speed railroads, bicycle and pedestrian facilities, waterways, pipelines, electric utility facilities, communication lines and facilities, public transportation facilities, port facilities, and facilities appurtenant to other transportation facilities.

Sec. 85.30. DONATIONS AND TRUSTS. (a) Donations of property may be made and accepted by the board for the purpose of establishing or assisting in the establishment of a professorship, chair, or scholarship in the university system or any of its component institutions or for creating in the university system or any of its component institutions any trust for any lawful, educational, or charitable purpose, either temporarily or permanently, and the donations or trusts thereby created will be governed by the rules prescribed by this section.

(b) The legal title to the property shall be vested in the board acting as an entity, or the State of Texas, to be held in trust for the purpose under any directions, limitations, and provisions
that may be declared in the donation or trust agreement, not inconsistent with the objectives and proper management of the system or its component institutions.

(c) The donor may declare and direct the manner in which the title to the property shall thereafter be transmitted from the trustee in continued succession, to be held for and appropriated to the declared purposes.

(d) The donor may declare and direct the person or class of persons who shall receive the benefit of the donation and the manner of their selection.

(e) The declarations, directions, and limitations shall not be inconsistent with the objects and proper management of the system or its institutions.

(f) The title to the property donated shall be received, and the trust conferred in the donation shall be assumed, subject to laws that may be passed and carried into effect from time to time which may be necessary to prevent the loss of or damage to the property donated or an abuse or neglect of the trust so as to defeat, materially change, or prevent the objects of the donation.

(g) Copies of the donation shall be filed with the board.

Sec. 85.31. FUNDS RECEIVED FOR TRUST SERVICES. (a) The board may at its discretion charge administrative fees for services rendered in the management and administration of any trust estate under the control of the system or any component of the system.

(b) Funds received pursuant to such charges may be deposited in an appropriate system or university account and may be expended by the board for any purpose of the system.

Sec. 85.32. EMINENT DOMAIN. (a) The board may exercise the power of eminent domain to acquire any real property that the board considers necessary and proper to carry out its powers and duties.

(b) The board shall exercise the power of eminent domain in the
manner prescribed by Chapter 21, Property Code, except that the board is not required to deposit a bond or the amount equal to the award of damages by the special commissioners under Sections 21.021(a)(2) and (3), Property Code.

**SUBCHAPTER D. LEASE OF LANDS FOR OIL, GAS, AND OTHER MINERAL DEVELOPMENT**

Sec. 85.51. AUTHORITY TO LEASE. (a) The board may lease for oil, gas, sulphur, mineral ore, and other mineral developments all lands and mineral interests under its control, owned or in the future acquired by the state for the use of the university system.

(b) The board shall offer oil and gas leases at public auction, by sealed bid, by negotiated agreement, or through any other means that the board considers to be in the best interest of the university system.

Sec. 85.52. SALE OF MINERAL ORE IN PLACE. Mineral ore located in and on the land may also be sold in place by the board at not less than the fair market value as determined by the same methods as are provided for leasing of lands under this subchapter for development of the minerals in the lands.

Sec. 85.53. TRACTS, LOTS, BLOCKS. The board may cause the lands to be surveyed or subdivided into tracts, lots, or blocks that will, in its judgment, be most conducive and convenient to facilitate the advantageous sale of lease for oil, gas, sulphur, mineral ore, and other minerals, and may make maps and plats that may be thought necessary to carry out the purposes of this subchapter. The board may obtain authentic abstracts of title to all the lands as it deems necessary.

necessary from time to time, and may take any steps necessary to perfect a merchantable title to the lands in the State of Texas.

Sec. 85.54. PLACING LEASES ON MARKET; ADVERTISING. (a) Whenever, in the opinion of the board, there is a demand for the purchase of oil, gas, sulphur, mineral ore, or other mineral leases on any tract or part of any tract of land that will reasonably insure an advantageous sale, the board shall place the oil, gas, sulphur, mineral ore, or other mineral leases on the land on the market in any tract or tracts, or any part thereof, that the board may designate.

(b) The board shall cause to be advertised a brief description of the land from which the oil, gas, sulphur, mineral ore, or other minerals is proposed to be leased. The advertisement shall be made by inserting in two or more papers of general circulation in this state; and in addition the board may, in its discretion, cause the advertisement to be placed in an oil and gas journal published in and out of the state, mail copies of the proposals to the county judge of the county where the lands are located, and mail copies of the proposals to other persons the board thinks would be interested.

Sec. 85.55. PUBLIC AUCTION; BIDS; ACCEPTANCE; REJECTION; PAYMENTS. (a) The board may sell the lease or leases to the highest bidder at public auction, at Texas A & M University, in College Station, at any hour between 10 a.m. and 5 p.m.

(b) The board may reject all bids. However, the highest bidder shall pay to the board on the day of the sale 25 percent of the bonus bid, and the balance of the bid shall be paid to the board within 24 hours after notification that the bid has been accepted. Payments shall be in cash, certified check, or cashier's check, as the board may direct. Failure to pay the balance of the amount bid will forfeit to the board the 25 percent paid.

(c) A separate bid shall be made for each tract or subdivision thereof. No bids shall be accepted which offer less than the fair
market price per ton for the mineral ore or a royalty of less than one-eighth of the gross production of oil, gas, sulphur, and other minerals in the land bid upon, and this minimum royalty may be increased at the discretion of the board. Every bid shall carry the obligation to pay an amount not less than $1 per acre for delay in drilling or development. The amount shall be fixed by the board in advance of the advertisement and shall be paid every year for five years unless in the meantime production in paying quantities is had upon the land or the land is re-leased by the lessee.

Sec. 85.56. SUBSEQUENT PROCEDURE IF NO BIDS ACCEPTED. If no bid is accepted by the board at the public auction, any subsequent procedure for the sale of oil, gas, sulphur, mineral ore, and other mineral leases shall be in the manner prescribed by this subchapter.

Sec. 85.57. WITHDRAWAL OF LAND ADVERTISED. The board may withdraw any lands advertised for lease or for the sale of mineral ore in place.

Sec. 85.58. ACCEPTANCE OF BIDS; AWARD OF LEASE. (a) If in the opinion of the board any one of the bidders has offered a reasonable and proper price for any tract and not less than the price fixed by the board, the lands advertised may be leased for oil, gas, sulphur, mineral ore, and other mineral purposes under the provisions of this subchapter and any regulations the board may prescribe which are not inconsistent with the provisions of this subchapter.

(b) On acceptance of a bid, the board shall prepare a lease contract. The bid and a copy of the lease contract shall be filed in the general land office.
Sec. 85.59. EXPLORATORY TERM; EXTENSION; OTHER PROVISIONS OF LEASE. (a) The exploratory term of the lease as determined by the board prior to the promulgation of the advertisement shall in no case exceed five years, and each lease shall provide that the lease will terminate at the expiration of its exploratory term unless by unanimous vote of members of the board the lease may be extended for a period of three years. The lease may be extended if the board finds that there is likelihood of oil, gas, sulphur, mineral ore, and other minerals being discovered by lessees, and that the lessees have proceeded with diligence to protect the interest of the state. However, if oil, gas, sulphur, mineral ore, and other minerals are being produced in paying quantities from the premises, the lease shall continue in force and effect as long as the oil, gas, sulphur, mineral ore, and other minerals are being so produced. No extension under this subsection may be made by the board until the last 30 days of the original term of the lease.

(b) When, in the discretion of the board, it is deemed for the best interest of the state to extend a lease issued by the board, the board by unanimous vote may extend the lease for a period not to exceed three years, on the condition that the lessee shall continue to pay yearly rental as provided in the lease and any additional terms the board may see fit and proper to demand. The board may extend the lease and execute an extension agreement.

(c) The lease shall include any additional provisions and regulations the board may prescribe to preserve the interest of the state, not inconsistent with the provisions of this subchapter.

Sec. 85.60. DISCONTINUANCE OF YEARLY PAYMENTS; TERMINATION FOR NONPRODUCTION. When the royalties amount to as much as the yearly payments as fixed by the board, the yearly payments may be discontinued. If before the expiration of five years oil, gas, sulphur, mineral ore, and other minerals have not been produced in
paying quantities, the lease shall terminate unless extended as provided by this subchapter.

Sec. 85.61. OPERATIONS UNDER LEASE: EFFECT ON RENTAL PAYMENTS, TERM OF LEASE. If, during the term of any lease issued under the provisions of this subchapter, the lessee is engaged in actual drilling and mining operations for the discovery of oil, gas, sulphur, mineral ore, and other minerals on land covered by any such lease, no rentals shall be payable as to the tract on which the operations are being conducted as long as the operations are proceeding in good faith; and if oil, gas, sulphur, mineral ore, and other minerals are discovered in paying quantities on any tract of land covered by any lease, then the lease as to that tract shall remain in force as long as oil, gas, sulphur, mineral ore, and other minerals are produced in paying quantities from the tract.

Sec. 85.62. PRORATION OR REDUCTION OF PRODUCTION. When, in the discretion of the board, it is for the best interest of the state to prorate or reduce production of any land, the board may execute the necessary contract to carry out that purpose.

Sec. 85.63. INTERFERENCE WITH SURFACE USES. No lease for oil, gas, sulphur, mineral ore, and other minerals shall be made by the board which will permit the drilling or mining for oil, gas, sulphur, mineral ore, and other minerals within 300 feet of any building on the land without the consent of the board. A lease on any experimental station or farm shall provide that the operations for oil, gas, sulphur, mineral ore, and other minerals shall not in any way interfere with use of the land as an experimental station and
shall not cause the abandonment of the property or its use for experimental farm purposes; and the lessee shall drill, mine, and carry on his operations in such a way as not to cause the abandonment of the property for experimental farm purposes, and any such leased property shall be subject to the use by the State of Texas for all experimental purposes and the board shall continue to operate the experimental station.

Sec. 85.64. PROTECTION FROM DRAINAGE. In every case where the area in which oil, gas, sulphur, mineral ore, and other minerals sold shall be contiguous or adjacent to lands which are not lands belonging to and held by the university system, the acceptance of the bid and the sale made thereby shall constitute an obligation on the owner to adequately protect the land leased from drainage from the adjacent lands to the extent that a reasonably prudent operator would do under the same and similar circumstances. In cases where the area in which the oil, gas, sulphur, mineral ore, and other minerals are sold is contiguous to other lands belonging to and held by the university system which have been leased or sold at a lesser royalty, the owner shall likewise protect the land from drainage from the lands so leased or sold for a lesser royalty. On failure to protect the land from drainage as herein provided, the sale and all rights thereunder may be forfeited by the board in the manner provided in this subchapter for forfeitures.

Sec. 85.65. RIGHTS OF PURCHASER; ASSIGNMENT; RELINQUISHMENT. (a) Title to all rights purchased may be held by the owners as long as the area produces oil, gas, sulphur, mineral ore, and other minerals in paying quantities.

(b) All rights purchased may be assigned. All assignments shall be filed in the general land office as prescribed by rule, accompanied by 10 cents per acre for each acre assigned and the filing fee as prescribed by rule. An assignment shall not be
effective unless filed as required by rule. An assignment shall not relieve the assignor of any liabilities or obligations incurred prior to the assignment.

(c) All rights to all or any part of a leased tract may be released to the state at any time by recording a release instrument in the county or counties in which the tract is located. Releases must also be filed with the chairman of the board and the general land office, accompanied by the filing fee prescribed by rule. A release shall not relieve the owner of any obligations or liabilities incurred prior to the release.

(d) The board shall authorize the laying of pipeline, telephone line, and the opening of roads as deemed reasonably necessary for and incident to the purpose of this subchapter.

Sec. 85.66. ROYALTY PAYMENTS; INSPECTION OF RECORDS; REPORT OF LAND COMMISSIONER. (a) If oil or other minerals are developed on any of the lands leased by the board, the royalty or money as stipulated in the sale shall be paid to the general land office at Austin on or before the last day of each month for the preceding month during the life of the rights purchased, and shall be set aside as specified in Section 85.70. The royalty or money paid to the general land office shall be accompanied by the sworn statement of the owner, manager, or other authorized agent showing the gross amount of oil, gas, sulphur, mineral ore, and other minerals produced and saved since the last report, the amount of oil, gas, sulphur, mineral ore, and other minerals produced and sold off the premises, and the market value of the oil, gas, sulphur, mineral ore, and other minerals, together with a copy of all daily gauges, or vats, tanks, gas meter readings, pipeline receipts, gas line receipts and other checks and memoranda of the amounts produced and put into pipelines, tanks, vats, or pool and gas lines, gas storage, other places of storage, and other means of transportation.

(b) The books and accounts, receipts and discharges of all wells, tanks, vats, pools, meters, pipelines, and all contracts and other records pertaining to the production, transportation, sale, and
marketing of oil, gas, sulphur, mineral ore, and other minerals shall at all times be subject to inspection and examination of any member of the board or any duly authorized representative of the board.

(c) The commissioner of the general land office shall tender to the board on or before the 10th day of each month a report of all receipts that are collected from the lease or sale of oil, gas, sulphur, mineral ore, and other minerals and that are deposited as provided by Section 85.70 during the preceding month.

(d) Each lease shall contain a provision enabling the Board, at its discretion, to require that payment of royalty, as stipulated in the lease, be in kind. The Board shall have all powers necessary to negotiate and execute sales contracts or any other instruments necessary for the disposition of any royalty taken in kind. Such other reasonable provisions, not inconsistent with this subchapter, that will facilitate the efficient and equitable payment of royalty in kind may be included in the lease by the Board.

MISSION. (a) Texas A&M University at Galveston is a special purpose institution of higher education for undergraduate and graduate instruction in marine and maritime studies in science, engineering, and business and for research and public service related to the general field of marine resources. The institution is under the management and control of the board of regents of The Texas A&M University System, with degrees offered under the name and authority of Texas A&M University at College Station. The board of regents of The Texas A&M University System shall have the authority to designate Texas A&M University at Galveston as a branch of Texas A&M University; however, such designation, if made, shall not change the role and mission of Texas A&M University at Galveston as specified in this section.

(b) Texas A&M University at Galveston shall be a research institute supporting the marine sciences and oceanography programs at Texas A&M University and The University of Texas at Austin. Research endeavors benefitting the academic strength of Texas A&M University and The University of Texas at Austin or the economic strength of the State of Texas shall be conducted, with emphasis on establishing and maintaining an internationally recognized research institute to be named the Texas Institute of Oceanography. The Texas Institute of Oceanography may also contract with other institutions of higher education to provide research and other related services. Texas A&M University at College Station and The University of Texas at Austin are authorized to offer upper-level and graduate courses in marine sciences and oceanography at the Texas Institute of Oceanography that are supportive to their marine sciences and oceanography academic programs. Funding for research should be from private sources, competitively acquired sources, and appropriated public funding.

Sec. 87.202. GENERAL POWERS AND DUTIES. The board shall have the same powers and duties with respect to this university as are
conferred on it by statute with respect to Texas A&M University.

Sec. 87.203. ADMISSION, DISCIPLINE, INSTRUCTION. The board shall prescribe the standards of admission and admit the applicants who meet the requirements. Students shall be subject to the regulations of conduct and discipline prescribed by the board. The board shall make provision for the proper instruction, for courses of study, and for the care, supervision, and management of the school; and the board is vested with all powers necessary for the proper discharge of these duties.

Sec. 87.204. FUNDS, PROPERTIES, AGREEMENTS. The board may receive any funds or property that may be subscribed, loaned, or bequeathed for the organization or maintenance of the university and shall execute all necessary agreements for the faithful application of the funds or property.

Sec. 87.205. FEES AND CHARGES. The fact that this university offers United States Maritime Service Cadet (license-option) students practical and technical instruction in the arts and sciences relating to the foregoing subjects, and the further fact that training in these fields will lead to immediate licensing in the United States Flag Fleet and remunerative employment for those who have finished the prescribed courses, make it necessary that larger fees be charged license-option students who enter the university than are now paid by non-license-option students enrolled in state-supported institutions
of higher education. Therefore, the provisions of Subchapter E, Chapter 54 of this Code, do not apply to the license-option students enrolled in the university. The board is specifically charged with the duty of assessing such fees and charges against the students who enter the university as may be necessary to provide for the maintenance and support of the university.

Sec. 87.206. INSTRUCTION IN FIELD OF MARINE RESOURCES. In addition to the instruction authorized in Section 87.201 of this code, the school or any other school created under this subchapter may provide instruction for all students in educational programs related to the general field of marine resources. Such courses must have the prior approval of the Coordinating Board, Texas College and University System.

Sec. 87.207. MOLLUSCAN SHELLFISH PROGRAMS. (a) The marine biology department of Texas A&M University at Galveston may:

(1) evaluate the expansion and production of oysters from private oyster leases during the months of May through October of each year; and

(2) study the possible impacts of conditions observed on public harvest outside that period.

(b) The marine biology department may investigate and provide information about oyster diseases and other concerns that may affect the availability of oysters for harvest. The investigation shall consider the effects of natural environmental conditions, including salinity, temperature, turbidity, and other natural environmental conditions, and shall also consider factors that may not be part of the natural environment, including chemical contamination, freshwater inflow alterations, and ballast water discharges.

(c) The marine biology department may investigate and provide
information about organisms that may be associated with human illness that can be transmitted through the consumption of oysters, particularly Vibrio parahaemolyticus and Vibrio vulnificus. The investigation must consider factors such as natural occurrence, contamination, and the effects of time, temperature, and handling practices on the organisms.

(d) The marine biology department shall give priority to activities related to public health.

Sec. 88.116. TEXT OF COMPACT. The South Central Interstate Forest Fire Protection Compact reads as follows:

SOUTH CENTRAL INTERSTATE FOREST FIRE PROTECTION COMPACT

ARTICLE I.

The purpose of this compact is to promote effective prevention and control of forest fires in the South Central region of the United States by the development of integrated forest fire plans, by the maintenance of adequate forest fire fighting services by the member States, by providing for mutual aid in fighting forest fires among the compacting States of the region and with States which are party to other Regional Forest Fire Protection compacts or agreements, and for more adequate forest development.

ARTICLE II.

This compact shall become operative immediately as to those States ratifying it whenever any two or more of the States of Arkansas, Louisiana, Mississippi, Oklahoma, and Texas which are contiguous have ratified it and Congress has given consent thereto. Any State not mentioned in this article which is contiguous with any member State may become a party to this compact, subject to approval by the legislature of each of the member States.

ARTICLE III.

In each State, the State Forester or officer holding the equivalent position who is responsible for forest fire control shall act as compact administrator for that State and shall consult with like officials of the other member States and shall implement cooperation between such States in forest fire prevention and control.
The compact administrators of the member States shall organize to coordinate the services of the member States and provide administrative integration in carrying out the purposes of this compact.

There shall be established an advisory committee of legislators, representatives of the Board of Directors of the Texas Agricultural and Mechanical College System, and forestry or forest products industries representatives, which shall meet from time to time with the compact administrators. Each member State shall name one member of the Senate and one member of the House of Representatives, and the Governor of each member State shall appoint one representative who shall be associated with forestry or forest products industries, and a member of the Board of Directors of the Texas Agricultural and Mechanical College System, to comprise the membership of the advisory committee. Action shall be taken by a majority of the compacting States, and each State shall be entitled to one vote.

The compact administrators shall formulate and, in accordance with need, from time to time, revise a regional forest fire plan for the member States.

It shall be the duty of each member State to formulate and put in effect a forest fire plan for that State and take such measures as may be necessary to integrate such forest fire plan with the regional forest fire plan formulated by the compact administrators.

ARTICLE IV.

Whenever the State forest fire control agency of a member State requests aid from the State forest fire control agency of any other member State in combating, controlling or preventing forest fires, it shall be the duty of the State forest fire control agency of that State to render all possible aid to the requesting agency which is consonant with the maintenance of protection at home.

ARTICLE V.

Whenever the forces of any member State are rendering outside aid pursuant to the request of another member State under this compact, the employees of such State shall, under the direction of the officers of the State to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges and immunities as comparable employees of the State to which they are rendering aid.

No member State or its officers or employees rendering outside aid pursuant to this compact shall be liable on account of any act or
omission on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith; provided, that nothing herein shall be construed as relieving any person from liability for his own negligent act or omission, or as imposing liability for such negligent act or omission upon any State.

All liability, except as otherwise provided herein, that may arise either under the laws of the requesting State or under the laws of the aiding State or under the laws of a third State on account of or in connection with a request for aid, shall be assumed and borne by the requesting State.

Any member State rendering outside aid pursuant to this compact shall be reimbursed by the member State receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost of all materials, transportation, wages, salaries and maintenance of employees and equipment incurred in connection with such request; provided, that nothing herein contained shall prevent any assisting member State from assuming such loss, damage, expense or other cost or from loaning such equipment or from donating such service to the receiving member State without charge or cost.

Each member State shall provide for the payment of compensation and death benefits to injured employees and the representatives of deceased employees in case employees sustain injuries or are killed while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such State.

For the purposes of this compact the term "employee" shall include any volunteer or auxiliary legally included within the forest fire fighting forces of the aiding State under the laws thereof.

The compact administrators shall formulate procedures for claims and reimbursement under the provisions of this article, in accordance with the laws of the member States.

ARTICLE VI.

Ratification of this compact shall not be construed to affect any existing statute so as to authorize or permit curtailment or diminution of the forest fire fighting forces, equipment, services or facilities of any member State.

Nothing in this compact shall be construed to limit or restrict the powers of any State ratifying the same to provide for the
prevention, control and extinguishment of forest fires, or to prohibit the enactment or enforcement of State laws, rules or regulations intended to aid in such prevention, control and extinguishment in such State.

Nothing in this compact shall be construed to affect any existing or future cooperative relationship or arrangement between the United States Forest Service and a member State or States.

ARTICLE VII.

The compact administrators may request the United States Forest Service to act as the primary research and coordinating agency of the South Central Interstate Forest Fire Protection Compact in cooperation with the appropriate agencies in each State, and the United States Forest Service may accept the initial responsibility in preparing and presenting to the compact administrators its recommendations with respect to the regional fire plan. Representatives of the United States Forest Service may attend meetings of the compact administrators.

ARTICLE VIII.

The provisions of Articles IV and V of this compact which relate to mutual aid in combating, controlling or preventing forest fires shall be operative as between any State party to this compact and any other State which is party to a regional forest fire protection compact in another region; provided, that the Legislature of such other State shall have given its assent to such mutual aid provisions of this compact.

ARTICLE IX.

This compact shall continue in force and remain binding on each State ratifying it until the legislature or the Governor of such State takes action to withdraw therefrom. Such action shall not be effective until six months after notice thereof has been sent by the chief executive of the State desiring to withdraw to the chief executives of all States then parties to the compact.

Acts 1971, 62nd Leg., p. 3261, ch. 1024, art. 1, Sec. 1, eff. Sept.
Sec. 109.63. SUBDIVISION OF LAND; TITLES. (a) The board may have the lands surveyed or subdivided into tracts, lots, or blocks which, in their judgment, will be most conducive and convenient to an advantageous sale or lease of oil, gas, sulphur, or other minerals in the lands; and the board may make maps and plats which it deems necessary to carry out the purposes of this subchapter.

(b) The board may obtain authentic abstracts of title to the lands from time to time as it deems necessary and may take necessary steps to perfect a merchantable title to the lands.

Sec. 109.64. SALE OF LEASES; ADVERTISEMENTS; PAYMENTS. (a) Whenever in the opinion of the board there is a demand for the purchase of oil, gas, sulphur, or other mineral leases on any tract or part of any tract of land which will reasonably insure an advantageous sale, the board shall place the oil, gas, sulphur, or other mineral leases on the land on the market in a tract or tracts, or any part of a tract, which the board may designate.

(b) The board shall have advertised a brief description of the land from which the oil, gas, sulphur, or other minerals is proposed to be leased. The advertisement shall be made by inserting in two or more papers of general circulation in this state, and in addition, the board may, in its discretion, cause the advertisement to be placed in an oil and gas journal published in and out of the state. The board may also mail copies of the proposals to the county judge of the county where the lands are located and to other persons the board believes would be interested.

(c) The board may sell the lease or leases to the highest bidder at public auction at the university in Lubbock at any hour between 10 a. m. and 5 p. m.

(d) The highest bidder shall pay to the board on the day of the sale 25 percent of the bonus bid, and the balance of the bid shall be paid within 24 hours after the bidder is notified that the bid has been accepted. Payments shall be made in cash, certified check, or
cashier's check, as the board directs. The failure of the bidder to pay the balance of the amount bid will forfeit to the board the 25 percent paid.

Sec. 109.65. SEPARATE BIDS; MINIMUM ROYALTY; DELAY RENTAL. (a) A separate bid shall be made for each tract or subdivision of a tract.

(b) No bid shall be accepted which offers a royalty of less than one-eighth of the gross production of oil, gas, sulphur, and other minerals in the land bid upon, and this minimum royalty may be increased at the discretion of the board.

(c) Every bid shall carry the obligation to pay an amount not less than $1 per acre for delay in drilling or development. The amount shall be fixed by the board in advance of the advertisement. The amount fixed shall be paid every year for five years unless in the meantime production in paying quantities is had upon the land or the land is released by the lessee.

Sec. 109.66. REJECTION OF BIDS; WITHDRAWAL OF LAND. The board may reject any and all bids and may withdraw any land advertised for lease.

Sec. 109.67. ACCEPTANCE; CONDITIONS AND PROVISIONS OF LEASE. (a) If, in the opinion of the board, any one of the bidders has offered a reasonable and proper price for any tract, which is not less than the price set by the board, the lands advertised may be leased for oil, gas, sulphur, and other mineral purposes under the terms of this section and subject to regulations prescribed by the board which are not inconsistent with the provisions of this section.
In the event no bid is accepted by the board at public auction, any subsequent procedure for the sale of the leases shall be in the manner prescribed in the preceding sections.

(b) No lease shall be made by the board which will permit the drilling or mining for oil, gas, sulphur, or other minerals within 300 feet of any building on the land without the consent of the board. In making any lease on any experimental station or farm, the lease shall provide that the operations for oil, gas, and other minerals shall not in any way interfere with use of the land for university purposes and shall not cause the abandonment of the property or its use for experimental farm purposes. The lease shall also provide that the lessee operating the property shall drill and carry on his operations in such a way as not to cause the abandonment of the property for university purposes, and the leased property shall be subject to the use by the state for all university purposes, and the board shall continue to operate the university.

Sec. 109.68. ACCEPTANCE AND FILING OF BIDS; YEARLY PAYMENTS; TERMINATION OF LEASE. (a) If the board determines that a satisfactory bid has been received for the oil, gas, sulphur, or other mineral lands, it shall accept the bid and reject all others and shall file the accepted bid in the general land office.

(b) Whenever the royalties shall amount to as much as the yearly payments fixed by the board, the yearly payments may be discontinued.

(c) If before the expiration of five years oil, gas, sulphur, or other minerals have not been produced in paying quantities, the lease shall terminate unless extended as provided in Sections 109.70 and 109.71 of this code.

Sec. 109.69. AWARD AND FILING OF LEASE. If the board determines that a satisfactory bid has been received for the oil, gas, sulphur, or other minerals, it shall make an award to the bidder
offering the highest price, and a lease shall be filed in the general land office.

Sec. 109.70. EXPLORATORY TERM OF LEASE; EXTENSION; OTHER PROVISIONS. (a) The exploratory term of a lease as determined by the board prior to the promulgation of the advertisement shall not exceed five years, and each lease shall provide that the lease will terminate at the expiration of its exploratory term unless by unanimous vote of the board the lease is extended for a period of three years.

(b) The lease may be extended if the board finds that there is a likelihood of oil, gas, sulphur, or other minerals being discovered by the lessees, and that the lessees have proceeded with diligence to protect the interest of the state. If oil, gas, sulphur, or other minerals are being produced in paying quantities from the premises, the lease shall continue in force and effect as long as the oil, gas, sulphur, or other minerals are being so produced. No extension may be made by the board until the last 30 days of the original term of the lease.

(c) The lease shall include additional provisions and regulations prescribed by the board to preserve the interest of the state, not inconsistent with the provisions of this subchapter.

Sec. 109.71. EXTENSION OF LEASES. When in the discretion of the board it is deemed for the best interest of the state to extend a lease issued by the board, the board may by unanimous vote extend the lease for a period not to exceed three years, on the condition that the lessee shall continue to pay yearly rental as provided in the lease and shall comply with any additional terms which the board may see fit and proper to demand. The board may extend the lease and execute an extension agreement.

Sec. 109.72. CONTROL OF DRILLING AND PRODUCTION. The drilling for and the production of oil, gas, and other minerals from the lands shall be governed and controlled by the Railroad Commission of Texas and other regulatory bodies which govern and control other fields in this state.

Sec. 109.73. DRILLING OPERATIONS: SUSPENSION OF RENT; CONTINUANCE OF LEASE; DUTY TO PREVENT DRAINAGE. (a) If during the term of a lease issued under the provisions of this subchapter the lessee is engaged in actual drilling operations for the discovery of oil, gas, sulphur, or other minerals, no rentals shall be payable as to the tract on which the operations are being conducted as long as the operations are proceeding in good faith.

(b) In the event oil, gas, sulphur, or other minerals are discovered in paying quantities on any tract of land covered by a lease, then the lease as to that tract shall remain in force as long as oil, gas, sulphur, or other minerals are produced in paying quantities from the tract.

(c) In the event of the discovery of oil, gas, sulphur, or other minerals on any tract covered by a lease or on any land adjoining the tract, the lessee shall conduct such operations as may be necessary to prevent drainage from the tract covered by the lease to properly develop the same to the extent that a reasonably prudent man would do under the same and similar circumstances.

Sec. 109.74. TITLE TO RIGHTS PURCHASED; ASSIGNMENT; RELINQUISHMENT. (a) Title to all rights purchased may be held by the owners as long as the area produces oil, gas, sulphur, or other minerals in paying quantities.

(b) All rights purchased may be assigned. All assignments
shall be filed in the general land office as prescribed by rule, accompanied by 10 cents per acre for each acre assigned and the filing fee as prescribed by rule. An assignment shall not be effective unless filed as required by rule.

(c) All rights to all or any part of a leased tract may be released to the state at any time by recording a release instrument in the county or counties in which the tract is located. Releases shall also be filed with the chairman of the board and the general land office, accompanied by the filing fee prescribed by rule. A release shall not relieve the owner of any obligations or liabilities incurred prior to the release.

(d) The board shall authorize the laying of pipeline and telephone line and the opening of roads deemed reasonably necessary in carrying out the purposes of this subchapter.

Sec. 109.75. PAYMENT OF ROYALTIES; RECORDS; REPORT OF RECEIPTS. (a) If oil or other minerals are developed on any of the lands leased by the board, the royalty as stipulated in the sale shall be paid to the general land office in Austin on or before the last day of each month for the preceding month during the life of the rights purchased. The royalty payments shall be set aside as specified in Section 109.61 and used as provided in that section.

(b) The royalty paid to the general land office shall be accompanied by the sworn statement of the owner, manager, or other authorized agent showing the gross amount of oil, gas, sulphur, or other minerals produced and sold off the premises and the market value of the minerals, together with a copy of all daily gauges, or vats, tanks, gas meter readings, pipeline receipts, gas line receipts, and other checks and memoranda of the amounts produced and put into pipelines, vats, tanks, or pool and gas lines or gas storage. The books and accounts, receipts and discharges of all wells, tanks, vats, pools, meters, and pipelines, and all contracts and other records pertaining to the production, transportation, sale, and marketing of the oil, gas, sulphur, or other minerals shall at all times be subject to inspection and examination by any member of
the board or any duly authorized representative of the board.

(c) The commissioner of the general land office shall tender to
the board on or before the 10th day of each month a report of all

Sec. 109.76. PROTECTION FROM DRAINAGE; FORFEITURE OF RIGHTS.
(a) In every case where the area in which oil, gas, sulphur, or
other minerals sold is contiguous or adjacent to lands which are not
lands belonging to and held by the university, the acceptance of the
bid and the sale made thereby shall constitute an obligation of the
owner to adequately protect the land leased from drainage from the
adjacent lands to the extent that a reasonably prudent operator would
do under the same and similar circumstances.

(b) In cases where the area in which the oil, gas, sulphur, or
other minerals sold is contiguous to other lands belonging to and
held by the university which have been leased or sold at a lesser
royalty, the owner shall protect the land from drainage from the
lands leased or sold for a lesser royalty.

(c) On failure to protect the land from drainage as provided in
this section, the sale and all rights acquired may be forfeited by
the board in the manner provided in Section 109.77 of this code for
forfeitures.

Sec. 109.77. FORFEITURE AND OTHER REMEDIES; LIENS. (a)
Leases granted under the provisions of this chapter are subject to
forfeiture by the board by an order entered in the minutes of the
board reciting the acts or omissions constituting a default and
declaring a forfeiture.
(b) Any of the following acts or omissions constitutes a default:

1. The failure or refusal by the owner of the rights acquired under this chapter to make a payment of a sum due, either as rental or royalty on production, within 30 days after the payment becomes due;

2. The making of a false return or false report concerning production, royalty, drilling, or mining by the owner or his authorized agent;

3. The failure or refusal of the owner or his agent to drill an offset well or wells in good faith, as required by the lease;

4. The refusal of the owner or his agent to allow the proper authorities access to the records and other data pertaining to the operations authorized in this subchapter;

5. The failure or refusal of the owner or his authorized agent to give correct information to the proper authorities, or to furnish the log of any well within 30 days after production is found in paying quantities; or

6. The violation by the owner of any material term of the lease.

(c) The board may, if it so desires, have suit for forfeiture instituted through the attorney general.

(d) On proper showing by the forfeiting owner within 30 days after the declaration of forfeiture, the lease may be reinstated at the discretion of the board and upon terms prescribed by the board.

(e) In case of violation by the owner of the lease contract, the remedy of forfeiture shall not be the exclusive remedy, and the state may institute suit for damages or specific performance or both.

(f) The state shall have a first lien on oil, gas, sulphur, or other minerals produced in the leased area, and on all rigs, tanks, vats, pipelines, telephone lines, and machinery and appliances used in the production and handling of oil, gas, sulphur, or other minerals produced, to secure the amount due from the owner of the lease.

Sec. 109.78. FILING OF DOCUMENTS AND PAYMENT OF ROYALTIES, FEES, AND RENTALS. (a) All surveys, files, copies of sale and lease contracts, and other records pertaining to the sales and leases authorized in this subchapter shall be filed in the general land office and shall constitute archives.

(b) Payment of all royalties, lease fees, rentals for delay in drilling or mining, filing fees for assignments and relinquishments, and all other payments shall be made to the commissioner of the general land office at Austin. The commissioner shall transmit all payments received to the board for deposit to the credit of the Texas Tech University special mineral fund as provided by Section 109.61.

Sec. 109.79. FORMS, REGULATIONS, RULES, AND CONTRACTS. The board shall adopt proper forms, regulations, rules, and contracts which, in its judgment, will protect the income from lands leased pursuant to this subchapter.

Sec. 109.80. MANAGEMENT OF SURFACE AND MINERAL ESTATES. (a) The board may lease for oil, gas, sulphur, ore, water, and other mineral development all land under its exclusive control for the use of the university. The board may make and enter into pooling agreements, division orders, or other contracts necessary in the management and development of its land.

(b) All leases, pooling agreements, division orders, or other contracts entered into by the board shall be on terms that the board considers in the best interest of the university. The board may not sell a lease for less than the royalty and rental terms demanded at that time by the General Land Office in connection with the sale of oil, gas, and other mineral leases of the public lands of this state.
(c) All money received under the leases and contracts executed for the management and development of the land, except revenue pledged to the payment of revenue bonds or notes, shall be deposited to the credit of a special fund created by the board. The board shall designate a depository for the special fund and protect the money deposited in it by the pledging of assets of the depository in the same manner as is required for the protection of public funds. Money deposited in the special fund may be used by the board for the administration of the university, for payment of principal of and interest on revenue bonds or notes issued by the board, and for any other purpose that in the judgment of the board may be for the good of the university.

and University System, referred to as the coordinating board, shall exercise general control of the public junior colleges of Texas.

(b) The coordinating board shall have the responsibility for adopting policies, enacting regulations, and establishing general rules necessary for carrying out the duties with respect to public junior colleges as prescribed by the legislature, and with the advice and assistance of the commissioner of higher education, shall have authority to:

(1) authorize the creation of public junior college districts as provided in the statutes, giving particular attention to the need for a public junior college in the proposed district and the ability of the district to provide adequate local financial support;

(2) dissolve any public junior college district which has failed to establish and maintain a junior college within three years from the date of its authorization;

(3) adopt standards for the operation of public junior colleges and prescribe the rules and regulations for such colleges;

(4) require of each public junior college such reports as deemed necessary in accordance with the coordinating board's rules and regulations; and

(5) establish advisory commissions composed of representatives of public junior colleges and other citizens of the state to provide advice and counsel to the coordinating board with respect to public junior colleges.

Sec. 130.0011. PUBLIC JUNIOR COLLEGES; ROLE AND MISSION. Texas public junior colleges shall be two-year institutions primarily serving their local taxing districts and service areas in Texas and offering vocational, technical, and academic courses for certification or associate degrees. Continuing education, remedial and compensatory education consistent with open-admission policies, and programs of counseling and guidance shall be provided. Each institution shall insist on excellence in all academic areas--instruction, research, and public service. Added by Acts 1987, 70th Leg., ch. 823, Sec. 2.01, eff. June 20, 1987.

Sec. 130.0012. BACCALAUREATE DEGREE PROGRAMS. (a) The Texas Higher Education Coordinating Board shall authorize public junior colleges to offer baccalaureate degree programs in the fields of applied science and applied technology under this section. Offering a baccalaureate degree program under this section does not otherwise alter the role and mission of a public junior college.

(b) The coordinating board shall authorize baccalaureate degree programs at each public junior college that previously participated in a pilot project to offer baccalaureate degree programs.

(c) A public junior college offering a baccalaureate degree program under this section must meet all applicable accreditation requirements of the Commission on Colleges of the Southern Association of Colleges and Schools.

(d) A public junior college offering a baccalaureate degree program under this section may not offer more than five baccalaureate degree programs at any time. The degree programs are subject to the continuing approval of the coordinating board.

(e) In determining what baccalaureate degree programs are to be offered, the coordinating board shall consider:

1. the need for the degree programs in the region served by the junior college;
2. how those degree programs would complement the other programs and course offerings of the junior college;
3. whether those degree programs would unnecessarily duplicate the degree programs offered by other institutions of higher education; and
4. the ability of the junior college to support the program and the adequacy of the junior college's facilities, faculty, administration, libraries, and other resources.

(f) Each public junior college that offers a baccalaureate degree program under this section must enter into an articulation agreement for the first five years of the program with one or more
general academic teaching institutions to ensure that students enrolled in the degree program have an opportunity to complete the degree if the public junior college ceases to offer the degree program. The coordinating board may require a general academic teaching institution that offers a comparable degree program to enter into an articulation agreement with the public junior college as provided by this subsection.

(g) In its recommendations to the legislature relating to state funding for public junior colleges, the coordinating board shall recommend that a public junior college receive substantially the same state support for junior-level and senior-level courses offered under this section as that provided to a general academic teaching institution for substantially similar courses. In determining the contact hours attributable to students enrolled in a junior-level or senior-level course offered under this section used to determine a public junior college's proportionate share of state appropriations under Section 130.003, the coordinating board shall weigh those contact hours as necessary to provide the junior college the appropriate level of state support to the extent state funds for those courses are included in the appropriations. This subsection does not prohibit the legislature from directly appropriating state funds to support junior-level and senior-level courses offered under this section.

(h) Each public junior college offering a baccalaureate degree program under this section shall prepare a biennial report on the operation and effectiveness of the junior college's baccalaureate degree programs and shall deliver a copy of the report to the coordinating board in the form and at the time determined by the coordinating board.

(j) The coordinating board shall prescribe procedures to ensure that each public junior college that offers a degree program under this section informs each student who enrolls in the degree program of the articulation agreement entered into under Subsection (f) for the student's degree program.

For expiration of this section, see Subsection (c).

Sec. 130.0013. STUDY AND REPORT; BACCALAUREATE DEGREE PROGRAMS AUTHORITY. (a) The Texas Higher Education Coordinating Board shall, using existing funds, conduct a study of regional workforce needs in this state to determine the regions of the state that would benefit from the authorization of baccalaureate degree programs in the field of nursing and in the field of applied sciences at public junior colleges serving the region and appropriate metrics for determining whether a public junior college should offer those degree programs. In conducting its study, the coordinating board shall consult with at least one representative of each of the following:

(1) four-year institutions of higher education;
(2) two-year institutions of higher education;
(3) regional businesses;
(4) professional associations; and
(5) any other entity the commissioner of higher education considers appropriate.

(b) Not later than August 1, 2014, the coordinating board shall submit to each legislative standing committee with primary jurisdiction over higher education the results of its study under this section and recommendations for legislative or other action.

(c) This section expires September 1, 2015.

Added by Acts 2013, 83rd Leg., R.S., Ch. 1164 (S.B. 414), Sec. 1, eff. June 14, 2013.

Sec. 130.002. EXTENT OF STATE AND LOCAL CONTROL. All authority not vested by this chapter or by other laws of the state in the coordinating board or in the Central Education Agency is reserved and retained locally in each of the respective public junior college districts or in the governing boards of such junior colleges as
Sec. 130.0021. CONVEYANCE OF CERTAIN REAL PROPERTY. A public junior college or a public junior college district may donate, exchange, convey, sell, or lease land, improvements, or any other interest in any real property for less than the fair market value of the real property interest if the donation, conveyance, exchange, sale, or lease is being made to a university system and the governing board of the public junior college or the public junior college district also finds that the donation, conveyance, exchange, sale, or lease of the interest promotes a public purpose related to higher education within the service area of the public junior college or the public junior college district.

Added by Acts 1999, 76th Leg., ch. 296, Sec. 5, eff. May 29, 1999.

Sec. 130.003. STATE APPROPRIATION FOR PUBLIC JUNIOR COLLEGES. (a) There shall be appropriated biennially from money in the state treasury not otherwise appropriated an amount sufficient to supplement local funds for the proper support, maintenance, operation, and improvement of those public junior colleges of Texas that meet the standards prescribed by this chapter. The sum shall be allocated on the basis of contact hours within categories developed, reviewed, and updated by the coordinating board.

(b) To be eligible for and to receive a proportionate share of the appropriation, a public junior college must:

(1) be certified as a public junior college as prescribed in Section 61.063;

(2) offer a minimum of 24 semester hours of vocational and/or terminal courses;

(3) have complied with all existing laws, rules, and regulations governing the establishment and maintenance of public junior colleges;

(4) collect, from each full-time and part-time student enrolled, matriculation and other session fees in the amounts
required by law or in the amounts set by the governing board of the junior college district as authorized by this title;

(5) grant, when properly applied for, the scholarships and tuition exemptions provided for in this code; and

(6) for a public junior college established on or after September 1, 1986, levy and collect ad valorem taxes as provided by law for the operation and maintenance of the public junior college.

(c) All funds allocated under the provisions of this code, with the exception of those necessary for paying the costs of audits as provided, shall be used exclusively for the purpose of paying salaries of the instructional and administrative forces of the several institutions and the purchase of supplies and materials for instructional purposes.

(d) Only those colleges which have been certified as prescribed in Section 61.063 of this code shall be eligible for and may receive any appropriation made by the legislature to public junior colleges.

(e) The purpose of each public community college shall be to provide:

(1) technical programs up to two years in length leading to associate degrees or certificates;

(2) vocational programs leading directly to employment in semi-skilled and skilled occupations;

(3) freshman and sophomore courses in arts and sciences;

(4) continuing adult education programs for occupational or cultural upgrading;

(5) compensatory education programs designed to fulfill the commitment of an admissions policy allowing the enrollment of disadvantaged students;

(6) a continuing program of counseling and guidance designed to assist students in achieving their individual educational goals;

(7) work force development programs designed to meet local and statewide needs;

(8) adult literacy and other basic skills programs for adults; and

(9) such other purposes as may be prescribed by the Texas Higher Education Coordinating Board or local governing boards in the best interest of post-secondary education in Texas.

(f) This section does not alter, amend, or repeal Section 54.060 of this code.
Sec. 130.0031. TRANSFERS: WHEN MADE. (a) In this section:

(1) "Category 1 junior college" means a junior college having not more than 2,500 students in fall head count enrollment for the previous fiscal year and not more than $300,000 of local taxes collected, excluding taxes for debt service, in the previous fiscal year.

(2) "Category 2 junior college" means a junior college having more than 2,500 students in fall head count enrollment for the previous fiscal year or more than $300,000 of local taxes collected, excluding taxes for debt service, in the previous fiscal year.

(b) Money appropriated for payment to junior colleges under the authority of Section 130.003 of this code shall be paid to each eligible category 1 junior college out of the public junior college reimbursement fund as follows:

(1) 24 percent of the yearly entitlement of the junior college shall be paid in two equal installments to be made on or before the 25th day of September and October; and

(2) 76 percent of the yearly entitlement of the junior college shall be paid in eight equal installments to be made on or before the 25th day of November, December, January, February, March, April, May, and June.

(c) Money appropriated for payment to junior colleges under the authority of Section 130.003 of this code shall be paid to each
eligible category 2 junior college out of the public junior college reimbursement fund as follows:

(1) 24 percent of the yearly entitlement of the junior college shall be paid in two equal installments to be made on or before the 25th day of September and October; and

(2) 76 percent of the yearly entitlement of the junior college shall be paid in eight equal installments to be made on or before the 25th day of November, December, March, April, May, June, July, and August.

(d) The amount of any installment required by this section may be modified to provide the junior college with the proper amount to which the junior college may be entitled by law and to correct errors in the allocation or distribution of funds. If an installment under this section is required to be equal to other installments, the amount of other installments may be adjusted to provide for that equality. A payment under this section is not invalid because it is not equal to other installments.

Sec. 130.00311. METHODS OF INCLUSION OR PARTICIPATION IN JUNIOR COLLEGE DISTRICT. (a) The following are methods that may be used to be included in or to participate in a junior college district:

(1) the registered voters of territory that is not located in a junior college district may petition to join an existing junior college district or to establish a new junior college district under the other provisions of this chapter; or

(2) a junior college district may enter into an agreement with an entity or community under Section 130.0081 to provide services to the entity or community.

(b) If a political subdivision or part of a political subdivision is not located in a junior college district or has not entered into an agreement under Section 130.0081, a person who resides in that territory and who is a student of a junior college district shall be charged tuition and fees at the rate established under Section 130.0032(d).

Added by Acts 2005, 79th Leg., Ch. 1100 (H.B. 2221), Sec. 1, eff. June 18, 2005.
Sec. 130.0032. TUITION FOR STUDENTS RESIDING OUTSIDE OF DISTRICT. (a) The governing board of a public junior college district may allow a person who resides outside the district and who owns property subject to ad valorem taxation by the district, or a dependent of the person, to pay tuition at the rate applicable to a student who resides in the district.

(b) The governing board of a public junior college district may allow a person who resides outside the district and in the taxing district of a contiguous public junior college district to pay tuition and fees at the rate applicable to a student who resides in the district.

(b-1) The governing board of a public junior college district that includes at least six campuses shall allow a person who resides outside the district and in the taxing district of a contiguous public junior college district to pay tuition and fees at the rate applicable to a student who resides in the district for enrollment at a campus located within an area in which the person resides that, as of January 1, 2013, is designated as a super neighborhood by a municipality with a population greater than two million.

(c) The governing board of a public junior college district may allow a person who resides outside the district to pay tuition and fees at a rate less than the rate applicable to other persons residing outside the district, but not less than the rate applicable to a student who resides in the district, if the person:

(1) resides within the service area of the district;
(2) does not reside in an independent school district that meets the criteria of the coordinating board for the establishment of a junior college district under Section 130.013; and
(3) demonstrates financial need in accordance with rules adopted by the Texas Higher Education Coordinating Board.

(d) The governing board of a junior college district shall establish the rate of tuition and fees charged to a student who resides outside the district by considering factors such as:

(1) the sufficiency of the rate to promote taxpayer equity by encouraging areas benefiting from the educational services of the district to participate in financing the education of students from that area;
(2) the extent to which the rate will ensure that the cost
to the district of providing educational services to a student who resides outside the district is not financed disproportionately by the taxpayers residing within the district; and

(3) the rate that would generate tuition and fees equal to the total amount of tuition and fees charged to a similarly situated student who resides in the district plus an amount per credit hour determined by dividing the total amount of ad valorem taxes imposed by the district in the tax year preceding the year in which the academic year begins by the total number of credit hours for which the students who were residents of the district enrolled in the district in the preceding academic year.

Added by Acts 1997, 75th Leg., ch. 1383, Sec. 2, eff. June 20, 1997. Amended by:

Acts 2005, 79th Leg., Ch. 1100 (H.B. 2221), Sec. 2, eff. June 18, 2005.

Acts 2013, 83rd Leg., R.S., Ch. 1005 (H.B. 2448), Sec. 1, eff. June 14, 2013.

Sec. 130.0033. PILOT PROJECT: REDUCED TUITION FOR CERTAIN COURSES. (a) The Texas Higher Education Coordinating Board shall establish a pilot project to measure the impact of reducing tuition for junior college courses offered at times of low enrollment demand in order to promote greater access to higher education and more efficient use of junior college facilities and resources. The coordinating board shall select a reasonable number of public junior colleges to participate in the pilot project.

(b) The governing board of a public junior college selected to participate in the pilot project may charge tuition for a course or courses at a rate established by the governing board that is less than the rate otherwise required by Section 54.051 or other law if the governing board finds that the reduced tuition rate is reasonably necessary to enable the junior college to make efficient use of its facilities or faculty. The finding must be stated in the order or resolution establishing the reduced tuition rate.

(c) Charging tuition at a reduced rate under this section does not affect the right of the public junior college to a proportionate share of state appropriations under Section 130.003 for the contact hours attributable to students paying tuition at the reduced rate.
Sec. 130.0034. TUITION FOR REPEATED COURSES. (a) The governing board of a public junior college district may charge a student a higher rate of tuition than the tuition that would otherwise be charged for a course in which the student enrolls if:

(1) the student has previously enrolled in the same course or a course of substantially the same content and level two or more times; and

(2) the student's enrollment in the course is not included in the contact hours used to determine the junior college's proportionate share of state appropriations under Section 130.003.

(b) This section does not apply to a non-degree-credit developmental course.

(c) The total amount of tuition charged to the student under this section for the repeated course may not exceed the full cost of instruction for the course with respect to the student.

Added by Acts 2005, 79th Leg., Ch. 1220 (H.B. 994), Sec. 1, eff. June 18, 2005.

Sec. 130.0035. PERFORMANCE REPORTS. (a) As soon as practicable after the end of each academic year, a junior college district shall prepare an annual performance report for that academic year. The report shall be prepared in a form that would enable any interested person, including a prospective student, to understand the information in the report and to compare the information to similar information for other junior college districts. A junior college district shall make the report available to any person on request.

(b) The report must include the following information for the junior college district for the academic year covered by the report:
(1) the rate at which students completed courses attempted;
(2) the number and types of degrees and certificates awarded;
(3) the percentage of graduates who passed licensing exams related to the degree or certificate awarded, to the extent the information can be determined;
(4) the number of students or graduates who transfer to or are admitted to a public university;
(5) the passing rates for students required to be tested under Section 51.306;
(6) the percentage of students enrolled who are academically disadvantaged;
(7) the percentage of students enrolled who are economically disadvantaged;
(8) the racial and ethnic composition of the district's student body; and
(9) the percentage of student contact hours taught by full-time faculty.

(c) The Legislative Budget Board shall be responsible for recommending standards for reports under this section, in consultation with junior college districts, the Texas Higher Education Coordinating Board, and the governor's office of budget and planning.

(d) Expired.

seeking a degree or certificate;

(5) students enrolled in courses for credit to transfer to another institution;

(6) students enrolled in developmental education courses by course level; and

(7) enrollment in other categories as specified by the coordinating board.

(b) In administering this section, the coordinating board shall attempt to avoid duplicating other reporting requirements applicable to junior college districts. The coordinating board shall consult with the governing boards of the state's junior college districts in determining the form, manner, and times of reports under this section.

Added by Acts 1999, 76th Leg., ch. 1320, Sec. 1, eff. Aug. 30, 1999.

(2) course credit as a student of the junior college, if the student has been admitted to the junior college or becomes
eligible to enroll in and is subsequently admitted to the junior college.

For purposes of this section, a student who attends a school that is not formally organized as a high school and is at least 16 years of age is considered to be attending a high school.

SUBCHAPTER B. INDEPENDENT SCHOOL DISTRICT OR CITY JUNIOR COLLEGE

Sec. 130.011. ESTABLISHMENT OF INDEPENDENT SCHOOL DISTRICT OR CITY JUNIOR COLLEGE. (a) An independent school district junior college may be established by any independent school district or city which has assumed control of its schools meeting the requirements set out in Section 130.032 of this code and subject to the findings of the coordinating board under Section 130.013.

(b) Any such college district established and maintained as provided in this chapter shall be known as a junior college district.

Sec. 130.012. PETITION TO ESTABLISH. (a) Whenever it is proposed to establish a junior college district in any type of unit authorized by Section 130.011 of this code, a petition praying for an election, signed by not less than 10 percent of the qualified electors of the proposed district shall be presented to the school board of trustees of the district or city, which shall:

(1) pass upon the legality and genuineness of the petition; and

(2) forward the petition, if approved, to the coordinating board.

(b) Any petition authorized by this section shall also incorporate a request for the proper authorities, in the event an election is ordered for the creation of such district, to submit at the same election the questions of issuing bonds and levying bond taxes, and levying maintenance taxes, in the event the district is created, not to exceed the limits provided in Section 130.122 of this code.

Acts 1969, 61st Leg., p. 2996, ch. 889, Sec. 1. Renumbered from
Sec. 130.013. ORDER TO ESTABLISH. It shall be the duty of the coordinating board with the advice of the commissioner of higher education to determine whether or not the conditions set forth in Sections 130.012 and 130.032 of this code have been complied with, and also whether, considering the geographic location of colleges already established, it is feasible and desirable to establish the proposed junior college district. In the exercise of this authority the board shall develop and publish criteria to be used as a basis for determining the need for a public junior college in the proposed district. The board shall determine whether programs in a proposed institution would create unnecessary duplication or seriously harm programs in existing community college districts. It shall be the duty of the coordinating board to consider the needs and the welfare of the state as a whole, as well as the welfare of the community involved. The decision of the coordinating board shall be final and shall be transmitted through the commissioner of higher education to the local school board, along with the order of the coordinating board authorizing further procedure in the establishment of the junior college district, if the coordinating board endorses its establishment.

Sec. 130.014. ELECTION. (a) If the coordinating board approves of the establishment of the junior college district, it shall then be the duty of the local school board to enter an order for an election to be held in the proposed territory at the next authorized election date as provided in Article 2.01b of the Election Code, to determine whether or not such junior college district shall be created and formed and to submit the questions of issuing bonds and levying bond taxes, and levying maintenance taxes, in the event...
the district is created. Such order shall:
   (1) contain a description of the metes and bounds of the junior college district to be formed; and
   (2) fix the date for the election.

(b) If a majority of the electors voting at the election shall be in favor of the creation of a junior college district, the district shall be deemed to be formed and created. The local school board shall make a canvass of the returns and declare the result of the election within 10 days after holding the election, and enter an order on the minutes of the board as to the result of the election.

Sec. 130.015. CONTROL OF INDEPENDENT SCHOOL DISTRICT OR CITY JUNIOR COLLEGE. A junior college established by an independent school district or city that has assumed control of schools already validated or established pursuant to the provisions of this chapter may be governed, administered, and controlled by and under the direction of the board of trustees of that independent or city school district.

Sec. 130.016. SEPARATE BOARD OF TRUSTEES IN CERTAIN INSTANCES. (a) A junior college established by an independent school district or city that has assumed control of schools already validated or established pursuant to the provisions of this chapter may be governed, administered, and controlled by and under the direction of a separate board of trustees, which may be placed in authority by either of the following procedures:
   (1) the board of trustees of an independent school district or city school district which has the management, control, and operation of a junior college may divest itself of the management, control, and operation of that junior college so maintained and
operated by the school board by appointing for the junior college district a separate board of trustees of nine members; or

(2) the board of trustees of any independent school district or city school district which has the control and management of a junior college may be divested of its control and management of that junior college by the procedure prescribed in Section 130.017 of this code.

(b) If the board of trustees of an independent school district that divests itself of the management, control, and operation of a junior college district under this section or under Section 130.017 of this code was authorized by Subsection (e) of Section 20.48 of this code to dedicate a portion of its tax levy to the junior college district before the divestment, the junior college district may levy an ad valorem tax from and after the divestment. In the first two years in which the junior college district levies an ad valorem tax, the tax rate adopted by the governing body may not exceed the rate that, if applied to the total taxable value submitted to the governing body under Section 26.04, Tax Code, would impose an amount equal to the amount of taxes of the school district dedicated to the junior college under Subsection (e) of Section 20.48 of this code in the last dedication before the divestment. In subsequent years, the tax rate of the junior college district is subject to Section 26.07, Tax Code.

Sec. 130.017. PETITION AND ELECTION TO DIVEST SCHOOL BOARD OF AUTHORITY. (a) On a petition signed by 10 percent of the qualified electors of the independent school district or city school district, the board of trustees within 30 days shall call an election after the petition has been duly presented on the proposition of whether the school board of trustees shall be divested of its authority as governing board of such junior college district.

(b) At the election called under Subsection (a) of this section, the board of trustees shall also include a separate proposition on whether the junior college district may levy ad
valorem taxes.

(c) The board of trustees shall, within 30 days after the official canvass of the election, appoint for the junior college district a separate board of trustees as provided by this code to serve as the governing board of the junior college district if the majority of the votes in the election under this section are cast in favor of both propositions. If a majority of the votes in the election are cast against either proposition, the board may not divest its authority as the governing board of the junior college district unless both propositions are approved at a subsequent election. A subsequent election on the propositions may not be held before the first anniversary of the election date.

(d) The separate governing board of the junior college district may levy and collect taxes in accordance with Subchapter G of this chapter at the approved rate without an additional election.

Sec. 130.018. SEPARATE BOARD OF TRUSTEES--TERMS, ETC. In the event a separate board of trustees for the junior college district is appointed under either procedure set out in Section 130.016 or Section 130.017 of this code, the board of trustees, consisting of nine members, shall be organized and constituted pursuant to the provisions of Section 130.082 of this code, and be governed by the provisions thereof.

Sec. 130.019. SEPARATE BOARD OF TRUSTEES; AD VALOREM TAXES. A board of trustees of an independent school district or city school district that has the management, control, and operation of a junior college district may not divest itself of that management, control, and operation of the junior college district under Section 130.016 of this code or have the management, control, and operation of the
junior college district divested under Section 130.017 of this code, unless the junior college district has the authority to levy ad valorem taxes for the maintenance of the junior college district or acquires that authority at an election held under Section 130.017.

Added by Acts 1987, 70th Leg., ch. 284, Sec. 2, eff. Sept. 1, 1987.

(1) pass upon the legality of the petition and the genuineness of the same; and

(2) forward the petition, so approved, to the Coordinating Board, Texas College and University System.

Sec. 130.036. ORDER TO ESTABLISH. It shall be the duty of the coordinating board, with the advice of the commissioner of higher education to determine whether or not the conditions set forth in the preceding sections of this chapter have been complied with, and also whether, considering the geographic location of colleges already established, it is feasible and desirable to establish a junior college district. In the exercise of this authority the board shall develop and publish criteria to be used as a basis for determining the need for a public junior college in the proposed district. The board shall determine whether programs in a proposed institution would create unnecessary duplication or seriously harm programs in existing community college districts. It shall be the duty of the coordinating board in making its decision to consider the needs and the welfare of the state as a whole, as well as the welfare of the community involved. Each candidate who files an application is entitled to have his name printed on the official ballot beneath the number of the position designated in his application. A person who fails to file the application required by this section may not have his name printed on the official ballot. A candidate is eligible to have his name printed on the ballot under only one position to be filled at the election.

(e) In the election each voter may vote for only one candidate for each numbered position. The candidate receiving the most votes for each numbered position voted on in the election is entitled to serve as a trustee on the board, in the position to which he is elected.

(f) Notice of an election in a district must be given in the manner and for the time required under the law authorizing the creation of the district, except where there is a conflict with the provisions of this section, then this section is controlling.

(g) The board of trustees of a district with a population greater than one million may require that an application filed under Subsection (d) be accompanied by a filing fee not to exceed $200 as determined by the board or, instead of the filing fee, a petition signed by a number of registered voters of the district not to exceed 200 as determined by the board.

SUBCHAPTER D. CHANGES IN DISTRICT BOUNDARIES

Sec. 130.061. EXTENSION OF BOUNDARIES OF A JUNIOR COLLEGE DISTRICT COEXTENSIVE WITH AN INDEPENDENT SCHOOL DISTRICT. The
district boundaries of an independent school district junior college shall automatically be extended so that the boundary lines of the two districts, independent school district and junior college district, shall remain identical when:

(1) the junior college district was created with the same boundary lines as an independent school district;

(2) the boundaries of the independent school district are extended by consolidation, attachment of territory, or otherwise; and

(3) the board of trustees of the independent school district is also the governing board of the junior college.

Sec. 130.062. ENLARGED DISTRICT: CREATION; RESOLUTION; ORDER. (a) If the creation of the junior college district and the extension of the boundaries of the independent school district both occurred prior to March 17, 1950, the added territory of the independent school district may be brought into the junior college district in the manner prescribed by this section.

(b) A petition requesting that such territory be added to the junior college district signed by a majority of the registered voters of the territory may be presented to the governing board of the junior college district.

(c) The board shall determine whether the petition is signed by the required majority and if such determination is affirmative and if the board shall also determine that the facilities of the junior college district may be extended to cover adequately the scholastics of the added territory, the board shall pass an order admitting such territory. The order shall describe by metes and bounds the junior college district as extended; and a copy of the order shall be filed with the county superintendent. Thereafter, the territory shall be a part of the junior college district for all intents and purposes.

Sec. 130.063. EXTENSION OF JUNIOR COLLEGE DISTRICT BOUNDARIES.

(a) Subject to Subsection (b), territory may be annexed to a junior college district by contract under Section 130.064 or election under Section 130.065, if the territory:

(1) is contiguous to the annexing junior college district; or

(2) is located in the service area of the annexing district established under Subchapter J.

(b) Territory may be annexed to a junior college district as provided by this section only if the territory is located wholly within a single school district, county, or municipality. This subsection does not prohibit a junior college district from conducting annexation elections or other annexation procedures for more than one territory at the same time.

(c) A junior college district may not annex territory under this section that is included in the boundaries of another junior college district.

(d) Except as provided by Subsection (e), a junior college district may not annex territory under this section if a campus of the Texas State Technical College System is located:

(1) within the county in which the territory is located; and

(2) outside the junior college district.

(e) This section does not prevent a junior college district from annexing territory located in Brown County.

Sec. 130.064. ANNEXATION BY CONTRACT. If the annexation is by contract, a petition shall be presented to the governing board of any junior college district, executed by all property owners of all property situated in the territory proposed for annexation. The petition shall contain a legally sufficient description of the territory proposed for annexation. The governing board of the junior college district, if it deems the annexation to be in the best interest of the district, may effect the annexation by:

(1) entering its order authorizing the annexation of the territory by contract; and
(2) then entering into a written agreement duly executed and acknowledged by all persons, corporations, and entities owning property within the territory.

Sec. 130.065. ANNEXATION BY ELECTION. (a) On presentation to the governing board of a junior college district of a petition proposing the annexation of territory to the district, the governing board may call an election on the question of annexing the territory. The petition must:

(1) contain an accurate description of the territory proposed for annexation; and
(2) be signed by a number of registered voters in the territory proposed to be annexed equal to at least five percent of the registered voters in that territory as of the most recent general election for state and county officers.

(b) Before the governing board of the junior college district may order an annexation election, the board must hold a public hearing within the territory proposed for annexation. The hearing must be held not earlier than the 45th day and not later than the 30th day before the date the board issues the order for the election.

(c) Not later than the 30th day before the date of a public hearing held under Subsection (b), the board shall complete and publish a service plan for the territory proposed for annexation. The service plan is informational only and must include:

(1) the maximum property tax rate that the board may adopt;
(2) the most recent property tax rate adopted by the board and any tax rate increase proposed or anticipated to occur after the annexation;

(3) the tuition rate that would apply after annexation for a student who resides in the district;

(4) the tuition and fees that would apply under Section 130.0032(d) for a student who resides outside the district;

(5) plans for providing educational services in the territory, including proposed or contemplated campus and facility expansion in the territory;

(6) plans for cooperation with local workforce agencies; and

(7) any other elements consistent with this subchapter prescribed by rule of the Texas Higher Education Coordinating Board.

(d) The governing board shall issue an order for an election to be held in the territory proposed for annexation on a uniform election date that is not less than 45 days after the date of the order and that affords enough time to hold the election in the manner provided by law. The board shall give notice of the election in the manner provided by law for notice by the county judge of a general election.

(e) The governing board shall conduct the election in accordance with the Election Code.

(f) The election shall be held only in the territory proposed for annexation, and only those registered voters residing in that territory are permitted to vote.

(g) The ballot shall be printed to provide for voting for or against the proposition: "Approving the annexation by the ________ (name of junior college district) of the following territory: ________ (with the blank filled in with a description of the territory proposed for annexation), and authorizing the imposition of an ad valorem tax for junior college purposes, which is currently set at a rate of ____________ (with the blank filled in with the ad valorem tax rate of the district for the current year or, if that rate has not been adopted, the tax rate for the preceding year) per $100 valuation of taxable property."

(h) The measure is adopted if the measure receives a favorable vote of a majority of those voters voting on the measure.

(i) If the measure is adopted, the governing board of the district shall enter an order declaring the result of the election.
and that the territory is annexed to the junior college district on the date specified in the order.

(j) If the proposition is adopted and the governing board is elected from single-member districts, the governing board in the annexation order entered under Subsection (i) shall assign the new territory to one or more of the current single-member districts.

(k) The annexation of territory and any resulting change in the single-member districts from which members of the governing board are elected does not affect the term of a member of the governing board serving on the date the annexation or redistricting takes effect. The governing board shall provide that each member of the governing board representing a single-member district who is holding office on the date the annexation takes effect serve the remainder of the member's term and represent a single-member district in the expanded junior college district for that term regardless of whether the member resides in that single-member district.

(l) If the measure is not adopted at the election, another election to annex all or part of the same territory may not be held earlier than one year after the date of the election at which the measure is not adopted.

Sec. 130.066. AUTOMATIC ANNEXATION OF CERTAIN TERRITORY. If the junior college district annexes territory under this subchapter comprising all of a municipality or school district, the governing board by order may annex for junior college purposes any territory later annexed by or added to the municipality or school district.

Sec. 130.067. ANNEXATION OF COUNTY-LINE SCHOOL DISTRICT FOR JUNIOR COLLEGE PURPOSES. (a) In this section:

(1) "County-line school district" means any type of public school district created or organized under general or special law that includes within its boundaries territory that is located in two or more counties of Texas.

(2) "County or joint-county junior college district" means a junior college district that was originally created and organized with the same boundaries as a county or as a group of contiguous counties and that included all of the territory in the county or group of counties and did not include a part of any county without including the entire territory of the county.

(b) A part of a county-line school district that is contiguous to but not included within the boundaries of a county or joint-county junior college district may be annexed to the junior college district for junior college purposes only either by election as provided by Section 130.065 or by order entered pursuant to a petition requesting annexation of the territory as provided by this section.

(c) The county or joint-county junior college district as originally created and organized must have included in its boundaries a part of the county-line school district, and the part of the county-line school district to be annexed may not be included in any other junior college district.

(d) On presentation of a petition, signed by a number of registered voters residing in the part of a county-line school district requesting annexation equal to at least a majority of the registered voters residing in that territory as of the most recent general election for state and county officers to the county judge of the county in which the territory requested to be annexed is located, together with a certified copy of an order by the governing board of the junior college district approving the proposed annexation to the junior college district for junior college purposes only, the county judge shall certify the filing of the petition and order to the commissioners court. The court at its next meeting shall pass an order declaring the territory annexed to the junior college district.
(e) Territory may be annexed by petition under this section only if the territory is located wholly within a single county. For territory located in more than one county, a separate petition requesting the annexation of the territory is required for each county.

Sec. 130.068. EXTENDING BOUNDARIES OF JUNIOR COLLEGE DISTRICT IN DISTRICT'S SERVICE AREA. (a) The governing board of a junior college district may order an election on the question of establishing expanded boundaries for the junior college district to encompass all of the territory located within the district's service area established by Subchapter J, other than territory located in the service area of another junior college district, if more than 35 percent of the total number of students who enrolled in the junior college district in the most recent academic year resided outside of the existing junior college district.

(b) The governing board of a junior college district may order an election on the question of establishing expanded boundaries for the junior college district to encompass part of the territory located within the district's service area established by Subchapter J, other than territory located in the service area of another junior college district, if more than 15 percent of the high school graduates for each of the preceding five academic years in the territory proposed to be added to the district have enrolled in the junior college district.

(c) Except as otherwise provided by this section, Section 130.065 applies to an action taken under this section, including the provisions of Section 130.065 requiring a petition to be submitted before an election may be called.

(d) A junior college district may not adopt new boundaries for the district under this section that extend within the service area of another junior college district.
Sec. 130.069. DISANNEXATION OF OVERLAPPED TERRITORY. (a) All junior college districts whose boundaries have or may hereafter become established so that they include territory which prior to such establishment lay, and shall continue to lie, within the boundaries of another junior college district shall have the power to disannex such overlapped territory.

(b) Upon certification by the governing board of such a junior college district to the county board of school trustees of the county in which its college is located that such an overlapping condition exists, the county board may by resolution disannex the overlapped territory from the district, describing such territory by metes and bounds.

Sec. 130.070. DISANNEXATION OF TERRITORY COMPRISING AN INDEPENDENT SCHOOL DISTRICT. (a) The territory of an independent school district which is the only school district that has been annexed to a countywide independent school district junior college district in an adjoining county may be disannexed from such countywide independent school district junior college district and constituted as a separate independent school district junior college district in accordance with the provisions of this section, provided that the countywide independent school district junior college district has no outstanding bonded indebtedness which was incurred after the annexation of such independent school district.

(b) The proposed disannexation and creation of a separate junior college district shall be initiated by a petition signed by not less than five percent (5%) of the registered voters of the
independent school district seeking disannexation. The petition shall be presented to the board of trustees of the independent school district seeking to be disannexed, which shall pass upon the legality and genuineness of the petition and forward the petition, if approved, to the coordinating board.

(c) If the petition is found to be in order and all statutory provisions have been complied with, the coordinating board shall approve the petition and notify the board of trustees of the independent school district seeking to be disannexed, of such approval. The board of trustees of the independent school district seeking disannexation shall then order an election to be held in the school district within a time not less than twenty (20) days nor more than thirty (30) days after the order is issued. At the election the ballots shall be printed to provide for voting for or against the proposition: "Disannexation of the _____________ Independent School from the _____________ Junior College District, and creation of the _____________ Junior College District with boundaries coterminous with the boundaries of the _____________ Independent School District" (the blanks to be filled in as appropriate). All expenses incurred in holding the election shall be paid by the independent school district ordering such election.

(d) The board of trustees shall make a canvass of the returns and declare the result of the election within ten (10) days after holding the election and shall enter an order on the minutes of the board as to the result of the election. If a majority of the votes cast are in favor of disannexation and creation of a separate junior college district, such independent school district shall be deemed disannexed and constituted as a separate junior college district.

(e) If the creation of the separate junior college district is approved, it shall be governed by the provisions of this code relating to independent school district junior colleges. The offices of the representatives of the disannexed independent school district on the governing body of the countywide independent school district junior college district shall be terminated, and the remaining members of that governing body shall continue to serve for the terms for which they were elected.

(f) Any petition for disannexation and creation of a separate junior college district may also incorporate a request for the proper authorities, in the event an election is ordered for the creation of a new district, to submit at the same election, either as a part of
the disannexation issue or as a separate issue, the questions of issuing bonds and levying bond taxes and levying maintenance taxes, in the event the district is created, not to exceed the limits provided in Section 130.122 of this code.

**SUBCHAPTER E. BOARDS OF TRUSTEES OF JUNIOR COLLEGE DISTRICTS**

Sec. 130.081. GOVERNING BOARD OF JUNIOR COLLEGE OF INDEPENDENT SCHOOL DISTRICT. In each junior college district which is controlled and managed by, and under the jurisdiction of, the governing board of an independent school district or a city school district, such governing board shall be constituted and chosen in accordance with the laws of this state applicable to the governing board of such independent school district or city school district.

Sec. 130.082. GOVERNING BOARD OF JUNIOR COLLEGE OF OTHER THAN INDEPENDENT SCHOOL DISTRICT. (a) Except as provided by Section 130.081 or another section of this subchapter, the governing boards of all junior college districts shall be constituted and chosen as described in the provisions of this section.

(b) The official name of the governing board of the junior college district shall be the board of trustees.

(c) The official name of a junior college district shall be the "________ Junior College District" unless the board of trustees of the district elects to call the district a community college district, in which event the official name of the junior college district shall be the "________ Community College District." The board shall designate an appropriate and locally pertinent descriptive word or words to be filled in the appropriate blank (and may change such designation when deemed advisable) by resolution or order; provided that no two districts shall have the same or substantially similar names. A district may change its name under
Section 130.005 or 130.0051. All resolutions or orders designating or changing names shall be filed immediately with the Texas Higher Education Coordinating Board and the first name filed shall have priority, and the district shall be advised of any previous filing of any identical or substantially similar name. The name of any junior college district existing on September 1, 1997, shall remain the same until and unless it is changed under this chapter, and any change in the name of a junior college district made before that date is validated and is deemed to have been properly made. Another district may not use the name of any district whose name change is validated under this subsection.

(d) The number of members or trustees of the governing board shall be either seven or nine, in accordance with the laws applicable to the junior college district on the effective date of this code or on the date of the creation of a new district or a new board. Any seven-member board may be increased to nine, and the two additional members shall be appointed by resolution or order of the board for terms of office as prescribed in Subsection (e) of this section. Any vacancy occurring on the board through death, resignation, or otherwise, shall be filled by a special election ordered by the board or by appointment by resolution or order of the board. A person appointed to fill a vacancy in a trustee district must be a resident of that trustee district. A person appointed to fill a vacancy in the representation of the district at large must be a resident of the district at large. A special election to fill a board vacancy is conducted in the same manner as the district's general election except as provided by the applicable provisions of the Election Code. The person appointed to fill the unexpired term shall serve until the next regular election of members to the board, at which time the position shall be filled by election for a term appropriately shortened to conform with what regularly would have been the length of the term for that position. Each member of the board shall be a resident, qualified voter of the district and shall take the proper oath of office before taking up the duties thereof. Members of a board shall not receive any remuneration or emolument of office, but they shall be entitled to reimbursement for their actual expenses incurred in performing their duties, to the extent authorized and permitted by the board. The board shall elect one of its members as president of the board, and the president shall preside at meetings of said board and perform such other duties and functions as are
prescribed by the board. The president of the board shall have a vote the same as the other members. The board shall elect a secretary of the board who may or may not be a member of the board, and who shall be the official custodian of the minutes, books, records, and seal of said board, and who shall perform such other duties and functions as are prescribed by the board. The board shall be authorized to elect any other officers as deemed necessary or advisable. Officers of the board shall be elected at the first regular meeting of the board following the regular election of members of the board in even-numbered years, or at any time thereafter in order to fill a vacancy. Said board shall be authorized to appoint or employ such agents, employees, and officials as deemed necessary or advisable to carry out any power, duty, or function of said board; and to employ a president, dean, or other administrative officer, and upon the president's recommendation to employ faculty and other employees of the junior college. Said board shall act and proceed by and through resolutions or orders adopted or passed by the board and the affirmative vote of a majority of all members of the board shall be required to adopt or pass a resolution or order, and the board shall adopt such rules, regulations, and bylaws as it deems advisable, not inconsistent with this section.

(e) The basic term of office of a member of the board shall be six years, and one-third of the members of the board shall be elected at large in the district at regular elections to be held on the first Saturday in April in each even-numbered year; provided that with a seven-member board two members shall be elected in two consecutive even-numbered years and three members shall be elected in the following even-numbered year. The members of each board in office at the effective date of this act, and all subsequent members of the board, shall remain in office until the expiration of the terms for which they were elected or appointed, and until their successors shall have been elected and qualified; provided that where any existing board has held its regular elections for members of the board in odd-numbered years prior to the effective date of this act, the board shall nevertheless hold its next regular election on the first Saturday in April of the next even-numbered year following the effective date of this act, and the term of office of each incumbent member of the board shall, in effect, be lengthened by one year so as to comply with the foregoing provisions of this act. Upon the creation of a new board, or in any other situation where necessary,
the members of the board shall choose by lot the terms for which they shall serve, so as to comply with the foregoing provisions. If a board is increased from seven to nine members, one of the members shall be appointed to serve until the first election at which two members otherwise would have been elected, and the other shall be appointed to serve until the second election at which two members otherwise would have been elected, and three members shall be elected for six-year terms at each election.

(f) Members of a board shall be elected at large from each junior college district at regular elections to be called and held by the board for such purpose, at the expense of the district, on the first Saturday in April in each even-numbered year. Said elections shall be held in accordance with the Texas Election Code except as hereinafter provided, and all resident, qualified electors of the district shall be permitted to vote. Each such election shall be called by resolution or order of the board, and notice of each such election shall be given by publishing an appropriate notice, in a newspaper of general circulation in the district, at least 10 days prior to the date of the election, setting forth the date of the election, the polling place or places, the numbers of the positions to be filled, the candidates for each position and any other matters deemed necessary or advisable.

(g) The board shall designate a number for the position held by each member of the board, from one upward in consecutive numerical order in such manner that the lowest numbers shall be assigned to the members whose terms of office expire in the shortest length of time, provided that any such position number designations on existing boards under existing law at the effective date of this act shall remain in effect. At each election candidates shall be voted upon and be elected separately for each position on the board, and the name of each candidate shall be placed on the official ballot according to the number of the position for which he or she is running. A candidate receiving a majority of the votes cast for all candidates for a position shall be declared elected. If no candidate receives such a majority, then the two candidates receiving the highest number of votes shall run against each other for the position. The run-off election for all positions shall be held on a date that complies with law and shall be ordered, notice thereof given, and held, as provided herein for regular elections. Any resident, qualified elector of the district may have his or her name
placed as a candidate on the official ballot for any position to be filled at each regular election by filing with the secretary of the board a written application therefor signed by the applicant, not later than 5 p.m. of the 45th day before the date of the election. An application may not be filed earlier than the 30th day before the date of the filing deadline. Such application must state the number of the position for which he or she is a candidate, or the name of the incumbent member of the board holding the position for which he or she desires to run. The location on the ballot of the names of candidates for each position shall be chosen by lot by the board. A candidate shall be eligible to run for only one position at each election.

(h) Notwithstanding anything in this code to the contrary, the provisions of all or any part of the laws of this state in effect immediately prior to the effective date of this act and relating to the name of any junior college district or the name of its governing board, or to the number of members of its governing board, or the procedures and times of electing or choosing said members, shall remain in effect under the following conditions. If, at any time before the effective date of this act (but not thereafter), the governing board of any junior college district shall specify by resolution or order the particular provisions of the aforesaid laws applicable to it which it desires to remain in effect, then such particular provisions shall continue to apply to said board and its district; provided that at any time thereafter the governing board may make this section in its entirety applicable to it and its district by appropriate resolution or order, and thereby permanently cancel the effect of the aforesaid particular provisions of other laws. All resolutions and orders permitted by this section shall be filed immediately with the Coordinating Board, Texas College and University System.

(i) The election of trustees of a countywide junior or community college district that contains a city with a population of more than 1.18 million located primarily in a county with a population of 2 million or more shall be held on the first Saturday in April of each even-numbered year. When a runoff election is necessary, the board may order the election for a date to coincide with the date of the runoff election for city officials, if the city is holding a runoff election; otherwise, the board shall set the date of the runoff election for not later than three weeks following
the regular election.

(j) Notwithstanding the election dates prescribed by this section, an election held under this section shall be held on a uniform election date as provided by law.

Sec. 130.0821. GOVERNING BOARD OF CERTAIN COUNTYWIDE COMMUNITY COLLEGE DISTRICTS. (a) The members of the governing board of a countywide community college district that contains a city with a population of more than 384,500 residents shall be elected from single-member trustee districts.

(b) The board of trustees shall divide the district into the appropriate number of compact trustee districts which contain as nearly as practicable an equal number of inhabitants according to the last preceding federal census. Residents of each trustee district shall be entitled to elect one member of the board, and each candidate seeking to represent a trustee district must reside in the trustee district he seeks to represent. Trustees shall, during their term of office, reside within the trustee district from which they were elected.

(c) Members of the board of trustees of the district shall serve for staggered terms of six years with the terms of one-third of the members, as nearly as may be, expiring in each even-numbered year.

(e) Not later than the 90th day after the earliest date on which the board of trustees may recognize and act on the publication of the federal decennial census under Section 2058.001, Government Code, the board of trustees shall redivide the district into the appropriate number of trustee districts if the census data indicates that the population of the most populous trustee district exceeds the population of the least populous district by more than 10 percent. Within 90 days following the effective date of an order or resolution of the board of trustees to increase the number of board members, the board of trustees shall redivide the district into the appropriate number of trustee districts as increased. At the next district election following the redistricting of the district under this subsection, each trustee district shall elect a member of the board unless the board of trustees determines that trustees shall be elected from the new trustee districts as provided by Section 130.0826, and the members elected shall draw lots for the appropriate number of two-year, four-year, and six-year terms as needed to establish staggered terms as required by Subsection (c).

(f) Any election held pursuant to the terms of this section shall be conducted in accordance with the provisions of Subsection (i), Section 130.082 of this code.

(g) Trustees elected under the provisions of this section take office on the first Tuesday in May.

(h) A district described by Subsection (a) of this section that has previously adopted or been required to implement single-member district representation in connection with a judicial proceeding may continue to operate under that plan.

Sec. 130.0822. ELECTION FROM SINGLE-MEMBER TRUSTEE DISTRICTS. (a) The board of trustees of a junior college district may order that all or a majority of the trustees of the district be elected from single-member trustee districts.
(b) An order of the board adopted under Subsection (a) of this section must be entered not later than the 120th day before the day of the first election of trustees from single-member trustee districts.

(c) The appointment and election of trustees of the junior college district are subject to Section 130.082 of this code, except as otherwise provided by this section.

(d) If the board orders that trustees shall be elected from single-member trustee districts, the board shall divide the junior college district into the appropriate number of trustee districts, based on the number of members of the board that are to be elected from single-member districts, and shall number each trustee district.

(e) The trustee districts must be compact and contiguous, and must be as nearly as practicable of equal population according to the last preceding federal census.

(f) Trustee districts must be drawn not later than the 90th day before the day of the first election of trustees from single-member districts.

(g) The board may provide for trustees holding office on the date of the initial election of trustees from single-member districts to serve the remainder of their terms and to represent a trustee district for that term without having residency in that trustee district.

(h) Except in the case of residents of a trustee district who are represented by a trustee serving in accordance with Subsection (g) of this section, residents of each trustee district are entitled to elect one trustee to the board. A candidate for trustee must be a resident of the trustee district the candidate seeks to represent. A trustee other than a trustee serving in accordance with Subsection (g) of this section vacates the office if he or she ceases to reside in the trustee district he or she represents.

(i) Any vacancy on the board shall be filled by appointment made by the remaining members of the board. The appointed person serves for the unexpired term.

(j) After each redistricting, all positions on the board shall be filled unless the board of trustees determines that trustees shall be elected from the new trustee districts as provided by Section 130.0826. The trustees then elected shall draw lots for staggered terms as provided by Section 130.082.

(k) Not later than the 90th day before the day of the first
regular junior college district trustee election at which trustees may officially recognize and act on the last preceding federal census, the board shall redivide the district into the appropriate number of trustee districts if the census data indicates that the population of the most populous district exceeds the population of the least populous district by more than 10 percent. Redivision of the district shall be in the manner provided for the initial division of the district.

(1) This section does not apply to a junior college district to which Section 130.081, 130.083, 130.0821, or 130.088 of this code applies, or to a junior college district required by other law to elect trustees from single-member districts. This section does not apply to the election of trustees in any district in which the election of trustees is governed by a court order so long as that order remains in effect. This section does apply to an independent school district junior college district governed by a separate board of trustees.

Sec. 130.0826. OPTION TO CONTINUE IN OFFICE FOLLOWING REDISTRICTING. (a) The board of trustees of any junior college district that elects some or all of its members from single-member districts and in which the trustees serve staggered terms may provide for the trustees in office at the first election after the junior college district is redistricted to serve for the remainder of their terms in accordance with this section.

(b) If the board of trustees provides for the trustees in office to serve for the remainder of their terms in accordance with this section, the trustee districts established by the redistricting plan shall be filled as the staggered terms of trustees in office expire. When the board of trustees adopts a redistricting plan, the board shall determine from which new trustee district the position of each trustee in office will be filled as it becomes vacant.

(c) This section does not authorize a trustee of a junior college district to continue in office after a redistricting plan takes effect if the member no longer resides in the district from which the trustee was elected.

Sec. 130.083. GOVERNING BOARD IN ENLARGED JUNIOR COLLEGE DISTRICT. (a) From and after May 22, 1969, those junior college districts which were on May 22, 1969, operating under Chapter 15, Acts of the 58th Legislature, 1963 (Article 2815o-1b, Vernon's Texas Civil Statutes), and to which one, or more, school districts has been annexed for junior college purposes only, may, by a majority vote of the board of regents of the junior college district, choose to operate and be governed by a board of regents.

(b) Each school district which has been annexed to the junior college district for junior colleges purposes only shall be represented by at least one member of the board of regents. If the assessed tax rolls exceed $67,500,000, the school district shall be represented by one member of the board of regents for each $67,500,000 of assessed value, or a major fraction thereof, on the junior college tax roll, located within the school district. The original junior college district shall be represented on the board of regents by a number of regents arrived at according to the same formula.
(c) The total number of members of the board of regents of the junior college district shall never exceed 14. When the valuation of the enlarged district increases to the point that the number of regents exceeds 14 under the formula described in Subsection (b) of this section then the board of regents of the junior college district shall set a formula, based on proportional tax values, of representation, which will produce a total of 14 members of the board of regents.

(d) The terms of office of the regents authorized by this act shall be six years. Those regents serving as regents on May 22, 1969, shall continue in office for the remainder of their respective terms and then until such time as their successors shall have been elected and qualified, and thereafter in each even-numbered year three regents shall be elected from the area originally forming the junior college district to succeed those regents whose terms are expiring, but if the number of regents becomes more or less than nine, the formula set out in Subsection (e) of this section shall be followed. All new regents added to the board of regents under the provisions of this section shall be appointed by the board of regents which orders the enlargement of the membership of such board, and shall serve until election specified in Subsection (e) of this section. All vacancies on the board of regents shall be filled at once for the unexpired term only by appointments made by the remaining members of such board.

(e) Where additional regent positions are provided under the terms of this section, the board of regents at the time of such authorization shall designate by resolution duly recorded in the minutes of such board the term to be served by each such additional regent, provided that the first regent authorized and appointed shall serve only until the next regular regent election, the second such regent shall serve until the regent election two years after the next regular regent election, and the third regent shall serve until the regent election four years after the next regular regent election, with additional regents which may be authorized to follow the same rotation of terms until all terms of additional regents provided under the terms of this section have been fixed to expire at the next regular regent election, or at the regent election two years after the next regular regent election, or at the regent election four years after the next regular election. Additional regents appointed to such terms and until such times as their successors shall have
been elected and qualified, and thereafter the terms of such regents shall be for six years.

(f) Regent elections in all parts of the districts affected by the provisions of this section shall be held at the times and in the manner now provided for public junior colleges by general law. The qualified voters residing in the school district represented shall be entitled to vote in such elections. Each regent to be elected shall be a resident of the school district he is to represent and each regent to represent the original college district shall be a resident of the original college district.

(g) The provisions of this section shall be cumulative of existing laws governing elections of regents in public junior college districts.

Added by Acts 1971, 62nd Leg., p. 3296, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 130.084. POWERS AND DUTIES. (a) The governing board of a junior college district shall be governed in the establishment, management, and control of a public junior college in the district by the general law governing the establishment, management, and control of independent school districts insofar as the general law is applicable.

(b) The governing board of a junior college district may set and collect with respect to a public junior college in the district any amount of tuition, rentals, rates, charges, or fees the board considers necessary for the efficient operation of the college, except that a tuition rate set under this subsection must satisfy the requirements of Section 54.051(n). The governing board may set a different tuition rate for each program, course, or course level offered by the college, including a program, course, or course level to which a provision of Section 54.051 applies, as the governing board considers appropriate to reflect course costs or to promote efficiency or another rational purpose.

Sec. 130.0845. REMOVAL OF TRUSTEE FOR NONATTENDANCE OF BOARD MEETINGS. (a) It is a ground for removal of a member of the board of trustees of a junior college district that the member is absent from more than half of the regularly scheduled board meetings that the member is eligible to attend during a calendar year, not counting an absence for which the member is excused by a majority vote of the board.

(b) The validity of an action of the board of trustees is not affected by the fact that the action is taken when a ground for removal of a member of the board exists.

(c) A member of a board of trustees may be removed for a ground provided by this section, using the procedures provided by Subchapter B, Chapter 87, Local Government Code, for removing a county official.

Added by Acts 2005, 79th Leg., Ch. 673 (S.B. 114), Sec. 1, eff. September 1, 2005.

Sec. 130.085. TUITION EXEMPTION. (a) The board of trustees of any public junior college may exempt from payment of tuition all students who are residents of the junior college district and who are enrolled for 12 or more semester credit hours, provided that this action will allow the college to participate in and benefit from funds available as provided by Sections 1-7, Title I, 64 Stat. 1100, as amended, 20 U.S.C. Secs. 236-241-1.

(b) This action by the board of trustees does not affect their authority under Section 130.123 of this code, nor does this section in any way supersede that section. This action of the board does not affect the right of the college to a proportionate share of state appropriations under Section 130.003 of this code.

Added by Acts 1971, 62nd Leg., p. 3355, ch. 1024, art. 2, Sec. 31, eff. Sept. 1, 1971.

Sec. 130.0851. TUITION EXEMPTION FOR DISTRICT EMPLOYEES. The governing board of a junior college district may exempt a district employee who enrolls in courses offered by the district from the
payment of all or part of the tuition or fees charged to a student at a junior college by the district.

Added by Acts 2009, 81st Leg., R.S., Ch. 382 (H.B. 1568), Sec. 1, eff. June 19, 2009.

Sec. 130.086. BRANCH CAMPUSES. (a) The board of trustees of a junior college district may establish and operate branch campuses, centers, or extension facilities within the junior college district's service area, provided that each branch campus, center, or extension facility and each course or program offered in such locations is subject to the prior and continuing approval of the Texas Higher Education Coordinating Board.

(b) Such branch campuses, centers, or extension facilities shall be within the role and scope of the junior college as determined by the Coordinating Board, Texas College and University System.

(c) The board of trustees of a junior college district may accept or acquire by purchase or rent land and facilities in the name of the junior college district within the junior college district's service area.

(d) Before any course may be offered by a public junior college within the service area of another operating public junior college, it must be established that the second public junior college is not capable of or is unable to offer the course. After the need is established and the course is not locally available, then the first public junior college may offer the course when approval is granted by the Texas Higher Education Coordinating Board.

(e) The board of trustees of a junior college district may enter cooperative agreement with independent, common, or county school districts, state or federal agencies as may be required to perform the services as outlined in this section.

(f) Notwithstanding Subchapter J, the service area of a junior college district does not include territory within the boundaries of the taxing district of another junior college district. If a branch campus, center, or extension facility operated by a junior college district outside its taxing district becomes located within the taxing district of another junior college district when the other district is established or annexes the territory that includes the
campus, center, or facility, the junior college district operating the campus, center, or facility must discontinue the campus, center, or facility within a reasonable period, not to exceed one academic year. The junior college district in which the campus, center, or facility is located must fairly compensate the junior college district that discontinues the campus, center, or facility for any capital improvements that the discontinuing district acquired or constructed for the campus, center, or facility, to the extent the discontinuing district is otherwise unable to recover the current value of its investment in that capital improvement, as determined by the Texas Higher Education Coordinating Board.

(g) Subsections (a) and (c) do not apply to a branch campus, center, or extension facility that is established before September 1, 1999.

(h) This section does not affect the authority of the Texas Higher Education Coordinating Board regarding the continued operation of a branch campus, center, or extension facility.

Sec. 130.0865. SECURITY FOR REVENUE BONDS ISSUED FOR BRANCH CAMPUS, CENTER, OR EXTENSION FACILITY. Bonds payable from revenue and issued by the governing body of a county or school district to finance the purchase of land or the construction of a facility to be used for a branch campus, center, or extension facility authorized under Section 130.086 may be secured by a trust indenture, a deed of trust, or a mortgage granting a security interest in the applicable land or facility.

Added by Acts 2013, 83rd Leg., R.S., Ch. 357 (H.B. 2474), Sec. 1, eff. June 14, 2013.

Sec. 130.087. BRANCH CAMPUS MAINTENANCE TAX. (a) The governing body of a school district or a county may levy a junior
college district branch campus maintenance tax as provided by this section at a rate not to exceed five cents on each $100 valuation of all taxable property in its jurisdiction.

(b) On presentation of a petition for an election to authorize a junior college district branch campus maintenance tax signed by not fewer than five percent of the qualified voters of the jurisdiction in which the proposed tax is to be levied, the governing body of the school district or county, as applicable, shall determine the legality and the genuineness of the petition and, if it is determined to be legal and genuine, forward the petition to the Texas Higher Education Coordinating Board. The governing body of a county with a population of 150,000 or less, on completion of a needs assessment analysis showing adequate need and on approval by the coordinating board, on its own motion and without the presentation of a petition, may propose an election to authorize a branch campus maintenance tax.

(c) The coordinating board shall determine whether the requirements provided by Subsections (a) and (b) of this section have been satisfied and whether the proposed tax is feasible and desirable under the board's rules for junior colleges. In making its decision on the feasibility and desirability of the tax, the coordinating board shall consider the needs of the junior college, the needs of the community or communities served by the branch campus, and the welfare of the state as a whole. The commissioner of higher education shall deliver to the governing body of the school district or county, as applicable, the order of the coordinating board authorizing or denying further action in the levying of a junior college district branch campus maintenance tax.

(d) If the coordinating board approves the establishment of the junior college district branch campus maintenance tax, the governing body of the school district or county, as applicable, shall enter an order for an election to be held in the territory under its jurisdiction not less than 20 days nor more than 60 days after the date on which the order is entered to determine whether the junior college district branch campus maintenance tax may be levied. In the case of joint school district or joint county elections, by mutual agreement of the governing bodies, the elections shall be held on the same date throughout the jurisdictions.

(e) The president of the board of trustees of the school district or the county judge, as applicable, shall give notice of the election in the manner provided by law for notice by the county judge
of general elections.

(f) The governing body of the school district or county, as applicable, shall procure the election supplies necessary to conduct the election and shall determine the quantity of the various types of supplies to be provided for use at each precinct polling place and early voting polling place.

(g) Any qualified voter residing within the boundaries of the jurisdiction in which the tax may be levied is entitled to vote at the election.

(h) The ballot shall be printed to provide for voting for or against the proposition: "The levy of a junior college district branch campus maintenance tax in an amount not to exceed (insert a number not higher than five) cents on each $100 valuation of all taxable property in __________." (insert name of school district or name of county, as applicable).

(i) To be adopted, the measure must receive a favorable vote of a majority of those voting on the measure.

(j) Not later than the 10th day after the date of the election, the governing body shall canvass the returns of the election and shall enter an order declaring the result of the election.

(k) The proceeds of the junior college district branch campus maintenance tax may be used only as follows:

1. to operate and maintain a junior college district branch campus and support its programs and services in the area of the political subdivision that levied the tax; and

2. under an agreement by the applicable junior college district and the political subdivision levying the tax, to make lease payments to the political subdivision for facilities used exclusively by the branch campus that are owned by the political subdivision.

(l) The governing body of the school district or county approving the junior college district branch campus maintenance tax shall set the tax levy.

(m) The junior college district shall maintain and furnish any records and reports required by the Coordinating Board, Texas College and University System. The reports shall be made available routinely to the governing body of the jurisdiction in which the tax is levied, and to members of the general public on request.

(n) This section does not affect the authority of any jurisdiction levying a junior college district branch campus maintenance tax to create a junior college district in the
Sec. 130.088. BOARD OF TRUSTEES OF CERTAIN JUNIOR COLLEGE DISTRICTS. (a) If an independent school district board that has control and management of a junior college district that contains all or part of a city with a population of more than 1,500,000 divests itself of control and management under Section 130.016 or 130.017 of this code, the appointment and election of trustees of the junior college district are subject to Sections 130.018 and 130.082 of this code, except as otherwise provided by this section.

(b) The board of trustees consists of nine members elected from trustee districts.

(c) If the board of trustees of the independent school district that divests itself of management and control of the junior college district is elected from nine single-member districts, the trustees appointed for the junior college district shall have the same initial single-member district boundaries. For the initial board members of the junior college district appointed by the independent school district board of trustees, three members shall serve terms of two years, three members shall serve terms of four years, and three members shall serve terms of six years. The trustees shall draw lots to determine the length of their terms. The terms of the initial board members shall expire on the last day of December of the odd-numbered year that does not exceed their terms.

(d) Each trustee district must be compact and contiguous and of a population to the extent practicable equal to other trustee districts.

(e) The general election for trustees shall be held every two
years on the first Tuesday after the first Monday in November of the odd-numbered year or on the uniform election date chosen by the prior board under prior law.

(f) The board of trustees of the independent school district shall designate a number for each trustee district. At each election candidates are voted on and elected separately for each trustee district, and a candidate's name is placed on the official ballot according to the number of the district for which the candidate is running.

(g) The voters of each trustee district elect one trustee.

(h) If a trustee changes residence to a location outside the district from which the trustee is elected, the trustee vacates the office. Except as provided by Subsection (i) of this section, a district boundary change that results in the trustee who represents the district no longer being a resident of the district does not affect the trustee's term. That trustee serves for the remainder of the term to which elected. If the trustee changes residence to a location that is neither in the district as it existed on the date the trustee was elected to the current term nor in the new district, the trustee's seat on the board is vacated.

(i) If a change in district boundaries occurs as a result of redistricting and places the residence of a trustee whose office is not next up for election outside the numbered district for which the trustee was elected and the trustee fails to move his residence within the new boundaries of that numbered district before the 75th day preceding the date of the first election for which the boundary changes are effective, the office is vacated and shall be filled at that election.

(j) If new territory is added to the district, the board shall temporarily assign the territory to one or more trustee districts as appropriate. Not later than the 180th day after the publication of a federal census, the board shall revise district boundaries to take account of district population changes.

(k) To be entitled to a place on the ballot, a candidate for trustee must file an application for a place on the ballot with the board secretary not later than 5 p.m. of the 45th day before election day. An application may not be filed earlier than the 30th day before the date of the filing deadline.

(l) To be elected, a trustee candidate must receive a majority of the total number of votes received by all the candidates for the
position. If no candidate receives the vote required for election to a position, the board shall order a runoff election to be held in accordance with the applicable provisions of the Election Code.

(m) Trustees serve for six-year staggered terms. The terms of three members expire on the last day of December of each odd-numbered year.

(n) The board shall fill by appointment a board vacancy. The remaining members of the board, not later than the 30th day after the date on which the vacancy occurs, shall select a suitable person who resides in the applicable district to fill the board vacancy until the next regular trustee election. If the board for any reason fails or refuses to appoint a person to fill the board vacancy, the board shall order an election for the purpose of filling the vacancy for the remainder of the unexpired term. The election shall be held on the next uniform election date provided by the Election Code as long as that date does not occur before the 90th day after the date on which the vacancy occurs.

Added by Acts 1987, 70th Leg., ch. 556, Sec. 1, eff. Sept. 1, 1987.

Sec. 130.089. PROHIBITED EMPLOYMENT OF OR CONTRACTING WITH FORMER TRUSTEE. A public junior college may not employ or contract with an individual who was a member of the board of trustees of the junior college before the first anniversary of the date the individual ceased to be a member of the board of trustees.

Added by Acts 1993, 73rd Leg., ch. 56, Sec. 1, eff. Sept. 1, 1993.

Sec. 130.090. REMEDIAL PROGRAMS FOR SECONDARY SCHOOL STUDENTS. (a) The governing board of a junior college district may contract with the governing board of an independent school district in the junior college district's service area for the junior college to provide remedial programs for students enrolled in secondary schools in the independent school district in preparation for graduation from secondary school and entrance into college.

(b) The governing board of a junior college district may exempt from tuition a student enrolled in a remedial program provided under Subsection (a).

(c) The grant of an exemption from tuition under Subsection (b)
does not affect the right of a junior college to a proportionate share of state appropriations under Section 130.003 attributable to the contact hours of the junior college with the student receiving the exemption.

(d) For instances when state funding is provided to both a school district and a public junior college for a student enrolled in courses offered by a junior college under Subsection (a), the commissioner of education and the commissioner of higher education shall jointly develop a mechanism to identify and eliminate duplication of state funding.

Sec. 130.122. TAX BONDS AND MAINTENANCE TAX. (a) The governing board of each junior college district, and each regional college district for and on behalf of its junior college division, shall be authorized to issue negotiable coupon bonds for the construction and equipment of school buildings and the purchase of the necessary sites therefor, and levy and pledge annual ad valorem
taxes sufficient to pay the principal of and interest on said bonds as the same come due, and to levy annual ad valorem taxes for the further maintenance of its public junior college or junior colleges; provided that the annual bond tax shall never exceed 50 cents on the $100 valuation of taxable property in the district, and the annual bond tax, if any, together with the annual maintenance tax shall never exceed the aggregate of $1 on the $100 valuation of taxable property in the district. Such bonds may be issued in various series or issues, and shall mature serially or otherwise not more than 40 years from their date, and shall bear interest at such rate or rates as shall be determined within the discretion of the board. Said bonds, and the interest coupons appertaining thereto, shall be negotiable instruments, and they may be made redeemable prior to maturity, and may be issued in such form, denominations, and manner, and under such terms, conditions, and details, and shall be signed and executed, as provided by the board in the resolution or order authorizing the issuance of said bonds. All bonds shall be sold to the highest bidder for not less than their par value and accrued interest.

(b) No such bonds shall be issued and none of the aforesaid taxes shall be levied unless authorized by a majority of the electors voting at an election held for such purpose in accordance with law, at the expense of the district. Each such election shall be called by resolution or order of the board, which shall set forth the date of the election, the proposition or propositions to be submitted and voted on, the polling place or places, and any other matters deemed necessary or advisable by the board. Notice of said election shall be given by publishing a substantial copy of the election resolution or order one time, at least 10 days prior to the date set for the election, in a newspaper of general circulation in the district. The board shall canvass the returns and declare the results of such election.

(c) The governing board of each junior college district, and each regional college district, shall be authorized to refund or refinance all or any part of any of its outstanding bonds and matured but unpaid interest coupons payable from ad valorem taxes by the issuance of negotiable coupon refunding bonds payable from ad valorem taxes. Said refunding bonds shall mature serially or otherwise not more than 40 years from their date, and shall bear interest at such rate or rates as shall be determined within the discretion of the
board. Said refunding bonds may be issued without an election in connection therewith, provided that in no event shall any series or issue of refunding bonds be issued in a principal amount greater than the face or par value of the obligations being refunded thereby, and provided that if a maximum interest rate was voted for the bonds being refunded, the refunding bonds shall not bear interest at a rate higher than such voted maximum rate. Said refunding bonds, and the interest coupons appurtenant thereto, shall be negotiable instruments and they may be made redeemable prior to maturity, and may be issued in such form, denomination, and manner, and under such terms, conditions, and details, and shall be signed and executed, as provided by the board in the resolution or order authorizing the issuance of said refunding bonds. The refunding bonds shall be issued and delivered in lieu of, and upon surrender to the Comptroller of Public Accounts of the State of Texas and cancellation of, the obligations being refunded thereby, and the comptroller of public accounts shall register the refunding bonds and deliver the same in accordance with the provisions of the resolution or order authorizing the refunding bonds. Such refunding may be accomplished in one or in several installment deliveries. Said refunding bonds also may be issued and delivered in accordance with the provisions of and procedures authorized by any other applicable law.

(d) All bonds issued pursuant to this section, and the appropriate proceedings authorizing their issuance, shall be submitted to the attorney general of the State of Texas for examination. If he finds that such bonds have been authorized in accordance with law he shall approve them, and thereupon they shall be registered by the Comptroller of Public Accounts of the State of Texas; and after such approval and registration such bonds shall be incontestable in any court, or other forum, for any reason, and shall be valid and binding obligations in accordance with their terms for all purposes.

(e) All bonds issued pursuant to this section shall be legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, small business investment corporations, insurance companies of all kinds and types, fiduciaries, trustees, and guardians, and for all interest and sinking funds and other public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other
kinds and types of districts, public agencies, and bodies politic. Said bonds also shall be eligible and lawful security for all deposits of public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic, to the extent of the market value of said bonds, when accompanied by any unmatured interest coupons appurtenant thereto.

(f) Each junior college district, and each regional college district (with reference to the operation and maintenance of its junior college division) heretofore or hereafter created pursuant to the laws of this state, is hereby declared to be, and constituted as, a school district within the meaning of Article VII, Section 3, of the Texas Constitution.

(g) All tax bonds voted in any district in accordance with law but unissued at the effective date of this code may be issued in the manner provided in this section, without an additional election; and all maintenance taxes heretofore voted in any district in accordance with law may be levied and collected in the manner provided in this act, without an additional election.

Sec. 130.1221. CREDIT AGREEMENTS IN CERTAIN JUNIOR COLLEGE DISTRICTS. (a) This section applies only to a junior college district that, at the time of the issuance of obligations and execution of credit agreements under this section, has:

(1) at least 2,000 full-time students or the equivalent;

or

(2) a combined aggregate principal amount of at least $50 million of outstanding bonds and voted but unissued bonds.

(b) A district to which this section applies may, in the issuance of bonds as provided by Section 130.122, exercise the powers granted to the governing body of an issuer with regard to the issuance of obligations and execution of credit agreements under Chapter 1371, Government Code.

(c) A proposition to issue bonds to which this section applies
must include the question of whether the governing board may levy, pledge, assess, and collect annual ad valorem taxes sufficient to pay the principal of and interest on the bonds and the costs of any credit agreements executed in connection with the bonds.

(d) A district may not issue bonds to which this section applies in an amount greater than the greater of:

(1) 25 percent of the sum of:
   (A) the aggregate principal amount of all district debt payable from ad valorem taxes that is outstanding at the time the bonds are issued; and
   (B) the aggregate principal amount of all bonds payable from ad valorem taxes that have been authorized but not issued;

(2) $25 million, in a district that has at least 3,500 but not more than 15,000 full-time students or the equivalent; or

(3) $50 million, in a district that has more than 15,000 full-time students or the equivalent.

(e) Sections 1371.057 and 1371.059, Government Code, govern approval by the attorney general of obligations issued under the authority of this section.

Sec. 130.123. REVENUE BONDS. (a) The governing board (hereinafter called the "board") of each junior college district and each regional college district shall be authorized and have the power to acquire, purchase, construct, improve, enlarge, equip, operate, and/or maintain any property, buildings, structures, activities, operations, or facilities, of any nature, for and on behalf of its institution or institutions.

(b) For the purpose of carrying out any one or more of the aforesaid powers each board shall be authorized to issue its revenue bonds to be payable from and secured by liens on and pledges of all or any part of any of the revenues from any rentals, rates, charges, fees, or other resources of such board, in the manner hereinafter provided. Said bonds may be issued to mature serially or otherwise not more than 50 years from their date. In the authorization of any such bonds, each board may provide for the subsequent issuance of
additional parity bonds, or subordinate lien bonds, or other types of bonds, under such terms or conditions as may be set forth in the resolution or order authorizing the issuance of said bonds, all within the discretion of the board. Said bonds, and any interest coupons appertaining thereto, shall be negotiable instruments (provided that such bonds may be issued registrable as to principal alone or as to both principal and interest), and shall be executed, and may be made redeemable prior to maturity, and may be issued in such form, denominations, and manner, and under such terms, conditions, and details, and may be sold in such manner, at such price, and under such terms, and said bonds shall bear interest at such rate or rates, as shall be determined and provided by the board in the resolution or order, authorizing the issuance of said bonds. If so permitted in the bond resolution, and required part of the proceeds from the sale of the bonds may be used for paying interest thereon during the period of the construction of any facilities to be provided through the issuance of said bonds, and for the payment of operation and maintenance expenses of said facilities to the extent, and for the period of time, specified in said bond resolution, and also for the creation of reserves for the payment of the principal of and interest on the bonds; and such moneys be invested, until needed, to the extent, and in the manner provided, in said bond resolution or order.

(c) Each board shall be authorized to fix and collect rentals, rates, charges, and/or fees, including student union fees, from students and others for the occupancy, use and/or availability of all or any of its property, buildings, structures, activities, operations, or facilities, of any nature, in such amounts and in such manner as may be determined by such board.

(d) Each board shall be authorized to pledge all or any part of any of its revenues from any of the aforesaid rentals, rates, charges, and/or fees to the payment of any bonds issued hereunder, including the payment of principal, interest, and any other amounts required or permitted in connection with said bonds. When any of the revenues from any such rentals, rates, charges, and/or fees are pledged to the payment of bonds, they shall be fixed and collected in such amounts as will be at least sufficient, together with any other pledged resources, to provide for all payments of principal, interest, and any other amounts required in connection with said bonds, and, to the extent required by the resolution or order
authorizing the issuance of said bonds, to provide for the payment of operation, maintenance, and other expenses. Each board shall be authorized to establish and enforce such parietal rules for students and others, and to enter into such agreements regarding occupancy, use, and availability, and the amounts and collection of pledged revenues, fees, or other resources as will assure making all said required payments. Fees for the use or availability of all or any property, buildings, structures, activities, operations, or facilities, of any nature, may be pledged to the payment of said bonds, and shall be fixed and collected from all or any designated part of the students enrolled in the institution or institutions, in such amounts and in such manner as shall be determined and provided by the board in the resolution or order authorizing the issuance of the bonds, and said fees may be collected in the full amounts required or permitted herein, without regard to actual use or availability, commencing at any time designated by the board. Said fees may be fixed and collected for the use or availability of any specifically described property, buildings, structures, activities, operations, or facilities, of any nature; or said fees may be fixed and collected as general fees for the general use or availability of the institution or institutions. Such specific and/or general fees may be fixed and collected and pledged to the payment of any issue or series of bonds issued hereunder, in the full amounts required or permitted herein, in addition to, and regardless of the existence of, any other specific or general fees at the institution or institutions; provided that each board may restrict its power to pledge such additional specific or general fees in any manner that may be provided in the resolution or order authorizing the issuance of any bonds issued hereunder, and provided that no such additional specific fees shall be pledged if prohibited by any resolution or order which authorized the issuance of any then outstanding bonds issued pursuant to any Texas statute.

(e) In addition to the revenues, fees, and other resources authorized to be pledged to the payment of bonds issued hereunder, each board further shall be authorized to pledge irrevocably to such payment, out of the tuition charges required or permitted by law to be imposed at its institution or institutions, an amount not exceeding 25 percent of the tuition charges collected from each enrolled student for each semester or term, and each board also shall be authorized to pledge to such payment all or any part of any grant,
donation, or income received or to be received from the United States
government or any other public or private source, whether pursuant to
an agreement or otherwise.

(f) Any revenue bonds issued by any such board under this act,
and any revenue bonds or notes issued by any such board under any
other Texas statute and payable from tuition fees and charges and/or
any part of the use fees from or revenues of any property, buildings,
structures, activities, operations, or facilities at the institution
or institutions, may be refunded or otherwise refinanced by such
governing board, and in such case all pertinent and appropriate
provisions of this section shall be fully applicable to such
refunding bonds. In refunding or otherwise refinancing any such
bonds or notes the governing board may, in the same authorizing
proceedings, refund or refinance bonds issued pursuant to this
section and bonds or notes issued pursuant to any other such Texas
statute and combine all said refunding bonds and any other additional
new bonds to be issued pursuant to this section into one or more
issues or series of bonds, and may provide for the subsequent
issuance of additional parity bonds, or subordinate lien bonds, or
other type of bonds. All refunding bonds shall be issued and
delivered under such terms and conditions as may be set forth in the
authorizing proceedings.

(g) All bonds permitted to be issued under this section, and
the appropriate proceedings authorizing their issuance, shall be
submitted to the Attorney General of the State of Texas for
examination. If he finds that such bonds have been authorized in
accordance with law he shall approve them, and thereupon they shall
be registered by the Comptroller of Public Accounts of the State of
Texas; and after such approval and registration such bonds shall be
incontestable in any court, or other forum, for any reason, and shall
be valid and binding obligations in accordance with their terms for
all purposes.

(h) All bonds issued under this section shall be legal and
authorized investments for all banks, trust companies, building and
loan associations, savings and loan associations, small business
investment corporations, insurance companies of all kinds and types,
fiduciaries, trustees, and guardians, and for all interest and
sinking funds and other public funds of the State of Texas and all
agencies, subdivisions, and instrumentalities thereof, including all
counties, cities, towns, villages, school districts, and all other
kinds and types of districts, public agencies, and bodies politic. Said bonds also shall be eligible and lawful security for all deposits of public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic, to the extent of the market value of said bonds, when accompanied by any unmatured interest coupons appurtenant thereto.

(i) All revenue bonds heretofore approved by the Attorney General of the State of Texas and registered by the Comptroller of Public Accounts of the State of Texas which were issued, sold, and delivered by any board, and which are payable from or secured by a pledge of any revenues, use fees, tuition, or other resources of such board, are hereby validated in all respects, together with all proceedings authorizing the issuance thereof, and said bonds and proceedings shall be valid as though they had been duly and legally issued and authorized originally.

Sec. 130.124. USE OF STUDENT FEES IN CONSTRUCTION. (a) A junior college district facility constructed with student fees may be used only for junior college purposes.

(b) Student fees may not be used for construction, repair, or rehabilitation of a community center or junior college district auxiliary enterprise unless the enterprise serves as a student center or dormitory.

Sec. 130.125. REVENUE OBLIGATIONS. (a) As used in this section:

(1) "Credit agreement" means a loan agreement, revolving credit agreement, agreement establishing a line of credit, letter of
credit, reimbursement agreement, insurance contract, commitment to purchase obligations, purchase or sale agreement, or commitment or other contract or agreement authorized and approved by the governing body of the issuer in connection with the authorization, issuance, security, exchange, payment, purchase, or redemption of obligations or interest thereon.

(2) "Eligible project" means any project or purpose for which an issuer is authorized to issue revenue bonds pursuant to Section 130.123 of this code or any other provision of law.

(3) "Governing body" means the governing board of an issuer.

(4) "Issuer" means a junior college district or a regional college district.

(5) "Obligations" means notes, warrants, or other special obligations authorized to be issued by an issuer under the provisions of this section and all "public securities" as defined by Section 1201.002, Government Code, which prior to the delivery thereof, have been rated by a nationally recognized rating agency for municipal securities in either one of the three highest ranking categories for short-term obligations or one of the four highest ranking categories for long-term obligations. It is provided, however, that the term "obligations" does not mean or include any obligations payable from ad valorem taxes.

(6) "Project costs" means all costs and expenses incurred in relation to an eligible project, including without limitation design, planning, engineering, and legal costs, acquisition costs of land, interest in land, rights-of-way, and easements, construction costs, costs of machinery, equipment, and other capital assets incident and related to the operation, maintenance, and administration of an eligible project, and financing costs, including interest during construction and thereafter, underwriter's discount and fees for legal, financial, and other professional services. Project costs attributable to an eligible project and incurred prior to the issuance of any obligations issued to finance an eligible project may be reimbursed from the proceeds of sale of obligations.

(b) The governing body of an issuer is hereby authorized and empowered to issue, sell, and deliver obligations and execute credit agreements in order to finance project costs of an eligible project or to refund obligations issued in connection with an eligible project, subject to the limitations contained herein. Obligations
shall be secured solely by: (1) the proceeds of sale of other obligations; (2) any revenues which the issuer is authorized by any statute or constitutional provision to pledge to the payment of any obligations; or (3) any one or more of such sources, including credit agreements, all as the governing body of the issuer shall provide in the resolution or order authorizing the issuance of the obligations. Obligations shall be repaid from the source or sources securing the payment thereof, funds received from a credit agreement, or from any other revenues otherwise legally available for the payment thereof, except funds derived from ad valorem taxation.

(c) The issuance of obligations shall be authorized by resolution or order of the governing body of an issuer, which resolution or order shall fix the maximum amount of obligations to be issued or, if applicable, the maximum principal amount which may be outstanding at any time, the maximum term obligations issued and delivered pursuant to such authorization shall be outstanding, the maximum interest rate to be borne by the obligations (within the limitations of Chapter 1204, Government Code), the manner of sale (which may be by either public or private sale), price, form, terms, conditions, and covenants thereof. The resolution or order authorizing the issuance of obligations may provide for the designation of a paying agent and registrar for the obligations and may authorize one or more designated officers or employers of the issuer to act on behalf of the issuer from time to time in the selling and delivering of obligations authorized and fixing the dates, price, interest rates, interest payment periods, and other procedures as may be specified in the resolution or order. Obligations may be issued in such form or such denomination, payable at such time or times, in such amount or amounts or installments, at such place or places, in such form, under such terms, conditions, and details, in such manner, redeemable prior to maturity at any time or times, bearing no interest, or bearing interest at any rate or rates (either fixed, variable, floating, adjustable, or otherwise, all as determined in accordance with the resolution or order providing for the issuance of the obligations, which resolution or order may provide a formula, index, contract, or any other arrangement for the periodic determination of interest rates), not to exceed the maximum net effective interest rate allowed by law and may be signed or otherwise executed in such manner, with manual or facsimile signatures, and with or without a seal, all as shall be specified by
the governing body of the issuer in the resolution or order authorizing the issuance of the obligations. The proceeds received from the sale of obligations may be deposited or invested in any manner and in such obligations as may be specified in the resolution or order or other proceedings authorizing the obligations. In the event any officer or officers whose signatures are on any obligations cease to be such officer or officers before the delivery thereof to the purchaser, such signature or signatures shall nevertheless be valid and sufficient for all purposes and the successor or successors in office of any such officers shall be fully authorized to complete the execution, authentication, or delivery of said obligations to the purchaser or purchasers thereof.

(d) The governing body of an issuer may enter into credit agreements in conjunction with the issuance, payment, sale, resale, or exchange of obligations to enhance the security for or provide for the payment, redemption, or remarketing of the obligations and interest on the obligations or to reduce the interest payable on the obligations. A credit agreement is an agreement for professional services and shall contain the terms and conditions and be for the period that the governing body of the issuer approves. The cost to the issuer of the credit agreement may be paid from the proceeds of the sale of the obligations to which the credit agreement relates or from any other source, including revenues of the issuer that are available for the purpose of paying the obligations and the interest on the obligations or that may otherwise be legally available to make those payments.

(e) Obligations, including accrued interest, may from time to time be refinanced, renewed, or refunded by the issuance of other obligations. Credit agreements entered into by an issuer, whether pursuant to the provisions of this section or not, may be refinanced, renewed, refunded, or otherwise terminated and a new credit agreement substituted therefor by amendment to the proceedings which authorized such credit agreements and, if required to accomplish the substitution of credit agreements, outstanding bonds may be refunded with obligations.

(f) Preliminary to the issuance and delivery of obligations, the resolution or order authorizing the issuance thereof, together with any credit agreements and any contracts providing revenues and security to pay the obligations, shall be submitted to the attorney general for his review. If the attorney general shall find that such
credit agreement or agreements, if any, contracts, if any, and other authorizing proceedings conform to the requirements of the Texas Constitution and this section, the attorney general shall approve them. Thereafter, the authorized obligations may be executed and delivered, exchanged, or refinanced from time to time in accordance with the authorizing proceedings. Upon such approval by the attorney general and initial delivery of any obligations so authorized, any such credit agreements, any such contracts providing revenues or security, such initial obligations, and all other obligations thereafter issued pursuant to the authorizing proceedings shall be incontestable for any cause in any court or other forum and shall be valid and binding obligations enforceable in accordance with their respective terms and provisions.

(f-1) The governing body of an "eligible issuer" may enter into credit agreements as described in Subsection (d). As used in this subsection, "eligible issuer" means an issuer that prior to the effective date of this subsection (i) issued bonds which, prior to or simultaneously with the delivery thereof, were rated by a nationally recognized rating agency for municipal securities in one of the four highest ranking categories for long-term obligations, and (ii) reserved in the resolution or order authorizing issuance of the bonds the right, in the event of a change in state law, to substitute a credit agreement in lieu of cash and investments in a reserve fund established pursuant to the resolution or order.

(g) All obligations issued by an issuer shall constitute negotiable instruments and are investment securities governed by Chapter 8, Business & Commerce Code, notwithstanding any provisions of law or court decision to the contrary and are legal and authorized investments for banks, savings banks, trust companies, building and loan associations, savings and loan associations, insurance companies, fiduciaries, and trustees and for the sinking funds of cities, towns, villages, school districts, and other political subdivisions or public agencies of the State of Texas. Said obligations also are eligible to secure deposits of any public funds of the state or any political subdivision or public agency of the state and are lawful and sufficient security for the deposits to the extent of their market value.

(h) This section shall be construed liberally to effectuate the legislative intent and purposes of this section and all powers herein granted shall be broadly interpreted to effectuate such intent and
purposes and not as a limitation of powers.

(i) In case any one or more of the provisions, clauses, or words of this section or the application of such provisions, clauses, or words to any situation or circumstance shall for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect any other provisions, clauses, or words of this section or the application of such provisions, clauses, or words to any other situation or circumstance, and it is intended that this section shall be severable and shall be construed and applied as if any such invalid or unconstitutional provision, clause, or word had not been included herein.

(j) This section shall be cumulative of all other laws on the subject, but this section shall be wholly sufficient authority within itself for the issuance of obligations and the performance of the other acts and procedures authorized hereby, or under any agreement, without reference to any other laws or any restrictions or limitations contained herein. To the extent of any conflict or inconsistency between any provisions of this section and any provisions of any other law, the provisions of this section shall prevail and control; provided, however, that any issuer shall have the right to use the provisions of any other laws not in conflict with the provisions hereof to the extent convenient or necessary to carry out any power or authority, express or implied, granted by this section.

(k) When the governing body of any issuer provides in the resolution or order or other proceedings authorizing the issuance of any bond, any credit agreement, or any other agreement for a pledge or lien on revenues, income, or other resources of the issuer, or the assets of the issuer, or any fund maintained by the issuer to secure payment of the obligations or to secure payments required by a credit agreement or any other agreement, such pledge or lien shall be valid and binding in accordance with its terms without further action on the part of the issuer and without any filing or recording with respect thereto except in the records of the issuer. All such liens and pledges shall be perfected from the time of payment for and delivery of the obligations and the credit agreement or other agreement until the obligations or other payments, including those under the credit agreement, have been paid or payment of the obligations has been provided for or the terms of the credit agreement or other agreement have been satisfied in accordance with
their respective terms and such lien shall be fully perfected as to items then on hand and thereafter received until the satisfaction of such obligations, and said items shall be subject to such liens or pledges without any physical delivery thereof or further act. Nothing contained in this section shall relieve any issuer of any obligation to file or record any lien on realty or submit any issue of obligations for approval by the attorney general and registration by the comptroller of public accounts.

Sec. 130.126. LONG-TERM NOTES. (a) The governing board of a public junior college district or regional college district located in one or more counties having a total population of at least 100,000 according to the last preceding federal census may issue notes to pay expenses of asbestos cleanup and removal in the district.

(b) Notes issued under this section must be secured by a designated portion of the issuer's revenues, which may include ad valorem maintenance taxes, and must mature not later than the first day of the 15th year after the date on which the notes are issued.

(c) A note issued under this section is debt under Section 26.012, Tax Code.

(d) Except as provided by Subsection (b) of this section, the governing board of a public junior college district or regional college district must issue the notes in the manner provided by Chapter 1201, Government Code.

Sec. 130.127. REFUNDING NOTES. The governing board of a public junior college district or regional college district may issue refunding notes to refund notes issued under Section 130.126 of this code in the manner and for the purposes provided by Subchapter A, Chapter 1207, Government Code, to make a deposit under Subchapter B
or C of that chapter.

Sec. 130.128. SALE OF NOTES. (a) The governing board of a public junior college district or regional college district may sell notes or refunding notes issued under this subchapter at a public or private sale and at a price that the board determines is adequate.

(b) The governing board of a public junior college district or regional college district shall deposit proceeds from the sale of notes issued under this subchapter in the district's general revenue fund.

(c) Proceeds from the sale of notes issued under this subchapter may be used to pay the costs of issuing, marketing, or distributing the notes.

Added by Acts 1991, 72nd Leg., 1st C.S., ch. 4, Sec. 15.01, eff. Aug. 22, 1991.

Sec. 130.129. INTEREST RATE. Notes and refunding notes issued under this subchapter must bear interest at a rate not to exceed the rate provided by Chapter 1204, Government Code.

Sec. 130.130. NOTES ARE NOT TAX BONDS. Notes and refunding notes issued under this subchapter are not tax bonds under Section 130.122 of this code, and an election is not required before the governing board of a public junior college district or regional college district may issue such notes or refunding notes.

Added by Acts 1991, 72nd Leg., 1st C.S., ch. 4, Sec. 15.01, eff. Aug. 22, 1991.
SUBCHAPTER H. TRANSFER OF ASSETS ON DISSOLUTION OF DISTRICTS

Sec. 130.131. DISSOLUTION AND TRANSFER OF PROPERTY UPON CREATION OF SENIOR COLLEGE. (a) Whenever the legislature shall create within the boundary of any union junior college district a state-supported senior college of the first rank offering at least four years of college work, and whenever such union junior college district has been dissolved in the manner provided for in Sections 19.361-19.364 of this code, which said method of dissolution of such district is hereby authorized, the trustees of such union junior college district shall transfer the corporeal properties and facilities of such union junior college district to such state-supported senior college, and such trustees, after such dissolution and transfer of properties of such district, shall not further maintain a junior college and shall function only for the purpose of carrying out the provisions of this section and shall have no authority to create any additional indebtedness against such district, and when the bonded indebtedness of such district has been fully paid, such union junior college district shall cease to exist; provided that in the order calling such election and in the notice thereof, the authorities calling such election shall designate the date when such district shall be dissolved and such transfer shall be made, which date shall be within two years from the date of the election, and on or prior to said date.

(b) When any union junior college district has been dissolved and its properties transferred as provided in Subsection (a) of this section, or in any other lawful manner, having at the time of such dissolution outstanding bonds or other indebtedness enforceable either at law or in equity, then the county commissioners court, for the purpose of paying such bonds, or other indebtedness, shall have power and be authorized to annually levy and collect ad valorem taxes sufficient only to pay the interest and create a sinking fund to retire the bonded indebtedness of such district, and the expense of collecting such taxes and paying such bonded indebtedness, and for no other purpose; provided such tax shall not exceed the rate voted by such district for junior college purposes; said county commissioners court shall have power to bring and defend litigation in the name of said union junior college district.

Sec. 130.132. ABOLITION OF JUNIOR COLLEGE DISTRICTS. (a) The term "applicable district," as used in this section, shall mean any junior college district which has conveyed all, or substantially all, of its property and assets to a state-supported senior college or university located in such junior college district, and which junior college district has no outstanding bonded indebtedness.

(b) All applicable districts and their governing boards are hereby abolished and shall cease to exist and function; provided, however, that all delinquent and uncollected taxes in said applicable districts shall not hereby be discharged, but shall be and remain fully due, payable and collectible. The persons formerly acting as the governing board and officers of each applicable district shall turn over all remaining property and assets of said applicable district, including all tax collections on hand, directly to the state-supported senior college or university located therein. The governing board of the independent school district in which any such state-supported senior college or university is located shall, for and on behalf of any such applicable district, cause, through its tax collector and other officers, all delinquent and uncollected taxes of any such applicable district to be collected in accordance with the general laws applicable to independent school districts. All of said taxes, as collected, shall be turned over to any such state-supported senior college or university. All taxes turned over to any such state-supported senior college or university in accordance with this section may be used by it for any lawful purpose.

Sec. 130.133. TRANSFER OF PROPERTIES OF COUNTY JUNIOR COLLEGE DISTRICTS AFTER CREATION OF SENIOR COLLEGE. (a) Whenever the legislature has created or shall create within the boundaries of any county junior college district a state-supported senior college offering at least four years college work upon the condition that the board of trustees of said county junior college district shall convey
all of the assets, real, personal, tangible, and intangible held in its name as of the date fixed for the establishment of said senior college and containing the other provision that said properties shall be conveyed to the governing body of the senior college free and clear of any indebtedness or indebtednesses, encumbrance or encumbrances of any kind or character and of whatsoever nature, the board of trustees of said county junior college district is hereby fully authorized and empowered to convey to the governing body of the senior college all of such assets, real, personal, tangible, and intangible held by it on the date fixed for such conveyance in the act creating such senior college, except moneys on hand for the payment of outstanding obligations of the district.

(b) From and after the conveyance of the properties of said county junior college district to the governing body of said senior college, the county junior college district shall not further maintain a junior college and shall function only for the purpose of carrying out the provisions of this section.

Prior to revocation or imposition of conditions upon a certificate of approval, the commission shall notify the holder of the certificate, in writing, of the impending action and set forth the grounds for the action. The commission may reexamine a career school or college two or more times during each year in which a

Sec. 132.061. REFUND POLICY. (a) Except as provided by Subsection (g), as a condition for granting certification each career school or college must maintain a cancellation and settlement policy that must provide a full refund of all monies paid by a student if:

(1) the student cancels the enrollment agreement or contract within 72 hours (until midnight of the third day excluding Saturdays, Sundays, and legal holidays) after the enrollment contract is signed by the prospective student; or

(2) the enrollment of the student was procured as the result of any misrepresentation in advertising, promotional materials of the school or college, or representations by the owner or representatives of the school or college.

(b) Except as provided by Subsection (g), as a condition for granting certification each career school or college must maintain a policy for the refund of the unused portion of tuition, fees, and other charges in the event the student, after expiration of the 72-hour cancellation privilege, fails to enter a program in which the student is enrolled or withdraws or is discontinued from the program at any time prior to completion, and such policy must provide:

(1) refunds for resident programs and synchronous distance education courses or programs will be based on the period of enrollment computed on the basis of course or program time;

(2) the effective date of termination for refund purposes in residence programs and synchronous distance education courses or programs will be the earliest of the following:

(A) the last date of attendance, if the student is terminated by the school or college;

(B) the date of receipt of written notice of withdrawal from the student; or

(C) 10 school days following the last date of attendance;

(3) if tuition and fees are collected in advance of entrance, and if, after expiration of the 72-hour cancellation
privilege, the student does not enter the residence career school or college, not more than $100 shall be retained by the school or college;

(4) for the student who enters a residence program or a synchronous distance education course and who withdraws or is otherwise terminated, the school or college may retain not more than $100 of any administrative fees charged and the minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination;

(5) refunds of items of extra expense to the student, such as instructional supplies, books, student activities, laboratory fees, service charges, rentals, deposits, and all other such ancillary miscellaneous charges, where these items are separately stated and shown in the data furnished the student before enrollment, will be made in a reasonable manner acceptable to the commission;

(6) refunds based on enrollment in residence and synchronous distance education courses or programs will be totally consummated within 60 days after the effective date of termination;

(7) refunds for asynchronous distance education courses or programs will be computed on the basis of the number of lessons in the course or program;

(8) the effective date of termination for refund purposes in asynchronous distance education courses or programs will be the earliest of the following:

(A) the date of notification to the student if the student is terminated;

(B) the date of receipt of written notice of withdrawal from the student; or

(C) the end of the third calendar month following the month in which the student's last lesson assignment was received unless notification has been received from the student that the student wishes to remain enrolled;

(9) if tuition and fees are collected before any courses
for a program have been completed, and if, after expiration of the 72-hour cancellation privilege, the student fails to begin the program, not more than $50 shall be retained by the school or college;

(10) in cases of termination or withdrawal after the student has begun the asynchronous distance education course or program, the school or college may retain $50 of tuition and fees, and the minimum refund policy must provide that the student will be refunded the pro rata portion of the remaining tuition, fees, and other charges that the number of courses completed and serviced by the school or college bears to the total number of courses in the program; and

(11) refunds based on enrollment in asynchronous distance education schools or colleges will be totally consummated within 60 days after the effective date of termination.

(c) In lieu of the refund policy herein set forth, for programs of instruction not regularly offered to the public, the commission may, for good cause shown, amend, modify, or substitute the terms of a career school's or college's policy due to the specialized nature and objective of the school's or college's program of instruction.

(d) If a program of instruction is discontinued by the career school or college and this prevents the student from completing the program, all tuition and fees paid are then due and refundable.

(e) If a refund is not made within the period required by this section, the career school or college shall pay a penalty. If the refund is made to a lending institution, the penalty shall also be paid to that institution and applied against the student's loan. The commission annually shall establish the level of the penalty at a level sufficient to provide a deterrent to the retention of student funds. The commission may exempt a school or college from the payment of the penalty if the school or college makes a good faith effort to refund the tuition, fees, and other charges but is unable to locate the student. The school or college shall provide to the commission on request documentation of the effort to locate the student.

(f) A career school or college shall record a grade of "incomplete" for a student who withdraws during the portion of a course or program for which the student is not eligible to collect a refund under Subsection (b)(4) if the student requests the grade at the time the student withdraws and the student withdraws for an
appropriate reason unrelated to the student's academic status. A student who receives a grade of incomplete may re-enroll in the course or program during the 12-month period following the date the student withdraws and complete those incomplete subjects without payment of additional tuition for that portion of the course or program.

(g) A program that is 40 hours or less of course time, or a seminar or workshop, is exempt from the 72-hour rule provided by Subsection (a). The career school or college shall maintain a policy for the refund of the unused portion of tuition, fees, and other charges in the event the student fails to enter the program or withdraws or is discontinued from the program at any time before completion of the program as provided by this section. The policy must provide that:

(1) refunds are based on the period of enrollment computed on the basis of course or program time;

(2) the effective date of termination for refund purposes is the earlier of:

   (A) the last date of attendance; or
   (B) the date the school or college receives written notice from the student that the student is withdrawing from the class; and

   (3) the student will be refunded the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the program for which the student has been charged.

(h) A closing career school or college shall, subject to Section 132.242, make a full refund to each student of the school or college who is owed a refund under this section.

(i) Each owner of a closing career school or college to which a certificate of approval has not been issued under this chapter is personally liable for the amount of any refund owed to a student under Subsection (h).

(j) The commission may adopt rules governing records necessary to make refunds authorized by this chapter.

Sec. 132.0611. REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE. As a condition to receiving a certificate of approval under this chapter, including a renewal of a certificate of approval, a career school or college must maintain, and include in the school or college's catalogue and enrollment contract, a policy under which a student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:

(1) if tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;

(2) a grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and
charges for books for the program; or

(3) the assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:

(A) satisfactorily completed at least 90 percent of the required coursework for the program; and

(B) demonstrated sufficient mastery of the program material to receive credit for completing the program.

Sec. 132.062. WITHHOLDING RECORDS. A career school or college may withhold a student's transcript or certificate of completion of training until the student has fulfilled the student's financial obligation to the school or college.

Sec. 132.063. APPROVED DEGREES. A career school or college may offer a degree approved by the Texas Higher Education Coordinating Board.

Sec. 132.064. NONQUALIFICATION AS SMALL CAREER SCHOOL AND COLLEGE. (a) A career school or college operating as a small career school or college but that has an annual gross income from tuition
and fees that exceed $100,000 (other than a test preparation school
described by Section 132.001(10)(B) or (C)) that intends to receive a
payment from federal funds under 20 U.S.C. Section 1070 et seq. or
intends to receive prepayment of tuition, fees or other charges from
federal or state funds shall send written notice to the commission.
The notice must be sent not later than the following date, as
applicable:

(1) the 60th day after the date on which annual gross
income is determined to exceed the maximum;
(2) the day before receiving a payment of federal funds
under 20 U.S.C. Section 1070 et seq.; or
(3) the day before enrolling a student who will prepay
tuition, a fee, or another charge in whole or in part from federal or
state funds.

(b) A career school or college that no longer qualifies as a
small career school or college shall apply for an initial certificate
of approval as a career school or college within 30 days after the
date the school has notified the commission that it no longer
qualifies as a small career school or college. The commission may
apply or prorate any fees paid by the school or college as a small
career school or college.

(c) A career school or college that no longer qualifies as a
small career school or college shall submit to the commission an
amount of money equal to the difference between the fee for the small
career school or college certificate of approval submitted by the
school or college and the fee that the school or college would be
required to submit after its qualifications as a small career school
or college cease.

(d) The authority of a career school or college to operate
under a small career school or college certificate of approval
terminates on the final determination of issuance or denial of an
initial certificate of approval. If a school or college fails to
file a complete application within the period required by Subsection
(b), the school or college, as a condition of issuance, must pay a
late fee in an amount established by commission rule of at least
$100.

Sec. 132.065. SCHOOLS NOT REQUIRED TO TAKE ATTENDANCE. (a) A career school or college that is eligible to participate in student financial aid programs under Title IV, Higher Education Act of 1965 (20 U.S.C. Section 1070 et seq.), is not required to take attendance.

(b) Before a student begins a program offered by a career school or college to which Subsection (a) applies, the school or college shall provide to the student written notice of all policies related to program interruption occurring before the student's completion of the program. The career school or college shall also notify each student in writing that if the student withdraws from the program, it is the student's responsibility to inform the school or college of the student's withdrawal.

(c) A student attending a program offered by a career school or college to which Subsection (a) applies may not be required to pay tuition to the school or college during the first week of the program. Except as otherwise provided by this subsection, the career school or college shall verify the student's enrollment in the program by documenting the student's participation in an academically related activity of the program at the end of the first week of each semester or other academic term of the program, at the end of the first month of each semester or other academic term of the program, at the midpoint of each semester or other academic term of the program, and at the end of each semester or other academic term of the program. If the career school or college is unable to verify the student's enrollment in the program at any of those times, the student is considered to have withdrawn from the program. The date on which the career school or college was first unable to verify the student's enrollment in the program is the date of the student's withdrawal for refund purposes, and the school or college is not required to verify the student's enrollment in the program after that date.

The commission shall prepare a complete record of all proceedings had before the commission or hearing examiner and shall certify a copy of the proceedings to the court. Trial before the court shall be on the basis of the record made before the commission or hearing examiner, and the court shall make its decision

or

3. in violation of rules promulgated by the commission pursuant to this chapter.

(d) The decision of the trial court is subject to appeal in the same manner as any other civil lawsuit under the Texas Rules of Civil Procedure.

(b) A party filing such an action must give prompt notice to the attorney general, who shall be permitted to join, on application
within 30 days, as a party plaintiff.

Sec. 132.122. NOTICE. In any class action permitted under this chapter, the court shall direct the defendant to serve on each member of the class the best possible notice. If required in the interest of justice, the court may direct that individual notice be served on all members of the class who can be identified through reasonable efforts. Sec. 132.152. ADMINISTRATIVE PENALTY. (a) If a person violates Section 132.151, the commission may assess an administrative penalty against that person as provided by this section.

(b) The commission may assess the administrative penalty in an
amount not to exceed $1,000. In determining the amount of the penalty, the commission shall consider the seriousness of the violation.

(c) If, after examination of a possible violation and the facts relating to that possible violation, the commission concludes that a violation has occurred, the commission shall issue a preliminary report that states the facts on which the conclusion is based, the fact that an administrative penalty is to be imposed, and the amount of the penalty to be assessed. Not later than the 10th day after the date on which the commission issues the preliminary report, the commission shall send a copy of the report to the person charged with the violation, together with a statement of the right of the person to a hearing relating to the alleged violation and the amount of the penalty.

Failure either to request a hearing or to remit the amount of the administrative penalty within the time provided by this subsection results in a waiver of a right to a hearing under this section. If the person charged requests a hearing, the hearing shall be conducted in the same manner as a hearing on the denial of certificate of approval under Section 132.101. If the hearing results in a finding that a violation has occurred, the commission shall:

(1) provide to the person written notice of:
   (A) the findings established at the hearing; and

(f) The commission's order is subject to judicial review in the same manner as an appeal of a decision to deny a certificate of approval under Section 132.102.

(g) If on review the court does not sustain the occurrence of the violation or finds that the amount of the penalty should be reduced, the commission shall remit the appropriate amount to the person charged with the violation not later than the 30th day after the date the court's judgment becomes final.

(h) If the court sustains the occurrence of the violation:
   (1) the court:

prepaid federal or state source.

(c) The failure to notify the commission within four months after the career school's or college's earnings exceed that of a small career school or college gives rise to a rebuttable presumption of intent for purposes of assessment of a penalty.

(d) The failure to notify the commission within 10 days after a career school or college has enrolled a student whose tuition or fees are paid in whole or in part from a prepaid federal or state source gives rise to a rebuttable presumption of intent for purposes of assessment of a penalty.

TITLE 4. COMPACTS
CHAPTER 160. REGIONAL EDUCATION COMPACT

Sec. 160.01. STATE POLICY. It is declared to be the policy of the State of Texas to promote the development and maintenance of regional educational services and facilities in the Southern States in the professional, technological, scientific, literary, and other fields so as to provide greater educational advantages for the citizens of the State of Texas and the citizens of the States in the Southern Region. This policy can best be accomplished under the plan embodied in the regional compact entered into by the State of Texas and thirteen other States February 8, 1948, through their respective Governors.

Sec. 160.02. TEXT OF COMPACT. The regional education compact, as amended, reads as follows:

THE REGIONAL COMPACT
(As amended)

WHEREAS, The States who are parties hereto have during the past several years, conducted careful investigation looking toward the establishment and maintenance of jointly owned and operated regional educational institutions in the Southern States in the professional,
technological, scientific, literary and other fields, so as to provide greater educational advantages and facilities for the citizens of the several States who reside within such region; and

WHEREAS, Meharry Medical College of Nashville, Tennessee, has proposed that its lands, buildings, equipment, and the net income from its endowment be turned over to the Southern States, or to an agency acting in their behalf, to be operated as a regional institution for medical, dental and nursing education upon terms and conditions to be hereafter agreed upon between the Southern States and Meharry Medical College; which proposal, because of the present financial condition of the institution has been approved by the said States who are parties hereto; and

WHEREAS, The said States desire to enter into a compact with each other providing for the planning and establishment of regional educational facilities; now,

THEREFORE, In consideration of the mutual agreements, covenants and obligations assumed by the respective States who are parties hereto (hereinafter referred to as "States"), the said several States do hereby form a geographical district or region consisting of the areas lying within the boundaries of the contracting States, which, for the purpose of this Compact, shall constitute an area for regional education supported by public funds derived from taxation by the constituent States and derived from other sources for the establishment, acquisition, operation and maintenance of regional educational schools and institutions, for the benefit of citizens of the respective States residing within the region so established, as may be determined from time to time in accordance with the terms and provisions of this Compact.

The States do further hereby establish and create a joint agency which shall be known as the Board of Control for Southern Regional Education (hereinafter referred to as the "Board"), the members of which Board shall consist of the Governor of each State, ex officio, and four additional citizens of each State to be appointed by the Governor thereof, at least one of whom shall be selected from the field of education and at least one of whom shall be a member of the Legislature of that State. The Governor shall continue as a member of the Board during his tenure of office as Governor of the State but the members of the Board appointed by the Governor shall hold office for a period of four (4) years except that in the original appointments one Board member so appointed by the Governor shall be
designated at the time of his appointment to serve an initial term of two (2) years, one Board member to serve an initial term of three (3) years, and the remaining Board member to serve the full term of four (4) years, but thereafter the successor of each appointed Board member shall serve the full term of four (4) years. Vacancies on the Board caused by death, resignation, refusal or inability to serve, shall be filled by appointment by the Governor for the unexpired portion of the term. The officers of the Board shall be a Chairman, a Vice-Chairman, a Secretary, a Treasurer, and such additional officers as may be created by the Board from time to time. The Board shall meet annually and officers shall be elected to hold office until the next annual meeting. The Board shall have the right to formulate and establish by-laws not inconsistent with the provisions of this Compact to govern its own actions in the performance of the duties delegated to it, including the right to create and appoint an Executive Committee and a Finance Committee with such powers and authority as the Board may delegate to them from time to time. The Board may, within its discretion, elect as its Chairman a person who is not a member of the Board, provided such person resides within a signatory State; and upon such election such person shall become a member of the Board with all the rights and privileges of such membership.

It shall be the duty of the Board to submit plans and recommendations to the States from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation and maintenance of educational schools and institutions within the geographical limits of the regional area of the States, of such character and type and for such educational purposes, professional, technological, scientific, literary, or otherwise, as they may deem and determine to be proper, necessary or advisable. Title to all such educational institutions when so established by appropriate legislative actions of the States, and to all properties and facilities used in connection therewith, shall be vested in said Board as the agency of and for the use and benefit of the said States and citizens thereof; and all such educational institutions shall be operated, maintained and financed in the manner herein set out, subject to any provisions or limitations which may be contained in the legislative Acts of the State authorizing the creation, establishment and operation of such educational institutions.
In addition to the power and authority heretofore granted, the Board shall have the power to enter into such agreements or arrangements with any of the States and with educational institutions or agencies, as may be required in the judgment of the Board, to provide adequate services and facilities for the graduate, professional, and technical education for the benefit of the citizens of the respective States residing within the region, and such additional and general power and authority as may be vested in the Board from time to time by legislative enactment of the said States.

Any two (2) or more States who are parties of this Compact shall have the right to enter into supplemental agreements providing for the establishment, financing and operation of regional educational institutions for the benefit of citizens residing within an area which constitutes a portion of the general region herein created, such institutions to be financed exclusively by such States and to be controlled exclusively by the members of the Board representing such States, provided such agreement is submitted to and approved by the Board prior to the establishment of such institutions.

Each State agrees that, when authorized by the Legislature, it will from time to time make available and pay over to said Board such funds as may be required for the establishment, acquisition, operation and maintenance of such regional educational institutions as may be authorized by the States under the terms of this Compact, the contribution of each State at all times to be in the proportion that its population bears to the total combined population of the States who are parties hereto as shown from time to time by the most recent official published report of the Bureau of the Census of the United States of America; or upon such other basis as may be agreed upon.

This Compact shall not take effect or be binding upon any State unless and until it shall be approved by proper legislative action of as many as six (6) or more of the States whose Governors have subscribed hereto within a period of eighteen (18) months from the date hereof. When and if six (6) or more States shall have given legislative approval to this Compact within said eighteen (18) months period, it shall be and become binding upon such six (6) or more States sixty (60) days after the date of legislative approval by the sixth State, and the Governors of such six (6) or more States shall forthwith name the members of the Board from their States as hereinabove set out, and the Board shall then meet on call of the
Governor of any State approving this Compact, at which time the Board shall elect officers, adopt by-laws, appoint committees and otherwise fully organize. Other States whose names are subscribed hereto shall thereafter become parties hereto upon approval of this Compact by legislative action within two (2) years from the date hereof, upon such conditions as may be agreed upon at the time. Provided, however, that with respect to any State whose constitution may require amendment in order to permit legislative approval of the Compact, such State or States shall become parties hereto upon approval of this Compact by legislative action within seven (7) years from the date hereof, upon such conditions as may be agreed upon at the time.

After becoming effective this Compact shall thereafter continue without limitation of time; provided, however, that it may be terminated at any time by unanimous action of the States; and provided further that any State may withdraw from this Compact if such withdrawal is approved by its Legislature, such withdrawal to become effective two (2) years after written notice thereof to the Board accompanied by a certified copy of the requisite legislative action, but such withdrawal shall not relieve the withdrawing State from its obligations hereunder accruing up to the effective date of such withdrawal. Any State so withdrawing shall ipso facto cease to have any claim to or ownership of any of the property held or vested in the Board or of any of the funds of the Board held under the terms of this Compact.

If any State shall at any time become in default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said State as authorized by and in compliance with the terms and provisions of this Compact, all rights, privileges and benefits of such defaulting State, its members on the Board and its citizens, shall ipso facto be and become suspended from and after the date of such default. Unless such default shall be remedied and made good within a period of one year immediately following the date of such default this Compact may be terminated with respect to such defaulting State by an affirmative vote of three-fourths (3/4) of the members of the Board (exclusive of the members representing the State in default), from and after which time such State shall cease to be a party to this Compact and shall have no further claim to or ownership of any of the property held by or vested in the Board or to any of the funds of the Board held under
the terms of this Compact, but such termination shall in no manner release such defaulting State from any accrued obligation or otherwise affect this Compact or the rights, duties, privileges or obligations of the remaining States thereunder.

IN WITNESS WHEREOF this Compact has been approved and signed by Governors of the several States, subject to the approval of their respective Legislatures in the manner hereinabove set out, as of the 8th day of February, 1948.

CHAPTER 161. COMPACT FOR EDUCATION

Sec. 161.01. COMPACT ENTERED INTO: TEXT. The Compact for Education is hereby entered into and enacted into law in the form substantially as follows:

COMPACT FOR EDUCATION

Article I. Purpose and Policy

Section A. It is the purpose of this compact to:

1. Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the State and local levels.

2. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

3. Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the Nation, so that the executive and legislative branches of State Government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

4. Facilitate the improvement of State and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

Section B. It is the policy of this compact to encourage and promote local and State initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and States.
Section C. The party States recognize that each of them has an interest in the quality and quantity of education furnished in each of the other States, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the Nation, and because the products and services contributing to the health, welfare and economic advancement of each State are supplied in significant part by persons educated in other States.

Article II. State Defined
As used in this Compact, "State" means a State, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

Article III. The Commission
Section A. The Education Commission of the States, hereinafter called "the Commission," is hereby established. The Commission shall consist of seven members representing each party State. One of such members shall be the Governor or his designated representative, and six shall be appointed by and serve at the pleasure of the Governor, unless the laws of the State otherwise provide. In addition to any other principles or requirements which a State may establish for the appointment and service of its members of the Commission, the guiding principle for the composition of the membership on the Commission from each party State shall be that the members representing such State shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the State Government, higher education, the State education system, local education, lay and professional, public and non-public educational leadership. Of those appointees, one may be the head of a State agency or institution, designated by the Governor, having responsibility for one or more programs of public education. In addition to the members of the Commission representing the party States, there may be not to exceed ten non-voting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

Section B. The members of the Commission shall be entitled to one vote each on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action
of the Commission shall be only at a meeting at which a majority of the commissioners are present. The Commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the Commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III(j).

Section C. The Commission shall have a seal.

Section D. The Commission shall elect annually, from among its members, a chairman, who shall be a Governor, a vice chairman and a treasurer. The Commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the Commission, and together with the treasurer and such other personnel as the Commission may deem appropriate shall be bonded in such amount as the Commission shall determine. The executive director shall be secretary.

Section E. Irrespective of the civil service, personnel or other merit system laws of any of the party States, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Commission, and shall fix the duties and compensation of such personnel. The Commission in its bylaws shall provide for their personnel policies and programs of the Commission.

Section F. The Commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

Section G. The Commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any State, the United States, or any other governmental agency or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the Commission pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this Article shall be reported in the annual report of the
Commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

Section H. The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

Section I. The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party States.

Section J. The Commission annually shall make to the Governor and legislature of each party State a report covering the activities of the Commission for the preceding year. The Commission may make such additional reports as it may deem desirable.

Article IV. Powers

In addition to authority conferred on the Commission by other provisions of the compact, the Commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

3. Develop proposals for adequate financing of education as a whole and at each of its many levels.

4. Conduct or participate in research of the types referred to in this Article in any instance where the Commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.
Article V. Cooperation With Federal Government

Section A. If the laws of the United States specifically so provided, or if administrative provision is made therefor within the Federal Government, the United States may be represented on the Commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to Federal law, and may be drawn from any one or more branches of the Federal Government, but no such representative shall have a vote on the Commission.

Section B. The Commission may provide information and make recommendations to any executive or legislative agency or officer of the Federal Government concerning the common educational policies of the States, and may advise with any such agencies or officers concerning any matter of mutual interest.

Article VI. Committees

Section A. To assist in the expeditious conduct of its business when the full Commission is not meeting, the Commission shall elect a steering committee of thirty members which, subject to the provisions of this compact and consistent with the policies of the Commission, shall be constituted and function as provided in the bylaws of the Commission. One-third of the voting membership of the steering committee shall consist of Governors, and the remainder shall consist of other members of the Commission. A Federal representative on the Commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the Commission shall be elected as follows: fifteen for one year and fifteen for two years. The chairman, vice chairman, and treasurer of the Commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the Commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

Section B. The Commission may establish advisory and technical
committees composed of State, local, and Federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the States concerned, be established to consider any matter of special concern to two or more of the party States.

Section C. The Commission may establish such additional committees as its bylaws may provide.

Article VII. Finance

Section A. The Commission shall advise the Governor or designated officer or officers of each party State of its budget and estimated expenditures for such period as may be required by the laws of that party State. Each of the Commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party States.

Section B. The total amount of appropriation requests under any budget shall be apportioned among the party States. In making such apportionment, the Commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party States.

Section C. The Commission shall not pledge the credit of any party States. The Commission may meet any of its obligations in whole or in part with funds available to it pursuant to Article III(g) of this compact, provided that the Commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it pursuant to Article III(g) thereof, the Commission shall not incur any obligation prior to the allotment of funds by the party States adequate to meet the same.

Section D. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the Commission.

Section E. The accounts of the Commission shall be open at any reasonable time for inspection by duly constituted officers of the party States and by any persons authorized by the Commission.

Section F. Nothing contained herein shall be construed to
prevent Commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Commission.

Article VIII. Eligible Parties; Entry into and Withdrawal

Section A. This compact shall have as eligible parties all States, Territories, and Possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a Governor, the term "Governor," as used in this compact, shall mean the closest equivalent official of such jurisdiction.

Section B. Any State or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

Section C. Adoption of the compact may be either by enactment thereof or by adherence thereto by the Governor; provided that in the absence of enactment, adherence by the Governor shall be sufficient to make his State a party only until December 31, 1967. During any period when a State is participating in this compact through gubernatorial action, the Governor shall appoint those persons who, in addition to himself, shall serve as the members of the Commission from his State, and shall provide to the Commission an equitable share of the financial support of the Commission from any source available to him.

Section D. Except for a withdrawal effective on December 31, 1967, in accordance with paragraph C of this Article, any party State may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing State has given notice in writing of the withdrawal to the Governors of all other party States. No withdrawal shall affect any liability already incurred by or chargeable to a party State prior to the time of such withdrawal.

Article IX. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any State or of the United States, or the application thereof to any Government, agency, person or circumstance is held invalid, the
validity of the remainder of this compact and the applicability thereof to any Government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any State participating therein, the compact shall remain in full force and effect as to the State affected as to all severable matters.

Sec. 161.02. TEXAS REPRESENTATIVES. The Texas membership to the Educational Commission of the States shall be the governor or his designated representative and six citizens of the state, including the state commissioner of education and the state commissioner of higher education, who shall be appointed and serve at the pleasure of the governor. Sec. 161.04. ANNUAL REPORT. Before October 1 of each year, the Compact for Education Commissioners for Texas shall prepare and file with the presiding officer of each house of the legislature a complete and detailed report relating to the compact describing the activities of and accounting for all funds received and disbursed by the commissioners in the preceding fiscal year. The report must be included as a part of the annual financial report of the governor's office.

   2. members of the uniformed services now retired, except as provided in Section A;
   3. veterans of the uniformed services, except as provided in Section A; and
   4. other U.S. Department of Defense personnel and other federal agency civilian and contract employees not defined as active duty members of the uniformed services.

ARTICLE IV. EDUCATIONAL RECORDS AND ENROLLMENT

A. Unofficial or "hand-carried" education records--In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial education records containing uniform information as
determined by the Interstate Commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records pending validation by the official records, as quickly as possible.

B. Official education records/transcripts--Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state will process and furnish the official education records to the school in the receiving state within ten (10) days or within such time as is reasonably determined under the rules promulgated by the Interstate Commission.

C. Immunizations--Compacting states shall give thirty (30) days from the date of enrollment or within such time that does not exceed thirty (30) days as is reasonably determined under the rules promulgated by the Interstate Commission, for students to obtain any immunization(s) required by the receiving state. For a series of immunizations, initial vaccinations must be obtained within thirty (30) days or within such time that does not exceed thirty (30) days as is reasonably determined under the rules promulgated by the Interstate Commission. The collection and exchange of information pertaining to immunizations shall be subject to confidentiality provisions prescribed by federal law.

D. Kindergarten and first grade entrance age--Students shall be allowed to continue their enrollment at grade level in the receiving state commensurate with their grade level (including kindergarten) from a local education agency in the sending state at the time of transition, regardless of age. A student that has satisfactorily completed the prerequisite grade level in the local education agency in the sending state shall be eligible for enrollment in the next highest grade level in the receiving state, regardless of age. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on their validated level from an accredited school in the sending state.

ARTICLE V. PLACEMENT AND ATTENDANCE

A. Course placement--When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school and/or educational
assessments conducted at the school in the sending state if the courses are offered. Course placement includes but is not limited to honors, international baccalaureate, advanced placement, vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course(s).

B. Educational program placement--The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation/placement in like programs in the sending state. Such programs include, but are not limited to: (1) gifted and talented programs; and (2) English as a second language (ESL). This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

C. Special education services--(1) In compliance with the federal requirements of the Individuals with Disabilities Education Act (IDEA) (20 U.S.C. Section 1400 et seq.), the receiving state shall initially provide comparable services to a student with disabilities based on his/her current Individualized Education Program (IEP); and (2) In compliance with the requirements of Section 504 of the Rehabilitation Act (29 U.S.C.A. Section 794), and with Title II of the Americans with Disabilities Act (42 U.S.C.A. Sections 12131-12165), the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II Plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Placement flexibility--Local education agency administrative officials shall have flexibility in waiving course/program prerequisites, or other preconditions for placement in courses/programs offered under the jurisdiction of the local education agency.

E. Absence as related to deployment activities--A student whose
parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

ARTICLE VI. ELIGIBILITY

A. Eligibility for enrollment
   1. Special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law, shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.
   2. A local education agency shall be prohibited from charging local tuition to a transitioning military child placed in the care of a non-custodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.
   3. A transitioning military child, placed in the care of a non-custodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he/she was enrolled while residing with the custodial parent.

B. Eligibility for extracurricular participation--State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

ARTICLE VII. GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

A. Waiver requirements--Local education agency administrative officials shall waive specific courses required for graduation if similar coursework has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.
B. Exit exams--States shall accept: (1) exit or end-of-course exams required for graduation from the sending state; or (2) national norm-referenced achievement tests; or (3) alternative testing, in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her senior year, then the provisions of Article VII, Section C, shall apply.

C. Transfers during senior year--Should a military student transferring at the beginning or during his or her senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with Sections A and B of this article.

The Texas commissioner of education shall adopt a passing standard on one or more national norm-referenced achievement tests for purposes of permitting a student to whom this compact applies to meet that standard as a substitute for completing a specific course or achieving a score on an assessment instrument otherwise required by this state for graduation. Each passing standard must be at least as rigorous as the applicable requirement otherwise imposed by this state for graduation, and be consistent with college readiness standards adopted under Section 28.008, Texas Education Code. Before adopting or revising a passing standard, the commissioner of education must consider any comments submitted by the Texas Higher Education Coordinating Board or the State Board of Education.

A passing standard adopted by the commissioner of education is available only for a student who enrolls in a public school in this state for the first time after completing the ninth grade or who reenrolls in a public school in this state at or above the 10th grade level after an absence of at least two years from the public schools of this state. Each passing standard in effect when a student first enrolls in a public high school in this state remains applicable to the student for the duration of the student's high school enrollment, regardless of any subsequent revision of the standard.
The commissioner of education may adopt rules as necessary to implement the commissioner's duties and authority under this article of the compact.

The Texas Higher Education Coordinating Board shall monitor the postsecondary educational performance in this state of students permitted to graduate in accordance with passing standards adopted by the commissioner of education for purposes of this compact. Based on the educational performance of those students in private and public institutions, the coordinating board shall make recommendations to the commissioner of education regarding appropriate revisions of the passing standards.

ARTICLE VIII. STATE COORDINATION

A. Each member state shall, through the creation of a State Council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in, and compliance with, this compact and Interstate Commission activities. While each member state may determine the membership of its own State Council, its membership must include at least: the state superintendent of education, superintendent of a school district with a high concentration of military children, representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the State Council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the State Council.

B. The State Council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

C. The compact commissioner responsible for the administration and management of the state's participation in the compact shall be appointed by the governor or as otherwise determined by each member state.

D. The compact commissioner and the military family education liaison designated herein shall be ex-officio members of the State Council, unless either is already a full voting member of the State Council.
ARTICLE IX. INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN

The member states hereby create the "Interstate Commission on Educational Opportunity for Military Children." The activities of the Interstate Commission are the formation of public policy and are a discretionary state function. The Interstate Commission shall:

A. Be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth herein, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

B. Consist of one Interstate Commission voting representative from each member state who shall be that state's compact commissioner.

1. Each member state represented at a meeting of the Interstate Commission is entitled to one vote.

2. A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission.

3. A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the Interstate Commission, the governor or State Council may delegate voting authority to another person from their state for a specified meeting.

4. The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

C. Consist of ex-officio, non-voting representatives who are members of interested organizations. Such ex-officio members, as defined in the bylaws, may include but not be limited to, members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. Department of Defense, the Education Commission of the States, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members.

D. Meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings.

E. Establish an executive committee, whose members shall
include the officers of the Interstate Commission and such other
members of the Interstate Commission as determined by the bylaws.
Members of the executive committee shall serve a one year term.
Members of the executive committee shall be entitled to one vote
each. The executive committee shall have the power to act on behalf
of the Interstate Commission, with the exception of rulemaking,
during periods when the Interstate Commission is not in session. The
executive committee shall oversee the day-to-day activities of the
administration of the compact including enforcement and compliance
with the provisions of the compact, its bylaws and rules, and other
such duties as deemed necessary. The U.S. Department of Defense
shall serve as an ex-officio, non-voting member of the executive
committee.

F. Establish bylaws and rules that provide for conditions
and procedures under which the Interstate Commission shall make its
information and official records available to the public for
inspection or copying. The Interstate Commission may exempt from
disclosure information or official records to the extent they would
adversely affect personal privacy rights or proprietary interests.

G. Give public notice of all meetings and all meetings
shall be open to the public, except as set forth in the rules or as
otherwise provided in the compact. The Interstate Commission and its
committees may close a meeting, or portion thereof, where it
determines by two-thirds vote that an open meeting would be likely
to:

1. Relate solely to the Interstate Commission's
internal personnel practices and procedures;
2. Disclose matters specifically exempted from
disclosure by federal and state statute;
3. Disclose trade secrets or commercial or financial
information which is privileged or confidential;
4. Involve accusing a person of a crime, or formally
censuring a person;
5. Disclose information of a personal nature where
disclosure would constitute a clearly unwarranted invasion of
personal privacy;
6. Disclose investigative records compiled for law
enforcement purposes; or
7. Specifically relate to the Interstate Commission's
participation in a civil action or other legal proceeding.
H. Shall cause its legal counsel or designee to certify that a meeting may be closed and shall reference each relevant exemptible provision for any meeting, or portion of a meeting, which is closed pursuant to this provision. The Interstate Commission shall keep minutes which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Interstate Commission.

I. Shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection and data exchange, and reporting requirements. Such methods of data collection, exchange, and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

J. Shall create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the Interstate Commission or any member state.

ARTICLE X. POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The Interstate Commission shall have the following powers:

A. To provide for dispute resolution among member states.

B. To promulgate rules and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact. The rules shall have the force and effect of statutory law and shall be binding in the compact states to the extent and in the manner provided in this compact.

2. The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation, as the Interstate Commission may deem appropriate. The executive director shall serve as secretary to the Interstate Commission, but shall not be a member of the Interstate Commission. The executive director shall hire and supervise such other persons as may be authorized by the Interstate Commission.

D. The Interstate Commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of Interstate Commission employment, duties, or responsibilities; provided, that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or wilful and wanton misconduct of such person.

1. The liability of the Interstate Commission's executive director and employees or Interstate Commission representatives, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state may
not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or wilful and wanton misconduct of such person.

2. The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend such Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or wilful and wanton misconduct on the part of such person.

3. To the extent not covered by the state involved, the member state, or the Interstate Commission, the representatives or employees of the Interstate Commission shall be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or wilful and wanton misconduct on the part of such persons.

ARTICLE XII. RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

A. Rulemaking Authority--The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this Act, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.
B. Rulemaking Procedure--Rules shall be made pursuant to a rulemaking process that substantially conforms to the "Model State Administrative Procedure Act," of 1981 Act, Uniform Laws Annotated, Volume 15, page 1 (2000), as amended, as may be appropriate to the operations of the Interstate Commission.

C. Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

D. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

ARTICLE XIII. OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

A. Oversight

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the Interstate Commission.

3. The Interstate Commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

B. Default, Technical Assistance, Suspension, and Termination--If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the
Interstate Commission shall:

1. Provide written notice to the defaulting state and other member states, of the nature of the default, the means of curing the default and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state must cure its default.

2. Provide remedial training and specific technical assistance regarding the default.

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

5. The state which has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination including obligations, the performance of which extends beyond the effective date of suspension or termination.

6. The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

7. The defaulting state may appeal the action of the Interstate Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

C. Dispute Resolution

1. The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes which are subject to
the compact and which may arise among member states and between
member and non-member states.

2. The Interstate Commission shall promulgate a rule
providing for both mediation and binding dispute resolution for
disputes as appropriate.

D. Enforcement

1. The Interstate Commission, in the reasonable exercise of
its discretion, shall enforce the provisions and rules of this
compact.

2. The Interstate Commission may, by majority vote of the
members, initiate legal action in the U.S. District Court for the
District of Columbia or, at the discretion of the Interstate
Commission, in the federal district where the Interstate Commission
has its principal offices, to enforce compliance with the provisions
of the compact, its promulgated rules and bylaws, against a member
state in default. The relief sought may include both injunctive
relief and damages. In the event judicial enforcement is necessary,
the prevailing party shall be awarded all costs of such litigation
including reasonable attorney's fees.

3. The remedies herein shall not be the exclusive remedies
of the Interstate Commission. The Interstate Commission may avail
itself of any other remedies available under state law or the
regulation of a profession.

ARTICLE XIV. FINANCING OF THE INTERSTATE COMMISSION

A. The Interstate Commission shall pay, or provide for the
payment of the reasonable expenses of its establishment,
organization, and ongoing activities.

B. The Interstate Commission may levy on and collect an annual
assessment from each member state to cover the cost of the operations
and activities of the Interstate Commission and its staff, which must
be in a total amount sufficient to cover the Interstate Commission's
annual budget as approved each year. The aggregate annual assessment
amount shall be allocated based upon a formula to be determined by
the Interstate Commission, which shall promulgate a rule binding upon
all member states.

C. The Interstate Commission shall not incur obligations of any
kind prior to securing the funds adequate to meet the same; nor shall
the Interstate Commission pledge the credit of any of the member
states, except by and with the authority of the member state.

D. The Interstate Commission shall keep accurate accounts of
all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

ARTICLE XV. MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT
A. Any state is eligible to become a member state.
B. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than ten (10) of the states. The effective date shall be no earlier than December 1, 2007. Thereafter it shall become effective and binding as to any other member state upon enactment of the compact into law by that state. The governors of non-member states or their designees shall be invited to participate in the activities of the Interstate Commission on a non-voting basis prior to adoption of the compact by all states.
C. The Interstate Commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

ARTICLE XVI. WITHDRAWAL AND DISSOLUTION
A. Withdrawal
1. Once effective, the compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from the compact by specifically repealing the statute which enacted the compact into law.
2. Withdrawal from this compact shall be by the enactment of a statute repealing the same, but shall not take effect until one (1) year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member jurisdiction.
3. The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty (60) days of its receipt thereof.
4. The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

5. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

B. Dissolution of Compact

1. This compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one (1) member state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

ARTICLE XVII. SEVERABILITY AND CONSTRUCTION

A. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

C. Nothing in this compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

ARTICLE XVIII. BINDING EFFECT OF COMPACT AND OTHER LAWS

A. Other Laws

1. Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with this compact.

2. All member states' laws conflicting with this compact are superseded to the extent of the conflict.

B. Binding Effect of the Compact

1. All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the member states.

2. All agreements between the Interstate Commission and the member states are binding in accordance with their terms.
