(d) In calculating the amount of state revenue to be withheld from a school district under this section, the commissioner shall calculate the cost for the district to reduce the district's wealth per student to the equalized wealth level using the final attendance and tax rate data for the school year and shall award the district any available credit or discount under Subchapter D as if the district had exercised the option under Section 41.003(3) in a timely manner. If the final amount calculated for the cost for the district to reduce the district's wealth per student to the equalized wealth level for a school year exceeds the amount of state revenue to which the district is entitled under Chapter 42 for that year:

(1) the commissioner shall:

(A) withhold the entire amount of state revenue to which the district is entitled under Chapter 42 for that year; and

(B) withhold the additional amount of the cost for the district to reduce the district's wealth per student to the equalized wealth level for that year from the state revenue to which the district is entitled under Chapter 42 for a subsequent school year,
or if the additional amount exceeds the amount of state revenue to which the district is entitled, add the difference to the cost of the attendance credits that the district must purchase in the subsequent year; and

(2) the district is not required to take any further action to reduce its wealth per student for that year.

(e) An action by the board of trustees of a school district authorizing the commissioner to withhold state revenue from the district under this section is valid without voter authorization.

Sec. 41.005. COMPTROLLER AND APPRAISAL DISTRICT COOPERATION. The chief appraiser of each appraisal district and the comptroller shall cooperate with the commissioner and school districts in implementing this chapter.

Sec. 41.006. RULES. (a) The commissioner may adopt rules necessary for the implementation of this chapter. The rules may provide for the commissioner to make necessary adjustments to the provisions of Chapter 42, including providing for the commissioner to make an adjustment in the funding element established by Section 42.302, at the earliest date practicable, to the amount the commissioner believes, taking into consideration options exercised by school districts under this chapter and estimates of student enrollments, will match appropriation levels.

(b) As necessary for the effective and efficient administration
of this chapter, the commissioner may modify effective dates and time periods for actions described by this chapter.

Sec. 41.007. COMMISSIONER TO APPROVE SUBSEQUENT BOUNDARY CHANGES. A school district that is involved in an action under this chapter that results in boundary changes to the district or in the consolidation of tax bases is subject to consolidation, detachment, or annexation under Chapter 13 only if the commissioner certifies that the change under Chapter 13 will not result in a district with a wealth per student that exceeds the equalized wealth level.

Sec. 41.008. HOMESTEAD EXEMPTIONS. (a) The governing board of a school district that results from consolidation under this chapter, including a consolidated taxing district under Subchapter F, for the tax year in which the consolidation occurs may determine whether to adopt a homestead exemption provided by Section 11.13, Tax Code, and may set the amount of the exemption, if adopted, at any time before the school district adopts a tax rate for that tax year. This section applies only to an exemption that the governing board of a school district is authorized to adopt or change in amount under Section 11.13, Tax Code.

(b) This section prevails over any inconsistent provision of Section 11.13, Tax Code, or other law.

Sec. 41.009. TAX ABATEMENTS. (a) A tax abatement agreement executed by a school district that is involved in consolidation or in detachment and annexation of territory under this chapter is not affected and applies to the taxation of the property covered by the agreement as if executed by the district within which the property is included.
(b) The commissioner shall determine the wealth per student of a school district under this chapter as if any tax abatement agreement executed by a school district on or after May 31, 1993, had not been executed.

Sec. 41.010. TAX INCREMENT OBLIGATIONS. The payment of tax increments under Chapter 311, Tax Code, is not affected by the consolidation of territory or tax bases or by annexation under this chapter. In each tax year a school district paying a tax increment from taxes on property over which the district has assumed taxing power is entitled to retain the same percentage of the tax increment from that property that the district in which the property was located before the consolidation or annexation could have retained for the respective tax year.

Sec. 41.011. CONTINGENCY. (a) If any of the options described by Section 41.003 as applied to a school district are held invalid by a final decision of a court of competent jurisdiction, a school district is entitled to exercise any of the remaining valid options in accordance with a schedule approved by the commissioner.

(b) If a final order of a court of competent jurisdiction should hold each of the options provided by Section 41.003 invalid, the commissioner shall act under Subchapter G or H to achieve the equalized wealth level only after notice and hearing is afforded to each school district affected by the order. The commissioner shall adopt a plan that least disrupts the affected school districts. If because the exigency to adopt a plan prevents the commissioner from giving a reasonable time for notice and hearing, the commissioner shall timely give notice to and hold a hearing for the affected school districts, but in no event less than 30 days from time of notice to the date of hearing.

(c) If a final order of a court of competent jurisdiction should hold an option provided by Section 41.003 invalid and order a refund to a district of any amounts paid by a district choosing that option, the amount shall be refunded but held in reserve and not
expended by the district until released by order of the commissioner. The commissioner shall order the release immediately on the commissioner's determination that, through one of the means provided by law, the district has achieved the equalized wealth level. The amount released shall be deducted from any state aid payable to the district according to a schedule adopted by the commissioner.

Sec. 41.012. DATE OF ELECTIONS. An election under this chapter for voter approval of an agreement entered by the board of trustees shall be held on a Tuesday or Saturday not more than 45 days after the date of the agreement. Section 41.001, Election Code, does not apply to the election.

Sec. 41.013. PROCEDURE. (a) Except as provided by Subchapter G, a decision of the commissioner under this chapter is appealable under Section 7.057.

(b) Any order of the commissioner issued under this chapter shall be given immediate effect and may not be stayed or enjoined pending any appeal.

(c) Chapter 2001, Government Code, does not apply to a decision of the commissioner under this chapter.

(d) On the request of the commissioner, the secretary of state shall publish any rules adopted under this chapter in the Texas Register and the Texas Administrative Code.

SUBCHAPTER B. CONSOLIDATION BY AGREEMENT

Sec. 41.031. AGREEMENT. The governing boards of any two or more school districts may consolidate the districts by agreement in accordance with this subchapter to establish a consolidated district with a wealth per student equal to or less than the equalized wealth level. The agreement is not effective unless the commissioner certifies that the consolidated district, as a result of actions
taken under this chapter, will have a wealth per student equal to or less than the equalized wealth level.

Sec. 41.032. GOVERNING LAW. Except to the extent modified by the terms of the agreement, the consolidated district is governed by the applicable provisions of Subchapter D, Chapter 13, other than a provision requiring consolidating districts to be contiguous. The agreement may not be inconsistent with the requirements of this subchapter.

Sec. 41.033. GOVERNANCE PLAN. (a) The agreement among the consolidating districts may include a governance plan designed to preserve community-based and site-based decision making within the consolidated district, including the delegation of specific powers of the governing board of the district other than the power to levy taxes, including a provision authorized by Section 13.158(b).

(b) The governance plan may provide for a transitional board of trustees during the first year after consolidation, but beginning with the next year the board of trustees must be elected from within the boundaries of the consolidated district. If the consolidating districts elect trustees from single-member districts, the consolidated district must adopt a plan to elect its board of trustees from single-member districts.

Sec. 41.034. INCENTIVE AID. (a) For the first and second school years after creation of a consolidated district under this subchapter, the commissioner shall adjust allotments to the consolidated district to the extent necessary to preserve the effects of an adjustment under Section 42.102, 42.103, or 42.105 to which either of the consolidating districts would have been entitled but
for the consolidation.

(b) Except as provided by Subsection (c), a district receiving incentive aid payments under this section is not entitled to incentive aid under Subchapter G, Chapter 13.

(c) Four or more districts that consolidate into one district under this subchapter within a period of one year may elect to receive incentive aid under this section or to receive incentive aid for not more than five years under Subchapter G, Chapter 13. Incentive aid under this subsection may not provide the consolidated district with more revenue in state and local funds than the district would receive at the equalized wealth level.

SUBCHAPTER C. DETACHMENT AND ANNEXATION BY AGREEMENT

Sec. 41.061. AGREEMENT. (a) By agreement of the governing boards of two school districts, territory may be detached from one of the districts and annexed to the other district if, after the action:

(1) the wealth per student of the district from which territory is detached is equal to or less than the equalized wealth level; and

(2) the wealth per student of the district to which territory is annexed is not greater than the greatest level for which funds are provided under Subchapter F, Chapter 42.

(b) The agreement is not effective unless the commissioner certifies that, after all actions taken under this chapter, the wealth per student of each district involved will be equal to or less than the applicable level permitted by Subsection (a).

Sec. 41.062. GOVERNING LAW. Except to the extent of any conflict with this chapter and except for any requirement that detached property must be annexed to a school district that is contiguous to the detached territory, the annexation and detachment is governed by Chapter 13.

Sec. 41.063. ALLOCATION OF APPRAISED VALUE OF DIVIDED UNIT. If portions of a parcel or other item of property are located in different school districts as a result of a detachment and annexation under this subchapter, the parcel or other item of property shall be appraised for taxation as a unit, and the agreement shall allocate the taxable value of the property between the districts.

Sec. 41.064. ALLOCATION OF INDEBTEDNESS. The annexation agreement may allocate to the receiving district any portion of the indebtedness of the district from which the territory is detached, and the receiving district assumes and is liable for the allocated indebtedness.

Sec. 41.065. NOTICE. As soon as practicable after the agreement is executed, the districts involved shall notify each affected property owner and the appraisal district in which the affected property is located.

SUBCHAPTER D. PURCHASE OF ATTENDANCE CREDIT

Sec. 41.091. AGREEMENT. A school district with a wealth per student that exceeds the equalized wealth level may execute an agreement with the commissioner to purchase attendance credits in an amount sufficient, in combination with any other actions taken under this chapter, to reduce the district's wealth per student to a level that is equal to or less than the equalized wealth level.

Sec. 41.092. CREDIT. (a) For each credit purchased, the weighted average daily attendance of the purchasing school district is increased by one student in weighted average daily attendance for
purposes of determining whether the district exceeds the equalized wealth level.

(b) A credit is not used in determining a school district's scholastic population, average daily attendance, or weighted average daily attendance for purposes of Chapter 42 or 43.

Sec. 41.093. COST. (a) Subject to Subsection (b-1), the cost of each credit is an amount equal to the greater of:

(1) the amount of the district's maintenance and operations tax revenue per student in weighted average daily attendance for the school year for which the contract is executed; or

(2) the amount of the statewide district average of maintenance and operations tax revenue per student in weighted average daily attendance for the school year preceding the school year for which the contract is executed.

(b) For purposes of this section, a school district's maintenance and operations tax revenue does not include any amounts paid into a tax increment fund under Chapter 311, Tax Code.

(b-1) If the guaranteed level of state and local funds per weighted student per cent of tax effort under Section 42.302(a-1)(1) for which state funds are appropriated for a school year is an amount at least equal to the amount of revenue per weighted student per cent of tax effort available to the Austin Independent School District, as determined by the commissioner in cooperation with the Legislative Budget Board, the commissioner, in computing the amounts described by Subsections (a)(1) and (2) and determining the cost of an attendance credit, shall exclude maintenance and operations tax revenue resulting from the first six cents by which a district's maintenance and operations tax rate exceeds the rate equal to the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year.

(c) The cost of an attendance credit for a school district is computed using the final tax collections of the district.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 1997, 75th Leg., ch. 592, Sec. 1.02, eff. Sept. 1, 1997; Acts 1997, 75th Leg., ch. 1071, Sec. 9, eff. Sept. 1, 1997;
Sec. 41.0931. DISASTER REMEDIATION COSTS. (a) This section applies only to a district all or part of which is located in an area declared a disaster area by the governor under Chapter 418, Government Code, and that incurs disaster remediation costs as a result of the disaster.

(b) Subject to Subsection (c), for the two-year period following the date of the governor's initial proclamation or executive order declaring a state of disaster, the total amount required to be paid by a district for attendance credits under Section 41.093 is reduced by the amount of any disaster remediation costs that the district pays during that period and does not anticipate recovering through insurance proceeds, federal disaster relief payments, or another similar source of reimbursement.

(c) To receive a reduction under this section, a district must provide the commissioner with acceptable documentation of disaster remediation costs paid by the district.

(d) The commissioner shall adopt rules necessary to implement this section, including rules defining "disaster remediation costs" for purposes of this section and specifying the type of documentation required under Subsection (c).

(e) Notwithstanding any other provision of this section, the commissioner may permit a district to use funds available to the district as a result of a reduction under this section to pay the costs of replacing a facility instead of repairing the facility. The commissioner shall ensure that a district that elects to replace a facility does not receive a reduction that exceeds the lesser of:

(1) the amount that would be available to the district if the facility were repaired; or

(2) the amount necessary to replace the facility.

Added by Acts 2009, 81st Leg., R.S., Ch. 1006 (H.B. 4102), Sec. 3, eff. June 19, 2009.
Sec. 41.094. PAYMENT. (a) A school district shall pay for credits purchased in equal monthly payments as determined by the commissioner beginning February 15 and ending August 15 of the school year for which the agreement is in effect.  
(a-1) Expired.  
(b) Receipts shall be deposited in the state treasury and may be used only for foundation school program purposes.

Sec. 41.095. DURATION. An agreement under this section is valid for one school year and, subject to Section 41.096, may be renewed annually.

Sec. 41.096. VOTER APPROVAL. (a) After first executing an agreement under this section, the board of trustees shall order and conduct an election, in the manner provided by Sections 13.003(d)-(g), to obtain voter approval of the agreement.

(b) The ballot shall be printed to permit voting for or against the proposition: "Authorizing the board of trustees of ________ School District to purchase attendance credits from the state with local tax revenues."

(c) The proposition is approved if the proposition receives a favorable vote of a majority of the votes cast. If the proposition is approved, the agreement executed by the board is ratified, and the board has continuing authority to execute agreements under this subchapter on behalf of the district without further voter approval.

Sec. 41.097. CREDIT FOR APPRAISAL COSTS. (a) The total amount required under Section 41.093 for a district to purchase attendance credits under this subchapter for any school year is reduced by an amount equal to the product of the district's total costs under
Section 6.06, Tax Code, for the appraisal district or districts in which it participates multiplied by a percentage that is computed by dividing the total amount required under Section 41.093 by the total amount of taxes imposed in the district for that year less any amounts paid into a tax increment fund under Chapter 311, Tax Code.

(b) A school district is entitled to a reduction under Subsection (a) beginning with the 1996-1997 school year. For that school year, the reduction to which a district is entitled is the sum of the amounts computed under Subsection (a) for the 1993-1994, 1994-1995, 1995-1996, and 1996-1997 school years. If that amount exceeds the total amount required under Section 41.093 for the 1996-1997 school year, the difference is carried forward and the total amount required under Section 41.093 is reduced each subsequent school year until the total amount of the credit has been applied to such reductions.

Acts 2007, 80th Leg., R.S., Ch. 648 (H.B. 1010), Sec. 3, eff. January 1, 2008.

Sec. 41.098. EARLY AGREEMENT CREDIT. A district that submits a signed agreement under this subchapter to the commissioner before September 1 of the school year for which the agreement is made may reduce the total amount required to be paid for attendance credits under Section 41.093 by the lesser of four percent or $80 per credit purchased.

Sec. 41.099. LIMITATION. (a) Sections 41.002(e), 41.094, 41.097, and 41.098 apply only to a district that:

(1) executes an agreement to purchase all attendance credits necessary to reduce the district's wealth per student to the equalized wealth level;

(2) executes an agreement to purchase attendance credits and an agreement under Subchapter E to contract for the education of
nonresident students who transfer to and are educated in the district but who are not charged tuition; or

(3) executes an agreement under Subchapter E to contract for the education of nonresident students:

(A) to an extent that does not provide more than 10 percent of the reduction in wealth per student required for the district to achieve a wealth per student that is equal to or less than the equalized wealth level; and

(B) under which all revenue paid by the district to other districts, in excess of the reduction in state aid that results from counting the weighted average daily attendance of the students served in the contracting district, is required to be used for funding a consortium of at least three districts in a county with a population of less than 40,000 that is formed to support a technology initiative.

(b) A district that executes an agreement under Subsection (a)(3) must pay full market value for any good or service the district obtains through the consortium.

SUBCHAPTER E. EDUCATION OF NONRESIDENT STUDENTS

Sec. 41.121. AGREEMENT. (a) The board of trustees of a district with a wealth per student that exceeds the equalized wealth level may execute an agreement to educate the students of another district in a number that, when the weighted average daily attendance of the students served is added to the weighted average daily attendance of the contracting district, is sufficient, in combination with any other actions taken under this chapter, to reduce the district's wealth per student to a level that is equal to or less than the equalized wealth level. The agreement is not effective unless the commissioner certifies that the transfer of weighted average daily attendance will not result in any of the contracting districts' wealth per student being greater than the equalized wealth level and that the agreement requires an expenditure per student in weighted average daily attendance that is at least equal to the amount per student in weighted average daily attendance required.
Sec. 41.122. VOTER APPROVAL. (a) After first executing an agreement under this subchapter other than an agreement under Section 41.125, the board of trustees of the district that will be educating nonresident students shall order and conduct an election, in the manner provided by Sections 13.003(d)-(g), to obtain voter approval of the agreement.

(b) The ballot shall be printed to permit voting for or against the proposition: "Authorizing the board of trustees of _______ School District to educate students of other school districts with local tax revenues."

(c) The proposition is approved if the proposition receives a favorable vote of a majority of the votes cast. If the proposition is approved, the agreement executed by the board is ratified, and the board has continuing authority to execute agreements under this subchapter on behalf of the district without further voter approval.

Sec. 41.123. WADA COUNT. For purposes of Chapter 42, students served under an agreement under this subchapter are counted only in the weighted average daily attendance of the district providing the services, except that students served under an agreement authorized by Section 41.125 are counted in a manner determined by the commissioner.

Sec. 41.124. TRANSFERS. (a) The board of trustees of a school district with a wealth per student that exceeds the equalized wealth
level may reduce the district's wealth per student by serving nonresident students who transfer to the district and are educated by the district but who are not charged tuition. A district that exercises the option under this subsection is not required to execute an agreement with the school district in which a transferring student resides and must certify to the commissioner that the district has not charged or received tuition for the transferring students.

(b) A school district with a wealth per student that exceeds the equalized wealth level that pays tuition to another school district for the education of students that reside in the district may apply the amount of tuition paid toward the cost of the option chosen by the district to reduce its wealth per student. The amount applied under this subsection may not exceed the amount determined under Section 41.093 as the cost of an attendance credit for the district. The commissioner may require any reports necessary to document the tuition payments.

(c) A school district that receives tuition for a student from a school district with a wealth per student that exceeds the equalized wealth level may not claim attendance for that student for purposes of Chapters 42 and 46 and the instructional materials allotment under Section 31.0211.

Sec. 41.125. CAREER AND TECHNOLOGY EDUCATION PROGRAMS. (a) The board of trustees of a school district with a wealth per student that exceeds the equalized wealth level may reduce the district's wealth per student by executing an agreement to provide students of one or more other districts with career and technology education through a program designated as an area program for career and technology education.

(b) The agreement is not effective unless the commissioner certifies that:
(1) implementation of the agreement will not result in any of the affected districts' wealth per student being greater than the equalized wealth level; and

(2) the agreement requires the district with a wealth per student that exceeds the equalized wealth level to make expenditures benefiting students from other districts in an amount at least equal to the amount that would be required for the district to purchase the number of attendance credits under Subchapter D necessary, in combination with any other actions taken under this chapter other than an action under this section, to reduce the district's wealth per student to a level that is equal to or less than the equalized wealth level.

**SUBCHAPTER F. TAX BASE CONSOLIDATION**

Sec. 41.151. AGREEMENT. The board of trustees of two or more school districts may execute an agreement to conduct an election on the creation of a consolidated taxing district for the maintenance and operation of the component school districts. The agreement is subject to approval by the commissioner. The agreement is not effective unless the commissioner certifies that the consolidated taxing district will have a wealth per student equal to or less than the equalized wealth level after all actions taken under this chapter.

Sec. 41.152. DATE OF ELECTION. Any agreement under this subchapter must provide for the ordering of an election to be held on the same date in each district.

Sec. 41.153. PROPOSITION. (a) The ballot shall be printed to permit voting for or against the proposition: "Creation of a consolidated taxing district composed of the territory of ______________________ school districts, and authorizing the levy,
assessment, and collection of annual ad valorem taxes for the maintenance of the public free schools within that taxing district at a rate not to exceed $_________ on the $100 valuation of taxable property."

(b) The rate to be included in the proposition shall be provided by the agreement among the districts but may not exceed the maximum rate provided by law for independent school districts.

Sec. 41.154. APPROVAL. The proposition is approved only if the proposition receives a favorable vote of the majority of the votes cast within each participating school district.

Sec. 41.155. CONSOLIDATED TAXING DISTRICT. A consolidated taxing district is a school district established for the limited purpose of exercising the taxing power authorized by Section 3, Article VII, Texas Constitution, and distributing the revenue to its component school districts.

Sec. 41.156. GOVERNANCE. (a) The consolidated taxing district is governed by the boards of the component school districts acting jointly.

(b) Any action taken by the joint board must receive a favorable vote of a majority of each component district's board of trustees.

Sec. 41.157. MAINTENANCE TAX. (a) The joint board shall levy a maintenance tax for the benefit of the component school districts not later than September 1 of each year or as soon thereafter as practicable.
(b) Each component district shall bear a share of the costs of assessing and collecting taxes in proportion to the component district's share of weighted average daily attendance in the consolidated taxing district.

(c) A component district may not levy an ad valorem tax for the maintenance and operation of the schools.

(d) Notwithstanding Section 45.003, the consolidated taxing district may levy, assess, and collect a maintenance tax for the benefit of the component districts at a rate that exceeds $1.50 per $100 valuation of taxable property to the extent necessary to pay contracted obligations on the lease purchase of permanent improvements to real property entered into on or before May 12, 1993. The proposition to impose taxes at the necessary rate must be submitted to the voters in the manner provided by Section 45.003.

Sec. 41.158. REVENUE DISTRIBUTION. The consolidated taxing district shall distribute maintenance tax revenue to the component districts on the basis of the number of students in weighted average daily attendance in the component districts.

Sec. 41.159. TAXES OF COMPONENT DISTRICTS. (a) The governing board of a component school district of a consolidated taxing district that has consolidated for maintenance and operation purposes only may issue bonds and levy, pledge, and collect ad valorem taxes within that component district sufficient to pay the principal of and interest on those bonds as provided by Chapter 45.

(b) A component district levying an ad valorem tax under this section or Section 41.160(b)(1) is entitled to the guaranteed yield provided by Subchapter F, Chapter 42, for that portion of its tax rate that, when added to the maintenance tax levied by the consolidated taxing unit, does not exceed the limitation provided by Section 42.303.

Sec. 41.160. OPTIONAL TOTAL TAX BASE CONSOLIDATION. (a) An agreement executed under Section 41.151 may provide for total tax base consolidation instead of consolidation for maintenance and operation purposes only.

(b) Under an agreement providing for total tax base consolidation:

(1) the component districts may not levy maintenance or bond taxes, except to the extent necessary to retire bonds and other obligations issued before the effective date of the consolidation;

(2) the joint board may issue bonds and levy, pledge, and collect ad valorem taxes sufficient to pay the principal of and interest on those bonds, and issue refunding bonds, as provided by Chapter 45 for independent school districts; and

(3) to the end of the ballot proposition required under Section 41.153(a) shall be added ", and further to create a consolidated tax base for the repayment of all bonded indebtedness issued by the joint board of the taxing district after the effective date of the consolidation and to authorize the joint board to levy, pledge, and collect ad valorem taxes at a rate sufficient to pay the principal of and interest on those bonds."

(c) Under an agreement providing for total tax base consolidation:

(1) the component districts may provide for the consolidated taxing district to assume all of the indebtedness of all component districts; and

(2) to the end of the ballot proposition required by Section 41.153(a) shall be added ", and further to create a consolidated tax base for the repayment of all bonded indebtedness issued by the joint board of the taxing district or previously issued by the component school districts and to authorize the joint board to levy, pledge, and collect ad valorem taxes at a rate sufficient to pay the principal of and interest on those bonds."
determinable fee or by a conveyance that creates an interest taxable separately from the surface estate. A mineral property includes each royalty interest, working interest, or other undivided interest in the mineral property.

Sec. 41.202. DETERMINATION OF TAXABLE VALUE. (a) For purposes of this subchapter, the taxable value of an individual parcel or other item of property and the total taxable value of property in a school district resulting from the detachment of property from or annexation of property to that district is determined by applying the appraisal ratio for the appropriate category of property determined under Subchapter M, Chapter 403, Government Code, for the preceding tax year to the taxable value of the detached or annexed property determined under Title 1, Tax Code, for the preceding tax year.

(b) For purposes of this subchapter, the taxable value of all or a portion of a parcel or item of real property includes the taxable value of personal property having taxable situs at the same location as the real property.

Sec. 41.203. PROPERTY SUBJECT TO DETACHMENT AND ANNEXATION. (a) Only the following property may be detached and annexed under this subchapter:

(1) a mineral property;

(2) real property used in the operation of a public utility, including a pipeline, pipeline gathering system, or railroad or other rail system; and

(3) real property used primarily for industrial or other commercial purposes, other than property used primarily for agriculture or for residential purposes.

(b) If a final judgment of a court determines that a mineral interest may not be annexed and detached as provided by this subchapter without an attendant annexation and detachment of the surface estate or any other interest in the same land, the detachment and annexation of a mineral interest under this subchapter includes the surface estate and each other interest in the land covered by the
Sec. 41.204. TAXATION OF PERSONAL PROPERTY. Personal property having a taxable situs at the same location as real property detached and annexed under this subchapter is taxable by the school district to which the real property is annexed.

Sec. 41.205. DETACHMENT OF PROPERTY. (a) The commissioner shall detach property under this section from each school district from which the commissioner is required under Section 41.004 to detach property under this subchapter.

(b) The commissioner shall detach from each school district covered by Subsection (a) one or more whole parcels or items of property in descending order of the taxable value of each parcel or item, beginning with the parcel or item having the greatest taxable value, until the school district's wealth per student is equal to or less than the equalized wealth level, except as otherwise provided by Subsection (c).

(c) If the detachment of whole parcels or items of property, as provided by Subsection (a) would result in a district’s wealth per student that is less than the equalized wealth level by more than $10,000, the commissioner may not detach the last parcel or item of property and shall detach the next one or more parcels or items of property in descending order of taxable value that would result in the school district having a wealth per student that is equal to or less than the equalized wealth level by not more than $10,000.

(d) Notwithstanding Subsections (a), (b), and (c), the commissioner may detach only a portion of a parcel or item of property if:

(1) it is not possible to reduce the district's wealth per student to a level that is equal to or less than the equalized wealth level under this subchapter unless some or all of the parcel or item of property is detached and the detachment of the whole parcel or item would result in the district from which it is detached having a wealth per student that is less than the equalized wealth level by
more than $10,000; or

(2) the commissioner determines that a partial detachment of that parcel or item of property is preferable to the detachment of one or more other parcels or items having a lower taxable value in order to minimize the number of parcels or items of property to be detached consistent with the purposes of this chapter.

Sec. 41.206. ANNEXATION OF PROPERTY. (a) The commissioner shall annex property detached under Section 41.205 to school districts eligible for annexation in accordance with this section. A school district is eligible for annexation of property to it under this subchapter only if, before any detachments or annexations are made in a year, the district's wealth per student is less than the greatest level for which funds are provided under Subchapter F, Chapter 42.

(b) Property may be annexed to a school district without regard to whether the property is contiguous to other property in that district.

(c) The commissioner shall annex property detached from school districts beginning with the property detached from the school district with the greatest wealth per student before detachment, and continuing with the property detached from each other school district in descending order of the district's wealth per student before detachment.

(d) The commissioner shall annex the parcels or items of property detached from a school district to other school districts that are eligible for annexation of property in descending order of the taxable value of each parcel or item according to the following priorities:

(1) first, to the eligible school districts assigned to the same county as the school district from which the property is detached whose total adopted tax rate for the preceding tax year does not exceed by more than $0.15 the total tax rate adopted for that year by the school district from which the property is detached;

(2) second, to the eligible school districts served by the same regional education service center as the district from which the property is detached whose total adopted tax rate for the preceding
the tax year does not exceed by more than $0.10 the total tax rate adopted for that year by the school district from which the property is detached;

(3) third, to other eligible school districts whose total adopted tax rate for the preceding tax year does not exceed by more than $0.05 the total tax rate adopted for that year by the school district from which the property is detached.

(e) If the districts identified by Subsection (d) for a school district are insufficient to annex all the property detached from the school district, the commissioner shall increase, for purposes of this section, all the maximum difference in tax rates allowed under Subsection (d) in increments of $0.01 until the districts are identified that are sufficient to annex all the property detached from the district.

(f) If only one school district is eligible to annex property detached from a school district within a priority group established by Subsections (d) and (e), the commissioner shall annex property to that district until it reaches a wealth per student equal as nearly as possible to the greatest level for which funds are provided under Subchapter F, Chapter 42, by annexing whole parcels or items of property. Any remaining detached property shall be annexed to eligible school districts in the next priority group as provided by this section.

(g) If more than one school district is eligible to annex property detached from a school district within a priority group established by Subsections (d) and (e), the commissioner shall first annex property to the district within the priority group to which could be annexed the most taxable value of property without increasing its wealth per student above the greatest level for which funds are provided under Subchapter F, Chapter 42, until that district reaches a wealth per student equal as nearly as possible to the greatest level for which funds are provided under Subchapter F, Chapter 42, by annexing whole parcels or items of property. Then any additional detached property shall be annexed in the same manner to other eligible school districts in the same priority group in descending order of capacity to receive taxable value of annexed property without increasing the district's wealth per student above the greatest level for which funds are provided under Subchapter F, Chapter 42. If every school district in a priority group reaches a wealth per student equal to the greatest level for which funds are
provided under Subchapter F, Chapter 42, as nearly as possible, the remaining detached property shall be annexed to school districts in the next priority group in the manner provided by this section.

(h) For purposes of this section, a portion of a parcel or item of property detached in that subdivided form from a school district is treated as a whole parcel or item of property.

(i) The commissioner may order the annexation of a portion of a parcel or item of property, including a portion of property treated as a whole parcel or item under Subsection (h), if:

(1) the annexation of the whole parcel or item would result in the district eligible to receive it in the appropriate priority order provided by this section having a wealth per student greater than $10,000 more than the greatest level for which funds are provided under Subchapter F, Chapter 42; or

(2) the commissioner determines that annexation of portions of the parcel or item would reduce disparities in district wealth per student more efficiently than would be possible if the parcel or item were annexed as a whole.

(j) The commissioner may modify the priorities established by this section as the commissioner considers reasonable to minimize or reduce the number of school districts to which the property detached from a school district is annexed, to minimize or reduce the geographic dispersal of property in a school district, to minimize or reduce disparities in school district wealth per student that would otherwise result, or to minimize or reduce any administrative burden or expense.

(k) For purposes of this section, a school district is assigned to a county if the school district is assigned to that county in the 1992-1993 Texas School Directory published by the Central Education Agency.

Sec. 41.207. LIMITATIONS ON DETACHMENT AND ANNEXATION. The commissioner may detach and annex property under this subchapter only if:

(1) the property is not exempt from ad valorem taxation under Section 11.20 or 11.21, Tax Code; and

(2) the property does not contain a building or structure...
owned by the United States, this state, or a political subdivision of this state that is exempt from ad valorem taxation under law.

Sec. 41.208. ORDERS AND NOTICE. (a) The commissioner shall order any detachments and annexations of property under this subchapter not later than November 8 of each year.

(b) As soon as practicable after issuing the order under Subsection (a), the commissioner shall notify each affected school district and the appraisal district in which the affected property is located of the determination.

Sec. 41.209. TREATMENT OF SUBDIVIDED PROPERTY. (a) If the commissioner orders the detachment or annexation of a portion of a parcel or item of property under this subchapter, the order shall specify the portion of the taxable value of the property to be detached or annexed and may, but need not, describe the specific area of the parcel or item to be detached or annexed.

(b) If an order for the detachment or annexation of a portion of a parcel or item of property does not describe the specific area of the parcel or item to be detached or annexed, the commissioner, as soon as practicable after issuing the order, shall determine the specific area to be detached or annexed and shall certify that determination to the appraisal district for the county in which the property is located.

(c) If portions of a parcel or item of property are located in two or more school districts as the result of a detachment or annexation, the parcel or item shall be appraised for taxation as a unit, and the commissioner shall determine the portion of the taxable value of the property that is located in each of those school districts based on the square footage of the property, or any other reasonable method adopted by the commissioner.

Sec. 41.210. DUTIES OF CHIEF APPRAISER. (a) The chief appraiser of each appraisal district shall cooperate with the commissioner in administering this subchapter. The commissioner may require the chief appraiser to submit any reports or provide any information available to the chief appraiser in the form and at the times required by the commissioner.

(b) As soon as practicable after the detachment and annexation of property, the chief appraiser of the appraisal district in which the property is located shall send a written notice of the detachment and annexation to the owner of any property taxable in a different school district as a result of the detachment and annexation. The notice must include the name of the school district by which the property is taxable after the detachment and annexation.

(c) The commissioner may reimburse an appraisal district for any costs incurred in administering this subchapter and may condition the reimbursement or the amount of the reimbursement on the timely submission of reports or information required by the commissioner or the satisfactory performance of any other action required or requested by the commissioner.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by:
Acts 2007, 80th Leg., R.S., Ch. 648 (H.B. 1010), Sec. 4, eff. January 1, 2008.

Sec. 41.211. STUDENT ATTENDANCE. A student who is a resident of real property detached from a school district may choose to attend school in that district or in the district to which the property is annexed. For purposes of determining average daily attendance under Section 42.005, the student shall be counted in the district to which the property is annexed. If the student chooses to attend school in the district from which the property is detached, the state shall withhold any foundation school funds from the district to which the property is annexed and shall allocate to the district in which the student is attending school those funds and the amount of funds equal to the difference between the state funds the district is receiving for the student and the district's cost in educating the student.

Sec. 41.212. BOND TAXES. Property detached from a school district is released from the obligation for any tax to pay principal and interest on bonds authorized by the district before detachment. The property is subject to any tax to pay principal or interest on bonds authorized by the district to which the property is annexed whether authorized before or after annexation.

Sec. 41.213. DETERMINATION BY COMMISSIONER FINAL. A decision or determination of the commissioner under this subchapter is final and not appealable.

SUBCHAPTER H. CONSOLIDATION BY COMMISSIONER

Sec. 41.251. COMMISSIONER ORDER. If the commissioner is required under Section 41.004 to order the consolidation of districts, the consolidation is governed by this subchapter. The commissioner's order shall be effective on a date determined by the commissioner, but not later than the earliest practicable date after November 8.

Sec. 41.252. SELECTION CRITERIA. (a) In selecting the districts to be consolidated with a district that has a property wealth greater than the equalized wealth level, the commissioner shall select one or more districts with a wealth per student that, when consolidated, will result in a consolidated district with a wealth per student equal to or less than the equalized wealth level. In achieving that result, the commissioner shall give priority to school districts in the following order:

1. first, to the contiguous district that has the lowest wealth per student and is located in the same county;
2. second, to the district that has the lowest wealth per student and is located in the same county;
3. third, to a contiguous district with a property wealth
below the equalized wealth level that has requested the commissioner that it be considered in a consolidation plan;

(4) fourth, to include as few districts as possible that fall below the equalized wealth level within the consolidation order that have not requested the commissioner to be included;

(5) fifth, to the district that has the lowest wealth per student and is located in the same regional education service center area; and

(6) sixth, to a district that has a tax rate similar to that of the district that has a property wealth greater than the equalized wealth level.

(b) The commissioner may not select a district that has been created as a result of consolidation by agreement under Subchapter B to be consolidated under this subchapter with a district that has a property wealth greater than the equalized wealth level.

(c) In applying the selection criteria specified by Subsection (a), if more than two districts are to be consolidated, the commissioner shall select the third and each subsequent district to be consolidated by treating the district that has a property wealth greater than the equalized wealth level and the district or districts previously selected for consolidation as one district.

Sec. 41.253. GOVERNANCE. (a) Until the initial trustees elected as provided by Subsection (b) have qualified and taken office, a district consolidated under this subchapter is governed by a transitional board of trustees consisting of the board of trustees of the district having the greatest student membership on the last day of the school year preceding the consolidation plus one member of the board of trustees of each other consolidating district selected by that board.

(b) The transitional board of trustees shall divide the consolidated district into nine single-member trustee districts in accordance with the procedures provided by Section 11.052. The transitional board shall order an election for the initial board of trustees to be held on the first May uniform election date after the effective date of a consolidation order.

(c) Members of the board of trustees of a consolidated district
serve staggered terms of office for four years.

(d) Section 13.156 applies to districts consolidated under this subchapter.

Acts 2005, 79th Leg., Ch. 471 (H.B. 57), Sec. 4, eff. October 1, 2005.

Sec. 41.254. DISSOLUTION OF CONSOLIDATED DISTRICT. (a) If the legislature abolishes ad valorem taxes for public school maintenance and operations and adopts another method of funding public education, the board of trustees of a consolidated district created under this subchapter may dissolve the consolidated district, provided that the dissolution is approved by a majority of those voters residing within the district participating in an election called for the purpose of approving the dissolution of the consolidated school district.

(b) If a consolidated district is dissolved, each of the former districts is restored as a separate district and is classified as an independent district.

(c) Title to real property of the consolidated district is allocated to the restored district in which the property is located. Title to proportionate shares of the fund balances and personal property of the consolidated district, as determined by Subsection (e), are allocated to each restored district.

(d) Each of the restored districts assumes and is liable for:

(1) indebtedness of the consolidated district that relates to real property allocated to the district; and

(2) a proportionate share, as determined by Subsection (e), of indebtedness of the consolidated district that does not relate to real property.

(e) A restored district's proportionate share of fund balances, personal property, or indebtedness is equal to the proportion that the number of students in average daily attendance in the restored district bears to the number of students in average daily attendance in the consolidated district.

Sec. 41.255. FUND BALANCES. Fund balances of a school district consolidated under this subchapter may be used only for the benefit of the schools within the district that generated the funds.

Sec. 41.256. EMPLOYMENT CONTRACTS. A consolidated district created under this subchapter shall honor an employment contract entered into by a consolidating district.

Sec. 41.257. APPLICATION OF SMALL AND SPARSE ADJUSTMENTS AND TRANSPORTATION ALLOTMENT. The budget of the consolidated district must apply the benefit of the adjustment or allotment to the schools of the consolidating district to which Section 42.103, 42.105, or 42.155 would have applied in the event that the consolidated district still qualifies as a small or sparse district.

CHAPTER 42. FOUNDATION SCHOOL PROGRAM

SUBCHAPTER A. GENERAL PROVISIONS

Sec. 42.001. STATE POLICY. (a) It is the policy of this state that the provision of public education is a state responsibility and that a thorough and efficient system be provided and substantially financed through state revenue sources so that each student enrolled in the public school system shall have access to programs and services that are appropriate to the student's educational needs and that are substantially equal to those available to any similar student, notwithstanding varying local economic factors.

(b) The public school finance system of this state shall adhere to a standard of neutrality that provides for substantially equal access to similar revenue per student at similar tax effort, considering all state and local tax revenues of districts after acknowledging all legitimate student and district cost differences.

Sec. 42.002. PURPOSES OF FOUNDATION SCHOOL PROGRAM. (a) The purposes of the Foundation School Program set forth in this chapter are to guarantee that each school district in the state has:

(1) adequate resources to provide each eligible student a basic instructional program and facilities suitable to the student's educational needs; and

(2) access to a substantially equalized program of financing in excess of basic costs for certain services, as provided by this chapter.

(b) The Foundation School Program consists of:

(1) two tiers that in combination provide for:

(A) sufficient financing for all school districts to provide a basic program of education that is rated acceptable or higher under Section 39.054 and meets other applicable legal standards; and

(B) substantially equal access to funds to provide an enriched program; and

(2) a facilities component as provided by Chapter 46.

Acts 2009, 81st Leg., R.S., Ch. 895 (H.B. 3), Sec. 60, eff. June 19, 2009.

Sec. 42.003. STUDENT ELIGIBILITY. (a) A student is entitled to the benefits of the Foundation School Program if, on September 1 of the school year, the student:

(1) is 5 years of age or older and under 21 years of age and has not graduated from high school, or is at least 21 years of age and under 26 years of age and has been admitted by a school district to complete the requirements for a high school diploma; or

(2) is at least 19 years of age and under 26 years of age and is enrolled in an adult high school diploma and industry certification charter school pilot program under Section 29.259.

(b) A student to whom Subsection (a) does not apply is entitled
to the benefits of the Foundation School Program if the student is enrolled in a prekindergarten class under Section 29.153.

(c) A child may be enrolled in the first grade if the child is at least six years of age at the beginning of the school year of the district or has been enrolled in the first grade or has completed kindergarten in the public schools in another state before transferring to a public school in this state.

(d) Notwithstanding Subsection (a), a student younger than five years of age is entitled to the benefits of the Foundation School Program if:

(1) the student performs satisfactorily on the assessment instrument administered under Section 39.023(a) to students in the third grade; and
(2) the district has adopted a policy for admitting students younger than five years of age.

Sec. 42.004. ADMINISTRATION OF THE PROGRAM. The commissioner, in accordance with the rules of the State Board of Education, shall take such action and require such reports consistent with this chapter as may be necessary to implement and administer the Foundation School Program.

Sec. 42.005. AVERAGE DAILY ATTENDANCE. (a) In this chapter, average daily attendance is:

(1) the quotient of the sum of attendance for each day of the minimum number of days of instruction as described under Section 25.081(a) divided by the minimum number of days of instruction;
(2) for a district that operates under a flexible year program under Section 29.0821, the quotient of the sum of attendance for each actual day of instruction as permitted by Section
(b)(1) divided by the number of actual days of instruction as permitted by Section 29.0821(b)(1); or

(3) for a district that operates under a flexible school day program under Section 29.0822, the average daily attendance as calculated by the commissioner in accordance with Section 29.0822(d).

(a-1) Expired.

(b) A school district that experiences a decline of two percent or more in average daily attendance shall be funded on the basis of:

(1) the actual average daily attendance of the preceding school year, if the decline is the result of the closing or reduction in personnel of a military base; or

(2) subject to Subsection (e), an average daily attendance not to exceed 98 percent of the actual average daily attendance of the preceding school year, if the decline is not the result of the closing or reduction in personnel of a military base.

(c) The commissioner shall adjust the average daily attendance of a school district that has a significant percentage of students who are migratory children as defined by 20 U.S.C. Section 6399.

(d) The commissioner may adjust the average daily attendance of a school district in which a disaster, flood, extreme weather condition, fuel curtailment, or other calamity has a significant effect on the district's attendance.

(e) For each school year, the commissioner shall adjust the average daily attendance of school districts that are entitled to funding on the basis of an adjusted average daily attendance under Subsection (b)(2) so that:

(1) all districts are funded on the basis of the same percentage of the preceding year's actual average daily attendance; and

(2) the total cost to the state does not exceed the amount specifically appropriated for that year for purposes of Subsection (b)(2).

(f) An open-enrollment charter school is not entitled to funding based on an adjustment under Subsection (b)(2).

(g) If a student may receive course credit toward the student's high school academic requirements and toward the student's higher education academic requirements for a single course, including a course provided under Section 28.009 by a public institution of higher education, the time during which the student attends the course shall be counted as part of the minimum number of
instructional hours required for a student to be considered a full-time student in average daily attendance for purposes of this section.

Sec. 42.0051. AVERAGE DAILY ATTENDANCE FOR DISTRICTS IN DISASTER AREA. (a) From funds specifically appropriated for the purpose or other funds available to the commissioner for that purpose, the commissioner shall adjust the average daily attendance of a school district all or part of which is located in an area declared a disaster area by the governor under Chapter 418, Government Code, if the district experiences a decline in average daily attendance that is reasonably attributable to the impact of the disaster.

(b) The adjustment must be sufficient to ensure that the district receives funding comparable to the funding that the district would have received if the decline in average daily attendance reasonably attributable to the impact of the disaster had not occurred.

(c) The commissioner shall make the adjustment required by this section for the two-year period following the date of the governor's initial proclamation or executive order declaring the state of
disaster.

(d) Section 42.005(b)(2) does not apply to a district that receives an adjustment under this section.

(e) A district that receives an adjustment under this section may not receive any additional adjustment under Section 42.005(d) for the decline in average daily attendance on which the adjustment under this section is based.

(f) For purposes of this title, a district's adjusted average daily attendance under this section is considered to be the district's average daily attendance as determined under Section 42.005.

Added by Acts 2009, 81st Leg., R.S., Ch. 1006 (H.B. 4102), Sec. 4, eff. June 19, 2009.

Sec. 42.006. PUBLIC EDUCATION INFORMATION MANAGEMENT SYSTEM (PEIMS). (a) Each school district shall participate in the Public Education Information Management System (PEIMS) and shall provide through that system information required for the administration of this chapter and of other appropriate provisions of this code.

(a-1) The commissioner by rule shall require each school district and open-enrollment charter school to report through the Public Education Information Management System information regarding the number of students enrolled in the district or school who are identified as having dyslexia. The agency shall maintain the information provided in accordance with this subsection.

(b) Each school district shall use a uniform accounting system adopted by the commissioner for the data required to be reported for the Public Education Information Management System.

(c) Annually, the commissioner shall review the Public Education Information Management System and shall repeal or amend rules that require school districts to provide information through the Public Education Information Management System that is not necessary. In reviewing and revising the Public Education Information Management System, the commissioner shall develop rules to ensure that the system:

(1) provides useful, accurate, and timely information on student demographics and academic performance, personnel, and school district finances;
(2) contains only the data necessary for the legislature and the agency to perform their legally authorized functions in overseeing the public education system; and

(3) does not contain any information related to instructional methods, except as provided by Section 29.066 or required by federal law.

(d) The commissioner's rules must ensure that the Public Education Information Management System links student performance data to other related information for purposes of efficient and effective allocation of scarce school resources, to the extent practicable using existing agency resources and appropriations.

Sec. 42.007. EQUALIZED FUNDING ELEMENTS. (a) The Legislative Budget Board shall adopt rules, subject to appropriate notice and opportunity for public comment, for the calculation for each year of a biennium of the qualified funding elements, in accordance with Subsection (c), necessary to achieve the state policy under Section 42.001.

(b) Before each regular session of the legislature, the board shall, as determined by the board, report the equalized funding elements to the commissioner and the legislature.

(c) The funding elements must include:

(1) a basic allotment for the purposes of Section 42.101 that, when combined with the guaranteed yield component provided by Subchapter F, represents the cost per student of a regular education program that meets all mandates of law and regulation;

(2) adjustments designed to reflect the variation in known resource costs and costs of education beyond the control of school districts;

(3) appropriate program cost differentials and other funding elements for the programs authorized under Subchapter C, with
the program funding level expressed as dollar amounts and as weights applied to the adjusted basic allotment for the appropriate year;

(4) the maximum guaranteed level of qualified state and local funds per student for the purposes of Subchapter F;

(5) the enrichment and facilities tax rate under Subchapter F;

(6) the computation of students in weighted average daily attendance under Section 42.302; and

(7) the amount to be appropriated for the school facilities assistance program under Chapter 46.

(d) Repealed by Acts 2005, 79th Leg., Ch. 741, Sec. 10(b), eff. June 17, 2005.

Sec. 42.009. DETERMINATION OF FUNDING LEVELS. (a) Not later than July 1 of each year, the commissioner shall determine for each school district whether the estimated amount of state and local funding per student in weighted average daily attendance to be provided to the district under the Foundation School Program for maintenance and operations for the following school year is less than the amount provided to the district for the 2010-2011 school year. If the amount estimated to be provided is less, the commissioner shall certify the percentage decrease in funding to be provided to the district.

(b) In making the determinations regarding funding levels required by Subsection (a), the commissioner shall:

(1) make adjustments as necessary to reflect changes in a school district's maintenance and operations tax rate;

(2) for a district required to take action under Chapter 41 to reduce its wealth per student to the equalized wealth level, base the determinations on the district's net funding levels after
deducting any amounts required to be expended by the district to comply with Chapter 41; and

(3) determine a district's weighted average daily attendance in accordance with this chapter as it existed on January 1, 2011.

Added by Acts 2011, 82nd Leg., 1st C.S., Ch. 8 (S.B. 8), Sec. 18, eff. September 28, 2011.

SUBCHAPTER B. BASIC ENTITLEMENT

For expiration of Subsections (c), (c-1), (c-2), and (c-3), see Subsection (c-3).

Text of section effective until September 1, 2015

Sec. 42.101.  BASIC AND REGULAR PROGRAM ALLOTMENTS.  (a) The basic allotment is an amount equal to the lesser of $4,765 or the amount that results from the following formula:

\[ A = 4,765 \times (DCR/MCR) \]

where:

"A" is the resulting amount for a district;

"DCR" is the district's compressed tax rate, which is the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year; and

"MCR" is the state maximum compressed tax rate, which is the product of the state compression percentage, as determined under Section 42.2516, multiplied by $1.50.

(a-1) Repealed by Acts 2011, 82nd Leg., 1st C.S., Ch. 4, Sec. 57.31, effective September 28, 2011

(a-2) Repealed by Acts 2011, 82nd Leg., 1st C.S., Ch. 4, Sec. 57.31, effective September 28, 2011

(b) A greater amount for any school year for the basic allotment under Subsection (a) may be provided by appropriation.

(c) A school district is entitled to a regular program allotment equal to the amount that results from the following formula:

\[ RPA = ADA \times AA \times RPAF \]

where:

"RPA" is the regular program allotment to which the district is entitled;
"ADA" is the number of students in average daily attendance in a district, not including the time students spend each day in special education programs in an instructional arrangement other than mainstream or career and technology education programs, for which an additional allotment is made under Subchapter C;

"AA" is the district's adjusted basic allotment, as determined under Section 42.102 and, if applicable, as further adjusted under Section 42.103; and

"RPAF" is the regular program adjustment factor.

(c-1) Except as provided by Subsection (c-2), the regular program adjustment factor ("RPAF") is 0.9239 for the 2011-2012 school year and 0.98 for the 2012-2013 school year.

(c-2) For a school district that does not receive funding under Section 42.2516 for the 2011-2012 school year, the commissioner may set the regular program adjustment factor ("RPAF") at 0.95195 for the 2011-2012 and 2012-2013 school years if the district demonstrates that funding reductions as a result of adjustments to the regular program allotment made by S.B. No. 1, Acts of the 82nd Legislature, 1st Called Session, 2011, will result in a hardship to the district in the 2011-2012 school year. Notwithstanding any other provision of this subsection, the commissioner shall adjust the regular program adjustment factor ("RPAF") for the 2012-2013 school year for a school district whose regular program adjustment factor is set in accordance with this subsection to ensure that the total amount of state and local revenue in the combined 2011-2012 and 2012-2013 school years does not differ from the amount the district would have received if the district's regular program adjustment factor had not been set in accordance with this subsection. A determination by the commissioner under this subsection is final and may not be appealed.

(c-3) The regular program adjustment factor ("RPAF") is 0.98 for the 2013-2014 and 2014-2015 school years or a greater amount established by appropriation, not to exceed 1.0. This subsection and Subsections (c), (c-1), and (c-2) expire September 1, 2015.

Sec. 42.101. BASIC ALLOTMENT. (a) For each student in average daily attendance, not including the time students spend each day in special education programs in an instructional arrangement other than mainstream or career and technology education programs, for which an additional allotment is made under Subchapter C, a district is entitled to an allotment equal to the lesser of $4,765 or the amount that results from the following formula:

\[ A = 4,765 \times \left( \frac{DCR}{MCR} \right) \]

where:

"A" is the allotment to which a district is entitled;
"DCR" is the district's compressed tax rate, which is the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year; and
"MCR" is the state maximum compressed tax rate, which is the product of the state compression percentage, as determined under Section 42.2516, multiplied by $1.50.

(b) A greater amount for any school year may be provided by appropriation.

Sec. 42.102. COST OF EDUCATION ADJUSTMENT. (a) The basic allotment for each district is adjusted to reflect the geographic variation in known resource costs and costs of education due to factors beyond the control of the school district.

(b) The cost of education adjustment is the cost of education index adjustment adopted by the foundation school fund budget committee and contained in Chapter 203, Title 19, Texas Administrative Code, as that chapter existed on March 26, 1997.

Sec. 42.103. SMALL AND MID-SIZED DISTRICT ADJUSTMENT. (a) The basic allotment for certain small and mid-sized districts is adjusted in accordance with this section. In this section:

(1) "AA" is the district's adjusted allotment per student;
(2) "ADA" is the number of students in average daily attendance for which the district is entitled to an allotment under Section 42.101; and
(3) "ABA" is the adjusted basic allotment determined under Section 42.102.

(b) The basic allotment of a school district that contains at least 300 square miles and has not more than 1,600 students in average daily attendance is adjusted by applying the formula:

\[ AA = (1 + ((1,600 - ADA) \times 0.0004)) \times ABA \]

(c) The basic allotment of a school district that contains less than 300 square miles and has not more than 1,600 students in average
daily attendance is adjusted by applying the formula:

\[ AA = (1 + ((1,600 - ADA) \times 0.00025)) \times ABA \]

(d) The basic allotment of a school district that offers a kindergarten through grade 12 program and has less than 5,000 students in average daily attendance is adjusted by applying the formula, of the following formulas, that results in the greatest adjusted allotment:

(1) the formula in Subsection (b) or (c) for which the district is eligible; or

(2) \[ AA = (1 + ((5,000 - ADA) \times 0.000025)) \times ABA. \]

(e) Repealed by Acts 2009, 81st Leg., R.S., Ch. 1328, Sec. 105(a)(5), eff. September 1, 2009.

Sec. 42.104. USE OF SMALL OR MID-SIZED DISTRICT ADJUSTMENT IN CALCULATING SPECIAL ALLOTMENTS. In determining the amount of a special allotment under Subchapter C for a district to which Section 42.103 applies, a district's adjusted basic allotment is considered to be the district's adjusted allotment determined under Section 42.103.

Sec. 42.105. SPARSITY ADJUSTMENT. Notwithstanding Sections 42.101, 42.102, and 42.103, a school district that has fewer than 130 students in average daily attendance shall be provided an adjusted basic allotment on the basis of 130 students in average daily
attendance if it offers a kindergarten through grade 12 program and has preceding or current year's average daily attendance of at least 90 students or is 30 miles or more by bus route from the nearest high school district. A district offering a kindergarten through grade 8 program whose preceding or current year's average daily attendance was at least 50 students or which is 30 miles or more by bus route from the nearest high school district shall be provided an adjusted basic allotment on the basis of 75 students in average daily attendance. An average daily attendance of 60 students shall be the basis of providing the adjusted basic allotment if a district offers a kindergarten through grade 6 program and has preceding or current year's average daily attendance of at least 40 students or is 30 miles or more by bus route from the nearest high school district.

**SUBCHAPTER C. SPECIAL ALLOTMENTS**

Sec. 42.151. SPECIAL EDUCATION. (a) For each student in average daily attendance in a special education program under Subchapter A, Chapter 29, in a mainstream instructional arrangement, a school district is entitled to an annual allotment equal to the adjusted basic allotment multiplied by 1.1. For each full-time equivalent student in average daily attendance in a special education program under Subchapter A, Chapter 29, in an instructional arrangement other than a mainstream instructional arrangement, a district is entitled to an annual allotment equal to the adjusted basic allotment multiplied by a weight determined according to instructional arrangement as follows:
   Homebound  5.0
Hospital class 3.0
Speech therapy 5.0
Resource room 3.0
Self-contained, mild and moderate, regular campus 3.0
Self-contained, severe, regular campus 3.0
Off home campus 2.7
Nonpublic day school 1.7
Vocational adjustment class 2.3

(b) A special instructional arrangement for students with disabilities residing in care and treatment facilities, other than state schools, whose parents or guardians do not reside in the district providing education services shall be established under the rules of the State Board of Education. The funding weight for this arrangement shall be 4.0 for those students who receive their education service on a local school district campus. A special instructional arrangement for students with disabilities residing in state schools shall be established under the rules of the State Board of Education with a funding weight of 2.8.

(c) For funding purposes, the number of contact hours credited per day for each student in the off home campus instructional arrangement may not exceed the contact hours credited per day for the multidistrict class instructional arrangement in the 1992-1993 school year.

(d) For funding purposes the contact hours credited per day for each student in the resource room; self-contained, mild and moderate; and self-contained, severe, instructional arrangements may not exceed the average of the statewide total contact hours credited per day for those three instructional arrangements in the 1992-1993 school year.

(e) The State Board of Education by rule shall prescribe the qualifications an instructional arrangement must meet in order to be funded as a particular instructional arrangement under this section. In prescribing the qualifications that a mainstream instructional arrangement must meet, the board shall establish requirements that students with disabilities and their teachers receive the direct, indirect, and support services that are necessary to enrich the regular classroom and enable student success.

(f) In this section, "full-time equivalent student" means 30 hours of contact a week between a special education student and
special education program personnel.

(g) The State Board of Education shall adopt rules and procedures governing contracts for residential placement of special education students. The legislature shall provide by appropriation for the state's share of the costs of those placements.

(h) Funds allocated under this section, other than an indirect cost allotment established under State Board of Education rule, must be used in the special education program under Subchapter A, Chapter 29.

(i) The agency shall encourage the placement of students in special education programs, including students in residential instructional arrangements, in the least restrictive environment appropriate for their educational needs.

(j) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 494, Sec. 1, eff. September 1, 2011.

(k) A school district that provides an extended year program required by federal law for special education students who may regress is entitled to receive funds in an amount equal to 75 percent, or a lesser percentage determined by the commissioner, of the adjusted basic allotment or adjusted allotment, as applicable, for each full-time equivalent student in average daily attendance, multiplied by the amount designated for the student's instructional arrangement under this section, for each day the program is provided divided by the number of days in the minimum school year. The total amount of state funding for extended year services under this section may not exceed $10 million per year. A school district may use funds received under this section only in providing an extended year program.

(l) From the total amount of funds appropriated for special education under this section, the commissioner shall withhold an amount specified in the General Appropriations Act, and distribute that amount to school districts for programs under Section 29.014. The program established under that section is required only in school districts in which the program is financed by funds distributed under this subsection and any other funds available for the program. After deducting the amount withheld under this subsection from the total amount appropriated for special education, the commissioner shall reduce each district's allotment proportionately and shall allocate funds to each district accordingly.
Sec. 42.152.  COMPENSATORY EDUCATION ALLOTMENT.  (a) For each student who is educationally disadvantaged or who is a student who does not have a disability and resides in a residential placement facility in a district in which the student's parent or legal guardian does not reside, a district is entitled to an annual allotment equal to the adjusted basic allotment multiplied by 0.2, and by 2.41 for each full-time equivalent student who is in a remedial and support program under Section 29.081 because the student is pregnant.

(b) For purposes of this section, the number of educationally disadvantaged students is determined:

(1) by averaging the best six months' enrollment in the national school lunch program of free or reduced-price lunches for the preceding school year; or

(2) in the manner provided by commissioner rule, if no campus in the district participated in the national school lunch program of free or reduced-price lunches during the preceding school year.

(c) Funds allocated under this section shall be used to fund supplemental programs and services designed to eliminate any disparity in performance on assessment instruments administered under Subchapter B, Chapter 39, or disparity in the rates of high school completion between students at risk of dropping out of school, as defined by Section 29.081, and all other students. Specifically, the funds, other than an indirect cost allotment established under State Board of Education rule, which may not exceed 45 percent, may be used to meet the costs of providing a compensatory, intensive, or accelerated instruction program under Section 29.081 or a disciplinary alternative education program established under Section 37.008, to pay the costs associated with placing students in a juvenile justice alternative education program established under Section 37.011, or to support a program eligible under Title I of the Elementary and Secondary Education Act of 1965, as provided by Pub.
L. No. 103-382 and its subsequent amendments, and by federal regulations implementing that Act, at a campus at which at least 40 percent of the students are educationally disadvantaged. In meeting the costs of providing a compensatory, intensive, or accelerated instruction program under Section 29.081, a district's compensatory education allotment shall be used for costs supplementary to the regular education program, such as costs for program and student evaluation, instructional materials and equipment and other supplies required for quality instruction, supplemental staff expenses, salary for teachers of at-risk students, smaller class size, and individualized instruction. A home-rule school district or an open-enrollment charter school must use funds allocated under Subsection (a) for a purpose authorized in this subsection but is not otherwise subject to Subchapter C, Chapter 29. For purposes of this subsection, a program specifically designed to serve students at risk of dropping out of school, as defined by Section 29.081, is considered to be a program supplemental to the regular education program, and a district may use its compensatory education allotment for such a program.

(c-1) Notwithstanding Subsection (c), funds allocated under this section may be used to fund in proportion to the percentage of students served by the program that meet the criteria in Section 29.081(d) or (g):

(1) an accelerated reading instruction program under Section 28.006(g); or

(2) a program for treatment of students who have dyslexia or a related disorder as required by Section 38.003.

(c-2) Notwithstanding Subsection (c), funds allocated under this section may be used to fund a district's mentoring services program under Section 29.089.

(d) The agency shall evaluate the effectiveness of accelerated instruction and support programs provided under Section 29.081 for students at risk of dropping out of school.

(q) The State Board of Education, with the assistance of the comptroller, shall develop and implement by rule reporting and auditing systems for district and campus expenditures of compensatory education funds to ensure that compensatory education funds, other than the indirect cost allotment, are spent only to supplement the regular education program as required by Subsection (c). The reporting requirements shall be managed electronically to minimize local administrative costs. A district shall submit the report required by this subsection not later than the 150th day after the last day permissible for resubmission of information required under Section 42.006.

(q-1) The commissioner shall develop a system to identify school districts that are at high risk of having used compensatory education funds other than in compliance with Subsection (c) or of having inadequately reported compensatory education expenditures. If a review of the report submitted under Subsection (q), using the risk-based system, indicates that a district is not at high risk of having misused compensatory education funds or of having inadequately reported compensatory education expenditures, the district may not be required to perform a local audit of compensatory education expenditures and is not subject to on-site monitoring under this section.

(q-2) If a review of the report submitted under Subsection (q),
using the risk-based system, indicates that a district is at high risk of having misused compensatory education funds, the commissioner shall notify the district of that determination. The district must respond to the commissioner not later than the 30th day after the date the commissioner notifies the district of the commissioner's determination. If the district's response does not change the commissioner's determination that the district is at high risk of having misused compensatory education funds or if the district does not respond in a timely manner, the commissioner shall:

1. require the district to conduct a local audit of compensatory education expenditures for the current or preceding school year;
2. order agency staff to conduct on-site monitoring of the district's compensatory education expenditures; or
3. both require a local audit and order on-site monitoring.

(q-3) If a review of the report submitted under Subsection (q), using the risk-based system, indicates that a district is at high risk of having inadequately reported compensatory education expenditures, the commissioner may require agency staff to assist the district in following the proper reporting methods or amending a district or campus improvement plan under Subchapter F, Chapter 11. If the district does not take appropriate corrective action before the 45th day after the date the agency staff notifies the district of the action the district is expected to take, the commissioner may:

1. require the district to conduct a local audit of the district's compensatory education expenditures; or
2. order agency staff to conduct on-site monitoring of the district's compensatory education expenditures.

(q-4) The commissioner, in the year following a local audit of compensatory education expenditures, shall withhold from a district's foundation school fund payment an amount equal to the amount of compensatory education funds the agency determines were not used in compliance with Subsection (c). The commissioner shall release to a district funds withheld under this subsection when the district provides to the commissioner a detailed plan to spend those funds in compliance with Subsection (c).

(r) The commissioner shall grant a one-year exemption from the requirements of Subsections (q)-(q-4) to a school district in which the group of students who have failed to perform satisfactorily in
the preceding school year on an assessment instrument required under Section 39.023(a), (c), or (l) subsequently performs on those assessment instruments at a level that meets or exceeds a level prescribed by commissioner rule. Each year the commissioner, based on the most recent information available, shall determine if a school district is entitled to an exemption for the following school year and notify the district of that determination.

Sec. 42.153. BILINGUAL EDUCATION ALLOTMENT. (a) For each student in average daily attendance in a bilingual education or
special language program under Subchapter B, Chapter 29, a district is entitled to an annual allotment equal to the adjusted basic allotment multiplied by 0.1.

(b) Funds allocated under this section, other than an indirect cost allotment established under State Board of Education rule, must be used in providing bilingual education or special language programs under Subchapter B, Chapter 29, and must be accounted for under existing agency reporting and auditing procedures.

(c) A district's bilingual education or special language allocation may be used only for program and student evaluation, instructional materials and equipment, staff development, supplemental staff expenses, salary supplements for teachers, and other supplies required for quality instruction and smaller class size.

Sec. 42.154. CAREER AND TECHNOLOGY EDUCATION ALLOTMENT. (a) For each full-time equivalent student in average daily attendance in an approved career and technology education program in grades nine through 12 or in career and technology education programs for students with disabilities in grades seven through 12, a district is entitled to:

(1) an annual allotment equal to the adjusted basic allotment multiplied by a weight of 1.35; and

(2) $50, if the student is enrolled in:

(A) two or more advanced career and technology education classes for a total of three or more credits; or

(B) an advanced course as part of a tech-prep program under Subchapter T, Chapter 61.

(b) In this section, "full-time equivalent student" means 30 hours of contact a week between a student and career and technology education program personnel.

(c) Funds allocated under this section, other than an indirect cost allotment established under State Board of Education rule, must be used in providing career and technology education programs in grades nine through 12 or career and technology education programs for students with disabilities in grades seven through 12 under Sections 29.182, 29.183, and 29.184.
(d) The commissioner shall conduct a cost-benefit comparison between career and technology education programs and mathematics and science programs.

(e) Out of the total statewide allotment for career and technology education under this section, the commissioner shall set aside an amount specified in the General Appropriations Act, which may not exceed an amount equal to one percent of the total amount appropriated, to support regional career and technology education planning. After deducting the amount set aside under this subsection from the total amount appropriated for career and technology education under this section, the commissioner shall reduce each district's tier one allotments in the same manner described for a reduction in allotments under Section 42.253.

Sec. 42.1541. INDIRECT COST ALLOTMENTS. (a) The State Board of Education shall by rule increase the indirect cost allotments established under Sections 42.151(h), 42.152(c), 42.153(b), and 42.154(a-1) and (c) and in effect for the 2010-2011 school year in proportion to the average percentage reduction in total state and local maintenance and operations revenue provided under this chapter for the 2011-2012 school year as a result of S.B. Nos. 1 and 2, Acts of the 82nd Legislature, 1st Called Session, 2011.

(b) To the extent necessary to permit the board to comply with this section, the limitation on the percentage of the indirect cost allotment prescribed by Section 42.152(c) does not apply.

(c) The board shall take the action required by Subsection (a) not later than the date that permits the increased indirect cost allotments to apply beginning with the 2011-2012 school year.

Added by Acts 2011, 82nd Leg., 1st C.S., Ch. 4 (S.B. 1), Sec. 57.13, eff. September 28, 2011.
Sec. 42.155. TRANSPORTATION ALLOTMENT. (a) Each district or county operating a transportation system is entitled to allotments for transportation costs as provided by this section.

(b) As used in this section:

(1) "Regular eligible student" means a student who resides two or more miles from the student's campus of regular attendance, measured along the shortest route that may be traveled on public roads, and who is not classified as a student eligible for special education services.

(2) "Eligible special education student" means a student who is eligible for special education services under Section 29.003 and who would be unable to attend classes without special transportation services.

(3) "Linear density" means the average number of regular eligible students transported daily, divided by the approved daily route miles traveled by the respective transportation system.

(c) Each district or county operating a regular transportation system is entitled to an allotment based on the daily cost per regular eligible student of operating and maintaining the regular transportation system and the linear density of that system. In determining the cost, the commissioner shall give consideration to factors affecting the actual cost of providing these transportation services in each district or county. The average actual cost is to be computed by the commissioner and included for consideration by the legislature in the General Appropriations Act. The allotment per mile of approved route may not exceed the amount set by appropriation.

(d) A district or county may apply for and on approval of the commissioner receive an additional amount of up to 10 percent of its regular transportation allotment to be used for the transportation of children living within two miles of the school they attend who would be subject to hazardous traffic conditions if they walked to school. Each board of trustees shall provide to the commissioner the definition of hazardous conditions applicable to that district and shall identify the specific hazardous areas for which the allocation is requested. A hazardous condition exists where no walkway is provided and children must walk along or cross a freeway or expressway, an underpass, an overpass or a bridge, an uncontrolled...
major traffic artery, an industrial or commercial area, or another comparable condition.

(e) The commissioner may grant an amount set by appropriation for private or commercial transportation for eligible students from isolated areas. The need for this type of transportation grant shall be determined on an individual basis and the amount granted shall not exceed the actual cost. The grants may be made only in extreme hardship cases. A grant may not be made if the students live within two miles of an approved school bus route.

(f) The cost of transporting career and technology education students from one campus to another inside a district or from a sending district to another secondary public school for a career and technology program or an area career and technology school or to an approved post-secondary institution under a contract for instruction approved by the agency shall be reimbursed based on the number of actual miles traveled times the district's official extracurricular travel per mile rate as set by the board of trustees and approved by the agency.

(g) A school district or county that provides special transportation services for eligible special education students is entitled to a state allocation paid on a previous year's cost-per-mile basis. The maximum rate per mile allowable shall be set by appropriation based on data gathered from the first year of each preceding biennium. Districts may use a portion of their support allocation to pay transportation costs, if necessary. The commissioner may grant an amount set by appropriation for private transportation to reimburse parents or their agents for transporting eligible special education students. The mileage allowed shall be computed along the shortest public road from the student's home to school and back, morning and afternoon. The need for this type transportation shall be determined on an individual basis and shall be approved only in extreme hardship cases.

(h) Funds allotted under this section must be used in providing transportation services.

(i) In the case of a district belonging to a county transportation system, the district's transportation allotment for purposes of determining a district's foundation school program allocations is determined on the basis of the number of approved daily route miles in the district multiplied by the allotment per mile to which the county transportation system is entitled.
(j) The Texas School for the Deaf is entitled to an allotment under this section. The commissioner shall determine the appropriate allotment.

(k) Notwithstanding any other provision of this section, the commissioner may not reduce the allotment to which a district or county is entitled under this section because the district or county provides transportation for an eligible student to and from a child-care facility, as defined by Section 42.002, Human Resources Code, or a grandparent's residence instead of the student's residence, as authorized by Section 34.007, if the transportation is provided within the approved routes of the district or county for the school the student attends.

(l) A school district may, with the funds allotted under this section, provide a bus pass or card for another transportation system to each student who is eligible to use the regular transportation system of the district but for whom the regular transportation system of the district is not a feasible method of providing transportation. The commissioner by rule shall provide procedures for a school district to provide bus passes or cards to students under this subsection.

Acts 2011, 82nd Leg., R.S., Ch. 352 (H.B. 3506), Sec. 1, eff. June 17, 2011.

Sec. 42.156. GIFTED AND TALENTED STUDENT ALLOTMENT. (a) For each identified student a school district serves in a program for gifted and talented students that the district certifies to the commissioner as complying with Subchapter D, Chapter 29, a district is entitled to an annual allotment equal to the district's adjusted basic allotment as determined under Section 42.102 or Section 42.103, as applicable, multiplied by .12 for each school year or a greater amount provided by appropriation.

(b) Funds allocated under this section, other than the amount that represents the program's share of general administrative costs,
must be used in providing programs for gifted and talented students under Subchapter D, Chapter 29, including programs sanctioned by International Baccalaureate and Advanced Placement, or in developing programs for gifted and talented students. Each district must account for the expenditure of state funds as provided by rule of the State Board of Education. If by the end of the 12th month after receiving an allotment for developing a program a district has failed to implement a program, the district must refund the amount of the allotment to the agency within 30 days.

(c) Not more than five percent of a district's students in average daily attendance are eligible for funding under this section.

(d) If the amount of state funds for which school districts are eligible under this section exceeds the amount of state funds appropriated in any year for the programs, the commissioner shall reduce each district's tier one allotments in the same manner described for a reduction in allotments under Section 42.253.

(e) If the total amount of funds allotted under this section before a date set by rule of the State Board of Education is less than the total amount appropriated for a school year, the commissioner shall transfer the remainder to any program for which an allotment under Section 42.152 may be used.

(f) After each district has received allotted funds for this program, the State Board of Education may use up to $500,000 of the funds allocated under this section for programs such as MATHCOUNTS, Future Problem Solving, Odyssey of the Mind, and Academic Decathlon, as long as these funds are used to train personnel and provide program services. To be eligible for funding under this subsection, a program must be determined by the State Board of Education to provide services that are effective and consistent with the state plan for gifted and talented education.

**Sec. 42.157. PUBLIC EDUCATION GRANT ALLOTMENT.** (a) Except as provided by Subsection (b), for each student in average daily attendance who is using a public education grant under Subchapter G, Chapter 29, to attend school in a district other than the district in which the student resides, the district in which the student attends school is entitled to an annual allotment equal to the adjusted basic
allotment multiplied by a weight of 0.1.

(b) The total number of allotments under this section to which a district is entitled may not exceed the number by which the number of students using public education grants to attend school in the district exceeds the number of students who reside in the district and use public education grants to attend school in another district.

Sec. 42.158. NEW INSTRUCTIONAL FACILITY ALLOTMENT. (a) A school district is entitled to an additional allotment as provided by this section for operational expenses associated with opening a new instructional facility.

(b) For the first school year in which students attend a new instructional facility, a school district is entitled to an allotment of $250 for each student in average daily attendance at the facility. For the second school year in which students attend that instructional facility, a school district is entitled to an allotment of $250 for each additional student in average daily attendance at the facility.

(c) For purposes of this section, the number of additional students in average daily attendance at a facility is the difference between the number of students in average daily attendance in the current year at that facility and the number of students in average daily attendance at that facility in the preceding year.

(d) Subject to Subsection (d-1), the amount appropriated for allotments under this section may not exceed $25 million in a school year. If the total amount of allotments to which districts are entitled under this section for a school year exceeds the amount appropriated under this subsection, the commissioner shall reduce each district's allotment under this section in the manner provided by Section 42.253(h).

(d-1) In addition to the appropriation amount described by Subsection (d), the amount of $1 million may be appropriated each school year to supplement the allotment to which a school district is entitled under this section that may be provided using the appropriation amount described by Subsection (d). The commissioner shall first apply the funds appropriated under this subsection to prevent any reduction under Subsection (d) in the allotment for
attendance at an eligible high school instructional facility, subject to the maximum amount of $250 for each student in average daily attendance. Any funds remaining after preventing all reductions in amounts due for high school instructional facilities may be applied proportionally to all other eligible instructional facilities, subject to the maximum amount of $250 for each student in average daily attendance.

(e) A school district that is required to take action under Chapter 41 to reduce its wealth per student to the equalized wealth level is entitled to a credit, in the amount of the allotments to which the district is entitled under this section, against the total amount required under Section 41.093 for the district to purchase attendance credits. A school district that is otherwise ineligible for state aid under this chapter is entitled to receive allotments under this section.

(f) The commissioner may adopt rules necessary to implement this section.

(g) In this section, "instructional facility" has the meaning assigned by Section 46.001.

(b) A school district that is required to take action under Chapter 41 to reduce its wealth per student to the equalized wealth level is entitled to a credit, in the amount of the allotments to which the district is entitled under this section, against the total amount required under Section 41.093 for the district to purchase attendance credits. A school district that is otherwise ineligible for state aid under this chapter is entitled to receive allotments under this section.

(c) An open-enrollment charter school is entitled to an allotment under this section in the same manner as a school district.
(d) The commissioner shall adopt rules to administer this section, including rules related to the permissible use of funds allocated under this section to an open-enrollment charter school.

Sec. 42.2516. ADDITIONAL STATE AID FOR TAX REDUCTION. (a) In this title, "state compression percentage" means the percentage of a school district's adopted maintenance and operations tax rate for the 2005 tax year that serves as the basis for state funding. If the state compression percentage is not established by appropriation for a school year, the commissioner shall determine the state compression percentage for each school year based on the percentage by which a district is able to reduce the district's maintenance and operations tax rate for that year, as compared to the district's adopted maintenance and operations tax rate for the 2005 tax year, as a result of state funds appropriated for distribution under this section for that year from the property tax relief fund established under Section 403.109, Government Code, or from another funding source available for school district property tax relief.

(b) Notwithstanding any other provision of this title, a school district that imposes a maintenance and operations tax at a rate at least equal to the product of the state compression percentage multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year is entitled to at least the amount of state revenue necessary to provide the district with the sum of:

(1) the percentage specified by Subsection (i) of the amount, as calculated under Subsection (e), of state and local revenue per student in weighted average daily attendance for
maintenance and operations that the district would have received during the 2009-2010 school year under Chapter 41 and this chapter, as those chapters existed on January 1, 2009, at a maintenance and operations tax rate equal to the product of the state compression percentage for that year multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year;

(2) the percentage specified by Subsection (i) of an amount equal to the product of $120 multiplied by the number of students in weighted average daily attendance in the district; and

(3) any amount to which the district is entitled under Section 42.106.

(b-1) The amount determined for a school district under Subsection (b) is increased or reduced as follows:

(1) if for any school year the district is entitled to a greater allotment under Section 42.155 or 42.158 or more additional state aid under Section 42.2515 than the allotment or additional state aid to which the district was entitled under Section 42.155, 42.158, or 42.2515, as applicable, for the 2009-2010 school year, the district's entitlement under Subsection (b) is increased by an amount equal to the difference between the amount to which the district is entitled under Section 42.155, 42.158, or 42.2515, as applicable, for that school year and the amount to which the district was entitled under the applicable section for the 2009-2010 school year; and

(2) if for any school year the district is not entitled to an allotment under Section 42.155 or 42.158 or additional state aid under Section 42.2515 or is entitled to a lesser allotment or less additional state aid under the applicable section than the allotment or additional state aid to which the district was entitled under the applicable section for the 2009-2010 school year, the district's entitlement under Subsection (b) is reduced by an amount equal to the difference between the amount to which the district was entitled under Section 42.155, 42.158, or 42.2515, as applicable, for the 2009-2010 school year and the amount to which the district is entitled under the applicable section for the current school year.

(b-2) If a school district adopts a maintenance and operations tax rate that is below the rate equal to the product of the state compression percentage multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year, the commissioner shall reduce the district's entitlement under this section in proportion to the amount by which the adopted rate is less
than the rate equal to the product of the state compression percentage multiplied by the rate adopted by the district for the 2005 tax year. The reduction required by this subsection applies beginning with the maintenance and operations tax rate adopted for the 2009 tax year.

(c) Enrichment revenue to which a school district is entitled under Section 42.302 is not included for purposes of determining the amount to which a district is entitled under this section.

(d) In determining the amount to which a district is entitled under Subsection (b)(1), the commissioner shall:

(1) include the percentage specified by Subsection (i) of any amounts received by the district during the 2008-2009 school year under Rider 86, page III-23, Chapter 1428 (H.B. 1), Acts of the 80th Legislature, Regular Session, 2007 (the General Appropriations Act); and

(2) for a school district that paid tuition under Section 25.039 during the 2008-2009 school year, reduce the amount to which the district is entitled by the amount of tuition paid during that school year.

(e) For purposes of determining the total amount of state and local revenue to which a district is entitled under Subsection (b)(1), the commissioner shall determine the amount of state and local revenue per student in weighted average daily attendance to which the district would have been entitled during the 2009-2010 school year under Chapter 41 and this chapter, as they existed on January 1, 2009, and multiply that amount by the number of students in weighted average daily attendance as determined in accordance with the changes to Chapter 41 and this chapter, including the repeal of former Section 42.103(e), made by H.B. No. 3646, Acts of the 81st Legislature, Regular Session, 2009.

(f) A school district that is required to take action under Chapter 41 to reduce its wealth per student to the equalized wealth level and that is entitled to state revenue under this section may receive that revenue through an adjustment against the total amount of attendance credits required to be purchased under Subchapter D, Chapter 41, or the total number of nonresident students required to be educated under Subchapter E, Chapter 41, as determined by the commissioner.

(f-1) The commissioner shall, in accordance with rules adopted by the commissioner, adjust the amount of a school district's local
revenue derived from maintenance and operations tax collections, as calculated for purposes of determining the amount of state revenue to which the district is entitled under this section, if the district, for the 2010 tax year or a subsequent tax year:

(1) adopts an exemption under Section 11.13(n), Tax Code, that was not in effect for the 2009 tax year, or eliminates an exemption under Section 11.13(n), Tax Code, that was in effect for the 2009 tax year;

(2) adopts an exemption under Section 11.13(n), Tax Code, at a greater or lesser percentage than the percentage in effect for the district for the 2009 tax year;

(3) grants an exemption under an agreement authorized by Chapter 312, Tax Code, that was not in effect for the 2009 tax year, or ceases to grant an exemption authorized by that chapter that was in effect for the 2009 tax year; or

(4) agrees to deposit taxes into a tax increment fund created under Chapter 311, Tax Code, under a reinvestment zone financing plan that was not in effect for the 2009 tax year, or ceases depositing taxes into a tax increment fund created under that chapter under a reinvestment zone financing plan that was in effect for the 2009 tax year.

(f-2) The rules adopted by the commissioner under Subsection (f-1) must:

(1) require the commissioner to determine, as if this section did not exist, the effect under Chapter 41 and this chapter of a school district's action described by Subsection (f-1)(1), (2), (3), or (4) on the total state revenue to which the district would be entitled or the cost to the district of purchasing sufficient attendance credits to reduce the district's wealth per student to the equalized wealth level; and

(2) require an increase or reduction in the amount of state revenue to which a school district is entitled under Subsection (b)(1) that is substantially equivalent to any change in total state revenue or the cost of purchasing attendance credits that would apply to the district if this section did not exist.

(f-3) An adjustment made by the commissioner under the rules adopted under Subsection (f-1) is final and may not be appealed.

(g) The commissioner may adopt rules necessary to implement this section.

(h) A determination by the commissioner under this section is
final and may not be appealed.

(i) The percentage to be applied for purposes of Subsections (b)(1) and (2) and Subsection (d)(1) is 100.00 percent for the 2011-2012 school year and 92.35 percent for the 2012-2013 school year. For the 2013-2014 school year and each subsequent school year, the legislature by appropriation shall establish the percentage reduction to be applied.

Sec. 42.25161. ADDITIONAL STATE AID FOR SOUTH TEXAS INDEPENDENT SCHOOL DISTRICT. (a) The commissioner shall provide South Texas Independent School District with the amount of state aid necessary to ensure that the district receives an amount of state and local revenue per student in weighted average daily attendance that is at least the percentage specified by Section 42.2516(i) of $120 greater than the amount the district would have received per student in weighted average daily attendance during the 2009-2010 school year under this chapter, as it existed on January 1, 2009, at a maintenance and operations tax rate equal to the product of the state compression percentage multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year, provided that the district imposes a maintenance and operations tax at that rate.

(b) The commissioner may adopt rules necessary to implement this section.

Sec. 42.2517. EXCESS FUNDS FOR COST OF EDUCATION ADJUSTMENT. (a) If the commissioner determines that the amount appropriated for purposes of the Foundation School Program exceeds the amount to which school districts are entitled under this chapter, the commissioner may:

(1) adjust each district's cost of education adjustment under Section 42.102 to reflect current uncontrollable variations in the cost of education, particularly the cost of providing salaries
and benefits to classroom teachers; and

(2) provide funding under this chapter based on the cost of education index adjusted under Subdivision (1).

(b) If the amount available under Subsection (a) is not sufficient to provide funding based on the cost of education index adjusted under Subsection (a)(1), the commissioner shall rank districts by the increase in the cost of education adjustment applicable to each district under this section and shall provide funding under this section to districts in descending order of the amount of increase in the cost of education adjustment applicable to districts under this section, beginning with the district that has the greatest increase in the cost of education adjustment, until no funds are available for purposes of this section.

Sec. 42.252. LOCAL SHARE OF PROGRAM COST (TIER ONE). (a) Each school district's share of the Foundation School Program is determined by the following formula:

\[ LFA = TR \times DPV \]

where:

"LFA" is the school district's local share;

"TR" is a tax rate which for each hundred dollars of valuation is an effective tax rate of the amount equal to the product of the state compression percentage, as determined under Section 42.2516, multiplied by the lesser of:

(1) $1.50; or

(2) the maintenance and operations tax rate adopted by the district for the 2005 tax year; and

"DPV" is the taxable value of property in the school district for the preceding tax year determined under Subchapter M, Chapter 403, Government Code.

(b) The commissioner shall adjust the values reported in the official report of the comptroller as required by Section 5.09(a), Tax Code, to reflect reductions in taxable value of property resulting from natural or economic disaster after January 1 in the year in which the valuations are determined. The decision of the commissioner is final. An adjustment does not affect the local fund assignment of any other school district.
(c) Appeals of district values shall be held pursuant to Section 403.303, Government Code.

(d) A school district must raise its total local share of the Foundation School Program to be eligible to receive foundation school fund payments.

Sec. 42.2521. ADJUSTMENT FOR RAPID DECLINE IN TAXABLE VALUE OF PROPERTY. (a) For purposes of Chapters 41 and 46 and this chapter, and to the extent money specifically authorized to be used under this section is available, the commissioner shall adjust the taxable value of property in a school district that, due to factors beyond the control of the board of trustees, experiences a rapid decline in the tax base used in calculating taxable values in excess of four percent of the tax base used in the preceding year.

(b) To the extent that a sufficient amount of money is not available to fund all adjustments under this section, the commissioner shall reduce adjustments in the manner provided by Section 42.253(h) so that the total amount of adjustments equals the amount of money available to fund the adjustments.

(c) A decision of the commissioner under this section is final and may not be appealed.

Sec. 42.2522. ADJUSTMENT FOR OPTIONAL HOMESTEAD EXEMPTION. (a) In any school year, the commissioner may not provide funding under this chapter based on a school district's taxable value of property computed in accordance with Section 403.302(d)(2), Government Code,
unless:

(1) funds are specifically appropriated for purposes of this section; or

(2) the commissioner determines that the total amount of state funds appropriated for purposes of the Foundation School Program for the school year exceeds the amount of state funds distributed to school districts in accordance with Section 42.253 based on the taxable values of property in school districts computed in accordance with Section 403.302(d), Government Code, without any deduction for residence homestead exemptions granted under Section 11.13(n), Tax Code.

(b) In making a determination under Subsection (a)(2), the commissioner shall:

(1) notwithstanding Section 42.253(b), reduce the entitlement under this chapter of a school district whose final taxable value of property is higher than the estimate under Section 42.254 and make payments to school districts accordingly; and

(2) give priority to school districts that, due to factors beyond the control of the board of trustees, experience a rapid decline in the tax base used in calculating taxable values in excess of four percent of the tax base used in the preceding year.

(c) In the first year of a state fiscal biennium, before providing funding as provided by Subsection (a)(2), the commissioner shall ensure that sufficient appropriated funds for purposes of the Foundation School Program are available for the second year of the biennium, including funds to be used for purposes of Section 42.2521.

(d) If the commissioner determines that the amount of funds available under Subsection (a)(1) or (2) does not at least equal the total amount of state funding to which districts would be entitled if state funding under this chapter were based on the taxable values of property in school districts computed in accordance with Section 403.302(d)(2), Government Code, the commissioner may, to the extent necessary, provide state funding based on a uniform lesser fraction of the deduction under Section 403.302(d)(2), Government Code.

(e) The commissioner shall notify school districts as soon as practicable as to the availability of funds under this section. For purposes of computing a rollback tax rate under Section 26.08, Tax Code, a district shall adjust the district's tax rate limit to reflect assistance received under this section.
Sec. 42.2523. ADJUSTMENT FOR PROPERTY VALUE AFFECTED BY STATE OF DISASTER. (a) For purposes of Chapters 41 and 46 and this chapter, the commissioner shall adjust the taxable value of property of a school district all or part of which is located in an area declared a disaster area by the governor under Chapter 418, Government Code, as necessary to ensure that the district receives funding based as soon as possible on property values as affected by the disaster.

(b) The commissioner may fund adjustments under this section using funds specifically appropriated for the purpose or other funds available to the commissioner for that purpose.

Text of subsection effective until September 1, 2017

(c) Any additional funding to which a school district is entitled as a result of the adjustment required by this section is in addition to the amount of funding to which the district is entitled under Section 42.2516(b).

(d) A decision of the commissioner under this section is final and may not be appealed.

Sec. 42.2524. REIMBURSEMENT FOR DISASTER REMEDIATION COSTS. (a) This section applies only to a school district all or part of which is located in an area declared a disaster area by the governor under Chapter 418, Government Code, and that incurs disaster remediation costs as a result of the disaster.

(b) During the two-year period following the date of the governor's initial proclamation or executive order declaring a state of disaster, a district may apply to the commissioner for reimbursement of disaster remediation costs that the district pays
during that period and does not anticipate recovering through insurance proceeds, federal disaster relief payments, or another similar source of reimbursement.

(c) The commissioner may provide reimbursement under this section only if funds are available for that purpose as follows:

(1) reimbursement for a school district not required to take action under Chapter 41 may be provided from:

(A) amounts appropriated for that purpose, including amounts appropriated for those districts for that purpose to the disaster contingency fund established under Section 418.073, Government Code; or

(B) Foundation School Program funds available for that purpose, based on a determination by the commissioner that the amount appropriated for the Foundation School Program, including the facilities component as provided by Chapter 46, exceeds the amount to which districts are entitled under this chapter and Chapter 46; and

(2) reimbursement for a school district required to take action under Chapter 41 may be provided from funds described by Subdivision (1)(B) if funds remain available after fully reimbursing each school district described by Subdivision (1) for its disaster remediation costs.

(d) If the amount of money available for purposes of reimbursing school districts not required to take action under Chapter 41 is not sufficient to fully reimburse each district's disaster remediation costs, the commissioner shall reduce the amount of assistance provided to each of those districts proportionately. If the amount of money available for purposes of reimbursing school districts required to take action under Chapter 41 is not sufficient to fully reimburse each district's disaster remediation costs, the commissioner shall reduce the amount of assistance provided to each of those districts proportionately.

(e) A district seeking reimbursement under this section must provide the commissioner with adequate documentation of the costs for which the district seeks reimbursement.

(f) A district required to take action under Chapter 41:

(1) may, at its discretion, receive assistance provided under this section either as a payment of state aid under this chapter or as a reduction in the total amount required to be paid by the district for attendance credits under Section 41.093; and

(2) may not obtain reimbursement under this section for the
payment of any disaster remediation costs that resulted in a reduction under Section 41.0931 of the district's cost of attendance credits.

Text of subsection effective until September 1, 2017

(g) Amounts provided to a district under this section are in addition to the amount to which the district is entitled under Section 42.2516.

(h) The commissioner shall adopt rules necessary to implement this section, including rules defining "disaster remediation costs" for purposes of this section and specifying the type of documentation required under Subsection (e).

(i) Notwithstanding any other provision of this section, the commissioner may permit a district to use amounts provided to a district under this section to pay the costs of replacing a facility instead of repairing the facility. The commissioner shall ensure that a district that elects to replace a facility does not receive an amount under this section that exceeds the lesser of:

1. the amount that would be provided to the district if the facility were repaired; or
2. the amount necessary to replace the facility.

(j) This section does not require the commissioner to provide any requested reimbursement. A decision of the commissioner regarding reimbursement is final and may not be appealed.

Sec. 42.2526. ADJUSTMENT FOR DISTRICT OPERATING PILOT PROGRAM.
(a) This section applies only to a school district operating a pilot program authorized by Section 28.0255.
(b) Beginning with the first school year that follows the first school year in which students receive high school diplomas under the pilot program authorized by Section 28.0255 and continuing for every subsequent school year that the district operates the pilot program, the commissioner shall provide funding for the district's prekindergarten program under Section 29.153 on a full-day basis for a number of prekindergarten students equal to twice the number of students who received a high school diploma under the pilot program authorized by Section 28.0255 during the preceding school year.

Sec. 42.253. DISTRIBUTION OF FOUNDATION SCHOOL FUND. (a) For each school year the commissioner shall determine:
(1) the amount of money to which a school district is entitled under Subchapters B and C;
(2) the amount of money to which a school district is entitled under Subchapter F;
(3) the amount of money allocated to the district from the available school fund;
(4) the amount of each district's tier one local share under Section 42.252; and
(5) the amount of each district's tier two local share under Section 42.302.

(b) Except as provided by this subsection, the commissioner shall base the determinations under Subsection (a) on the estimates provided to the legislature under Section 42.254, or, if the General Appropriations Act provides estimates for that purpose, on the estimates provided under that Act, for each school district for each school year. The commissioner shall reduce the entitlement of each district that has a final taxable value of property for the second
year of a state fiscal biennium that is higher than the estimate under Section 42.254 or the General Appropriations Act, as applicable. A reduction under this subsection may not reduce the district's entitlement below the amount to which it is entitled at its actual taxable value of property.

(c) Each school district is entitled to an amount equal to the difference for that district between the sum of Subsections (a)(1) and (a)(2) and the sum of Subsections (a)(3), (a)(4), and (a)(5).

(c-1) The amounts to be paid under Section 42.2516(b)(3) shall be paid at the same time as other state revenue is paid to the district. Payments shall be based on amounts paid under Section 42.2516(b)(3) for the preceding year. Any deficiency shall be paid to the district at the same time the final amount to be paid to the district is determined, and any overpayment shall be deducted from the payments the district would otherwise receive in the following year.

(d) The commissioner shall approve warrants to each school district equaling the amount of its entitlement except as provided by this section. Warrants for all money expended according to this chapter shall be approved and transmitted to treasurers or depositories of school districts in the same manner that warrants for state payments are transmitted. The total amount of the warrants issued under this section may not exceed the total amount appropriated for Foundation School Program purposes for that fiscal year.

(e-1) Repealed by Acts 2006, 79th Leg., 3rd C.S., Ch. 5, Sec. 1.20, eff. May 31, 2006.

(e-2) Expired September 1, 2001.

(g) If a school district demonstrates to the satisfaction of the commissioner that the estimate of the district’s tax rate, student enrollment, or taxable value of property used in determining the amount of state funds to which the district is entitled are so inaccurate as to result in undue financial hardship to the district, the commissioner may adjust funding to that district in that school year to the extent that funds are available for that year.
Text of subsection effective on September 1, 2017

(h) If the amount appropriated for the Foundation School Program for the second year of a state fiscal biennium is less than the amount to which school districts and open-enrollment charter schools are entitled for that year, the commissioner shall certify the amount of the difference to the Legislative Budget Board not later than January 1 of the second year of the state fiscal biennium. The Legislative Budget Board shall propose to the legislature that the certified amount be transferred to the foundation school fund from the economic stabilization fund and appropriated for the purpose of increases in allocations under this subsection. If the legislature fails during the regular session to enact the proposed transfer and appropriation and there are not funds available under Subsection (j), the commissioner shall adjust the total amounts due to each school district and open-enrollment charter school under this chapter and the total amounts necessary for each school district to comply with the requirements of Chapter 41 by an amount determined by applying to each district and school the same percentage adjustment to the total amount of state and local revenue due to the district or school under this chapter and Chapter 41 so that the total amount of the adjustment to all districts and schools results in an amount equal to the total adjustment necessary. The following fiscal year:

(1) a district's or school's entitlement under this section is increased by an amount equal to the adjustment made under this subsection; and

(2) the amount necessary for a district to comply with the requirements of Chapter 41 is reduced by an amount necessary to ensure a district's full recovery of the adjustment made under this subsection.

Text of subsection as amended by Acts 2011, 82nd Leg., 1st C.S., Ch. 4 (S.B. 1), Sec. 57.22

Text of subsection effective until September 1, 2017

(h) If the amount appropriated for the Foundation School Program for the second year of a state fiscal biennium is less than the amount to which school districts and open-enrollment charter schools are entitled for that year, the commissioner shall certify the amount of the difference to the Legislative Budget Board not later than January 1 of the second year of the state fiscal biennium. The Legislative Budget Board shall propose to the legislature that
the certified amount be transferred to the foundation school fund from the economic stabilization fund and appropriated for the purpose of increases in allocations under this subsection. If the legislature fails during the regular session to enact the proposed transfer and appropriation and there are not funds available under Subsection (j), the commissioner shall adjust the total amounts due to each school district and open-enrollment charter school under this chapter and the total amounts necessary for each school district to comply with the requirements of Chapter 41 by an amount determined by applying to each district and school, including a district receiving funds under Section 42.2516, the same percentage adjustment to the total amount of state and local revenue due to the district or school under this chapter and Chapter 41 so that the total amount of the adjustment to all districts and schools results in an amount equal to the total adjustment necessary. The following fiscal year:

(1) a district's or school's entitlement under this section is increased by an amount equal to the adjustment made under this subsection; and

(2) the amount necessary for a district to comply with the requirements of Chapter 41 is reduced by an amount necessary to ensure the district's full recovery of the adjustment made under this subsection.

(i) Not later than March 1 each year, the commissioner shall determine the actual amount of state funds to which each school district is entitled under the allocation formulas in this chapter for the current school year and shall compare that amount with the amount of the warrants issued to each district for that year. If the amount of the warrants differs from the amount to which a district is entitled because of variations in the district's tax rate, student enrollment, or taxable value of property, the commissioner shall adjust the district's entitlement for the next fiscal year accordingly.

(j) The legislature may appropriate funds necessary for increases under Subsection (i) from funds that the comptroller, at any time during the fiscal year, finds are available.

(k) The commissioner shall compute for each school district the total amount by which the district's allocation of state funds is increased or reduced under Subsection (i) and shall certify that amount to the district.

(l) Repealed by Acts 2006, 79th Leg., 3rd C.S., Ch. 5, Sec.
Sec. 42.2531. ADJUSTMENT BY COMMISSIONER. (a) The commissioner may make adjustments to amounts due to a school district under this chapter or Chapter 46, or to amounts necessary for a district to comply with the requirements of Chapter 41, as provided by this section.

(b) A school district that has a major taxpayer, as determined by the commissioner, that because of a protest of the valuation of the taxpayer's property fails to pay all or a portion of the ad valorem taxes due to the district may apply to the commissioner to have the district's taxable value of property or ad valorem tax collections adjusted for purposes of this chapter or Chapter 41 or 46. The commissioner may make the adjustment only to the extent the commissioner determines that making the adjustment will not:

(1) in the fiscal year in which the adjustment is made, cause the amount to which school districts are entitled under this chapter to exceed the amount appropriated for purposes of the Foundation School Program for that year; and

(2) if the adjustment is made in the first year of a state
fiscal biennium, cause the amount to which school districts are entitled under this chapter for the second year of the biennium to exceed the amount appropriated for purposes of the Foundation School Program for that year.

(c) The commissioner shall recover the benefit of any adjustment made under this section by making offsetting adjustments in the school district's taxable value of property or ad valorem tax collections for purposes of this chapter or Chapter 41 or 46 on a final determination of the taxable value of property that was the basis of the original adjustment, or in the second school year following the year in which the adjustment is made, whichever is earlier.

(d) This section does not require the commissioner to make any requested adjustment. A determination by the commissioner under this section is final and may not be appealed.

Sec. 42.254. ESTIMATES REQUIRED. (a) Not later than October 1 of each even-numbered year:

(1) the agency shall submit to the legislature an estimate of the tax rate and student enrollment of each school district for the following biennium; and

(2) the comptroller shall submit to the legislature an estimate of the total taxable value of all property in the state as determined under Subchapter M, Chapter 403, Government Code, for the following biennium.

(b) The agency and the comptroller shall update the information provided to the legislature under Subsection (a) not later than March 1 of each odd-numbered year.

Sec. 42.255. FALSIFICATION OF RECORDS; REPORT. When, in the opinion of the agency's director of school audits, audits or reviews of accounting, enrollment, or other records of a school district reveal deliberate falsification of the records, or violation of the
provisions of this chapter, through which the district's share of state funds allocated under the authority of this chapter would be, or has been, illegally increased, the director shall promptly and fully report the fact to the State Board of Education, the state auditor, and the appropriate county attorney, district attorney, or criminal district attorney.

Sec. 42.257. EFFECT OF APPRAISAL APPEAL. (a) If the final determination of an appeal under Chapter 42, Tax Code, results in a reduction in the taxable value of property that exceeds five percent of the total taxable value of property in the school district for the same tax year determined under Subchapter M, Chapter 403, Government Code, the commissioner shall request the comptroller to adjust its taxable property value findings for that year consistent with the final determination of the appraisal appeal.

(b) If the district would have received a greater amount from the foundation school fund for the applicable school year using the adjusted value, the commissioner shall add the difference to subsequent distributions to the district from the foundation school fund. An adjustment does not affect the local fund assignment of any other district.

Sec. 42.258. RECOVERY OF OVERALLOCATED FUNDS. (a) If a school district has received an overallocation of state funds, the agency shall, by withholding from subsequent allocations of state funds for the current or subsequent school year or by requesting and obtaining a refund, recover from the district an amount equal to the overallocation.

(a-1) Notwithstanding Subsection (a), the agency may recover an overallocation of state funds over a period not to exceed the subsequent five school years if the commissioner determines that the overallocation was the result of exceptional circumstances reasonably caused by statutory changes to Chapter 41 or 46 or this chapter and related reporting requirements.

(b) If a district fails to comply with a request for a refund
under Subsection (a), the agency shall certify to the comptroller that the amount constitutes a debt for purposes of Section 403.055, Government Code. The agency shall provide to the comptroller the amount of the overallocation and any other information required by the comptroller. The comptroller may certify the amount of the debt to the attorney general for collection.

(c) Any amounts recovered under this section shall be deposited in the foundation school fund.

Sec. 42.259. FOUNDATION SCHOOL FUND TRANSFERS. (a) In this section:

(1) "Category 1 school district" means a school district having a wealth per student of less than one-half of the statewide average wealth per student.

(2) "Category 2 school district" means a school district having a wealth per student of at least one-half of the statewide average wealth per student but not more than the statewide average wealth per student.

(3) "Category 3 school district" means a school district having a wealth per student of more than the statewide average wealth per student.

(4) "Wealth per student" means the taxable property values reported by the comptroller to the commissioner under Section 42.252 divided by the number of students in average daily attendance.

(b) Payments from the foundation school fund to each category 1 school district shall be made as follows:

(1) 15 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of September of a fiscal year;

(2) 80 percent of the yearly entitlement of the district shall be paid in eight equal installments to be made on or before the 25th day of October, November, December, January, March, May, June, and July; and

(3) five percent of the yearly entitlement of the district
shall be paid in an installment to be made on or before the 25th day of February.

(c) Payments from the foundation school fund to each category 2 school district shall be made as follows:

(1) 22 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of September of a fiscal year;

(2) 18 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of October;

(3) 9.5 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of November;

(4) 7.5 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of April;

(5) five percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of May;

(6) 10 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of June;

(3) 20 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of August.

(e) The amount of any installment required by this section may
be modified to provide a school district with the proper amount to which the district may be entitled by law and to correct errors in the allocation or distribution of funds. If an installment under this section is required to be equal to other installments, the amount of other installments may be adjusted to provide for that equality. A payment under this section is not invalid because it is not equal to other installments.

(f) Previously unpaid additional funds from prior fiscal years owed to a district shall be paid to the district together with the September payment of the current fiscal year entitlement.

(g) The commissioner shall make all annual Foundation School Program payments under this section for purposes described by Sections 45.252(a)(1) and (2) before the deadline established under Section 45.263(b) for payment of debt service on bonds. Notwithstanding any other provision of this section, the commissioner may make Foundation School Program payments under this section after the deadline established under Section 45.263(b) only if the commissioner has not received notice under Section 45.258 concerning a district's failure or inability to pay matured principal or interest on bonds.

established under Chapter 1579, Insurance Code.

(b) For each year, the commissioner shall certify to each school district or participating charter school the amount of additional funds to which the district or school is entitled due to the increase made by H.B. No. 3343, Acts of the 77th Legislature, Regular Session, 2001, to:

(1) the equalized wealth level under Section 41.002; or
(2) the guaranteed level of state and local funds per weighted student per cent of tax effort under Section 42.302.

(c) Notwithstanding any other provision of this code, a school district or participating charter school may use the following amount of funds only to pay contributions under a group health coverage plan for district or school employees:

(2) if the following amount is less than the amount specified by Subdivision (1), the sum of:

(A) the amount determined by multiplying the amount of $900 or the amount specified in the General Appropriations Act for that year for purposes of the state contribution under Section 9, Article 3.50-7, Insurance Code, by the number of district or school employees who participate in a group health coverage plan provided by or through the district or school; and

(B) the difference between the amount necessary for the district or school to comply with Section 3, Article 3.50-9, Insurance Code, for the school year and the amount the district or school is required to use to provide health coverage under Section 2 of that article for that year.

(d) A determination by the commissioner under this section is final and may not be appealed.

(3) may not be used for purposes of Chapter 46; and

SUBCHAPTER F. GUARANTEED YIELD PROGRAM

Sec. 42.301.  PURPOSE.  The purpose of the guaranteed yield component of the Foundation School Program is to provide each school district with the opportunity to provide the basic program and to supplement that program at a level of its own choice. An allotment under this subchapter may be used for any legal purpose other than capital outlay or debt service.

Amended by Acts 1999, 76th Leg., ch. 396, Sec. 1.20, eff. Sept. 1, 1999.

Sec. 42.302.  ALLOTMENT.  (a) Each school district is guaranteed a specified amount per weighted student in state and local funds for each cent of tax effort over that required for the district's local fund assignment up to the maximum level specified in this subchapter. The amount of state support, subject only to the maximum amount under Section 42.303, is determined by the formula:
GYA = (GL X WADA X DTR X 100) - LR

where:

"GYA" is the guaranteed yield amount of state funds to be allocated to the district;

"GL" is the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort, which is an amount described by Subsection (a-1) or a greater amount for any year provided by appropriation;

"WADA" is the number of students in weighted average daily attendance, which is calculated by dividing the sum of the school district's allotments under Subchapters B and C, less any allotment to the district for transportation, any allotment under Section 42.158 or 42.160, and 50 percent of the adjustment under Section 42.102, by the basic allotment for the applicable year;

"DTR" is the district enrichment tax rate of the school district, which is determined by subtracting the amounts specified by Subsection (b) from the total amount of maintenance and operations taxes collected by the school district for the applicable school year and dividing the difference by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 42.2521, divided by 100; and

"LR" is the local revenue, which is determined by multiplying "DTR" by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 42.2521, divided by 100.

(a-1) In this section, "wealth per student" has the meaning assigned by Section 41.001. For purposes of Subsection (a), the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort ("GL") for a school district is:

(1) the greater of the amount of district tax revenue per weighted student per cent of tax effort that would be available to the Austin Independent School District, as determined by the commissioner in cooperation with the Legislative Budget Board, if the reduction of the limitation on tax increases as provided by Section 11.26(a-1), (a-2), or (a-3), Tax Code, did not apply, or the amount of district tax revenue per weighted student per cent of tax effort used for purposes of this subdivision in the preceding school year, for the first six cents by which the district's maintenance and operations tax rate exceeds the rate equal to the product of the
state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year; and

(2) $31.95, for the district's maintenance and operations tax effort that exceeds the amount of tax effort described by Subdivision (1).

(a-2) The limitation on district enrichment tax rate ("DTR") under Section 42.303 does not apply to the district's maintenance and operations tax effort described by Subsection (a-1)(1).

(b) In computing the district enrichment tax rate of a school district, the total amount of maintenance and operations taxes collected by the school district does not include the amount of:

(1) the district's local fund assignment under Section 42.252; or

(2) taxes paid into a tax increment fund under Chapter 311, Tax Code.

(c) For purposes of this section, school district taxes for which credit is granted under Section 31.035, 31.036, or 31.037, Tax Code, are considered taxes collected by the school district as if the taxes were paid when the credit for the taxes was granted.

(d) For purposes of this section, the total amount of maintenance and operations taxes collected for an applicable school year by a school district with alternate tax dates, as authorized by Section 26.135, Tax Code, is the amount of taxes collected on or after January 1 of the year in which the school year begins and not later than December 31 of the same year.

(e) For purposes of this section, school district taxes for which credit is granted under former Subchapter D, Chapter 313, Tax Code, are considered taxes collected by the school district as if the taxes were paid when the credit for the taxes was granted.

(f) If a school district imposes a maintenance and operations tax at a rate greater than the rate equal to the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year, the district is entitled to receive an allotment under this section on the basis of that greater tax effort.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by Acts 1997, 75th Leg., ch. 1071, Sec. 21, eff. Sept. 1,
Sec. 42.303. LIMITATION ON ENRICHMENT TAX RATE. The district enrichment tax rate ("DTR") under Section 42.302 may not exceed the amount per $100 of valuation by which the maximum rate permitted under Section 45.003 exceeds the rate used to determine the district's local share under Section 42.252, or a greater amount for any year provided by appropriation.

Sec. 42.304. COMPUTATION OF AID FOR DISTRICT ON MILITARY RESERVATION OR AT STATE SCHOOL. State assistance under this subchapter for a school district located on a federal military installation or at Moody State School is computed using the average tax rate and property value per student of school districts in the county, as determined by the commissioner.

SUBCHAPTER G. SCHOOL FACILITIES INVENTORY AND STANDARDS

Sec. 42.352. STANDARDS. The State Board of Education shall establish standards for adequacy of school facilities. The standards shall include requirements related to space, educational adequacy, and construction quality. All facilities constructed after September 1, 1992, must meet the standards in order to be financed with state or local tax funds.

Sec. 42.4101. ADDITIONAL ASSISTANCE FOR DISTRICTS WITH STUDENTS USING PUBLIC EDUCATION GRANTS. (a) A district is entitled to additional assistance under this section as provided by Section 29.203(c).

(b) The amount of additional assistance under this section is computed by subtracting the number of students residing in the district and using public education grants to attend school in another district for the year in which the assistance is granted from the number of students using public education grants to attend school in the district for that year and multiplying the difference by $266.

(c) If a district to which this section applies is entitled to the maximum amount of assistance under Section 42.406, the maximum is increased by the amount of additional assistance to which the district is entitled under this section.

Added by Acts 1997, 75th Leg., ch. 722, Sec. 6, eff. Sept. 1, 1997.

up, or paying off of bonds as provided by this section, unless the bonds are being redeemed for the purpose of being refunded.

Sec. 43.010. DEFAULT OF SCHOOL DISTRICT SECURITIES HELD BY THE PERMANENT SCHOOL FUND. (a) If interest or principal has not been paid for two years or more on any bonds issued by any school district and held by the permanent school fund, the State Board of Education may:

1. compel the district to levy a tax sufficient to meet the interest and principal payments then or later due; or
2. if the district furnishes to the State Board of Education satisfactory proof that the district's taxing ability is insufficient, require the district to:
   A. exhaust all legal remedies in collecting delinquent taxes; and
   B. levy a tax at the maximum lawful rate on the bona fide valuation of taxable property located in the district.

(b) Revenue collected by either method specified by Subsection (a) shall be distributed proportionately to all owners of the defaulted securities in compliance with the following:

1. the proportionate share for each owner is based on the interest and principal requirements of the original security before authorized refunding; and
2. prior acceptance of refunding securities does not reduce an owner's proportionate share.

(c) As long as any school district is delinquent in its payments of principal or interest on any of its bonds owned by the permanent school fund, the State Board of Education may specify the method of crediting payments to the state made by the district as to principal and interest.

(d) The comptroller may not issue any warrant from the foundation school fund to or for the benefit of any district that has been for as long as two years in default in the payment of principal or interest on any security owned by the permanent school fund until the State Board of Education certifies that the district has satisfactorily complied with the appropriate provisions of this section, in which event the comptroller shall resume making payments.
to or for the benefit of the district, including the making of
pretermitted payments.

Sec. 43.011. AUTHORIZED REFUNDING OF DEFAULTED SCHOOL BONDS.
(a) In compliance with this section, the State Board of Education
may revise, readjust, modify, refinance, or refund defaulted bonds
issued by any school district in this state and owned by either the
permanent school fund or the available school fund.

(b) Application must be made to the State Board of Education by
the district that issued the bonds and must show that:

(1) delinquent interest totals at least 50 percent of the
principal amount of the bonds; and

(2) taxable valuation has decreased to such an extent that
a full application of the proceeds of the voted authorized tax
authorized to be levied on the $100 taxable property valuation will
not meet interest and principal annually maturing on the bonds.

(c) The State Board of Education may effect a refunding of the
debt due and to become due only if the board finds that:

(1) the district is unable to pay the sums already matured
and the sums contracted to be paid as they mature by paying annually
to the State Board of Education the full proceeds of a 50-cent tax
levy on the $100 of all taxable valuation of property in the
district;

(2) the taxable valuation of property in the district has
decreased at least 75 percent since the bonds were issued and that
the decrease was not caused by the district or any of its officials;

(3) the district for a period of at least five years before
applying to the State Board of Education for refunding has levied a
tax of 50 cents on the $100 of taxable valuation of property in the
district, and that despite such levies, the aggregate amount due the
State Board of Education exceeds the aggregate amount due at the
beginning of the period;

(4) the district has not authorized and sold additional
bonds during the five-year period immediately preceding the
application; and

(5) the district has in good faith endeavored to pay its
debt in accordance with the contract evidenced by the bonds held for
the account of the permanent school fund or the available school fund.

(d) If the conditions specified by Subsection (c) are found to exist, the district is, for purposes of this section, insolvent, and the State Board of Education may exchange the bonds, interest coupons, and other evidences of indebtedness for new refunding bonds of the district issued in compliance with the following:

(1) the principal amount of the refunding bonds may not be less than the total amount of the bonds, matured interest coupons, accrued interest, and interest on delinquent interest then actually due to the permanent school fund or the available school fund; and

(2) the rate of interest to be borne by the refunding bonds may be lower than that borne by the bonds to be refunded if in consideration of the interest reduction the district agrees to levy a tax each year for a period of 40 years at a rate sufficient to produce annually a sum equal to 90 percent of the amount that can be calculated by the levy of a tax at the rate of 50 cents on the $100 of taxable valuation of property as determined by the latest approved tax roll of the district, and in determining the rate of interest to be borne by the refunding bonds, the State Board of Education shall be governed by the following:

(A) the State Board of Education may require the rate to be a percent per annum as in its judgment will represent the maximum rate that can be paid by the district and still permit an orderly and certain retirement of the refunding bonds within 40 years from their date;

(B) the interest rate of refunding bonds to be received in exchange for bonds owned by the permanent school fund may not be less than the minimum rate at which bonds may then be purchased as investments for the permanent school fund; and

(C) the rate of interest of refunding bonds to be received in exchange for bonds owned by the available school fund may be set by the State Board of Education at any rate the board considers feasible, and the refunding bonds may, at the discretion of the State Board of Education, be made non-interest bearing to a date fixed by the board.

(e) The State Board of Education may not make a revision, readjustment, modification, refinancing, or refunding that will release or extinguish any debt or obligation then due and payable to the permanent school fund or to the available school fund.
(f) Except as otherwise provided or permitted by this section, the refunding of the bonds of school districts authorized by this section must be in compliance with the general provisions with regard to the refunding of school district bonds.

Sec. 43.012. REFUNDING OTHER DEFAULTED OBLIGATIONS. (a) Defaulted obligations, other than bonds of school districts as provided by Section 43.011, due the available school fund may be refinanced or refunded with the approval of the State Board of Education in compliance with this section.

(b) In this section, "defaulted obligations" includes delinquent interest whether represented by coupons or not, interest on delinquent interest, and any other form of obligation due the available school fund.

(c) The obligor must apply to the State Board of Education and show:

(1) that the obligations due the available school fund have been in default in whole or in part for a continuous period of at least 15 years; and

(2) that the obligor is not in default in the payment of the principal of any bonds owned by the permanent school fund.

(d) If the State Board of Education finds that the requirements provided by Subsection (c) have been met, it may approve a refinancing or the issuance of refunding bonds on the conditions:

(1) that the refunding bonds must mature serially in not exceeding 40 years from the date of issuance;

(2) that the principal amount of the refunding bonds may be not less than the total amount of the obligations then in default and due the available school fund; and

(3) that the refunding bonds must bear interest at a rate or rates determined by the State Board of Education to be for the best interest of the available school fund.

(e) The State Board of Education may accept refunding bonds in lieu of either matured or unmatured bonds held for the benefit of the permanent school fund if the rate of interest on the new refunding bonds is at least the same rate as that of the bonds being refunded.

(f) Refunding bonds issued with the approval or pursuant to a
refunding agreement with the State Board of Education in compliance with either this section or Section 43.011 shall, on the order of the State Board of Education, be exchanged by the comptroller for the defaulted obligations they have been issued to refund.

Sec. 43.013. JURISDICTION. The district courts of Travis County have jurisdiction of any suit on bonds or obligations belonging to the permanent school fund, or purchased therewith, concurrent with that of any other court having jurisdiction in the case.

Sec. 43.014. DUTIES OF COMPTROLLER. (a) On or before July 1 of each year, the comptroller shall estimate the amount of the available school fund receivable from every source during the following school year and report the estimate to the State Board of Education.

(b) On or before the meeting of each regular session of the legislature, the comptroller shall report to the legislature an estimate of the amount of the available school fund that is to be received for the following two years, and the sources from which that amount accrues, and that is subject to appropriation for the establishment and support of public schools.

(c) On or before the first working day of each month, the comptroller shall certify to the commissioner the total amount of money collected from every source during the preceding month and on hand to the credit of the available school fund.

(d) On receipt of certificates issued to the comptroller by the commissioner, the comptroller shall draw warrants in favor of the treasurer of the available school fund of each school district for the amounts stated in the certificates. All such warrants shall be registered.

Sec. 43.015. DUTIES OF COMPTROLLER. (a) Not later than the 30th day before the first day of each regular session of the legislature and not later than the 10th day before the first day of any special session at which there can be legislation respecting the public schools, the comptroller shall report to the governor the condition of the permanent school fund and the available school fund, the amount of each fund, and the manner of its disbursement.

(b) The comptroller shall provide the State Board of Education with the reports specified by Subsection (a) and with additional reports concerning those funds requested by the State Board of Education.

(c) The comptroller shall ensure that no portion of either the permanent school fund or the available school fund is used to pay any warrant drawn against any other fund.

(d) The comptroller shall receive and hold in a special deposit and account for all properties belonging to the available school fund. All warrants drawn on that fund by the comptroller pursuant to a certificate of the commissioner must be registered by the comptroller and then transmitted to the commissioner, and when properly endorsed shall be paid by the comptroller in the order of their presentation.

(e) On order of the State Board of Education, the comptroller shall exchange or accept refunding bonds in lieu of:

1. either matured or unmatured bonds held for the benefit of the permanent school fund, which are being refunded under this chapter;

2. defaulted obligations held for the benefit of the available school fund if the refunding bonds are issued in compliance with Section 43.012;

3. defaulted obligations of any school district of this state held for the benefit of the permanent school fund or the available school fund if the refunding bonds are issued in compliance with Section 43.011; or

4. refunding bonds of any school district of this state for school bonds not matured held by the comptroller for the permanent school fund if the new refunding bonds are issued by the
school district in compliance with this code.

(f) The comptroller shall be the custodian of all securities enumerated in Section 43.003(6) and of other securities as designated by the State Board of Education in which the school funds of the state are invested. The comptroller shall keep those securities in the comptroller's custody until paid off, discharged, delivered as required by the State Board of Education, or otherwise disposed of by the proper authorities of the state, and on the proper installment of any interest or dividend, shall see that the proper credit is given, and the coupons on bonds, when paid, shall be separated from the bonds and cancelled by the comptroller.

Sec. 43.016. USE OF AVAILABLE SCHOOL FUND. All available school funds shall be appropriated in each county for the education of its children.

Sec. 43.017. USE OF COMMERCIAL BANKS AS AGENTS FOR COLLECTION OF INCOME FROM PERMANENT SCHOOL FUND INVESTMENTS. (a) The State Board of Education may contract with one or more commercial banks to receive payments of dividends and interest on securities in which the state permanent school funds are invested and transmit that money with identification of its source to the comptroller for the account of the available school fund by the fastest available means.

(b) In choosing each commercial bank with which to contract as authorized by Subsection (a), the State Board of Education shall assure itself of:

(1) the financial stability of the bank;

(2) the location of the bank with respect to its proximity to the banks on which checks are drawn in payment of dividends and interest on securities of the permanent school fund;

(3) the experience and reliability of the bank in acting as agent for others in the similar collection and expeditious remittance of money; and
(4) the reasonableness of the bank's charges for the services, both in amount of the charges and in relation to the increased investment earnings of the available school fund that will result from speedier receipt by the comptroller of the money.

Sec. 43.018. PARTICIPATION IN FULLY SECURED SECURITIES LOAN PROGRAMS. (a) The State Board of Education may contract with a commercial bank to serve both as a custodian of securities in which the state permanent school funds are invested and to lend those securities, under the conditions prescribed by Subsection (b), to securities brokers and dealers on short-term loan.

(b) The State Board of Education may contract with a commercial bank pursuant to this section only if:

(1) the bank is located in a city having a major stock exchange;

(2) the bank is experienced in the operation of a fully secured securities loan program;

(3) the bank has adequate capital in the prudent judgment of the State Board of Education to assure the safety of the securities entrusted to it as a custodian;

(4) the bank will require of any securities broker or dealer to which it lends securities owned by the state permanent school fund that the broker or dealer deliver to it cash collateral for the loan of securities, and that the cash collateral will at all times be not less than 100 percent of the market value of the securities lent;

(5) the bank executes an indemnification agreement, satisfactory in form and content to the State Board of Education, fully indemnifying the permanent and available school funds against loss resulting from the bank's service as custodian of securities of the permanent school fund and its operation of a securities loan program using securities of the permanent school fund;

(6) the bank will speedily collect and remit on the day of collection by the fastest available means to the comptroller any dividends and interest collectible by it on securities held by it as
custodian, together with identification as to the source of the dividends or interest; and

(7) the bank is the bank agreeing to pay to the available school fund the largest sum or highest percentage of the income derived by the bank from use of the securities of the permanent school fund in the operation of a securities loan program.

Sec. 43.019. ACCOUNTING TREATMENT OF CERTAIN EXCHANGES. The State Board of Education may account for the exchange of permanent school fund securities in a closely related sale and purchase transaction in a manner in which the gain or loss on the sale is deferred as an adjustment to the book value of the security purchased, if:

(1) the security sold and the security purchased have a fixed maturity value;
(2) the board is authorized by law to invest the permanent school fund in the security purchased;
(3) the sale is made in clear contemplation of reinvesting substantially all of the proceeds;
(4) substantially all of the proceeds are reinvested;
(5) the transaction is completed within a reasonable time after the sale, not to exceed 30 business days; and
(6) the transaction results in an improvement in effective income yield, taking into consideration the deferral of any gain or loss on the sale.

Sec. 43.020. TREATMENT OF ACCRUED INCOME. All interest and dividends accruing from the investments of the permanent school fund shall be deposited to the credit of the available school fund in accordance with the accrual basis of accounting. Funds recognized under this section are considered part of the available school fund and may be appropriated as provided by Section 5, Article VII, Texas Constitution.

Notice under this subsection shall be published not earlier than the 30th day or later than the 10th day before the date of the hearing.

(c) The notice of public meeting to discuss and adopt the budget and the proposed tax rate may not be smaller than one-quarter page of a standard-size or a tabloid-size newspaper, and the headline on the notice must be in 18-point or larger type. Subject to Subsection (d), the notice must:

The statement of the purpose of the meeting must be in bold type. In reduced type, the notice must state: "The tax rate that is ultimately adopted at this meeting or at a separate meeting at a later date may not exceed the proposed rate shown below unless the district publishes a revised notice containing the same information and comparisons set out below and holds another public meeting to discuss the revised notice."

(2) contain a section entitled "Comparison of Proposed Budget with Last Year's Budget," which must show the difference, expressed as a percent increase or decrease, as applicable, in the amounts budgeted for the preceding fiscal year and the amount budgeted for the fiscal year that begins in the current tax year.

(B) debt service; and
(C) total expenditures;

(b) in the case of "Interest & Sinking Fund," is the tax rate that, when applied to the current taxable value for the district, as certified by the chief appraiser under Section 26.01, Tax Code, and as adjusted to reflect changes made by the chief appraiser as of the time the notice is prepared, and when multiplied by the district's anticipated collection rate, would impose taxes in an amount that, when added to state funds to be distributed to the

(i) the "Local Revenue per Student," which is computed by multiplying the district's total taxable value of property, as certified by the chief appraiser for the applicable school year under Section 26.01, Tax Code, and as adjusted to reflect changes made by the chief appraiser as of the time the notice is prepared, by the total tax rate, and dividing the product by the number of students in average daily attendance in the district for the applicable school year; and

(ii) the "State Revenue per Student," which is computed by determining the amount of state aid received or to be received by the district under Chapters 42, 43, and 46 and dividing that amount by the number of students in average daily attendance in the district for the applicable school year; and

(C) contain an asterisk after each calculation for "Interest & Sinking Fund" and a footnote to the section that, in reduced type, states "The Interest & Sinking Fund tax revenue is used to pay for bonded indebtedness on construction, equipment, or both. The bonds, and the tax rate necessary to pay those bonds, were approved by the voters of this district.";

(6) contain a section entitled "Comparison of Proposed Levy with Last Year's Levy on Average Residence," which must:

group of residences for each year;

(7) contain the following statement in bold print: "Under state law, the dollar amount of school taxes imposed on the residence of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rate or property value."

(8) contain the following statement in bold print: "Notice of Rollback Rate: The highest tax rate the district can adopt before requiring voter approval at an election is (the school district rollback rate determined under Section 26.08, Tax Code). This election will be automatically held if the district adopts a rate in excess of the rollback rate of (the school district rollback rate)."; and

(9) contain a section entitled "Fund Balances," which must include the estimated amount of interest and sinking fund balances and the estimated amount of maintenance and operation or general fund balances remaining at the end of the current fiscal year that are not encumbered with or by corresponding debt obligation, less estimated funds necessary for the operation of the district before the receipt of the first payment under Chapter 42 in the succeeding school year.

(c-1) The notice described by Subsection (c) must state in a distinct row or on a separate or individual line for each of the following taxes:

Voters."

(d) The comptroller shall prescribe the language and format to be used in the part of the notice required by Subsection (c). A notice under Subsection (c) is not valid if it does not substantially conform to the language and format prescribed by the comptroller under this subsection.

(e) A person who owns taxable property in a school district is entitled to an injunction restraining the collection of taxes by the district if the district has not complied with the requirements of Subsections (b), (c), and (d), and, if applicable, Subsection (i), and the failure to comply was not in good faith. An action to enjoin the collection of taxes must be filed before the date the school district delivers substantially all of its tax bills.

(f) The board of trustees, at the meeting called for that purpose, shall adopt a budget to cover all expenditures for the school district for the next succeeding fiscal year. Any taxpayer of the district may be present and participate in the meeting.

(g) The budget must be adopted before the adoption of the tax rate for the tax year in which the fiscal year covered by the budget begins.

(g-1) If the rate calculated under Subsection (c)(5)(A)(ii)(b) decreases after the publication of the notice required by this section, the president is not required to publish another notice or call another meeting to discuss and adopt the budget and the proposed lower tax rate.

(h) Notwithstanding any other provision of this section, a school district with a fiscal year beginning July 1 may use the certified estimate of the taxable value of district property required by Section 26.01(e), Tax Code, in preparing the notice required by this section if the district does not receive on or before June 7 the certified appraisal roll for the district required by Section 26.01(a), Tax Code.

(i) A school district that uses a certified estimate, as authorized by Subsection (h), may adopt a budget at the public meeting designated in the notice prepared using the estimate, but the district may not adopt a tax rate before the district receives the certified appraisal roll for the district required by Section 26.01(a), Tax Code. After receipt of the certified appraisal roll, the district must publish a revised notice and hold another public meeting before the district may adopt a tax rate that exceeds:
(1) the rate proposed in the notice prepared using the estimate; or

(2) the district's rollback rate determined under Section 26.08, Tax Code, using the certified appraisal roll.

(j) Notwithstanding Subsections (g), (h), and (i), a school district may adopt a budget after the district adopts a tax rate for the tax year in which the fiscal year covered by the budget begins if the district elects to adopt a tax rate before receiving the certified appraisal roll for the district as provided by Section 26.05(g), Tax Code. If a school district elects to adopt a tax rate before adopting a budget, the district must publish notice and hold a meeting for the purpose of discussing the proposed tax rate as provided by this section. Following adoption of the tax rate, the district must publish notice and hold another public meeting before the district may adopt a budget. The comptroller shall prescribe the language and format to be used in the notices. The school district may use the certified estimate of taxable value in preparing a notice under this subsection.

The list must include the percentage of time spent by each employee in directly providing classroom instruction to students.

(c) For purposes of this section, the computation of a district's expenditures used to fund direct instructional activities shall include the salary, including any associated employment taxes,
and value of any benefits provided to any district employee who
directly provided classroom instruction to students, but only in
proportion to the percentage of time spent by the employee in
directly providing classroom instruction to students.

(d) The commissioner shall adopt rules as necessary to

(e) The audit reports shall be reviewed by the agency, and the

(b) The board is not limited in the number of times the board may adopt a resolution declaring continuation of the financial exigency.

SUBCHAPTER B. PURCHASES; CONTRACTS

Sec. 44.031. PURCHASING CONTRACTS. (a) Except as provided by this subchapter, all school district contracts for the purchase of goods and services, except contracts for the purchase of produce or vehicle fuel, valued at $50,000 or more in the aggregate for each 12-month period shall be made by the method, of the following methods, that provides the best value for the district:

(1) competitive bidding for services other than construction services;

(2) competitive sealed proposals for services other than construction services;

(3) a request for proposals, for services other than construction services;

(4) an interlocal contract;

(5) a method provided by Chapter 2269, Government Code, for construction services;

(6) the reverse auction procedure as defined by Section 2155.062(d), Government Code; or

(7) the formation of a political subdivision corporation under Section 304.001, Local Government Code.
(b) Except as provided by this subchapter, in determining to whom to award a contract, the district shall consider:
   (1) the purchase price;
   (2) the reputation of the vendor and of the vendor's goods or services;
   (3) the quality of the vendor's goods or services;
   (4) the extent to which the goods or services meet the district's needs;
   (5) the vendor's past relationship with the district;
   (6) the impact on the ability of the district to comply with laws and rules relating to historically underutilized businesses;
   (7) the total long-term cost to the district to acquire the vendor's goods or services;
   (8) for a contract for goods and services, other than goods and services related to telecommunications and information services, building construction and maintenance, or instructional materials, whether the vendor or the vendor's ultimate parent company or majority owner:
      (A) has its principal place of business in this state; or
      (B) employs at least 500 persons in this state; and
   (9) any other relevant factor specifically listed in the request for bids or proposals.

(b-1) In awarding a contract by competitive sealed bid under this section, a school district that has its central administrative office located in a municipality with a population of less than 250,000 may consider a bidder's principal place of business in the manner provided by Section 271.9051, Local Government Code. This subsection does not apply to the purchase of telecommunications services or information services, as those terms are defined by 47 U.S.C. Section 153.

(c) The state auditor may audit purchases of goods or services by the district.

(d) The board of trustees of the district may adopt rules and procedures for the acquisition of goods or services.

(e) To the extent of any conflict, this subchapter prevails over any other law relating to the purchasing of goods and services except a law relating to contracting with historically underutilized businesses.
(f) This section does not apply to a contract for professional services rendered, including services of an architect, attorney, certified public accountant, engineer, or fiscal agent. A school district may, at its option, contract for professional services rendered by a financial consultant or a technology consultant in the manner provided by Section 2254.003, Government Code, in lieu of the methods provided by this section.

(g) Notice of the time by when and place where the bids or proposals, or the responses to a request for qualifications, will be received and opened shall be published in the county in which the district's central administrative office is located, once a week for at least two weeks before the deadline for receiving bids, proposals, or responses to a request for qualifications. If there is not a newspaper in that county, the advertising shall be published in a newspaper in the county nearest the county seat of the county in which the district's central administrative office is located. In a two-step procurement process, the time and place where the second-step bids, proposals, or responses will be received are not required to be published separately.

Text of subsec. (h) as amended by Acts 1999, 76th Leg., ch. 922, Sec. 1

(h) If school equipment, a school facility, or a portion of a school facility is destroyed, severely damaged, or experiences a major unforeseen operational or structural failure, and the board of trustees determines that the delay posed by the contract methods required by this section would prevent or substantially impair the conduct of classes or other essential school activities, then contracts for the replacement or repair of the equipment, school facility, or portion of the school facility may be made by a method other than the methods required by this section.

Text of subsec. (h) as amended by Acts 1999, 76th Leg., ch. 1225, Sec. 1

(h) If school equipment or a part of a school facility or personal property is destroyed or severely damaged or, as a result of an unforeseen catastrophe or emergency, undergoes major operational or structural failure, and the board of trustees determines that the delay posed by the methods provided for in this section would prevent or substantially impair the conduct of classes or other essential school activities, then contracts for the replacement or repair of
the equipment or the part of the school facility may be made by methods other than those required by this section.

(i) A school district may acquire computers and computer-related equipment, including computer software, through the Department of Information Resources under contracts entered into in accordance with Chapter 2054 or 2157, Government Code. Before issuing an invitation for bids, the department shall consult with the agency concerning the computer and computer-related equipment needs of school districts. To the extent possible the resulting contract shall provide for such needs.

(j) Without complying with Subsection (a), a school district may purchase an item that is available from only one source, including:

(1) an item for which competition is precluded because of the existence of a patent, copyright, secret process, or monopoly;
(2) a film, manuscript, or book;
(3) a utility service, including electricity, gas, or water; and
(4) a captive replacement part or component for equipment.

(k) The exceptions provided by Subsection (j) do not apply to mainframe data-processing equipment and peripheral attachments with a single-item purchase price in excess of $15,000.

(l) Each contract proposed to be made by a school district for the purchase or lease of one or more school buses, including a lease with an option to purchase, must be submitted to competitive bidding when the contract is valued at $20,000 or more.

(m) If a purchase is made at the campus level in a school district with a student enrollment of 180,000 or more that has formally adopted a site-based decision-making plan under Subchapter F, Chapter 11, that delegates purchasing decisions to the campus level, this section applies only to the campus and does not require the district to aggregate and jointly award purchasing contracts. A district that adopts site-based purchasing under this subsection shall adopt a policy to ensure that campus purchases achieve the best value to the district and are not intended or used to avoid the requirement that a district aggregate purchases under Subsection (a).

In procuring construction services, the district shall provide notice of the delegation and the limits of the delegation in the request for bids, proposals, or qualifications or in an addendum to the request. If the district fails to provide that notice, a ranking, selection, or evaluation of bids, proposals, or qualifications for construction services other than by the board of trustees in an open public meeting is advisory only.

(b) The board may not delegate the authority to act regarding an action authorized or required by this subchapter to be taken by the board of trustees of a school district.

(c) Notwithstanding any other provision of this code, in the event of a catastrophe, emergency, or natural disaster affecting a school district, the board of trustees of the district may delegate to the superintendent or designated person the authority to contract for the replacement, construction, or repair of school equipment or facilities under this subchapter if emergency replacement, construction, or repair is necessary for the health and safety of district students and staff.

(a) A school district may receive bids or proposals under this chapter through electronic transmission if the board of trustees of the school district adopts rules to ensure the identification, security, and confidentiality of electronic bids or proposals and to ensure that the electronic bids or proposals remain effectively unopened until the proper time.

(b) Notwithstanding any other provision of this chapter, an electronic bid or proposal is not required to be sealed. A provision of this chapter that applies to a sealed bid or proposal applies to a bid or proposal received through electronic transmission in

(3) "Sequential purchases" means purchases, made over a period, of items that in normal purchasing practices would be purchased in one purchase.

(b) An officer, employee, or agent of a school district commits an offense if the person with criminal negligence makes or authorizes separate, sequential, or component purchases to avoid the requirements of Section 44.031(a) or (b). An offense under this subsection is a Class B misdemeanor and is an offense involving moral turpitude.

(c) An officer, employee, or agent of a school district commits an offense if the person with criminal negligence violates Section 44.031(a) or (b) other than by conduct described by Subsection (b). (e) The final conviction of a person other than a trustee of a school district for an offense under Subsection (b) or (c) results in the immediate removal from office or employment of that person. A trustee who is convicted of an offense under this section is considered to have committed official misconduct for purposes of Chapter 87, Local Government Code, and is subject to removal as provided by that chapter and Section 24, Article V, Texas Constitution. For four years after the date of the final conviction,
the removed person is ineligible to be a candidate for or to be appointed or elected to a public office in this state, is ineligible to be employed by or act as an agent for the state or a political subdivision of the state, and is ineligible to receive any compensation through a contract with the state or a political subdivision of the state. This subsection does not make a person ineligible for an office for which the federal or state constitution prescribes exclusive eligibility requirements.

A county attorney, a district attorney, a criminal district attorney, a citizen of the county in which the school district is located, or any interested party may bring an action for an injunction. The notice must include a general description of the conduct resulting in the conviction of a felony.  

(b) A school district may terminate a contract with a person or business entity if the district determines that the person or business entity failed to give notice as required by Subsection (a) or misrepresented the conduct resulting in the conviction. The district must compensate the person or business entity for services performed before the termination of the contract.  

(c) This section does not apply to a publicly held corporation.  

Sec. 44.0351. COMPETITIVE BIDDING. (a) Except to the extent prohibited by other law and to the extent consistent with this subchapter, a school district may use competitive bidding to select a vendor as authorized by Section 44.031(a)(1).

(c) The district shall receive, publicly open, and read aloud the names of the offerors and, if any are required to be stated, all prices stated in each proposal. Not later than the 45th day after the date on which the proposals are opened, the district shall evaluate and rank each proposal submitted in relation to the published selection criteria.

(d) The district shall select the offeror that offers the best value for the district based on the published selection criteria and on its ranking evaluation. The district shall first attempt to negotiate a contract with the selected offeror. The district may discuss with the selected offeror options for a scope or time modification and any price change associated with the modification. If the district is unable to negotiate a satisfactory contract with the selected offeror, the district shall, formally and in writing, end negotiations with that offeror and proceed to the next offeror in the order of the selection ranking until a contract is reached or all proposals are rejected.

(e) In determining the best value for the district, the district is not restricted to considering price alone but may consider any other factors stated in the selection criteria.

(b) The total contract price may not be increased because of
the changes unless additional money for increased costs is approved for that purpose from available money or is provided for by the authorization of the issuance of time warrants.

(c) The district may grant general authority to an administrative official to approve the change orders.

(d) A contract with an original contract price of $1 million or more may not be increased under this section by more than 25 percent. If a change order for a contract with an original contract price of less than $1 million increases the contract amount to $1 million or more, the total of the subsequent change orders may not increase the revised contract amount by more than 25 percent of the original contract price.

(1) may not consider whether a vendor is a member of or has another relationship with any organization; and

(2) shall ensure that its bid specifications and any subsequent contract or other agreement do not deny or diminish the right of a person to work because of the person's membership or other relationship status with respect to any organization.

SUBCHAPTER Z. MISCELLANEOUS PROVISIONS

Sec. 44.901. ENERGY SAVINGS PERFORMANCE CONTRACTS. (a) In this section, "energy savings performance contract" means a contract for energy or water conservation measures to reduce energy or water consumption or operating costs of new or existing school facilities
in which the estimated savings in utility costs resulting from the measures is guaranteed to offset the cost of the measures over a specified period. The term includes a contract for the installation or implementation of:

(1) insulation of a building structure and systems within the building;

(2) storm windows or doors, caulking or weatherstripping, multiglazed windows or doors, heat absorbing or heat reflective glazed and coated window or door systems, or other window or door system modifications that reduce energy consumption;

(3) automatic energy control systems, including computer software and technical data licenses;

(4) heating, ventilating, or air-conditioning system modifications or replacements that reduce energy or water consumption;

(5) lighting fixtures that increase energy efficiency;

(6) energy recovery systems;

(7) electric systems improvements;

(8) water-conserving fixtures, appliances, and equipment or the substitution of non-water-using fixtures, appliances, and equipment;

(9) water-conserving landscape irrigation equipment;

(10) landscaping measures that reduce watering demands and capture and hold applied water and rainfall, including:

(A) landscape contouring, including the use of berms, swales, and terraces; and

(B) the use of soil amendments that increase the water-holding capacity of the soil, including compost;

(11) rainwater harvesting equipment and equipment to make use of water collected as part of a storm-water system installed for water quality control;

(12) equipment for recycling or reuse of water originating on the premises or from other sources, including treated municipal effluent;

(13) equipment needed to capture water from nonconventional, alternate sources, including air conditioning condensate or graywater, for nonpotable uses;

(14) metering equipment needed to segregate water use in order to identify water conservation opportunities or verify water savings; or
other energy or water conservation-related improvements or equipment, including improvements or equipment relating to renewable energy or nonconventional water sources or water reuse.

(b) Repealed by Acts 2009, 81st Leg., R.S., Ch. 1347, Sec. 5, eff. June 19, 2009.

(c) Each energy or water conservation measure must comply with current local, state, and federal construction, plumbing, and environmental codes and regulations. Notwithstanding Subsection (a), an energy savings performance contract may not include improvements or equipment that allow or cause water from any condensing, cooling, or industrial process or any system of nonpotable usage over which the public water supply system officials do not have sanitary control, to be returned to the potable water supply.

(d) The board may enter into energy savings performance contracts only with persons who are experienced in the design, implementation, and installation of the energy or water conservation measures addressed by the contract.

(e) Before entering into an energy savings performance contract, the board shall require the provider of the energy or water conservation measures to file with the board a payment and performance bond relating to the installation of the measures in accordance with Chapter 2253, Government Code. The board may also require a separate bond to cover the value of the guaranteed savings on the contract.

(f) An energy savings performance contract may be financed:

(1) under a lease/purchase contract that has a term not to exceed 20 years from the final date of installation and that meets federal tax requirements for tax-free municipal leasing or long-term financing;

(2) with the proceeds of bonds; or

(3) under a contract with the provider of the energy or water conservation measures that has a term not to exceed the lesser of 20 years from the final date of installation or the average useful life of the energy or water conservation or usage measures.

(f-1) Notwithstanding other law, the board may use any available money, other than money borrowed from this state, to pay the provider of the energy or water conservation measures under this section, and the board is not required to pay for such costs solely out of the savings realized by the school district under an energy savings performance contract.
savings performance contract. The board may contract with the provider to perform work that is related to, connected with, or otherwise ancillary to the measures identified in the scope of an energy savings performance contract.

(g) An energy savings performance contract shall contain provisions requiring the provider of the energy or water conservation measures to guarantee the amount of the savings to be realized by the school district under the contract. If the term of an energy savings performance contract exceeds one year, the school district's contractual obligations in any one year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures, as determined by the school district in this subsection, divided by the number of years in the contract term.

(h) An energy savings performance contract shall be let according to the procedures established for procuring certain professional services by Section 2254.004, Government Code. Notice of the request for qualifications shall be published in the manner provided for competitive bidding.

(i) Before entering into an energy savings performance contract, the board must require that the cost savings projected by an offeror be reviewed by a licensed professional engineer who has a minimum of three years of experience in energy calculation and review, is not an officer or employee of an offeror for the contract under review, and is not otherwise associated with the contract. In conducting the review, the engineer shall focus primarily on the proposed improvements from an engineering perspective, the methodology and calculations related to cost savings, increases in revenue, and, if applicable, efficiency or accuracy of metering equipment. An engineer who reviews a contract shall maintain the confidentiality of any proprietary information the engineer acquires while reviewing the contract. Sections 1001.053 and 1001.407, Occupations Code, apply to work performed under the contract.

(j) Chapter 2269, Government Code, does not apply to this section.
Sec. 44.902. LONG-RANGE ENERGY PLAN TO REDUCE CONSUMPTION OF ELECTRIC ENERGY. (a) The board of trustees of a school district shall establish a long-range energy plan to reduce the district's annual electric consumption by five percent beginning with the 2008 state fiscal year and consume electricity in subsequent fiscal years in accordance with the district's energy plan.

(b) The plan required under Subsection (a) must include:

(1) strategies for achieving energy efficiency that:

(A) result in net savings for the district; or

(B) can be achieved without financial cost to the district; and

(2) for each strategy identified under Subdivision (1), the initial, short-term capital costs and lifetime costs and savings that may result from implementation of the strategy.

(b-1) For purposes of Subsection (b), a strategy for achieving energy efficiency includes facility design and construction.

(c) In determining under Subsection (b) whether a strategy may result in financial cost to the district, the board of trustees shall consider the total net costs and savings that may occur over the seven-year period following implementation of the strategy.

(d) The board of trustees may submit the plan required under
Subsection (a) to the State Energy Conservation Office for the purposes of determining whether funds available through loan programs administered by the office or tax incentives administered by the state or federal government are available to the district. The board may not disallow any proper allocation of incentives.

(b) A school district shall purchase for use in each type of light fixture in an instructional facility the commercially available model of light bulb that:
(1) uses the fewest watts for the necessary luminous flux or light output;
(2) is compatible with the light fixture; and

CHAPTER 45. SCHOOL DISTRICT FUNDS

SUBCHAPTER A. TAX BONDS AND MAINTENANCE TAXES

Sec. 45.001. BONDS AND BOND TAXES. (a) The governing board of an independent school district, including the city council or commission that has jurisdiction over a municipally controlled independent school district, the governing board of a rural high school district, and the commissioners court of a county, on behalf of each common school district under its jurisdiction, may:

(1) issue bonds for:

(A) the construction, acquisition, and equipment of school buildings in the district;

(B) the acquisition of property or the refinancing of property financed under a contract entered under Subchapter A, Chapter 271, Local Government Code, regardless of whether payment obligations under the contract are due in the current year or a future year;

(C) the purchase of the necessary sites for school buildings; and

(D) the purchase of new school buses; and

(2) may levy, pledge, assess, and collect annual ad valorem taxes sufficient to pay the principal of and interest on the bonds as or before the principal and interest become due, subject to Section 45.003.

(b) The bonds must mature serially or otherwise not more than 40 years from their date. The bonds may be made redeemable before maturity.

(c) Bonds may be sold at public or private sale as determined by the governing board of the district.

Added by Acts 2009, 81st Leg., R.S., Ch. 1240 (S.B. 2274), Sec. 2, eff. June 19, 2009.
Amended by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 87(b),
Sec. 45.0011. CREDIT AGREEMENTS IN CERTAIN SCHOOL DISTRICTS. (a) This section applies only to an independent school district that, at the time of the issuance of obligations and execution of credit agreements under this section, has:
(1) at least 2,000 students in average daily attendance; or
(2) a combined aggregate principal amount of at least $50 million of outstanding bonds and voted but unissued bonds.
(b) A district to which this section applies may, in the issuance of bonds as provided by Sections 45.001 and 45.003(b)(1), exercise the powers granted to the governing body of an issuer with regard to the issuance of obligations and execution of credit agreements under Chapter 1371, Government Code.
(c) A proposition to issue bonds to which this section applies must, in addition to meeting the requirements of Section 45.003(b)(1), include the question of whether the governing board or commissioners court may levy, pledge, assess, and collect annual ad valorem taxes, on all taxable property in the district, sufficient, without limit as to rate or amount, to pay the principal of and interest on the bonds and the costs of any credit agreements executed in connection with the bonds.
(d) A district may not issue bonds to which this section applies in an amount greater than the greater of:
(1) 25 percent of the sum of:
(A) the aggregate principal amount of all district debt payable from ad valorem taxes that is outstanding at the time the bonds are issued; and
(B) the aggregate principal amount of all bonds payable from ad valorem taxes that have been authorized but not issued;
(2) $25 million, in a district that has at least 3,500 but not more than 15,000 students in average daily attendance; or
(3) $50 million, in a district that has more than 15,000 students in average daily attendance.
(e) In this section, average daily attendance is determined in the manner provided by Section 42.005.
(f) Sections 1371.057 and 1371.059, Government Code, govern approval by the attorney general of obligations issued under the
authority of this section.

Sec. 45.002. MAINTENANCE TAXES. The governing board of an independent school district, including the city council or commission that has jurisdiction over a municipally controlled independent school district, the governing board of a rural high school district, and the commissioners court of a county, on behalf of each common school district under its jurisdiction, may levy, assess, and collect annual ad valorem taxes for the further maintenance of public schools in the district, subject to Section 45.003.

Sec. 45.003. BOND AND TAX ELECTIONS. (a) Bonds described by Section 45.001 may not be issued and taxes described by Section 45.001 or 45.002 may not be levied unless authorized by a majority of the qualified voters of the district, voting at an election held for that purpose, at the expense of the district, in accordance with the Election Code, except as provided by this section. Each election must be called by resolution or order of the governing board or commissioners court. The resolution or order must state the date of the election, the proposition or propositions to be submitted and voted on, the polling place or places, and any other matters considered necessary or advisable by the governing board or commissioners court.

(b) A proposition submitted to authorize the issuance of bonds must include the question of whether the governing board or commissioners court may levy, pledge, assess, and collect annual ad valorem taxes, on all taxable property in the district, either:

(1) sufficient, without limit as to rate or amount, to pay the principal of and interest on the bonds; or

(2) sufficient to pay the principal of and interest on the bonds, provided that the annual aggregate bond taxes in the district may never be more than the rate stated in the proposition.

(c) If bonds are ever voted in a district pursuant to
Subsection (b)(1), then all bonds thereafter proposed must be submitted pursuant to that subsection, and Subsection (b)(2) does not apply to the district.

(d) A proposition submitted to authorize the levy of maintenance taxes must include the question of whether the governing board or commissioners court may levy, assess, and collect annual ad valorem taxes for the further maintenance of public schools, at a rate not to exceed the rate stated in the proposition. For any year, the maintenance tax rate per $100 of taxable value adopted by the district may not exceed the rate equal to the sum of $0.17 and the product of the state compression percentage, as determined under Section 42.2516, multiplied by $1.50.

(e) A rate that exceeds the maximum rate specified by Subsection (d) for the year in which the tax is to be imposed is void. A school district with a tax rate that is void under this subsection may, subject to requirements imposed by other law, adopt a rate for that year that does not exceed the maximum rate specified by Subsection (d) for that year.

(f) Notwithstanding any other law, a district that levied a maintenance tax for the 2005 tax year at a rate greater than $1.50 per $100 of taxable value in the district as permitted by special law may not levy a maintenance tax at a rate that exceeds the rate per $100 of taxable value that is equal to the sum of $0.17 and the product of the state compression percentage, as determined under Section 42.2516, multiplied by the rate of the maintenance tax levied by the district for the 2005 tax year.

Sec. 45.0031. LIMITATION ON ISSUANCE OF TAX-SUPPORTED BONDS. (a) Before issuing bonds described by Section 45.001, a school district must demonstrate to the attorney general under Subsection (b) or (c) that, with respect to the proposed issuance, the district has a projected ability to pay the principal of and interest on the
proposed bonds and all previously issued bonds other than bonds authorized to be issued at an election held on or before April 1, 1991, and issued before September 1, 1992, from a tax at a rate not to exceed $0.50 per $100 of valuation.

(b) A district may demonstrate the ability to comply with Subsection (a) by using the most recent taxable value of property in the district, combined with state assistance to which the district is entitled under Chapter 42 or 46 that may be lawfully used for the payment of bonds.

(c) A district may demonstrate the ability to comply with Subsection (a) by using a projected future taxable value of property in the district anticipated for the earlier of the tax year five years after the current tax year or the tax year in which the final payment is due for the bonds submitted to the attorney general, combined with state assistance to which the district is entitled under Chapter 42 or 46 that may be lawfully used for the payment of bonds. The district must submit to the attorney general a certification of the district's projected taxable value of property that is prepared by a registered professional appraiser certified under Chapter 1151, Occupations Code, who has demonstrated professional experience in projecting taxable values of property or who can by contract obtain any necessary assistance from a person who has that experience. To demonstrate the professional experience required by this subsection, a registered professional appraiser must provide to the district written documentation relating to two previous projects for which the appraiser projected taxable values of property. Until the bonds submitted to the attorney general are approved or disapproved, the district must maintain the documentation and on request provide the documentation to the attorney general or comptroller. The certification of the district's projected taxable value of property must be signed by the district's superintendent. The attorney general must base a determination of whether the district has complied with Subsection (a) on a taxable value of property that is equal to 90 percent of the value certified under this subsection.

(d) A district that demonstrates to the attorney general that the district's ability to comply with Subsection (a) is contingent on receiving state assistance may not adopt a tax rate for a year for purposes of paying the principal of and interest on the bonds unless the district credits to the account of the interest and sinking fund
of the bonds the amount of state assistance equal to the amount needed to demonstrate compliance and received or to be received in that year.

(e) If a district demonstrates to the attorney general the district's ability to comply with Subsection (a) using a projected future taxable value of property under Subsection (c) and subsequently imposes a tax to pay the principal of and interest on bonds to which Subsection (a) applies at a rate that exceeds the limit imposed by Subsection (a), the attorney general may not approve a subsequent issuance of bonds unless the attorney general finds that the district has a projected ability to pay the principal of and interest on the proposed bonds and all previously issued bonds to which Subsection (a) applies from a tax at a rate not to exceed $0.45 per $100 of valuation.

Sec. 45.004. REFUNDING BONDS. (a) In this section:
(1) "Bond" includes a note or other evidence of indebtedness.
(2) "Total debt service" means the amount of principal and unpaid interest on a bond to final maturity.
(b) Each governing board or commissioners court described by Section 45.001 may refund or refinance all or any part of any of the district's outstanding bonds and matured or unmatured but unpaid interest on those bonds payable from ad valorem taxes by issuing refunding bonds payable from ad valorem taxes.
(c) A series or issue of refunding bonds may not be issued unless:
(1) the total debt service on the refunding bonds will amount to less than the total debt service on the bonds being refunded;
(2) if a maximum interest rate was voted for the bonds being refunded, the refunding bonds do not bear interest at a rate higher than that maximum rate; and
(3) the refunding bonds are payable from taxes of the same nature as those pledged to the payment of the obligations being
(d) Refunding bonds may be made redeemable before maturity.

(e) The refunding bonds may be:

(1) issued and delivered in lieu of, and on surrender to the comptroller and cancellation of, the obligations being refunded, and the comptroller shall register the refunding bonds and deliver them in accordance with the resolution or order authorizing the refunding bonds; or

(2) sold for cash in any principal amounts necessary to provide all or any part of the money required to:

(A) pay the principal of any bonds being refunded and the interest to accrue on the bonds to maturity; or

(B) redeem any bonds being refunded before maturity, including principal, any required redemption premium, and the interest to accrue on the bonds to the redemption date.

(f) The refunding may be accomplished in one or in several installment deliveries. Refunding bonds also may be issued and delivered in accordance with any other applicable law.

(g) To refund bonds or to pay or redeem bonds in whole or in part without issuing refunding bonds, the governing board or commissioners court may deposit directly with the paying agent the proceeds from the sale of refunding bonds or any other available funds or resources. The deposit must be in an amount sufficient, after taking into account both the principal and interest to accrue on the assets of any escrow account created under Subsection (h), to provide for the payment or redemption of the bonds and assumed obligations that are to be refunded or to be paid or redeemed. The deposit constitutes the making of firm banking and financial arrangements for the discharge and final payment or redemption of the bonds being refunded.

(h) The governing board or commissioners court may enter into an escrow or a similar agreement with the paying agent with respect to the safekeeping, investment, reinvestment, administration, or disposition of the deposits, but the deposits may be invested and reinvested only in direct obligations of the United States, including obligations the principal of and interest on which are unconditionally guaranteed by the United States and that mature or bear interest payable at times and in amounts sufficient to provide for the scheduled payment or redemption of the bonds. The governing board or commissioners court shall enter into an appropriate escrow
or a similar agreement if any of the bonds are scheduled to be paid
or redeemed on a date later than the next succeeding scheduled
interest payment date.

(i) If the governing body or commissioners court has entered
into an escrow or a similar agreement under Subsection (h), the
refunded bonds are considered to be defeased and may not be included
in or considered to be an indebtedness of the district for the
purpose of a limitation on outstanding indebtedness or taxation or
for any other purpose.

(j) Refunding bonds may be issued under this section to refund
any bonds that are scheduled to mature or that are subject to
redemption before maturity, not more than 20 years from the date of
the refinancing. The refinancing bonds may be sold at public or
private sale under the procedures, at the price, and on the terms
determined by the governing board or commissioners court. In
addition, the bonds may be sold bearing interest at the rate
determined by the governing board or commissioners court, but not to
exceed the maximum rate prescribed by Chapter 1204, Government Code.
The governing board or commissioners court may pledge to the payment
of any refinancing bonds any surplus income to be available from the
investment or reinvestment of any deposit made as authorized by this
section or any other available revenues, income, or resources.

(k) The refinancing bonds may be issued in an additional amount
sufficient to pay the costs and expenses of issuing the bonds and
sufficient to fund any debt service reserve, contingency, or other
similar fund considered necessary or advisable by the governing board
or commissioners court.

Amended by Acts 2001, 77th Leg., ch. 1420, Sec. 8.208, eff. Sept. 1,

Sec. 45.005. EXAMINATION OF BONDS BY ATTORNEY GENERAL. All
bonds issued pursuant to this subchapter, and the appropriate
proceedings authorizing their issuance, shall be submitted to the
attorney general for examination.

Sec. 45.006. MAINTENANCE TAX REQUIRED FOR JUDGMENT ORDERING AD VALOREM TAX REFUND; BONDS. (a) This section applies only to a school district that:

(1) has an average daily attendance of less than 10,000; and

(2) is located in whole or part in a municipality with a population of less than 25,000 that is located in a county with a population of 200,000 or more bordering another county with a population of 2.8 million or more.

(b) Notwithstanding Section 45.003, a school district may levy, assess, and collect maintenance taxes at a rate that exceeds $1.50 per $100 valuation of taxable property if:

(1) additional ad valorem taxes are necessary to pay a debt of the district that:

(A) resulted from the rendition of a judgment against the district before May 1, 1995;

(B) is greater than $5 million;

(C) decreases a property owner's ad valorem tax liability;

(D) requires the district to refund to the property owner the difference between the amount of taxes paid by the property owner and the amount of taxes for which the property owner is liable; and

(E) is payable according to the judgment in more than one of the district's fiscal years; and

(2) the additional taxes are approved by the voters of the district at an election held for that purpose.

(c) Except as provided by Subsection (e), any additional maintenance taxes that the district collects under this section may be used only to pay the district's debt under Subsection (b)(1).

(d) Except as provided by Subsection (e), the authority of a school district to levy the additional ad valorem taxes under this section expires when the judgment against the district is paid.

(e) The governing body of a school district shall pay the district's debt under Subsection (b)(1) in a lump sum. To satisfy the district's debt under Subsection (b)(1), the governing body may levy and collect additional maintenance taxes as provided by Subsection (b) and may issue bonds. If bonds are issued:

(1) the district may use any additional maintenance taxes collected by the district under this section to pay debt service on
the bonds; and

(2) the authority of the district to levy the additional ad
valorem taxes expires when the bonds are paid in full or the judgment
is paid, whichever occurs later.

(f) The governing body of a school district that adopts a tax
rate that exceeds $1.50 per $100 valuation of taxable property may
set the amount of the exemption from taxation authorized by Section
11.13(n), Tax Code, at any time before the date the governing body
adopts the district's tax rate for the tax year in which the election
approving the additional taxes is held.

(g) The authority to issue bonds granted by this section
expires June 1, 1996.

SUBCHAPTER B. REVENUE BONDS

Sec. 45.031. GYMNASIA, STADIA, AND OTHER RECREATIONAL
FACILITIES. The governing board of an independent school district,
including the city council or commission that has jurisdiction over a
municipally controlled independent school district, the governing
board of a rural high school district, and the commissioners court of
a county, on behalf of each common school district under its
jurisdiction, may acquire, construct, improve, equip, operate, and
maintain gymasia, stadia, or other recreational facilities for and
on behalf of its district. The facilities may be located inside or
outside of the district.

Sec. 45.032. REVENUE BONDS. To provide funds to acquire,
construct, improve, or equip gymasia, stadia, or other recreational
facilities, the board, city council or commission, or commissioners
court may issue revenue bonds payable from and secured by liens on
and pledges of all or any part of any of the revenues from any
rentals, rates, charges, or other revenues from any or all of the
facilities, in the manner provided by this subchapter. The bonds may
be additionally secured by mortgages and deeds of trust on any real
property on which any of the facilities are or will be located, or
any real or personal property incident or appurtenant to the
facilities, and the board, city council or commission, or commissioners court may authorize the execution and delivery of trust indentures, mortgages, deeds of trust, or other forms of encumbrances to evidence those liens. The bonds may be issued to mature serially or otherwise not to exceed 50 years from their date. In the authorization of any of those bonds, the board, city council or commission, or commissioners court may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other types of bonds, under the terms set forth in the resolution or order authorizing the issuance of the bonds, all within the discretion of the board, city council or commission, or commissioners court. The bonds may be made redeemable before maturity. The bonds may be sold in the manner, at the price, and under the terms provided by the board, city council or commission, or commissioners court in the resolution or order authorizing the issuance of the bonds. If permitted by the bond resolution or order, any required part of the proceeds from the sale of the bonds may be:

(1) used for paying interest on the bonds during the period of the construction of any facilities to be provided through the issuance of the bonds;
(2) used for paying the operation and maintenance expenses of facilities to the extent and for the period specified in the bond resolution;
(3) used for creating reserves for the payment of the principal of and interest on the bonds; or
(4) invested, until needed, to the extent and in the manner provided in the bond resolution or order.

Sec. 45.033. RENTALS, RATES, AND CHARGES. The board, city council or commission, or commissioners court may set and collect rentals, rates, and charges from students and others for the occupancy or use of any of the facilities, in the amounts and manner determined by the board, city council or commission, or commissioners court.

Sec. 45.034. PLEDGE OF REVENUES. The board, city council or commission, or commissioners court may pledge all or any part of any of its revenues from the facilities to the payment of any bonds issued under this subchapter, including the payment of principal, interest, and any other amounts required or permitted in connection with the bonds. If revenues from the facilities are pledged to the payment of bonds, the rentals, rates and charges for the occupancy or use of the facilities must be fixed and collected in amounts at least sufficient to provide for all payments of principal, interest, and any other amounts required in connection with the bonds, and, to the extent required by the resolution or order authorizing the issuance of the bonds, to provide for the payment of operation, maintenance, and other expenses.

Sec. 45.035. REFUNDING BONDS. Revenue bonds issued by a board, city council or commission, or commissioners court under this subchapter and revenue bonds issued by a board, city council or commission, or commissioners court under other law and payable from revenues from facilities described by Section 45.031 may be refunded or otherwise refinanced by the board, city council or commission, or commissioners court, and in that case all appropriate provisions of this subchapter apply to the refunding bonds. In refunding or otherwise refinancing any such bonds, the board, city council or commission, or commissioners court may, in the same authorizing proceedings, refund or refinance bonds issued pursuant to this code and bonds issued pursuant to any other law, may combine all refunding bonds and any other additional new bonds to be issued under this chapter into one or more issues or series of bonds, and may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other type of bonds. All refunding bonds must be issued and delivered under the terms set forth in the authorizing proceedings.

Sec. 45.036. EXAMINATION OF BONDS BY ATTORNEY GENERAL. All bonds issued pursuant to this subchapter, and the appropriate
proceedings authorizing their issuance, shall be submitted to the attorney general for examination.

**SUBCHAPTER C. GUARANTEED BONDS**

(1) "Board" means the State Board of Education.

(1-a) "Charter district" means an open-enrollment charter school designated as a charter district under Section 12.135.

(2) "Paying agent" means the financial institution that is designated by a school district or charter district as its agent for the payment of the principal of and interest on guaranteed bonds.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by:

Acts 2011, 82nd Leg., 1st C.S., Ch. 4 (S.B. 1), Sec. 59.02, eff. September 28, 2011.

Sec. 45.052. GUARANTEE. (a) On approval by the commissioner, bonds issued under Subchapter A by a school district or Chapter 53 for a charter district, including refunding and refinanced bonds, are guaranteed by the corpus and income of the permanent school fund.

(b) Notwithstanding any amendment of this subchapter or other law, the guarantee under this subchapter of school district or charter district bonds remains in effect until the date those bonds mature or are defeased in accordance with state law.

Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995. Amended by:

Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 68, eff. September 1, 2009.

Acts 2013, 83rd Leg., R.S., Ch. 280 (H.B. 885), Sec. 2, eff. September 1, 2013.

Sec. 45.053. LIMITATION; VALUE ESTIMATES. (a) Except as
provided by Subsection (d), the commissioner may not approve bonds for guarantee under this subchapter if the approval would result in the total amount of outstanding guaranteed bonds under this subchapter exceeding an amount equal to 2-1/2 times the cost value of the permanent school fund, as estimated by the board and certified by the state auditor.

(b) Each year, the state auditor shall analyze the status of guaranteed bonds under this subchapter as compared to the cost value of the permanent school fund. Based on that analysis, the state auditor shall certify whether the amount of bonds guaranteed under this subchapter is within the limit prescribed by this section.

(c) The commissioner shall prepare and the board shall adopt an annual report on the status of the guaranteed bond program under this subchapter.

(d) The board by rule may increase the limit prescribed by Subsection (a) to an amount not to exceed five times the cost value of the permanent school fund, provided that the increased limit is consistent with federal law and regulations and does not prevent the bonds to be guaranteed from receiving the highest available credit rating, as determined by the board. The board shall at least annually consider whether to change any limit in accordance with this subsection. This subsection may not be construed in a manner that impairs, limits, or removes the guarantee of bonds that have been approved by the commissioner.

Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 68A, eff. September 1, 2009.

Sec. 45.0531. ADDITIONAL LIMITATION: RESERVATION OF PERCENTAGE OF PERMANENT SCHOOL FUND VALUE. (a) In addition to the limitation on the approval of bonds for guarantee under Section 45.053, the board by rule may establish a percentage of the cost value of the permanent school fund to be reserved from use in guaranteeing bonds under this subchapter.
(b) If the board has reserved a portion of the permanent school fund under Subsection (a), each year, the state auditor shall analyze the status of the reserved portion compared to the cost value of the permanent school fund. Based on that analysis, the state auditor shall certify whether the portion of the permanent school fund reserved from use in guaranteeing bonds under this subchapter satisfies the reserve percentage established.

(c) If the board has reserved a portion of the permanent school fund under Subsection (a), the board shall at least annually consider whether to change the reserve percentage established to ensure that the reserve percentage allows compliance with federal law and regulations and serves to enable bonds guaranteed under this subchapter to receive the highest available credit rating, as determined by the board.

(d) This section may not be construed in a manner that impairs, limits, or removes the guarantee of bonds that have been approved by the commissioner.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 69, eff. September 1, 2009.

Sec. 45.0532. LIMITATION ON GUARANTEE OF CHARTER DISTRICT BONDS. (a) In addition to the general limitation under Section 45.053, the commissioner may not approve charter district bonds for guarantee under this subchapter in a total amount that exceeds the percentage of the total available capacity of the guaranteed bond program that is equal to the percentage of the number of students enrolled in open-enrollment charter schools in this state compared to the total number of students enrolled in all public schools in this state, as determined by the commissioner.

(a-1) The commissioner may not approve charter district refunding or refinanced bonds for guarantee under this subchapter in a total amount that exceeds one-half of the total amount available for the guarantee of charter district bonds under Subsection (a).

(b) For purposes of Subsection (a), the total available capacity of the guaranteed bond program is the limit established by the board under Sections 45.053(d) and 45.0531 minus the total amount of outstanding guaranteed bonds. Each time the board increases the limit under Section 45.053(d), the total amount of charter district
bonds that may be guaranteed increases accordingly under Subsection (a).

(c) Notwithstanding Subsections (a) and (b), the commissioner may not approve charter district bonds for guarantee under this subchapter if the guarantee will result in lower bond ratings for school district bonds for which a guarantee is requested under this subchapter.

(d) The commissioner may request that the comptroller place the portion of the permanent school fund committed to the guarantee of charter district bonds in a segregated account if the commissioner determines that a separate account is needed to avoid any negative impact on the bond ratings of school district bonds for which a guarantee is requested under this subchapter.

(e) A guarantee of charter district bonds must be made in accordance with this chapter and any applicable federal law.

(1) the status of the district's accreditation; and
(2) the total amount of outstanding guaranteed bonds.

(2) interest earned on balances in the fund.

(b) A charter district that has a bond guaranteed as provided by this subchapter must annually remit to the commissioner, for deposit in the charter district bond guarantee reserve fund, an amount equal to 10 percent of the savings to the charter district that is a result of the lower interest rate on the bond due to the
guarantee by the permanent school fund. The amount due under this section shall be amortized and paid over the duration of the bond. Each payment is due on the anniversary of the date the bond was issued. The commissioner shall adopt rules to determine the total and annual amounts due under this section.

(c) The commissioner may direct the comptroller to annually withhold the amount due to the charter district bond guarantee reserve fund under Subsection (b) for that year from the state funds otherwise payable to the charter district.

(d) Each year, the commissioner shall:

(a) If the commissioner orders payment from the permanent school fund or the charter district bond guarantee reserve fund on behalf of a school district or charter district, the commissioner shall direct the comptroller to withhold the amount paid, plus interest, from the first state money payable to the school district or charter district. Except as provided by Subsection (a-1), the amount withheld shall be deposited to the credit of the permanent school fund.

(a-1) After the permanent school fund has been reimbursed for all money paid from the fund as the result of a default of a charter district bond guaranteed under this subchapter, any remaining amounts withheld under Subsection (a) shall be deposited to the credit of the charter district bond guarantee reserve fund.

(b) In accordance with the rules of the board, the commissioner may authorize reimbursement to the permanent school fund or charter district bond guarantee reserve fund with interest in a manner other than that provided by this section.

(c) The commissioner may order a school district to set an ad

(2) pay the principal of and interest on district bonds as the principal and interest become due.

(d) If a school district fails to comply with the commissioner's order under Subsection (c), the commissioner may impose any sanction on the district authorized to be imposed on a district under Subchapter G, Chapter 39, including appointment of a board of managers or annexation to another district, regardless of the district's accreditation status or the duration of a particular accreditation status.

Sec. 45.063. RULES. The board may adopt rules necessary for the administration of the bond guarantee program.

SUBCHAPTER D. SALE OF SURPLUS REAL PROPERTY; REVENUE BONDS

Sec. 45.081. DEFINITIONS. In this subchapter:
(a) "District" means an independent school district.
(b) "Board" means the governing body of a district.
(c) "Real property" means any interest in land, buildings, or fixtures permanently attached to buildings or land.
(d) "Bonds" includes notes, contracts, and any other evidences of an obligation to pay a sum of money.

Sec. 45.082. SALE OF PROPERTY; REVENUE BONDS. (a) The board of a district may sell real property owned by the district and issue revenue bonds payable from the proceeds of the sale subject to this section.
(b) The board must determine by order that the real property is not required for the current needs of the district for educational purposes, and the proceeds from the sale are required and will be used for:
   (1) constructing or equipping school buildings in the district or purchasing necessary sites for school buildings; or
   (2) paying the principal of and interest and premium on any bonds issued pursuant to this subchapter.
(c) The board is not required to comply with this section if
the sale is:

(1) to a corporation established by the district under Chapter 303, Local Government Code; and

(2) subject to a lease-purchase agreement under which the district will acquire the real property.

(d) The real property may be sold for the price and on the terms determined by order of the board to be most advantageous to the district. The sale may be made pursuant to an installment sale agreement or contract or any other method. The sale must be for cash and all payments for the real property must be scheduled to be paid not more than 10 years after the date of execution of the agreement or contract of sale. Real property may not be sold for less than an aggregate price equal to its fair market value as determined by an appraisal obtained by the district not more than 180 days before the publication of the notice required by Subsection (e)(3). The appraisal is conclusive of the fair market value of the property for purposes of this subchapter.

(e) Before selling or executing any agreement or contract for the sale of the real property, the board shall:

(1) determine which real estate is proposed to be sold;

(2) determine the scope of the terms on which it will consider selling the real property, and, if the sale price is to be paid in installments, require the purchasers of the real property to secure the payment of the sale price by escrowing collateral acceptable to the board such as a letter of credit, United States government bonds, or any other generally recognized form of guarantee or security;

(3) publish a notice to prospective purchasers at least two weeks before the date set for receiving proposals in a real estate journal and in at least two newspapers of general circulation in the district, requesting sealed written proposals from prospective purchasers to purchase the real property and including the scope of the terms of sale that will be considered, and the time, date, and place where the proposals will be received; and

(4) determine by order of the board which sealed written proposal is most advantageous to the district, and accept that proposal, or reject all proposals if considered advisable.

(f) Except as provided by this subsection, the sale must have been previously approved by a majority of the qualified voters of the district voting at an election held in the district at which a
proposition to ascertain approval is submitted. An election is not required if the board determines by order that the proceeds from the sale of the real property are required and will be used for constructing or equipping or for paying the principal of, and interest and premium, if any, on bonds issued pursuant to this subchapter for the purpose of constructing or equipping a school building that is to be constructed pursuant to an order or judgment entered by a United States District Judge in any action or cause in which the district is a party.

Sec. 45.083. OTHER LAWS NOT APPLICABLE. Section 272.001, Local Government Code, Chapter 26, Parks and Wildlife Code, and all other general laws pertaining to the sale of public property do not apply to sales of real property pursuant to this subchapter.

Sec. 45.084. CONTRACTS. The district may execute contracts for constructing or equipping school buildings in the district or for purchasing any necessary sites for school buildings in the manner provided by law. If any contract recites that payments under the contract are to be made either from the proceeds from the sale of real property under an installment sale agreement or any similar method pursuant to this subchapter or from proceeds from the sale of bonds issued pursuant to this subchapter, then the contract may be made payable in installments to correspond with the receipt by the district either of proceeds under the sale agreement or proceeds from the sale of any bonds to be issued and delivered in more than one issue, series, or installment, and the contract is not a prohibited debt or indebtedness of the district if the payments under the contract are required to be made solely from the proceeds from the sale of real property or the bonds.

Sec. 45.085. BOND REQUIREMENTS. (a) In addition to the powers granted by this subchapter, any board, for and on behalf of its district, may issue, sell, and deliver revenue bonds of its district from time to time and in one or more issues, series, or installments, with the principal of and interest and premium, if any, on the bonds to be payable from and secured by liens on and pledges of all or any part of any of the revenue, income, payments, or receipts derived by the district from the sale of real property pursuant to this subchapter, and those amounts may be pledged by the district to the payment of the principal of and interest and premium, if any, on such bonds, subject to this section.

(b) Bonds must be issued by an order of the board.

(c) The bonds must be issued for the purpose of constructing or equipping school buildings in the district or purchasing necessary sites for school buildings.

(d) The bonds shall mature, come due, or be payable serially, in installments, or otherwise, within not to exceed 90 days after the last date on which the final payment is due to the district from the sale of the real property. The bond order may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, under any terms set forth in the bond order.

(e) The bonds may be executed, made redeemable before maturity or due date, and be issued in the form, denominations, and manner and under the terms provided in the bond order. The bonds may be sold in the manner, at the price, and under the terms and may bear interest at the rates provided in the bond order.

(f) If so provided in any bond order, the proceeds from the sale of the bonds may be used for paying interest on the bonds during the period of constructing or equipping any school buildings to be provided through the issuance of the bonds or for creating a reserve fund for the payment of principal and interest on the bonds. The proceeds may be placed on time deposit, in certificates of deposit, or invested, until needed, to the extent and in the manner provided in any bond order. The proceeds also may be used for paying the costs and expenses of issuing the bonds and selling the real property.

(g) The bonds may be payable only from the revenues described by Subsection (a) and may not be payable or paid from any taxes levied and collected in the district.

(h) Chapter 1201, Chapter 1204, and Subchapters A-C, Chapter...
1207, Government Code, apply to bonds issued pursuant to this subchapter.

(i) If bonds are issued pursuant to this subchapter, the bonds, along with the appropriate proceedings authorizing their issuance, and the sale agreement the proceeds from which they are payable shall be submitted to the attorney general for examination. If after the initial issuance of any bonds under this subchapter payable from the proceeds of a particular sale agreement, one or more subsequent issues, series, or installments of bonds are issued as additional parity bonds, on a parity with the initial bonds and payable from the proceeds of that sale agreement, then, at the option of the board, the subsequent issues, series, or installments of bonds need not be submitted to the attorney general or approved by the attorney general or registered by the comptroller, and the subsequent bonds are, on delivery of and payment for the bonds, valid and incontestable in the same manner and with the same effect as if they had been approved by the attorney general and registered by the comptroller as were the initial bonds.

Sec. 45.086. LIBERAL CONSTRUCTION. This subchapter shall be construed liberally to accomplish the legislative intent and the purposes of the subchapter, and all powers granted by this subchapter shall be broadly interpreted to accomplish that intent and those purposes and not as a limitation of powers.

Sec. 45.087. OTHER POWERS UNRESTRICTED. This subchapter does not restrict the power of a school district to sell property or issue bonds as provided by other law.

Sec. 45.101. USE OF BOND PROCEEDS FOR UTILITY CONNECTIONS. The proceeds of bonds issued by school districts for the construction and equipment of school buildings in the district and the purchase of the necessary sites for school buildings may be used, among other things, to pay the cost of acquiring, laying, and installing pipes or lines to connect with the water, sewer, or gas lines of a municipality or private utility company, whether or not the water, sewer, or gas lines adjoin the school, so that the school district may provide its public school buildings the water, sewer, or gas services.

Sec. 45.102. INVESTMENT OF BOND PROCEEDS IN OBLIGATIONS OF UNITED STATES OR INTEREST-BEARING SECURED TIME BANK DEPOSITS. (a) A school district that has on hand proceeds received from the issuance and sale of bonds or certificates of indebtedness of the district that are not immediately needed for the purposes for which the bonds or certificates of indebtedness were issued and sold, may, on order of the board of trustees:

(1) place the proceeds on interest-bearing time deposit, secured in the manner provided by Section 45.208, with a state or national banking corporation in this state the deposits of which are insured by the Federal Deposit Insurance Corporation; or

(2) invest the proceeds in bonds or other obligations of the United States.

(b) Interest-bearing secured time deposits or bonds or other obligations of the United States in which proceeds of bonds or certificates of indebtedness are placed or invested must be of a type that cannot be cashed, sold, or redeemed for an amount less than the sum deposited or invested by the school district.

(c) When the sums placed or invested by a school district are needed for the purposes for which the bonds or certificates of indebtedness of the school district were originally authorized, issued, and sold:

(1) the time deposits or bonds or other obligations of the United States in which the sums have been placed or invested shall be cashed, sold, or redeemed; and

(2) the proceeds shall be used for the purposes for which the bonds or certificates of indebtedness of the school district were
originally authorized, issued, and sold.

Sec. 45.103. INTEREST-BEARING TIME WARRANTS. (a) Any school district in need of funds to construct, repair, or renovate school buildings, purchase school buildings and school equipment, or equip school properties with necessary heating, water, sanitation, lunchroom, or electric facilities or in need of funds with which to employ a person who has special skill and experience to compile taxation data and that is financially unable out of available funds to construct, repair, renovate, or purchase school buildings, purchase school equipment, or equip school properties with necessary heating, water, sanitation, lunchroom, or electric facilities or is unable to pay the person for compiling taxation data, may, subject to this section, issue interest-bearing time warrants, in amounts sufficient to construct, purchase, equip, or improve school buildings and facilities or to pay all or part of the compensation of the person to compile taxation data, any law to the contrary notwithstanding. The warrants shall mature in serial installments of not more than 15 years from their date of issue. The warrants on maturity may be payable out of any available funds of the school district in the order of their maturity dates. Any interest-bearing time warrants may be issued and sold by the district for not less than their face value, and the proceeds used to provide funds required for the purpose for which they are issued. The warrants shall be entitled to first payment out of any available funds of the district as they become due. Included in the purposes for which interest-bearing time warrants may be issued is the payment of any amounts owed by the school district that was incurred in carrying out any of those purposes.

(a-1) A school district may also issue interest-bearing time warrants to refund warrants previously issued under this section if the refunding warrants are coterminous with the refunded obligations.

(b) Interest-bearing time warrants may not be issued or sold by a common school district or rural high school district until they are approved by the county board of school trustees. The board shall, on application of the school district, inquire into the financial conditions and needs of the district, and may not approve the
issuance of interest-bearing time warrants unless in its opinion the district:

(1) is in need of constructing, purchasing, repairing, or renovating a school building, obtaining the school equipment, or equipping school properties with necessary heating, water, sanitation, lunchroom, or electric facilities; and

(2) will be able with the resources in prospect to liquidate the warrants at their maturity.

(c) A school district may not issue interest-bearing time warrants in excess of five percent of the assessed valuation of the district for the year in which the warrants are issued. The payment of interest-bearing time warrants in any one year may not exceed the anticipated surplus income of the district for the year in which the warrants are issued, based on the budget of the district for that year. The anticipated income computed under this section is exclusive of all bond taxes. A school district may not have outstanding at any one time warrants totaling in excess of $1 million under this section.

(d) If interest-bearing time warrants issued under this section are outstanding, the officer in charge of the collection of delinquent taxes shall pay those collections to the legal depository of the district, to be deposited and held in a special fund for the payment of the interest-bearing time warrants, and except as otherwise provided by this section, collections of delinquent taxes may not be applied or used for any other purpose.

(e) Interest and penalties on delinquent taxes are considered a part of those taxes for purposes of this section. If any delinquent taxes, including interest and penalties, are canceled, waived, released, or reduced either by the school district or in any other way, with or without its consent, the amount of the loss sustained shall be paid by the district to the special fund provided for by Subsection (d) out of funds not otherwise pledged to that special fund.

(f) All school districts issuing interest-bearing time warrants may encumber and mortgage any property purchased with the proceeds of the warrants or any property, including teachers' residences, owned by the district to secure the payment of legally incurred obligations, except that a lien may not be placed on any school building in which actual classroom instruction of students is conducted.
(g) In this section, "interest-bearing time warrant" includes a promissory note or other evidence of indebtedness issued under this section.

(h) Taxes levied to pay principal and interest of bonds that are delinquent are not included in the term "delinquent taxes" as used in this section.

Amended by:
Acts 2013, 83rd Leg., R.S., Ch. 1018 (H.B. 2610), Sec. 1, eff. September 1, 2013.

Sec. 45.104. PLEDGE OF DELINQUENT TAXES AS SECURITY FOR LOAN.
(a) The board of trustees of any school district may pledge its delinquent taxes levied for maintenance purposes for specific past, current, and future school years as security for a loan, and may evidence any such loan with negotiable notes, and the delinquent taxes pledged shall be applied against the principal and interest of the loan. Negotiable notes issued under this subsection must mature not more than 20 years from their date.

(b) A school district may not pledge delinquent taxes levied for school bonds as security for a loan.

(c) Funds secured through loans secured by delinquent taxes may be employed for any legal maintenance expenditure or purpose of the school district, including all costs incurred in connection with:

(1) environmental cleanup and asbestos removal programs implemented by school districts; or

(2) maintenance, repair, rehabilitation, or replacement of heating, air conditioning, water, sanitation, roofing, flooring, electric, or other building systems of existing school properties.

(d) A loan secured by delinquent taxes may bear interest at a rate not to exceed the maximum rate provided by Section 1204.006, Government Code.

Sec. 45.105. AUTHORIZED EXPENDITURES. (a) The public school funds may not be spent except as provided by this section.

(b) The state and county available funds may be used only for the payment of teachers' and superintendents' salaries and interest on money borrowed on short time to pay those salaries that become due before the school funds for the current year become available. Loans for the purpose of payment of teachers may not be paid out of funds other than those for the current year.

(c) Local school funds from district taxes, tuition fees of students not entitled to a free education, other local sources, and state funds not designated for a specific purpose may be used for the purposes listed for state and county available funds and for purchasing appliances and supplies, paying insurance premiums, paying janitors and other employees, buying school sites, building, repairing, and renting school buildings, including acquiring school buildings and sites by leasing through annual payments with an ultimate option to purchase, and for other purposes necessary in the conduct of the public schools determined by the board of trustees. The accounts and vouchers for county districts must be approved by the county superintendent. If the state available school fund in any municipality or district is sufficient to maintain the schools in any year for at least eight months and leave a surplus, the surplus may be spent for the purposes listed in this subsection.

(d) An independent school district that has in its limits a municipality with a population of 150,000 or more or that contains at least 170 square miles, has $850 million or more assessed value of taxable property on the most recent approved tax roll and has a growth in average daily attendance of 11 percent or more for each of the preceding five years as determined by the agency may, in buying school sites or additions to school sites and in building school buildings, issue and deliver negotiable or nonnegotiable notes representing all or part of the cost to the school district of the land or building. The district may secure the notes by a vendor's lien or deed of trust lien against the land or building. By resolution or order of the governing body made at or before the delivery of the notes, the district may set aside and appropriate as a trust fund, and the sole and only fund, for the payment of the principal of and interest on the notes that part of the local school
funds, levied and collected by the school district in that year or subsequent years, as the governing body determines. The aggregate amount of local school funds set aside in or for any subsequent year for the retirement of the notes may not exceed, in any one subsequent year, 10 percent of the local school funds collected during that year. The district may issue the notes only if approved by majority vote of the qualified voters voting in an election conducted in the manner provided by Section 45.003 for approval of bonds.

(e) The governing body of an independent school district that governs a junior college district under Subchapter B, Chapter 130, in a county with a population of more than two million may dedicate a specific percentage of the local tax levy to the use of the junior college district for facilities and equipment or for the maintenance and operating expenses of the junior college district. To be effective, the dedication must be made by the governing body on or before the date on which the governing body adopts its tax rate for a year. The amount of local tax funds derived from the percentage of the local tax levy dedicated to a junior college district from a tax levy may not exceed the amount that would be levied by five percent of the effective tax rate for the tax year calculated as provided by Section 26.04, Tax Code, on all property taxable by the school district. All real property purchased with these funds is the property of the school district, but is subject to the exclusive control of the governing body of the junior college district for as long as the junior college district uses the property for educational purposes.

(f) Funds from a junior college district branch campus maintenance tax levied by a school district board of trustees under Section 130.087 may be used as provided by that section.

Sec. 45.106. USE OF COUNTY AVAILABLE FUND APPORTIONMENT FOR AREA SCHOOLS CAREER AND TECHNOLOGY EDUCATION. (a) A school district
or accumulation of districts that operates a school designated as an area school for career and technology education purposes or that participates in a designated area career and technology education program shall use its annual county available school fund apportionment, if any, in the operation of the area school or program or in financing facilities for the school, notwithstanding any laws to the contrary.

(b) A school district complying with Subsection (a) may not be held accountable for or charged with county available school funds in determining the district's eligibility for minimum foundation school program funds.

Sec. 45.107. INVESTMENT OF GIFTS, DEVISES, AND BEQUESTS. A gift, devise, or bequest made to a school district to provide college scholarships for graduates of the district may be invested by the board of trustees of the district as provided by Section 117.004, Property Code, unless otherwise specifically provided by the terms of the gift, devise, or bequest.

Sec. 45.108. BORROWING MONEY FOR CURRENT MAINTENANCE EXPENSES. (a) Independent or consolidated school districts may borrow money for the purpose of paying maintenance expenses and may evidence those loans with negotiable or nonnegotiable notes, except that the loans may not at any time exceed 75 percent of the previous year's income. The notes may be payable from and secured by a lien on and pledge of any available funds of the district, including proceeds of a maintenance tax. The term "maintenance expenses" or "maintenance expenditures" as used in this section means any lawful expenditure of the school district other than payment of principal of and interest on bonds. The term includes expenditures relating to notes issued to refund notes previously issued under this section if the refunding notes are coterminous with the refunded obligation. The term also includes all costs incurred in connection with environmental cleanup and asbestos cleanup and removal programs implemented by school
districts or in connection with the maintenance, repair, rehabilitation, or replacement of heating, air conditioning, water, sanitation, roofing, flooring, electric, or other building systems of existing school properties. Notes issued pursuant to this section may be issued to mature in not more than 20 years from their date. Notes issued for a term longer than one year must be treated as "debt" as defined in Section 26.012(7), Tax Code.

(b) Notes may be issued under this section only after a budget has been adopted for the current school year.

(c) Notes issued under this section must be authorized by resolution adopted by a majority vote of the board of trustees, signed by the president or vice president and attested by the secretary of the board.

(d) A note issued under this section may contain a certification that it is issued pursuant to and in compliance with this section and pursuant to a resolution adopted by the board of trustees. The certification is sufficient evidence that the note is a valid obligation of the district.

Sec. 45.109. CONTRACTS FOR ATHLETIC FACILITIES. (a) Any independent school district, acting by and through its board of trustees, may contract with any corporation, municipality, or institution of higher education, as defined by Section 61.003, located wholly or partially in its boundaries, for the use of any stadium and other athletic facilities owned by or under the control of the other entity. The contract may be for any period not exceeding 75 years and may contain terms agreed on by the parties.

(a-1) An independent school district and an institution of higher education, as defined by Section 61.003, located wholly or partially in the boundaries of the county in which the district is located may contract for the district to contribute district resources to pay a portion of the costs of the design or construction
of an instructional facility or a stadium or other athletic facilities owned by or under the control of the institution of higher education. A district may contribute district resources under this subsection only if the district and the institution of higher education enter into a written agreement authorizing the district to use that facility.

(a-2) One or more independent school districts and an institution of higher education, as defined by Section 61.003, may contract for the district to contribute district resources to pay a portion of the costs of the design, improvement, or construction of an instructional facility owned by or under the control of the institution of higher education. A district may contribute district resources under this subsection only if the district and the institution of higher education enter into a written agreement authorizing the district to use that facility, including authorizing the enrollment of district students in courses offered at that facility.

(b) The district may enter into a contract for the use of athletic facilities for any purpose related to sports activities and other physical education programs for the students at the public schools of the district.

(c) The consideration for a contract under this section may be paid from any source available to the independent school district. If voted as provided by this section, the district may pledge to the payment of the contract an annual maintenance tax in an amount sufficient, without limitation, to provide all of the consideration. If voted and pledged, the maintenance tax shall be assessed, levied, and collected annually in the same manner as provided by general law applicable to independent school districts for other maintenance taxes.

(d) A maintenance tax may not be pledged to the payment of any contract under this section or assessed, levied, or collected unless an election is held in the district and the maintenance tax is favorably voted by a majority of the qualified voters of the district voting at the election. The election order for an election under this subsection must include the polling place or places and any other matters considered advisable by the board of trustees.

Sec. 45.110. AUTHORIZED BUT UNISSUED BONDS. (a) This section applies to any independent school district that has previously voted or authorized school bonds for a specific purpose or purposes and the purpose or purposes have been accomplished by other means or have been abandoned and all or a portion of the bonds authorized remain unissued.

(b) The board of trustees of the district may, on its own motion, order an election to submit to the qualified voters of the district the proposition of whether or not the authorized but unissued bonds may be issued, sold, and delivered for other and different purposes specified in the election order and the election notice. The election shall be ordered, held, and conducted in the same form and manner as that at which the bonds were originally authorized.

(c) If a majority of those voting at the election vote in favor of the sale and delivery of the unissued bonds and the use of the proceeds of the bonds for the purpose or purposes specified in the election order and the election notice, the board of trustees may issue, sell, and deliver the bonds and use the proceeds of the bonds for the purpose or purposes authorized at the election.

Sec. 45.111. CERTIFICATES OF INDEBTEDNESS; ISSUANCE BY CERTAIN SCHOOL AND JUNIOR COLLEGE DISTRICTS. (a) Any school district, including a junior college district, situated in a county with a population of 200,000 or more may issue interest-bearing certificates of indebtedness to provide funds for erecting or equipping school buildings in the boundaries of the district or refinancing outstanding certificates as provided by this section. The term "certificates," as used in this section, includes all obligations authorized to be issued under this section and the interest on those obligations.

(b) The governing body of the district shall provide for the payment of the certificates issued under this section by
appropriating and pledging local school funds derived from maintenance taxes levied and assessed under Sections 45.002 and 130.122; Chapter 273, Acts of the 53rd Legislature, Regular Session, 1953 (Article 2784g, Vernon's Texas Civil Statutes); or other similar law that limits the amount of tax that may be levied for maintenance purposes, as distinguished from bond requirements. The appropriation and pledge may be in the nature of a continuing irrevocable pledge to apply the first moneys collected annually from the tax levy to the payment of the obligations or by the irrevocable present levy and appropriation of the amount of the maintenance tax required to meet the annual debt service requirements of the obligations, in which event the governing body shall covenant to annually set aside the amount in the annual tax levy, showing the same is a portion of the maintenance tax. The governing body shall annually budget the amount required to pay the principal and interest of the obligations that may be scheduled to become due in any fiscal year. This section may not be construed as permitting the levy of a maintenance tax in excess of the amount approved by the qualified voters of the district.

(c) A district may not at any one time have certificates outstanding and unpaid in principal amount in excess of $250,000, unless the excessive amount becomes the obligation of the district by assumption under Subsection (k) or the new certificates are being issued to refund or refinance outstanding obligations under Subsection (i).

(d) The principal amount of certificates that may be authorized at any one time and the scheduling of their principal maturity are further restricted as follows:

(1) if the assessed valuation is more than $1 million and less than $15 million, the limiting factor is 25 cents;
(2) if the assessed valuation is $15 million or more but less than $35 million, the limiting factor is 15 cents; and
(3) if the assessed valuation is $35 million or more, the limiting factor is 5 cents.

(e) Assessed valuation means the valuation for school district purposes on the tax rolls of the district most recently approved before the authorization of the certificates. The limiting factor for a particular district, as prescribed by Subsection (d), is multiplied by the assessed valuation of the district, and the product is the maximum amount of debt service requirements on the
certificates that may be scheduled to become due in any fiscal year on a cumulative basis. A district that has an assessed valuation less than $1 million may not issue certificates under this section.

(f) Certificates authorized to be issued under this section shall be payable at the times and be in such form and denomination or denominations either in coupon form or registered as to principal, interest, or both. The certificates may contain options for redemption before the scheduled maturity and may be payable at the place and may contain other provisions as the governing body of the district determines. A certificate may not mature over a period in excess of 25 years from the date of the certificate or bear interest at a rate in excess of seven percent per annum.

(g) Except if issued in exchange for certificates outstanding as provided by Subsection (i), the certificates shall be sold for cash at not less than the face or par value plus accrued interest. The proceeds shall be applied for the purpose for which the certificates were issued, except that all accrued interest and premium received, if any, shall be deposited in the interest and sinking fund established for the payment of the obligations. The cost of issuing the obligations, including attorneys’, printing, and fiscal fees, may be paid from the proceeds, except if certificates are sold under Subsection (i).

(h) The certificates, including interest whether issued in coupon or registered form, are securities within the meaning of Chapter 8, Business & Commerce Code, and that chapter applies to the certificates after their approval by the attorney general and registration by the comptroller.

(i) Each governing body may refund or refinance outstanding certificates by issuing new interest-bearing certificates within the limitations and conditions provided in this section. The new certificates shall be issued and delivered in lieu of and on surrender to the comptroller and the cancellation of the obligations being refunded, and the comptroller shall register the new certificates and deliver them in accordance with the order authorizing their issuance. The new certificates may be issued in accordance with Subchapter A, Chapter 1207, Government Code, and delivered in accordance with Subchapter B or C of that chapter.

(j) A certified copy of all proceedings relating to the authorization of the certificates shall be submitted to the attorney general.
(k) Certificates issued under this section are an indebtedness of the school district issuing them, but the holder of a certificate does not have the right to demand payment out of any fund other than those pledged to its payment. If the boundary lines of any issuing district are changed while the certificates remain outstanding, the indebtedness shall be adjusted or assumed as provided under general law for the adjustment of bond indebtedness payable from taxation.

(l) For purposes of this section, the governing body of a common school district is the commissioners court of the county having administrative jurisdiction. The governing body of an independent school district, a rural high school district, or a junior college district is its board of trustees, and the governing body of a municipally controlled school district is the city or town council or commission. Certificates shall be authorized by order of the governing body of the district.

Sec. 45.112. CONTRACTS FOR INVESTMENT OF DEBT SERVICE FUNDS.

(a) A school district, including a junior college district or community college district, may enter into a contract with a term not to exceed seven years to purchase investments with the proceeds of taxes levied or to be levied by the district for the purpose of paying debt service on bonds issued by the district.

(b) A contract under this section may provide for the purchase of investments at a stated yield or yields.

(c) Before entering a contract under this section, a school district must solicit and receive bids from at least three separate providers. The district must accept the qualifying bid that provides for the highest yield investments over the term of the contract.

(d) A contract under this section may provide only for the purchase of an obligation described by Section 2256.009(a)(1), Government Code, other than an obligation described by Section 2256.009(b) of that code.

Added by Acts 1999, 76th Leg., ch. 1535, Sec. 1, eff. June 19, 1999.
Sec. 45.113. TRUST FOR COUNTY PERMANENT SCHOOL FUND. (a) Notwithstanding former Subchapter E, Chapter 17, as that subchapter existed on May 1, 1995, the commissioners court of a county may:

(1) sell or otherwise dispose of county school lands in the manner determined by the court;

(2) establish an irrevocable trust for the proceeds of a sale or other disposition under Subdivision (1); and

(3) invest the principal of a trust created under Subdivision (2) in any investment permitted for other county funds under Chapter 2256, Government Code.

(b) The members of the commissioners court and their successors in office must be the sole trustees of a trust established under Subsection (a)(2). The trustees may not delegate the authority to manage or invest the trust but may contract with qualified persons for investment advice.

(c) The principal of a trust established under Subsection (a)(2) constitutes a portion of the county permanent school fund and must be held in perpetuity for the benefit of the public schools in the county. The income of a trust established under Subsection (a)(2) constitutes a portion of the county available school fund and may be distributed as permitted by law.

(b) An authority is a body politic and corporate. It must have a seal, may sue and be sued, and may make, amend, and repeal its bylaws.

Sec. 45.153. BOARD OF DIRECTORS. (a) An authority is governed by a board of directors consisting of seven members. The members of the board serve terms ending May 1. If voted and pledged, the maintenance tax shall be assessed, levied, and collected annually in the same manner as provided by general law applicable to independent school districts for other maintenance taxes. A maintenance tax may not be pledged to the payment of any contract or assessed, levied, or collected unless an election is held in the district, and the maintenance tax for that purpose is favorably voted by a majority of the qualified voters of the district. The election order for an election under this subsection must include the polling place or places and any other matters considered advisable by the board of trustees.

PROPOSAL FORMS. (a) Not later than the 60th day before the date a 
school district's current depository contract expires, the district

competitive bidding, the district shall, not later than the 30th day before the date the current depository contract expires, mail to each bank located in the district and, if desired, to other banks, a notice stating the time and place in which bid applications will be received for selecting a depository or depositories. The notice must include a uniform bid blank in the form prescribed by State Board of Education rule.

(c) Interest rates may be stated in the bid or proposal either as a fixed rate, as a percentage of a stated base rate, in relation to a stated prevailing rate varying from time to time, or in any other manner, but in every case in a uniform manner, that will permit comparison with other bids or proposals received.

(d) If the school district chooses under Subsection (a) to use requests for proposals, the district shall state the selection criteria, including the factors specified under Section 45.207(c), in the request for proposals and shall select the proposal that offers the best value to the district based on the evaluation and ranking of each submitted proposal in relation to the stated selection criteria. Sec. 45.207. AWARD OF CONTRACT. (a) A school district shall
award the depository contract to the bank that submits the highest bid or the highest-ranked proposal, as determined under Subsection (c), except that the district may award the contract as provided by Subsection (a-1) if:

(1) the district:

   (B) after evaluating the proposals for the contract, ranks two or more proposals equally;

(2) each bank submitting a tying bid or proposal has bid or proposed to pay the district the maximum interest rates allowed by law by the Board of Governors of the Federal Reserve System and the Board of Directors of the Federal Deposit Insurance Corporation; and

(3) the tying bids or proposals are otherwise equal in the judgment and discretion of the board of trustees of the district.

(a-1) In the case of tying bids or proposals, the board of trustees may award the depository contract by:

(1) determining by lot which of the banks submitting the tying bids or proposals will receive the contract; or

(2) awarding a contract to each of the banks submitting the tying bids or proposals.

(b) The board of trustees may, during the period of the contract, determine the amount of funds to be deposited in each depository bank and determine the account services offered in the bid or proposal form that are to be provided by each bank in its capacity as school district depository. All funds received by the district from or through the agency shall be deposited, at the district's option, in one depository bank or invested in a public funds investment pool created under Chapter 791, Government Code, to be designated by the district.

(c) The board of trustees of the school district shall at a regular or special meeting consider in accordance with this subsection each bid or proposal received. In determining the highest and best bid or the highest-ranked proposal, or in case of tying bids or proposals the highest and best tying bids or proposals, the board of trustees shall consider:

(d) The board of trustees of the school district has the right to reject any and all bids or proposals.

Sec. 45.208. DEPOSITORY CONTRACT; BOND. (a) The bank or banks selected as the depository or depositories and the school district shall enter into a depository contract or contracts, bond or bonds, or other necessary instruments setting forth the duties and agreements pertaining to the depository, in a form and with the content prescribed by the State Board of Education. The parties shall attach to the contract and incorporate by reference the bid or proposal of the depository.

(b) The depository bank shall attach to the contract and file with the school district a bond in an initial amount equal to the estimated highest daily balance, determined by the board of trustees of the district, of all deposits that the school district will have in the depository during the term of the contract, less any applicable Federal Deposit Insurance Corporation insurance. The bond must be payable to the school district and must be signed by the depository bank and by some surety company authorized to do business in this state. The depository bank shall increase the amount of the bond if the board of trustees determines it to be necessary to adequately protect the funds of the school district deposited with the depository bank.

(2) the payment on presentation of all checks or drafts on order of the board of trustees of the school district, in accordance with its orders entered by the board of trustees according to law;

(4) the payment, after the expiration of the period of notice required, of any time deposit in the depository;
(5) the faithful keeping of school funds by the depository and the accounting for the funds according to law; and
(6) the faithful paying over to the successor depository all balances remaining in the accounts.

(d) The bond and the surety on the bond must be approved by the board of trustees of the school district. A premium on the depository bond may not be paid out of school district funds.

(e) A copy of the depository contract and bond shall be filed with the agency.

(f) In lieu of the bond required under Subsection (b), the depository bank may deposit or pledge, with the school district or with a trustee designated by the school district, approved securities in an amount sufficient to adequately protect the funds of the school district deposited with depository bank. A depository bank may give a bond and deposit or pledge approved securities in an aggregate amount sufficient to adequately protect the funds of the school district deposited with the depository bank. The school district shall designate from time to time the amount of approved securities or the aggregate amount of the bond and approved securities to adequately protect the district. The district may not designate an amount less than the balance of school district funds on deposit with the depository bank from day to day, less any applicable Federal Deposit Insurance Corporation insurance. The depository bank may substitute approved securities on obtaining the approval of the school district. For purposes of this subsection, the approved securities are valued at their market value.

Sec. 45.209. INVESTMENT OF DISTRICT FUNDS. The school district may provide in its bid or proposal blank for the right to place on time deposits with savings and loan institutions located in this state only funds that are fully insured by the Federal Deposit Insurance Corporation. A district may not place on deposit with any
savings and loan institution any bond or certificate of indebtedness proceeds as provided by Section 45.102. A depository bank may not be compelled without its consent to accept on time deposit any bond proceeds under Section 45.102, but a depository bank may offer a bid or proposal of interest equaling the highest bid or proposal of interest for the time deposit of the bond proceeds tendered by another bank. If the depository bank equals the bid or proposal, it is entitled to receive the bond proceeds on time deposit.

SUBCHAPTER H. ASSESSMENT AND COLLECTION OF TAXES

Sec. 45.231. EMPLOYMENT OF ASSESSOR AND COLLECTOR. (a) The board of trustees of an independent school district may employ a person to assess or collect the school district's taxes and may compensate the person as the board of trustees considers appropriate.

(b) This section does not prohibit an independent school district from providing for the assessment or collection of the school district's taxes under a method authorized by Subchapter B, Chapter 6, Tax Code.

Sec. 45.232. ALTERNATE METHODS OF SELECTION UNDER FORMER LAW. An independent school district that used a method of selecting the assessor or collector of the school district's taxes for the 1994 tax year that was authorized by former Subchapter F, Chapter 23, as that subchapter existed on January 1, 1994, but that is not authorized by Section 45.231 or by Subchapter B, Chapter 6, Tax Code, may continue to use that method of selection until the school district uses another method authorized by Section 45.231 or by Subchapter B, Chapter 6, Tax Code, to determine how the assessment or collection is performed.

SUBCHAPTER I. INTERCEPT PROGRAM TO PROVIDE CREDIT ENHANCEMENT FOR BONDS

Sec. 45.251. DEFINITIONS. In this subchapter:

(1) "Board" means the State Board of Education.

(2) "Foundation School Program" means the program established under Chapters 41, 42, and 46, or any successor program of state appropriated funding for school districts in this state.

(3) "Paying agent" means the financial institution that is designated by a school district as the district's agent for the payment of the principal of and interest on bonds for which credit enhancement is provided under this subchapter.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.252. INTERCEPT CREDIT ENHANCEMENT PROGRAM. (a) If a school district's application for guarantee of district bonds by the corpus and income of the permanent school fund as provided by Subchapter C is rejected, the district may apply under this subchapter for credit enhancement of bonds described by Section 45.054 by money appropriated for the Foundation School Program, other than money that is appropriated to school districts specifically:

(1) as required under the Texas Constitution; or
(2) for assistance in paying debt service.

(b) The same school district bonds may not benefit under both Subchapter C and this subchapter.

(c) Notwithstanding any amendment of this subchapter or other law, the credit enhancement provided under this subchapter for school district bonds remains in effect until the date those bonds mature or are defeased in accordance with state law.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.253. LIMITATION ON INTERCEPT CREDIT ENHANCEMENT. (a) In each month of each fiscal year, the commissioner shall determine the amount of funds available to make payments under this subchapter from the Foundation School Program through the end of the fiscal year and the amounts due under this code to public schools from the
Foundation School Program through the end of the fiscal year. The commissioner may revise a determination under this subsection during the fiscal year as appropriate.

(b) The commissioner may not endorse particular bonds for credit enhancement under this subchapter until the commissioner has:

(1) made the determinations required under Subsection (a); and

(2) determined that the endorsement will not cause the projected debt service coming due during the remainder of the fiscal year for bonds provided credit enhancement under this subchapter to exceed the lesser of:

(A) one-half of the amount of funds due to public schools from the Foundation School Program for the remainder of the fiscal year; or

(B) one-half of the amount of funds anticipated to be on hand in the Foundation School Program to make payments for the remainder of the fiscal year.

(c) The commissioner may not endorse particular bonds for credit enhancement under this subchapter unless the commissioner has determined that the maximum annual debt service on the bonds during any state fiscal year will not exceed the lesser of:

(1) one-half of the amount of funds due to public schools from the Foundation School Program for the current fiscal year; or

(2) one-half of the amount of funds anticipated to be on hand in the Foundation School Program to make payments for the current fiscal year.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.254. ELIGIBILITY. To be eligible for approval by the commissioner for credit enhancement under this subchapter:

(1) bonds must be issued in the manner provided by Section 45.054; and

(2) payments of all of the principal of the bonds must be scheduled during the first six months of the state fiscal year.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.
Sec. 45.2541.  INTERCEPT OF FOUNDATION SCHOOL PROGRAM APPROPRIATIONS AS CREDIT ENHANCEMENT.  (a) Money appropriated for the Foundation School Program that may be used for the purpose under this subchapter and under any other law, rule, or regulation shall be used to provide credit enhancement for eligible bonds as provided by this subchapter, the General Appropriations Act, and board rule if using the permanent school fund to guarantee particular bonds would result in:

(1)  a total amount of outstanding bonds guaranteed by the permanent school fund exceeding the amount authorized under:
   (A)  Section 45.053; or
   (B)  federal law or regulations; or
(2)  the use of a portion of the cost value of the permanent school fund reserved under Section 45.0531, as determined by the board.

(b)  If Foundation School Program appropriations are not sufficient in any year to pay principal or interest that becomes due on bonds for which credit enhancement is provided under this subchapter, the payment shall be made from the following year's Foundation School Program appropriations that may be used for the purpose under this subchapter before those appropriations are used for any other Foundation School Program purpose.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.255.  APPLICATION FOR CREDIT ENHANCEMENT.  (a) A school district seeking credit enhancement of eligible bonds under this subchapter shall apply to the commissioner using a form adopted by the commissioner for the purpose. The commissioner may adopt a single form on which a district seeking guarantee or credit enhancement of eligible bonds may apply simultaneously first for a guarantee under Subchapter C and then, if that guarantee is rejected, for credit enhancement under this subchapter.

(b)  An application under Subsection (a) must:
(1)  include the information required by Section 45.055(b); and
(2)  be accompanied by a fee set by board rule in an amount designed to cover the costs of administering the programs to provide
the guarantee or credit enhancement of eligible bonds.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.256. INVESTIGATION. (a) Following receipt of an application under Section 45.255, the commissioner shall conduct an investigation of the applicant school district as provided for an investigation under Section 45.056(a).

(b) If following the investigation under Subsection (a) the commissioner is satisfied that the school district's bonds should be guaranteed under Subchapter C or provided credit enhancement under this subchapter, as applicable, the commissioner shall endorse the bonds.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.257. CREDIT ENHANCEMENT ENDORSEMENT. (a) The commissioner shall endorse bonds approved for credit enhancement under this subchapter in substantially the same manner provided under Section 45.057 for endorsing bonds approved under Subchapter C.

(b) The credit enhancement is not effective unless the attorney general approves the bonds under Section 45.005.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.258. NOTICE OF FAILURE OR INABILITY TO PAY. Immediately following a determination that a school district will be or is unable to pay maturing or matured principal or interest on a bond for which credit enhancement is provided under this subchapter, but not later than the 10th day before maturity date, the school district shall notify the commissioner.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.
Sec. 45.259. PAYMENT FROM INTERCEPTED FUNDS. (a) Immediately following receipt of notice under Section 45.258, the commissioner shall instruct the comptroller to transfer to the district's paying agent from appropriations to the Foundation School Program that may be used for the purpose under Section 45.252 and other law the amount necessary to pay the maturing or matured principal or interest.

(b) Immediately following receipt of the funds for payment of the principal or interest, the paying agent shall pay the amount due.

(c) The procedures prescribed by Subsections (a) and (b) apply to each payment of principal or interest on bonds as the payment becomes due until the bonds mature or are defeased in accordance with state law.

(d) If money appropriated for the Foundation School Program is used for purposes of this subchapter and as a result there is insufficient money to fully fund the Foundation School Program, the commissioner shall, to the extent necessary, reduce each school district's foundation school fund allocations, other than any portion appropriated from the available school fund, in the same manner provided by Section 42.253(h) for a case in which school district entitlements exceed the amount appropriated. The following fiscal year, a district's entitlement under Section 42.253 is increased by an amount equal to the reduction under this subsection.

(e) A payment made under this section by the state on behalf of a school district of funds the district owes on bonds for which credit enhancement is provided under this subchapter creates a repayment obligation of the district to the state regardless of the maturity date of, or any payment of interest on, the bonds.

(f) This section does not create a debt of the state under the Texas Constitution or, except to the extent provided by this subchapter, create a payment obligation.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.260. BONDS NOT ACCELERATED ON FAILURE TO PAY. If a school district fails to pay principal or interest on a bond for which credit enhancement is provided under this subchapter when the amount matures, other amounts not yet mature are not accelerated and do not become due by virtue of the district's failure to pay amounts
matured.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.261. REIMBURSEMENT OF FOUNDATION SCHOOL PROGRAM. (a) If the commissioner orders payment from the money appropriated to the Foundation School Program on behalf of a school district that is not required to reduce its wealth per student under Chapter 41, the commissioner shall direct the comptroller to withhold the amount paid from the first state money payable to the district. If the commissioner orders payment from the money appropriated to the Foundation School Program on behalf of a school district that is required to reduce its wealth per student under Chapter 41, the commissioner shall increase amounts due from the district under that chapter in a total amount equal to the amount of payments made on behalf of the district under this subchapter. Amounts withheld or received under this subsection shall be used for the Foundation School Program.

(b) In accordance with commissioner rules, the commissioner may authorize reimbursement of the Foundation School Program in a manner other than that provided by this section.

(c) The commissioner may order a school district to set an ad valorem tax rate capable of producing an amount of revenue sufficient to enable the district to:

(1) provide reimbursement under this section; and
(2) pay the remaining principal of and interest on the bonds as the principal and interest become due.

(d) If a school district fails to comply with the commissioner's order under Subsection (c), the commissioner may impose any sanction on the district authorized to be imposed on a district under Subchapter E, Chapter 39, including appointment of a board of managers or annexation to another district, regardless of the district's accreditation status or the duration of a particular accreditation status.

(e) Any part of a school district's tax rate attributable to producing revenue for purposes of Subsection (c)(1) is considered part of the district's:

(1) current debt rate for purposes of computing a rollback
tax rate under Section 26.08, Tax Code; and
(2) interest and sinking fund tax rate.

(f) On reimbursement by a school district as required by this section, the commissioner shall pay to the district any amount withheld under this section.

Amended by:
Acts 2011, 82nd Leg., R.S., Ch. 91 (S.B. 1303), Sec. 7.013, eff. September 1, 2011.

Sec. 45.262. REPEATED FAILURE TO PAY. (a) If a total of two or more payments are made under Subchapter C or this subchapter on the bonds of a school district and the commissioner determines that the district is acting in bad faith under the guarantee program under Subchapter C or the credit enhancement program under this subchapter, the commissioner may request the attorney general to institute appropriate legal action to compel the district and the district's officers, agents, and employees to comply with the duties required of them by law in regard to the bonds.

(b) Jurisdiction of proceedings under this section is in district court in Travis County.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.263. RULES. (a) The commissioner shall adopt rules necessary for the administration of the bond credit enhancement program under this subchapter.

(b) In adopting rules under Subsection (a), the commissioner shall establish an annual deadline by which a school district must pay the debt service on bonds for which credit enhancement is provided under this subchapter. The deadline established may not be later than the 10th day before the date specified under Section 42.259 for payment to school districts of the final Foundation School Program installment for a state fiscal year.

SUBCHAPTER J.  OPEN-ENROLLMENT CHARTER SCHOOL FACILITIES CREDIT ENHANCEMENT PROGRAM

Sec. 45.301.  DEFINITIONS.  In this subchapter:
(1)  "Charter holder" has the meaning assigned by Section 12.1012.
(2)  "Program" means the open-enrollment charter school facilities credit enhancement program established under this subchapter.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.302.  ESTABLISHMENT OF PROGRAM.  (a)  The commissioner by rule may establish an open-enrollment charter school facilities credit enhancement program to assist charter holders in obtaining financing for the purchase, repair, or renovation of real property, including improvements to real property, for facilities of open-enrollment charter schools.
(b)  The commissioner may adopt a structure and procedures for the program that are substantially similar to the structure and procedures for the credit enhancement program for school district bonds under Subchapter I.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.303.  LIMITATION ON PARTICIPATION; MINIMUM REQUIREMENTS FOR DEBT SERVICE RESERVE.  In adopting rules under Section 45.302, the commissioner may:
(1)  limit participation in the program to charter holders who hold charters for open-enrollment charter schools that meet standards established by the commissioner, including standards for financial stability, compliance with applicable state and federal program requirements, and student academic performance; and
(2)  impose minimum requirements for a debt service reserve to secure repayment of obligations for which credit enhancement is
provided under this subchapter.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.304. ALLOCATION OF PORTION OF FOUNDATION SCHOOL PROGRAM FUNDS FOR CREDIT ENHANCEMENT. (a) The commissioner may allocate not more than one percent of the amount appropriated for the Foundation School Program for purposes of the program under this subchapter.

(b) The funds allocated under this section may not be considered available for purposes of any other credit enhancement program.

(c) Only those Foundation School Program funds allocated under this section may be committed to the program under this subchapter.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.

Sec. 45.305. PRIVATE MATCHING FUNDS REQUIRED; USE OF OTHER STATE FUNDS. (a) The commissioner may not implement the program unless private funds in an amount at least equal to the amount of state funds allocated under Section 45.304 are obligated to the program for at least the first 10 years of the term of obligations for which credit enhancement is provided under the program.

(b) The commissioner may use state funds allocated under Section 45.304 to pay any amount due for credit enhancement under the program and, subject to the terms of the applicable private credit obligation agreement, provide for payment of private funds to the Foundation School Program in an amount equal to at least one-half of the amount of the state funds paid. The commissioner may also use any other state funds available for the purpose to make payments under this subchapter or to reimburse the Foundation School Program for payments made under this subchapter from Foundation School Program funds.

Added by Acts 2009, 81st Leg., R.S., Ch. 1328 (H.B. 3646), Sec. 75, eff. September 1, 2009.
Sec. 45.306. REPAYMENT; LIEN. (a) If a charter holder on behalf of which the state makes a payment under the program does not immediately repay the Foundation School Program the amount of the payment, the commissioner shall withhold any funds due from the state to the charter holder as necessary to recover the total amount of state and private funds paid on behalf of the charter holder under the program.

(b) If a charter holder is for any reason, including revocation or surrender of a charter or bankruptcy, unable to repay any amount due under this subchapter, any loss of funds shall be shared equally between the Foundation School Program and the person providing the private funds obligated for credit enhancement under this subchapter.

(c) A charter holder for which credit enhancement is provided under this subchapter to purchase, repair, or renovate real property for open-enrollment charter school facilities must agree to execute a lien on that real property in a form prescribed by the commissioner and approved by the attorney general to secure repayment of all amounts due to the state from the charter holder, including reimbursement of any private funds paid on behalf of an open-enrollment charter school under this subchapter.

(d) A lien under this section must be filed in the real property records of each county in which the real property is located. A lien under this section has priority over any other claim against the real property except a lien granted to the holders of obligations issued to finance the acquisition of the real property and any security interest or lien existing before credit enhancement is provided under this subchapter.

(e) The commissioner shall notify a charter holder of any amount determined to be due to the state, including federal funds. If the full amount due to the state has not been repaid or recovered by the commissioner from other funds due to the charter holder within the current and subsequent school year, the commissioner may request the attorney general to file an action to foreclose on a lien under this section. Funds recovered from foreclosure of a lien under this section shall be credited first to any security interest or lien with priority over the lien under this section, then to the charter holder's obligation under this section, and then to any other program to which the funds are due.

(f) Venue for a suit under this section is in Travis County.
Sec. 45.307. STATUS OF PROGRAM. (a) The program is separate from and does not create any claim to the credit enhancement program for school district bonds under Subchapter I.

(b) This subchapter does not create a debt of the state under the Texas Constitution or, except to the extent provided by this subchapter, create a payment obligation.

Sec. 45.308. RULES. If the commissioner establishes a program under this subchapter, the commissioner shall adopt rules to administer the program.

CHAPTER 46. ASSISTANCE WITH INSTRUCTIONAL FACILITIES AND PAYMENT OF EXISTING DEBT

SUBCHAPTER A. INSTRUCTIONAL FACILITIES ALLOTMENT

Sec. 46.001. DEFINITION. In this subchapter, "instructional facility" means real property, an improvement to real property, or a necessary fixture of an improvement to real property that is used predominantly for teaching the curriculum required under Section 28.002.
acquire, renovate, or improve an instructional facility that may also be used for noninstructional or extracurricular activities.

Sec. 46.003. SCHOOL FACILITIES ALLOTMENT. (a) For each year, except as provided by Sections 46.005 and 46.006, a school district is guaranteed a specified amount per student in state and local funds for each cent of tax effort, up to the maximum rate under Subsection (b), to pay the principal of and interest on eligible bonds issued to construct, acquire, renovate, or improve an instructional facility. The amount of state support is determined by the formula:

\[
\text{FYA} = (\text{FYL} \times \text{ADA} \times \text{BTR} \times 100) - (\text{BTR} \times (\text{DPV}/100))
\]

where:

"FYA" is the guaranteed facilities yield amount of state funds allocated to the district for the year;

"FYL" is the dollar amount guaranteed level of state and local funds per student per cent of tax effort, which is $35 or a greater amount for any year provided by appropriation;

"ADA" is the greater of the number of students in average daily attendance, as determined under Section 42.005, in the district or 400;

"BTR" is the district's bond tax rate for the current year, which is determined by dividing the amount budgeted by the district for payment of eligible bonds by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, Section 42.2521, divided by 100; and

"DPV" is the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, Section 42.2521.

(b) The bond tax rate under Subsection (a) may not exceed the rate that would be necessary for the current year, using state funds under Subsection (a), to make payments of principal and interest on the bonds for which the tax is pledged.

(c) To enable the district to collect local funds sufficient to pay the district's share of the debt service, a district may levy a
bond tax at a rate higher than the maximum rate for which it may receive state assistance.

(d) The amount budgeted by a district for payment of eligible bonds may include:

(1) bond taxes collected in the current school year;
(2) bond taxes collected in a preceding school year in excess of the amount necessary to pay the district's share of actual debt service on bonds in that year, provided that the taxes were not used to generate other state financial assistance for the district; or

(3) maintenance and operations taxes collected in the current school year or a preceding school year in excess of the amount eligible to be used to generate other state financial assistance for the district.

(e) Bonds are eligible to be paid with state and local funds under this section if:

(1) taxes to pay the principal of and interest on the bonds were first levied in the 1997-1998 school year or a later school year; and

(2) the bonds do not have a weighted average maturity of less than eight years.

(f) A district may use state funds received under this section only to pay the principal of and interest on the bonds for which the district received the funds.

(g) The board of trustees and voters of a school district shall determine district needs concerning construction, acquisition, renovation, or improvement of instructional facilities.

(h) To receive state assistance under this subchapter, a school district must apply to the commissioner in accordance with rules adopted by the commissioner before issuing bonds that will be paid with state assistance. Until the bonds are fully paid or the instructional facility is sold:

(1) a school district is entitled to continue receiving state assistance without reapplying to the commissioner; and

(2) the guaranteed level of state and local funds per student per cent of tax effort applicable to the bonds may not be reduced below the level provided for the year in which the bonds were issued.

Added by Acts 1997, 75th Leg., ch. 592, Sec. 1.04, eff. Sept. 1,
Sec. 46.004. LEASE-PURCHASE AGREEMENTS. (a) A district may receive state assistance in connection with a lease-purchase agreement concerning an instructional facility. For purposes of this subchapter:

(1) taxes levied for purposes of maintenance and operations that are necessary to pay a district's share of the payments under a lease-purchase agreement for which the district receives state assistance under this subchapter are considered to be bond taxes; and

(2) payments under a lease-purchase agreement are considered to be payments of principal of and interest on bonds.

(b) Section 46.003(b) applies to taxes levied to pay a district's share of the payments under a lease-purchase agreement for which the district receives state assistance under this subchapter.

(c) A lease-purchase agreement must be for a term of at least eight years to be eligible to be paid with state and local funds under this subchapter.

Sec. 46.005. LIMITATION ON GUARANTEED AMOUNT. The guaranteed amount of state and local funds for a new project that a district may be awarded in any state fiscal biennium under Section 46.003 for a school district may not exceed the lesser of:

(1) the amount the actual debt service payments the district makes in the biennium in which the bonds are issued; or

(2) the greater of:

(A) $100,000; or

(B) the product of the number of students in average daily attendance in the district multiplied by $250.

Added by Acts 1997, 75th Leg., ch. 592, Sec. 1.04, eff. Sept. 1, 1997.
Sec. 46.006. SHORTAGE OR EXCESS OF FUNDS APPROPRIATED FOR NEW PROJECTS. (a) If the total amount appropriated for a year for new projects is less than the amount of money to which school districts applying for state assistance are entitled for that year, the commissioner shall rank each school district applying by wealth per student. For purposes of this section, a district's wealth per student is reduced by 10 percent for each state fiscal biennium in which the district did not receive assistance under this subchapter.

(b) A district's wealth per student is reduced for purposes of this section if a district has had substantial student enrollment growth in the preceding five-year period. The reduction is in addition to any reduction under Subsection (a) and is computed before the district's wealth per student is reduced under that subsection, if applicable. A district's wealth per student is reduced:

(1) by five percent, if the district has an enrollment growth rate in that period that is 10 percent or more but less than 15 percent;

(2) by 10 percent, if the district has an enrollment growth rate in that period that is 15 percent or more but less than 30 percent; or

(3) by 15 percent, if the district has an enrollment growth rate in that period that is 30 percent or more.

(c) A district's wealth per student is reduced by 10 percent for purposes of this section if the district does not have any outstanding debt at the time the district applies for assistance under this subchapter. The reduction is in addition to any reduction under Subsection (a) or (b) and is computed before the district's wealth per student is reduced under those subsections, if applicable.

(d) The commissioner shall adjust the rankings after making the reductions in wealth per student required by Subsections (a), (b), and (c).

(e) Beginning with the district with the lowest adjusted wealth per student that has applied for state assistance for the year, the commissioner shall award state assistance to districts that have applied for state assistance in ascending order of adjusted wealth per student. The commissioner shall award the full amount of state assistance to which a district is entitled under this subchapter, except that the commissioner may award less than the full amount to
the last district for which any funds are available.

(f) Any amount appropriated for the first year of a fiscal biennium that is not awarded to a school district may be used to provide assistance in the following fiscal year.

Sec. 46.010. PROJECTS BY MORE THAN ONE DISTRICT. If two or more districts apply for state assistance in connection with a joint project at a single location, each district is entitled to a guaranteed facilities yield amount of state and local funds that is 20 percent higher than the amount to which the district would otherwise be entitled under Section 46.005.

determined by dividing the amount of state funds under this
subchapter used to pay the principal of and interest on the bonds by

(2) "State's share" means an amount equal to the district's
net proceeds from the recovery multiplied by a percentage determined
by dividing the amount of state assistance under this subchapter used
to pay the principal of and interest on bonds issued in connection
with the instructional facility that is the subject of the action by
the total amount of principal and interest paid on the bonds as of
the date of the judgment or settlement.

(b) A school district that brings an action for recovery of
damages for the defective design, construction, renovation, or
improvement of an instructional facility financed by bonds for which
the district receives state assistance under this subchapter shall
provide the commissioner with written notice of the action.

(c) The commissioner may join in the action on behalf of the

Sec. 46.032. ALLOTMENT. (a) Each school district is guaranteed a specified amount per student in state and local funds for each cent of tax effort to pay the principal of and interest on eligible bonds. The amount of state support, subject only to the maximum amount under Section 46.034, is determined by the formula:

\[ EDA = (EDGL \times ADA \times EDTR \times 100) - (EDTR \times (DPV/100)) \]

where:

- "EDA" is the amount of state funds to be allocated to the district for assistance with existing debt;
- "EDGL" is the dollar amount guaranteed level of state and local funds per student per cent of tax effort, which is $35 or a greater amount for any year provided by appropriation;
- "ADA" is the number of students in average daily attendance, as determined under Section 42.005, in the district;
- "EDTR" is the existing debt tax rate of the district, which is determined by dividing the amount budgeted by the district for payment of eligible bonds by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 42.2521, divided by 100; and
- "DPV" is the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 42.2521.

(b) The existing debt tax rate of the district under Subsection (a) may not exceed the rate that would be necessary for the current year, using state funds under Subsection (a), to make payments of principal and interest on the bonds for which the tax is pledged.

(c) The amount budgeted by a district for payment of eligible bonds may include:

1. bond taxes collected in the current school year;
2. bond taxes collected in a preceding school year in excess of the amount necessary to pay the district's share of actual debt service on bonds in that year, provided that the taxes were not used to generate other state financial assistance for the district; or
3. maintenance and operations taxes collected in the current school year or a preceding school year in excess of the
amount eligible to be used to generate other state financial assistance for the district.

Sec. 46.033. ELIGIBLE BONDS. Bonds, including bonds issued under Section 45.006, are eligible to be paid with state and local funds under this subchapter if:

(1) the district made payments on the bonds during the final school year of the preceding state fiscal biennium or taxes levied to pay the principal of and interest on the bonds were included in the district's audited debt service collections for that school year; and

(2) the district does not receive state assistance under Subchapter A for payment of the principal and interest on the bonds.

Sec. 46.034. LIMITS ON ASSISTANCE. (a) The existing debt tax rate ("EDTR") under Section 46.032 may not exceed $0.29 per $100 of valuation, or a greater amount for any year provided by appropriation.

(b) The amount of state assistance to which a district is entitled under this subchapter may not exceed the amount to which the district would be entitled at the district's tax rate for the payment of eligible bonds for the final year of the preceding state fiscal biennium.

(b-1) Notwithstanding Subsection (b), a school district is
entitled to state assistance under this subchapter based on the district's tax rate for the current school year if the district demonstrates to the commissioner's satisfaction that the district meets the criteria under Section 46.006(c-2).

(c) If the amount required to pay the principal of and interest on eligible bonds in a school year is less than the amount of payments made by the district on the bonds during the final school year of the preceding state fiscal biennium or the district's audited debt service collections for that school year, the district may not receive aid in excess of the amount that, when added to the district's local revenue for the school year, equals the amount required to pay the principal of and interest on the bonds.

Banks so designated as special depository banks are hereby authorized to pledge their securities to protect such funds.

(b) The governing board of every state institution of higher education shall deposit in the state treasury all cash receipts accruing to any college or university under its control that may be
derived from all sources except auxiliary enterprises, noninstructional services, agency, designated, and restricted funds, endowment and other gift funds, student loan funds, funds retained under Chapter 145 of this code, and Constitutional College Building Amendment funds. The comptroller is directed to credit such receipts deposited by each such institution to a separate fund account for the institution depositing the receipts, but he shall not be required to keep separate accounts of types of funds deposited by each institution. For the purpose of facilitating the transferring of such institutional receipts to the state treasury, each institution shall open in a local depository bank a clearing account to which it shall deposit daily all such receipts, and shall, not less often than every seven days, make remittances therefrom to the comptroller of all except $500 of the total balance in said clearing account, such remittances to be in the form of checks drawn on the clearing account by the duly authorized officers of the institution, and no disbursements other than remittances to the state treasury shall be made from such clearing account. All money so deposited in the state treasury shall be paid out on warrants drawn by the comptroller as provided by law.

(c) The legislature is authorized to create revolving funds for the handling of funds of institutions of higher education, as enumerated herein, by making provision in each biennial appropriation bill enacted by the legislature.

(d) Nothing in this section affects the provisions of Title 47, Revised Civil Statutes of Texas, 1925, usually referred to as the State Depository Law. However, the limitation of deposits contained in Article 2532, Revised Civil Statutes of Texas, 1925, as amended, shall not apply insofar as the specific funds enumerated in this section are concerned.

(e) This section prevails over Sections 51.001-51.007 of this code to the extent of any conflict.

(f) Interest earned on the receipts deposited under this section to an institution's separate fund account in the state treasury shall be credited to that separate fund account.

(g) Revenues collected at institutions of higher education and deposited in the state treasury pursuant to this section and Section 34.017, Natural Resources Code, and the interest earned thereon, are dedicated to the institution which collected and deposited the funds irrespective of the year the funds were collected, deposited, or
earned. These funds may be only used for the support, maintenance, and operation of the institution as provided for by law. Section 403.094(h), Government Code, does not apply to funds described in this section.

(h) Tuition revenues and revenue collected under Section 34.017, Natural Resources Code, that are deposited in the treasury pursuant to this section, and the interest earned on those revenues, shall be treated as designated funds in the general revenue fund. Notwithstanding a pledge of those revenues made or to be made in the proceedings approved by the governing board of an institution of higher education authorizing the issuance or incurrence of bonds, the deposit of those revenues in the treasury to the credit of an account in the general revenue fund does not:

(1) affect in any manner the pledge of the revenues or the governing board's ability to pledge the revenues to secure and pay bonds issued or incurred by the governing board in accordance with law;

(2) cause the bonds to constitute a debt of the state or be payable from the full faith and credit of the state;

(3) change the character of the revenues as separate revenue of the institution collecting the revenue; or

(4) cause the revenue to be considered general revenue for purposes of Sections 17 and 18, Article VII, Texas Constitution.

Sec. 51.009. DEFINING AND ACCOUNTING FOR CERTAIN INCOME. (a) "Local funds" are the items to be accounted for as "educational and general funds" as described in Subsection (c) of this section, but do not include general revenue funds. These funds shall be accounted for in a manner recommended by the National Association of College and University Business Officers and approved by the comptroller of public accounts and the Texas Higher Education Coordinating Board.

(b) "Institutional funds" means all funds collected at the
institution that are not "educational and general funds" as described in Subsection (c) of this section. These funds shall be accounted for in a manner recommended by the National Association of College and University Business Officers and approved by the comptroller of public accounts and the Texas Higher Education Coordinating Board.

(c) Each of the following shall be accounted for as educational and general funds:

(1) net tuition, special course fees charged under Sections 54.051(e) and (l), lab fees, student teaching fees, organized activity fees, and proceeds from the sale of educational and general equipment; and

(2) hospital and clinic fees received by a state-owned clinical care facility that is operated using general revenue fund appropriations for patient care.

Acts 2007, 80th Leg., R.S., Ch. 1324 (S.B. 1446), Sec. 1, eff. June 15, 2007.

Sec. 51.010. COLLECTION OF DELINQUENT OBLIGATIONS. If under the rules adopted by the attorney general under Chapter 2107, Government Code, an institution of higher education is not required to refer a delinquent obligation for collection to the attorney general, the institution is not required to expend resources for further collection efforts if, considering the amount, security, likelihood of collection, expense, and available resources, the institution determines that further collection should not be actively pursued.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1049 (S.B. 5), Sec. 1.02, eff. June 17, 2011.

Sec. 51.011. DISPOSITION OF SMALL CREDIT BALANCES. (a) This section applies to a credit balance of less than $25 held by an institution of higher education that is presumed abandoned under
Chapter 72, Property Code.

(b) An institution of higher education may maintain an unclaimed money fund and transfer to that fund a credit balance to which this section applies. A deposit to the unclaimed money fund does not affect the ownership of the amount deposited. The institution shall:

(1) adopt procedures for owners to make and receive payments of claims against the fund; and

(2) maintain a database that permits members of the public to search for ownership of unclaimed funds.

(c) The institution of higher education shall use the fund to pay the claims of persons establishing ownership of amounts transferred to the fund and shall hold and account for the unclaimed money fund as educational and general funds of the institution. If the fund balance is insufficient to pay a valid claim, the institution shall pay the claim from the institution's other educational and general funds.

(d) Each fiscal year, after deducting funds sufficient to pay anticipated expenses of and claims against the unclaimed money fund, the institution shall use the balance of the fund as other educational and general funds of the institution.

(e) In consultation with institutions of higher education, the comptroller by rule may establish minimum requirements for notice to owners of unclaimed money deposited in the unclaimed money fund and for charges for that notice. The rules may not provide stricter requirements than the comptroller applies for amounts of less than $25 in the custody of the comptroller under Chapter 74, Property Code.

(f) If an institution of higher education maintains an unclaimed money fund under this section, Chapter 74, Property Code, does not apply to a credit balance to which this section applies.

Sec. 51.012. PAYMENTS BY ELECTRONIC FUNDS TRANSFER OR ELECTRONIC PAY CARD. An institution of higher education may make any payment through electronic funds transfer or by electronic pay card.

SUBCHAPTER C. FACULTY DEVELOPMENT LEAVES OF ABSENCE

Sec. 51.101. DEFINITIONS. In this subchapter:

(1) "Institution of higher education" has the meaning assigned to it in Section 61.003 of this code, except that Texas State Technical College System is included and the Rodent and Predatory Animal Control Service is excluded for the purposes of this subchapter.

(2) "Governing board" means the body charged with policy direction of an institution of higher education.

(3) "Faculty member" means a person who is employed by an institution of higher education on a full-time basis as a member of the faculty or staff and whose duties include teaching, research, administration, including professional librarians, or the performance of professional services. However, the term does not include a person employed in a position which is in the institution's classified personnel system or a person employed in a similar type of position if the institution does not have a classified personnel system.

Sec. 51.102. LEGISLATIVE FINDINGS AND PURPOSE. The legislature finds that higher education is vitally important to the welfare, if not the survival, of Texas and the United States at this stage in history and that the quality of higher education is dependent upon the quality of college and university faculties. The legislature finds, therefore, that money spent on recognized means for producing an excellent system of public higher education is money spent to serve a public purpose of great importance. The legislature finds further that a sound program of faculty development leaves of absence designed to enable the faculty member to engage in study, research, writing, and similar projects for the purpose of adding to the knowledge available to himself, his students, his institution, and society generally is a well-recognized means for improving a state's
program of public higher education. The legislature's purpose in establishing the faculty development leave program provided for by this subchapter is to improve further the higher education available to the youth at the state-supported colleges and universities and to establish this program of faculty development leaves as part of the plan of compensation for the faculty of these colleges and universities.

Sec. 51.103. GRANTING LEAVES OF ABSENCE; PROCEDURES. (a) On the application of a faculty member, the governing board of an institution of higher education may grant a faculty development leave of absence for study, research, writing, field observations, or other suitable purpose, to a faculty member if it finds that he is eligible by reason of service, that the purpose for which he seeks a faculty development leave is one for which a faculty development leave may be granted, and that granting leave to him will not place on faculty development leave a greater number of faculty members than that authorized.

(b) The governing board by regulation shall establish a procedure whereby the applications for faculty development leaves of absence are received by a committee elected by the general faculty for evaluation and whereby this faculty committee then makes recommendations to the chief administrative officer of the institution of higher education, who shall then make recommendations to the governing board as to which applications should be granted.

Sec. 51.104. SERVICE REQUIRED. A faculty member is eligible by reason of service to be considered for a faculty development leave when he has served as a member of the faculty of the same institution of higher education for at least two consecutive academic years. This service may be as an instructor or as an assistant, associate, or full professor, or an equivalent rank, and must be full-time academic duty but need not include teaching.
Sec. 51.105. DURATION AND COMPENSATION. (a) The governing board may grant to a faculty member a faculty development leave either for one academic year at one-half of his regular salary or for one-half academic year at his full regular salary. Payment of salary to the faculty member on faculty development leave may be made from the funds appropriated by the legislature specifically for that purpose, or from such other funds as might be available to the institution.

(b) A faculty member on faculty development leave may accept a grant for study, research, or travel from any institution of higher education, from a charitable, religious, or educational corporation or foundation, from any business enterprise, or from any federal, state, or local governmental agency. An accounting of all grants shall be made to the governing board of the institution by the faculty member. A faculty member on faculty development leave may not accept employment from any other person, corporation, or government, unless the governing board determines that it would be in the public interest to do so and expressly approves the employment.

Sec. 51.106. NUMBER ON LEAVE AT ONE TIME. Not more than six percent of the faculty members of any institution of higher education may be on faculty development leave at any one time.

Sec. 51.107. RIGHTS RETAINED. (a) A faculty member on faculty development leave shall continue to be a member of the Teacher Retirement System of Texas or of the Optional Retirement Program of
the institution of higher education, or of both, just as any other member of the faculty on full-time duty.

(b) The institution of higher education shall cause to be deducted from the compensation paid to a member of the faculty on faculty development leave the deposit and membership dues required to be paid by him to the Teacher Retirement System of Texas or to the Optional Retirement Program, or both, the contribution for Old Age and Survivors Insurance, and any other amounts required or authorized to be deducted from the compensation paid any faculty member.

(c) A member of the faculty on faculty development leave is a faculty member for purposes of participating in the programs and of receiving the benefits made available by or through the institution of higher education or the state to faculty members.

Sec. 51.108. REGULATIONS CONCERNING ABSENCE. (a) The governing board of each college or university supported in whole or in part by state funds shall issue regulations concerning the authorized and unauthorized absence from duty of faculty members, including teaching assistants and research assistants.

(b) Each governing board shall file a copy of these regulations with the Coordinating Board, Texas College and University System. Each governing board shall file any amendment to its regulations with the coordinating board not later than 30 days after the effective date of the amendment.

Any institution of higher education may enter into an interagency contract with one or more other institutions of higher education for the establishment and operation of a telecommunications network for the transmission of audio or video signals or electronic data, but only to the extent that the telecommunications services are not available through a system of telecommunications services established for state agencies generally. Each of those interagency contracts shall be reviewed by the Texas Higher Education Coordinating Board.

Service on the board is an additional duty of employment of the chief administrative officers or the persons designated by the chief administrative officers of state-supported institutions and is not an additional position of honor, trust, or profit. The legislature finds that this service is necessary in accomplishing the purpose of this subchapter; is compatible with their employment; and will benefit the educational program of the institution and of the state.

Sec. 51.155. DIRECTOR'S EXPENSES. A director is entitled to receive reimbursement for actual expenses incurred in attending meetings of the board and in attending to the business of the association which is authorized by a resolution of the board.

They shall be executed, and may be made redeemable prior to maturity, may be issued in the form, denominations, and manner, and under the terms, conditions, and details, may be sold in the manner, at the price, and under the terms, and shall bear interest at the rate or rates, as is determined and provided by the board in the resolution authorizing the issuance of the bonds.

(e) Proceeds from the sale of the bonds may be used for paying interest on the bonds during the period of the acquisition or construction of any facilities to be provided through the issuance of the bonds and for providing a reserve for the payment of the principal of and interest on the bonds. The proceeds may be placed on time deposit or invested until needed to the extent and in the manner provided in the bond resolution.

(f) The board shall fix and collect lease rentals, rentals, rates, charges, and fees, or any combination of them, from students or others for the occupancy, use, or availability of all or any of its property, buildings, structures, or other facilities in amounts which will be sufficient, together with any other pledged resources, to provide for all payments of principal, interest, and any other amounts required in connection with any bonds issued under this section, and, to the extent required by the resolution authorizing the issuance of the bonds, to provide for the payment of expenses in connection with the issuance of the bonds and for the payment of operation, maintenance, and other expenses in connection with the property, buildings, structures, or facilities.

If he finds that the bonds have been authorized in accordance with law, he shall approve them, and thereupon they shall be registered by the comptroller of public accounts. After the approval and registration the bonds are incontestable for any reason and are valid and binding obligations in accordance with their terms for all purposes. If the bonds recite that they are secured partially or otherwise by a pledge of the proceeds of a contract or lease made between the board and another party or parties, public agencies, or otherwise, a copy of the
contract or lease and of the proceedings authorizing it may or may not be submitted to the attorney general along with the bond records. If submitted, then the approval by the attorney general of the bonds shall constitute an approval of the contract or lease, and thereafter the contract or lease shall be incontestable.

Sec. 51.173. BONDS AS LEGAL INVESTMENTS. All bonds issued under this subchapter are legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, insurance companies of all kinds and types, fiduciaries, trustees, and guardians, and for all interest and sinking funds and other public funds of the State of Texas, and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic. (b) This subsection applies only to a public institution of higher education campus that is located in whole or part in an area in which a motor vehicle registered in the area is required to undergo a vehicle emissions inspection under Subchapter F, Chapter 548, Transportation Code. The institution may not issue a permit to a student enrolled at the institution to park or drive a motor vehicle that is not registered in this state on institutional

Sec. 51.210. ENFORCEMENT OF RULES AND REGULATIONS. Notwithstanding any of the provisions of this subchapter, all officers commissioned by the governing board of a state institution of higher education may be empowered by the board to enforce rules and regulations promulgated by the board. Nothing in this subchapter is intended to limit or restrict the authority of each institution to promulgate and enforce appropriate rules and regulations for the orderly conduct of the institution in carrying out its purposes and objectives or the right of separate jurisdiction relating to the conduct of its students and personnel.

Sec. 51.212. PEACE OFFICERS AT PRIVATE INSTITUTIONS. (a) The governing boards of private institutions of higher education, including private junior colleges, are authorized to employ and commission peace officers for the purpose of enforcing:

(1) state law on the campuses of private institutions of higher education; and

(2) state and local law, including applicable municipal ordinances, at other locations, as permitted by Subsection (b) or Section 51.2125.

(b) Any officer commissioned under the provisions of this section is vested with all the powers, privileges, and immunities of peace officers if the officer:

(1) is on the property under the control and jurisdiction of the respective private institution of higher education or is otherwise performing duties assigned to the officer by the institution, regardless of whether the officer is on property under the control and jurisdiction of the institution, but provided these duties are consistent with the educational mission of the institution and are being performed within a county in which the institution has land; or

(2) to the extent authorized by Section 51.2125, is:

(A) requested by another law enforcement agency to provide assistance in enforcing state or local law, including a municipal ordinance, and is acting in response to that request; or

(B) otherwise assisting another law enforcement agency in enforcing a law described by Paragraph (A).

(c) Any officer assigned to duty and commissioned shall take and file the oath required of peace officers, and shall execute and file a good and sufficient bond in the sum of $1,000, payable to the governor, with two or more good and sufficient sureties, conditioned that the officer will fairly, impartially, and faithfully perform the duties as may be required of the officer by law. The bond may be sued on from time to time in the name of the person injured until the whole amount is recovered.

(d) The governing boards of private institutions of higher education are authorized to hire and pay on a regular basis peace officers commissioned by an incorporated city. The officers shall be
under the supervision of the hiring institution, but shall be subject to dismissal and disciplinary action by the city. An incorporated city is authorized to contract with a private institution of higher education for the use and employment of its commissioned officers in any manner agreed to, provided that there is no expense incurred by the city.

(e) In this section, "private institution of higher education" means a private or independent institution of higher education as defined by Section 61.003.

Amended by:
Acts 2007, 80th Leg., R.S., Ch. 258 (S.B. 11), Sec. 15.01, eff. September 1, 2007.

Sec. 51.2125. PRIVATE INSTITUTIONS: AUTHORITY TO ENTER INTO MUTUAL ASSISTANCE AGREEMENT. (a) This section applies only to a private institution of higher education that has under its control and jurisdiction property that is contiguous to, or located in any part within the boundaries of, a home-rule municipality that has a population of 1.18 million or more and is located predominantly in a county that has a total area of less than 1,000 square miles. For purposes of this section, a private institution of higher education is a private or independent institution of higher education as defined by Section 61.003.

(b) In addition to exercising the authority provided under Section 51.212(d), the governing board of a private institution of higher education to which this section applies and the governing body of each municipality, regardless of the municipality's population, that is contiguous to, or the boundaries of which contain any part of, property under the control and jurisdiction of the private institution of higher education may enter into a written mutual assistance agreement in which peace officers commissioned by the institution or the applicable municipality serve the public interest by assisting, without any form of additional compensation or other financial benefit, the peace officers of the other party to the agreement in enforcing state or local law, including applicable
municipal ordinances. The agreement must be reviewed at least annually by the institution and the municipality and may be modified at that time by a written agreement signed by each party. The agreement may be terminated at any time by a party to the agreement on the provision of reasonable notice to the other party to the agreement.

(c) A mutual assistance agreement authorized by this section may designate the geographic area in which the campus peace officers are authorized to provide assistance to the peace officers of the municipality, except that if the agreement is entered into with a municipality described by Subsection (a) that elects all or part of the municipality's governing body from election districts, the designated geographic area consists of each of the election districts of the municipality's governing body that contains any part of the campus of the institution and each of the election districts of the governing body that is contiguous to another municipality that contains any part of the campus of the institution.

(d) This section does not affect a municipality's duty to provide law enforcement services to any location within the boundaries of the municipality.

(e) A peace officer providing assistance under a mutual assistance agreement authorized by this section may make arrests and exercise all other authority given to peace officers under other state law. The municipal law enforcement agency has exclusive authority to supervise any campus peace officer operating under the agreement to assist the peace officers of the municipality. A municipal peace officer operating under the agreement to assist the campus peace officers remains under the supervision of the municipal law enforcement agency.

(f) In the same manner and to the same extent as a municipality is liable for an act or omission of a peace officer employed by the municipality, a private institution of higher education is liable for an act or omission of a campus peace officer operating under a mutual assistance agreement authorized by this section at a location other than property under the control and jurisdiction of the institution.

(g) This section does not limit the authority of a campus peace officer to make a warrantless arrest outside the officer's jurisdiction as described by Article 14.03(d), Code of Criminal Procedure.
Sec. 51.2126. APPEAL BY CAMPUS PEACE OFFICER OF DISCIPLINARY ACTION OR PROMOTIONAL BYPASS RELATED TO PROVISION OF ASSISTANCE UNDER MUTUAL ASSISTANCE AGREEMENT. (a) A campus peace officer acting under a mutual assistance agreement authorized by Section 51.2125 who is demoted, suspended, or terminated by the applicable private institution of higher education or who experiences a promotional bypass by the institution may elect to appeal the institution's action to an independent third party hearing examiner under this section.

(b) To elect to appeal to an independent third party hearing examiner under this section, the campus peace officer must submit to the head of the institution's law enforcement agency not later than the 30th day after the date of the action being appealed a written request stating the officer's decision to appeal to such a hearing examiner.

(c) The hearing examiner's decision is final and binding on all parties. If a campus peace officer elects to appeal the institution's action to an independent third party hearing examiner under this section, the officer or institution may appeal the examiner's decision to a district court only as provided by Subsection (j).

(d) If a campus peace officer elects to appeal to a hearing examiner, the officer and the head of the institution's law enforcement agency or their designees shall attempt to agree on the selection of an impartial hearing examiner. If the parties do not agree on the selection of a hearing examiner before the 10th day after the date the appeal is filed, the parties immediately shall request a list of seven qualified neutral arbitrators from the American Arbitration Association or the Federal Mediation and Conciliation Service, or their successors in function. The officer and the agency head or their designees may agree on one of the seven neutral arbitrators on the list. If the parties do not agree before the fifth business day after the date the parties receive the list,
the parties or their designees shall alternate striking a name from the list, and the single name remaining after all other names have been struck is selected as the hearing examiner. The parties or their designees shall agree on a date for the hearing.

(e) The appeal hearing must begin as soon as an appearance by the hearing examiner can be scheduled. If the hearing examiner cannot begin the hearing before the 45th day after the date of selection, the campus peace officer may, within 48 hours after learning of that fact, call for the selection of a new hearing examiner using the procedure prescribed by Subsection (d).

(f) In a hearing conducted under this section, the hearing examiner has the same duties and powers that a civil service commission has in conducting a hearing or hearing an appeal under Chapter 143, Local Government Code, including the right to issue subpoenas. The hearing examiner may:

(1) order that the campus peace officer be reinstated to the same position or status in which the officer was employed immediately before the demotion, suspension, or termination or, in the case of a promotional bypass, to the position or status with respect to which the officer experienced the bypass; and

(2) award the officer lost wages and any other compensation lost as a result of the disciplinary action or promotional bypass, as applicable.

(g) In a hearing conducted under this section, the parties may agree to an expedited hearing procedure. Unless otherwise agreed by the parties, in an expedited procedure the hearing examiner shall issue a decision on the appeal not later than the 10th day after the date the hearing is completed.

(h) In an appeal that does not involve an expedited hearing procedure, the hearing examiner shall make a reasonable effort to issue a decision on the appeal not later than the 30th day after the later of the date the hearing is completed or the briefs are filed. The hearing examiner's inability to meet the time requirements imposed by this section does not affect the hearing examiner's jurisdiction, the validity of the disciplinary action or promotional bypass, or the hearing examiner's final decision.

(i) The hearing examiner's fees and expenses shall be paid in equal amounts by the parties. The costs of a witness shall be paid by the party who calls the witness.

(j) A district court may hear an appeal of a hearing examiner's
decision only on the grounds that the hearing examiner was without
jurisdiction or exceeded the examiner's jurisdiction or that the
decision was procured by fraud, collusion, or other unlawful means.
An appeal must be brought in the district court having jurisdiction
in the municipality in which the institution is located.

property coming into the possession of the campus security personnel
where the personal property is not being held as evidence to be used

nonprofit medical corporation, or of the parent corporation of such
medical corporation, that provides police or security services for an

state within the jurisdiction designated by Subsection (c).

(b) An officer commissioned under this section may make arrests and has all the powers, privileges, and immunities of a peace officer while performing the officer's assigned duties within the jurisdiction designated by Subsection (c). An officer assigned to duty and commissioned shall take and file the oath required of peace officers and shall execute and file a good and sufficient bond in the sum of $1,000, payable to the governor, with two or more good and sufficient sureties, conditioned that the officer will fairly, impartially, and faithfully perform the duties required of the officer by law. The bond may be sued on from time to time in the name of the person injured until the whole amount is recovered.

(c) The jurisdiction of an officer commissioned under this section is limited to:

(1) property under the control and jurisdiction of the private, nonprofit medical corporation or its parent corporation or any entity legally affiliated with or owned, leased, managed, or controlled by the medical corporation or its parent corporation;

(2) a street or alley that abuts the property or an easement in or a right-of-way over or through the property described by Subdivision (1); and

(3) any other location in which the officer is performing duties assigned to the officer by the private, nonprofit medical corporation or its parent corporation, regardless of whether the officer is on property under the control and jurisdiction of the medical corporation or its parent corporation, provided that the assigned duties are consistent with the mission of the medical corporation or its parent corporation and are being performed within a county in which the medical corporation or its parent corporation owns real property.

(d) An officer commissioned under this section is not entitled to compensation or benefits provided by this state or a political subdivision of this state.

(e) The state or a political subdivision of this state is not liable for an act or omission of an officer commissioned under this section during the performance of the officer's assigned duties.

(f) A person may not be commissioned under this section unless the person obtains a peace officer license issued by the Texas Commission on Law Enforcement. The employing medical corporation or parent corporation shall pay to the Texas Commission on Law
Enforcement on behalf of an employee any fees that are necessary to obtain a required license.

(g) A person's commission and any authority to act as an officer under this section are automatically revoked if the person's employment is terminated for any reason.

SUBCHAPTER F. REQUIRED AND ELECTIVE COURSES

Sec. 51.301. GOVERNMENT OR POLITICAL SCIENCE. (a) Every college and university receiving state support or state aid from public funds shall give a course of instruction in government or political science which includes consideration of the Constitution of the United States and the constitutions of the states, with special emphasis on that of Texas. This course shall have a credit value of not less than six semester hours or its equivalent. Except as provided by Subsection (c), a college or university receiving state support or state aid from public funds may not grant a baccalaureate degree or a lesser degree or academic certificate to any person unless the person has credit for such a course. The college or university may determine that a student has satisfied this requirement in whole or in part on the basis of credit granted to the student by the college or university for a substantially equivalent course completed at another accredited college or university or on the basis of the student’s successful completion of an advanced standing examination administered on the conditions and under the circumstances common for the college or university’s advanced standing examinations. The college or university may grant as much
as three semester hours of credit or its equivalent toward satisfaction of this requirement for substantially equivalent work completed by the student in the program of an approved senior R.O.T.C. unit.

(b) The requirement of Subsection (a) that the required course must include special emphasis on the Texas Constitution does not apply to a degree granted on completion of an academic program offered by a medical and dental unit, as that term is defined by Section 61.003, to a student who is a member of the armed forces of the United States, including the reserves or national guard, if:

1. the program is operated by the medical and dental unit under contract with the United States Army;
2. the program requires less than two years of residency in this state; and
3. the principal participants in the program are military personnel stationed outside this state.

(c) The governing board of a general academic teaching institution that offers a joint baccalaureate degree program under a contract with a foreign college or university may exempt a student enrolled in the joint degree program from the course requirement prescribed by Subsection (a) if the student:

1. enrolled in the foreign college or university before enrolling in the joint degree program or is otherwise considered to be primarily a student of the foreign college or university; and
2. successfully completes the American Way course described by Subsection (d) at the institution the student attends or, with the approval of that institution, at another general academic teaching institution that offers the course.

(d) The American Way course authorized by Subsection (c)(2) must be designed to provide a foreign student with a familiarity and understanding of United States government and civic life and their sources, development, and character. The course must concentrate on important texts, including the United States Constitution and the Declaration of Independence, on the works and contributions of influential authors, political and cultural leaders, and other important figures, and on important events and developments in United States history. The course must cover important developments in human and civil rights, including the civil rights movement and the history of women's rights. The course must cover the history and development of the State of Texas and its place in United States
history and culture. The course must consist of four semester credit hours, with one semester credit hour in practicum activities intended to provide the student with experience in the three branches of government through participation at the federal, state, or local level. The course may not be taken for course credit by a student other than a student described by Subsection (c).

(e) In this section, "general academic teaching institution" has the meaning assigned by Section 61.003.

(b) Except as provided by Subsection (c), a college or university receiving state support or state aid from public funds may not grant a baccalaureate degree or a lesser degree or academic certificate to any person unless the person has credit for six semester hours or its equivalent in American History. A student is entitled to submit as much as three semester hours of credit or its equivalent in Texas History in partial satisfaction of this requirement. The college or university may determine that a student has satisfied this requirement in whole or part on the basis of credit granted to the student by the college or university for a substantially equivalent course completed at another accredited college or university, or on the basis of the student's successful completion of an advanced standing examination administered on the conditions and under the circumstances common for the college or university's advanced standing examinations. The college or university may grant as much as three semester hours of credit or its equivalent toward satisfaction of this requirement for substantially equivalent work completed by a student in the program of an approved senior R.O.T.C. unit.

(c) The governing board of a general academic teaching institution that offers a joint baccalaureate degree program under a
contract with a foreign college or university may exempt a student enrolled in the joint degree program from the course requirement prescribed by Subsection (b) if the student:

(1) enrolled in the foreign college or university before enrolling in the joint degree program or is otherwise considered to be primarily a student of the foreign college or university; and

(2) successfully completes the American Way course described by Section 51.301(d) at the institution the student attends or, with the approval of that institution, at another general academic teaching institution that offers the course.

Sec. 51.304. COURSES IN MILITARY AND NAVAL TRAINING. The governing board of any state-supported institution of higher education may request the United States Department of Defense to establish and maintain courses in military and naval training
qualifying men student graduates of the courses for reserve commission awards as a part of its curriculum. The board may enter into mutually agreeable contracts for that purpose. The work of the students enrolling in the courses may be credited toward degree requirements under regulations prescribed by the board.

Sec. 51.3041. AWARD OF COURSE CREDIT FOR MILITARY TRAINING. (a) In this section, "institution of higher education" has the meaning assigned by Section 61.003.

(b) An institution of higher education shall consider, in determining whether to award to a student course credit toward a degree offered by the institution for the student's completion of certain military training:

(1) any official military record presented to the institution by the student that:

(A) describes the substance of the training completed by the student; and

(B) verifies the student's successful completion of that training; and

(2) whether the substance of that training satisfies the purpose of the course for which the student seeks credit as described in the institution's course catalog.

(c) This section applies to a student who has completed certain military training and is admitted to the institution, including a student who is readmitted under Section 51.9242.

student who is readmitted under Section 51.9242, course credit for all physical education courses required by the institution for an undergraduate degree and for additional semester credit hours, not to exceed 12, that may be applied to satisfy any elective course requirements for the student's degree program for courses outside the student's major or minor if the student:

(1) graduated from a public or private high school accredited by a generally recognized accrediting organization or from a high school operated by the United States Department of Defense; and

(2) is an honorably discharged former member of the armed forces of the United States who:

   (A) completed at least two years of service in the armed forces; or

   (B) was discharged because of a disability.

(c) This section does not prohibit an institution of higher education from awarding additional course credit for a student's military service as the institution considers appropriate.

(2) determine the topics to be covered by the training,
which may include budgeting, credit cards, spending, saving, loan repayment and consolidation, taxes, retirement planning, insurance, and financing of health care and other benefits.

Sec. 51.3062. SUCCESS INITIATIVE. (a) The definitions provided by Section 61.003 apply to this section.

(a-1) In this section, "program evaluation" means a systematic method of collecting, analyzing, and using information to answer questions about developmental education courses, interventions, and policies, particularly about their effectiveness and cost-efficiency.

(b) An institution of higher education shall assess the academic skills of each entering undergraduate student to determine the student's readiness to enroll in freshman-level academic coursework. An institution may not use the assessment or the results of the assessment as a condition of admission to the institution.

(c) The board shall designate one or more instruments for use by institutions of higher education in assessing students under this section.

(e) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 965, Sec. 3, eff. June 17, 2011.

(f) Each assessment instrument designated by the board for use under this section must be diagnostic in nature and designed to assess a student's readiness to perform freshman-level academic coursework. The board shall prescribe a single standard or set of standards for each assessment instrument to effectively measure student readiness as demonstrated by current research.

(g) Each institution of higher education shall establish a program to advise students regarding coursework and other means by which students can develop the academic skills required to successfully complete college-level work.

(h) If a student fails to meet the assessment standards
described by Subsection (f), the institution of higher education shall work with the student to develop a plan to assist the student in becoming ready to perform freshman-level academic coursework. The plan must be designed on an individual basis to provide the best opportunity for each student to attain that readiness.

(i) The institution of higher education may refer a student to developmental coursework as considered necessary by the institution to address a student's deficiencies in the student's readiness to perform freshman-level academic coursework, except that the institution may not require enrollment in developmental coursework with respect to a student previously determined under Subsection (q-1) or determined by any institution of higher education to have met college-readiness standards. An institution that requires a student to enroll in developmental coursework must offer a range of developmental coursework, including online coursework, or instructional support that includes the integration of technology to efficiently address the particular developmental needs of the student.

(i-1) The commissioner of higher education may by rule require an institution of higher education to adopt uniform standards for the placement of a student under this section.

(i-2) An institution of higher education must base developmental coursework on research-based best practices that include the following components:

(1) assessment;
(2) differentiated placement and instruction;
(3) faculty development;
(4) support services;
(5) program evaluation;
(6) integration of technology with an emphasis on instructional support programs;
(7) non-course-based developmental education interventions; and
(8) course pairing of developmental education courses with credit-bearing courses.

(i-3) The board shall adopt rules for the implementation of Subsection (i-2).

(i-4) The board, in consultation with institutions of higher education, shall develop and provide professional development programs, including instruction in differentiated instruction methods
designed to address students' diverse learning needs, to faculty and staff who provide developmental coursework to students.

(j) A student may retake an assessment instrument at any time to determine readiness to perform freshman-level academic coursework.

(k) An institution of higher education shall determine when a student is ready to perform freshman-level academic coursework. The institution must make its determination using learning outcomes for developmental education courses developed by the board based on established college and career readiness standards and student performance on one or more appropriate assessments.

(l) The legislature shall appropriate money for approved non-degree-credit developmental courses, except that legislative appropriations may not be used for developmental coursework taken by a student in excess of:

(1) 18 semester credit hours, for a general academic teaching institution; and
(2) 27 semester credit hours, for a public junior college, public technical institute, or public state college.

(m) The board may develop formulas to supplement the funding of developmental academic programs by institutions of higher education, including formulas for supplementing the funding of non-course-based programs. The board may develop a performance funding formula by which institutions may receive additional funding for each student who completes the Success Initiative established under this section and then successfully completes college coursework. The legislature may appropriate the money required to provide the additional funding under those formulas.

(n) Each institution of higher education, other than a medical and dental unit, shall report annually to the board on the success of its students and the effectiveness of its Success Initiative.

(o) The board shall evaluate the effectiveness of the Success Initiative on a statewide basis and with respect to each institution of higher education.

(p) A student who has achieved a score set by the board on the Scholastic Assessment Test (SAT) or the American College Test (ACT) is exempt from the requirements of this section. An exemption under this subsection is effective for the five-year period following the date a student takes the test and achieves the standard set by the board.

(q) A student who has achieved scores set by the board on the
questions developed for end-of-course assessment instruments under Section 39.0233(a) is exempt from the requirements of this section. The exemption is effective for the three-year period following the date a student takes the last assessment instrument for purposes of this section and achieves the standard set by the board. This subsection does not apply during any period for which the board designates the questions developed for end-of-course assessment instruments under Section 39.0233(a) as the primary assessment instrument under this section, except that the three-year period described by this subsection remains in effect for students who qualify for an exemption under this subsection before that period.

(q-1) A student who has demonstrated the performance standard for college readiness as provided by Section 28.008 on the postsecondary readiness assessment instruments adopted under Section 39.0238 for Algebra II and English III is exempt from the requirements of this section with respect to those content areas. The commissioner of higher education by rule shall establish the period for which an exemption under this subsection is valid.

(q-2) A student who successfully completes a college preparatory course under Section 28.014 is exempt from the requirements of this section with respect to the content area of the course. The commissioner of higher education by rule shall establish the period for which an exemption under this subsection is valid. The exemption applies only at the institution of higher education that partners with the school district in which the student is enrolled to provide the course, except that the commissioner by rule may determine the manner in which the exemption may be applied to institutions of higher education other than the partnering institution.

(r) This section does not apply to:

(1) a student who has graduated with an associate or baccalaureate degree from an institution of higher education;

(2) a student who transfers to an institution of higher education from a private or independent institution of higher education or an accredited out-of-state institution of higher education and who has satisfactorily completed college-level coursework;

(5) a student who is currently serving as and, for at least the three-year period preceding enrollment, has served as a member of a reserve component of the armed forces of the United States; or
(6) a student who on or after August 1, 1990, was honorably discharged, retired, or released from:
   (A) active duty as a member of the armed forces of the United States or the Texas National Guard; or
   (B) service as a member of a reserve component of the armed forces of the United States.
(s) An institution of higher education may exempt a non-degree-seeking or non-certificate-seeking student from the requirements of this section.
(t) To allow a student to complete any necessary developmental coursework in the most efficient and cost-effective manner, the board shall encourage institutions of higher education to offer various types of developmental coursework that address various levels of deficiency in readiness to perform college coursework for which course credit may be earned, as determined on the basis of assessments as described by Subsection (f). The types of developmental coursework may include:
   (1) course-based programs;
   (2) non-course-based programs, such as advising programs;
   (3) module format programs;
   (4) competency-based education programs; and
   (5) programs under which the student is pairing or taking concurrently a developmental education course and another course in the same subject area for which course credit may be earned.
   (t-1) The board may adopt rules as necessary to implement Subsection (t).

Such services include, but are not limited to, maintenance of building and grounds, operation of auxiliary enterprises, and operation of a jointly supported library.

Added by Acts 1985, 69th Leg., ch. 647, Sec. 1, eff. June 14, 1985.

Sec. 51.666. FACILITIES. A participating institution of higher education may lease facilities from or to the community/junior college for administrative and instructional purposes. Community/junior college facilities may not be transferred to the other participating institution of higher education and may not be included in the space inventory of the other participating institution of higher education for formula funding purposes.

Sec. 51.667. STATE FUNDING. The community/junior college shall receive state appropriations on the same formula basis as other community/junior colleges, and the other participating institution of higher education shall receive state appropriations on the same formula basis as other similar institutions of higher education.
Sec. 51.668. CONTINUING RESPONSIBILITIES. A participating community/junior college must continue to provide programs and services enumerated in Section 130.003(e). The role and scope of the other participating institution of higher education are subject to approval by the coordinating board.

SUBCHAPTER O. INTELLECTUAL PROPERTY POLICIES

Sec. 51.680. REVIEW BY COMMISSIONER OF HIGHER EDUCATION. (a) The commissioner of higher education, by December 31, 1987, shall review the intellectual property policies of institutions of higher education that were filed with the Coordinating Board, Texas College and University System, pursuant to Senate Concurrent Resolution 92 of the 69th Texas Legislature. In this review, the commissioner shall determine, as a ministerial duty, without regard to the substance of the content thereof, whether the intellectual property policies address as a minimum standard the following matters:

(1) disclosure of scientific and technological developments, including inventions, discoveries, trade secrets, and computer software;

(2) institutional review of scientific and technological disclosures, including consideration of ownership and appropriate legal protection;

(3) guidelines for licensing scientific and technological developments;

(4) clear identification of ownership and licensing responsibilities for each class of intellectual property;

(5) royalty participation by inventors and the institution; and

(6) equity and management participation on the part of the inventor or inventors in business entities that utilize technology
created at the institution of higher education.

(b) No later than January 31, 1988, the commissioner of higher education shall inform institutions of higher education whether their intellectual property policies meet the minimum standards set out in Subsection (a). Thereafter, an institution of higher education may file or post on the institution's website on the Internet in a manner available to the public policies amended to overcome any failure to meet the standards. The commissioner shall within a reasonable time after receiving an amended policy inform the submitting institution whether it meets the standards.

(c) It is a policy of the state that each institution of higher education shall at all times after August 31, 1988, have a current copy of its intellectual property policies that meet the minimum standards set out in Subsection (a) on file with the Texas Higher Education Coordinating Board or posted on the institution's website on the Internet in a manner available to the public. The commissioner of higher education shall establish procedures for the monitoring of this policy of the state.

(d) Institutions of higher education not having an intellectual property policy meeting the minimum standards set out in Subsection (a) of this section by August 31, 1988, shall not receive funds under any state-run competitive research or advanced technology funding programs.

**SUBCHAPTER P. FUND FOR THE NATIONAL CENTER FOR MANUFACTURING SCIENCES**

Sec. 51.701. LEGISLATIVE FINDINGS. The legislature finds that:

(1) strength in the manufacturing sector is critical to the United States' and Texas' international competitive position, as well as to the national security. Manufacturing has the highest economic multiplier of any industrial sector, contributing to economic growth and personal wealth. High technology manufacturing has the highest economic multiplier among manufacturing sectors;

(2) the health of the manufacturing sector is critical for economic growth in Texas. Texas, as a primary producer of raw materials, finds itself positioned to benefit tremendously from
improvement and development of its manufacturing capabilities, even
while the Texas economy suffers the consequences of having depended
too heavily on production of raw materials alone; and

(3) manufacturing industry sales growth and productivity
increases have been shown to move in direct relation to the
performance of research and development by the industry.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

Sec. 51.702. PURPOSE. It is the intent of the legislature that
Texas accept the challenge of becoming the nation's centerpoint for
advanced manufacturing technology development by aggressively
pursuing the siting in Texas of the National Center for Manufacturing
Sciences, proposed by the National Academy of Sciences and the
Manufacturing Science Board, and initiated by the National Machine
Tool Industry. With this centerpiece for advanced research and
technology transfer in the area of manufacturing sciences, Texas
could become a primary producer of high value-added products, with
enormous benefits for the entire economy.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

Sec. 51.703. DEFINITION. In this subchapter, "fund" means the
fund for the National Center for Manufacturing Sciences.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

Sec. 51.704. FUND. (a) The fund for the National Center for
Manufacturing Sciences is created as a special fund in the state
treasury.

(b) The fund consists of:
(1) appropriations; and
(2) grants from industry and other sources.

(c) For each biennium the legislature may appropriate to the
fund an amount equal to the amount of donations received from private
sources for the biennium, not to exceed $2 million per biennium.

(d) The comptroller shall administer the fund until the center
is located in Texas.
(e) The comptroller may accept grants for the purpose of the fund.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987. Amended by Acts 1997, 75th Leg., ch. 1423, Sec. 5.09, eff. Sept. 1, 1997.

Sec. 51.705. USE OF FUND. (a) When the National Center for Manufacturing Sciences is announced for location in Texas, the existing funds (and all subsequent funds) will be made available for use by the center in accordance with its charter.

(b) Should the center not be located in Texas, the industry grants will be returned to their source and the state's matching appropriation will be held for reappropriation by the legislature.

Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

SUBCHAPTER R. EDUCATIONAL ECONOMIC POLICY CENTER

Sec. 51.751. CREATION AND OPERATION. (a) The Educational Economic Policy Center is created as a consortium of universities. The center shall represent business, finance, public policy, education, and other appropriate disciplines.

(b) The center shall examine the efficiency of the public school system and the effectiveness of instructional methods and curricular programs and promote the use of successful methods and programs. The center shall monitor and evaluate the implementation of the accountability system under Chapter 39 and provide annual progress reports to the governor, Legislative Budget Board, and commissioner of education.

(c) The center may be funded by donations, grants, and legislative appropriations. The office of the governor may receive grants and donations for the purposes of this subchapter.

(d) The center may assist the legislature with education policy studies related to the purposes of the center on approval of the governor, lieutenant governor, and speaker. The center may participate in collaborative studies with foundations or organizations within or outside the state.
Sec. 51.752. EDUCATIONAL ECONOMIC POLICY COMMITTEE. (a) The Educational Economic Policy Committee is created as the primary policy-making body of the Educational Economic Policy Center. The committee shall study the elements of a quality educational system to:

(1) improve the management and productivity of the public education system to meet the demands of the twenty-first century;
(2) provide greater accountability to the taxpayers of the state; and
(3) improve the state's ability to compete in education and to compete economically with other states and nations.

(b) The committee is composed of nine members. The governor, lieutenant governor, and speaker of the house of representatives shall each appoint two members, only one of whom may be a board member or employee of a public school district, college, or university. Those appointees shall include persons in the private sector who have an interest in improving public education. In addition, the governor shall appoint three members who serve on the boards of regents representing the universities or systems participating in the center.

(c) Members of the committee serve two-year staggered terms.

(d) The governor shall appoint one member of the committee as the chairman.

(e) Members shall not receive salaries but shall be reimbursed for expenses incurred in attending meetings of the committee.

(f) State agencies shall cooperate with and assist the center at the committee's request.

(g) Not later than December 1 of each year, the committee shall report to the Legislative Budget Board, the governor, the State Board of Education, the Texas Higher Education Coordinating Board, and the legislature.

(h) If the legislature fails to appropriate funds for the operation of the Educational Economic Policy Center, the Legislative Budget Board shall perform the duties of the committee under this
subchapter. The board shall make the annual reports required by Subsection (g) to the presiding officers of the standing committees of the senate and the house of representatives with primary jurisdiction over the public school system.

as defined by Section 61.003, other than a public junior college.

Sec. 51.777. DELEGATION OF AUTHORITY. A board may, as appropriate, delegate by rule its authority under this subchapter to its designated representative.

Sec. 51.778. COMPETITIVE BIDDING ON CONTRACTS. (a) Except as otherwise provided by this subchapter, all contracts for the construction or erection of permanent improvements at an institution are void unless made after advertising for bids for the contracts in a manner prescribed by the institution's board, receiving sealed competitive bids, and awarding of the contract to the lowest responsible bidder by the board.

(b) If a contract awarded under sealed competitive bidding is to be recommended for award to other than the lowest bidder, any bidder making a lower bid than the recommended bid shall be notified of the recommendation for award and shall be allowed an opportunity before the award to present evidence to the board or its designated representative as to the responsibility of that bidder.

Sec. 51.779. EVALUATION OF BIDS AND PROPOSALS FOR CONSTRUCTION SERVICES. (a) An institution that is considering a construction contract using a method authorized by this subchapter must, before advertising, determine which method provides the best value for the institution.

(b) The institution shall base its selection among the offerors on criteria established by the institution. The institution shall publish in the request for bids, proposals, or qualifications the criteria that will be used to evaluate the offerors.
(c) The institution shall document the basis of its selection and shall make the evaluations public not later than the seventh day after the date the contract is awarded.

Sec. 51.780. DESIGN-BUILD CONTRACTS FOR FACILITIES. (a) In this section:
(1) "Design-build contract" means a single contract with a design-build firm for the design and construction of a facility.
(2) "Design-build firm" means a partnership, corporation, or other legal entity or team that includes an engineer or architect and builder qualified to engage in building construction in Texas.
(3) "Design criteria package" means a set of documents that provides sufficient information to permit a design-build firm to prepare a response to an institution's request for qualifications and any additional information requested, including criteria for selection. The design criteria package must specify criteria the institution considers necessary to describe the project and may include, as appropriate, the legal description of the site, survey information concerning the site, interior space requirements, special material requirements, material quality standards, conceptual criteria for the project, special equipment requirements, cost or budget estimates, time schedules, quality assurance and quality control requirements, site development requirements, applicable codes and ordinances, provisions for utilities, parking requirements, or any other requirement, as applicable.

(b) An institution may use the design-build method for the construction, rehabilitation, alteration, or repair of a facility. In using that method and in entering into a contract for the services of a design-build firm, the contracting institution and the design-build firm shall follow the procedures provided by Subsections (c)-(k).

(c) The board may designate an engineer or architect independent of the design-build firm to act as its representative for the duration of the work on the facility. If the board's engineer or architect is not a full-time employee of the institution, any
engineer or architect designated shall be selected on the basis of demonstrated competence and qualifications in accordance with Section 2254.004, Government Code.

(d) The institution shall prepare a request for qualifications that includes general information on the project site, project scope, budget, special systems, selection criteria, and other information that may assist potential design-build firms in submitting proposals for the project. The institution shall also prepare the design criteria package that includes more detailed information on the project. If the preparation of the design criteria package requires engineering or architectural services that constitute the practice of engineering within the meaning of Chapter 1001, Occupations Code, or the practice of architecture within the meaning of Chapter 1051, Occupations Code, those services shall be provided in accordance with the applicable law.

(e) The board or its representative shall publish the request for qualifications in a manner prescribed by the board.

(f) The board or its representative shall evaluate statements of qualifications and select a design-build firm in two phases:

(1) In phase one, the board or its representative shall prepare a request for qualifications and evaluate each offeror's experience, technical competence, and capability to perform, the past performance of the offeror's team and members of the team, and other appropriate factors submitted by the team or firm in response to the request for qualifications, except that cost-related or price-related evaluation factors are not permitted. Each offeror must certify to the board that each engineer or architect that is a member of its team was selected based on demonstrated competence and qualifications in the manner provided by Section 2254.004, Government Code. The board or its representative shall qualify a maximum of five offerors to submit additional information and, if the board or its representative chooses, to interview for final selection.

(2) In phase two, the board or its representative shall evaluate the information submitted by the offerors on the basis of the selection criteria stated in the request for qualifications and the results of any interview. The board or its representative may request additional information regarding demonstrated competence and qualifications, considerations of the safety and long-term durability of the project, the feasibility of implementing the project as proposed, the ability of the offeror to meet schedules, costing
methodology, or other factors as appropriate. The board or its representative may not require offerors to submit detailed engineering or architectural designs as part of the proposal. The board or its representative shall rank each proposal submitted on the basis of the criteria specified in the request for qualifications. The board or its representative shall select the design-build firm that submits the proposal offering the best value for the institution on the basis of the published selection criteria and on its ranking evaluations. The board or its representative shall first attempt to negotiate with the selected offeror a contract. If the board or its representative is unable to negotiate a satisfactory contract with the selected offeror, the institution shall, formally and in writing, end all negotiations with that offeror and proceed to negotiate with the next offeror in the order of the selection ranking until a contract is reached or negotiations with all ranked offerors end.

(g) Following selection of a design-build firm under Subsection (f), that firm's engineers or architects shall complete the design, submitting all design elements for review and determination of scope compliance by the institution's engineer or architect before or concurrently with construction.

(h) An engineer shall have responsibility for compliance with the engineering design requirements and all other applicable requirements of Chapter 1001, Occupations Code. An architect shall have responsibility for compliance with the requirements of Chapter 1051, Occupations Code.

(i) The institution shall provide or contract for, independently of the design-build firm, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The institution shall select those services for which it contracts in accordance with Section 2254.004, Government Code.

(j) The design-build firm shall supply a signed and sealed set of construction documents for the project to the institution at the conclusion of construction.

(k) A payment or performance bond is not required for, and may not provide coverage for, the portion of a design-build contract under this section that includes design services only. If a fixed contract amount or guaranteed maximum price has not been determined at the time a design-build contract is awarded, the penal sums of the performance and payment bonds delivered to the institution shall each
be in an amount equal to the project budget, as specified in the
design criteria package. The design-build firm shall deliver the
bonds not later than the 10th day after the date the design-build
firm executes the contract unless the design-build firm furnishes a
bid bond or other financial security acceptable to the institution to
ensure that the design-build firm will furnish the required
performance and payment bonds when a guaranteed maximum price is
established.

Amended by Acts 1999, 76th Leg., ch. 1225, Sec. 13, 14, eff. Sept. 1,
1999; Acts 2001, 77th Leg., ch. 1409, Sec. 14, eff. Sept. 1, 2001;

Sec. 51.781. CONTRACTS FOR FACILITIES: CONSTRUCTION MANAGER-AGENT. (a) An institution may use the construction manager-agent
method for the construction, rehabilitation, alteration, or repair of
a facility. In using that method and in entering into a contract for
the services of a construction manager-agent, a board shall follow
the procedures prescribed by this section.

(b) A construction manager-agent is a sole proprietorship,
partnership, corporation, or other legal entity that provides
consultation to the institution regarding construction,
rehabilitation, alteration, or repair of the facility. An
institution using the construction manager-agent method may, under
the contract between the institution and the construction manager-
agent, require the construction manager-agent to provide
administrative personnel, equipment necessary to perform duties under
this section, and on-site management and other services specified in
the contract. A construction manager-agent represents the
institution in a fiduciary capacity.

(c) Before or concurrently with selecting a construction
manager-agent, the board shall select or designate an engineer or
architect who shall prepare the construction documents for the
project and who has full responsibility for complying with Chapter
1001 or 1051, Occupations Code, as applicable. If the engineer or
architect is not a full-time employee of the institution, the board
shall select the engineer or architect on the basis of demonstrated
competence and qualifications as provided by Section 2254.004,
Government Code. The institution's engineer or architect may not serve, alone or in combination with another person, as the construction manager-agent unless the engineer or architect is hired to serve as the construction manager-agent under a separate or concurrent procurement conducted in accordance with this subchapter. This subsection does not prohibit the institution's engineer or architect from providing customary construction phase services under the engineer's or architect's original professional service agreement in accordance with applicable licensing laws.

(d) A board shall select a construction manager-agent on the basis of demonstrated competence and qualifications in the same manner as provided for the selection of engineers or architects under Section 2254.004, Government Code.

(e) A board using the construction manager-agent method shall procure, in accordance with applicable law and in any manner authorized by this chapter, a general contractor, trade contractors, or subcontractors who will serve as the prime contractor for their specific portion of the work.

(f) The board or the construction manager-agent shall procure in accordance with Section 2254.004, Government Code, all of the testing of construction materials engineering, the inspection services, and the verification testing services necessary for acceptance of the facility by the institution.

Sec. 51.782. CONTRACTS FOR FACILITIES: CONSTRUCTION MANAGER-AT-RISK. (a) An institution may use the construction manager-at-risk method for the construction, rehabilitation, alteration, or repair of a facility. In using that method and in entering into a contract for the services of a construction manager-at-risk, a board shall follow the procedures prescribed by this section.

(b) A construction manager-at-risk is a sole proprietorship, partnership, corporation, or other legal entity that assumes the risk for construction, rehabilitation, alteration, or repair of a facility at the contracted price as a general contractor and provides...
consultation to the institution regarding construction during and after the design of the facility.

(c) Before or concurrently with selecting a construction manager-at-risk, the board shall select or designate an engineer or architect who shall prepare the construction documents for the project and who has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code. The institution's engineer, architect, or construction manager-agent for a project may not serve, alone or in combination with another, as the construction manager-at-risk unless the engineer or architect is hired to serve as the construction manager-at-risk under a separate or concurrent procurement conducted in accordance with this subchapter. This subsection does not prohibit the institution's engineer or architect from providing customary construction phase services under the engineer's or architect's original professional service agreement in accordance with applicable licensing laws.

(d) The board shall provide or contract for, independently of the construction manager-at-risk, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The board shall select those services for which it contracts in accordance with Section 2254.004, Government Code.

(e) The board shall select the construction manager-at-risk in either a one-step or two-step process. The board shall prepare a request for proposals, in the case of a one-step process, or a request for qualifications, in the case of a two-step process, that includes general information on the project site, project scope, schedule, selection criteria, estimated budget, and the time and place for receipt of proposals or qualifications, as applicable, a statement as to whether the selection process is a one-step or two-step process, and other information that may assist the board in its selection of a construction manager-at-risk. The board shall state the selection criteria in the request for proposals or qualifications, as applicable. The selection criteria may include the offeror's experience, past performance, safety record, proposed personnel and methodology, and other appropriate factors that
demonstrate the capability of the construction manager-at-risk. If a
one-step process is used, the board may request, as part of the
offeror's proposal, proposed fees and prices for fulfilling the
general conditions. If a two-step process is used, the board may not
request fees or prices in step one. In step two, the board may
request that five or fewer offerors, selected solely on the basis of
qualifications, provide additional information, including the
construction manager-at-risk's proposed fee and its price for
fulfilling the general conditions.

(f) The board shall publish the request for qualifications in a
manner prescribed by the board.

(g) At each step, the board shall receive, publicly open, and
read aloud the names of the offerors. At the appropriate step, the
board shall also read aloud the fees and prices, if any, stated in
each proposal as the proposal is opened. Within 45 days after the
date of opening the proposals, the board or its representative shall
evaluate and rank each proposal submitted in relation to the criteria
set forth in the request for proposals.

(h) The board or its representative shall select the offeror
that submits the proposal that offers the best value for the
institution based on the published selection criteria and on its
ranking evaluation. The board or its representative shall first
attempt to negotiate with the selected offeror a contract. If the
board or its representative is unable to negotiate a satisfactory
contract with the selected offeror, the board or its representative
shall, formally and in writing, end negotiations with that offeror
and proceed to negotiate with the next offeror in the order of the
selection ranking until a contract is reached or negotiations with
all ranked offerors end.

(i) A construction manager-at-risk shall publicly advertise, in
the manner prescribed by the institution, and receive bids or
proposals from trade contractors or subcontractors for the
performance of all major elements of the work other than general
conditions work. A construction manager-at-risk may seek to perform
major elements of the work itself if the construction manager-at-risk
submits its bid or proposal for that work in the same manner as all
other trade contractors or subcontractors and if the board determines
that the construction manager-at-risk's bid or proposal provides the
best value for the institution. If no satisfactory bid or proposal
for a major element of the work is received in the time allowed, the
board may negotiate directly with the construction manager-at-risk for performance of that work. The board may negotiate directly with the manager-at-risk for the performance of minor elements of the work that are not included in major work packages.

(j) The construction manager-at-risk and the board or its representative shall review all trade contractor or subcontractor bids or proposals in a manner that does not disclose the contents of the bid or proposal during the selection process to a person not employed by the construction manager-at-risk, engineer, architect, or institution. All bids or proposals shall be made public after the award of the contract or within seven days after the date of final selection of bids and proposals, whichever is later.

(k) If the construction manager-at-risk reviews, evaluates, and recommends to the board a bid or proposal from a trade contractor or subcontractor but the board requires another bid or proposal to be accepted, the institution shall compensate the construction manager-at-risk by a change in price, time, or guaranteed maximum cost for any additional cost and risk that the construction manager-at-risk may incur because of the board's requirement that another bid or proposal be accepted.

(l) If a selected trade contractor or subcontractor defaults in the performance of its work or fails to execute a subcontract after being selected in accordance with this section, the construction manager-at-risk may, without advertising, itself fulfill the contract requirements or select a replacement trade contractor or subcontractor to fulfill the contract requirements.

(m) If a fixed contract amount or guaranteed maximum price has not been determined at the time the contract is awarded, the penal sums of the performance and payment bonds delivered to the institution must each be in an amount equal to the project budget, as set forth in the request for qualifications. The construction manager shall deliver the bonds not later than the 10th day after the date the construction manager executes the contract unless the construction manager furnishes a bid bond or other financial security acceptable to the institution to ensure that the construction manager will furnish the required performance and payment bonds when a guaranteed maximum price is established.

Sec. 51.783. SELECTING CONTRACTOR FOR CONSTRUCTION SERVICES THROUGH COMPETITIVE SEALED PROPOSALS. (a) In selecting a contractor for construction, rehabilitation, alteration, or repair services for a facility through competitive sealed proposals, a board shall follow the procedures prescribed by this section.

(b) The board shall select or designate an engineer or architect to prepare construction documents for the project. The selected or designated engineer or architect has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code.

(c) The board shall provide or contract for, independently of the contractor, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The board shall select those services for which it contracts in accordance with Section 2254.004, Government Code, and shall identify them in the request for proposals.

(d) The board shall prepare a request for competitive sealed proposals that includes construction documents, selection criteria, estimated budget, project scope, schedule, and other information that contractors may require to respond to the request. The board shall state in the request for proposals the selection criteria that will be used in selecting the successful offeror.

(e) The board shall publish notice of the request for proposals in a manner prescribed by the board.

(f) The board shall receive, publicly open, and read aloud the names of the offerors and, if any are required to be stated, all prices stated in each proposal. Within 45 days after the date of opening the proposals the board shall evaluate and rank each proposal submitted in relation to the published selection criteria.

(g) The board shall select the offeror that offers the best value for the institution based on the published selection criteria.
and on its ranking evaluation. The board shall first attempt to negotiate with the selected offeror a contract. The board and its engineer or architect may discuss with the selected offeror options for a scope or time modification and any price change associated with the modification. If the board is unable to reach a contract with the selected offeror, the board shall, formally and in writing, end negotiations with that offeror and proceed to the next offeror in the order of the selection ranking until a contract is reached or all proposals are rejected.

(h) In determining best value for the institution, the board is not restricted to considering price alone but may consider any other factor stated in the selection criteria.

Sec. 51.784. JOB ORDER CONTRACTS FOR FACILITIES CONSTRUCTION OR REPAIR. (a) An institution may award job order contracts for the minor construction, repair, rehabilitation, or alteration of a facility if the work is of a recurring nature but the delivery times are indefinite and indefinite quantities and orders are awarded substantially on the basis of predescribed and prepriced tasks.

(b) The institution may establish contractual unit prices for a job order contract by:

(1) specifying one or more published construction unit price books and the applicable divisions or line items; or

(2) providing a list of work items and requiring the offerors to bid or propose one or more coefficients or multipliers to be applied to the price book or work items as the price proposal.

(c) The board shall advertise for, receive, and publicly open sealed proposals for job order contracts.

(d) The board may require offerors to submit additional information besides rates, including experience, past performance, and proposed personnel and methodology.

(e) The board may award job order contracts to one or more job order contractors in connection with each solicitation of bids or proposals.
(f) An order for a job or project under the job order contract must be signed by the board's representative and the contractor. The order may be a fixed price, lump-sum contract based substantially on contractual unit pricing applied to estimated quantities or may be a unit price order based on the quantities and line items delivered.

(g) The contractor shall provide payment and performance bonds, if required by law, based on the amount or estimated amount of any order.

(h) The base term of a job order contract is for the period and with any renewal options that the institution sets forth in the request for proposals. If the institution fails to advertise that term, the base term may not exceed two years and is not renewable without further advertisement and solicitation of proposals.

(i) If a job order contract or an order issued under the contract requires engineering or architectural services that constitute the practice of engineering within the meaning of Chapter 1001, Occupations Code, or the practice of architecture within the meaning of Chapter 1051, Occupations Code, the board shall select or designate an architect or engineer to prepare the construction documents for the facility. If the architect or engineer is not a full-time employee of the institution, the board shall select the architect or engineer on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code.

Sec. 51.785. CERTAIN CONTRACTS PROHIBITED. The board of an institution may not enter into a contract with a person relating to a permanent improvement project at the institution under which the institution makes contractual payments to the person that are not reflected on the institution's financial statement unless the board:

(1) is specifically authorized to enter into the contract by other law; or
receives prior approval by the Texas Higher Education Coordinating Board.

SUBCHAPTER U. UNIFORM ADMISSION POLICY

Sec. 51.801. DEFINITIONS. In this subchapter, "general academic teaching institution," "governing board," "medical and dental unit," and "university system" have the meanings assigned by Section 61.003.

Added by Acts 1997, 75th Leg., ch. 155, Sec. 1, eff. Sept. 1, 1997.

Sec. 51.802. UNIFORM ADMISSION SYSTEM. A general academic teaching institution shall admit first-time freshman students for each semester under the provisions of this subchapter.

Added by Acts 1997, 75th Leg., ch. 155, Sec. 1, eff. Sept. 1, 1997.

Sec. 51.803. AUTOMATIC ADMISSION: ALL INSTITUTIONS. (a) Subject to Subsection (a-1), each general academic teaching institution shall admit an applicant for admission to the institution as an undergraduate student if the applicant graduated with a grade point average in the top 10 percent of the student's high school graduating class in one of the two school years preceding the academic year for which the applicant is applying for admission and:

1. the applicant graduated from a public or private high school in this state accredited by a generally recognized accrediting organization or from a high school operated by the United States Department of Defense;

2. the applicant:

   (A) successfully completed:

      i. at a public high school, the curriculum requirements established under Section 28.025 for the distinguished level of achievement under the foundation high school program; or

      ii. at a high school to which Section 28.025 does not apply, a curriculum that is equivalent in content and rigor to...
the distinguished level of achievement under the foundation high school program; or

(B) satisfied ACT's College Readiness Benchmarks on the ACT assessment applicable to the applicant or earned on the SAT assessment a score of at least 1,500 out of 2,400 or the equivalent; and

(3) if the applicant graduated from a high school operated by the United States Department of Defense, the applicant is a Texas resident under Section 54.052 or is entitled to pay tuition fees at the rate provided for Texas residents under Section 54.241(d) for the term or semester to which admitted.

(a-1) Beginning with admissions for the 2011-2012 academic year, The University of Texas at Austin is not required to offer admission to applicants who qualify for automatic admission under Subsection (a) in excess of the number required to fill 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students in an academic year. If the number of applicants who qualify for automatic admission to The University of Texas at Austin under Subsection (a) for an academic year exceeds 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students for that academic year, the university may elect to offer admission to those applicants as provided by this subsection and not as otherwise required by Subsection (a). If the university elects to offer admission under this subsection, the university shall offer admission to those applicants by percentile rank according to high school graduating class standing based on grade point average, beginning with the top percentile rank, until the applicants qualified under Subsection (a) have been offered admission in the number estimated in good faith by the university as sufficient to fill 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students, except that the university must offer admission to all applicants with the same percentile rank. After the applicants qualified for automatic admission under Subsection (a) have been offered admission under this subsection in the number estimated in good faith as sufficient to fill 75 percent of the designated enrollment capacity described by this subsection, the university shall consider any remaining applicants qualified for automatic admission under Subsection (a) in the same manner as other applicants for admission as first-time undergraduate students in accordance with
Section 51.805.

(a-2) If the number of applicants who apply to a general academic teaching institution during the current academic year for admission in the next academic year and who qualify for automatic admission to a general academic teaching institution under Subsection (a) exceeds 75 percent of the institution's enrollment capacity designated for first-time resident undergraduate students for that next academic year and the institution plans to offer admission under Subsection (a-1) during the next school year, the institution shall, in the manner prescribed by the Texas Education Agency and not later than September 15, provide to each school district, for dissemination of the information to high school junior-level students and their parents, notice of which percentile ranks of high school senior-level students who qualify for automatic admission under Subsection (a) are anticipated by the institution to be offered admission under Subsection (a-1) during the next school year.

(a-3) Notwithstanding Subsection (a-1), The University of Texas at Austin may not offer admission under that subsection for an academic year after the 2017-2018 academic year.

(a-4) If The University of Texas at Austin elects to offer admission to first-time resident undergraduate students under Subsection (a-1) for an academic year, the university must continue its practice of not considering an applicant's legacy status as a factor in the university's decisions relating to admissions for that academic year.

(a-5) A general academic teaching institution that offers admission to first-time resident undergraduate students under Subsection (a-1) shall require that a student admitted under that subsection complete a designated portion of not less than six semester credit hours of the student's coursework during evening hours or other low-demand hours as necessary to ensure the efficient use of the institution's available classrooms.

(a-6) Not later than December 31 of each academic year in which The University of Texas at Austin offers admission under Subsection (a-1), the university shall deliver a written report to the governor, the lieutenant governor, and speaker of the house of representatives regarding the university's progress in each of the following matters:

(1) increasing geographic diversity of the entering freshman class;
(2) counseling and outreach efforts aimed at students
qualified for automatic admission under this section;

(3) recruiting Texas residents who graduate from other institutions of higher education to the university's graduate and professional degree programs;

(4) recruiting students who are members of underrepresented demographic segments of the state's population; and

(5) assessing and improving the university's regional recruitment centers.

(b) An applicant who does not satisfy the curriculum requirements prescribed by Subsection (a)(2)(A)(i) or (ii) is considered to have satisfied those requirements if the student completed the portion of the distinguished level of achievement under the foundation high school program curriculum or of the curriculum equivalent in content and rigor, as applicable, that was available to the student but was unable to complete the remainder of the curriculum solely because courses necessary to complete the remainder were unavailable to the student at the appropriate times in the student's high school career as a result of course scheduling, lack of enrollment capacity, or another cause not within the student's control.

(c) To qualify for admission under this section, an applicant must:

(1) submit an application before the expiration of any application filing deadline established by the institution; and

(2) provide a high school transcript or diploma that satisfies the requirements of Subsection (d).

(d) For purposes of Subsection (c)(2), a student's official transcript or diploma must, not later than the end of the student's junior year, indicate:

(1) whether the student has satisfied or is on schedule to satisfy the requirements of Subsection (a)(2)(A)(i) or (ii), as applicable; or

(2) if Subsection (b) applies to the student, whether the student has completed the portion of the distinguished level of achievement under the foundation high school program curriculum or of the curriculum equivalent in content and rigor, as applicable, that was available to the student.

(e) Each institution of higher education shall admit an applicant for admission to the institution as an undergraduate student if the applicant:
(1) is the child of a public servant listed in Section 615.003, Government Code, who was killed or sustained a fatal injury in the line of duty; and

(2) meets the minimum requirements, if any, established for purposes of this subsection by the governing board of the institution for high school or prior college-level grade point average and performance on standardized tests.

(f) After admitting an applicant under this section, the institution shall review the applicant's record and any other factor the institution considers appropriate to determine whether the applicant may require additional preparation for college-level work or would benefit from inclusion in a retention program. The institution may require a student so identified to enroll during the summer immediately after the student is admitted under this section to participate in appropriate enrichment courses and orientation programs. This section does not prohibit a student who is not determined to need additional preparation for college-level work from enrolling, if the student chooses, during the summer immediately after the student is admitted under this section.

(g) The Texas Higher Education Coordinating Board by rule shall develop and implement a program to increase and enhance the efforts of general academic teaching institutions in conducting outreach to academically high-performing high school seniors in this state who are likely to be eligible for automatic admission under Subsection (a) to provide to those students information and counseling regarding the operation of this section and other opportunities, including financial assistance, available to those students for success at public institutions of higher education in this state. Under the program, the coordinating board, after gathering information and recommendations from available sources and examining current outreach practices by institutions in this state and in other states, shall prescribe best practices guidelines and standards to be used by general academic teaching institutions in conducting the student outreach described by this subsection.

(h) An institution that admits under this section an applicant qualified for automatic admission under Subsection (a) may admit the applicant for either the fall semester of the academic year for which the applicant applies or for the summer session preceding that fall semester, as determined by the institution.

(i) If a general academic teaching institution denies admission
to an applicant for an academic year, in any letter or other communication the institution provides to the applicant notifying the applicant of that denial, the institution may not reference the provisions of this section, including using a description of a provision of this section such as the top 10 percent automatic admissions law, as a reason the institution is unable to offer admission to the applicant unless the number of applicants for admission to the institution for that academic year who qualify for automatic admission under Subsection (a) is sufficient to fill 100 percent of the institution's enrollment capacity designated for first-time resident undergraduate students.

(j) A general academic teaching institution that elects to offer admission under Subsection (a-1) for an academic year may not offer admission to first-time undergraduate students who are not residents of this state for that academic year in excess of the number required to fill 10 percent of the institution's enrollment capacity designated for first-time undergraduate students for that academic year.

(k) A general academic teaching institution may not offer admission under Subsection (a-1) for an academic year after the 2017-2018 academic year if, on the date of the institution's general deadline for applications for admission of first-time undergraduate students for that academic year:

(1) a final court order applicable to the institution prohibits the institution from considering an applicant's race or ethnicity as a factor in the institution's decisions relating to first-time undergraduate admissions; or

(2) the institution's governing board by rule, policy, or other manner has provided that an applicant's race or ethnicity may not be considered as a factor in the institution's decisions relating to first-time undergraduate admissions for that academic year.

(l) The Texas Higher Education Coordinating Board shall publish an annual report on the impact of Subsection (a-1) on the state's goal of closing college access and achievement gaps under "Closing the Gaps," the state's master plan for higher education, with respect to students of an institution that offers admission under that subsection, disaggregated by race, ethnicity, socioeconomic status, and geographic region and by whether the high school from which the student graduated was a small school, as defined by the commissioner of education, or a public high school that is ranked among the lowest
20 percent of public high schools according to the percentage of each high school's graduates who enroll in a four-year institution, including a general academic teaching institution, in one of the two academic years following the year of the applicant's high school graduation. On request, a general academic teaching institution that offers admission under Subsection (a-1) shall provide the board with any information the board considers necessary for the completion of the report required by this subsection.

(m) The Texas Higher Education Coordinating Board and the commissioner of education shall jointly adopt rules to establish eligibility requirements for admission under this section as to curriculum requirements for high school graduation under Subsection (a)(2)(A) for students participating under the recommended or advanced high school program so that the admission of those students is not affected by their participation in the recommended or advanced high school program. This subsection expires September 1, 2020.

Sec. 51.8035. AUTOMATIC ADMISSION OF APPLICANTS COMPLETING CORE CURRICULUM AT ANOTHER INSTITUTION. (a) In this section:
  (1) "Core curriculum" means the core curriculum adopted by an institution of higher education under Section 61.822.
  (2) "General academic teaching institution" has the meaning assigned by Section 61.003.
  (b) A general academic teaching institution shall admit an applicant for admission to the institution as a transfer
undergraduate student who:

(1) graduated from high school not earlier than the fourth school year before the academic year for which the applicant seeks admission to the institution as a transfer student and:

(A) qualified for automatic admission to a general academic teaching institution under Section 51.803 at the time of graduation; or

(B) was previously offered admission under this subchapter to the institution to which the applicant seeks admission as a transfer student;

(2) first enrolled in a public junior college or other public or private lower-division institution of higher education not earlier than the third academic year before the academic year for which the applicant seeks admission;

(3) completed the core curriculum at a public junior college or other public or private lower-division institution of higher education with a cumulative grade point average of at least 2.5 on a four-point scale or the equivalent; and

(4) submits a completed application for admission as a transfer student before the expiration of any application filing deadline established by the institution.

(c) For purposes of this section, transfer semester credit hours from a different institution of higher education and semester credit hours earned by examination shall be included in determining whether the person completed the core curriculum at an institution of higher education.

(d) It is the responsibility of the applicant for admission under this section to:

(1) expressly and clearly claim in the application entitlement to admission under this section; and

(2) timely provide to the general academic teaching institution the documentation required by the institution to determine the student's entitlement to admission under this section.

Added by Acts 2009, 81st Leg., R.S., Ch. 1342 (S.B. 175), Sec. 2, eff. June 19, 2009.
general academic teaching institution shall determine whether to adopt an admissions policy under which an applicant to the institution as a first-time freshman student, other than an applicant eligible for admission under Section 51.803, shall be admitted to the institution if the applicant:

(1) graduated from a public or private high school in this state accredited by a generally recognized accrediting organization with a grade point average in the top 25 percent of the applicant's high school graduating class; and

(2) satisfies the requirements of:
   (A) Section 51.803(a)(2)(A) or 51.803(b), as applicable to the student, or Section 51.803 (a)(2)(B); and

Sec. 51.8045. GRADUATES OF CERTAIN SPECIAL HIGH SCHOOL PROGRAMS. (a) For purposes of Sections 51.803 and 51.804 only, the governing body of a school district may treat a high school magnet program, academy, or other special program conducted by the school district at a high school attended by high school students who are not students of the special program as an independent high school with its own graduating class separate from the graduating class of other students attending the high school if:

(1) the special program was in operation in the 2000-2001 school year;

(2) the students of the special program are recruited, selected, or admitted from among the students residing in the attendance zones of not fewer than 10 regular high schools in the district, including the high school at which the special program is conducted;

(3) the students of the special program are selected or admitted independently of and identified as a student body separate from the other students of the high school;

(4) the students of the special program constitute not less than 35 percent of the total number of students in the graduating
class at the high school at which the special program is conducted; (5) the students of the special program have a curriculum different from that of the other students of the high school, even if students of the special program and other students of the high school attend some of the same classes; and (6) a student graduating from the special program receives a high school diploma that includes a reference to the special program in describing the high school from which the student graduated.

(b) This section does not apply to the manner in which the members of a graduating class of the high school as a whole, including graduates of the special program, are ranked by grade point average for purposes other than admissions under Sections 51.803 and 51.804.

Sec. 51.805. OTHER ADMISSIONS. (a) A graduating student who does not qualify for admission under Section 51.803 or 51.804 may apply to any general academic teaching institution if the student:

(1) successfully completed:

(A) at a public high school, the curriculum requirements established under Section 28.025 for the foundation high school program; or

(B) at a high school to which Section 28.025 does not apply, a curriculum that is equivalent in content and rigor to the foundation high school program; or

(2) satisfied ACT's College Readiness Benchmarks on the ACT assessment applicable to the applicant or earned on the SAT assessment a score of at least 1,500 out of 2,400 or the equivalent.

(b) The general academic teaching institution, after admitting students under Sections 51.803 and 51.804, shall admit other applicants for admission as undergraduate students. It is the intent of the legislature that all institutions of higher education pursue academic excellence by considering students' academic achievements in decisions related to admissions. Because of changing demographic trends, diversity, and population increases in the state, each general academic teaching institution shall also consider all of, any of, or a combination of the following socioeconomic indicators or
factors in making first-time freshman admissions decisions:

(1) the applicant's academic record;

(2) the socioeconomic background of the applicant, including the percentage by which the applicant's family is above or below any recognized measure of poverty, the applicant's household income, and the applicant's parents' level of education;

(3) whether the applicant would be the first generation of the applicant's family to attend or graduate from an institution of higher education;

(4) whether the applicant has bilingual proficiency;

(5) the financial status of the applicant's school district;

(6) the performance level of the applicant's school as determined by the school accountability criteria used by the Texas Education Agency;

(7) the applicant's responsibilities while attending school, including whether the applicant has been employed, whether the applicant has helped to raise children, or other similar factors;

(8) the applicant's region of residence;

(9) whether the applicant is a resident of a rural or urban area or a resident of a central city or suburban area in the state;

(10) the applicant's performance on standardized tests;

(11) the applicant's performance on standardized tests in comparison with that of other students from similar socioeconomic backgrounds;

(12) whether the applicant attended any school while the school was under a court-ordered desegregation plan;

(13) the applicant's involvement in community activities;

(14) the applicant's extracurricular activities;

(15) the applicant's commitment to a particular field of study;

(16) the applicant's personal interview;

(17) the applicant's admission to a comparable accredited out-of-state institution; and

(18) any other consideration the institution considers necessary to accomplish the institution's stated mission.

(c) A general academic teaching institution may review other factors in making an admissions decision.

(d) Not later than one year before the date that applications for admission are first considered under this section, each general
academic teaching institution shall publish in the institution's catalog a description of the factors considered by the institution in making admission decisions and shall make the information available to the public.

(e) This section does not apply to an institution that has an open enrollment policy, except that a student may apply to a general academic teaching institution that has an open enrollment policy only if the student satisfies the requirements described by Subsection (a).

(f) This section does not apply to Lamar State College--Orange or Lamar State College--Port Arthur as long as those institutions operate as two-year lower-division institutions of higher education.

(g) The Texas Higher Education Coordinating Board and the commissioner of education shall jointly adopt rules to establish eligibility requirements for admission under this section as to curriculum requirements for high school graduation under Subsection (a)(1) for students participating in the minimum, recommended, or advanced high school program so that the admission requirements for those students under this section are not more stringent than the admission requirements under this section for students participating in the foundation high school program. This subsection expires September 1, 2020.

Sec. 51.807. RULEMAKING. (a) The Texas Higher Education Coordinating Board may adopt rules relating to the operation of admissions programs under this subchapter, including rules relating to the identification of eligible students.

(b) The Texas Higher Education Coordinating Board, after consulting with the Texas Education Agency, by rule shall establish standards for determining for purposes of this subchapter:
whether a private high school is accredited by a generally recognized accrediting organization; and

whether a person completed a high school curriculum that is equivalent in content and rigor to the curriculum requirements established under Section 28.025 for the foundation high school program or the distinguished level of achievement under the foundation high school program.

Sec. 51.808. APPLICATION OF ADMISSION CRITERIA TO OTHER PROGRAMS. (a) Each general academic teaching institution or medical and dental unit that offers admissions to undergraduate transfer students or admissions to a graduate, postgraduate, or professional program shall adopt a written admission policy applicable to those programs.

(b) Each general academic teaching institution shall adopt a written admission policy to promote the admission of undergraduate transfer students to the institution. The policy must provide for outreach and recruiting efforts directed at junior colleges and other lower-division institutions of higher education and may include incentives to encourage transfer applications and to retain and promote transfer students.

(c) A policy adopted under this section shall be published in the institution's or unit's catalog and made available to the public.

(b) A policy adopted under this section shall be published in the institution's or unit's catalog and shall be made available to the public in advance of any deadline for the submission of an application for a competitive scholarship or fellowship to which the policy applies.

(d-6) An institution of higher education or private or independent institution of higher education shall provide, with the registration materials that the institution provides to a student to whom this section applies before the student's initial enrollment in the institution, written notice of the right of the student or of a parent or guardian of the student to claim an exemption from the vaccination requirement in the manner prescribed by Subsection (d) and of the importance of consulting a physician about the need for immunization to prevent the disease.

(e) The Texas Higher Education Coordinating Board, in consultation with institutions of higher education and private or independent institutions of higher education, shall adopt rules for the administration of this section, including rules establishing the date by which a student who is required to comply with Subsection (c) must have received the vaccination required by that subsection, which may not be later than the 10th day before the first day of the semester or other term in which the student initially enrolls unless the student is granted an extension by the institution as provided by the rules adopted under this subsection. The rules must authorize an institution of higher education or private or independent institution of higher education to extend the compliance date for an individual student to a date that is not later than the 10th day after the first day of the semester or other term in which the student initially enrolls.

Any such contract or transaction requiring board approval must be approved by an affirmative majority of the board members voting on the contract or transaction.

(e) For purposes of this section, a member of a governing board has a substantial interest in a business entity if:

Statute text rendered on: 1/28/2015
(2) "Nontraditional secondary education" means a course of study at the secondary school level in a nonaccredited private school setting, including a home school.

(b) Because the State of Texas considers successful completion of a nontraditional secondary education to be equivalent to graduation from a public high school, an institution of higher education must treat an applicant for admission to the institution as an undergraduate student who presents evidence that the person has successfully completed a nontraditional secondary education according to the same general standards as other applicants for undergraduate admission who have graduated from a public high school.

(c) An institution of higher education may not require an applicant for admission to the institution as an undergraduate student who presents evidence that the person has successfully completed a nontraditional secondary education to:

(1) obtain or submit evidence that the person has obtained a general education development certificate, certificate of high school equivalency, or other credentials equivalent to a public high school degree; or

(2) take an examination or comply with any other application or admission requirement not generally applicable to other applicants for undergraduate admission to the institution.

Sec. 51.9242. READMISSION OF STUDENT WHO WITHDRAWS TO PERFORM ACTIVE MILITARY SERVICE. (a) This section applies only to a student who withdraws from an institution of higher education to perform active military service as a member of the United States armed forces or the Texas National Guard, except that this section does not apply to a student who withdraws from an institution solely to perform one or more training exercises as a member of the Texas National Guard.

(b) For any academic term that begins after the date a student described by Subsection (a) is released from active military service but not later than the first anniversary of that date, the institution of higher education from which the student withdrew shall readmit the student, without requiring reapplication or charging a fee for readmission, if the student is otherwise eligible to register
for classes at the institution. On readmission of the student under this subsection, the institution shall:

(1) if the general academic teaching institution requires a minimum high school grade point average as an admissions criterion for any entering freshman, that minimum applies to all freshmen being admitted; or

(2) for an applicant other than an entering freshman, the applicant's cumulative college-level grade point average is equal to or greater than the minimum cumulative college-level grade point average required for an undergraduate student to remain enrolled at the institution in the preceding academic year.

Sec. 51.925. RELIGIOUS HOLY DAYS. (a) An institution of higher education may not discriminate against or penalize in any way a member of the faculty of the institution who is absent from work for the observance of a religious holy day and gives proper notice of that absence if the customary and generally applicable educational practices of the institution permit general personal absence by members of the faculty. If personal absence is customarily penalized, the penalty for absence due to observance of a religious holy day under this section shall be forfeiture of one day's pay equivalent for each day of absence.

(b) In this section, "institution of higher education" has the meaning assigned by Subdivision (7) of Section 61.003 of this code, except that the term includes the Southwest Collegiate Institute for the Deaf and Texas State Technical Institute.

(c) In this section, "proper notice" means that the faculty member shall provide a listing of religious holy days to be observed during the semester to the chairman of the department and shall provide notice of such days in advance to all students whose class would be canceled due to the faculty member's absence. Notice herein shall be in writing and shall be personally delivered to the chairman of the department, receipt therefor being acknowledged and dated by the chairman, or by certified mail, return receipt requested, addressed to the chairman.

(2) remit such contribution to the plan for credit to the
coach's plan account.

(b) A person who participates in a qualified football coaches plan may also participate in another retirement plan or be a member of a retirement system established by law for employees of institutions of higher education.

(c) In this section:
   (1) "Institution of higher education" has the meaning assigned by Section 61.003 of this code.
   (2) "Qualified football coaches plan" means a retirement plan under Title 29 U.S.C. Section 1002(37)(F).

Sec. 51.927. ENERGY SAVINGS PERFORMANCE CONTRACTS. (a) In this section, "energy savings performance contract" means a contract for energy or water conservation measures to reduce energy or water consumption or operating costs of new or existing institutional facilities in which the estimated savings in utility costs resulting from the measures is guaranteed to offset the cost of the measures over a specified period. The term includes a contract for the installation or implementation of:
   (1) insulation of a building structure and systems within a building;
   (2) storm windows or doors, caulking or weather stripping, multiglazed windows or doors, heat-absorbing or heat-reflective glazed and coated window or door systems, or other window or door system modifications that reduce energy consumption;
   (3) automatic energy control systems, including computer software and technical data licenses;
   (4) heating, ventilating, or air conditioning system modifications or replacements that reduce energy or water consumption;
   (5) lighting fixtures that increase energy efficiency;
   (6) energy recovery systems;
   (7) electric systems improvements;
   (8) water-conserving fixtures, appliances, and equipment or the substitution of non-water-using fixtures, appliances, and
equipment;

(9) water-conserving landscape irrigation equipment;

(10) landscaping measures that reduce watering demands and capture and hold applied water and rainfall, including:

(A) landscape contouring, including the use of berms, swales, and terraces; and

(B) the use of soil amendments that increase the water-holding capacity of the soil, including compost;

(11) rainwater harvesting equipment and equipment to make use of water collected as part of a storm-water system installed for water quality control;

(12) equipment for recycling or reuse of water originating on the premises or from other sources, including treated municipal effluent;

(13) equipment needed to capture water from nonconventional, alternate sources, including air conditioning condensate or graywater, for nonpotable uses;

(14) metering equipment needed to segregate water use in order to identify water conservation opportunities or verify water savings; or

(15) other energy or water conservation-related improvements or equipment, including improvements or equipment related to renewable energy or nonconventional water sources or water reuse.

(b) The governing board of an institution of higher education may enter into an energy savings performance contract in accordance with this section.

(c) Each energy or water conservation measure must comply with current local, state, and federal construction, plumbing, and environmental codes and regulations. Notwithstanding Subsection (a), an energy savings performance contract may not include improvements or equipment that allow or cause water from any condensing, cooling, or industrial process or any system of nonpotable usage over which the public water supply system officials do not have sanitary control, to be returned to the potable water supply.

(d) The board may enter into energy savings performance contracts only with entities that are experienced in the design, implementation, and installation of the energy or water conservation measures addressed by the contract.

(e) Before entering into an energy savings performance
contract, the board shall require the provider of the energy or water conservation measures to file with the board a payment and performance bond in accordance with Chapter 2253, Government Code. The board may also require a separate bond to cover the value of the guaranteed savings on the contract.

(f) The board may enter into an energy savings performance contract for a period of more than one year only if the board finds that the amount the institution would spend on the energy or water conservation measures will not exceed the amount to be saved in energy, water, wastewater, and operating costs over 20 years from the date of installation. If the term of the contract exceeds one year, the institution's contractual obligation in any year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures, as determined by the board in this subsection, divided by the number of years in the contract term beginning after the final date of installation. The board shall consider all costs of the energy or water conservation measures, including costs of design, engineering, installation, maintenance, repairs, and debt service.

(g) An energy savings performance contract may be financed:

(1) under a lease/purchase contract that has a term not to exceed 20 years from the final date of installation and that meets federal tax requirements for tax-free municipal leasing or long-term financing, including a lease/purchase contract under the master equipment lease purchase program administered by the Texas Public Finance Authority under Chapter 1232, Government Code;

(2) with the proceeds of bonds; or

(3) under a contract with the provider of the energy or water conservation measures that has a term not to exceed the lesser of 20 years from the final date of installation or the average useful life of the energy or water conservation or usage measures.

(g-1) Notwithstanding other law, the board may use any available money, other than money borrowed from this state, to pay the provider of the energy or water conservation measures under this section, and the board is not required to pay for such costs solely out of the savings realized by the institution of higher education under an energy savings performance contract. The board may contract with the provider to perform work that is related to, connected with,
or otherwise ancillary to the measures identified in the scope of an energy savings performance contract.

(h) An energy savings performance contract shall contain provisions requiring the provider of the energy or water conservation measures to guarantee the amount of the savings to be realized by the institution of higher education under the contract.

(i) An energy savings performance contract shall be let according to the procedures established for procuring certain professional services by Section 2254.004, Government Code. Notice of the request for qualifications shall be given in the manner provided by Section 2156.002, Government Code. The Texas Higher Education Coordinating Board, in consultation with the State Energy Conservation Office with regard to energy and water conservation measures, shall establish guidelines and an approval process for awarding energy savings performance contracts. The guidelines must require that the cost savings projected by an offeror be reviewed by a licensed professional engineer who has a minimum of three years of experience in energy calculation and review, is not an officer or employee of an offeror for the contract under review, and is not otherwise associated with the contract. In conducting the review, the engineer shall focus primarily on the proposed improvements from an engineering perspective, the methodology and calculations related to cost savings, increases in revenue, and, if applicable, efficiency or accuracy of metering equipment. An engineer who reviews a contract shall maintain the confidentiality of any proprietary information the engineer acquires while reviewing the contract. A contract is not required to be reviewed or approved by the State Energy Conservation Office. Sections 1001.053 and 1001.407, Occupations Code, apply to work performed under the contract.

(j) The legislature shall base an institution's appropriation for energy, water, and wastewater costs during a fiscal year on the sum of:

(1) the institution's estimated energy, water, and wastewater costs for that fiscal year; and

(2) if an energy savings performance contract is in effect, the institution's estimated net savings resulting from the contract during the contract term, divided by the number of years in the contract term.

(k) Chapter 2269, Government Code, does not apply to this section.
(1) The guidelines established under Subsection (i) must require the Texas Higher Education Coordinating Board to:

(1) review any reports submitted to the board that measure and verify cost savings to an institution of higher education under an energy savings performance contract; and

(2) based on the reports, provide an analysis, on a periodic basis, of the cost savings under the energy savings performance contract to the governing board of the institution of higher education and the Legislative Budget Board until the governing board of the institution of higher education determines that the analysis is no longer required to accurately measure cost savings.

(b) This section does not apply to an extension of credit to a student for the purchase of books or other educational supplies if the credit may be offset against undistributed grant or loan funds that are held by the institution for the student or that the institution is entitled to receive on behalf of the student. An applicant who makes the election to apply under this section and is admitted as a student may not receive any course credit for courses undertaken 10 or more years prior to enrollment under this section.

(d) If a student who enrolls under this section completes a prescribed course of study, earns a baccalaureate degree, and applies for admission to a postgraduate or professional program offered by a public institution of higher education, the institution, in considering the applicant for admission into the postgraduate or professional program, shall consider only the grade point average of the applicant established by the course work completed after enrollment under this section, along with any other criteria the institution uses in evaluating applicants for admission into the postgraduate or professional program.

The bond resolution or the indenture or both may further restrict the making of investments. Sec. 53B.43. DEPOSITORIES. The authority may select a depository or depositories according to the procedures provided by law for the selection of city depositories, or it may award its depository contract to the same depository or depositories selected by the city or cities and on the same terms.

Added by Acts 2005, 79th Leg., Ch. 641 (H.B. 2701), Sec. 2, eff. September 1, 2005.

Sec. 53B.45. TRANSACTIONS WITH OTHER AGENCIES AND PERSONS. Sec. 53B.47. GUARANTEED STUDENT LOANS AND ALTERNATIVE EDUCATION LOANS; BONDS FOR THE PURCHASE OF EDUCATION LOAN NOTES. (a) An authority may, upon approval of the city or cities which created the same, issue revenue bonds or otherwise borrow money to obtain funds to purchase or to make guaranteed student loans or alternative education loans. Revenue bonds issued for such purpose shall be issued in accordance with and with the effect provided in this
chapter. Such bonds shall be payable from and secured by a pledge of
revenues derived from or by reason of the ownership of guaranteed
student loans or alternative education loans and investment income
after deduction of such expenses of operating the loan program as may
be specified by the bond resolution or trust indenture.

(b) An authority may cause money to be expended to make or
purchase for its account guaranteed student loans that are guaranteed
by the Texas Guaranteed Student Loan Corporation, other guaranteed
student loans, or alternative education loans that are executed by or
on behalf of students who:

(1) are residents of this state; or
(2) have been admitted to attend an accredited institution
within this state.

(c) The authority shall contract with a nonprofit corporation,
organized under the laws of this state, whereby such corporation will
provide the reports and other information required for continued
participation in the federally guaranteed loan program provided by
the Higher Education Act of 1965, as amended, or in an alternative
education loan program.

(d) The authority, as a municipal corporation of the state, is
charged with a portion of the responsibility of the state to provide
educational opportunities in keeping with all applicable state and
federal laws. Nothing in this section shall be construed as a
prohibition against establishing policies to limit the purchase of
guaranteed student loans or alternative education loans executed by
students attending school in a certain geographical area or by
students who are residents of the area.

(e) In addition to establishing an authority under the
provisions of this chapter, the governing body of a city or cities
may request a qualified nonprofit corporation to exercise the powers
enumerated and provided in this section for and on its behalf. If
the qualified nonprofit corporation agrees to exercise such powers,
the directors of such corporation shall thereafter be appointed by
and be subject to removal by the governing body of the city or
cities, and except as provided in this section, Sections 53B.14,
53B.15, 53B.31, 53B.32, 53B.38, and 53B.41 through 53B.43 apply to
and govern such corporation, its procedures, and bonds.
Notwithstanding the provisions of Section 53B.42, a qualified
nonprofit corporation which has been requested to exercise the powers
enumerated and requested in this section may invest or cause a
trustee or custodian on behalf of such qualified nonprofit corporation to invest its funds, including the proceeds of any bonds, notes, or other obligations issued by such qualified nonprofit corporation and any monies which are pledged to the payment thereof, in:

(1) certificates of deposit or other time or demand accounts of banks and savings and loan associations which are insured by the Federal Deposit Insurance Corporation, provided the amount of any certificate of deposit in excess of that covered by such insurance must be secured by a first and prior pledge of government obligations having a market value of not less than 100 percent of the excess unless a nationally recognized rating agency has given the senior securities of the bank issuing the certificate of deposit the highest or next to the highest investment rating available;

(2) repurchase agreements;

(3) guaranteed student loans and alternative education loans; or

(4) a security issued by another nonprofit corporation acting under this section.

(f) A nonprofit corporation, whether acting at the request of a city or cities under Subsection (e) or acting as a servicer or administrator for another corporation that purchases or makes guaranteed student loans or alternative education loans, or that on its own behalf issues securities or otherwise obtains funds to purchase or make guaranteed student loans or alternative education loans, may:

(1) exercise the powers granted by Chapters 20 and 22, Business Organizations Code, and any provision of Title 1, Business Organizations Code, applicable to a nonprofit corporation;

(2) service loans purchased or made from its funds or contract with another person to service the loans;

(3) grant a security interest in a trust estate securing its securities; and

(4) make investments as authorized by Subsection (e).

(g) A security interest in a trust estate granted under Subsection (f)(3) is attached and perfected at the time the security interest is executed and delivered by the nonprofit corporation. The security interest grants to the secured party a first prior perfected security interest in the trust estate for the benefit of the secured party without regard to the location of the assets that constitute
An alternative education loan may be made under this section only by or on behalf of a qualified alternative education loan lender. An alternative education loan may not be in an amount in excess of the difference between the cost of attendance and the amount of other student assistance to the student, other than loans under Section 428B(a)(1), Higher Education Act of 1965 (20 U.S.C. Section 1078-2) (relating to parent loans), for which the student borrower may be eligible. An alternative education loan covered by this subsection is subject to Chapter 342, Finance Code, as applicable, except that:

1. the maximum interest rate on the loan may not exceed the rate permitted under Subchapter A, Chapter 303, Finance Code; and
2. application and origination fees may be agreed to by the parties and assessed at the inception of the loan, provided that if any such fees constitute additional interest under applicable law, the effective rate of interest agreed to over the stated term of the loan may not exceed the rate allowed by Subchapter A, Chapter 303, Finance Code, and accrued unpaid interest may be added to unpaid principal at the beginning of the agreed repayment period at the borrower's option and in accordance with the terms of the agreement for purposes of determining the total principal amount due at the inception of the repayment period.

(i) An authority or nonprofit corporation making education loans under this section is exempt from the licensing requirements of Chapter 342, Finance Code.

as is assigned to it by Section 61.003 of this code.

(2) "Governing board" has the same meaning as is assigned to it by Section 61.003 of this code.

Sec. 54.0015. ADOPTION OF CERTAIN DEFINITIONS BY RULE. In consultation with representatives of institutions of higher education, the Texas Higher Education Coordinating Board by rule shall adopt definitions related to the resident status of students for purposes of this title and to tuition and fee exemptions and waivers for students under this chapter as necessary to ensure consistency in the application of this chapter and other related state laws and policies.

Added by Acts 2005, 79th Leg., Ch. 888 (S.B. 1528), Sec. 1, eff. September 1, 2005.

Sec. 54.002. APPLICABILITY OF CHAPTER. The provisions of this chapter apply to all institutions of higher education, except that as to junior colleges this chapter applies only to the extent provided by Section 130.003(b) of this code.

Sec. 54.003. TUITION AND CHARGES TO BE AUTHORIZED BY LAW. No institution of higher education may collect from students attending the institution any tuition, fee, or charge of any kind except as permitted by law, and no student may be refused admission to or discharged from any institution for the nonpayment of any tuition, fee, or charge except as permitted by law.

Sec. 54.004. RETENTION AND USE OF FUNDS. All tuition, local funds, and fees collected by an institution of higher education shall be retained and expended by the institution and accounted for annually as provided in the general appropriations act.

Sec. 54.005. RIGHT TO COLLECT SPECIAL FEES. The provisions of this subchapter requiring the governing board of each institution of higher education to collect tuition fees do not deprive the board of the right to collect special fees authorized by law.

Sec. 54.006. REFUND OR ADJUSTMENT OF TUITION AND MANDATORY FEES FOR DROPPED COURSES AND STUDENT WITHDRAWALS. (a) A general academic teaching institution or medical and dental unit, as soon as practicable, shall refund the amount of tuition and mandatory fees collected for courses from which students drop within the first 12 days of a fall or spring semester or a summer term of 10 weeks or longer, within the first four days of a term or session of more than five weeks but less than 10 weeks, or within the period specified by the institution for that purpose for a term or session of five weeks or less that is substantially proportional to the period specified by this subsection for a longer term or session. The institution or medical and dental unit may not delay a refund under this subsection on the grounds that the student may withdraw from the institution or unit later in the semester or term.

(a-1) An institution may assess a nonrefundable $15 matriculation fee if the student withdraws from the institution before the first day of classes.

(b) Except as provided by Subsections (b-1) and (b-2), a general academic teaching institution or medical and dental unit shall refund from the amount paid by a student withdrawing from the institution or unit an amount equal to the product of the amount of tuition and mandatory fees charged for each course in which the student is enrolled on the date the student withdraws multiplied by
the applicable percentage derived from the following tables:

(1) if the student withdraws during a fall or spring semester or a summer term of 10 weeks or longer:
   (A) prior to the first class day 100 percent
   (B) during the first five class days 80 percent
   (C) during the second five class days 70 percent
   (D) during the third five class days 50 percent
   (E) during the fourth five class days 25 percent
   (F) after the fourth five class days None;

(2) if the student withdraws during a term or session of more than five weeks but less than 10 weeks:
   (A) prior to the first class day 100 percent
   (B) during the first, second, or third class day 80 percent
   (C) during the fourth, fifth, or sixth class day 50 percent
   (D) seventh day of class and thereafter None; and

(3) if the student withdraws from a term or session of five weeks or less:
   (A) prior to the first class day 100 percent
   (B) during the first class day 80 percent
   (C) during the second class day 50 percent
   (D) during the third class day and thereafter None.

(b-1) If a student has not paid the total amount of the tuition and mandatory fees charged to the student by the institution or unit for the courses in which the student is enrolled by the date the student withdraws from the institution or unit, instead of issuing the student a refund in the amount required under Subsection (b), the institution or unit may credit the amount to be refunded toward the payment of the outstanding tuition and mandatory fees owed by the student. The institution or unit shall issue a refund to the student if any portion of the amount to be refunded remains after the outstanding tuition and mandatory fees have been paid.

(b-2) A general academic teaching institution or medical and dental unit may provide to a student withdrawing from the institution or unit a refund of a portion of the tuition and mandatory fees charged to the student by the institution or unit for the courses in which the student is enrolled on the date the student withdraws in an amount greater than the amount required by Subsection (b). The
institution or unit may apply the portion of the refund authorized by this subsection toward the payment of any outstanding tuition and fees as provided by Subsection (b-1), and may refund the remainder of that portion in the form of, as the institution or unit considers appropriate:

(1) a payment made directly to the student; or
(2) credit toward payment of tuition and mandatory fees for a subsequent semester or other academic term at the institution or unit.

(c) Separate withdrawal refund schedules may be established for optional fees.

(d) A general academic teaching institution or medical and dental unit shall refund tuition and fees paid by a sponsor, donor, or scholarship to the source rather than directly to the student who has withdrawn if the funds were made available through the institution.

(e) A general academic teaching institution or medical and dental unit may terminate a student's student services and privileges, including health services, library privileges, facilities and technology usage, and athletic and cultural entertainment tickets, when the student withdraws from the institution.

(f) Beginning with the summer semester of 1990, if a student withdraws from an institution of higher education because the student is called to active military service, the institution, at the student's option, shall:

(1) refund the tuition and fees paid by the student for the semester in which the student withdraws;
(2) grant a student, who is eligible under the institution's guidelines, an incomplete grade in all courses by designating "withdrawn-military" on the student's transcript; or
(3) as determined by the instructor, assign an appropriate final grade or credit to a student who has satisfactorily completed a substantial amount of coursework and who has demonstrated sufficient mastery of the course material.

(g) Repealed by Acts 2007, 80th Leg., R.S., Ch. 546, Sec. 4, eff. June 16, 2007.

Added by Acts 1977, 65th Leg., p. 220, ch. 106, Sec. 1, eff. Aug. 29, 1977. Amended by Acts 1987, 70th Leg., ch. 901, Sec. 1, eff. Aug. 31, 1987; Acts 1991, 72nd Leg., ch. 15, Sec. 1, eff. April 5, 1991;
Sec. 54.0065. TUITION REBATE FOR CERTAIN UNDERGRADUATES. (a) A qualified student is eligible for a rebate of a portion of the undergraduate tuition the student has paid if the student:

(1) is awarded a baccalaureate degree from a general academic teaching institution within the period prescribed by Section 56.462(1)(A) or (B), as applicable, to qualify for forgiveness of a Texas B-On-time loan; and

(2) has attempted no more than three hours in excess of the minimum number of semester credit hours required to complete the degree program:

   (A) including:
      (i) transfer credits; and
      (ii) course credit earned exclusively by examination, except that, for purposes of this subsection, only the number of semester credit hours earned exclusively by examination in excess of nine semester credit hours is treated as hours attempted; and

   (B) excluding:
      (i) course credit that is earned to satisfy requirements for a Reserve Officers' Training Corps (ROTC) program but that is not required to complete the degree program; and
      (ii) course credit, other than course credit earned exclusively by examination, that is earned before graduating from high school.

(b) The amount of tuition to be rebated to a student under this section is $1,000, unless the total amount of undergraduate tuition paid by the student to the institution of higher education awarding the degree was less than $1,000, in which event the amount of tuition to be rebated is an amount equal to the amount of undergraduate tuition paid by the student to the institution. However, a student
who paid the institution awarding the degree an amount of undergraduate tuition less than $1,000 may qualify for an increase in the amount of the rebate, not to exceed a total rebate of $1,000, for any amount of undergraduate tuition the student paid to other institutions of higher education by providing the institution with proof of the total amount of that tuition paid to other institutions of higher education.

(c) A student who has transferred from another institution of higher education shall provide the institution awarding the degree an official transcript from each institution attended by the student in order that the period during which the student has been enrolled in a general academic teaching institution and the total number of hours attempted by the student can be verified.

(d) To qualify for a rebate under this section, the student must have been a resident of this state and entitled to pay tuition at the rate provided by this chapter for a resident student at all times while pursuing the degree.

(e) All institutions of higher education shall notify each first-time freshman student of the tuition rebate program.

(f) The institution awarding the degree shall pay the rebate under this section from local funds.

(g) If a student entitled to a rebate under this section has an outstanding student loan, including an emergency loan, owed or guaranteed by this state, including the Texas Guaranteed Student Loan Corporation, the institution shall apply the amount of the rebate to the student's loan. If a student has more than one outstanding loan, the institution shall apply the amount of the rebate to the loans as directed by the student or, if the student fails to provide timely instructions on the application of the amount, the institution shall apply the amount of the rebate to the loans according to priorities established by the coordinating board. If the amount of the rebate exceeds the amount of the loan indebtedness, the institution shall pay the student the excess amount.

(h) The legislature shall account in the General Appropriations Act for the rebates authorized by this section in a way that provides a corresponding increase in the general revenue funds appropriated to the institution. It is the intent of the legislature that rebates authorized by this section shall be financed by savings to the state resulting from reductions in the number of courses taken by undergraduate students.
(i) The coordinating board, in consultation with the institutions of higher education, shall adopt rules for the administration of this section, including a rule to allow an otherwise eligible student to receive a rebate under this section if the student is not awarded a baccalaureate degree within the period required by Subsection (a)(1) solely as a result of a hardship or other good cause. The performance of active duty military service by a student shall be recognized as "good cause" for purposes of this section.

Sec. 54.007. OPTION TO PAY TUITION BY INSTALLMENT. (a) The governing board of each institution of higher education shall provide for the payment of tuition and mandatory fees for a semester or term of 10 weeks or longer through one of the following alternatives:

(1) full payment of tuition and mandatory fees not later than the date established by the institution for purposes of this subdivision; or

(2) payment in installments under one or more payment plan options that require the first payment to be made not later than the date established by the institution for purposes of this subdivision.

(a-1) In providing for the payment of tuition and mandatory fees by installment under Subsection (a)(2), an institution of higher education must also establish subsequent dates at periodic intervals within the applicable semester or term by which subsequent installment payments are due.

(b) For a term of less than 10 weeks, the governing board of each institution of higher education:

(1) shall provide for the payment of tuition and mandatory
fees by requiring full payment of tuition and mandatory fees not later than the date established by the institution for purposes of this subdivision; and

(2) may provide for the payment of tuition and mandatory fees by requiring payment in installments under one or more payment plan options that require the first payment to be made not later than the date established by the institution for purposes of this subdivision.

(b-1) A date established by an institution of higher education for purposes of Subsection (a)(1), (a)(2), (b)(1), or (b)(2) may not be later than the date established by the Texas Higher Education Coordinating Board for certifying student enrollment for the semester or term for purposes of formula funding.

(b-2) An institution of higher education may collect on a due date subsequent to a due date established under Subsection (a) or (b):

(1) unpaid tuition and mandatory fee balances resulting from an adjustment to a student's enrollment status or an administrative action; or

(2) unpaid residual balances of tuition and mandatory fees constituting less than five percent of the total amount of tuition and mandatory fees charged to the student by the institution for that semester or term.

(c) The governing board of an institution of higher education may assess and collect incidental fees for students utilizing the payment alternative authorized by Subsection (a)(2) or (b)(2) and for students delinquent in payments. The fees must reasonably reflect the cost to the institution of handling those payments.

(d) A student who fails to make a full payment of the required amount of tuition and mandatory fees, including any incidental fees, by the applicable due date under this section may be prohibited from registering for classes until full payment is made. A student who fails to make full payment prior to the end of the semester or term may be denied credit for the work done that semester or term. The governing board of an institution of higher education may not impose on a student any sanction authorized by this subsection unless the governing board includes in any written or electronic agreement authorized by the student the following statement printed in bold-faced type or in capital letters: "A STUDENT WHO FAILS TO MAKE FULL PAYMENT OF TUITION AND MANDATORY FEES, INCLUDING ANY INCIDENTAL FEES,
BY THE DUE DATE MAY BE PROHIBITED FROM REGISTERING FOR CLASSES UNTIL FULL PAYMENT IS MADE. A STUDENT WHO FAILS TO MAKE FULL PAYMENT PRIOR TO THE END OF THE SEMESTER OR TERM MAY BE DENIED CREDIT FOR THE WORK DONE THAT SEMESTER OR TERM." The governing board shall notify a student of any delinquent tuition or fee payment as soon as practicable. The institution's records may be adjusted to reflect the student's failure to have properly enrolled for that semester or term.

(e) In addition to other payment alternatives provided by this section, the governing board of a medical and dental unit or of a general academic teaching institution with a department or college of veterinary medicine may provide for the payment of tuition and mandatory fees at the unit or at the department or college of veterinary medicine during any academic year through a one-fourth payment of tuition and mandatory fees in advance of the beginning of the year and subsequent one-fourth payments of tuition and mandatory fees to be made at periods designated by the governing board. Subsection (b) applies to tuition and mandatory fee payments under this subsection. In this subsection, "general academic teaching institution" and "medical and dental unit" have the meanings assigned by Section 61.003.

(f) A student may elect to pay the tuition and mandatory fees of an institution of higher education by installment under this section regardless of whether the student intends to apply a financial aid award administered by the institution toward the tuition and mandatory fees, except that a student whose financial aid award or awards are available to cover the total amount of tuition and mandatory fees may not pay by installment under this section. On receipt of notice of a student's election to pay tuition and mandatory fees by installment, the governing board of the institution shall apply any financial aid award administered for the student toward the amount of tuition and mandatory fees due for that semester or term until the tuition and mandatory fees are paid in full and shall immediately release any remaining amount of the award to the student, except that the institution is not required to apply the award or awards toward the total amount of tuition and mandatory fees in exigent circumstances as determined by the institution.

(g) The governing board of an institution of higher education shall require a student who elects to pay tuition and mandatory fees by installment under this section to enter into a written or
electronic agreement reflecting the terms and conditions required by this section for the installment plan provided for the student by the governing board.

(h) In this section, "public junior college," "public technical institute," and "public state college" have the meanings assigned by Section 61.003.

Sec. 54.0071. AUTHORITY OF INSTITUTION TO PROVIDE PAYMENT OPTIONS FOR STUDENT WITH DELAYED FINANCIAL AID. (a) The governing board of an institution of higher education may postpone the due date for the payment of all or part of the tuition and mandatory fees for a student for a semester or term in which the student will receive one or more delayed financial aid awards if:

(1) the student has not received the awards by the regular due date for payment of the tuition and mandatory fees; and
(2) the student agrees to assign to the institution a portion of the awards equal to the amount of tuition and mandatory fees for which the due date is postponed.

(b) A postponed due date under Subsection (a) applies only to the portion of tuition and mandatory fees to be covered by the
student's delayed financial aid awards. When the financial aid awards become available, a governing board that postpones a due date under this section shall apply the awards toward the amount of tuition and mandatory fees due and immediately release any remaining amount of the awards to the student.

(c) If after the due date for a student's tuition and mandatory fees is postponed under this section the student becomes ineligible to receive one or more of the delayed financial aid awards, or the amount awarded is less than the amount of tuition and mandatory fees due, the governing board shall provide the student a reasonable period, not to exceed 30 days, to pay the unpaid amount of tuition and mandatory fees. The board may deny a student credit for work done in the semester or term if the student fails to pay the tuition and mandatory fees by the end of that period.

(d) The Texas Higher Education Coordinating Board shall prescribe procedures for the administration of this section.

(e) If a student with delayed financial aid awards has elected to pay tuition and mandatory fees by installment as permitted by Section 54.007 and if the governing board elects to postpone the due date for the student's tuition and mandatory fees as authorized by this section, the governing board in the manner provided by this section shall postpone the due date for each installment payment that becomes due before the student receives the awards.

Sec. 54.008. TUITION RATE SET BY GOVERNING BOARD. (a) The tuition rates provided by Subchapter B of this chapter are minimum rates. Except as provided by Subsections (e), (f), and (g), the governing board of each institution of higher education shall set tuition for graduate programs for that institution at a rate that is at least equal to that prescribed by Subchapter B, but that is not more than twice the rate prescribed by Subchapter B. Between the maximum and minimum rates, the board may set the differential tuition among programs offered by an institution of higher education.
(b) The governing board of a university system is not required to set uniform tuition rates for graduate programs among the component institutions of the system.

(c) The limit on tuition rates provided by Subsection (a) of this section does not apply to tuition at a public junior college.

(d) The difference between the minimum rate prescribed by Subchapter B of this chapter and that set by the governing board of an institution of higher education for an institution shall not be accounted for in an appropriations act in such a way as to reduce the general revenue appropriations to that institution.

(e) The governing board of an institution of higher education shall set tuition for an optometry program at the institution at a rate that is at least equal to the rate prescribed by Subchapter B of this chapter but not more than four times the rate prescribed by Subchapter B of this chapter.

(f) The governing board of an institution of higher education shall set tuition for an undergraduate pharmacy program at the institution at a rate that is at least equal to the rate prescribed by Subchapter B but not more than twice the rate prescribed by Subchapter B. The governing board of an institution of higher education shall set tuition for a graduate or professional pharmacy program at the institution at a rate that is at least equal to the rate prescribed by Subchapter B but not more than three times the rate prescribed by Subchapter B.

(g) The governing board of an institution of higher education shall set tuition for a law school at the institution at a rate that is at least equal to the rate prescribed by Subchapter B but not more than three times the rate prescribed by Subchapter B.

Sec. 54.009. INCREASE IN TUITION RATE OR FEES. An institution of higher education that sets the tuition rates and fees for a semester or summer term and permits a student to register for that semester or summer term may not increase the tuition rate or fees
charged that student for that semester or summer term after the
student registers regardless of whether that student has paid the
tuition and fees for that semester or summer term.

Added by Acts 1997, 75th Leg., ch. 711, Sec. 1, eff. Sept. 1, 1997.

Sec. 54.010. REDUCTION IN TUITION. (a) The governing board of
an institution of higher education may reduce the amount of tuition
charged to a student under this chapter to an amount less than the
amount otherwise required by this chapter if the board:

(1) offers the tuition reduction to the student as part of
an institutional policy adopted by the board to:

(A) increase the average semester credit hour course
load of students enrolled at the institution; or

(B) improve the retention and graduation rate of
students enrolled at the institution; and

(2) determines that the student is:

(A) enrolled in, and making satisfactory progress
toward completion of, a degree program offered at the institution; and

(B) enrolled in at least 15 semester credit hours at
the institution during the semester or term for which the reduction
is offered.

(b) The governing board may offer a tuition reduction under
this section in a fixed dollar amount, a percentage amount, or any
other manner that the board considers appropriate.

(c) The amount of tuition reduction offered to a student under
this section for a semester or term may not exceed the amount of
tuition that would have been charged to the student under this
chapter for enrollment in three semester credit hours during that
semester or term.

(d) For a tuition reduction offered to a student under this
section, the governing board may prorate the amount of the reduction
based on:

(1) the number of semester credit hours in which the
student is enrolled; or

(2) the length of the semester or term for which the
student is enrolled.

(e) The governing board is not required to offer a tuition
reduction under this section to all institutions of higher education under its governance or to all degree programs offered at an institution of higher education under its governance.

Added by Acts 1999, 76th Leg., ch. 1053, Sec. 1, eff. June 18, 1999.

Sec. 54.011. TUITION LIMIT IN CASES OF CONCURRENT ENROLLMENT. When a student registers at more than one public institution of higher education at the same time, the student's tuition charges shall be determined in the following manner:

(1) The student shall pay the full tuition charge to the first institution at which the student is registered; and in any event the student shall pay an amount at least equal to the minimum tuition specified in this code.

(2) If the minimum tuition specified in this code for the first institution at which the student is registered is equal to or greater than the minimum tuition specified in this code for the second institution at which the student is registered concurrently, the student shall not be required to pay the specified minimum tuition charge to the second institution in addition to the tuition charge paid to the first institution, but shall pay only the hourly rates, as provided in this code, to the second institution.

(3) If the minimum tuition specified in this code for the first institution at which the student is registered is less than the specified minimum tuition charge at the second institution (that is, if the second institution has a higher minimum tuition charge specified in this code), then the student shall first register at the institution having the lower minimum tuition and shall pay to the second institution only the amount equal to the difference between the student's total tuition charge at the second institution and the student's total tuition charge at the first institution, but in no case shall the student pay to the second institution less than the hourly rates as provided in this code.

(4) If a student is considered to be a Texas resident and therefore qualified to pay Texas resident tuition rates by one institution at which the student is registered, the student shall be considered a Texas resident at each of the institutions at which the student is concurrently registered for the purposes of determining the proper tuition charges. Nothing in this subdivision shall be so
construed as to allow a nonresident to pay resident tuition except at institutions covered by Section 54.231.

Sec. 54.012. TUITION RATES FOR CERTAIN DOCTORAL STUDENTS. The governing board of an institution of higher education may charge a resident doctoral student who has more semester credit hours of doctoral work than allowed for purposes of state funding for the current state fiscal biennium under Section 61.059(1) tuition at the rate charged nonresident doctoral students. Tuition charged at the rate provided by this section shall be accounted for as if collected under Section 54.008.

Sec. 54.014. TUITION FOR REPEATED OR EXCESSIVE UNDERGRADUATE HOURS. (a) An institution of higher education may charge a resident undergraduate student tuition at a higher rate than the rate charged to other resident undergraduate students, not to exceed the rate charged to nonresident undergraduate students, if before the semester or other academic session begins the student has previously attempted a number of semester credit hours for courses taken at any institution of higher education while classified as a resident student for tuition purposes that exceeds by at least 30 hours the number of semester credit hours required for completion of the degree program in which the student is enrolled. For purposes of this subsection, an undergraduate student who is not enrolled in a degree program is considered to be enrolled in a degree program or programs requiring a minimum of 120 semester credit hours, including minors
and double majors, and for completion of any certificate or other special program in which the student is also enrolled, including a program with a study-abroad component. An institution of higher education that charges students tuition at a higher rate under this subsection may adopt a policy under which the institution exempts from the payment of that higher rate a student that is subject to the payment of the higher rate solely as a result of hardship as determined by the institution under the policy.

(b) Semester credit hours or other credit listed in Section 61.0595(d) is not counted in determining the number of semester credit hours previously attempted by a student for purposes of Subsection (a).

(c) Subsection (a) applies only to the tuition charged to a student who initially enrolled as an undergraduate student in an institution of higher education during or after the 1999 fall semester, except that the institution of higher education may not require a student who initially enrolls as an undergraduate student in an institution of higher education before the 2006 fall semester to pay higher tuition as permitted by Subsection (a) until the number of semester credit hours previously attempted by the student as described by that subsection exceeds the number of semester credit hours required for the student's degree program by at least 45 hours.

(d) In its appropriations to institutions of higher education, the legislature shall compute the local funds available to each institution as if the tuition collected under Subsections (a) and (f) were not collected.

(e) Each institution of higher education shall inform each new undergraduate student enrolling at the institution in writing of the limitation provided by this section on the number of hours or type of courses that a Texas resident is entitled to complete while paying tuition at the rate provided for Texas residents.

(f) An institution of higher education may charge a resident undergraduate student tuition at a higher rate than the rate charged to other resident undergraduate students, not to exceed the rate charged to nonresident undergraduate students, for any course in which the student enrolls that is the same as or substantively identical to a course for which the student previously completed. The Texas Higher Education Coordinating Board shall adopt a rule that exempts a resident undergraduate student from this subsection if the student enrolls in a course that is the same as or substantially
similar to a course that the student previously completed, solely as a result of a hardship or other good cause.

Sec. 54.015. BILLING AND NOTIFICATION FOR TUITION. For billing and catalogue purposes, each governing board shall accumulate all the tuition that it charges under this chapter into one tuition charge.

Sec. 54.016. FIXED TUITION RATE PROGRAM FOR CERTAIN TRANSFER STUDENTS AT GENERAL ACADEMIC TEACHING INSTITUTIONS. (a) In this section:

(1) "Coordinating board" means the Texas Higher Education Coordinating Board.
(2) "General academic teaching institution" has the meaning assigned by Section 61.003.
(3) "Lower-division institution of higher education" means a public junior college, public state college, or public technical institute.

(b) A general academic teaching institution may develop a fixed tuition rate program for qualified students who agree to transfer to the institution within 12 months after successfully earning an associate degree at a lower-division institution of higher education. Under a program developed under this section, a general academic teaching institution must:

(1) guarantee to a participating student enrolled in an associate degree program at a lower-division institution of higher education, on successful completion of the associate degree program, transfer admission to the general academic teaching institution
within the period prescribed above; and

(2) notwithstanding any other provision of this chapter, charge tuition to a participating student for any semester or other academic term during a period of at least 24 months following the student's initial enrollment in the institution at the same rate the general academic teaching institution would have charged to the student during the later of:

(A) the fall semester of the student's freshman year at another institution of higher education had the student entered the general academic teaching institution as a freshman student; or

(B) the fall semester of the second academic year preceding the academic year of the student's initial enrollment in the general academic teaching institution.

(c) A general academic teaching institution that develops a fixed tuition rate program under this section shall prescribe eligibility requirements for participation in the program and notify applicants for transfer admission from lower-division institutions of higher education regarding the program.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1036 (H.B. 2999), Sec. 1, eff. June 17, 2011.

Sec. 54.017. FIXED TUITION PRICE PLAN FOR UNDERGRADUATE STUDENTS AT CERTAIN GENERAL ACADEMIC TEACHING INSTITUTIONS. (a) In this section, "general academic teaching institution" and "public state college" have the meanings assigned by Section 61.003.

(b) This section applies only to a general academic teaching institution other than a public state college.

(c) The governing board of an institution to which this section applies shall offer entering undergraduate students, including undergraduate students who transfer to the institution, the opportunity to participate in a fixed tuition price plan under which the institution agrees not to increase tuition charges per semester credit hour for a participating student for at least the first 12 consecutive semesters that occur after the date of the student's initial enrollment at any public or private institution of higher education, regardless of whether the student enrolls at any institution in those semesters, and subject to any restrictions or qualifications adopted by the governing board. For purposes of this
section, one or more summer terms occurring in the same summer is considered a semester.

(d) Unless the institution does not offer other tuition payment options, an institution to which this section applies may require an entering undergraduate student to accept or reject participation in the fixed tuition price plan offered under this section before the date of the student's initial enrollment at the institution.

(e) This section does not require an institution to which this section applies to offer a variable tuition price plan or other tuition payment options to undergraduate students enrolled in the institution.

(f) Fees charged by an institution to a student participating in a fixed tuition price plan under this section may not exceed the fees charged by the institution to a similarly situated student who elects not to participate in the plan, if the institution offers other tuition payment options. For purposes of this subsection, students are similarly situated if they share the same residency status, degree program, course load, course level, and other circumstances affecting the fees charged to the students.

(g) This section does not apply to the tuition charged by an institution to which this section applies to a student who enters the institution for the first time before the 2014 fall semester.

Added by Acts 2013, 83rd Leg., R.S., Ch. 1129 (H.B. 29), Sec. 1, eff. June 14, 2013.

**SUBCHAPTER B. TUITION RATES**

Sec. 54.0501. DEFINITIONS. In this subchapter:

(2) "Dependent" means a person who:

(A) is less than 18 years of age and has not been emancipated by marriage or court order; or

Added by Acts 2005, 79th Leg., Ch. 888 (S.B. 1528), Sec. 2, eff. September 1, 2005.

Sec. 54.051. TUITION RATES. (a) In this section:
(1) "Coordinating board" means the Texas Higher Education Coordinating Board.

(2) "General academic teaching institution" has the meaning assigned by Section 61.003(3) of this code.

(4) "Public junior college" has the meaning assigned by Section 61.003(2) of this code.

(b) The governing board of each institution of higher education and of the Texas State Technical College System shall cause to be collected from students registering at the institution tuition or registration fees at the rates prescribed in this section.

(c) Unless a different rate is specified by this section, tuition for a resident student at a general academic teaching institution is $50 per semester credit hour.

(d) Unless a different rate is specified by this section, tuition for a nonresident student at a general academic teaching institution or medical and dental unit is an amount per semester credit hour equal to the average of the nonresident undergraduate tuition charged to a resident of this state at a public state university in each of the five most populous states other than this state, as computed by the coordinating board under this subsection.
The coordinating board shall set the tuition rate provided by this subsection for each academic year and report that rate to each appropriate institution not later than January 1 of the calendar year in which the academic year begins, or as soon after that January 1 as practicable. In computing the tuition rate, the coordinating board shall use the nonresident tuition rates for the other states in effect for the academic year in progress when the board makes the computation.

(e) Tuition for a resident student registered only for thesis or dissertation credit that is the final credit hour requirement for the degree in progress is determined by the governing board of the institution in which the student is enrolled.

(f) Tuition for a resident student enrolled in a program leading to an M.D. or D.O. degree is $6,550 per academic year. Tuition for a nonresident student enrolled in a program leading to an M.D. or D.O. degree is an amount per year equal to three times the rate that a resident student enrolled in a program leading to an M.D. or D.O. degree would pay during the corresponding academic year.

(g) Tuition for a resident student enrolled in a program leading to a D.D.S. degree is $5,400 per academic year. Tuition for a nonresident student enrolled in program leading to a D.D.S. degree is an amount per year equal to three times the rate that a resident student enrolled in a program leading to a D.D.S. degree would pay during the corresponding academic year.

(h) Tuition for a resident student enrolled in a program leading to a D.V.M. degree is $5,400 per academic year. Tuition for a nonresident student enrolled in a program leading to a D.V.M. degree is an amount per year equal to three times the rate that a resident student enrolled in a program leading to a D.V.M. degree would pay during the corresponding academic year.

(i) Tuition for a resident student registered at a law school is $80 per semester credit hour. Tuition for a nonresident student registered at a law school is the amount that can be charged a nonresident graduate student under Subsection (d) and Section 54.008.

(j) Tuition for a student registered in a program leading to a degree in nursing or in an allied health profession is the same as for students with the same residency registered at a general academic teaching institution.

(k) Tuition for a resident student registered at the Texas State Technical College System is the greater of $50 or an amount set
by the governing board of the system at not less than $16 per semester credit hour. Tuition for a nonresident student registered at the Texas State Technical College System is an amount set by the governing board of the system at not less than $80 per semester credit hour.

(1) Resident students or nonresident students registered for a course or courses in art, architecture, drama, speech, or music, where individual coaching or instruction is the usual method of instruction, shall pay a fee, in addition to the regular tuition, set by the governing board of the institution.

(m) Unless the student establishes residency or is entitled or permitted to pay resident tuition as provided by this subchapter, tuition for a student who is a citizen of any country other than the United States of America is the same as the tuition required of other nonresident students.

(n) Tuition for a resident student registered in a public junior college is determined by the governing board of each institution, but the tuition may not be less than $8 for each semester credit hour and may not total less than $25 for a semester. Tuition for a nonresident student is determined by the governing board of each institution but the tuition may not be less than $200 for each semester.

Sec. 54.0513. DESIGNATED TUITION. (a) In addition to amounts that a governing board of an institution of higher education is authorized to charge as tuition under the other provisions of this chapter, the governing board, under the terms the governing board considers appropriate, may charge any student an amount designated as tuition that the governing board considers necessary for the effective operation of the institution.

(b) A governing board may set a different tuition rate for each program and course level offered by each institution of higher education. A governing board may set a different tuition rate as the governing board considers appropriate to increase graduation rates, encourage efficient use of facilities, or enhance employee performance.

(c) Amounts collected by an institution of higher education under this section are institutional funds as defined by Section 51.009 of this code and shall be accounted for as designated funds. These funds shall not be accounted for in a general appropriations act in such a way as to reduce the general revenue appropriation to a particular institution.

(d) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 359, Sec. 16(1), eff. January 1, 2012.

(e) Section 56.033 of this code requiring certain percentage amounts of tuition to be set aside for grants and scholarships does not apply to tuition collected under this section.

(f) A governing board of an institution of higher education may continue to charge as tuition under this section the amount that it charged as the building use fee at that institution in the 1996-1997 academic year without holding a public hearing, but may not increase tuition under this section above that amount without holding a public hearing.
Sec. 54.0515. LEGISLATIVE OVERSIGHT COMMITTEE ON HIGHER EDUCATION. (a) In this section, "committee" means the legislative oversight committee on higher education.
(b) The legislative oversight committee on higher education is composed of 12 members as follows:
(1) six members of the senate appointed by the lieutenant governor; and
(2) six members of the house of representatives appointed by the speaker of the house of representatives.
(c) The lieutenant governor shall designate one of the committee members appointed by the lieutenant governor as committee co-chair and the speaker shall designate one of the committee members appointed by the speaker as committee co-chair.
(d) An appointed member of the committee serves at the pleasure of the appointing official. In making appointments to the committee, the appointing officials shall attempt to appoint persons who represent the gender composition, minority populations, and geographic regions of the state.
(e) It is the legislature's intent that each institution of higher education, as a condition to tuition deregulation under Section 54.0513, reasonably implement the following:
(1) each institution shall make satisfactory progress towards the goals provided in its master plan for higher education and in "Closing the Gaps," the state's master plan for higher education; and
(2) each institution shall meet acceptable performance criteria, including measures such as graduation rates, retention rates, enrollment growth, educational quality, efforts to enhance minority participation, opportunities for financial aid, and affordability.
(f) The committee shall:
(1) meet at the call of either chair;
(2) monitor and regularly report to the legislature on each institution of higher education's compliance with the requirements of
Subsection (e); and

(3) receive and review information concerning the affordability and accessibility of higher education, including the impact of tuition deregulation.

(g) The committee may request reports and other information from institutions of higher education and the Texas Higher Education Coordinating Board as necessary to carry out this section.

(h) The committee shall make recommendations for any legislative action the committee considers necessary to meet the criteria provided by Subsection (e), and such other criteria as the legislature may establish, and to improve higher education affordability and access.

(i) This section does not create a cause of action.

Sec. 54.052. DETERMINATION OF RESIDENT STATUS. (a) Subject to the other applicable provisions of this subchapter governing the determination of resident status, the following persons are considered residents of this state for purposes of this title:

(1) a person who:

(A) established a domicile in this state not later than one year before the census date of the academic term in which the person is enrolled in an institution of higher education; and

(B) maintained that domicile continuously for the year preceding that census date;

(2) a dependent whose parent:

(A) established a domicile in this state not later than one year before the census date of the academic term in which the dependent is enrolled in an institution of higher education; and

(B) maintained that domicile continuously for the year preceding that census date; and

(3) a person who:

(A) graduated from a public or private high school in this state or received the equivalent of a high school diploma in this state; and

(B) maintained a residence continuously in this state for:

(i) the three years preceding the date of
graduation or receipt of the diploma equivalent, as applicable; and
(ii) the year preceding the census date of the academic term in which the person is enrolled in an institution of higher education.

(b) For purposes of this section, the domicile of a dependent's parent is presumed to be the domicile of the dependent unless the person establishes eligibility for resident status under Subsection (a)(3).

Acts 2005, 79th Leg., Ch. 888 (S.B. 1528), Sec. 3, eff. September 1, 2005.

Sec. 54.053. INFORMATION REQUIRED TO ESTABLISH RESIDENT STATUS. A person shall submit the following information to an institution of higher education to establish resident status under this subchapter:

(1) if the person applies for resident status under Section 54.052(a)(1):
   (A) a statement of the dates and length of time the person has resided in this state, as relevant to establish resident status under this subchapter; and
   (B) a statement by the person that the person's presence in this state for that period was for a purpose of establishing and maintaining a domicile;

(2) if the person applies for resident status under Section 54.052(a)(2):
   (A) a statement of the dates and length of time any parent of the person has resided in this state, as relevant to establish resident status under this subchapter; and
   (B) a statement by the parent or, if the parent is unable or unwilling to provide the statement, a statement by the person that the parent's presence in this state for that period was for a purpose of establishing and maintaining a domicile; or
(3) if the person applies for resident status under Section 54.052(a)(3):

(A) a statement of the dates and length of time the person has resided in this state, as relevant to establish resident status under this subchapter; and

(B) if the person is not a citizen or permanent resident of the United States, an affidavit stating that the person will apply to become a permanent resident of the United States as soon as the person becomes eligible to apply.

Amended by:

Acts 2005, 79th Leg., Ch. 888 (S.B. 1528), Sec. 3, eff. September 1, 2005.

Sec. 54.054. CONTINUING RESIDENT STATUS. (a) Except as otherwise provided by Subsection (c) of this section or by Section 54.055 or 54.056, a person classified by an institution of higher education as a resident of this state under this subchapter is entitled, without submitting the information required by Section 54.053, to be classified as a resident by that institution in each subsequent academic term in which the person enrolls.

(b) Except as otherwise provided by Subsection (c) of this section or by Section 54.055 or 54.056, a person classified by an institution of higher education as a resident is entitled, without submitting the information required by Section 54.053 to the subsequent institution, to be classified as a resident by another institution of higher education in which the person subsequently enrolls.

(c) Subsections (a) and (b) do not apply to a person who enrolls in an institution of higher education after two or more consecutive regular semesters during which the person is not enrolled in an institution of higher education. To be classified as a resident on that enrollment, the person must submit the information required by Section 54.053 and satisfy all applicable requirements to establish resident status. If the person is classified as a resident on that enrollment, Subsections (a) and (b) apply to the person in a subsequent academic term.
Sec. 54.055. RECLASSIFICATION BASED ON ADDITIONAL OR CHANGED INFORMATION. (a) On the basis of additional or changed information, an institution of higher education may reclassify as a resident or nonresident of this state under this subchapter a person who has previously been classified as a resident or nonresident under this subchapter.

(b) A reclassification does not apply to an academic term if the reclassification is made on or after the census date of that term.

Sec. 54.056. ERRORS IN CLASSIFICATION. (a) If an institution of higher education erroneously classifies a person as a resident of this state and the person is not entitled or permitted to pay resident tuition under this subchapter, the institution of higher education shall charge nonresident tuition to the person beginning with the first academic term that begins after the date the institution discovers the error. Not earlier than the first day of that term, regardless of whether the person is still enrolled at the institution, the institution may request the person to pay the difference between resident and nonresident tuition for an earlier term as permitted by Section 54.057. For nonpayment of the amount owed, the institution may impose sanctions only as provided by that section. The institution may not require payment as a condition for
any subsequent enrollment by the person in the institution.

(b) Regardless of the reason for the error, if an institution of higher education erroneously classifies a person as a nonresident of this state, the institution shall charge resident tuition to the person beginning with the academic term in which the institution discovers the error. The institution immediately shall refund to the person the amount of tuition the person paid in excess of resident tuition.

Acts 2005, 79th Leg., Ch. 888 (S.B. 1528), Sec. 3, eff. September 1, 2005.

Sec. 54.057. LIABILITY FOR UNPAID NONRESIDENT TUITION. (a) The following persons are liable for the difference between resident and nonresident tuition for each academic term in which the person pays resident tuition as the result of an erroneous classification under this subchapter:

(1) a person who, in a timely manner after the information becomes available or on request by the institution of higher education, fails to provide to the institution information that the person reasonably should know would be relevant to an accurate classification by the institution under this subchapter; or

(2) a person who provides false information to the institution that the person reasonably should know could lead to an erroneous classification by the institution under this subchapter.

(b) The person shall pay the applicable amount to the institution not later than the 30th day after the date the person is notified of the person's liability for the amount owed. After receiving the notice and until the amount is paid in full, the person is not entitled to receive from the institution a certificate or diploma, if not yet awarded on the date of the notice, or official transcript that is based at least partially on or includes credit for courses taken while the person was erroneously classified as a resident of this state.

(c) A person who is erroneously classified as a resident of
this state under this subchapter but who is entitled or permitted to pay resident tuition under this subchapter is not liable for the difference between resident and nonresident tuition under this section.

Amended by:
Acts 2005, 79th Leg., Ch. 888 (S.B. 1528), Sec. 3, eff. September 1, 2005.

Sec. 54.0601. NONRESIDENT TUITION RATES AT CERTAIN INSTITUTIONS. On the written request of the governing board of a general academic teaching institution located not more than 100 miles from the boundary of this state with another state, the Texas Higher Education Coordinating Board may set a nonresident tuition rate that is lower than the nonresident tuition rate otherwise provided by this chapter if the coordinating board determines that the lower rate is in the best interest of the institution and will not cause unreasonable harm to any other institution of higher education.

Sec. 54.061. REDUCED DESIGNATED TUITION RATES FOR COURSES PROVIDED DURING OFF-PEAK HOURS AT CERTAIN INSTITUTIONS. (a) This section applies only to a course offered by an institution of higher education:

(1) beginning at 6 p.m. or later during a weekday;
(2) on weekends; or
(3) at other times when the institution's instructional facilities would otherwise be underutilized, as determined by the governing board of the institution.

(b) In accordance with coordinating board rules and for the purposes stated in Section 61.0592, the governing board of an institution of higher education to which Section 61.0592 applies may establish tuition rates under Section 54.0513 for a course described
by Subsection (a) that are not more than 25 percent lower than the rates that would otherwise apply to the course under that section.

(c) This section applies only if the legislature specifically appropriates money to institutions to which Section 61.0592 applies for the state fiscal biennium ending August 31, 2009, to cover the tuition revenue lost to the institutions by the application of this section.

Added by Acts 2007, 80th Leg., R.S., Ch. 598 (H.B. 120), Sec. 2, eff. June 15, 2007.

(b) A tuition or fee rate set under this section must apply uniformly to each student that meets the applicable qualifications set by the institution to pay tuition or fees at that rate.

In the event the nation designated in Subsection (a)(2) of this section fails to have 35 students available and qualified for exemption within a reasonable time, additional students from other nations may be exempt, subject to the approval of the coordinating board.

(c) Every applicant desiring the exemption shall furnish satisfactory evidence, certified by the proper authority of the applicant's native country, that the applicant is a bona fide native-born citizen and resident of the country that certifies the application and that the applicant is scholastically qualified for admission.

(d) The coordinating board, after consultation with representatives of the governing boards of the institutions of higher education, shall formulate and prescribe a plan governing the admission and distribution of all applicants desiring to qualify under the provisions of this section.

(e) No student shall be exempted under this section who is not a native-born citizen of the country certifying the student's qualifications and who has not lived in one of the nations of this hemisphere for a period of at least five years. No member of the

If the value of federal benefits that may be used only for the payment of tuition and fees and are received in a semester or other term does not equal or exceed the value of the exemption for the same semester or other term, the person is entitled to receive both those federal benefits and the exemption in the same semester or other term. The combined amount of the federal benefit that may be used only for the payment of tuition and fees plus the amount of the exemption received in a semester or other term may not exceed the cost of tuition and fees for that semester or other term.

(e-1) A person may not receive an exemption under this section if the person is in default on a loan made or guaranteed for educational purposes by the State of Texas.

If the rates specified are prohibited by federal law for any particular class of ex-servicemen or ex-service women, the tuition rate shall be set by the governing board, but shall not be less than the established rate for civilian students. If federal law provides as to any class of veterans that the tuition payments are to be deducted from subsequent benefits to which the veteran may be entitled, the institution shall refund to any veteran who is a resident of Texas within the meaning of this section the amount by which any adjusted compensation payment is actually reduced because of tuition payments made to the institution by the federal government for the veteran.

(g) The governing board of a public junior college, public technical institute, or public state college, as those terms are defined by Section 61.003, may establish a fee for extraordinary costs associated with a specific course or program and may provide that the exemptions provided by this section do not apply to this fee.

The institution shall report the information not later than January 31 of each year for the fall semester, June 30 of each year for the spring semester, and September 30 of each year for the summer session.

(i) The Texas Veterans Commission may adopt rules to provide for the efficient and uniform application of this section. In developing rules under this subsection, the commission shall consult with the Texas Higher Education Coordinating Board and institutions of higher education.

(j) In determining whether to admit a person to any certificate program or any baccalaureate, graduate, postgraduate, or professional degree program, an institution of higher education may not consider the fact that the person is eligible for an exemption under this section.
(k) The Texas Veterans Commission by rule shall prescribe procedures to allow:

(1) a person who becomes eligible for an exemption provided by Subsection (a) to waive the person's right to any unused portion of the number of cumulative credit hours for which the person could receive the exemption and assign the exemption for the unused portion of those credit hours to a child of the person; and

(k-1) The procedures under Subsection (k) must provide:

(1) the manner in which a person may waive the exemption;

(2) the manner in which a child may be designated to receive the exemption;

(3) a procedure permitting the designation of a different child to receive the exemption if the child previously designated to receive the exemption did not use the exemption under this section for all of the assigned portion of credit hours;

(4) a method of documentation to enable institutions of higher education to determine the eligibility of the designated child to receive the exemption; and

(5) a procedure permitting a person who waived the exemption and designated a child to receive the exemption to revoke that designation as to any unused portion of the assigned credit hours.

(l) To be eligible to receive an exemption under Subsection (k), the child must:

(1) be a student who is classified as a resident under Subchapter B when the child enrolls in an institution of higher education;

(2) as a graduate or undergraduate student, maintain a grade point average that satisfies the grade point average requirement for making satisfactory academic progress in a degree, certificate, or continuing education program as determined by the institution at which the child is enrolled in accordance with the institution's policy regarding eligibility for financial aid; and
(3) be 25 years of age or younger on the first day of the semester or other academic term for which the exemption is claimed.

(m) For purposes of this section, a person is the child of another person if:

(2) the other person claimed the person as a dependent on a federal income tax return filed for the preceding year or will claim the person as a dependent on a federal income tax return for the current year.

(n) The Texas Veterans Commission by rule shall prescribe procedures by which a child assigned an exemption under Subsection (k) who suffered from a severe illness or other debilitating condition that affected the child's ability to use the exemption before reaching the age described by Subsection (l)(3) may be granted additional time to use the exemption corresponding to the time the child was unable to use the exemption because of the illness or condition.

(o) The Texas Higher Education Coordinating Board and the Texas Veterans Commission shall coordinate to provide each respective agency with any information required to ensure the proper administration of this section and the proper execution of each agency's statutory responsibilities concerning this section.

(b) The governing board of each institution of higher education shall exempt from the payment of all dues, fees, and charges any person whose parent is an eligible firefighter or law enforcement officer who has suffered an injury, resulting in death or disability, sustained in the line of duty according to the regulations and criteria then in effect governing the department or agency in which the eligible firefighter or law enforcement officer volunteered or was employed. The exemption does not apply to general deposits or to fees or charges for lodging, board, or clothing.

Acts 2005, 79th Leg., Ch. 980 (H.B. 1829), Sec. 2, eff. June 18, 2005.

Sec. 54.502. GENERAL DEPOSITS. (a) An institution of higher education may collect a reasonable deposit in an amount not to exceed $100 from each student to insure the institution against any losses, damages, and breakage for which the student is responsible and to cover any other amounts owed by the student to the institution. The institution shall return to the student the deposit, less any such amounts owed to the institution by the student. The deposit must be returned within a reasonable period after the date of the student's withdrawal or graduation from the institution, not to exceed 180 days, that provides the institution with sufficient time to identify all amounts owed and to determine that the student does not intend to enroll at the institution in the semester or summer session immediately following the student's withdrawal or graduation or, if the student withdraws or graduates in the spring semester, in the next fall semester.

(b) The medical, dental, and allied health units of The University of Texas System, the University of North Texas Health Science Center at Fort Worth, the Texas Tech University Health Sciences Center, and The Texas A&M University College of Medicine may collect a breakage or loss deposit no greater than $30.

Sec. 54.5021. STUDENT DEPOSIT FUND; COMPOSITION AND USES. (a) The student deposit fund consists of the income from the investment or time deposits of general deposits and of forfeited general deposits. Any general deposit which remains without call for refund for a period of four years from the date of last attendance of the student making the deposit shall be forfeited and become a part of the student deposit fund. This section does not prohibit refund of any balance remaining in a general deposit when made on proper demand and within the four-year limitation period. The governing board of the institution may require that no student withdraw the student's deposit until the student has graduated or has apparently withdrawn from school.

(b) The student deposit fund of an institution of higher education shall be used, at the discretion of the institution's governing board, for making scholarship awards to needy and deserving students of the institution and making grants under Subchapter C, Chapter 56, to resident students of the institution. The governing board shall administer the scholarship awards for the institution, including the selection of recipients and the amounts and conditions of the awards. The recipients of the scholarships must be residents of the state as defined for tuition purposes.

(c) Not later than August 31 of each fiscal year, each institution of higher education that has an unobligated and unexpended balance in its student deposit fund that exceeds 150 percent of the total deposits to that fund during that year shall remit to the Texas Higher Education Coordinating Board the amount of that excess. The coordinating board shall allocate on an equitable basis amounts received under this subsection to institutions of higher education that do not have an excess described by this subsection for deposit in their student deposit fund. The amount allocated under this subsection may be used only for making grants under Subchapter M, Chapter 56.
Sec. 54.5022. INVESTMENT OF GENERAL DEPOSITS. The governing board of each institution of higher education may invest the funds received as general deposits authorized by Section 54.502 in the manner provided under either Section 51.003 or 51.0031.

Sec. 54.5025. PRORATION OF FEES. Based on the length of the semester or term for which a student is enrolled, the governing board of an institution of higher education may prorate the amount of any fee charged to the student under this chapter.

Sec. 54.503. STUDENT SERVICES FEES. (a) For the purposes of this section:

(1) "Student services" means activities which are separate and apart from the regularly scheduled academic functions of the institution and directly involve or benefit students, including textbook rentals, recreational activities, health and hospital services, medical services, intramural and intercollegiate athletics, artists and lecture series, cultural entertainment series, debating and oratorical activities, student publications, student government,
the student fee advisory committee, student transportation services other than services under Sections 54.504, 54.511, 54.512, and 54.513 of this code, and any other student activities and services specifically authorized and approved by the governing board of the institution of higher education. The term does not include services for which a fee is charged under another section of this code.

(2) "Compulsory fee" means a fee that is charged to all students enrolled at the institution.

(3) "Voluntary fee" means a fee that is charged only to those students who make use of the student service for which the fee is established.

(b) The governing board of an institution of higher education may charge and collect from students registered at the institution fees to cover the cost of student services. The fee or fees may be either voluntary or compulsory as determined by the governing board. The total of all compulsory student services fees collected from a student at an institution of higher education other than The University of Texas at Austin or a component institution of the University of Houston System for any one semester or summer session shall not exceed $250. All compulsory student services fees charged and collected under this section by the governing board of an institution of higher education, other than a public junior college, shall be assessed in proportion to the number of semester credit hours for which a student registers. No portion of the compulsory fees collected may be expended for parking facilities or services, except as related to providing shuttle bus services.

(c) The provisions of this section do not affect the building use fees or other special fees authorized by the legislature for any institution for the purpose of financing revenue bond issues.

(d) All money collected as student services fees shall be reserved and accounted for in an account or accounts kept separate and apart from educational and general funds of the institution and shall be used only for the support of student services. All the money shall be placed in a depository bank or banks designated by the governing board and shall be secured as required by law. Each year the governing board shall approve for the institution a separate budget for student activities and services financed by fees authorized in this section. The budget shall show the fees to be assessed, the purpose or functions to be financed, the estimated income to be derived, and the proposed expenditures to be made.
Copies of the budgets shall be filed annually with the coordinating board, the governor, the legislative budget board, and the state library.

(e) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 359, Sec. 16(2), eff. January 1, 2012.

(f) If the total compulsory fee charged under this section is more than $150, the increase does not take effect unless the increase is approved by a majority vote of the students voting in an election held for that purpose or by a majority vote of the student government at the institution. In subsequent years, an election authorizing a fee increase must be held before the fee can be increased by more than 10 percent of the fee approved at the last student election.

(g) If a student registers at more than one institution of higher education within a college or university system under concurrent enrollment provisions of joint or cooperative programs between institutions, the student shall pay all compulsory student services fees to the institution designated as the home institution under the joint or cooperative program. The governing board of the college or university system may waive the payment of all compulsory student services fees at the other institution or institutions.

(h) Except for Subsection (g) of this section, this section does not apply to The University of Texas at Austin or a component institution of the University of Houston System.

(i) General revenue appropriations, other educational and general income, and funds appropriated under Article VII, Section 17 or 18, of the Texas Constitution may be expended on a proportional use basis to support the services, activities, and facilities provided for in this section to the extent that the use of such funds is not otherwise restricted by the Texas Constitution or general law.

Sec. 54.5031. STUDENT FEE ADVISORY COMMITTEE. (a) A student fee advisory committee is established at each institution of higher education except The University of Texas at Austin and the institutions of The Texas A&M University System to advise the governing board and administration of the institution on the type, amount, and expenditure of compulsory fees for student services under Section 54.503 of this code.

(b) Each committee is composed of the following nine members:

(1) five student members who are enrolled for not less than six semester credit hours at the institution and who are representative of all students enrolled at the institution, selected under Subsection (c) of this section; and

(2) four members who are representative of the entire institution, appointed by the president of the institution.

(c) If the institution has a student government, the student government shall appoint three students to serve two-year terms on the committee and two students to serve one-year terms on the committee. If the institution does not have a student government, the students enrolled at the institution shall elect three students to serve two-year terms on the committee and two students to serve one-year terms on the committee. A candidate for a position on the committee must designate whether the position is for a one-year or two-year term.

(d) A student member of the committee who withdraws from the institution must resign from the committee.

(e) A vacancy in an appointive position on the committee shall be filled for the unexpired portion of the term in the same manner as the original appointment. A vacancy in an elective position on the committee shall be filled for the unexpired portion of the term by appointment by the president of the institution.

(f) The committee shall:

(1) study the type, amount, and expenditure of a compulsory fee under Section 54.503 of this code; and
(2) meet with appropriate administrators of the institution, submit a written report on the study under Subdivision (1) of this subsection, and recommend the type, amount, and expenditure of a compulsory fee to be charged for the next academic year.

(g) Before recommending the student fee budget to the governing board of the institution, the president of the institution shall consider the report and recommendations of the committee. If the president's recommendations to the governing board are substantially different from the committee's recommendations to the president, the administration of the institution shall notify the committee not later than the last date on which the committee may request an appearance at the board meeting. On request of a member of the committee, the administration of the institution shall provide the member with a written report of the president's recommendations to the board.

Sec. 54.5032. STUDENT FEE ADVISORY COMMITTEE; THE TEXAS A&M UNIVERSITY SYSTEM. (a) A student fee advisory committee is established at each component institution of The Texas A&M University System to advise the board of regents and the administration of the institution on the type, amount, and expenditure of compulsory fees for student services under Section 54.503, for student health and medical services under Section 54.507, for student center facilities under Section 54.521, and for recreational sports under Section 54.539.

(b) Each committee is composed of the following nine members:

(1) five student members who are enrolled for not less than six semester credit hours at the institution and who are representative of all students enrolled at the institution, selected under Subsection (c); and

(2) four members who are representative of the entire
institution, appointed by the president of the institution.

(c) If the institution has a student government, the student government shall appoint three students to serve two-year terms on the committee and two students to serve one-year terms on the committee. If the institution does not have a student government, the students enrolled at the institution shall elect three students to serve two-year terms on the committee and two students to serve one-year terms on the committee. A candidate for a position on the committee must designate whether the position is for a one-year or two-year term.

(d) A student member of the committee who withdraws from the institution must resign from the committee.

(e) A vacancy in an appointive position on the committee shall be filled for the unexpired portion of the term in the same manner as the original appointment. A vacancy in an elective position on the committee shall be filled for the unexpired portion of the term by appointment by the president of the institution.

(f) The committee shall:

(1) study the type, amount, and expenditure of the compulsory fees imposed under Sections 54.503, 54.507, 54.521, and 54.539; and

(2) meet with appropriate administrators of the institution, submit a written report on the study under Subdivision (1), and recommend the type, amount, and expenditure of the compulsory fees to be charged for the next academic year.

(g) Before recommending the student fee budget to the board of regents each year, the president of the institution shall consider the report and recommendations of the committee. If the president's recommendations to the board of regents are substantially different from the committee's recommendations to the president, the president of the institution shall notify the committee not later than the last date on which the committee may request an appearance at the meeting of the board of regents at which the student fee budget will be considered. On request of a member of the committee, the president of the institution shall provide the member with a written report of the president's recommendations to the board of regents.

Sec. 54.5033. STUDENT FEE ADVISORY COMMITTEE MEETINGS OPEN TO PUBLIC. (a) A student fee advisory committee established under this chapter shall conduct meetings at which a quorum is present in a manner that is open to the public and in accordance with procedures prescribed by the president of the institution.

(b) The procedures prescribed by the president must:

(1) provide for notice of the date, hour, place, and subject of the meeting at least 72 hours before the meeting is convened; and

(2) require that the notice be:

(A) posted on the Internet; and

(B) published in a student newspaper of the institution, if an issue of the newspaper is published between the time of the Internet posting and the time of the meeting.

(c) The final recommendations made by a student fee advisory committee must be recorded and made public.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1049 (S.B. 5), Sec. 7.01, eff. June 17, 2011.

Sec. 54.5035. WAIVER OF FEES. (a) Except as provided by Subsection (c), the governing board of an institution of higher education may waive a mandatory or discretionary fee for a student if the board determines that the student is not reasonably able to participate in or use the activity, service, or facility for which the fee is charged.

(b) Except as provided by Subsection (c), the governing board of an institution of higher education may waive a mandatory or discretionary fee for a specific category of students if the board determines that the waiver is in the best interest of the institution or is critical to the viability of an academic initiative.

(c) The governing board must ensure that a waiver under this section does not result in the institution's inability to service a debt to which revenue from the fee is obligated or to support an activity, service, or facility for which the fee is charged.

(d) This section does not permit the governing board to waive
payment of tuition or laboratory fees.

(e) The governing board may limit or prohibit a student's participation in or use of an activity, service, or facility supported by a fee that is waived for the student under this section.

Added by Acts 1999, 76th Leg., ch. 367, Sec. 1, eff. Sept. 1, 1999.

Sec. 54.504. INCIDENTAL FEES. (a) The governing board of an institution of higher education may fix the rate of incidental fees to be paid to an institution under its governance by students and prospective students and may make rules for the collection of the fees and for the distribution of the funds, such funds to be accounted for as other designated funds. The rate of an incidental fee must reasonably reflect the actual cost to the university of the materials or services for which the fee is collected. In fixing such rate, the governing board may consult with a student fee advisory committee which the governing board may establish if such student committee does not presently exist.

(b) The board shall publish in the general catalog of the university a description of the amount of each fee to be charged.

(c) In this section, "incidental fees" includes, without limitation, such fees as late registration fees, library fines, microfilming fees, thesis or doctoral manuscript reproduction or filing fees, bad check charges, application processing fees, and laboratory breakage charges, but does not include a fee for which a governing board makes a charge under the authority of any other provision of law.

Sec. 54.5041. ENVIRONMENTAL SERVICE FEE. (a) The governing board of an institution of higher education may charge each student enrolled at the institution an environmental service fee, if the fee has been approved by a majority vote of the students enrolled at the institution who participate in a general student election called for that purpose.

(b) Unless increased in accordance with Subsection (d), the amount of the fee may not exceed:

(1) $5 for each regular semester or summer term of more
than six weeks; or
   (2) $2.50 for each summer session of six weeks or less.

(c) The fee may be used only to:
   (1) provide environmental improvements at the institution through services related to recycling, energy efficiency and renewable energy, transportation, employment, product purchasing, planning and maintenance, or irrigation; or
   (2) provide matching funds for grants to obtain environmental improvements described by Subdivision (1).

(d) The amount of the fee may not be increased unless the increase has been approved by a majority vote of the students enrolled at the institution who participate in a general student election called for that purpose. The fee may not be increased under this subsection if the increase would result in a fee under this section in an amount that exceeds:
   (1) $10 for each regular semester or summer term of more than six weeks; or
   (2) $5 for each summer session of six weeks or less.

(e) An institution that imposes the environmental service fee may not use the revenue generated by the fee to reduce or replace other money allocated by the institution for environmental projects.

(f) Any fee revenue that exceeds the amount necessary to cover current operating expenses for environmental services and any interest generated from that revenue may be used only for purposes provided under Subsection (c).

(g) The fee is not considered in determining the maximum amount of student services fees that an institution of higher education may charge.

(h) The fee may not be charged after the fifth academic year in which the fee is first charged unless, before the end of that academic year, the institution has issued bonds payable in whole or in part from the fee, in which event the fee may not be charged after the academic year in which all such bonds, including refunding bonds for those bonds, have been fully paid.

Sec. 54.505. VEHICLE REGISTRATION FEES AND OTHER FEES RELATED TO PARKING AND TRAFFIC. (a) The governing board of each institution of higher education may charge a reasonable fee to students, faculty, and staff for registration of a vehicle under Section 51.202 of this code.

(b) The governing board may fix and collect a reasonable fee or fees for the provision of facilities and the enforcement and administration of parking and traffic regulations approved by the board for an institution; provided, however, that no such fee may be charged to a student unless the student desires to use the facilities.

Added by Acts 1979, 66th Leg., p. 146, ch. 78, Sec. 1, eff. April 26, 1979. Amended by Acts 1987, 70th Leg., ch. 901, Sec. 7, eff. Aug. 31, 1987.

Sec. 54.506. FEES AND CHARGES FOR SERVICES TO THE PUBLIC; THE UNIVERSITY OF HOUSTON SYSTEM. A schedule of minimum fees and charges shall be established by the board of regents of the University of Houston System for services performed by any department of a component institution for students and the public. The schedule shall conform to the fees and charges customarily made for like services in the community. By way of example, but not as a limitation, are services of the hearing clinic, optometry clinic, reading clinic, and data processing and computing center.

Sec. 54.5061. STUDENT SERVICES FEES; THE UNIVERSITY OF HOUSTON SYSTEM. (a) In this section:

(1) "Student services" includes textbook rentals; recreational activities; health, hospital, and other medical services; group hospitalization; intramural and intercollegiate athletics; artists and lecture series and other cultural entertainment; debating and oratorical activities; student publications; student government; student fees advisory committees; student transportation services; and any other student activities
and services specifically authorized and approved by the board; provided, however, that nothing herein shall affect the setting and collection of any other fee which may be charged under the specific authority of any other section of this code.

(2) "Compulsory fee" means a fee that is charged to all students enrolled at the component institution.

(3) "Voluntary fee" means a fee that is charged only to those students who make use of the student service for which the fee is established.

(b) Subject to Section 54.5062 of this code and Subsections (h) and (i) of this section, the Board of Regents of the University of Houston System may charge and collect from students registered at each component institution of the University of Houston System fees to cover the cost of student services that the board considers necessary or desirable in carrying out the educational functions of each university. The governing board of the system is not required to set uniform fees or rates for component institutions.

(c) The board may make fees for a particular student service voluntary or compulsory.

(d) Any compulsory fees for student services charged under this section shall be assessed in proportion to the number of semester credit hours for which a student registers unless the rate of such fee is specifically established by law or authority and approval of the board to be a minimum amount to be charged to each student for any semester or summer term.

(e) Money collected as fees for student services shall be:

(1) reserved and accounted for in an account kept separate from educational and general funds of the university;

(2) used only for the support of student services;

(3) used only after the compulsory fees to be included in the student services fees budget have been considered as provided in this subchapter; and

(4) placed in a depository bank designated by the board and secured as provided by law.

(f) Each year the board shall approve for each university a separate budget for student activities and services financed by fees authorized by this section. The budget shall show the fees to be assessed, the purpose for which the fees will be used or the functions to be financed, the estimated income to be derived, and the proposed expenditures to be made. Copies of the budget shall be
filed annually with the coordinating board, the governor, the Legislative Budget Board, and the state library.

(g) If payment of any compulsory fees authorized by this section would cause an undue financial hardship on a student, the board may waive all or part of the compulsory fees for that student. The number of students granted a waiver under this subsection may not exceed 10 percent of the total enrollment of the university. The board may limit the participation of a student in the activities financed by the fees waived in proportion to the extent of the waiver.

(h) If, in an academic year, the total compulsory fees charged under this section are more than 10 percent higher than the previous year's compulsory fees, the increase is not effective unless approved by a majority vote of the students voting in an election called for that purpose or by a majority vote of the duly elected student government.

(i) The total of all compulsory fees charged under this section to students for any semester or summer session may not exceed $150, unless prior approval has been granted by a majority vote of the students voting in an election called for that purpose or by a majority vote of the duly elected student government.

(j) General revenue appropriations, other educational and general income, and funds appropriated under Article VII, Section 17, of the Texas Constitution, may be expended on a proportional use basis to support the services, activities, and facilities provided for in this section to the extent that the use of such funds is not otherwise restricted by the constitution or general law.

(k) This section does not affect any special fees, including general use fees, that the legislature has authorized to finance revenue bond issues or any other fees authorized by law.

Sec. 54.5062. STUDENT FEES ADVISORY COMMITTEE; THE UNIVERSITY OF HOUSTON SYSTEM. (a) A student fees advisory committee is established at each component institution of the University of Houston System to advise the board of regents, presidents, and administration of the University of Houston System on the type, level, and expenditure of compulsory fees for student services
collected at each component institution of the system under Section 54.5061 of this code. Each committee is composed of nine members.

(b) Five of the members of each student fees advisory committee shall be student members. The student members shall be generally representative of the student body and be enrolled in not less than six semester hours at the university. If a student government exists, the student members shall be selected by the student government of the university. The student members shall be selected and designated as appropriate so that three members of the committee are serving terms of two years, and two members are serving terms of one year. If a student government does not exist, the students shall be elected by the students enrolled in the university. At each election, the appropriate number of students shall be elected for terms of appropriate length so that three are serving terms of two years, and two are serving terms of one year. Candidates shall file for either a one-year or a two-year position.

(c) The four remaining members of the student fees advisory committee shall be appointed by the president of the university and shall be generally representative of the total university community. Each member appointed by the president serves for a term of one year but may be reappointed.

(d) A student member who ceases to be a student may not continue to hold a student membership position. If a student vacancy occurs, the student government shall appoint a new member to serve for the remainder of the unexpired term. In the absence of student government or if the vacancy is in a position appointed by the president, the president of the university shall appoint a new member to serve for the remainder of the term.

(e) The committee shall conduct appropriate inquiry into the type, level, and expenditure of any compulsory fees to be charged under Section 54.5061 of this code and into the expenditure of money generated from those fees. The committee shall then meet with appropriate members of the university administration to submit a report recommending the type, level, and expenditure of compulsory fees to be charged to students in the academic year beginning with the following fall semester.

(f) The president shall duly consider the recommendations of the student fees advisory committee during the annual budgetary process. If the president's recommendations to the board of regents are substantially different from those of the student fees advisory
committee, the administration shall so notify the student fees advisory committee. Such notification shall be in sufficient time for the committee to request an appearance at the board of regents meeting during which the president's recommendations will be considered. The administration shall provide to a student member designated by the student members of the committee, on that student member's request, the most recent and complete recommendations of the president to the board.

Sec. 54.507. GROUP HOSPITAL AND MEDICAL SERVICES FEES; TEXAS A&M UNIVERSITY SYSTEM. (a) The Board of Regents of The Texas A&M University System may levy and collect from each student at any institution of higher education which is a part of The Texas A&M University System a compulsory group hospital and medical services fee not to exceed $75 for each regular semester and not to exceed $25 for each term of each summer session. The compulsory group hospital and medical services fee may not be levied unless the levy of the fee has been approved by a majority vote of those students at the affected institution participating in a general student election called for that purpose.

(b) In addition to the fee authorized under Subsection (a) of this section, the Board of Regents of The Texas A&M University System may levy and collect from each student registered at Prairie View A&M University a supplemental group hospital and medical services fee not to exceed $30 for each regular semester and not to exceed $12.50 for each term of the summer session. The supplemental group hospital and medical services fee may not be levied unless the levy of the fee has been approved by a majority vote of the students registered at Prairie View A&M University participating in a general election called for that purpose.

(c) A fee levied under this section at a component institution of The Texas A&M University System may be used only to provide hospital or other medical services to students registered at that component institution.

(d) If, in an academic year, the total compulsory fee charged under this section is more than 10 percent higher than the compulsory fee charged under this section for the previous academic year, the
increase does not take effect unless the increase is approved by a
majority vote of the students voting in an election held for that
purpose.

(e) If, in an academic year, the total compulsory fee charged
under this section is proposed to be increased by an amount less than
10 percent over that charged in the previous academic year, the Board
of Regents of The Texas A&M University System may, in lieu of an
election, hold a public meeting on the increase prior to its taking
effect in which students have the opportunity to comment.

(f) An election under this section must also permit the
students to vote on whether hospital and medical services should be
provided to students at the institution by the institution or by a
private entity. The vote by the students on the responsibility for
provision of hospital and medical services to students at the
institution is not binding on the institution.

Sec. 54.508. MEDICAL SERVICES FEE; TEXAS TECH UNIVERSITY
SYSTEM COMPONENTS. (a) The board of regents of the Texas Tech
University System may charge each student registered at a component
institution of the Texas Tech University System a medical services
fee not to exceed $100 for each semester of the regular term or 12-
week summer session and not to exceed $50 for each six-week or
shorter term of the summer session.

(b) Before charging a medical services fee, the board must give
students and administrators an opportunity to offer recommendations
to the board as to the type and scope of medical services that should
be provided.

(c) A medical services fee charged under this section may be
used only to provide medical services to students enrolled at a
component institution of the Texas Tech University System.

(d) A medical services fee charged under this section is in
addition to any other fee the board is authorized by law to charge.
(e) The board may not increase the amount of the medical services fee charged at a component institution of the Texas Tech University System by more than 10 percent from one academic year to the next unless the increase is approved by a majority of the students of the institution voting in a general student election held for that purpose.

Sec. 54.5081. MEDICAL SERVICES FEE; UNIVERSITY OF NORTH TEXAS SYSTEM INSTITUTIONS. (a) The board of regents of the University of North Texas System may charge each student registered at a component institution of the University of North Texas System a medical services fee not to exceed $75 for each semester of the regular term or 12-week summer session and not to exceed $37.50 for each six-week or shorter term of the summer session.

(b) Before charging a medical services fee at a component institution, the board must give students and administrators an opportunity to offer recommendations to the board as to the type and scope of medical services that should be provided.

(c) The board may not increase the amount of the medical services fee charged at a component institution by more than 10 percent from one academic year to the next unless the amount of the increase is approved by a majority of the students at the institution voting in a general election held at the institution for that purpose.

(d) A medical services fee charged at a component institution of the University of North Texas System under this section may be used only to provide medical services to students registered at that component institution.

(e) The fee imposed under this section may not be considered in determining the maximum student services fee that may be charged students enrolled at a component institution of the University of North Texas System under Section 54.503(b).

Sec. 54.5082. MEDICAL SERVICES FEE; MIDWESTERN STATE UNIVERSITY. (12) establish other policies, procedures, and eligibility criteria to implement this subchapter.

Sec. 54.619. PREPAID HIGHER EDUCATION TUITION PROGRAM. (a) Under the program, a purchaser may enter into a prepaid tuition contract with the board under which the purchaser agrees to prepay the tuition and required fees for a beneficiary to attend an institution of higher education or private or independent institution
of higher education.

(b) The board shall deposit the money paid under a prepaid tuition contract in the fund, invest the money and credit the income earned to the fund, and apply money in the fund to the tuition and required fees of the institution of higher education or private or independent institution of higher education in which the beneficiary enrolls as provided by the prepaid tuition contract.

(c) If the beneficiary of a plan described by Section 54.623, 54.624, or 54.625 enrolls in a private or independent institution of higher education, the board shall pay the institution the tuition and required fees the board would have paid had the beneficiary enrolled in an institution of higher education covered by the plan selected in the prepaid tuition contract. The beneficiary is responsible for paying the private or independent institution of higher education the amount by which the tuition and required fees of the institution exceed the tuition and required fees paid by the board.

(c-1) If the beneficiary of a prepaid tuition contract entered into after December 31, 2003, under Section 54.623, 54.624, or 54.625 enrolls in an institution of higher education, the board:

(1) shall pay to the institution the tuition and required fees of the institution; and

(2) may pay to the purchaser all or part of any amount paid or accrued under the contract that exceeds the tuition and required fees of the institution if the board determines that it may do so in a manner consistent with the actuarial soundness of the program.

(d) If the beneficiary of a plan described by Section 54.6251 enrolls in an institution of higher education, the board shall pay:

(1) to the institution the tuition and required fees of the institution; and

(2) to the purchaser the amount by which the estimated average private tuition and required fees exceeds the tuition and required fees of the institution.

(e) If the beneficiary of a plan described by Section 54.6251 enrolls in a private or independent institution of higher education, the board shall pay:

(1) to the institution the lesser of:

(A) the tuition and required fees of the institution; or

(B) the estimated average private tuition and required fees; and
(2) to the purchaser the amount by which the estimated average private tuition and required fees exceeds the tuition and required fees of the institution.

(f) If the beneficiary of a plan described by Section 54.6251 enrolls in a private or independent institution of higher education, the beneficiary is responsible for paying the institution the amount by which the tuition and required fees of the institution exceeds the estimated average private tuition and required fees.

(g) If in any fiscal year there is not enough money in the fund to pay the tuition and required fees of the institution of higher education in which a beneficiary enrolls or the appropriate portion of the tuition and required fees of the private or independent institution of higher education in which the beneficiary enrolls as provided by the prepaid tuition contract, the comptroller shall transfer to the fund out of the first money coming into the state treasury not otherwise appropriated by the constitution the amount necessary for the board to pay the applicable amount of tuition and required fees of the institution.

(h) Notwithstanding other provisions of this subchapter, any contract benefits purchased under this subchapter may be applied to the payment of tuition and required fees at a career school or college as if the school or college were an institution of higher education or private or independent institution of higher education. On the purchaser's request, the board shall apply, in accordance with Section 54.628, any existing amount of prepaid tuition contract benefits to the payment of tuition and required fees at a career school or college. The board is not responsible for the payment of tuition and required fees at the career school or college in excess of that amount. The board may adopt rules as necessary to implement this subsection.

(i) [Blank].

(j) The board may temporarily suspend new enrollment in the program on the request of the comptroller as the comptroller considers necessary to ensure the actuarial soundness of the fund.

(k) The board by rule shall establish criteria and procedures to guide the board in determining when and under what conditions to reopen new enrollment in the program in the event new enrollment in the program is suspended under Subsection (j). The procedure must require that, each year in which new enrollment in the program is suspended, the board consider the current structure of the program.
and determine whether any statutory or administrative changes are needed to enable the board to reopen new enrollment in the program in an actuarially sound manner.

Amended by:
Acts 2007, 80th Leg., R.S., Ch. 1054 (H.B. 2173), Sec. 8, eff. June 15, 2007.

Sec. 54.6195. APPLICATION FOR ENROLLMENT. (a) The board shall adopt a form for an application for enrollment in the program. The form must indicate the information that the applicant is required to provide in order for the application to be considered, including the information required by Subsection (b) and any other information the board considers appropriate.

(b) An application for enrollment in the program must include the following information:

(a) The board may contract with a purchaser for the purchaser to prepay the tuition and required fees for a beneficiary to attend an institution of higher education or private or independent institution of higher education to which the beneficiary is admitted as a student.

(b) The terms of a prepaid tuition contract shall be based on
an actuarial analysis of:

(1) the rates of increase of:
   (A) tuition and required fees at institutions of higher education; or
   (B) estimated average private tuition and required fees;

(2) expected investment returns;

(3) estimated administrative costs; and

(7) contain an assumption of a contractual obligation by the board to the beneficiary to provide for a specified number of credit hours of undergraduate instruction at an institution of higher education or private or independent institution of higher education, not to exceed the typical number of credit hours required for the degree that corresponds to the plan purchased on behalf of the beneficiary;

(8) specify the date the beneficiary is projected to graduate from high school; and

(9) contain any other provisions the board considers necessary or appropriate.

(e) A prepaid tuition contract does not cover the cost of laboratory fees charged for specific courses.
Sec. 54.621. BENEFICIARY. (a) Except as provided by Subsection (d), the beneficiary of a prepaid tuition contract must be younger than 18 years of age or 18 years of age or older and enrolled in high school at the time the purchaser enters into the contract and must be:

(1) a resident of this state at the time the purchaser enters into the contract; or

(2) a nonresident who is the child of a parent who is a resident of this state at the time that parent enters into the contract.

(b) The board may require a reasonable period of residence in this state for a beneficiary or the parent of a beneficiary.

(c) Notwithstanding any provision of Subchapter B, the tuition and required fees charged by an institution of higher education for semester hours and fees that are paid for by a prepaid tuition contract shall be determined as if the beneficiary of that contract were a resident student.

(d) In order to provide sufficient time for program investments to mature in an actuarially sound manner with regard to the amounts prepaid under a contract entered into after December 31, 2003, the board may require a maturity period between the time a purchaser enters into the contract and the time the board must act on its contractual obligation to pay any tuition or fees on behalf of the beneficiary.

(a) The board may establish one or more plans to allow a person to prepay all or part of the tuition and required fees for enrollment in a graduate or professional degree program at an institution of higher education or private or independent institution of higher education, if the board determines that:

(b) The board may limit a plan established under this section to a specified field or fields of study, to a specified level or type of degree, or to a specified number of hours or semesters, as the board considers appropriate.

(c) The board is not required to continue offering a plan established under this section in subsequent years.

The additional credit hours must be for the same type of institution as the credit hours purchased under the primary contract.

(b) The contract is subject to Section 54.620.

Sec. 54.626. CONTRACT PAYMENT. (a) The board may provide for the receipt of payments under prepaid tuition contracts in lump sums or installment payments. The beneficiary is responsible for payment of the amount of tuition and required fees for the number of semester credit hours that the beneficiary elects not to pay under the contract.

(a) If the beneficiary of a prepaid tuition contract registers in a graduate or professional degree program before the termination of the contract and the beneficiary has not received payment under the contract for tuition and required fees for all of the semester credit hours to which the beneficiary is entitled, the beneficiary may apply the value of the remaining semester credit hours under the contract to the payment of the beneficiary's tuition and required fees in the graduate or professional degree program.
(b) For purposes of this section, the value of a semester credit hour under a prepaid tuition contract is equal to the average amount of undergraduate tuition and required fees for a semester credit hour that would have been paid under the contract if the beneficiary registered in an undergraduate program for the same term or semester for which the beneficiary applies the payment to the beneficiary's tuition and required fees in a graduate or professional degree program under this section.

(c) This section does not affect the date on which a prepaid tuition contract terminates under this subchapter and does not give the beneficiary the right to any payment under the contract after termination of the contract.

Sec. 54.627. CHANGE OF BENEFICIARY. Except as provided by Subsection (b), the new beneficiary must meet the requirements of Section 529 of the Internal Revenue Code of 1986 so that the change of beneficiary is not treated as a distribution under that law.

(b) If the purchaser is this state, a local government of this state, or an organization exempt from taxation under Section 501(a) of the Internal Revenue Code of 1986 because it is listed in Section 501(c)(3) of that code that purchases an interest in a prepaid tuition contract as part of a scholarship program operated by the government or organization, the purchaser may designate a new beneficiary without regard to the relationship of the new beneficiary to the original beneficiary.

(c) The board may adjust the terms of the contract so that the purchaser is required to pay the amount the purchaser would have been required to pay had the purchaser originally designated the new beneficiary as the beneficiary, taking into account any payments made before the date the designation is changed.

(d) The purchaser of a prepaid tuition contract may not sell the contract.

Added by Acts 1995, 74th Leg., ch. 1032, Sec. 1, eff. Sept. 1, 1995.

Sec. 54.705. DUTIES OF PLAN MANAGER. (a) A plan manager shall:

(1) take all actions required to keep the plan in compliance with this subchapter, to ensure that the plan qualifies as a qualified state tuition program under Section 529, Internal Revenue Code of 1986, as amended, and to ensure that the plan is exempt from registration under federal securities law;

A financial institution that markets the plan or provides account services under this subsection may charge a fee or commission for those services.

Sec. 54.706. CONTRACT BETWEEN BOARD AND PLAN MANAGER. (a) A contract between the board and a financial institution to act as a plan manager under this subchapter must be for a term of at least five years and may be renewable.

(b) If the contract is not renewed, the following conditions apply at the end of the term of the contract, so long as applying the conditions does not disqualify the plan as a qualified state tuition program under Section 529, Internal Revenue Code of 1986, as amended:

(1) the board shall continue to maintain the plan at the financial institution;

(2) accounts previously established at the financial institution may not be terminated, except as provided by Subdivision (5) or Subsection (c);

(3) additional contributions may be made to the accounts;

(4) new accounts may not be opened with that financial institution; and

(5) if the board determines that continuing the accounts at that financial institution is not in the best interest of the account owners, the accounts may be transferred to another financial institution acting as a plan manager.

(c) The board may cancel a plan manager contract with a financial institution for a violation of the contract or a provision of this subchapter by the financial institution at any time. If a contract is terminated under this subsection, the board shall take custody of accounts held at that financial institution and shall promptly seek to transfer the accounts to another financial institution acting as a plan manager and into investment instruments as similar to the original investment instruments as possible.

Sec. 54.707. SAVINGS TRUST ACCOUNTS. (a) An individual may open a savings trust account to save money for the payment of the qualified higher education expenses of a beneficiary. The individual who opens the account is the owner of the account. The owner of the account may also be the beneficiary.

An employee of the state or a political subdivision of the state may make contributions to a savings trust account by payroll deductions made by the appropriate officer of the state or political subdivision.

(b) An account owner may withdraw all or part of the balance of an account on prior notice as authorized by board rules. The board shall adopt rules governing the determination whether a withdrawal is a qualified withdrawal or a nonqualified withdrawal. The rules may
require an account owner requesting to make a qualified withdrawal to provide a certification of qualified higher education expenses.

(c) In the case of a nonqualified withdrawal from an account, an amount equal to 10 percent of the portion of the withdrawal constituting income as determined in accordance with Section 529, Internal Revenue Code of 1986, as amended, shall be withheld as a penalty.

(d) The amount of the penalty prescribed by Subsection (c) may be increased if the board determines that the increased penalty is necessary to constitute a greater than de minimis penalty for purposes of qualifying the plan as a qualified state tuition program under Section 529, Internal Revenue Code of 1986, as amended.

(e) The amount of the penalty prescribed by Subsection (c) may be decreased by board rule if the board determines that:

(1) the amount of the penalty prescribed by Subsection (c) is greater than required to constitute a greater than de minimis penalty for purposes of qualifying the plan as a qualified state tuition program under Section 529, Internal Revenue Code of 1986, as amended; and

(2) the penalty together with other revenue generated under this subchapter is producing more revenue than required to cover the costs of operating the plan and to recover any prior costs not previously recovered.

(f) Penalties collected under this subchapter shall be used to cover costs of administering this subchapter, and any excess shall be treated as earnings of the savings trust accounts in the plan.

Sec. 54.709. ADMINISTRATION OF ACCOUNTS. (a) A plan manager shall provide separate accounting for each savings trust account.

(b) An account owner or beneficiary may not direct the investment of any contributions to or earnings on an account.

(c) If the board terminates the contract of a financial institution to act as a plan manager and accounts must be transferred from that financial institution to another financial institution, the board shall select the financial institution to which the balances of the accounts are transferred.

(d) A savings trust agreement must provide that, if after a
specified period the savings trust agreement has not been terminated and the beneficiary's rights in the account have not been exercised, the board, after making reasonable efforts to contact the owner and beneficiary of the account or their agents, shall report the unclaimed money in the account to the comptroller.

(e) Money in a savings trust account is exempt from attachment, execution, and seizure for the satisfaction of debt or liability of an account owner or beneficiary.

(f) A savings trust account may not be assigned for the benefit of creditors, used as security or collateral for any loan, or otherwise subject to alienation, sale, transfer, assignment, pledge, encumbrance, or charge.

(g) A distribution from an account to any individual or for the benefit of any individual during a calendar year shall be reported to the Internal Revenue Service and to the account owner or the beneficiary to the extent required by federal law.

(h) A plan manager shall provide an annual statement to each account owner not later than the January 31 after the end of each calendar year and may provide statements more frequently than annually. A statement must identify the contributions made during the reporting period, the total contributions made through the end of the reporting period, the value of the account at the end of the reporting period, withdrawals made during the reporting period, and any other information the board requires.

(i) Notwithstanding Subsection (b), if Section 529, Internal Revenue Code of 1986, as amended, is amended to permit an account owner to direct the investment of a contribution to or an account balance in a qualified state tuition program, the board in each subsequent plan manager contract shall provide that each plan manager must provide a savings trust account owner with the ability to direct the investment of a contribution to the account or the balance in the account among a wide variety of investment options.

Sec. 54.710. PLAN LIMITATIONS. (a) Nothing in this subchapter or in any savings trust agreement entered into under this subchapter may be construed to:

(1) give a beneficiary any rights or legal interest with
respect to a savings trust account unless the beneficiary is the account owner;

(2) guarantee that amounts saved under the plan will be sufficient to cover the qualified higher education expenses of a beneficiary; or

(3) establish state residency for tuition or other purposes for a beneficiary because of the designation as a beneficiary.

(b) Nothing in this subchapter or in any savings trust agreement entered into under this subchapter may be construed to create any obligation of the state, any agency or instrumentality of the state, or a plan manager to guarantee for the benefit of an account owner or beneficiary:

(1) the return of any amount contributed to an account;
(2) the rate of interest or other return on an account;
(3) the payment of interest or other return on an account;
or

(c) The board by rule shall require that every savings trust agreement, deposit slip, and other similar document used in connection with a contribution to an account clearly indicate that the account is not insured by this state and that neither the principal deposited nor the investment return is guaranteed by this state.

Sec. 54.711. NO PROMISE OF ADMISSION, ENROLLMENT, OR GRADUATION. The opening or maintenance of a savings trust account does not promise or guarantee that a beneficiary of the account will:

(4) receive a degree or certificate from an eligible educational institution.

Sec. 54.712. RESIDENCY NOT REQUIRED. A savings trust account owner or beneficiary is not required to be a resident of this state.

Sec. 54.713. POLICIES FOR PROMOTION AND DISCLOSURE OF INFORMATION. The board shall adopt policies for promotion of the plan and the disclosure of plan information to savings trust account owners and beneficiaries in a manner consistent with this subchapter and the requirements of Section 529, Internal Revenue Code of 1986, as amended, to ensure that:

(1) promotional material and plan information disclose that no money invested in the plan is insured by this state and that neither the principal deposited nor the investment returned is guaranteed by this state; and

(2) any fees imposed under this subchapter are disclosed in promotional material and plan information provided to the public and to account owners and beneficiaries.

Sec. 54.714. CONFIDENTIALITY OF RECORDS. (a) Except as otherwise provided by this section, all information relating to the plan is public and subject to disclosure under Chapter 552, Government Code.

(b) Information relating to a beneficiary or owner of a savings trust account, including any personally identifiable information about an owner or beneficiary, is confidential except that the board may disclose that information to an account owner regarding the owner's account.

Sec. 54.715. TERMINATION OR MODIFICATION OF PLAN. If the comptroller determines that the plan is not financially feasible, the comptroller shall notify the governor and the legislature and recommend that the board not administer a higher education savings plan or that the plan be modified or terminated.
Sec. 54.716. EFFECT OF TERMINATION OF PLAN ON SAVINGS TRUST AGREEMENT. If the plan is terminated, the balance of each savings trust account shall be paid to the account owner, to the extent possible, and any unclaimed assets shall escheat to the state in accordance with general law regarding unclaimed property.

Sec. 54.753. PREPAID TUITION UNITS: PURCHASE; ASSIGNED VALUE; TYPES; PRICE. (a) Under the program, a purchaser may prepay the costs of all or a portion of a beneficiary's undergraduate tuition and required fees at a general academic teaching institution, two-year institution of higher education, private or independent institution of higher education, career school, or accredited out-of-state institution of higher education by entering into a prepaid tuition contract with the board to purchase one or more tuition units of a type described by this section at the applicable price established by the board for that type of unit for the year in which the unit is purchased. The portion of the beneficiary's undergraduate tuition and required fees for which a tuition unit may be redeemed at a particular general academic teaching institution or two-year institution of higher education is assigned to the tuition unit at the time of purchase, and the tuition unit may be redeemed to pay that portion of the tuition and fees at the general academic teaching institution or two-year institution of higher education in any academic year in which the unit is redeemed in accordance with this subchapter. The purchaser may purchase one type of unit or a combination of two or three types of units.

(b) The assigned value of a tuition unit, purchased as provided by this section, when used to pay the cost of tuition and required fees at a general academic teaching institution or two-year institution of higher education, is equal to one percent of the amount necessary for the academic year in which the unit is redeemed to cover the applicable cost of undergraduate resident tuition and required fees for one academic year consisting of 30 semester credit hours as follows:

(1) for a Type I tuition unit, the cost of undergraduate resident tuition and required fees charged by the general academic teaching institution with the highest such tuition and fee costs, determined as provided by Subsection (d);

(2) for a Type II tuition unit, the weighted average undergraduate resident tuition and required fees charged by general academic teaching institutions, determined as provided by Subsection (e); and

(3) for a Type III tuition unit, the weighted average undergraduate resident tuition and required fees of two-year
institutions of higher education, determined as provided by Subsection (f).

(c) Each year, the board shall establish the price at which each type of tuition unit may be purchased during the next sales period and the percentage of the total cost of undergraduate resident tuition and required fees for one academic year consisting of 30 semester credit hours for which each type of tuition unit may be redeemed at each general academic teaching institution and two-year institution. The percentage shall be based on the total cost of required tuition and fees at a particular general academic teaching institution or two-year institution of higher education in relation to the amount determined for the institution with the highest cost or weighted average cost, as applicable. The purchase price established for each type of unit must be equal to the applicable cost of tuition and required fees as determined under this section for the most recent academic year that began before the beginning of the sales period. The sales period to which those prices apply expires on the first anniversary of the date the units become available for purchase at the prices established for that year.

(d) The board shall base the purchase price of a Type I tuition unit on one percent of the cost of the undergraduate resident tuition and required fees for the applicable academic year at the general academic teaching institution with the highest such tuition and fee cost for that academic year.

(e) The board shall base the purchase price of a Type II tuition unit on one percent of the cost of the weighted average general academic teaching institution undergraduate resident tuition and required fees for the applicable academic year. That cost is determined by:

(1) for each general academic teaching institution, multiplying the average amount of the institution's undergraduate resident tuition and required fees for an academic year consisting of 30 semester credit hours by the number of full-time equivalent undergraduate resident students at that institution;

(2) adding together the products computed under Subdivision (1) for each institution; and

(3) dividing the sum determined under Subdivision (2) by the total number of full-time equivalent undergraduate resident students at all general academic teaching institutions.

(f) The board shall base the purchase price of a Type III
tuition unit on one percent of the cost of the weighted average two-year institution of higher education undergraduate resident tuition and required fees for the applicable academic year, disregarding any portion of the tuition charged by a public junior college to a resident of this state who does not reside within the taxing jurisdiction of the junior college. That cost is determined by:

(1) for each two-year institution of higher education, multiplying the average amount of the institution's undergraduate resident tuition and required fees for an academic year consisting of 30 semester credit hours by the number of full-time equivalent undergraduate resident students at that institution;

(2) adding together the products computed under Subdivision (1) for each institution; and

(3) dividing the sum determined under Subdivision (2) by the total number of full-time equivalent undergraduate resident students at all two-year institutions of higher education.

(g) The total amount paid under a prepaid tuition contract on behalf of a single beneficiary may not exceed any limit established on the amount by Section 529, Internal Revenue Code of 1986. The board shall establish, in compliance with Section 529, Internal Revenue Code of 1986, the minimum amount that the purchaser is required to pay under the contract on behalf of a single beneficiary.

(h) At the time of the establishment of the account to which a purchaser's prepaid tuition contract money is assigned, the board may impose an administrative fee not to exceed $25. Money from that fee must be used directly in maintaining the actuarial soundness of the fund as required by Section 54.770. The board may not impose any other fee or charge in connection with the sale of a tuition unit.

Sec. 54.754. REDEMPTION OF TUITION UNITS. (a) In accordance with this subchapter, when a beneficiary under a prepaid tuition contract redeems one or more tuition units to pay costs of tuition and required fees, the board shall apply money in the fund, in the
amount provided by Section 54.765 to pay all or the applicable portion of the costs of the beneficiary's tuition and required fees at the general academic teaching institution, two-year institution of higher education, private or independent institution of higher education, or accredited out-of-state institution of higher education in which the beneficiary enrolls. Subject to Subsection (b)(2) and the other provisions of this section, a beneficiary may redeem any type of tuition unit for attendance at an institution described by this section. A general academic teaching institution or two-year institution of higher education shall accept the amount transferred to the institution under Section 54.765(c) when the unit or units are redeemed as payment for all or the applicable portion of the beneficiary's tuition and required fees.

(b) To pay for the entire cost of undergraduate resident tuition and required fees for an academic year consisting of 30 semester credit hours, redemption of 100 Type I tuition units is required at the general academic teaching institution with the highest tuition and fee cost as described by Section 54.753(d), redemption of 100 Type II tuition units is required at a general academic teaching institution with the applicable tuition and fee cost at the weighted average as described by Subsection (e) of that section, and redemption of 100 Type III units is required at a two-year institution of higher education with the applicable tuition and fee cost at the weighted average as described by Subsection (f) of that section. The number of tuition units that must be redeemed to pay for the entire cost of tuition and required fees for an academic year at another general academic teaching institution or two-year institution of higher education may be higher or lower:

(1) in proportion to the amount that the cost of tuition and required fees at that institution is higher or lower than the amount determined for the institution with the highest cost or weighted average cost, as applicable; or

(2) if a more or less valuable type of tuition unit is redeemed.

(c) To assist purchasers in determining the number of tuition units a beneficiary must redeem to cover the costs of tuition and required fees at general academic teaching institutions and two-year institutions of higher education, each year the board shall prepare a tuition unit redemption chart and shall post the chart on an Internet website. The chart must show for each general academic teaching
institution and for each two-year institution of higher education the number of each type of units purchased that year that would be required to cover the cost of tuition and required fees, based on an academic year consisting of 30 semester credit hours.

(a) Where any revenues, income, receipts, or other resources of any board have been pledged to the payment of principal of and interest on any bonds or notes issued and delivered pursuant to any other law, the repeal of such law by virtue of the enactment of Title 3 of this code shall not affect any such pledge or any covenants with respect to such bonds or notes, or any bonds issued to refund same, and all such pledges and covenants shall remain in full force and effect in accordance with the terms and provisions thereof.

(b) Where all or any part of the revenue funds of any board have been pledged to the payment of the principal of and interest on any bonds or notes or any other obligation issued or entered into and delivered pursuant to any provision of this title or any other law, the repeal or amendment of any provision of this title shall not affect any such pledge or any covenants with respect to such bonds, notes, or obligations or any bonds or notes issued to refund same, and all such pledges and covenants shall remain in full force and effect in accordance with the terms and provisions thereof.

It is further provided for the benefit of the owners of such bonds and notes and the counterparties to such obligations of the boards that the charges per semester credit hour or for each semester or summer session, as the case may be, for tuition constituting the educational and general funds portion of tuition shall never be less than the amount charged for the 1996-1997 academic year.

Sec. 55.25. APPLICABILITY OF OTHER LAW; CONFLICTS. Chapters 1201, 1202, 1204, and 1371, Government Code, apply to all bonds issued pursuant to this chapter; provided, however, that in the event of any conflict between such laws and this chapter, the provisions of this chapter prevail.

The legislature, giving due consideration to the historical and continuing interest of the people of the State of Texas in encouraging deserving and qualified persons to realize their aspirations for education beyond high school finds and declares that postsecondary education for those who desire such an education and are properly qualified therefor is important to the welfare and security of this state and the nation and, consequently, is an important public purpose. Sec. 56.3021. STUDENTS ENROLLED IN PRIVATE OR INDEPENDENT INSTITUTIONS: LIMITED ELIGIBILITY FOR GRANT. (a) Notwithstanding any other provision of this subchapter, a student who was awarded a TEXAS grant under this subchapter to pay the costs of enrollment in a
private or independent institution of higher education for the 2005 fall semester or an earlier academic period may continue to receive grants under this subchapter while enrolled in a private or independent institution of higher education if the student is otherwise eligible to receive a grant under this subchapter.

(b) For purposes of determining the eligibility of a student to continue to receive a grant under this section, a reference in this subchapter to an eligible institution includes a private or independent institution of higher education.

(c) The amount of a TEXAS grant under this section for a student enrolled full-time at a private or independent institution of higher education is the amount determined by the coordinating board as the average statewide amount of tuition and required fees that a resident student enrolled full-time in a baccalaureate degree program would be charged for that semester or term at general academic teaching institutions.

(d) Notwithstanding Subsection (c) or other law, the total amount of financial aid that a student enrolled in a private or independent institution of higher education is eligible to receive in a state fiscal year from TEXAS grants awarded under this section may not exceed the maximum amount the student may receive in tuition equalization grants in that fiscal year as determined under Subchapter F, Chapter 61.

(e) Notwithstanding Subsection (c) or other law, a student enrolled in a private or independent institution of higher education may not receive a TEXAS grant under this section and a tuition equalization grant under Subchapter F, Chapter 61, for the same semester or other term, regardless of whether the student is otherwise eligible for both grants during that semester or term. A student who but for this subsection would be awarded both a TEXAS grant and a tuition equalization grant for the same semester or other term is entitled to receive only the grant of the greater amount.

(f) This section expires September 1, 2015.

Added by Acts 2005, 79th Leg., Ch. 1181 (S.B. 1227), Sec. 32, eff. September 1, 2005.

Sec. 56.303. ADMINISTRATION OF PROGRAM. (a) The coordinating board shall administer the TEXAS grant program and shall adopt any
rules necessary to implement the TEXAS grant program or this subchapter. The coordinating board shall consult with the student financial aid officers of eligible institutions in developing the rules.

(b) The coordinating board shall adopt rules to provide a TEXAS grant to an eligible student enrolled in an eligible institution in the most efficient manner possible.

(c) The total amount of TEXAS grants awarded may not exceed the amount available for the program from appropriations, gifts, grants, or other funds.

(d) From money appropriated by the legislature for the purposes of this subchapter, the coordinating board annually shall determine the allocation of money available for TEXAS grants among general academic teaching institutions and other eligible institutions and shall distribute the money accordingly.

(d-1) In allocating among eligible institutions money available for initial TEXAS grants for an academic year, the coordinating board shall ensure that each of those institutions' proportional share of the total amount of money for initial grants that is allocated to eligible institutions under this section for that year does not, as a result of the number of students who establish eligibility at the institution for an initial grant under Section 56.3041(2)(A), change from the institution's proportional share of the total amount of money for initial grants that is allocated to those institutions under this section for the preceding academic year.

(e) In determining who should receive a TEXAS grant, the coordinating board and the eligible institutions shall give priority to awarding TEXAS grants to students who demonstrate the greatest financial need and whose expected family contribution, as determined according to the methodology used for federal student financial aid, does not exceed 60 percent of the average statewide amount of tuition and required fees described by Section 56.307(a). In giving priority based on financial need as required by this subsection to students who meet the requirements for the highest priority as provided by Subsection (f), an eligible institution shall determine financial need according to the relative expected family contribution of those students, beginning with students who have the lowest expected family contribution.

(f) Beginning with TEXAS grants awarded for the 2013-2014 academic year, in determining who should receive an initial TEXAS
grant, each eligible institution, in addition to giving priority as provided by Subsection (e), shall give highest priority to students who meet the eligibility criteria described by Section 56.3041(2)(A). If there is money available in excess of the amount required to award an initial TEXAS grant to all students meeting those criteria, an eligible institution shall make awards to other students who meet the eligibility criteria described by Section 56.304(a)(2)(A), provided that the institution continues to give priority to students as provided by Subsection (e).

(i-1) A public institution of higher education may elect to award a TEXAS grant to any student in an amount that is less than the applicable amount established under Subsection (a) or (e).

(j) A public institution of higher education shall use other available sources of financial aid, other than a loan, to cover any difference in the amount of a TEXAS grant awarded to the student and the actual amount of tuition and required fees at the institution if the difference results from:

(1) a reduction in the amount of a TEXAS grant under Subsection (i-1); or

(2) a deficiency in the amount of the grant as established under Subsection (a) or (e), as applicable, to cover the full amount of tuition and required fees charged to the student by the institution.

(k) The legislature in an appropriations act shall account for tuition and required fees received under this section in a way that does not increase the general revenue appropriations to that institution.

(l) The coordinating board shall provide information regarding the Texas B-On-time loan program established under Subchapter Q to each eligible applicant who receives less than the full amount of a TEXAS grant.

Sec. 56.3071. EFFECT OF ELIGIBILITY FOR TUITION EQUALIZATION GRANT. amount not more than three times the amount that may be awarded under Section 56.307 to a student who:

(j) Each licensing agency shall adopt any rules necessary to carry out the licensing agency's duties under this section.

CHAPTER 58. COMPENSATION OF RESIDENT PHYSICIANS

Sec. 58.001. LEGISLATIVE FINDING AND INTENT.

(a) The legislature finds that it will improve the quality of the delivery of medical care to the citizens of this state and, therefore, that it will be in the public interest of this state for the resident physicians being educated, trained, developed, and prepared for a career in medicine by the schools of medicine in The University of Texas System, the Texas Tech University System, the Texas A&M University Medical Program, and the University of North Texas Health Science Center at Fort Worth to be compensated by those schools while the resident physicians are undergoing education, training, development, and preparation. The legislature further finds that the delivery of quality medical care to the citizens of
this state has been and will continue to be enhanced by the expansion of family practice residency programs as provided by Sections 61.501 through 61.505 of this code and intends that nothing in this chapter be interpreted or implemented in a manner that will deter the development or expansion of family practice residency programs or will deter the legislative goal of having at least 25 percent of the first-year residency positions devoted to family medicine.

(b) The validity of an action of the board is not affected by the fact that it is taken when a ground for removal of a board member exists.
(c) If the commissioner of higher education has knowledge that a potential ground for removal exists, the commissioner shall notify the presiding officer of the board of the potential ground. The presiding officer shall then notify the governor and the attorney general that a potential ground for removal exists. appropriate technological solutions to improve the ability of the agency to perform its mission. The technological solutions must include measures to ensure that the public is able to easily find information about the board through the Internet and that persons who have a reason to use the board's services are able to use the Internet to interact with the board and to access any services that can be provided effectively through the Internet. The policy shall also ensure that proposed technological solutions are cost-effective and developed through the board's planning processes.

Added by Acts 2003, 78th Leg., ch. 820, Sec. 11, eff. Sept. 1, 2003.

Sec. 61.035. COMPLIANCE MONITORING. (a) The board, in consultation with affected stakeholders, shall adopt rules to establish an agency-wide, risk-based compliance monitoring function for:

(1) funds allocated by the board to institutions of higher education, private or independent institutions of higher education, and other entities, including student financial assistance funds, academic support grants, and any other grants, to ensure that those funds are distributed in accordance with applicable law and board rule; and

(2) data reported by institutions of higher education to the board and used by the board for funding or policymaking decisions, including data used for formula funding allocations, to ensure the data is reported accurately.

(b) For purposes of this section, student financial assistance includes grants, scholarships, loans, and work-study.

(c) After considering potential risks and the board's resources, the board shall review a reasonable portion of the total funds allocated by the board and of data reported to the board. The board shall use various levels of monitoring, according to risk, ranging from checking reported data for errors and inconsistencies to conducting comprehensive audits, including site visits.

(d) In developing the board's risk-based approach to compliance monitoring under this section, the board shall consider the following factors relating to an institution of higher education or private or independent institution of higher education:

(1) the amount of student financial assistance or grant
funds allocated to the institution by the board;

(2) whether the institution is required to obtain and submit an independent audit;

(3) the institution's internal controls;

(4) the length of time since the institution's last desk review or site visit;

(5) past misuse of funds or misreported data by the institution;

(6) in regard to data verification, whether the data reported to the board by the institution is used for determining funding allocations; and

(7) other factors as considered appropriate by the board.

(e) The board shall train compliance monitoring staff to ensure that the staff has the ability to monitor both funds compliance and data reporting accuracy. Program staff in other board divisions who conduct limited monitoring and contract administration shall coordinate with the compliance monitoring function to identify risks and avoid duplication.

(f) If the board determines through its compliance monitoring function that funds awarded by the board to an institution of higher education or private or independent institution of higher education have been misused or misallocated by the institution, the board shall present its determination to the institution's governing board, or to the institution's chief executive officer if the institution is a private or independent institution of higher education, and provide an opportunity for a response from the institution. Following the opportunity for response, the board shall report its determination and the institution's response, together with any recommendations, to the institution's governing board or chief executive officer, as applicable, the governor, and the Legislative Budget Board.

(g) If the board determines through its compliance monitoring function that an institution of higher education has included errors in the institution's data reported for formula funding, the board:

(1) for a public junior college, may adjust the appropriations made to the college for a fiscal year as necessary to account for the corrected data; and

(2) for a general academic teaching institution, a medical and dental unit, or a public technical institute, shall calculate a revised appropriation amount for the applicable fiscal year based on the corrected data and report that revised amount to the governor and
Legislative Budget Board for consideration as the basis for budget execution or other appropriate action, and to the comptroller.

(h) In conducting the compliance monitoring function under this section, the board may partner with internal audit offices at institutions of higher education and private or independent institutions of higher education, as institutional resources allow, to examine the institutions' use of funds allocated by, and data reported to, the board. To avoid duplication of effort and assist the board in identifying risk, an internal auditor at an institution shall notify the board of any audits conducted by the auditor involving funds administered by the board or data reported to the board. The board by rule may prescribe the timing and format of the notification required by this subsection. The board by rule shall require a private or independent institution of higher education to provide to the board the institution's external audit involving funds administered by the board. The private or independent institution of higher education's external audit must comply with the board's rules for auditing those funds.

(i) The board may seek technical assistance from the state auditor in establishing the compliance monitoring function under this section. The state auditor may periodically audit the board's compliance monitoring function as the state auditor considers appropriate.

(j) In this section:

(1) "Desk review" means an administrative review by the board that is based on information reported by an institution of higher education or private or independent institution of higher education, including supplemental information required by the board for the purposes of compliance monitoring, except that the term does not include information or accompanying notes gathered by the board during a site visit.

(2) "Site visit" means an announced or unannounced in-person visit by a representative of the board to an institution of higher education or private or independent institution of higher education for the purposes of compliance monitoring.

Added by Acts 2013, 83rd Leg., R.S., Ch. 1155 (S.B. 215), Sec. 30, eff. September 1, 2013.
SUBCHAPTER C. POWERS AND DUTIES OF BOARD

Sec. 61.051. COORDINATION OF INSTITUTIONS OF PUBLIC HIGHER EDUCATION. (a) The board represents the highest authority in the state in matters of public higher education and is charged with the duty to take an active part in promoting quality education throughout the state by:

(1) providing a statewide perspective to ensure the efficient and effective use of higher education resources and to eliminate unnecessary duplication;

(2) developing and evaluating progress toward a long-range master plan for higher education and providing analysis and recommendations to link state spending for higher education with the goals of the long-range master plan;

(3) collecting and making accessible data on higher education in the state and aggregating and analyzing that data to support policy recommendations;

(4) making recommendations to improve the efficiency and effectiveness of transitions, including between high school and postsecondary education, between institutions of higher education for transfer purposes, and between postsecondary education and the workforce; and

(5) administering programs and trusteed funds for financial aid and other grants as necessary to achieve the state's long-range goals and as directed by the legislature.

(a-1) The board shall develop a long-range master plan for higher education in this state. The plan shall:

(1) establish long-term, measurable goals and provide strategies for implementing those goals;

(2) assess the higher education needs of each region of the state;

(3) provide for regular evaluation and revision of the plan, as the board considers necessary, to ensure the relevance of goals and strategies; and

(4) take into account the resources of private or independent institutions of higher education.

(a-2) The board shall establish methods for obtaining input from stakeholders and the general public when developing or revising the long-range master plan developed under Subsection (a-1).

(a-3) Not later than December 1 of each even-numbered year, the board shall prepare and deliver a report to the governor, the
lieutenant governor, the speaker of the house of representatives, and the standing committees of the senate and house of representatives with primary jurisdiction over higher education. In the report, the board shall assess the state's progress in meeting the goals established in the long-range master plan developed under Subsection (a-1) and recommend legislative action, including statutory or funding changes, to assist the state in meeting those goals. The report must include updates on implementation strategies provided for in the long-range master plan under Subsection (a-1).

(a-5) In conjunction with development of the long-range master plan under Subsection (a-1), the board shall evaluate the role and mission of each general academic teaching institution, other than a public state college, to ensure that the roles and missions of the institutions collectively contribute to the state's goals identified in the master plan.

(g) Repealed by Acts 2013, 83rd Leg., R.S., Ch. 1155, Sec. 62(8), eff. September 1, 2013.

Without reference to the amendment of this subsection, this subsection was transferred and amended by Acts 2013, 83rd Leg., R.S., Ch. 1155 (S.B. 215), Sec. 43, eff. September 1, 2013.

(h) The board shall make continuing studies of the needs of the state for research and designate the institutions of higher education to perform research as needed. The board shall also maintain an inventory of all institutional and programmatic research activities being conducted by the various institutions, whether state-financed or not. Once a year, on dates prescribed by the board, each institution of higher education shall report to the board all research conducted at that institution during the last preceding year. Each institution's report must include the amounts spent by the institution on human embryonic stem cell research and adult stem
cell research during the year covered by the report and the source of
the funding for that research. All reports required by this
subsection shall be made subject to the limitations imposed by
security regulations governing defense contracts for research. Not
later than January 1 of each year, the board shall submit to the
legislature information regarding human stem cell research obtained
by the board from reports required by this subsection.

Without reference to the amendment of this subsection, this
subsection was repealed by Acts 2013, 83rd Leg., R.S., Ch. 1155 (S.B.

(i) The board shall develop and periodically revise a long-
range statewide plan to provide information and guidance to policy
makers to ensure that institutions of higher education meet the
current and future needs of each region of this state for higher
education services and that adequate higher education services at all
levels are reasonably and equally available to the residents of each
region of this state. The board in developing the plan shall examine
existing undergraduate, graduate, professional, and research programs
provided by institutions of higher education and identify the
geographic areas of this state that, as a result of current
population or projected population growth, distance from other
educational resources, economic trends, or other factors, have or are
reasonably likely to have in the future significantly greater need
for higher education services than the services currently provided in
the area by existing institutions of higher education. The board
shall also consider the higher education services provided by private
and independent institutions of higher education in developing the
plan. The board shall identify as specifically as practicable the
programs or fields of study for which an area has or is projected to
have a significant unmet need for services. In determining the need
for higher education services in an area, the board shall consider
the educational attainment of the current population and the extent
to which residents from the area attend institutions of higher
education outside of the area or do not attend institutions of higher
education. The board shall include in the plan specific
recommendations, including alternative recommendations, for
administrative or legislative action to address an area's unmet need
for higher education services as efficiently as possible. Not later
than November 1 of each even-numbered year, the board shall deliver
to the governor, the lieutenant governor, the speaker of the house of
representatives, and the legislature a report of the current long-
range plan developed under this section.

Sec. 61.0512. BOARD APPROVAL OF ACADEMIC PROGRAMS.  (a) A new degree or certificate program may be added at an institution of higher education only with specific prior approval of the board. A new degree or certificate program is considered approved if the board has not completed a review under this section and acted to approve or disapprove the proposed program before the first anniversary of the date on which an institution of higher education submits a completed application for approval to the board. The board may not summarily disapprove a program without completing the review required by this section. The board shall specify by rule the elements that constitute a completed application and shall make an administrative determination of the completeness of the application not later than the fifth business day after receiving the application. A request for additional information in support of an application that has been determined administratively complete does not toll the period within which the application is considered approved under this section.

(b) At the time an institution of higher education begins preliminary planning for a new degree program, the institution must notify the board before the institution may carry out that planning.

(c) The board shall review each degree or certificate program offered by an institution of higher education at the time the institution requests to implement a new program to ensure that the program:

(1) is needed by the state and the local community and does not unnecessarily duplicate programs offered by other institutions of higher education or private or independent institutions of higher education;

(2) has adequate financing from legislative appropriation, funds allocated by the board, or funds from other sources;

(3) has necessary faculty and other resources to ensure student success; and

(4) meets academic standards specified by law or prescribed by board rule, including rules adopted by the board for purposes of this section, or workforce standards established by the Texas Workforce Investment Council.

(d) The board may review the number of degrees or certificates
awarded through a degree or certificate program every four years or more frequently, at the board's discretion.

(e) The board shall review each degree or certificate program offered by an institution of higher education at least every 10 years after a new program is established using the criteria prescribed by Subsection (c).

(f) The board may not order the consolidation or elimination of any degree or certificate program offered by an institution of higher education but may, based on the board's review under Subsections (d) and (e), recommend such action to an institution's governing board. If an institution's governing board does not accept recommendations to consolidate or eliminate a degree or certificate program, the university system or, where a system does not exist, the institution, must identify the programs recommended for consolidation or elimination on the next legislative appropriations request submitted by the system or institution.

(g) An institution of higher education may offer off-campus courses for credit within the state or distance learning courses only with specific prior approval of the board. An institution must certify to the board that a course offered for credit outside the state meets the board's academic criteria. An institution shall include the certification in submitting any other reports required by the board.

(h) In approving a degree or certificate program under this section, the board:

(1) for a doctoral program, may not consider undergraduate graduation or persistence rates; and

(2) for a baccalaureate degree program proposed to be offered by a public junior college previously authorized by the board to offer baccalaureate degree programs under Section 130.0012:

(A) shall approve the degree program within 60 days after the date the board receives notice of the degree program if the degree program:

(i) is approved by the governing board of the junior college district; and

(ii) is not an engineering program; and

(B) is considered to have approved the degree program after the date described by Paragraph (A) if the conditions of that paragraph are satisfied.
Sec. 61.0513. COURT REPORTER PROGRAMS. The board may not certify a court reporter program under Section 61.051(f) unless the program has received approval from the Judicial Branch Certification Commission.

Sec. 61.0514. INTEGRATED COURSEWORK. The board, with the cooperation and advice of the State Board for Educator Certification, shall adopt educator preparation coursework guidelines that promote, to the greatest extent practicable, the integration of subject matter knowledge with classroom teaching strategies and techniques in order to maximize the effectiveness and efficiency of coursework required for certification under Subchapter B, Chapter 21.

Sec. 61.0515. SEMESTER CREDIT HOURS REQUIRED FOR BACCALAUREATE DEGREE. (a) To earn a baccalaureate degree, a student may not be required by a general academic teaching institution to complete more than the minimum number of semester credit hours required for the degree by the Southern Association of Colleges and Schools or its successor unless the institution determines that there is a compelling academic reason for requiring completion of additional semester credit hours for the degree.

(b) The board may review one or more of an institution's baccalaureate degree programs to ensure compliance with this section.

(c) Subsection (a) does not apply to a baccalaureate degree awarded by an institution to a student enrolled in the institution.
before the 2008 fall semester. This subsection does not prohibit the institution from reducing the number of semester credit hours the student must complete to receive the degree.

Sec. 61.05151. SEMESTER CREDIT HOURS REQUIRED FOR ASSOCIATE DEGREE. (a) To earn an associate degree, a student may not be required by an institution of higher education to complete more than the minimum number of semester credit hours required for the degree by the Southern Association of Colleges and Schools or its successor unless the institution determines that there is a compelling academic reason for requiring completion of additional semester credit hours for the degree.

(b) The board may review one or more of an institution's associate degree programs to ensure compliance with this section.

(c) Subsection (a) does not apply to an associate degree awarded by an institution to a student enrolled in the institution before the 2015 fall semester. This subsection does not prohibit the institution from reducing the number of semester credit hours the student must complete to receive the degree.

(a) In this section, "applied STEM course" means an applied science, technology, engineering, or mathematics course offered as part of a school district's career and technology education or technology applications curriculum and approved, as provided by Section 28.027, by the State Board of Education for purposes of satisfying the mathematics and science curriculum requirements for the foundation high school program under Section 28.025.

(b) The board shall work with institutions of higher education to ensure that credit for an applied STEM course may be applied to relevant degree programs offered by institutions of higher education.

Sec. 61.052. LIST OF COURSES; ANNUAL SUBMISSION TO BOARD. (a) Each governing board shall submit to the board once each year on dates designated by the board a comprehensive list by department, division, and school of all courses, together with a description of content, scope, and prerequisites of all these courses, that will be offered by each institution under the supervision of that governing board during the following academic year. The list for each institution must also specifically identify any course included in the common course numbering system under Section 61.832 that has been added to or removed from the institution's list for the current academic year, and the board shall distribute that information as necessary to accomplish the purposes of Section 61.832.

(b) After the comprehensive list of courses is submitted by a governing board under Subsection (a), the governing board shall submit on dates designated by the board any changes in the comprehensive list of courses to be offered, including any changes relating to offering a course included in the common course numbering system.

(b-1) Each governing board must certify at the time of submission under Subsection (a) that the institution does not:
(1) prohibit the acceptance of transfer credit based solely on the accreditation of the sending institution; or
(2) include language in any materials published by the institution, whether in printed or electronic form, suggesting that such a prohibition exists.

(c) The board may order the deletion or consolidation of any courses so submitted after giving due notice with reasons for that action and after providing a hearing if one is requested by the...

institutions of higher education, including programs and agreements relating to degree offerings, research activities, and library and computer sharing.

(b) A general academic teaching institution or medical and dental unit may establish a partnership or affiliation with another entity to offer or conduct courses for academic credit or to offer or operate a degree program if:

(1) the governing board or other appropriate official of the institution or unit determines that the partnership or affiliation is:

(A) consistent with the role and mission established for the institution or unit;

(B) in accordance with the degree and certificate programs authorized to be offered by the institution or unit; and

(C) consistent with the role and mission of the university system, if any, to which the institution or unit belongs;

Sec. 61.056. REVIEW OF LEGISLATION ESTABLISHING ADDITIONAL INSTITUTIONS. Any proposed statute which would establish an additional institution of higher education, except a public junior college, shall be submitted, either prior to introduction or by the standing committee considering the proposed statute, to the board for its opinion as to the state's need for the institution. The board
shall report its findings to the governor and the legislature. A recommendation that an additional institution is needed shall require the favorable vote of at least two-thirds of the members of the board. A recommendation of the board shall not be considered a condition precedent to the introduction or passage of any proposed statute.

Sec. 61.057. PROMOTION OF TEACHING EXCELLENCE. To achieve excellence in the teaching of students at institutions and agencies of higher education, the board shall:

(1) develop and recommend:
   (A) minimum faculty compensation plans, basic increment programs, and incentive salary increases;
   (B) minimum standards for faculty appointment, advancement, promotion, and retirement;
   (C) general policies for faculty teaching loads, and division of faculty time between teaching, research, administrative duties, and special assignments;
   (D) faculty improvement programs, including a plan for sabbatical leaves, appropriate for the junior and senior colleges and universities, respectively; and
   (E) minimum standards for academic freedom, academic responsibility, and tenure;

(b) The board shall:

(1) determine formulas for space utilization in all educational and general buildings and facilities at institutions of higher education;

(6) ascertain that the board's standards and specifications for new construction, repair, and rehabilitation of all buildings and facilities are in accordance with Chapter 469, Government Code.
(c) The board in consultation with institutions of higher education shall develop space standards for new construction or other capital improvement projects at public senior colleges and universities and medical and dental units that address the differences in space requirements in teaching, research, and public service activities for those institutions. The standards developed under this subsection shall not be used to determine space needs for those projects related to clinical care facilities.
(d) The board may review purchases of improved real property added to an institution's educational and general buildings and facilities inventory to determine whether the property meets the standards adopted by the board for cost, efficiency, space need, and space use, but the purchase of the improved real property is not contingent on board review. Standards must be adopted by the board using the negotiated rulemaking procedures under Chapter 2008, Government Code. If the property does not meet those standards, the board shall notify the governor, the lieutenant governor, the speaker of the house of representatives, the governing board of the applicable institution, and the Legislative Budget Board. Standards must be adopted by the board using the negotiated rulemaking procedures under Chapter 2008, Government Code. Sec. 61.05821. CONDITION OF BUILDINGS AND FACILITIES; ANNUAL REPORT REQUIRED. Each institution of higher education, excluding each public junior college and excluding other agencies of higher education, annually shall report to the governing board of the institution information regarding the condition of the buildings and facilities of the institution, including information concerning deferred maintenance with respect to those buildings and facilities as defined by the board.

Sec. 61.0583. AUDIT OF FACILITIES. (a) The board periodically shall conduct a comprehensive audit of all educational and general facilities on the campuses of public senior colleges and universities and the Texas State Technical College System to verify the accuracy of the facilities inventory for each of those institutions.

(b) The board shall verify the accuracy of the square footage reported in each institution's budget request in relation to the facilities inventory.

(c) The audit must include a periodic review of construction projects to confirm that:

(1) a project has received prior approval by the board if required by Section 61.058 of this code; and

(2) an approved project is completed as specified in the request to the board for approval of the project.

(d) The board shall report its findings concerning the audits conducted under this section to the Legislative Budget Board and the audited institutions.

Sec. 61.059. APPROPRIATIONS. (a) To finance a system of higher education and to secure an equitable distribution of state funds deemed to be available for higher education, the board shall perform the functions described in this section. Funding policies shall:

(1) allocate resources efficiently and provide incentives for programs of superior quality and for institutional diversity;
(2) provide incentives for supporting the five-year master plan developed and revised under Section 61.051;
(3) discourage unnecessary duplication of course offerings between institutions and unnecessary construction on any campus; and
(4) emphasize an alignment with education goals established by the board.

(b) The board shall devise, establish, and periodically review and revise formulas for the use of the governor and the Legislative Budget Board in making appropriations recommendations to the legislature for all institutions of higher education, including the funding of postsecondary vocational-technical programs. As a specific element of the periodic review, the board shall study and recommend changes in the funding formulas based on the role and mission statements of institutions of higher education. In carrying out its duties under this section, the board shall employ an ongoing process of committee review and expert testimony and analysis.

(b-1) A committee under Subsection (b) must be composed of representatives of a cross-section of institutions representing each of the institutional groupings under the board's accountability system. The commissioner of higher education shall solicit recommendations for the committee's membership from the chancellor of each university system and from the president of each institution of higher education that is not a component of a university system. The chancellor of a university system shall recommend to the commissioner at least one institutional representative for each institutional grouping to which a component of the university system is assigned. The president of an institution of higher education that is not a component of a university system shall recommend to the commissioner at least one institutional representative for the institutional grouping to which the institution is assigned.

(b-2) The board shall include in its periodic review of
formulas under Subsection (b) recommendations for changes in funding formulas for developmental education programs based on the results of the study conducted under Section 51.3062(u) and the report submitted under Section 51.3062(v). This subsection expires January 1, 2015.

(c) Formulas for basic funding shall:

(1) reflect the role and mission of each institution;

(2) emphasize funding elements that directly support faculty;

(3) reflect both fixed and variable elements of cost; and

(4) incorporate, as the board considers appropriate, goals identified in the board's long-range statewide plan developed under Section 61.051.

(d) Not later than June 1 of every even-numbered calendar year, the board shall notify the governing boards and the chief administrative officers of the respective institutions of higher education and university systems, the governor, and the Legislative Budget Board of the formulas designated by the board to be used by the institutions in making appropriation requests for the next succeeding biennium and shall certify to the governor and the Legislative Budget Board that each institution has prepared its appropriation request in accordance with the designated formulas and in accordance with the uniform system of reporting provided in this chapter. The board shall furnish any other assistance to the governor and the Legislative Budget Board in the development of appropriations recommendations as either or both of them may request. However, nothing in this chapter shall prevent or prohibit the governor, the Legislative Budget Board, the board, or the governing board of any institution of higher education from requesting or recommending deviations from any applicable formula or formulas prescribed by the board and advancing reasons and arguments in support of them.

(e) The board shall present to the governor and to each legislature a comprehensive summary and analysis of institutional appropriation requests, and for that purpose each institution's request must be submitted to the board at the same time at which the request is submitted to the Legislative Budget Board. Nothing in this subsection shall be construed as supplanting the duty, responsibility, and authority of an institution of higher education or the governing board thereof to express its appropriations needs directly to the legislature or any committee thereof.
(f) The board shall recommend to the governor and the Legislative Budget Board supplemental contingent appropriations to provide for increases in enrollment at the institutions of higher education. Contingent appropriations may be made directly to the institutions or to the board, as the legislature may direct in each biennial appropriations act. In the event the contingent appropriation is made to the board, the funds shall be allocated and distributed by the board to the institutions as it may determine, subject only to such limitations or conditions as the legislature may prescribe.

(g) The board shall recommend to the institutions, the governor, and the Legislative Budget Board tuition policies for public technical institutes, public junior colleges, public senior colleges and universities, medical and dental units, and other agencies of higher education and vocational and technical programs receiving support from state funds.

(h) The board shall distribute funds appropriated to the board for allocation for specified purposes under limitations prescribed by law and the rules and regulations of the board in conformity therewith, provided that no distribution or allocation may be made to any institution of higher education which has failed or refused to comply with any order of the board as long as that failure or refusal continues.

(i-1) Repealed by Acts 2013, 83rd Leg., R.S., Ch. 1155, Sec. 62(9), eff. September 1, 2013.

(j) Funds appropriated to the coordinating board for vocational-technical education may be transferred by interagency contract between the two boards as required to carry out an effective and efficient transition of the administration of postsecondary vocational-technical education.

(k) The legislature shall promote flexibility in the use of funds appropriated to institutions of higher education by:

1. Appropriating base funding as a single amount that is unrestricted to use among the various funding elements of the formula used to determine base funding; and

2. Appropriating to institutions the unexpended balance of appropriations made for the preceding fiscal year.

(l)(1) Except as provided by Subdivision (2), the board may not
include in any formula under this section funding based on the number of doctoral students who have a total of 100 or more semester credit hours of doctoral work at an institution of higher education.

(2) Notwithstanding Subdivision (1), the board may approve formula funding for semester credit hours in excess of 100, not to exceed 130 total semester credit hours, for a doctoral student if the institution:

(A) provides the board with substantial evidence that the particular field of study in which the student is enrolled requires a higher number of semester credit hours to maintain nationally competitive standards;

(B) provides the board with evidence that the student's program or research is likely to provide substantial benefit to medical or scientific advancement and that the program or research requires the additional semester credit hours; or

(C) provides the board with other compelling academic reasons that support the finding of an exception.

(3) The board shall report to the Legislative Budget Board, as part of its report on formula funding recommendations, a listing of the exceptions approved under Subdivision (2) and the associated costs in formula-based funding.

(m) For an institution that charges a reduced nonresident tuition rate under Section 54.0601, the board may not include in a formula under this section funding based on the number of nonresident students enrolled at the institution in excess of 10 percent of the total number of students enrolled at the institution.

(n) In the formula applicable to Texas A&M University--Texarkana for funding instruction and operations, the board shall include any semester credit hours taught through distance education to students enrolled at that university who reside in another state and:

(1) as permitted by Section 54.060(a), pay tuition at the rate charged to residents of this state; and

(2) reside in a county in the other state that is contiguous to the county in which the university is located.

(o) In addition to the other funding recommendations required by this section, biennially the board shall determine the amount that the board considers appropriate for purposes of providing funding under Section 61.0596 in the following state fiscal biennium to carry out the purposes of that section and shall make recommendations to
the governor and the Legislative Budget Board for funding those programs in that biennium. To the extent the board considers appropriate, the board may include in the formulas established under this section the funding to be provided under Section 61.0596.

(p) In its instruction and operations formula applicable to an institution of higher education, the board may not include any semester credit hours earned for dual course credit by a high school student for high school and college credit at the institution unless those credit hours are earned through any of the following:

(1) a course in the core curriculum of the institution providing course credit;
(2) a career and technical education course that applies to any certificate or associate's degree offered by the institution providing course credit; or
(3) a foreign language course.

(q) Subsection (p) does not apply to a course completed by a student as part of the early college education program established under Section 29.908.

Sec. 61.0592. FUNDING FOR COURSES PROVIDED DURING OFF-PEAK HOURS AT CERTAIN INSTITUTIONS. (a) The purposes of this section are:

(1) to ensure that student demand for courses is met; and
(2) to encourage the efficient use of existing instructional facilities while reducing the need for new instructional facilities.

(b) This section applies only to funding for a course provided by:

(1) The University of Texas at Austin;
(2) Texas A&M University; or
(3) Texas Tech University.

(c) To carry out the purposes of this section, for each institution of higher education listed under Subsection (b), the board shall include in the formulas established under Section 61.059 funding in amounts sufficient to cover the institution's revenue loss resulting from any reduction in tuition rates under Section 54.061.

(d) In addition to the funding included under Subsection (c), in the formulas established under Section 61.059, as an incentive for the institutions to reduce tuition rates under Section 54.061, the board may include additional funding that represents a portion of the savings to the state resulting from the institution's efficient use of resources.

Sec. 61.0593. STUDENT SUCCESS-BASED FUNDING RECOMMENDATIONS. (a) The legislature finds that it is in the state's highest public interest to evaluate student achievement at institutions of higher education and to develop higher education funding policy based on that evaluation. Funding policies that promote postsecondary educational success based on objective indicators of relative performance, such as degree completion rates, are critical to
maintaining the state's competitiveness in the national and global economy and supporting the general welfare of this state. Therefore, the purpose of this section is to ensure that institutions of higher education produce student outcomes that are directly aligned with the state's education goals and economic development needs.

(b) In this section:

(1) "At-risk student" means an undergraduate student of an institution of higher education:
   (A) who has been awarded a grant under the federal Pell Grant program; or
   (B) who, on the date the student initially enrolled in the institution:
       (i) was 20 years of age or older;
       (ii) had a score on the Scholastic Assessment Test (SAT) or the American College Test (ACT) that was less than the national mean score for students taking that test;
       (iii) was enrolled as a part-time student; or
       (iv) had not received a high school diploma but had received a high school equivalency certificate within the last six years.

(2) "Critical field" means a field of study designated as a critical field under Subsection (c).

(c) Except as otherwise provided under Subdivision (2), the fields of engineering, computer science, mathematics, physical science, allied health, nursing, and teaching certification in the field of science or mathematics are critical fields. Beginning September 1, 2012, the board, based on the board's determination of those fields of study in which the support and development of postsecondary education programs at the bachelor's degree level are most critically necessary for serving the needs of this state, by rule may:

(1) designate as a critical field a field of study that is not currently designated by this subsection or by the board as a critical field; or

(2) remove a field of study from the list of fields currently designated by this subsection or by the board as critical fields.

(d) This subsection applies only to a general academic teaching institution other than a public state college. In devising its funding formulas and making its recommendations to the legislature
relating to institutional appropriations of funds under Section 61.059 for institutions to which this subsection applies, the board, in the manner and to the extent the board considers appropriate and in consultation with those institutions, shall incorporate the consideration of undergraduate student success measures achieved during the preceding state fiscal biennium by each of the institutions. At the time the board makes those recommendations, the board shall also make recommendations for incorporating the success measures, to the extent the board considers appropriate in consultation with those institutions, into the distribution of any incentive funds available for those institutions, including performance incentive funds under Subchapter D, Chapter 62. The board's recommendations must provide alternative approaches for applying the success measures and must compare the effects on funding of applying the success measures within the formula for base funding to applying the success measures as a separate formula. The success measures considered by the board under this subsection may include:

(1) the total number of bachelor's degrees awarded by the institution;

(2) the total number of bachelor's degrees in critical fields awarded by the institution;

(3) the total number of bachelor's degrees awarded by the institution to at-risk students; and

(4) as determined by the board, the six-year graduation rate of undergraduate students of the institution who initially enrolled in the institution in the fall semester immediately following their graduation from a public high school in this state as compared to the six-year graduation rate predicted for those students based on the composition of the institution's student body.

(e) Notwithstanding Subsection (d):

(1) not more than 10 percent of the total amount of general revenue appropriations of base funds for undergraduate education recommended by the board for all institutions to which Subsection (d) applies for a state fiscal biennium may be based on student success measures; and

(2) the board's recommendation for base funding for undergraduate education based on student success measures does not reduce or otherwise affect funding recommendations for graduate education.

(f) This subsection applies only to public junior colleges,
public state colleges, and public technical institutes. In devising its funding formulas and making its recommendations to the legislature relating to institutional appropriations of incentive funds for institutions to which this subsection applies, the board, in the manner and to the extent the board considers appropriate and in consultation with those institutions, shall incorporate the consideration of the undergraduate student success measures achieved during the preceding state fiscal biennium by each of the institutions. The success measures considered by the board under this subsection may include:

(1) the following academic progress measures achieved by students at the institution:

(A) successful completion of:
   (i) developmental education in mathematics;
   (ii) developmental education in English;
   (iii) the first college-level mathematics course with a grade of "C" or higher;
   (iv) the first college-level English course with a grade of "C" or higher; and
   (v) the first 30 semester credit hours at the institution; and
(B) transfer to a four-year college or university after successful completion of at least 15 semester credit hours at the institution; and

(2) the total number of the following awarded by the institution:

(A) associate's degrees;
(B) bachelor's degrees under Section 130.0012; and
(C) certificates identified by the board for purposes of this section as effective measures of student success.

(g) Biennially, the board, in consultation with institutions to which Subsections (d) and (f) apply, shall review the student success measures considered by the board under those subsections.

(h) The board shall include in its findings and recommendations to the legislature under Section 61.059:

(1) an evaluation of the effectiveness of the student success measures described by this section in achieving the purpose of this section during the preceding state fiscal biennium; and

(2) any related recommendations the board considers appropriate.
(i) The board shall adopt rules for the administration of this section, including rules requiring each institution of higher education to submit to the board any student data or other information the board considers necessary for the board to carry out its duties under this section.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1120 (H.B. 9), Sec. 3, eff. June 17, 2011.

Sec. 61.0594. COORDINATED FUNDING OF GRADUATE MEDICAL EDUCATION. (a) The board shall administer a program to support graduate medical education programs in this state consistent with the needs of this state for graduate medical education and the training of resident physicians in accredited residency programs in appropriate fields and specialties, including primary care specialties described by Section 58.008(a).

(b) From money available to the program, the board may make grants or formula distributions to:

(1) support appropriate graduate medical education programs and activities for which adequate funds are not otherwise available; or

(2) foster new or expanded graduate medical education programs or activities that the board determines will address the state's needs for graduate medical education.

(c) To be eligible to receive a grant or distribution under this section, an institution or other entity must incur the costs of faculty supervision and education or the stipend costs of resident physicians in accredited clinical residency programs in this state. In making grants and distributions under this section, the board shall give consideration to the costs incurred by medical schools or other entities to support faculty responsible for the education or supervision of resident physicians in accredited graduate medical education programs, including programs in osteopathic medical education.

(d) The program is funded by appropriations, by gifts, grants, and donations made to support the program, and by any other funds the board obtains, including federal funds, for the program. From program funds, the comptroller of public accounts shall issue warrants to each institution or other entity determined by the board.
as eligible to receive a grant or distribution from the program in the amount certified by the board. An amount granted to an institution or other entity under the program may be used only to cover expenses of training residents of the particular program or activity for which the award is made in accordance with any conditions imposed by the board and may not otherwise be expended for the general support of the institution or entity.

(e) The board shall appoint an advisory committee to advise the board regarding the development and administration of the program, including considering requests for program grants and establishing formulas for distribution of money under the program. The advisory committee shall consist of:

(1) the executive director of the Texas State Board of Medical Examiners or the executive director's designee;
(2) the chair of the Family Practice Residency Advisory Committee or the chair's designee;
(3) the chair of the Primary Care Residency Advisory Committee or the chair's designee;
(4) the commissioner of the Health and Human Services Commission or the commissioner's designee; and
(5) the following members appointed by the board:
   (A) one representative of a teaching hospital affiliated with a Texas medical school;
   (B) one representative of a teaching hospital not affiliated with a Texas medical school;
   (C) three representatives of medical schools, at least one representing a medical school in The University of Texas System, and at least one representing a medical school not in The University of Texas System;
   (D) two physicians active in private practice, one of whom must be a generalist;
   (E) one doctor of osteopathic medicine active in private practice;
   (F) one representative of an entity providing managed health care;
   (G) three clinical faculty members, at least one of whom must be a generalist;
   (H) one resident physician, who is a nonvoting member; and
   (I) one medical student, who is a nonvoting member.
(f) The appointed advisory committee members serve staggered three-year terms. The board shall make the initial committee appointments to terms of one, two, and three years as necessary so that one-third of the appointed members' terms expire each year, as nearly as practicable. The committee shall elect one of its members as presiding officer for a term of one year. The committee shall meet at least once each year at the times requested by the board or set by the presiding officer of the committee. A member of the advisory committee may not be compensated for service on the committee but is entitled to be reimbursed by the board for actual expenses incurred in the performance of the member's duties as a committee member.

(g) The advisory committee shall:

(1) review applications for funding of graduate medical education programs under this section and make recommendations for approval or disapproval of those applications;

(2) make recommendations relating to the standards and criteria used for consideration and approval of grants or for the development of formulas for distribution of funding under this section;

(3) recommend to the board an allocation of funds among medical schools, teaching hospitals, and other entities that may receive funds under this section; and

(4) perform other duties assigned by the board.

Sec. 61.0595. FUNDING FOR CERTAIN EXCESS UNDERGRADUATE CREDIT HOURS. (a) In the formulas established under Section 61.059, the board may not include funding for semester credit hours earned by a resident undergraduate student who before the semester or other academic session begins has previously attempted a number of semester credit hours for courses taken at any institution of higher education while classified as a resident student for tuition purposes that exceeds by at least 30 hours the number of semester credit hours required for completion of the degree program or programs in which the student is enrolled, including minors and double majors, and for completion of any certificate or other special program in which the student is also enrolled, including a program with a study-abroad
component.

(b) For purposes of Subsection (a), an undergraduate student who is not enrolled in a degree program is considered to be enrolled in a degree program requiring a minimum of 120 semester credit hours.

(c) For a student enrolled in a baccalaureate program under Section 51.931, semester credit hours earned by the student 10 or more years before the date the student begins the new degree program under Section 51.931 are not counted for purposes of determining whether the student has previously earned the number of semester credit hours specified by Subsection (a).

(d) The following are not counted for purposes of determining whether the student has previously earned the number of semester credit hours specified by Subsection (a):

(1) semester credit hours earned by the student before receiving a baccalaureate degree that has previously been awarded to the student;

(2) semester credit hours earned by the student by examination or under any other procedure by which credit is earned without registering for a course for which tuition is charged;

(3) credit for a remedial education course, a technical course, a workforce education course funded according to contact hours, or another course that does not count toward a degree program at the institution;

(4) semester credit hours earned by the student at a private institution or an out-of-state institution; and

(5) semester credit hours earned by the student before graduating from high school and used to satisfy high school graduation requirements.

(e) Subsection (a) applies only to funding for semester credit hours earned by a student who initially enrolled as an undergraduate student in any institution of higher education during or after the 1999 fall semester, except that with respect to semester credit hours earned by a student who initially enrolls as an undergraduate student in any institution of higher education before the 2006 fall semester, the board may not reduce funding under this section until the number of semester credit hours previously attempted by the student as described by this section exceeds the number of semester credit hours required for the student's degree program by at least 45 hours.

(f) In the formulas established under Section 61.059, the board shall include without consideration of Subsection (a) funding for
semester credit hours earned by a student who initially enrolled as an undergraduate student in any institution of higher education before the 1999 fall semester.

(g) To the extent practicable, the savings to the state resulting from the exclusion of funding for excess undergraduate semester credit hours from the funding formulas of the board as required by this section shall be used to finance the Toward EXcellence, Access, & Success (TEXAS) grant program under Subchapter M, Chapter 56.

Sec. 61.0596. UNIVERSITY FUNDING FOR EXCELLENCE IN SPECIFIC PROGRAMS AND FIELDS; INCENTIVE GRANTS. (a) The board shall administer this section to encourage and assist general academic teaching institutions, other than public state colleges, that are not research universities or emerging research universities according to the institutional groupings under the board's higher education accountability system to develop and maintain specific programs or fields of study of the highest national rank or recognition for that type of program or field.

(b) To assist the institution in achieving the highest national rank or recognition for the applicable degree program and from money available for the purpose, the board shall award incentive grants to general academic teaching institutions described by Subsection (a) that the board considers to have demonstrated the greatest commitment to success in developing or improving, consistent with the mission of the institution, the quality of an existing degree program designated by the institution. An institution must use a grant under this subsection for faculty recruitment or other faculty support with respect to the designated degree program for which the grant is awarded, including establishment of endowed faculty positions or
enhancement of faculty compensation as considered appropriate by the institution.

(c) An institution may designate only one degree program at a time for consideration for new funding under Subsection (b). The institution may change its designation with the consent of the board. If the board determines that an institution has met all the applicable benchmarks for the institution's designated program, the institution may designate another degree program for consideration for new funding under Subsection (b).

(d) The board shall establish a series of benchmarks applicable to each degree program designated by an institution under this section. The institution becomes eligible for funding under Subsection (b) for each benchmark the board determines that the institution has met. The board shall establish the amount of funding for each benchmark met in a manner that provides an effective incentive to assist the institution to continue its efforts to meet the remaining benchmarks for its designated program.

(e) Unless the board determines that a different number of benchmarks is appropriate, the board shall establish three benchmarks for each designated degree program. The board shall identify one or more persons who have relevant expertise and do not reside in this state to assist the board in establishing the benchmarks and associated funding levels for each type of degree program designated by an institution under this section.

(f) An institution that designates a degree program to receive funding under Subsection (b) shall reimburse the board for the costs incurred by the board in administering this section with respect to the institution's designated program.

(g) In addition to supporting the programs designated by institutions for consideration to receive incentive grants under Subsection (b), from money available for the purpose, the board shall provide additional money as the board determines appropriate to assist the institutions described by Subsection (a) in maintaining the excellence of programs or fields of study that have achieved the highest national ranking or recognition for that type of program or field.

(h) The legislature may not appropriate money for grants or other financial assistance to general academic teaching institutions under this section before the board certifies that one or more institutions have met at least one of the benchmarks established by
the board for the institutions' designated degree programs under Subsection (d).

Sec. 61.062. POWERS RESPECTING JUNIOR COLLEGES. (a) The board may authorize the creation of public junior college districts as provided in the applicable laws. In the exercise of this authority the board shall give particular attention to the need for a public junior college in the proposed district, and the ability of the district to provide adequate local financial support.

(b) The board may dissolve any public junior college district which has failed to establish and maintain a junior college in the district within three years from the date of its authorization.

(c) The board may adopt standards for the operation of public
junior colleges and prescribe rules and regulations for them.

(d) The board may require of each public junior college whatever reports it deems necessary in accordance with its rules and regulations.

(e) The board may establish advisory commissions composed of representatives of public junior colleges and other citizens of the state to provide advice and counsel to the board with respect to public junior colleges.

Sec. 61.063. LISTING AND CERTIFICATION OF JUNIOR COLLEGES. The commissioner of higher education shall file with the state comptroller on or before October 1 of each year a list of the public junior colleges in this state. The commissioner shall certify the names of those colleges that have complied with the standards, rules, and regulations prescribed by the board. Only those colleges which are so certified shall be eligible for and may receive any appropriation made by the legislature to public junior colleges.

Sec. 61.065. REPORTING; ACCOUNTING. (a) The comptroller of public accounts and the board jointly shall prescribe and periodically update a uniform system of financial accounting and reporting for institutions of higher education, including definitions of the elements of cost on the basis of which appropriations shall be made and financial records shall be maintained. The board may require institutions to report additional financial information as the board considers necessary. In order that the uniform system of financial accounting and reporting shall provide for maximum consistency with the national reporting system for higher education, the uniform system shall incorporate insofar as possible the provisions of the financial accounting and reporting manual published by the National Association of College and University Business Officers. The accounts of the institutions shall be maintained and audited in accordance with the approved reporting system.

(b) The coordinating board shall annually evaluate the informational requirements of the state for purposes of simplifying institutional reports of every kind and shall consult with the comptroller of public accounts in relation to appropriate changes in the uniform system of financial accounting and reporting.

Sec. 61.0651. MANAGEMENT POLICIES. (a) The coordinating board shall adopt and recommend management policies applicable to institutions of higher education in relation to management of human resources and physical plants. The policies shall be designed to streamline operations and improve accountability.

(b) The human resources management policies shall be designed
to increase productivity. The policies may relate to any human resources management issue, including:

(1) the improvement of health benefits for institutional employees through statewide group health benefit programs;

(2) the creation of a management training system to assist institutions in developing personnel management systems, in complying with equal employment opportunity and affirmative action requirements, and in maintaining personnel records;

(3) the requirement of five-year plans to manage personnel overhead, to establish position control systems for administrative personnel, and to implement productivity improvement programs; and

(4) the development of institutional plans to identify, recruit, and develop outstanding administrators of institutions of higher education.

(c) The physical plant management policies shall be designed to maintain the state's investment in land and facilities. The policies may require institutions to:

(1) include estimated maintenance costs for the life of the building in any request for approval of new construction;

(2) end the practice of deferring building maintenance;

(3) achieve maximum utilization of classroom and laboratory facilities;

(4) prepare annual five-year plans for major repair and rehabilitation projects and for new construction, regardless of funding source; and

(1) compare the number of first-year graduate medical education positions available annually with the number of medical school graduates;

(2) include a statistical analysis of recent trends in and
projections of the number of medical school graduates and first-year
graduate medical education positions in this state;

(3) develop methods and strategies for achieving a ratio
for the number of first-year graduate medical education positions to
the number of medical school graduates in this state of at least 1.1
to 1;

(4) evaluate current and projected physician workforce
needs of this state, by total number and by specialty, in the
development of additional first-year graduate medical education
positions; and

(5) examine whether this state should ensure that a first-
year graduate medical education position is created in this state for
each new medical student position established by a medical and dental
unit.

(b) Not later than December 1 of each even-numbered year, the
board shall report the results of the assessment to the governor, the
lieutenant governor, the speaker of the house of representatives, and
the standing committees of the senate and house of representatives
with primary jurisdiction over higher education.

(b) The board may initiate a new pilot project only if other entities, including nonprofit organizations and institutions of higher education, are not engaging in similar projects or if the initiative cannot be performed by another entity.

(c) The board may use its position as a statewide coordinator to assist with matching nonprofit organizations or grant-funding entities with institutions of higher education and private or independent institutions of higher education to implement proven programs and best practices.

Sec. 61.070. PILOT PROJECT TO AWARD INCENTIVES TO STUDENTS CONTRACTING TO GRADUATE IN A TIMELY MANNER. (a) The board shall establish a pilot project under which each institution of higher education participating in the project awards incentives to students who contract to graduate from the institution in a timely manner and fulfill all other terms of the contract. The board shall select institutions of higher education to participate in the pilot project from among institutions that apply to participate in the manner prescribed by board rule. An institution of higher education may
apply to participate on behalf of a specific degree program, department, college, or school of the institution.

(b) On written request of an undergraduate student, the governing board of an institution of higher education participating in the pilot project shall enter into a contract with the student to award the student an incentive authorized under board rule if the student satisfies the requirement of timely graduation and other requirements established by the institution under the contract. A student is not required to enter into a contract under this section.

(c) A student may not request an institution of higher education to enter into a contract under this section after the end of the student's first academic year at the institution. Each institution participating in the pilot project that offers an undergraduate degree program shall notify each entering undergraduate student of the provisions of this section not later than the sixth week of the student's first semester or term.

(d) Each contract under this section:

1. must require a student entering into the contract to:
   (A) earn at least 30 required or elective credit hours each academic year;
   (B) maintain good academic standing as prescribed in the contract;
   (C) in consultation with the student's academic advisor, select a degree program not later than the end of the student's first academic year at the institution, in the case of a student enrolled in a general academic teaching institution; and
   (D) earn, as prescribed by the institution in the contract, additional credit hours during one or more regular semesters or summer sessions if the student's degree program requires more than 120 credit hours for a bachelor's degree or more than 60 credit hours for an associate degree; and

2. may require a student entering into the contract to enroll in any specified courses or types of courses prescribed by the degree program selected as specified in Subdivision (1)(C).

(e) In addition to the provisions required or authorized under Subsection (d), the institution of higher education offering a contract under this section or the board may provide for any other reasonable provision to be included in a contract under this section.

(f) A student who has entered into and satisfies the requirements of a contract under this section and who submits an
application that is approved as described by Subsection (i) is entitled to an incentive under this section.

(g) If a contract under this section includes the provision described by Subsection (d)(2), the contract must require the institution of higher education to select one of the following actions to take if a course required for the student's degree program is unavailable to the student in the sequence required by the degree program selected as specified in Subsection (d)(1)(C):

(1) permanently waive the student's required enrollment in that course;

(2) allow the student at that time to satisfy the course requirement by selecting for the student and substituting:
   (A) a different course that the student is eligible to take and that is available to the student; or
   (B) an independent study assignment; or

(3) provide for the payment of the student's designated tuition and required fees for the course at the institution.

(h) An institution of higher education required to select an option under Subsection (g) may select an option under Subsection (g)(1) or (2) only if the institution determines that such a selection will not negatively affect the quality of the student's degree program or result in the institution's noncompliance with applicable accreditation standards.

(i) A student who enters into a contract under this section must apply for an incentive under Subsection (f) in the manner provided by the governing board of the institution of higher education awarding the incentive. The governing board shall require an applicant for an incentive to submit satisfactory evidence that the applicant is entitled to the incentive.

(j) An institution of higher education may not contract under this section with a student who transfers to the institution from another public or private institution of higher education. A student's transfer from one institution of higher education to another voids a contract entered into by the student under this section with the prior institution.

(k) This section does not apply to a student seeking a certificate at a public junior college.

(l) In consultation with institutions of higher education, the board shall adopt rules consistent with this section as necessary to implement this section, including rules establishing the manner in
which an institution of higher education must apply to participate in the pilot project, rules concerning the types of incentives that an institution may award under this section, and rules allowing an otherwise qualified student to receive an incentive under this section if the student is unable to satisfy a requirement for the incentive solely as a result of a hardship or other good cause. In adopting rules concerning the types of incentives that may be awarded, the board shall authorize incentives such as free membership in an institution's alumni organization or free tickets to one or more athletic events.

(m) Not later than December 31, 2007, and not later than December 31 of each year after 2007, the board shall submit a report to the legislature on the level of participation in the pilot project under this section and on the effectiveness of project contracts in encouraging students to graduate from institutions of higher education in a timely manner.

(n) A student may not enter into a contract under this section after the end of the 2009-2010 academic year. This section expires August 31, 2014.
