If an internal salary study is used, the board of trustees shall conduct the study in accordance with the guidelines established by the commissioner.
(e) Instead of using a market analysis or internal salary study to establish salaries and benefits, the board of trustees may use the state position classification plan and the General Appropriations Act
to determine the appropriate classification and relative compensation of officers and employees. The board of trustees may pay salaries in amounts less than those provided by the General Appropriations Act. For a position not on the classification plan, the board of trustees shall set the compensation according to guidelines adopted by the commissioner. The board of trustees may petition the department for approval to exclude a position from the position classification plan and to provide a stated salary for that position that exceeds the amount prescribed by the General Appropriations Act for the classified position.

(d) A community center may provide services to a person who voluntarily seeks assistance or who has been committed to that center.

Sec. 534.0155. FOR WHOM SERVICES MAY BE PROVIDED. (a) This subtitle does not prevent a community center from providing services to a person with a chemical dependency, to a person with a developmental disability, or to a person with a mental disability, as defined by Section 535.001.

(b) A community center may provide those services by contracting with a public or private agency in addition to the department.

(2) the commissioner determines that local conditions may impose an undue burden on the community center.

Sec. 534.017. FEES FOR SERVICES. (a) A community center shall charge reasonable fees for services the center provides, unless prohibited by other service contracts or law.

(b) The community center may not deny services to a person because of inability to pay for the services.

(c) The community center has the same rights, privileges, and powers for collecting fees for treating patients and clients that the department has by law.

Sec. 534.0175. TRUST EXEMPTION. (a) If a client is the beneficiary of a trust that has an aggregate principal of $250,000 or less, the corpus or income of the trust is not considered to be the property of the client or the client's estate and is not liable for the client's support. The board of trustees may waive this requirement if the purchase price is less than the value listed for the property by the local appraisal district and the property has been appraised by the local appraisal district within the preceding two years. A community center may not purchase or lease-purchase property for an amount that is greater than the property's appraised value unless:

(1) the purchase or lease-purchase of that property at that price is necessary;

(2) the board of trustees documents in the official minutes
the reasons why the purchase or lease-purchase is necessary at that price; and

(3) a majority of the board approves the transaction.

(c) The board of trustees shall establish in accordance with relevant department rules competitive bidding procedures and practices for capital purchases and for purchases involving department funds or required local matching funds.

Sec. 534.021. APPROVAL AND NOTIFICATION REQUIREMENTS. (c) The board shall adopt rules relating to the approval and notification process.

Sec. 534.022. FINANCING OF PROPERTY AND IMPROVEMENTS. (a) To acquire or to refinance the acquisition of real and personal property, to construct improvements to property, or to finance all or part of a payment owed or to be owed on a credit agreement, a

(e) A county or municipality acting alone or two or more counties or municipalities acting jointly pursuant to interlocal contract may create a public facility corporation to act on behalf of one or more community centers pursuant to Chapter 303, Local Government Code. Such counties or municipalities may exercise the powers of a sponsor under that chapter, and any such corporation may
exercise the powers of a corporation under that chapter (including but not limited to the power to issue bonds). The corporation may exercise its powers on behalf of community centers in such manner as may be prescribed by the articles and bylaws of the corporation, provided that in no event shall one community center ever be liable to pay the debts or obligation or be liable for the acts, actions, or undertakings of another community center.

(f) The board of trustees of a community center may authorize the issuance of an anticipation note in the same manner, using the same procedure, and with the same rights under which an eligible school district may authorize issuance under Chapter 1431, Government Code, except that anticipation notes issued for the purposes described by Section 1431.004(a)(2), Government Code, may not, in the fiscal year in which the attorney general approves the notes for a community center, exceed 50 percent of the revenue anticipated to be collected in that year.

(b) A community center that acquires real property by gift or grant shall, on the date the center acquires the gift or grant,
notify the private entity providing the gift or grant that:

(1) the center may subsequently sell the real property; and

(2) provide core or required services;
(3) provide services to former clients or patients of a department facility; or
(4) are affected by litigation in which the department is a defendant.

(b) The department may review any community center program if the department has reason to suspect that a violation of a department rule has occurred or if the department receives an allegation of patient or client abuse.

(1) ensure public participation in the authority's decisions regarding whether to provide or to contract for a service;

(2) make a reasonable effort to give notice of the intent to contract for services to each potential private provider in the local service area of the authority; and

(3) review each submitted proposal and award the contract to the applicant that the authority determines has made the lowest and best bid to provide the needed services.

(f) Each mental health or mental retardation authority, in determining the lowest and best bid, shall consider any relevant information included in the authority's request for bid proposals, including:

(1) price;

(2) the ability of the bidder to perform the contract and to provide the required services;

The board may obtain the information at a public hearing or from an advisory group.
(d) The service and performance standards established by the board under Subsection (c) must:

decision to impose a sanction.

(c) A local mental health or mental retardation authority may
appeal the department's decision to impose a sanction on the
authority. The board by rule shall prescribe the appeal procedure.

(d) The filing of a notice of appeal stays the imposition of
the department's decision to impose a sanction except when an act or
omission by a local mental health or mental retardation authority is
endangering or may endanger the life, health, welfare, or safety of a
person.

(c) Each provider contract involving the use of state funds or funds for which the state has oversight responsibility must authorize the local mental health or mental retardation authority or the authority's designee and the department or the department's designee to have unrestricted access to all facilities, records, data, and other information under the control of the provider as necessary to enable the department to audit, monitor, and review the financial and program activities and services associated with the contract.

(d) The department may withdraw funding from a local mental health or mental retardation authority that fails to cancel a contract with a provider involving the use of state funds or funds for which the state has oversight responsibility if:

(b) Before a nonprofit corporation organized or operating under Subsection (a) accepts or enters into any capitated or other at-risk payment arrangement for services designated in a plan approved by the department under Subchapter A, the nonprofit corporation must obtain the appropriate certificate of authority from the Texas Department of Insurance to operate as a health maintenance organization pursuant to Chapter 843, Insurance Code.

(c) Before submitting any bids, a nonprofit corporation operating under this subchapter shall disclose in an open meeting the services to be provided by the community center through any capitated or other at-risk payment arrangement by the nonprofit corporation. Notice of the meeting must be posted in accordance with Sections 551.041, 551.043, and 551.054, Government Code. The department shall verify that the services provided under any capitated or other at-risk payment arrangement are within the scope of services approved by the department in each community center's plan required under Subchapter A.

(d) The board of the nonprofit corporation shall:

(1) provide for public notice of the nonprofit corporation's intent to submit a bid to provide or arrange services
through a capitated or other at-risk payment arrangement through placement as a board agenda item on the next regularly scheduled board meeting that allows at least 15 days' public review of the plan; and

(2) provide an opportunity for public comment on the services to be provided through such arrangements and on the consideration of local input into the plan.

(e) The nonprofit corporation shall provide:

(1) public notice before verification and disclosure of services to be provided by the community center through any capitated or other at-risk payment arrangements by the nonprofit corporation;

(2) an opportunity for public comment on the community center services within the capitated or other at-risk payment arrangements offered by the nonprofit corporation;

(3) published summaries of all relevant documentation concerning community center services arranged through the nonprofit corporation, including summaries of any similar contracts the nonprofit corporation has entered into; and

(f) A nonprofit corporation operating under this subchapter:

(1) is subject to the requirements of Chapters 551 and 552, Government Code;

(2) shall solicit public input on the operations of the nonprofit corporation and allow public access to information on the operations, including services, administration, governance, revenues, and expenses, on request unless disclosure is expressly prohibited by law or the information is confidential under law; and

(3) shall publish an annual report detailing the services, administration, governance, revenues, and expenses of the nonprofit corporation, including the disposition of any excess revenues.

Sec. 534.102. LAWS AND RULES. A nonprofit corporation created or operated under this subchapter that obtains and holds a valid certificate of authority as a health maintenance organization may

A health maintenance organization created and operating under this subchapter is governed as, and is subject to the same laws and rules of the Texas Department of Insurance as, any other health maintenance organization of the same type. The commissioner of insurance may adopt rules as necessary to accept funding sources other than the sources specified by Section 843.405, Insurance Code, from a nonprofit health maintenance organization created and operating under this subchapter, to meet the minimum surplus requirements of that section.

Sec. 534.104. APPLICATION OF SPECIFIC LAWS. (a) A nonprofit health maintenance organization created under Section 534.101 is a health care provider that is a nonprofit health maintenance organization created and operated by a community center for purposes of Section 84.007(e), Civil Practice and Remedies Code. The nonprofit health maintenance organization is not a governmental unit or a unit of local government, for purposes of Chapters 101 and 102, Civil Practice and Remedies Code, respectively, or a local government for purposes of Chapter 791, Government Code.

(b) Nothing in this subchapter precludes one or more community centers from forming a nonprofit corporation under Chapter 162, Occupations Code, to provide services on a risk-sharing or capitated basis as permitted under Chapter 844, Insurance Code.
Sec. 534.105. CONSIDERATION OF BIDS. The department shall give equal consideration to bids submitted by any entity, whether it be public, for-profit, or nonprofit, if the department accepts bids to provide services through a capitated or at-risk payment arrangement and if the entities meet all other criteria as required by the department.

Sec. 534.106. CONDITIONS FOR CERTAIN CONTRACTS. A contract between the department and a health maintenance organization formed by one or more community centers must provide that the health maintenance organization may not form a for-profit entity unless the organization transfers all of the organization's assets to the control of the boards of trustees of the community centers that formed the organization.

Sec. 572.003. RIGHTS OF PATIENTS. (a) A person's voluntary admission to an inpatient mental health facility under this chapter does not affect the person's civil rights or legal capacity or affect the person's right to obtain a writ of habeas corpus.

(b) The facility shall, within four hours after a request for discharge is filed, notify the physician responsible for the patient's treatment. If that physician is not available during that period, the facility shall notify any available physician of the request.

The judge or a magistrate appointed by the judge may by written order made each day extend the period during which the patient may be detained until 4 p.m. on the first succeeding business day. The written order must declare that an emergency exists because of the weather or the occurrence of a disaster.

(f) The patient is not entitled to leave the facility if before the end of the period prescribed by this section:

SUBCHAPTER A. APPLICATION FOR COMMITMENT AND PREHEARING PROCEDURES

Sec. 574.001. APPLICATION FOR COURT-ORDERED MENTAL HEALTH SERVICES. (a) A county or district attorney or other adult may file a sworn written application for court-ordered mental health services. Only the district or county attorney may file an application that is not accompanied by a certificate of medical examination.
(b) Except as provided by Subsection (f), the application must be filed with the county clerk in the county in which the proposed patient:

(1) resides;
(2) is found; or
(3) is receiving mental health services by court order or under Subchapter A, Chapter 573.

(c) If the application is not filed in the county in which the proposed patient resides, the court may, on request of the proposed patient or the proposed patient's attorney and if good cause is shown, transfer the application to that county.

(d) An application may be transferred to the county in which the person is being detained under Subchapter B if the county to which the application is to be transferred approves such transfer. A transfer under this subsection does not preclude the proposed patient from filing a motion to transfer under Subsection (c).

(e) An order transferring a criminal defendant against whom all charges have been dismissed to the appropriate court for a hearing on court-ordered mental health services in accordance with Subchapter F, Chapter 46B, Code of Criminal Procedure, serves as an application under this section. The order must state that all charges have been dismissed.

(f) An application in which the proposed patient is a child in the custody of the Texas Youth Commission may be filed in the county in which the child's commitment to the commission was ordered.

Sec. 574.002. FORM OF APPLICATION. (a) An application for court-ordered mental health services must be styled using the proposed patient's initials and not the proposed patient's full name.

(b) The application must state whether the application is for temporary or extended mental health services. An application for extended inpatient mental health services must state that the person has received court-ordered inpatient mental health services under this subtitle or under Subchapter D or E, Chapter 46B, Code of
Criminal Procedure, for at least 60 consecutive days during the preceding 12 months. An application for extended outpatient mental health services must state that the person has received:

1. court-ordered inpatient mental health services under this subtitle or under Subchapter D or E, Chapter 46B, Code of Criminal Procedure, for a total of at least 60 days during the preceding 12 months; or
2. court-ordered outpatient mental health services under this subtitle or under Subchapter D or E, Chapter 46B, Code of Criminal Procedure, during the preceding 60 days.

(c) Any application must contain the following information according to the applicant's information and belief:

1. the proposed patient's name and address;
2. the proposed patient's county of residence in this state;
3. a statement that the proposed patient is mentally ill and meets the criteria in Section 574.034 or 574.035 for court-ordered mental health services; and
4. whether the proposed patient is charged with a criminal offense.

Sec. 574.003. APPOINTMENT OF ATTORNEY. (a) The judge shall appoint an attorney to represent a proposed patient within 24 hours after the time an application for court-ordered mental health services is filed if the proposed patient does not have an attorney. At that time, the judge shall also appoint a language or sign interpreter if necessary to ensure effective communication with the attorney in the proposed patient's primary language.

(b) The court shall inform the attorney in writing of the attorney's duties under Section 574.004.

(c) The proposed patient's attorney shall be furnished with all records and papers in the case and is entitled to have access to all hospital and physicians' records.
Sec. 574.004. DUTIES OF ATTORNEY. (a) An attorney representing a proposed patient shall interview the proposed patient within a reasonable time before the date of the hearing on the application.

(b) The attorney shall thoroughly discuss with the proposed patient the law and facts of the case, the proposed patient's options, and the grounds on which the court-ordered mental health services are being sought. A court-appointed attorney shall also inform the proposed patient that the proposed patient may obtain personal legal counsel at the proposed patient's expense instead of accepting the court-appointed counsel.

(c) The attorney may advise the proposed patient of the wisdom of agreeing to or resisting efforts to provide mental health services, but the proposed patient shall make the decision to agree to or resist the efforts. Regardless of an attorney's personal opinion, the attorney shall use all reasonable efforts within the bounds of law to advocate the proposed patient's right to avoid court-ordered mental health services if the proposed patient expresses a desire to avoid the services. If the proposed patient desires, the attorney shall advocate for the least restrictive treatment alternatives to court-ordered inpatient mental health services.

(d) Before a hearing, the attorney shall:

(1) review the application, the certificates of medical examination for mental illness, and the proposed patient's relevant medical records;

(2) interview supporting witnesses and other witnesses who will testify at the hearing; and

(3) explore the least restrictive treatment alternatives to court-ordered inpatient mental health services.

(e) The attorney shall advise the proposed patient of the proposed patient's right to attend a hearing or to waive the right to attend a hearing and shall inform the court why a proposed patient is absent from a hearing.

(f) The attorney shall discuss with the proposed patient:

(1) the procedures for appeal, release, and discharge if the court orders participation in mental health services; and
other rights the proposed patient may have during the period of the court's order.

(g) To withdraw from a case after interviewing a proposed patient, an attorney must file a motion to withdraw with the court. The court shall act on the motion as soon as possible. An attorney may not withdraw from a case unless the withdrawal is authorized by court order.

(h) The attorney is responsible for a person's legal representation until:

(1) the application is dismissed;
(2) an appeal from an order directing treatment is taken;
(3) the time for giving notice of appeal expires by operation of law; or
(4) another attorney assumes responsibility for the case.

Sec. 574.005. SETTING ON APPLICATION. (a) The judge or a magistrate designated under Section 574.021(e) shall set a date for a hearing to be held within 14 days after the date on which the application is filed.

(b) The hearing may not be held during the first three days after the application is filed if the proposed patient or the proposed patient's attorney objects.

(c) The court may grant one or more continuances of the hearing on the motion by a party and for good cause shown or on agreement of the parties. However, the hearing shall be held not later than the 30th day after the date on which the original application is filed. If extremely hazardous weather conditions exist or a disaster occurs that threatens the safety of the proposed patient or other essential parties to the hearing, the judge or magistrate may, by written order made each day, postpone the hearing for 24 hours. The written order must declare that an emergency exists because of the weather or the occurrence of a disaster.

Sec. 574.006. NOTICE. (a) The proposed patient and his attorney are entitled to receive a copy of the application and
written notice of the time and place of the hearing immediately after
the date for the hearing is set.

(b) A copy of the application and the written notice shall be
delivered in person or sent by certified mail to the proposed
patient's:

(1) parent, if the proposed patient is a minor;
(2) appointed guardian, if the proposed patient is the
subject of a guardianship; or
(3) each managing and possessory conservator that has been
appointed for the proposed patient.

(c) Notice may be given to the proposed patient's next of kin
if the relative is the applicant and the parent cannot be located and
a guardian or conservator has not been appointed.

(d) Notice of the time and place of any hearing and of the
name, telephone number, and address of any attorneys known or
believed to represent the state or the proposed patient shall be
furnished to any person stating that that person has evidence to
present upon any material issue, without regard to whether such
evidence is on behalf of the state or of the proposed patient. The
notice shall not include the application, medical records, names or
addresses of other potential witnesses, or any other information
whatsoever. Any clerk, judge, magistrate, court coordinator, or
other officer of the court shall provide such information and shall
be entitled to judicial immunity in any civil suit seeking damages as
a result of providing such notice. Should such evidence be offered
at trial and the adverse party claim surprise, the hearing may be
continued under the provisions of Section 574.005, and the person
producing such evidence shall be entitled to timely notice of the
date and time of such continuance.

Any officer, employee, or agent of the department shall refer
any inquiring person to the court authorized to provide the notice if
such information is in the possession of the department. The notice
shall be provided in the form that is most understandable to the
person making such inquiry.

patient's attorney may request information from the county or
district attorney in accordance with this section if the attorney
cannot otherwise obtain the information.

(b) If the proposed patient's attorney requests the information
at least 48 hours before the time set for the hearing, the county or
district attorney shall, within a reasonable time before the hearing,
provide the attorney with a statement that includes:

(1) the provisions of this subtitle that will be relied on
at the hearing to establish that the proposed patient requires court-
ordered temporary or extended inpatient mental health services;

(2) the reasons voluntary outpatient services are not
considered appropriate for the proposed patient;

(3) the name, address, and telephone number of each witness
who may testify at the hearing;

(4) a brief description of the reasons court-ordered
temporary or extended inpatient or outpatient, as appropriate, mental
health services are required; and

(5) a list of any acts committed by the proposed patient
that the applicant will attempt to prove at the hearing.

(c) At the hearing, the judge may admit evidence or testimony
that relates to matters not disclosed under Subsection (b) if the
admission would not deprive the proposed patient of a fair
opportunity to contest the evidence or testimony.

(d) Except as provided by this subsection, not later than 48
hours before the time set for the hearing on the petition for
commitment, the county or district attorney shall inform the proposed
patient through the proposed patient's attorney whether the county or
district attorney will request that the proposed patient be committed
to inpatient services or outpatient services. The proposed patient,
the proposed patient's attorney, and the county or district attorney
may agree to waive the requirement of this subsection. The waiver
must be made by the proposed patient:

(1) orally and in the presence of the court; or

(2) in writing and signed and sworn to under oath by the
proposed patient and the proposed patient's attorney.

(b) If the hearing is to be held in a county court in which the judge is not a licensed attorney, the proposed patient or the proposed patient's attorney may request that the proceeding be transferred to a court with a judge who is licensed to practice law in this state. The county judge shall transfer the case after receiving the request and the receiving court shall hear the case as if it had been originally filed in that court.

(c) If a patient is receiving temporary inpatient mental health services in a county other than the county that initiated the court-ordered inpatient mental health services and the patient requires extended inpatient mental health services, the county in which the proceedings originated shall pay the expenses of transporting the patient back to the county for the hearing unless the court that entered the temporary order arranges with the appropriate court in the county in which the patient is receiving services to hold the hearing on court-ordered extended inpatient mental health services before the original order expires.

(d) If an order for outpatient services designates that such services be provided in a county other than the county in which the order was initiated, the court shall transfer the case to the appropriate court in the county in which the services are being provided. That court shall thereafter have exclusive, continuing jurisdiction of the case, including the receipt of the general treatment program required by Section 574.037(b).

Sec. 574.0085. ASSOCIATE JUDGES. (a) The county judge may appoint a full-time or a part-time associate judge to preside over the proceedings for court-ordered mental health services if the commissioners court of a county in which the court has jurisdiction authorizes the employment of an associate judge.

(b) To be eligible for appointment as an associate judge, a person must be a resident of this state and have been licensed to
practice law in this state for at least four years or be a retired county judge, statutory or constitutional, with at least 10 years of service.

(c) An associate judge shall be paid as determined by the commissioners court of the county in which the associate judge serves. If an associate judge serves in more than one county, the associate judge shall be paid as determined by agreement of the commissioners courts of the counties in which the associate judge serves. The associate judge may be paid from county funds available for payment of officers' salaries.

(d) An associate judge who serves a single court serves at the will of the judge of that court. The services of an associate judge who serves more than two courts may be terminated by a majority vote of all the judges of the courts the associate judge serves. The services of an associate judge who serves two courts may be terminated by either of the judges of the courts the associate judge serves.

(e) To refer cases to an associate judge, the referring court must issue an order of referral. The order of referral may limit the power or duties of an associate judge.

(f) Except as limited by an order of referral, an associate judge appointed under this section has all the powers and duties set forth in Section 201.007, Family Code.

(g) A bailiff may attend a hearing held by an associate judge if directed by the referring court.

(h) A witness appearing before an associate judge is subject to the penalties for perjury provided by law. A referring court may issue attachment against and may fine or imprison a witness whose failure to appear before an associate judge after being summoned or whose refusal to answer questions has been certified to the court.

(i) At the conclusion of any hearing conducted by an associate judge and on the preparation of an associate judge's report, the associate judge shall transmit to the referring court all papers relating to the case, with the associate judge's signed and dated report. After the associate judge's report has been signed, the associate judge shall give to the parties participating in the hearing notice of the substance of the report. The associate judge's report may contain the associate judge's findings, conclusions, or recommendations. The associate judge's report must be in writing in a form as the referring court may direct. The form may be a notation
on the referring court's docket sheet. After the associate judge's report is filed, the referring court may adopt, approve, or reject the associate judge's report, hear further evidence, or recommit the matter for further proceedings as the referring court considers proper and necessary in the particular circumstances of the case.

(j) If a jury trial is demanded or required, the associate judge shall refer the entire matter back to the referring court for trial.

(k) An associate judge appointed under this section has the judicial immunity of a county judge.

(l) An associate judge appointed in accordance with this section shall comply with the Code of Judicial Conduct in the same manner as the county judge.

(a) A hearing on an application for court-ordered mental health services may not be held unless there are on file with the court at least two certificates of medical examination for mental illness completed by different physicians each of whom has examined the proposed patient during the preceding 30 days. At least one of the physicians must be a psychiatrist if a psychiatrist is available in the county.

(b) If the certificates are not filed with the application, the judge or magistrate designated under Section 574.021(e) may appoint the necessary physicians to examine the proposed patient and file the certificates.

(c) The judge or designated magistrate may order the proposed patient to submit to the examination and may issue a warrant authorizing a peace officer to take the proposed patient into custody for the examination.

(d) If the certificates required under this section are not on file at the time set for the hearing on the application, the judge

If extremely hazardous weather conditions exist or a disaster occurs, the presiding judge or magistrate may by written order made each day extend the period during which the two certificates of medical examination for mental illness may be filed, and the person may be detained until 4 p.m. on the first succeeding business day.       (iii) not able to make a rational and informed decision as to whether to submit to treatment.

(b) The examining physician must specify in the certificate which criterion listed in Subsection (a)(7)(B) forms the basis for the physician's opinion.

(d) If the certificate is offered in support of a motion for a protective custody order, the certificate must also include the examining physician's opinion that the examined person presents a substantial risk of serious harm to himself or others if not immediately restrained. The harm may be demonstrated by the examined person's behavior or by evidence of severe emotional distress and deterioration in the examined person's mental condition to the extent that the examined person cannot remain at liberty.

   (B) is likely to cause serious harm to others; or
   (C) is:
      (i) suffering severe and abnormal mental, emotional, or physical distress;
      (ii) experiencing substantial mental or physical deterioration of the proposed patient's ability to function independently, which is exhibited by the proposed patient's inability, except for reasons of indigence, to provide for the proposed patient's basic needs, including food, clothing, health, or safety; and
      (iii) unable to make a rational and informed decision as to whether or not to submit to treatment.

(b) The judge may order a proposed patient to receive court-ordered temporary outpatient mental health services only if:

(d) To be clear and convincing under Subsection (a), the evidence must include expert testimony and, unless waived, evidence of a recent overt act or a continuing pattern of behavior that tends to confirm:

(b) The person responsible for the services shall submit to the court a general program of the treatment to be provided as required by this subsection and Subsection (b-2). The program must be incorporated into the court order. The program must include:

Sec. 574.062. MOTION FOR MODIFICATION OF ORDER FOR OUTPATIENT TREATMENT. (a) The court that entered an order directing a patient to participate in outpatient mental health services may set a hearing to determine if the order should be modified in a way that is a substantial deviation from the original program of treatment incorporated in the court's order. The court may set the hearing on its own motion, at the request of the person responsible for the treatment, or at the request of any other interested person.

(b) The court shall appoint an attorney to represent the patient if a hearing is scheduled. The patient shall be given notice of the matters to be considered at the hearing. The notice must comply with the requirements of Section 574.006 for notice before a hearing on court-ordered mental health services.

(c) The hearing shall be held before the court, without a jury, and as prescribed by Section 574.031. The patient shall be represented by an attorney and receive proper notice.

(d) The court shall set a date for a hearing on the motion to be held not later than the seventh day after the date the motion is filed. The court may grant one or more continuances of the hearing on the motion by a party and for good cause shown or on agreement of the parties. Except as provided by Subsection (e), the court shall hold the hearing not later than the 14th day after the date the

Sec. 574.063. ORDER FOR TEMPORARY DETENTION. (a) The person responsible for a patient's court-ordered outpatient treatment or the facility administrator of the outpatient facility in which a patient receives treatment may file a sworn application for the patient's temporary detention pending the modification hearing under Section 574.062.

(b) The application must state the applicant's opinion and detail the reasons for the applicant's opinion that:

(1) the patient meets the criteria described by Section 574.064(a-1); and

(2) detention in an inpatient mental health facility is necessary to evaluate the appropriate setting for continued court-ordered services.

(c) The court may issue an order for temporary detention if a modification hearing is set and the court finds from the information in the application that there is probable cause to believe that the opinions stated in the application are valid.

(d) At the time the temporary detention order is signed, the judge shall appoint an attorney to represent a patient who does not have an attorney.

(e) Within 24 hours after the time detention begins, the court that issued the temporary detention order shall provide to the patient and the patient's attorney a written notice that states:

(1) that the patient has been placed under a temporary detention order;

(2) the grounds for the order; and

(3) the time and place of the modification hearing.

Sec. 574.064. APPREHENSION AND RELEASE UNDER TEMPORARY DETENTION ORDER. (a) A temporary detention order shall direct a peace officer or other designated person to take the patient into custody and transport the patient immediately to:

(1) the nearest appropriate inpatient mental health facility; or

(2) a mental health facility deemed suitable by the local mental health authority for the area, if an appropriate inpatient mental health facility is not available.

(a-1) A physician shall evaluate the patient as soon as possible within 24 hours after the time detention begins to determine whether the patient, due to mental illness, presents a substantial risk of serious harm to the patient or others so that the patient cannot be at liberty pending the probable cause hearing under Subsection (b). The determination that the patient presents a substantial risk of serious harm to the patient or others may be demonstrated by:

(1) the patient's behavior; or

(2) evidence of severe emotional distress and deterioration in the patient's mental condition to the extent that the patient cannot live safely in the community.

(a-2) If the physician who conducted the evaluation determines that the patient does not present a substantial risk of serious harm to the patient or others, the facility shall:

(1) notify:

(A) the person designated under Section 574.037 as responsible for providing outpatient mental health services or the facility administrator of the outpatient facility treating the patient; and

(B) the court that entered the order directing the patient to receive court-ordered outpatient mental health services; and

(2) release the patient.

(b) A patient who is not released under Subsection (a-2) may be detained under a temporary detention order for more than 72 hours,
excluding Saturdays, Sundays, legal holidays, and the period
prescribed by Section 574.025(b) for an extreme emergency only if,
after a hearing held before the expiration of that period, the court,
a magistrate, or a designated associate judge finds that there is
probable cause to believe that:

(1) the patient, due to mental illness, presents a
substantial risk of serious harm to the patient or others, using the
criteria prescribed by Subsection (a-1), to the extent that the
patient cannot be at liberty pending the final hearing under Section
574.062; and

(2) detention in an inpatient mental health facility is
necessary to evaluate the appropriate setting for continued court-
ordered services.

(c) If probable cause is found under Subsection (b), the
patient may be detained under the temporary detention until the
hearing set under Section 574.062 is completed.

(d) A facility administrator shall immediately release a
patient held under a temporary detention order if the facility
administrator does not receive notice that the patient's continued
detention is authorized:

(1) after a probable cause hearing held within 72 hours
after the patient's detention begins; or

(2) after a modification hearing held within the period
prescribed by Section 574.062.

(e) A patient released from an inpatient mental health facility
under Subsection (a-2) or (d) continues to be subject to the order
for court-ordered outpatient services, if the order has not expired.

(f) A person detained under this section may not be detained in
a nonmedical facility used to detain persons charged with or
convicted of a crime.

Sec. 574.065. ORDER OF MODIFICATION OF ORDER FOR OUTPATIENT SERVICES. (a) The court may modify an order for outpatient services at the modification hearing if the court determines that the patient meets the applicable criteria for court-ordered inpatient mental health services prescribed by Section 574.034(a) or 574.035(a).

(b) The court may refuse to modify the order and may direct the patient to continue to participate in outpatient mental health services in accordance with the original order even if the criteria prescribed by Subsection (a) have been met.

(c) The court's decision to modify an order must be supported by at least one certificate of medical examination for mental illness signed by a physician who examined the patient not earlier than the seventh day before the date on which the hearing is held.

(d) A modification may include:
   (1) incorporating in the order a revised treatment program and providing for continued outpatient mental health services under the modified order, if a revised general program of treatment was submitted to and accepted by the court; or
   (2) providing for commitment to an inpatient mental health facility.

(e) A court may not extend the provision of mental health services beyond the period prescribed in the original order.

Sec. 574.066. RENEWAL OF ORDER FOR EXTENDED MENTAL HEALTH SERVICES. (a) A county or district attorney or other adult may file an application to renew an order for extended mental health services.

(b) The application must explain in detail why the person requests renewal. An application to renew an order committing the patient to extended inpatient mental health services must also explain in detail why a less restrictive setting is not appropriate.

(c) The application must be accompanied by two certificates of medical examination for mental illness signed by physicians who examined the patient during the 30 days preceding the date on which
the application is filed.

(d) The court shall appoint an attorney to represent the patient when an application is filed.

(e) The patient, the patient's attorney, or other individual may request a hearing on the application. The court may set a hearing on its own motion. An application for which a hearing is requested or set is considered an original application for court-ordered extended mental health services.

(f) A court may not renew an order unless the court finds that the patient meets the criteria for extended mental health services prescribed by Sections 574.035(a)(1), (2), and (3). The court must make the findings prescribed by this subsection to renew an order, regardless of whether a hearing is requested or set. A renewed order authorizes treatment for not more than 12 months.

(g) If a hearing is not requested or set, the court may admit into evidence the certificates of medical examination for mental illness. The certificates constitute competent medical or psychiatric testimony and the court may make its findings solely from the certificates and the detailed request for renewal.

(h) The court, after renewing an order for extended inpatient mental health services, may modify the order to provide for outpatient mental health services in accordance with Section 574.037.

Sec. 574.067. MOTION FOR REHEARING. (a) The court may set aside an order requiring court-ordered mental health services and grant a motion for rehearing for good cause shown.

(b) Pending the hearing, the court may:

(1) stay the court-ordered mental health services and release the proposed patient from custody before the hearing if the court is satisfied that the proposed patient does not meet the criteria for protective custody under Section 574.022; and

(2) if the proposed patient is at liberty, require an appearance bond in an amount set by the court.

Sec. 574.068. REQUEST FOR REEXAMINATION. (a) A patient
receiving court-ordered extended mental health services, or any interested person on the patient's behalf and with the patient's consent, may file a request with a court for a reexamination and a hearing to determine if the patient continues to meet the criteria for the services.

(b) The request must be filed in the county in which the patient is receiving the services.

(c) The court may, for good cause shown:
   (1) require that the patient be reexamined;
   (2) schedule a hearing on the request; and
   (3) notify the facility administrator of the facility providing mental health services to the patient.

(d) A court is not required to order a reexamination or hearing if the request is filed within six months after an order for extended mental health services is entered or after a similar request is filed.

(e) After receiving the court's notice, the facility administrator shall arrange for the patient to be reexamined.

(f) The facility administrator or the administrator's qualified authorized designee shall immediately discharge the patient if the facility administrator or designee determines that the patient no longer meets the criteria for court-ordered extended mental health services.

(g) If the facility administrator or the administrator's designee determines that the patient continues to meet the criteria for court-ordered extended mental health services, the facility administrator or designee shall file a certificate of medical examination for mental illness with the court within 10 days after the date on which the request for reexamination and hearing is filed.

Sec. 574.069. HEARING ON REQUEST FOR REEXAMINATION. (a) A court that required a patient's reexamination under Section 574.068 may set a date and place for a hearing on the request if, not later than the 10th day after the date on which the request is filed:

(1) a certificate of medical examination for mental illness stating that the patient continues to meet the criteria for court-ordered extended mental health services has been filed; or
(2) a certificate has not been filed and the patient has not been discharged.

(b) At the time the hearing is set, the judge shall:
(1) appoint an attorney to represent a patient who does not have an attorney; and
(2) give notice of the hearing to the patient, the patient's attorney, and the facility administrator.

(c) The judge shall appoint a physician to examine the patient and file a certificate of medical examination for mental illness with the court. The judge shall appoint a physician who is not on the staff of the mental health facility in which the patient is receiving services and who is a psychiatrist if a psychiatrist is available in the county. The court shall ensure that the patient may be examined by a physician of the patient's choice and at the patient's own expense if requested by the patient.

(d) The hearing is held before the court and without a jury. The hearing must be held in accordance with the requirements for a hearing on an application for court-ordered mental health services.

(e) The court shall dismiss the request if the court finds from clear and convincing evidence that the patient continues to meet the criteria for court-ordered extended mental health services prescribed by Section 574.035.

(f) The judge shall order the facility administrator to discharge the patient if the court fails to find from clear and convincing evidence that the patient continues to meet the criteria.

Sec. 574.070. APPEAL. (a) An appeal from an order requiring court-ordered mental health services, or from a renewal or modification of an order, must be filed in the court of appeals for the county in which the order is entered.

(b) Notice of appeal must be filed not later than the 10th day after the date on which the order is signed.

(c) When an appeal is filed, the clerk shall immediately send a certified transcript of the proceedings to the court of appeals.

(d) Pending the appeal, the trial judge in whose court the cause is pending may:
(1) stay the order and release the patient from custody
before the appeal if the judge is satisfied that the patient does not meet the criteria for protective custody under Section 574.022; and

(2) if the proposed patient is at liberty, require an appearance bond in an amount set by the court.

(e) The court of appeals and supreme court shall give an appeal under this section preference over all other cases and shall advance the appeal on the docket. The courts may suspend all rules relating to the time for filing briefs and docketing cases.

SUBCHAPTER F. FURLOUGH, DISCHARGE, AND TERMINATION OF COURT-ORDERED MENTAL HEALTH SERVICES

Sec. 574.081. CONTINUING CARE PLAN BEFORE FURLOUGH OR DISCHARGE. (a) The physician responsible for the patient's treatment shall prepare a continuing care plan for a patient who is scheduled to be furloughed or discharged unless the patient does not require continuing care.

(b) The physician shall prepare the plan as prescribed by department rules and shall consult the patient and the local mental health authority in the area in which the patient will reside before preparing the plan. The local mental health authority is not required to participate in preparing a plan for a patient furloughed or discharged from a private mental health facility.

(c) The plan must address the patient's mental health and physical needs, including, if appropriate:

(1) the need for sufficient medication on furlough or discharge to last until the patient can see a physician; and

(2) the person or entity that is responsible for providing and paying for the medication.

(d) The physician shall deliver the plan and other appropriate information to the community center or other provider that will deliver the services if:

(1) the services are provided by:

(A) a community center or other provider that serves the county in which the patient will reside and that has been designated by the commissioner to perform continuing care services; or

(B) any other provider that agrees to accept the
referral; and

(2) the provision of care by the center or provider is appropriate.

(e) The facility administrator or the administrator's designee shall have the right of access to discharged patients and records of patients who request continuing care services.

(f) A patient who is to be discharged may refuse the continuing care services.

(g) A physician who believes that a patient does not require continuing care and who does not prepare a continuing care plan under this section shall document in the patient's treatment record the reasons for that belief.

(h) Subsection (c) does not create a mandate that a facility described by Section 571.003(9)(B) or (E) provide or pay for a medication for a patient.

Sec. 574.082. PASS OR FURLOUGH FROM INPATIENT CARE. (a) The facility administrator may permit a patient admitted to the facility under an order for temporary or extended inpatient mental health services to leave the facility under a pass or furlough.

(b) A pass authorizes the patient to leave the facility for not more than 72 hours. A furlough authorizes the patient to leave for a longer period.

(c) The pass or furlough may be subject to specified conditions.

(d) When a patient is furloughed, the facility administrator shall notify the court that issued the commitment order.

Sec. 574.083. RETURN TO FACILITY UNDER CERTIFICATE OF FACILITY ADMINISTRATOR OR COURT ORDER. (a) The facility administrator of a
facility to which a patient was admitted for court-ordered inpatient health care services may authorize a peace officer of the municipality or county in which the facility is located to take an absent patient into custody, detain the patient, and return the patient to the facility by issuing a certificate as prescribed by Subsection (c) to a law enforcement agency of the municipality or county.

(b) If there is reason to believe that an absent patient may be outside the municipality or county in which the facility is located, the facility administrator may file an affidavit as prescribed by Subsection (c) with a magistrate requesting the magistrate to issue an order for the patient's return. The magistrate with whom the affidavit is filed may issue an order directing a peace or health officer to take an absent patient into custody and return the patient to the facility. An order issued under this subsection extends to any part of this state and authorizes any peace officer to whom the order is directed or transferred to execute the order, take the patient into custody, detain the patient, and return the patient to the facility.

(c) The certificate issued or affidavit filed under Subsection (a) or (b) must set out facts establishing that the patient is receiving court-ordered inpatient mental health services at the facility and show that the facility administrator reasonably believes that:

1. the patient is absent without authority from the facility;
2. the patient has violated the conditions of a pass or furlough; or
3. the patient's condition has deteriorated to the extent that the patient's continued absence from the facility under a pass or furlough is inappropriate.

(d) A peace or health officer shall take the patient into custody and return the patient to the facility as soon as possible if the patient's return is authorized by a certificate issued or court order issued under this section.

(e) A peace or health officer may take the patient into custody without having the certificate or court order in the officer's possession.

(f) A peace or health officer who cannot immediately return a patient to the facility named in the order may transport the patient...
to a local facility for detention. The patient may not be detained in a nonmedical facility that is used to detain persons who are charged with or convicted of a crime unless detention in the facility is warranted by an extreme emergency. If the patient is detained at a nonmedical facility:

(1) the patient:
   (A) may not be detained in the facility for more than 24 hours; and
   (B) must be isolated from all persons charged with or convicted of a crime; and

(2) the facility must notify the county health authority of the detention.

(g) The local mental health authority shall ensure that a patient detained in a nonmedical facility under Subsection (f) receives proper care and medical attention.

(h) Notwithstanding other law regarding confidentiality of patient information, the facility administrator may release to a law enforcement official information about the patient if the administrator determines the information is needed to facilitate the return of the patient to the facility.

Sec. 574.084. REVOCATION OF FURLOUGH. (a) A furlough may be revoked only after an administrative hearing held in accordance with department rules. The hearing must be held within 72 hours after the patient is returned to the facility.

(b) A hearing officer shall conduct the hearing. The hearing officer may be a mental health professional if the person is not directly involved in treating the patient.

(c) The hearing is informal and the patient is entitled to present information and argument.

(d) The hearing officer may revoke the furlough if the officer determines that the revocation is justified under Section 574.083(c).

(e) A hearing officer who revokes a furlough shall place in the
(1) a written notation of the decision; and
(2) a written explanation of the reasons for the decision and the information on which the hearing officer relied.

(f) The patient shall be permitted to leave the facility under the furlough if the hearing officer determines that the furlough should not be revoked.

Sec. 574.085. DISCHARGE ON EXPIRATION OF COURT ORDER. The facility administrator of a facility to which a patient was committed or from which a patient was required to receive temporary or extended inpatient or outpatient mental health services shall discharge the patient when the court order expires.

Sec. 574.086. DISCHARGE BEFORE EXPIRATION OF COURT ORDER. (a) The facility administrator of a facility to which a patient was committed for inpatient mental health services or the person responsible for providing outpatient mental health services may discharge the patient at any time before the court order expires if the facility administrator or person determines that the patient no longer meets the criteria for court-ordered mental health services.

(b) The facility administrator of a facility to which the patient was committed for inpatient mental health services shall consider before discharging the patient whether the patient should receive outpatient court-ordered mental health services in accordance with:

(1) a furlough under Section 574.082; or
(2) a modified order under Section 574.061 that directs the patient to participate in outpatient mental health services.

(c) A discharge under Subsection (a) terminates the court order, and the person discharged may not be required to submit to involuntary mental health services unless a new court order is entered in accordance with this subtitle.

Sec. 574.087. CERTIFICATE OF DISCHARGE. The facility administrator or the person responsible for outpatient care who discharges a patient under Section 574.085 or 574.086 shall prepare a discharge certificate and file it with the court that entered the order requiring mental health services.

Sec. 574.088. RELIEF FROM DISABILITIES IN MENTAL HEALTH CASES.
(a) A person who is furloughed or discharged from court-ordered mental health services may petition the court that entered the commitment order for an order stating that the person qualifies for relief from a firearms disability.

(b) In determining whether to grant relief, the court must hear and consider evidence about:
   (1) the circumstances that led to imposition of the firearms disability under 18 U.S.C. Section 922(g)(4);
   (2) the person's mental history;
   (3) the person's criminal history; and
   (4) the person's reputation.

(c) A court may not grant relief unless it makes and enters in the record the following affirmative findings:
   (1) the person is no longer likely to act in a manner dangerous to public safety; and
   (2) removing the person's disability to purchase a firearm is in the public interest.

Added by Acts 2009, 81st Leg., R.S., Ch. 950 (H.B. 3352), Sec. 2, eff. September 1, 2009.

Sec. 574.089. TRANSPORTATION PLAN FOR FURLough OR DISCHARGE.
(a) The facility administrator of a mental health facility, in conjunction with the local mental health authority, shall create a transportation plan for a person scheduled to be furloughed or discharged from the facility.

(b) The transportation plan must account for the capacity of the person, must be in writing, and must specify:
(1) who is responsible for transporting the person;
(2) when the person will be transported; and
(3) where the person will arrive.
(c) If the person consents, the facility administrator shall forward the transportation plan to a family member of the person before the person is transported.

Sec. 574.106. HEARING AND ORDER AUTHORIZING PSYCHOACTIVE
MEDICATION. (a) The court may issue an order authorizing the
administration of one or more classes of psychoactive medication to a
patient who:

(1) is under a court order to receive inpatient mental
health services; or
(2) is in custody awaiting trial in a criminal proceeding
and was ordered to receive inpatient mental health services in the
six months preceding a hearing under this section.

(a-1) The court may issue an order under this section only if
the court finds by clear and convincing evidence after the hearing:

(1) that the patient lacks the capacity to make a decision
regarding the administration of the proposed medication and treatment
with the proposed medication is in the best interest of the patient;
or

(2) if the patient was ordered to receive inpatient mental
health services by a criminal court with jurisdiction over the
patient, that treatment with the proposed medication is in the best
interest of the patient and either:

(A) the patient presents a danger to the patient or
others in the inpatient mental health facility in which the patient
is being treated as a result of a mental disorder or mental defect as
determined under Section 574.1065; or

(B) the patient:

(i) has remained confined in a correctional
facility, as defined by Section 1.07, Penal Code, for a period exceeding 72 hours while awaiting transfer for competency restoration treatment; and

(ii) presents a danger to the patient or others in the correctional facility as a result of a mental disorder or mental defect as determined under Section 574.1065.

(b) In making the finding that treatment with the proposed medication is in the best interest of the patient, the court shall consider:

(1) the patient's expressed preferences regarding treatment with psychoactive medication;
(2) the patient's religious beliefs;
(3) the risks and benefits, from the perspective of the patient, of taking psychoactive medication;
(4) the consequences to the patient if the psychoactive medication is not administered;
(5) the prognosis for the patient if the patient is treated with psychoactive medication;
(6) alternative, less intrusive treatments that are likely to produce the same results as treatment with psychoactive medication; and
(7) less intrusive treatments likely to secure the patient's agreement to take the psychoactive medication.

(c) A hearing under this subchapter shall be conducted on the record by the probate judge or judge with probate jurisdiction, except as provided by Subsection (d).

(d) A judge may refer a hearing to a magistrate or court-appointed associate judge who has training regarding psychoactive medications. The magistrate or associate judge may effectuate the notice, set hearing dates, and appoint attorneys as required in this subchapter. A record is not required if the hearing is held by a magistrate or court-appointed associate judge.

(e) A party is entitled to a hearing de novo by the judge if an appeal of the magistrate's or associate judge's report is filed with the court within three days after the report is issued. The hearing de novo shall be held within 30 days of the filing of the application for an order to authorize psychoactive medication.

(f) If a hearing or an appeal of an associate judge's or magistrate's report is to be held in a county court in which the judge is not a licensed attorney, the proposed patient or the
proposed patient's attorney may request that the proceeding be transferred to a court with a judge who is licensed to practice law in this state. The county judge shall transfer the case after receiving the request, and the receiving court shall hear the case as if it had been originally filed in that court.

(g) As soon as practicable after the conclusion of the hearing, the patient is entitled to have provided to the patient and the patient's attorney written notification of the court's determinations under this section. The notification shall include a statement of the evidence on which the court relied and the reasons for the court's determinations.

(h) An order entered under this section shall authorize the administration to a patient, regardless of the patient's refusal, of one or more classes of psychoactive medications specified in the application and consistent with the patient's diagnosis. The order shall permit an increase or decrease in a medication's dosage, restitution of medication authorized but discontinued during the period the order is valid, or the substitution of a medication within the same class.

(i) The classes of psychoactive medications in the order must conform to classes determined by the department.

(j) An order issued under this section may be reauthorized or modified on the petition of a party. The order remains in effect pending action on a petition for reauthorization or modification. For the purpose of this subsection, "modification" means a change of a class of medication authorized in the order.

(k) This section does not apply to a patient who receives services under an order of protective custody under Section 574.021.

(l) For a patient described by Subsection (a-1)(2)(B), an order issued under this section:

(1) authorizes the initiation of any appropriate mental health treatment for the patient awaiting transfer; and

(2) does not constitute authorization to retain the patient in a correctional facility for competency restoration treatment.

(b) An order authorizing the administration of medication regardless of the refusal of the patient is effective pending an appeal of the order.

Sec. 574.109. EFFECT OF ORDER. (a) A person's consent to take a psychoactive medication is not valid and may not be relied on if the person is subject to an order issued under Section 574.106.

Sec. 574.110. EXPIRATION OF ORDER. (a) Except as provided by Subsection (b), an order issued under Section 574.106 expires on the expiration or termination date of the order for temporary or extended mental health services in effect when the order for psychoactive medication is issued.

(f) If the department finds that a private mental hospital or mental health facility is in repeated noncompliance under Subsection (a) but that the noncompliance does not endanger public health and safety, the department may schedule the hospital or facility for probation rather than suspending or revoking the license of the hospital or facility. The department shall provide notice to the hospital or facility of the probation and of the items of noncompliance not later than the 10th day before the date the

Added by Acts 1993, 73rd Leg., ch. 705, Sec. 5.01, eff. Sept. 1, 1993.

Sec. 578.002. USE OF ELECTROCONVULSIVE THERAPY. (a) Electroconvulsive therapy may not be used on a person who is younger than 16 years of age.

(b) Unless the person consents to the use of the therapy in accordance with Section 578.003, electroconvulsive therapy may not be used on:
(1) a person who is 16 years of age or older and who is voluntarily receiving mental health services; or

(2) an involuntary patient who is 16 years of age or older and who has not been adjudicated by an appropriate court of law as incompetent to manage the patient's personal affairs.

(c) Electroconvulsive therapy may not be used on an involuntary patient who is 16 years of age or older and who has been adjudicated incompetent to manage the patient's personal affairs unless the patient's guardian of the person consents to the treatment in accordance with Section 578.003. The decision of the guardian must be based on knowledge of what the patient would desire, if known.

Sec. 578.003. CONSENT TO THERAPY. (a) The board by rule shall adopt a standard written consent form to be used when electroconvulsive therapy is considered. The board by rule shall also prescribe the information that must be contained in the written supplement required under Subsection (c). In addition to the information required under this section, the form must include the information required by the Texas Medical Disclosure Panel for electroconvulsive therapy. In developing the form, the board shall consider recommendations of the panel. Use of the consent form prescribed by the board in the manner prescribed by this section creates a rebuttable presumption that the disclosure requirements of Sections 74.104 and 74.105, Civil Practice and Remedies Code, have been met.

(b) The written consent form must clearly and explicitly state:

(1) the nature and purpose of the procedure;

(2) the nature, degree, duration, and probability of the side effects and significant risks of the treatment commonly known by the medical profession, especially noting the possible degree and duration of memory loss, the possibility of permanent irrevocable memory loss, and the possibility of death;

(3) that there is a division of opinion as to the efficacy of the procedure; and

(4) the probable degree and duration of improvement or remission expected with or without the procedure.

(c) Before a patient receives each electroconvulsive treatment,
the hospital, facility, or physician administering the therapy shall ensure that:

(1) the patient and the patient's guardian of the person, if any, receives a written copy of the consent form that is in the person's primary language, if possible;

(2) the patient and the patient's guardian of the person, if any, receives a written supplement that contains related information that pertains to the particular patient being treated;

(3) the contents of the consent form and the written supplement are explained to the patient and the patient's guardian of the person, if any:

(A) orally, in simple, nontechnical terms in the person's primary language, if possible; or

(B) through the use of a means reasonably calculated to communicate with a hearing impaired or visually impaired person, if applicable;

(4) the patient or the patient's guardian of the person, as appropriate, signs a copy of the consent form stating that the person has read the consent form and the written supplement and understands the information included in the documents; and

(5) the signed copy of the consent form is made a part of the patient's clinical record.

(d) Consent given under this section is not valid unless the person giving the consent understands the information presented and consents voluntarily and without coercion or undue influence.

(e) For a patient 65 years of age or older, before each treatment series begins, the hospital, facility, or physician administering the procedure shall:

(1) ensure that two physicians have signed an appropriate form that states the procedure is medically necessary;

(2) make the form described by Subdivision (1) available to the patient or the patient's guardian of the person; and

(3) inform the patient or the patient's guardian of the person of any known current medical condition that may increase the possibility of injury or death as a result of the treatment.

(b) Revocation of consent is effective immediately.

Sec. 578.005. PHYSICIAN REQUIREMENT. (a) Only a physician may administer electroconvulsive therapy.
(b) A physician may not delegate the act of administering the therapy. A nonphysician who administers electroconvulsive therapy is considered to be practicing medicine in violation of Subtitle B, Title 3, Occupations Code.

Sec. 578.006. REGISTRATION OF EQUIPMENT. (a) A person may not administer electroconvulsive therapy unless the equipment used to administer the therapy is registered with the department.
(b) A mental hospital or facility administering electroconvulsive therapy or a private physician administering the therapy on an outpatient basis must file an application for registration under this section. The applicant must submit the application to the department on a form prescribed by the department.
(c) The application must be accompanied by a nonrefundable application fee. The board shall set the fee in a reasonable amount not to exceed the cost to the department to administer this section.
(d) The application must contain:
(1) the model, manufacturer, and age of each piece of equipment used to administer the therapy; and
(2) any other information required by the department.
(e) The department may conduct an investigation as considered
necessary after receiving the proper application and the required fee.

(f) The board by rule may prohibit the registration and use of equipment of a type, model, or age the board determines is dangerous.

(g) The department may deny, suspend, or revoke a registration if the department determines that the equipment is dangerous. The denial, suspension, or revocation of a registration is a contested case under Chapter 2001, Government Code.

Added by Acts 1993, 73rd Leg., ch. 705, Sec. 5.01, eff. Sept. 1, 1993. Amended by Acts 1995, 74th Leg., ch. 76, Sec. 5.95(49), eff. Sept. 1, 1995.

Sec. 578.007. REPORTS. (a) A mental hospital or facility administering electroconvulsive therapy, psychosurgery, pre-frontal sonic sound treatment, or any other convulsive or coma-producing therapy administered to treat mental illness or a physician administering the therapy on an outpatient basis shall submit to the department quarterly reports relating to the administration of the therapy in the hospital or facility or by the physician.

(b) A report must state for each quarter:

(1) the number of patients who received the therapy, including:

(A) the number of persons voluntarily receiving mental health services who consented to the therapy;

(B) the number of involuntary patients who consented to the therapy; and

(C) the number of involuntary patients for whom a guardian of the person consented to the therapy;

(2) the age, sex, and race of the persons receiving the therapy;

(3) the source of the treatment payment;

(4) the average number of nonelectroconvulsive treatments;

(5) the average number of electroconvulsive treatments administered for each complete series of treatments, but not including maintenance treatments;

(6) the average number of maintenance electroconvulsive treatments administered per month;

(7) the number of fractures, reported memory losses,
incidents of apnea, and cardiac arrests without death;
(8) autopsy findings if death followed within 14 days after
the date of the administration of the therapy; and
(9) any other information required by the department.

Added by Acts 1993, 73rd Leg., ch. 705, Sec. 5.01, eff. Sept. 1,
1993.

Sec. 578.008. USE OF INFORMATION; REPORT. (a) The department
shall use the information received under Sections 578.006 and 578.007
to analyze, audit, and monitor the use of electroconvulsive therapy,
psychosurgery, pre-frontal sonic sound treatment, or any other
convulsive or coma-producing therapy administered to treat mental
illness.

(b) The department shall file annually with the governor and
the presiding officer of each house of the legislature a written
report summarizing by facility the information received under
Sections 578.006 and 578.007. If the therapy is administered by a
private physician on an outpatient basis, the report must include
that information but may not identify the physician. The department
may not directly or indirectly identify in a report issued under this
section a patient who received the therapy.

Sec. 591.002. PURPOSE. (a) It is the public policy of this state that persons with mental retardation have the opportunity to develop to the fullest extent possible their potential for becoming productive members of society.

(b) It is the purpose of this subtitle to provide and assure a continuum of quality services to meet the needs of all persons with
mental retardation in this state.

(c) The state's responsibility to persons with mental retardation does not replace or impede parental rights and responsibilities or terminate the activities of persons, groups, or associations that advocate for and assist persons with mental retardation.

(d) It is desirable to preserve and promote living at home if feasible. If living at home is not possible and placement in a residential facility for persons with mental retardation is necessary, a person must be admitted in accordance with basic due process requirements, giving appropriate consideration to parental desires if possible. The person must be admitted to a facility that provides habilitative training for the person's condition, that fosters the personal development of the person, and that enhances the person's ability to cope with the environment.

Sec. 592.152. ADMINISTRATION OF PSYCHOACTIVE MEDICATION. (a) A person may not administer a psychoactive medication to a client receiving voluntary or involuntary residential care services who refuses the administration unless:

(1) the client is having a medication-related emergency;
(2) the refusing client's representative authorized by law to consent on behalf of the client has consented to the administration;
(3) the administration of the medication regardless of the client's refusal is authorized by an order issued under Section 592.156; or

(b) Consent to the administration of psychoactive medication given by a client or by a person authorized by law to consent on behalf of the client is valid only if:

(1) the consent is given voluntarily and without coercive or undue influence;
(2) the treating physician or a person designated by the physician provides the following information, in a standard format approved by the department, to the client and, if applicable, to the client's representative authorized by law to consent on behalf of the client:

(c) If the treating physician designates another person to provide the information under Subsection (b), then, not later than two working days after that person provides the information, excluding weekends and legal holidays, the physician shall meet with the client and, if appropriate, the client's representative who provided the consent, to review the information and answer any questions.

(d) A client's refusal or attempt to refuse to receive psychoactive medication, whether given verbally or by other indications or means, shall be documented in the client's clinical record.

(e) In prescribing psychoactive medication, a treating physician shall:

(1) prescribe, consistent with clinically appropriate medical care, the medication that has the fewest side effects or the least potential for adverse side effects, unless the class of medication has been demonstrated or justified not to be effective clinically; and

(2) administer the smallest therapeutically acceptable dosages of medication for the client's condition.

(f) If a physician issues an order to administer psychoactive medication to a client without the client's consent because the client is having a medication-related emergency:

(1) the physician shall document in the client's clinical record in specific medical or behavioral terms the necessity of the order and that the physician has evaluated but rejected other
generally accepted, less intrusive forms of treatment, if any; and

(2) treatment of the client with the psychoactive medication shall be provided in the manner, consistent with clinically appropriate medical care, least restrictive of the client's personal liberty.

(2) the client is under an order issued under Section 592.156 authorizing the administration of the medication regardless of the client's refusal; or

(a) A physician who is treating a client may file an application in a probate court or a court with probate jurisdiction on behalf of the state for an order to authorize the administration of a psychoactive medication regardless of the client's refusal if:

(1) the physician believes that the client lacks the capacity to make a decision regarding the administration of the psychoactive medication;

(2) the physician determines that the medication is the proper course of treatment for the client; and

(3) the client has been committed to a residential care
facility under Subchapter C, Chapter 593, or other law or an application for commitment to a residential care facility under Subchapter C, Chapter 593, has been filed for the client.

(b) An application filed under this section must state:

(1) that the physician believes that the client lacks the capacity to make a decision regarding administration of the psychoactive medication and the reasons for that belief;

(2) each medication the physician wants the court to compel the client to take;

(3) whether an application for commitment to a residential care facility under Subchapter C, Chapter 593, has been filed;

(4) whether an order committing the client to a residential care facility has been issued and, if so, under what authority it was issued;

(5) the physician's diagnosis of the client; and

(6) the proposed method for administering the medication and, if the method is not customary, an explanation justifying the departure from the customary methods.

(c) An application filed under this section must be filed separately from an application for commitment to a residential care facility.

(d) The hearing on the application may be held on the same date as a hearing on an application for commitment to a residential care facility under Subchapter C, Chapter 593, but the hearing must be held not later than 30 days after the filing of the application for the order to authorize psychoactive medication. If the hearing is not held on the same date as the application for commitment to a residential care facility under Subchapter C, Chapter 593, and the client is transferred to a residential care facility in another county, the court may transfer the application for an order to authorize psychoactive medication to the county where the client has been transferred.

(e) Subject to the requirement in Subsection (d) that the hearing shall be held not later than 30 days after the filing of the application, the court may grant one continuance on a party's motion and for good cause shown. The court may grant more than one continuance only with the agreement of the parties.

Added by Acts 2013, 83rd Leg., R.S., Ch. 504 (S.B. 34), Sec. 3, eff. September 1, 2013.

(2) to meet with that attorney as soon as is practicable to prepare for the hearing and to discuss any of the client's questions or concerns;

(3) to receive, immediately after the time of the hearing is set, a copy of the application and written notice of the time, place, and date of the hearing;

(4) to be informed, at the time personal notice of the hearing is given, of the client's right to a hearing and right to the assistance of an attorney to prepare for the hearing and to answer any questions or concerns;

(5) to be present at the hearing;

(6) to request from the court an independent expert; and

(7) to be notified orally, at the conclusion of the hearing, of the court's determinations of the client's capacity and best interest.

Sec. 592.156. HEARING AND ORDER AUTHORIZING PSYCHOACTIVE MEDICATION. (a) The court may issue an order authorizing the administration of one or more classes of psychoactive medication to a client who:

(1) has been committed to a residential care facility; or

(2) is in custody awaiting trial in a criminal proceeding and was committed to a residential care facility in the six months preceding a hearing under this section.

(b) The court may issue an order under this section only if the court finds by clear and convincing evidence after the hearing:

(1) that the client lacks the capacity to make a decision regarding the administration of the proposed medication and that treatment with the proposed medication is in the best interest of the
client; or

(2) if the client was committed to a residential care facility by a criminal court with jurisdiction over the client, that treatment with the proposed medication is in the best interest of the client, and either:

(A) the client presents a danger to the client or others in the residential care facility in which the client is being treated as a result of a mental disorder or mental defect as determined under Section 592.157; or

(B) the client:

(i) has remained confined in a correctional facility, as defined by Section 1.07, Penal Code, for a period exceeding 72 hours while awaiting transfer for competency restoration treatment; and

(ii) presents a danger to the client or others in the correctional facility as a result of a mental disorder or mental defect as determined under Section 592.157.

(c) In making the finding that treatment with the proposed medication is in the best interest of the client, the court shall consider:

(1) the client's expressed preferences regarding treatment with psychoactive medication;

(2) the client's religious beliefs;

(3) the risks and benefits, from the perspective of the client, of taking psychoactive medication;

(4) the consequences to the client if the psychoactive medication is not administered;

(5) the prognosis for the client if the client is treated with psychoactive medication;

(6) alternative, less intrusive treatments that are likely to produce the same results as treatment with psychoactive medication; and

(7) less intrusive treatments likely to secure the client's consent to take the psychoactive medication.

(d) A hearing under this subchapter shall be conducted on the record by the probate judge or judge with probate jurisdiction, except as provided by Subsection (e).

(e) A judge may refer a hearing to a magistrate or court-appointed associate judge who has training regarding psychoactive medications. The magistrate or associate judge may effectuate the
notice, set hearing dates, and appoint attorneys as required by this subchapter. A record is not required if the hearing is held by a magistrate or court-appointed associate judge.

(f) A party is entitled to a hearing de novo by the judge if an appeal of the magistrate's or associate judge's report is filed with the court before the fourth day after the date the report is issued. The hearing de novo shall be held not later than the 30th day after the date the application for an order to authorize psychoactive medication was filed.

(g) If a hearing or an appeal of an associate judge's or magistrate's report is to be held in a county court in which the judge is not a licensed attorney, the proposed client or the proposed client's attorney may request that the proceeding be transferred to a court with a judge who is licensed to practice law in this state. The county judge shall transfer the case after receiving the request, and the receiving court shall hear the case as if it had been originally filed in that court.

(h) As soon as practicable after the conclusion of the hearing, the client is entitled to have provided to the client and the client's attorney written notification of the court's determinations under this section. The notification shall include a statement of the evidence on which the court relied and the reasons for the court's determinations.

(i) An order entered under this section shall authorize the administration to a client, regardless of the client's refusal, of one or more classes of psychoactive medications specified in the application and consistent with the client's diagnosis. The order shall permit an increase or decrease in a medication's dosage, restitution of medication authorized but discontinued during the period the order is valid, or the substitution of a medication within the same class.

(j) The classes of psychoactive medications in the order must conform to classes determined by the department.

(k) An order issued under this section may be reauthorized or modified on the petition of a party. The order remains in effect pending action on a petition for reauthorization or modification. For the purpose of this subsection, "modification" means a change of a class of medication authorized in the order.

(l) For a client described by Subsection (b)(2)(B), an order issued under this section:
(1) authorizes the initiation of any appropriate mental health treatment for the patient awaiting transfer; and
(2) does not constitute authorization to retain the client in a correctional facility for competency restoration treatment.

Added by Acts 2013, 83rd Leg., R.S., Ch. 504 (S.B. 34), Sec. 3, eff. September 1, 2013.

(1) an assessment of the client's present mental condition; and
(2) whether the client has inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm to the client's self or to another while in the facility.

Added by Acts 2013, 83rd Leg., R.S., Ch. 504 (S.B. 34), Sec. 3, eff. September 1, 2013.

(b) An order authorizing the administration of medication regardless of the refusal of the client is effective pending an appeal of the order.

Added by Acts 2013, 83rd Leg., R.S., Ch. 504 (S.B. 34), Sec. 3, eff. September 1, 2013.

Sec. 592.159. EFFECT OF ORDER. (a) A person's consent to take a psychoactive medication is not valid and may not be relied on if the person is subject to an order issued under Section 592.156.

(b) The issuance of an order under Section 592.156 is not a
determination or adjudication of mental incompetency and does not limit in any other respect that person's rights as a citizen or the person's property rights or legal capacity.

Added by Acts 2013, 83rd Leg., R.S., Ch. 504 (S.B. 34), Sec. 3, eff. September 1, 2013.

(b) If the relief sought by the proposed resident or the proposed resident's family has not been provided within 30 days, one 30-day extension may be allowed if:
(1) the facility superintendent determines that the relief may be provided in the additional period; and

(a) A proposed resident, if an adult, a parent if the proposed resident is a minor, the guardian of the person, the court, or any other interested person, including a community center or agency that conducted a determination of mental retardation of the proposed resident, may file an application for an interdisciplinary team report and recommendation that the proposed client is in need of long-term placement in a residential care facility.

(b) Except as provided by Subsection (e), the application must be filed with the county clerk in the county in which the proposed resident resides. If the superintendent of a residential care facility files an application for judicial commitment of a voluntary resident, the county in which the facility is located is considered the resident's county of residence.

(c) The county court has original jurisdiction of all judicial proceedings for commitment of a person with mental retardation to residential care facilities.

(d) A person may not be committed to the department for placement in a residential care facility under this subchapter unless a report by an interdisciplinary team recommending the placement has been completed during the six months preceding the date of the court hearing on the application. If the report and recommendations have not been completed or revised during that period, the court shall order the report and recommendations on receiving the application.
(e) An application in which the proposed patient is a child in the custody of the Texas Youth Commission may be filed in the county in which the child's commitment to the commission was ordered.

Sec. 593.043. REPRESENTATION BY COUNSEL; APPOINTMENT OF ATTORNEY. (a) The proposed resident shall be represented by an attorney who shall represent the rights and legal interests of the proposed resident without regard to who initiates the proceedings or pays the attorney's fee.

(b) If the proposed resident cannot afford counsel, the court shall appoint an attorney not later than the 11th day before the date set for the hearing.

(c) An attorney appointed under this section is entitled to a reasonable fee. The county in which the proceeding is brought shall pay the attorney's fee from the county's general fund.

(d) The parent, if the proposed resident is a minor, or the guardian of the person may be represented by legal counsel during the
proceedings.

Sec. 593.044. ORDER FOR PROTECTIVE CUSTODY. (a) The court in which an application for a hearing is filed may order the proposed resident taken into protective custody if the court determines from certificates filed with the court that the proposed resident is:
(1) believed to be a person with mental retardation; and
(2) likely to cause injury to himself or others if not immediately restrained.
(b) The judge of the court may order a health or peace officer to take the proposed resident into custody and transport the person to:
(1) a designated residential care facility in which space is available; or
(2) a place deemed suitable by the county health authority.
(c) If the proposed resident is a voluntary resident, the court for good cause may order the resident's detention in:
(1) the facility to which the resident was voluntarily admitted; or
(2) another suitable location to which the resident may be transported under Subsection (b).

Sec. 593.045. DETENTION IN PROTECTIVE CUSTODY. (a) A person under a protective custody order may be detained for not more than 20 days after the date on which custody begins pending an order of the court.
(b) A person under a protective custody order may not be detained in a nonmedical facility used to detain persons charged with or convicted of a crime, unless an extreme emergency exists and in no case for longer than 24 hours.
(c) The county health authority shall ensure that the detained person receives proper care and medical attention pending removal to a residential care facility.

Sec. 593.046. RELEASE FROM PROTECTIVE CUSTODY. (a) The administrator of a facility in which a person is held in protective custody shall discharge the person not later than the 20th day after the date on which custody begins if the court that issued the protective custody order has not issued further detention orders.

(b) A facility administrator who believes that the person is a danger to himself or others shall immediately notify the court that issued the protective custody order of this belief.

Sec. 593.047. SETTING ON APPLICATION. On the filing of an application the court shall immediately set the earliest practicable date for a hearing to determine the appropriateness of the proposed commitment.

Sec. 593.048. HEARING NOTICE. (a) Not later than the 11th day before the date set for the hearing, a copy of the application, notice of the time and place of the hearing and, if appropriate, the order for the determination of mental retardation and interdisciplinary team report and recommendations shall be served on:

1. the proposed resident or the proposed resident's representative;
2. the parent if the proposed resident is a minor;
3. the guardian of the person; and
4. the department.

(b) The notice must specify in plain and simple language:

2. the provisions of Sections 593.043, 593.047, 593.049, 593.050, and 593.053.

Sec. 593.049. HEARING BEFORE JURY; PROCEDURE. (a) On request of a party to the proceedings, or on the court's own motion, the hearing shall be before a jury.

(b) The Texas Rules of Civil Procedure apply to the selection of the jury, the court's charge to the jury, and all other aspects of the proceedings and trial unless the rules are inconsistent with this subchapter.

Sec. 593.050. CONDUCT OF HEARING. (a) The hearing must be open to the public unless the proposed resident or the resident's representative requests that the hearing be closed and the judge determines that there is good cause to close the hearing.

(b) The proposed resident is entitled to be present throughout the hearing. If the court determines that the presence of the proposed resident would result in harm to the proposed resident, the court may waive the requirement in writing clearly stating the reason for the decision.

(c) The proposed resident is entitled to and must be provided the opportunity to confront and cross-examine each witness.

(d) The Texas Rules of Evidence apply. The results of the determination of mental retardation and the current interdisciplinary team report and recommendations shall be presented in evidence.

(e) The party who filed the application has the burden to prove beyond a reasonable doubt that long-term placement of the proposed resident in a residential care facility is appropriate.

Sec. 593.051. DISMISSAL AFTER HEARING. If long-term placement in a residential care facility is not found to be appropriate, the court shall enter a finding to that effect, dismiss the application, and if appropriate, recommend application for admission to voluntary services under Subchapter B.

Sec. 593.052. ORDER FOR COMMITMENT. (a) A proposed resident may not be committed to a residential care facility unless:

(1) the proposed resident is a person with mental retardation;

(2) evidence is presented showing that because of retardation, the proposed resident:

(A) represents a substantial risk of physical impairment or injury to himself or others; or

(B) is unable to provide for and is not providing for the proposed resident's most basic personal physical needs;

(3) the proposed resident cannot be adequately and appropriately habilitated in an available, less restrictive setting; and

(4) the residential care facility provides habilitative services, care, training, and treatment appropriate to the proposed resident's needs.

(b) If it is determined that the requirements of Subsection (a) have been met and that long-term placement in a residential care facility is appropriate, the court shall commit the proposed resident for care, treatment, and training to a community center or the department when space is available in a residential care facility.

(c) The court shall immediately send a copy of the commitment order to the department or community center.

Sec. 593.053. DECISION. The court in each case shall promptly report in writing the decision and findings of fact.

Sec. 593.054. NOT A JUDGMENT OF INCOMPETENCE. An order for commitment is not an adjudication of mental incompetency.

Sec. 593.055. DESIGNATION OF FACILITY. If placement in a residential facility is necessary, preference shall be given to the facility nearest to the residence of the proposed resident unless:

(1) space in the facility is unavailable;
(2) the proposed resident, parent if the resident is a minor, or guardian of the person requests otherwise; or
(3) there are other compelling reasons.

Sec. 593.056. APPEAL. (a) A party to a commitment proceeding has the right to appeal the judgment to the appropriate court of appeals.

(b) The Texas Rules of Civil Procedure apply to an appeal under this section.

(c) An appeal under this section shall be given a preference setting.

(d) The county court may grant a stay of commitment pending appeal.

SUBCHAPTER D. FEES

Sec. 593.071. APPLICATION OF SUBCHAPTER. This subchapter applies only to a resident admitted to a residential care facility operated by the department.

Sec. 593.072. INABILITY TO PAY. A resident may not be denied residential care because of an inability to pay for the care.

Sec. 593.073. DETERMINATION OF RESIDENTIAL COSTS. The board by rule may determine the cost of support, maintenance, and treatment of a resident.

Sec. 593.074. MAXIMUM FEES. (a) Except as provided by this section, the department may not charge for a resident total fees from all sources that exceed the cost to the state to support, maintain, and treat the resident.

(b) The department may use the projected cost of providing residential services to establish the maximum fee that may be charged to a payer.

(c) The department may establish maximum fees on one or a combination of the following:

(1) a statewide per capita;
(2) an individual facility per capita; or
(3) the type of service provided.

(d) Notwithstanding Subsection (b), the department may establish a fee in excess of the department's projected cost of providing residential services that may be charged to a payer:

(1) who is not an individual; and
(2) whose method of determining the rate of reimbursement to a provider results in the excess.

Sec. 593.075. SLIDING FEE SCHEDULE. (a) The board by rule shall establish a sliding fee schedule for the payment by the resident's parents of the state's total costs for the support, maintenance, and treatment of a resident younger than 18 years of age.

(b) The board shall set the fee according to the parents' net taxable income and ability to pay.

(c) The parents may elect to have their net taxable income determined by their most current financial statement or federal income tax return.

(d) In determining the portion of the costs of the resident's support, maintenance, and treatment that the parents are required to pay, the department shall adjust, when appropriate, the payment required under the fee schedule to allow for consideration of other factors affecting the ability of the parents to pay.
(e) The department shall evaluate and, if necessary, revise the fee schedule at least once every five years.

Sec. 593.076. FEE SCHEDULE FOR DIVORCED PARENTS. (a) If the parents of a resident younger than 18 years of age are divorced, the fee charged each parent for the cost of the resident's support, maintenance, and treatment is determined by that parent's own income.

(b) If the divorced parents' combined fees exceed the maximum fee authorized under the fee schedule, the department shall equitably allocate the maximum fee between the parents in accordance with department rules, but a parent's fee may not exceed the individual fee determined for that parent under Subsection (a).

Sec. 593.077. CHILD SUPPORT PAYMENTS FOR BENEFIT OF RESIDENT. (a) Child support payments for the benefit of a resident paid or owed by a parent under court order are considered the property and estate of the resident and the department may:

(1) be reimbursed for the costs of a resident's support, maintenance, and treatment from those amounts; and

(2) establish a fee based on the child support obligation in addition to other fees authorized by this subchapter.

(b) The department shall credit the amount of child support a parent actually pays for a resident against monthly charges for which the parent is liable, based on ability to pay.

(c) A parent who receives child support payments for a resident is liable for the monthly charges based on the amount of child support payments actually received in addition to the liability of that parent based on ability to pay.

(d) The department may file a motion to modify a court order that establishes a child support obligation for a resident to require payment of the child support directly to the residential care facility in which the resident resides for the resident's support, maintenance, and treatment if:

(1) the resident's parent fails to pay child support as
required by the order; or

(2) the resident's parent who receives child support fails to pay charges based on the amount of child support payments received.

(e) In addition to modification of an order under Subsection (d), the court may order all past due child support for the benefit of a resident paid directly to the resident's residential care facility to the extent that the department is entitled to reimbursement of the resident's charges from the child support obligation.

Sec. 593.078. PAYMENT FOR ADULT RESIDENTS. (a) A parent of a resident who is 18 years of age or older is not required to pay for the resident's support, maintenance, and treatment.

(b) Except as provided by Section 593.081, a resident and the resident's estate are liable for the costs of the resident's support, maintenance, and treatment regardless of the resident's age.

Sec. 593.079. PREVIOUS FEE AGREEMENTS. The unpaid portion of charges for support, maintenance, and treatment due from a parent before January 1, 1978, under agreements made before that date, remain as an obligation under previous law, but only to the extent of parental responsibility prescribed by the department fee schedule.

Sec. 593.080. STATE CLAIMS FOR UNPAID FEES. (a) Unpaid charges accruing after January 1, 1978, and owed by a parent for the support, maintenance, and treatment of a resident are a claim in favor of the state for the cost of support, maintenance, and treatment of the resident and constitute a lien against the parent's property and estate as provided by Section 533.004, but do not constitute a lien against any other estate or property of the resident.
(b) Except as provided by Section 593.081, costs determined under Section 593.073 constitute a claim by the state against the entire estate or property of the resident, including any share the resident may have by gift, descent, or devise in the estate of the resident's parent or any other person.

Sec. 593.081. TRUST EXEMPTION. (a) If the resident is the beneficiary of a trust that has an aggregate principal of $250,000 or less, the corpus or income of the trust for the purposes of this subchapter is not considered to be the property of the resident or the resident's estate, and is not liable for the resident's support, maintenance, and treatment regardless of the resident's age.

(b) To qualify for the exemption provided by Subsection (a), the trust must be created by a written instrument, and a copy of the trust instrument must be provided to the department.

(c) A trustee of the trust shall, on the department's request, provide to the department a current financial statement that shows the value of the trust estate.

(d) The department may petition a district court to order the trustee to provide a current financial statement if the trustee does not provide the statement before the 31st day after the date on which the department makes the request. The court shall hold a hearing on the department's petition not later than the 45th day after the date on which the petition is filed. The court shall order the trustee to provide to the department a current financial statement if the court finds that the trustee has failed to provide the statement.

(e) Failure of the trustee to comply with the court's order is punishable by contempt.

(f) For the purposes of this section, the following are not considered to be trusts and are not entitled to the exemption provided by this section:

(1) a guardianship established under the Texas Probate Code;

(2) a trust established under Chapter 142, Property Code;

(3) a facility custodial account established under Section 551.003;

(4) the provisions of a divorce decree or other court order.
relating to child support obligations;
(5) an administration of a decedent's estate; or
(6) an arrangement in which funds are held in the registry
or by the clerk of a court.

Amended by Acts 1999, 76th Leg., ch. 498, Sec. 1, eff. June 18, 1999.

hearing held by the county court to commit a resident of a department
facility who was committed under a law in force before January 1,
1978, and for whom the due process requirements of this subtitle
require another commitment proceeding.
(b) The commissioners court of a county entitled to reimbursement under this section may file a claim for reimbursement with the comptroller.

Sec. 594.002. LEAVE; FURLOUGH. The superintendent may grant or deny a resident a leave of absence or furlough.

Sec. 594.003. HABEAS CORPUS. This chapter does not alter or limit a resident's right to obtain a writ of habeas corpus.

request for a transfer or discharge, the superintendent shall proceed
with the transfer or discharge.
(e) If an appeal is not filed from a final order denying a

Sec. 594.032. TRANSFER OF COURT-COMMITTED RESIDENT. (a) The superintendent may transfer a resident committed to a residential care facility under Subchapter C, Chapter 593, to a state mental hospital for mental health care if an examination of the resident by a licensed physician indicates symptoms of mental illness to the extent that care, treatment, control, and rehabilitation in a state mental hospital is in the best interest of the resident.

(b) A resident transferred from a residential care facility to a state mental hospital may not remain in the hospital for longer than 30 consecutive days unless the transfer is authorized by a court order under this subchapter.

Sec. 594.033. EVALUATION; COURT ORDER. The hospital administrator of the state mental hospital to which a court-committed resident is transferred shall immediately have an evaluation of the resident's condition performed.

Sec. 594.034. REQUEST FOR TRANSFER ORDER. (b) In support of the request, the hospital administrator shall send two certificates of medical examination for mental illness as described in Section 574.011, stating that the resident is:

(b) The professional may deny access to any portion of a record if the professional determines that release of that portion would be harmful to the patient's physical, mental, or emotional health.

(k) The denial of a patient's access to any portion of a record by the professional or other entity that has possession or control of the record suspends, until the release of that portion of the record, the running of an applicable statute of limitations on a cause of action in which evidence relevant to the cause of action is in that portion of the record.

CHAPTER 612. INTERSTATE COMPACT ON MENTAL HEALTH

Sec. 612.001. EXECUTION OF INTERSTATE COMPACT. This state enters into a compact with all other states legally joining in the compact in substantially the following form:

"INTERSTATE COMPACT ON MENTAL HEALTH

The contracting states solemnly agree that:

"ARTICLE I

The party states find that the proper and expeditious treatment of the mentally ill and mentally deficient can be facilitated by cooperative action, to the benefit of the patients, their families, and society as a whole. Further, the party states find that the necessity of and desirability for furnishing such care and treatment bears no primary relation to the residence or citizenship of the patient but that, on the contrary, the controlling factors of community safety and humanitarianism require that facilities and services be made available for all who are in need of them. Consequently, it is the purpose of this compact and of the party states to provide the necessary legal basis for the institutionalization or other appropriate care and treatment of the
mentally ill and mentally deficient under a system that recognizes the paramount importance of patient welfare and to establish the responsibilities of the party states in terms of such welfare.

"ARTICLE II

"As used in this compact:

"(a) 'Sending state' shall mean a party state from which a patient is transported pursuant to the provisions of the compact or from which it is contemplated that a patient may be so sent.

"(b) 'Receiving state' shall mean a party state to which a patient is transported pursuant to the provisions of the compact or to which it is contemplated that a patient may be so sent.

"(c) 'Institution' shall mean any hospital or other facility maintained by a party state or political subdivision thereof for the care and treatment of mental illness or mental deficiency.

"(d) 'Patient' shall mean any person subject to or eligible as determined by the laws of the sending state, for institutionalization or other care, treatment, or supervision pursuant to the provisions of this compact.

"(e) 'After-care' shall mean care, treatment and services provided a patient, as defined herein, on convalescent status or conditional release.

"(f) 'Mental illness' shall mean mental disease to such extent that a person so afflicted requires care and treatment for his own welfare, or the welfare of others, or of the community.

"(g) 'Mental deficiency' shall mean mental deficiency as defined by appropriate clinical authorities to such extent that a person so afflicted is incapable of managing himself and his affairs, but shall not include mental illness as defined herein.

"(h) 'State' shall mean any state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

"ARTICLE III

"(a) Whenever a person physically present in any party state shall be in need of institutionalization by reason of mental illness or mental deficiency, he shall be eligible for care and treatment in an institution in that state irrespective of his residence, settlement or citizenship qualifications.

"(b) The provisions of paragraph (a) of this article to the contrary notwithstanding, any patient may be transferred to an institution in another state whenever there are factors based upon
clinical determinations indicating that the care and treatment of said patient would be facilitated or improved thereby. Any such institutionalization may be for the entire period of care and treatment or for any portion or portions thereof. The factors referred to in this paragraph shall include the patient's full record with due regard for the location of the patient's family, character of the illness and probable duration thereof, and such other factors as shall be considered appropriate.

"(c) No state shall be obliged to receive any patient pursuant to the provisions of paragraph (b) of this article unless the sending state has given advance notice of its intention to send the patient; furnished all available medical and other pertinent records concerning the patient; given the qualified medical or other appropriate clinical authorities of the receiving state an opportunity to examine the patient if said authorities so wish; and unless the receiving state shall agree to accept the patient.

"(d) In the event that the laws of the receiving state establish a system of priorities for the admission of patients, an interstate patient under this compact shall receive the same priority as a local patient and shall be taken in the same order and at the same time that he would be taken if he were a local patient.

"(e) Pursuant to this compact, the determination as to the suitable place of institutionalization for a patient may be reviewed at any time and such further transfer of the patient may be made as seems likely to be in the best interest of the patient.

"ARTICLE IV

"(a) Whenever, pursuant to the laws of the state in which a patient is physically present, it shall be determined that the patient should receive after-care or supervision, such care or supervision may be provided in a receiving state. If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state shall have reason to believe that after-care in another state would be in the best interest of the patient and would not jeopardize the public safety, they shall request the appropriate authorities in the receiving state to investigate the desirability of affording the patient such after-care in said receiving state, and such investigation shall be made with all reasonable speed. The request for investigation shall be accompanied by complete information concerning the patient's intended place of residence and the identity
of the person in whose charge it is proposed to place the patient, the complete medical history of the patient, and such other documents as may be pertinent.

"(b) If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state and the appropriate authorities in the receiving state find that the best interest of the patient would be served thereby, and if the public safety would not be jeopardized thereby, the patient may receive after-care or supervision in the receiving state.

"(c) In supervising, treating, or caring for a patient on after-care pursuant to the terms of this article, a receiving state shall employ the same standards of visitation, examination, care, and treatment that it employs for similar local patients.

"ARTICLE V

"Whenever a dangerous or potentially dangerous patient escapes from an institution in any party state, that state shall promptly notify all appropriate authorities within and without the jurisdiction of the escape in a manner reasonably calculated to facilitate the speedy apprehension of the escapee. Immediately upon the apprehension and identification of any such dangerous or potentially dangerous patient, he shall be detained in the state where found pending disposition in accordance with law.

"ARTICLE VI

"The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the patient, shall be permitted to transport any patient being moved pursuant to this compact through any and all states party to this compact, without interference.

"ARTICLE VII

"(a) No person shall be deemed a patient of more than one institution at any given time. Completion of transfer of any patient to an institution in a receiving state shall have the effect of making the person a patient of the institution in the receiving state.

"(b) The sending state shall pay all costs of and incidental to the transportation of any patient pursuant to this compact, but any two or more party states may, by making a specific agreement for that purpose, arrange for a different allocation of costs as among themselves.
(c) No provision of this compact shall be construed to alter or affect any internal relationships among the departments, agencies and officers of and in the government of a party state, or between a party state and its subdivisions, as to the payment of costs, or responsibilities therefor.

(d) Nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to any provision of this compact.

(e) Nothing in this compact shall be construed to invalidate any reciprocal agreement between a party state and a non-party state relating to institutionalization, care or treatment of the mentally ill or mentally deficient, or any statutory authority pursuant to which such agreements may be made.

ARTICLE VIII

(a) Nothing in this compact shall be construed to abridge, diminish, or in any way impair the rights, duties, and responsibilities of any patient's guardian on his own behalf or in respect of any patient for whom he may serve, except that where the transfer of any patient to another jurisdiction makes advisable the appointment of a supplemental or substitute guardian, any court of competent jurisdiction in the receiving state may make such supplemental or substitute appointment and the court which appointed the previous guardian shall upon being duly advised of the new appointment, and upon the satisfactory completion of such accounting and other acts as such court may by law require, relieve the previous guardian of power and responsibility to whatever extent shall be appropriate in the circumstances; provided, however, that in the case of any patient having settlement in the sending state, the court of competent jurisdiction in the sending state shall have the sole discretion to relieve a guardian appointed by it or continue his power and responsibility, whichever it shall deem advisable. The court in the receiving state may, in its discretion, confirm or reappoint the person or persons previously serving as guardian in the sending state in lieu of making a supplemental or substitute appointment.

(b) The term guardian as used in paragraph (a) of this article shall include any guardian, trustee, legal committee, conservator, or other person or agency however denominated who is charged by law with
power to act for or responsibility for the person or property of a patient.

"ARTICLE IX

"(a) No provision of this compact except Article V shall apply to any person institutionalized while under sentence in a penal or correctional institution or while subject to trial on a criminal charge, or whose institutionalization is due to the commission of an offense for which, in the absence of mental illness or mental deficiency, said person would be subject to the incarceration in a penal or correctional institution.

"(b) To every extent possible, it shall be the policy of states party to this compact that no patient shall be placed or detained in any prison, jail or lockup, but such patient shall, with all expedition, be taken to a suitable institutional facility for mental illness or mental deficiency.

"ARTICLE X

"(a) Each party state shall appoint a compact administrator who, on behalf of his state, shall act as general coordinator of activities under the compact in his state and who shall receive copies of all reports, correspondence, and other documents relating to any patient processed under the compact by his state either in the capacity of sending or receiving state. The compact administrator or his duly designated representative shall be the official with whom other party states shall deal in any matter relating to the compact or any patient processed thereunder.

"(b) The compact administrators of the respective party states shall have power to promulgate reasonable rules and regulations to carry out more effectively the terms and provisions of this compact.

"ARTICLE XI

"The duly constituted administrative authorities of any two or more party states may enter into supplementary agreements for the provision of any service or facility or for the maintenance of any institution on a joint or cooperative basis whenever the states concerned shall find that such agreements will improve services, facilities, or institutional care and treatment in the fields of mental illness or mental deficiency. No such supplementary agreement shall be construed so as to relieve any party state of any obligation which it otherwise would have under other provisions of this compact.

"ARTICLE XII

"This compact shall enter into full force and effect as to any
state when enacted by it into law and such state shall thereafter be a party thereto with any and all states legally joining therein.

"ARTICLE XIII

"(a) A state party to this compact may withdraw therefrom by enacting a statute repealing the same. Such withdrawal shall take effect one year after notice thereof has been communicated officially and in writing to the governors and compact administrators of all other party states. However, the withdrawal of any state shall not change the status of any patient who has been sent to said state or sent out of said state pursuant to the provisions of the compact.

"(b) Withdrawal from any agreement permitted by Article VII(b) as to costs or from any supplementary agreement made pursuant to Article XI shall be in accordance with the terms of such agreement.

"ARTICLE XIV

"This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters."

Sec. 612.002. COMPACT ADMINISTRATOR. (a) Under the compact, the governor shall appoint the commissioner of mental health and mental retardation as the compact administrator.

(b) The compact administrator may appoint a designee to perform the administrator's duties.

(c) For informational purposes, the compact administrator shall file with the secretary of state notice of compact meetings for publication in the Texas Register.

Sec. 612.005. SUPPLEMENTARY AGREEMENTS. (a) The compact administrator may enter into supplementary agreements with appropriate officials of other states under Articles VII and XI of the compact.

(b) If a supplementary agreement requires or contemplates the use of an institution or facility of this state or requires or contemplates the provision of a service by this state, the supplementary agreement does not take effect until approved by the head of the department or agency:

(1) under whose jurisdiction the institution or facility is operated; or

(2) that will perform the service.

Sec. 612.006. FINANCIAL AGREEMENTS. The compact administrator may make or arrange for the payments necessary to discharge the financial obligations imposed on this state by the compact or by a supplementary agreement entered into under the compact, subject to the approval of the comptroller.

Sec. 612.007. REQUIREMENTS AFFECTING TRANSFERS OF CERTAIN PATIENTS. (a) The compact administrator shall consult with the
immediate family of any person proposed to be transferred.

(b) If a person is proposed to be transferred from an institution in this state to an institution in another state that is a party to the compact, the compact administrator may not take final action without the approval of the district court of the district in which the person resides.

(c) A claimant alleging to be a bona fide friend or a representative of an organization to which the deceased belonged must present a written statement of the relationship under which the claimant qualifies as a bona fide friend or organization representative.

(d) For purposes of this section, a bona fide friend means a person who is like one of the family, and does not include:

(1) an ordinary acquaintance;

(2) an officer, employee, or representative of the state, of a political subdivision, or of an institution having charge of a body not claimed for burial or a body required to be buried at public expense;

the death. If the person is not able to find a relative, the person
shall file with the county clerk an affidavit stating that the person
has made a diligent inquiry to find a relative and stating the
inquiry the person made.

(c) A body that is not claimed for burial within 48 hours after
a relative receives notification shall be delivered as soon as
possible to the board or the board's representative.

(d) A relative of the deceased may claim the body within 60
days after the body has been delivered to an institution or other
entity authorized to receive the body. The body shall be released
without charge.

Sec. 691.026. BODY OF TRAVELER. If an unclaimed body is the
body of a traveler who died suddenly, the board shall direct the
institution receiving the body to retain the body for six months for
purposes of identification.

Sec. 691.027. AUTOPSY. Only the board may grant permission to
perform an autopsy on an unclaimed body. The board may grant
permission after receiving a specific request for an autopsy that

adult living in this state who is of sound mind may donate his body
by will or other written instrument to the board, a medical or dental

(b) In making the distribution, the board shall give priority to the schools and colleges that need bodies for lectures and demonstrations.

(c) If the board has remaining bodies, the board or the board's representative shall distribute or redistribute those bodies to the schools and colleges proportionately and equitably according to the number of students in each school or college receiving instruction or demonstration in normal or morbid anatomy and operative surgery. The dean of each school or college shall certify that number to the board when required by the board.

(d) The board may transport a body or anatomical specimen to an authorized recipient in another state if the board determines that the supply of bodies or anatomical specimens in this state exceeds the need for bodies or anatomical specimens in this state and if:

(1) the deceased donated his body in compliance with
Section 691.028 and at the time of the donation authorized the board to transport the body outside this state; or

(b) The board may employ a public carrier to transport bodies or anatomical specimens received or distributed by the board.

(c) Each body or anatomical specimen shall be carefully deposited and transported with the least possible public display.

(d) A person or institution who sends a body or anatomical specimen under this chapter shall keep on permanent file a description of the body or anatomical specimen that includes the deceased's name, if known, color, sex, age, place and supposed cause of death, and any other information available for identification of the body or anatomical specimen, such as the existence of scars or deformities.
(e) The sender shall mail or otherwise safely convey to the person or institution to whom the body is sent a copy of the description required by Subsection (d). The person or institution receiving the body or anatomical specimen shall immediately and safely transmit to the sender a receipt containing the full terms of the description furnished by the sender.

(f) The sender and receiver of each body or anatomical specimen shall file the records required under this section in accordance with board rules so that the board or a district or county attorney may inspect the records at any time.

Sec. 691.032. COSTS OF DISTRIBUTION. A person or institution receiving a body or anatomical specimen under this chapter shall pay in a manner specified by the board, or as otherwise agreed on, all costs incurred in distributing the body or anatomical specimen so that the state, a county, a municipality, or an officer, employee, or representative of the state, a county, or a municipality does not incur any expense.

Sec. 691.033. USE OF BODIES AND ANATOMICAL SPECIMENS. (a) To further medical science, a school, college, or person designated by the board may dissect, operate on, examine, and experiment on a body or anatomical specimen distributed under this chapter.

(b) A school, college, or person shall keep a permanent record of each body or anatomical specimen received from the board or the board's representative. The record must be sufficient to identify the body or anatomical specimen and may be inspected by the board or the board's representative.

(c) A law relating to the prevention of mutilation of a body does not apply to a dissection, operation, examination, or experiment
performed under this section.

(d) To aid prosecutions under Section 42.08, Penal Code, the board shall adopt rules that clearly state the activities that are authorized by the board in relation to the dissection of a body.

Sec. 691.034. REGULATION OF PERSONS AND INSTITUTIONS USING BODIES AND ANATOMICAL SPECIMENS. (a) The board shall inspect and may approve institutions for the receipt and use of bodies and anatomical specimens under this chapter.

(b) The board may investigate a person or institution if the board has reason to believe that the person or institution has improperly used a body or anatomical specimen.

(c) The board may suspend or revoke a person's or institution's authorization to receive and dissect bodies or anatomical specimens if the board determines that the person or institution has improperly used a body or anatomical specimen.

(d) A person or institution is entitled to a hearing before the board or a hearing examiner appointed by the board before the board may revoke the person's or institution's authorization to receive and dissect bodies or anatomical specimens. The board shall make all final decisions to suspend or revoke an authorization.

Sec. 691.035. CRIMINAL PENALTY. (a) A person commits an offense if the person has a duty imposed under this chapter and refuses, neglects, or omits to perform the duty as required by this chapter.

Sec. 692.003. MANNER OF EXECUTING GIFT OF OWN BODY.

(d) A gift made by a document other than a will is effective on the death of the donor. The document may be a card designed to be carried by the donor or another record signed by the donor or other person making the gift. A statement or symbol in an online donor registry and authorized by the donor indicating the donor has made an anatomical gift may also serve as a document making a gift. To be effective, the document must be signed by the donor in the presence of two witnesses except as otherwise provided by Subchapter Q, Chapter 521, Transportation Code, this subsection, or other law. If the donor cannot sign the document, a person may sign the document for the donor at the donor's direction and in the presence of the donor and two witnesses. The witnesses to the signing of a document under this subsection must sign the document in the presence of the donor. Delivery of the document during the donor's lifetime is not necessary to make the gift valid. An online donation registration does not require the consent of another person or require two witnesses. The online registration constitutes a legal document under this chapter and remains binding after the donor's death.

(b) A donor's revocation of an anatomical gift of the donor's body or part under Section 692A.006 is not a refusal and does not bar another person specified in Section 692A.004 or Section 692A.009 from making an anatomical gift of the donor's body or part under Section 692A.005 or Section 692A.010.

(c) If a person other than the donor makes an unrevoked

(d) A revocation of an anatomical gift of a donor's body or part under Section 692A.006 by a person other than the donor does not bar another person from making an anatomical gift of the body or part under Section 692A.005 or Section 692A.010.

(e) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under Section 692A.004, an anatomical gift of a part is neither a refusal to give another part nor a limitation on the making of an anatomical gift of another part at a later time by the donor or another person.

(f) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under Section 692A.004, an anatomical gift of a part for one or more of the purposes set forth in Section 692A.004 is not a limitation on the making of an anatomical gift of the part for any of the other purposes by the donor or any other person under Section 692A.005 or Section 692A.010.

(g) If a donor who is an unemancipated minor dies, a parent of the donor who is reasonably available may revoke or amend an anatomical gift of the donor's body or part.

   (B) a private or independent institution of higher education as defined by Section 61.003, Education Code; or
6. the Anatomical Board of the State of Texas.

(b) Except for donations described by Subsections (a)(1) through (5), the Anatomical Board of the State of Texas shall be the donee of gifts of bodies or parts of bodies made for the purpose of education or research that are subject to distribution by the board.
under Chapter 691.

(c) A forensic science program that receives a donation under Subsection (a)(5) must submit a report to the Anatomical Board of the State of Texas on a quarterly basis that lists:

(1) the number of bodies or parts of bodies that the program received; and

(2) the method in which the program used the bodies or parts of bodies for education or research.

(d) If an anatomical gift to an individual under Subsection (a)(3) cannot be transplanted into the individual, the part passes in accordance with Subsection (i) in the absence of an express, contrary indication by the person making the anatomical gift.

(e) If an anatomical gift of one or more specific parts or of all parts is made in a document of gift that does not name a person described in Subsection (a) but identifies the purpose for which an anatomical gift may be used, the following rules apply:

(1) if the part is an eye and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate eye bank;

(2) if the part is tissue and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate tissue bank;

(3) if the part is an organ and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate organ procurement organization as custodian of the organ; and

(4) if the part is an organ, an eye, or tissue and the gift is for the purpose of research or education, the gift passes to the appropriate procurement organization.

(f) For the purpose of Subsection (e), if there is more than one purpose of an anatomical gift set forth in the document of gift but the purposes are not set forth in any priority, the gift must be used for transplantation or therapy, if suitable. If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

(g) If an anatomical gift of one or more specific parts is made in a document of gift that does not name a person described in Subsection (a) and does not identify the purpose of the gift, the gift may be used only for transplantation or therapy, and the gift passes in accordance with Subsection (i).

(h) If a document of gift specifies only a general intent to
make an anatomical gift by words such as "donor," "organ donor," or "body donor," or by a symbol or statement of similar import, the gift may be used only for transplantation or therapy, and the gift passes in accordance with Subsection (i).

(i) For purposes of Subsections (d), (g), and (h), the following rules apply:

(1) if the part is an eye, the gift passes to the appropriate eye bank;

(2) if the part is tissue, the gift passes to the appropriate tissue bank; and

(3) if the part is an organ, the gift passes to the appropriate organ procurement organization as custodian of the organ.

(j) An anatomical gift of an organ for transplantation or therapy, other than an anatomical gift under Subsection (a)(3), passes to the organ procurement organization as custodian of the organ.

(k) If an anatomical gift does not pass pursuant to Subsections (a) through (j) or the decedent's body or part is not used for transplantation, therapy, research, or education, custody of the body or part passes to the person under obligation to dispose of the body or part.

(l) A person may not accept an anatomical gift if the person knows that the gift was not effectively made under Section 692A.005 or Section 692A.010 or if the person knows that the decedent made a refusal under Section 692A.007 that was not revoked. For purposes of this subsection, if a person knows that an anatomical gift was made on a document of gift, the person is deemed to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.

(m) Except as otherwise provided in Subsection (a)(3), nothing in this chapter affects the allocation of organs for transplantation or therapy.

(n) A donee may accept or reject a gift.

Sec. 692A.012. SEARCH AND NOTIFICATION. The donor card of a person who is involved in an accident or other trauma shall accompany
the person to the hospital or other health care facility. The driver's license or personal identification certificate indicating an affirmative statement of gift of a person who is involved in an accident or other trauma shall accompany the person to the hospital or health care facility if the person does not have a donor card.

Added by Acts 2009, 81st Leg., R.S., Ch. 186 (H.B. 2027), Sec. 1, eff. September 1, 2009.

Sec. 692A.013. DELIVERY OF DOCUMENT OF GIFT NOT REQUIRED; RIGHT TO EXAMINE. (a) A document of gift need not be delivered during the donor's lifetime to be effective.

(b) On or after an individual's death, a person in possession of a document of gift or a refusal to make an anatomical gift with respect to the individual shall allow examination and copying of the document of gift or refusal by a person authorized to make or object to the making of an anatomical gift with respect to the individual or by a person to which the gift could pass under Section 692A.011.

Added by Acts 2009, 81st Leg., R.S., Ch. 186 (H.B. 2027), Sec. 1, eff. September 1, 2009.

Sec. 692A.014. RIGHTS AND DUTIES OF PROCUREMENT ORGANIZATION AND OTHERS. (a) When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of the Department of Public Safety and any donor registry that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

(b) A procurement organization must be allowed reasonable access to information in the records of the Department of Public Safety to ascertain whether an individual at or near death is a donor.

(c) When a hospital refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a part that is or could be the subject of an anatomical gift for transplantation, therapy, research, or education from a donor or a prospective donor. During the examination period, measures necessary
to ensure the medical suitability of the part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

(d) Unless prohibited by law other than this chapter, at any time after a donor's death, the person to which a part passes under Section 692A.011 may conduct any reasonable examination necessary to ensure the medical suitability of the body or part for its intended purpose.

(e) Unless prohibited by law other than this chapter, an examination under Subsection (c) or (d) may include an examination of all medical and dental records of the donor or prospective donor.

(f) On the death of a minor who was a donor or had signed a refusal, unless a procurement organization knows the minor is emancipated, the procurement organization shall conduct a reasonable search for the parents of the minor and provide the parents with an opportunity to revoke or amend the anatomical gift or revoke the refusal.

(g) On referral by a hospital under Subsection (a), a procurement organization shall make a reasonable search for any person listed in Section 692A.009 having priority to make an anatomical gift on behalf of a prospective donor. If a procurement organization receives information that an anatomical gift to any other person was made, amended, or revoked, it shall promptly advise the other person of all relevant information.

(h) Subject to Sections 692A.011(k) and 693.002, the rights of the person to which a part passes under Section 692A.011 are superior to the rights of all others with respect to the part. The person may accept or reject an anatomical gift wholly or partly. Subject to the terms of the document of gift and this chapter, a person that accepts an anatomical gift of an entire body may allow embalming, burial, or cremation, and use of remains in a funeral service. If the gift is of a part, the person to which the part passes under Section 692A.011, on the death of the donor and before embalming, burial, or cremation, shall cause the part to be removed without unnecessary mutilation.

(i) The physician who attends the decedent at death or the physician who determines the time of the decedent's death may not participate in the procedures for removing or transplanting a part from the decedent.

(j) A physician or technician may remove a donated part from
the body of a donor that the physician or technician is qualified to remove.

Added by Acts 2009, 81st Leg., R.S., Ch. 186 (H.B. 2027), Sec. 1, eff. September 1, 2009.

Sec. 692A.015. COORDINATION OF PROCUREMENT AND USE; HOSPITAL PROCEDURES. Each hospital in this state shall enter into agreements or affiliations with procurement organizations for coordination of procurement and use of anatomical gifts. Each hospital must have a protocol that ensures its maintenance of an effective donation system in order to maximize organ, tissue, and eye donation. The protocol must:

(1) be available to the public during the hospital's normal business hours;

(2) establish a procedure for the timely notification to an organ procurement organization of individuals whose death is imminent or who have died in the hospital;

(3) establish procedures to ensure potential donors are declared dead by an appropriate practitioner in an acceptable time frame;

(4) establish procedures to ensure that hospital staff and organ procurement organization staff maintain appropriate medical treatment of potential donors while necessary testing and placement of potential donated organs, tissues, and eyes take place;

(5) ensure that all families are provided the opportunity to donate organs, tissues, and eyes, including vascular organs procured from asystolic donors;

(6) provide that the hospital use appropriately trained persons from an organ procurement organization, tissue bank, or eye bank to make inquiries relating to donations;

(7) provide for documentation of the inquiry and of its disposition in the decedent's medical records;

(8) require an organ procurement organization, tissue bank, or eye bank that makes inquiries relating to donations to develop a protocol for making those inquiries;

(9) encourage sensitivity to families' beliefs and circumstances in all discussions relating to the donations;

(10) provide that the organ procurement organization
determines medical suitability for organ donation and, in the absence of alternative arrangements by the hospital, the organ procurement organization determines medical suitability for tissue and eye donation, using the definition of potential tissue and eye donor and the notification protocol developed in consultation with the tissue and eye banks identified by the hospital for this purpose;

(11) ensure that the hospital works cooperatively with the designated organ procurement organization, tissue bank, and eye bank in educating staff on donation issues;

(12) ensure that the hospital works with the designated organ procurement organization, tissue bank, and eye bank in reviewing death records; and

(13) provide for monitoring of donation system effectiveness, including rates of donation, protocols, and policies, as part of the hospital's quality improvement program.

Added by Acts 2009, 81st Leg., R.S., Ch. 186 (H.B. 2027), Sec. 1, eff. September 1, 2009.

Sec. 692A.016. SALE OR PURCHASE OF PARTS PROHIBITED. (a) Except as otherwise provided in Subsection (b), a person commits an offense if the person for valuable consideration knowingly purchases or sells a part for transplantation or therapy if removal of a part from an individual is intended to occur after the individual's death. An offense under this subsection is a Class A misdemeanor.

(b) A person may charge a reasonable amount for the removal, processing, preservation, quality control, storage, transportation, implantation, or disposal of a part.

(c) If conduct that constitutes an offense under this section also constitutes an offense under other law, the actor may be prosecuted under this section, the other law, or both this section and the other law.

Added by Acts 2009, 81st Leg., R.S., Ch. 186 (H.B. 2027), Sec. 1, eff. September 1, 2009.

Sec. 692A.017. OTHER PROHIBITED ACTS. (a) A person commits an offense if the person, in order to obtain a financial gain, intentionally falsifies, forges, conceals, defaces, or obliterates a
document of gift, an amendment or revocation of a document of gift, or a refusal. An offense under this section is a Class A misdemeanor.

(b) If conduct that constitutes an offense under this section also constitutes an offense under other law, the actor may be prosecuted under this section, the other law, or both this section and the other law.

Sec. 692A.018. IMMUNITY. (a) A person who acts in good faith in accordance with this chapter is not liable for civil damages or subject to criminal prosecution for the person's action if the prerequisites for an anatomical gift are met under the laws applicable at the time and place the gift is made.

(b) A person that acts in accordance with this chapter or with the applicable anatomical gift law of another state, or attempts in good faith to do so, is not liable for the act in a civil action, criminal prosecution, or administrative proceeding.

(c) A person who acts in good faith in accordance with this chapter is not liable as a result of the action except in the case of an act or omission of the person that is intentional, wilfully or wantonly negligent, or done with conscious indifference or reckless disregard. For purposes of this subsection, "good faith" in determining the appropriate person authorized to make a donation under Section 692A.009 means making a reasonable effort to locate and contact the member or members of the highest priority class who are reasonably available at or near the time of death.

(d) Neither a person making an anatomical gift nor the donor's estate is liable for any injury or damage that results from the making or use of the gift.

(e) In determining whether an anatomical gift has been made, amended, or revoked under this chapter, a person may rely on representations of an individual listed in Section 692A.009(a)(2), (3), (4), (5), (6), (7), or (8) relating to the individual's relationship to the donor or prospective donor unless the person knows that the representation is untrue.

Sec. 692A.019. LAW GOVERNING VALIDITY; CHOICE OF LAW AS TO EXECUTION OF DOCUMENT OF GIFT; PRESUMPTION OF VALIDITY. (a) A document of gift is valid if executed in accordance with:

(1) this chapter;

(2) the laws of the state or country where it was executed; or

(3) the laws of the state or country where the person making the anatomical gift was domiciled, had a place of residence, or was a national at the time the document of gift was executed.

(b) If a document of gift is valid under this section, the law of this state governs the interpretation of the document of gift.

(c) A person may presume that a document of gift or amendment of an anatomical gift is valid unless that person knows that it was not validly executed or was revoked.

(4) protect the confidentiality and privacy of the individuals providing information to the Internet-based registry, regardless of the manner in which the information is provided.

(f) Except as otherwise provided by Subsection (e)(3) or this subsection, the Department of Public Safety, the nonprofit organization administering the registry, or a procurement organization may not sell, rent, or otherwise share any information provided to the Internet-based registry. A procurement organization may share any information provided to the registry with an organ procurement organization or a health care provider or facility providing medical care to a potential donor as necessary to properly identify an individual at the time of donation.

(g) The Department of Public Safety, the nonprofit organization administering the registry, or the procurement organizations may not use any demographic or specific data provided to the Internet-based registry for any fund-raising activities. Data may only be transmitted from the selected organization to procurement organizations through electronic and telephonic methods using secure, encrypted technology to preserve the integrity of the data and the privacy of the individuals providing information.

(h) In each office authorized to issue driver's licenses or personal identification certificates, the Department of Public Safety shall make available educational materials developed by the nonprofit organization administering the registry.

(i) The Glenda Dawson Donate Life-Texas Registry fund is created as a trust fund outside the state treasury to be held by the comptroller and administered by the Department of Public Safety as trustee on behalf of the statewide donor registry maintained for the benefit of the citizens of this state. The fund is composed of money

(2) designing and distributing educational materials for prospective donors as required under this section; and

(3) providing education under this chapter.

(j) Repealed by Acts 2013, 83rd Leg., R.S., Ch. 121, Sec. 6(a), eff. May 18, 2013.

(k) To the extent funds are available and as part of the donor registry program, the nonprofit organization administering the registry may educate residents about anatomical gifts. The education provided under this section shall include information about:

(1) the laws governing anatomical gifts, including Subchapter Q, Chapter 521, Transportation Code, Chapter 693, and this chapter;

(2) the procedures for becoming an organ, eye, or tissue donor or donee; and

(3) the benefits of organ, eye, or tissue donation.

(l) Repealed by Acts 2013, 83rd Leg., R.S., Ch. 121, Sec. 6(a), eff. May 18, 2013.

(m) The nonprofit organization administering the registry may:

(1) implement a training program for all appropriate Department of Public Safety and Texas Department of Transportation employees on the benefits of organ, tissue, and eye donation and the procedures for individuals to be added to the Internet-based registry; and

(2) conduct the training described by Subdivision (1) on an ongoing basis for new employees.

(n) The nonprofit organization administering the registry may develop a program to educate health care providers and attorneys in this state about anatomical gifts.

(o) The nonprofit organization administering the registry shall encourage:

(1) attorneys to provide organ donation information to clients seeking advice for end-of-life decisions;
(2) medical and nursing schools in this state to include mandatory organ donation education in the schools' curricula; and

(3) medical schools in this state to require a physician in a neurology or neurosurgery residency program to complete an advanced course in organ donation education.

(p) The nonprofit organization administering the registry may not use the registry to solicit voluntary donations of money from a registrant.

(q) Except as provided by Subsection (p), the nonprofit organization administering the registry may accept voluntary donations of money and perform fund-raising on behalf of the registry for the purpose of supporting registering donors.

Sec. 692A.021. EFFECT OF ANATOMICALLY GIFT ON ADVANCE DIRECTIVE.
(a) In this section:

(1) "Advance directive" means a medical power of attorney or a record signed or authorized by a prospective donor containing the prospective donor's direction concerning a health-care decision for the prospective donor.

(2) "Declaration" means a record signed by a prospective donor specifying the circumstances under which a life support system may be withheld or withdrawn from the prospective donor.

(3) "Health-care decision" means any decision made regarding the health care of the prospective donor.

(b) If a prospective donor has a declaration or advance directive and the terms of the declaration or directive and the express or implied terms of a potential anatomical gift are in conflict with regard to the administration of measures necessary to ensure the medical suitability of a part for transplantation or
therapy, the prospective donor's attending physician and prospective
donor shall confer to resolve the conflict. If the prospective donor
is incapable of resolving the conflict, an agent acting under the
prospective donor's declaration or directive, or, if the agent is not
reasonably available, another person authorized by law other than
this chapter to make health-care decisions on behalf of the
prospective donor, shall act on the prospective donor's behalf to
resolve the conflict. The conflict must be resolved as expeditiously
as possible. Information relevant to the resolution of the conflict
may be obtained from the appropriate procurement organization and any
other person authorized to make an anatomical gift for the
prospective donor under Section 692A.009. Before resolution of the
conflict, measures necessary to ensure the medical suitability of the
part may not be withheld or withdrawn from the prospective donor.

(c) If the conflict cannot be resolved, an expedited review of
the matter must be initiated by an ethics or medical committee of the
appropriate health care facility.

CHAPTER 693. REMOVAL OF BODY PARTS, BODY TISSUE, AND CORNEAL TISSUE
SUBCHAPTER A. REMOVAL OF BODY PARTS OR TISSUE

Sec. 693.001. DEFINITION. In this subchapter, "visceral organ" means the heart, kidney, liver, or other organ or tissue that requires a patient support system to maintain the viability of the organ or tissue.

Sec. 693.002. REMOVAL OF BODY PART OR TISSUE FROM DECEDENT WHO DIED UNDER CIRCUMSTANCES REQUIRING AN INQUEST. (a) (1) On a request from an organ procurement organization, as defined by Section 692A.002, the medical examiner, justice of the peace, county judge, or physician designated by the justice of the peace or county judge may permit the removal of organs from a decedent who died under circumstances requiring an inquest by the medical examiner, justice of the peace, or county judge if consent is obtained pursuant to Sections 692A.005 through 692A.010 or Section 693.003.

(2) If no autopsy is required, the organs to be transplanted shall be released in a timely manner to the organ procurement organization, as defined by Section 692A.002, for removal and transplantation.

(3) If an autopsy is required and the medical examiner, justice of the peace, county judge, or designated physician determines that the removal of the organs will not interfere with the subsequent course of an investigation or autopsy, the organs shall be released in a timely manner for removal and transplantation. The autopsy will be performed in a timely manner following the removal of the organs.

(4) If the medical examiner is considering withholding one or more organs of a potential donor for any reason, the medical examiner shall be present during the removal of the organs. In such case, the medical examiner may request a biopsy of those organs or deny removal of the anatomical gift. If the medical examiner denies removal of the anatomical gift, the medical examiner shall explain in writing the reasons for the denial. The medical examiner shall
provide the explanation to:

(A) the organ procurement organization; and
(B) any person listed in Section 692A.009 who consented to the removal.

(5) If the autopsy is not being performed by a medical examiner and one or more organs may be withheld, the justice of the peace, county judge, or designated physician shall be present during the removal of the organs and may request the biopsy or deny removal of the anatomical gift. If removal of the anatomical gift is denied, the justice of the peace, county judge, or physician shall provide the written explanation required by Subdivisions (4)(A) and (B).

(6) If, in performing the duties required by this subsection, the medical examiner or, in those cases in which an autopsy is not performed by a medical examiner, the justice of the peace, county judge, or designated physician is required to be present at the hospital to examine the decedent prior to removal of the organs or during the procedure to remove the organs, the qualified organ procurement organization shall on request reimburse the county or the entity designated by the county for the actual costs incurred in performing such duties, not to exceed $1,000. Such reimbursements shall be deposited in the general fund of the county. The payment shall be applied to the additional costs incurred by the office of the medical examiner, justice of the peace, or county judge in performing such duties, including the cost of providing coverage beyond regular business hours. The payment shall be used to facilitate the timely procurement of organs in a manner consistent with the preservation of the organs for the purposes of transplantation.

(7) At the request of the medical examiner or, in those cases in which an autopsy is not performed by a medical examiner, the justice of the peace, county judge, or designated physician, the health care professional removing organs from a decedent who died under circumstances requiring an inquest shall file with the medical examiner, justice of the peace, or county judge a report detailing the condition of the organs removed and their relationship, if any, to the cause of death.

(b) On a request from a tissue bank, as defined by Section 692A.002, the medical examiner may permit the removal of tissue believed to be clinically usable for transplants or other therapy or treatment from a decedent who died under circumstances requiring an
inquest if consent is obtained pursuant to Sections 692A.005 through 692A.010 or Section 693.003 or, if consent is not required by those sections, no objection by a person listed in Section 692A.009 is known by the medical examiner. If the medical examiner denies removal of the tissue, the medical examiner shall explain in writing the reasons for the denial. The medical examiner shall provide the explanation to:

(1)  the tissue bank;  and
(2)  the person listed in Section 692A.009 who consented to the removal.

(c)  If the autopsy is not being performed by a medical examiner, the justice of the peace, county judge, or designated physician may permit the removal of tissue in the same manner as a medical examiner under Subsection (b). If removal of the anatomical gift is denied, the justice of the peace, county judge, or physician shall provide the written explanation required by Subsections (b)(1) and (2).

   Acts 2009, 81st Leg., R.S., Ch. 186 (H.B. 2027), Sec. 5, eff. September 1, 2009.

Sec. 693.003.  CONSENT NOT REQUIRED IN CERTAIN CIRCUMSTANCES. If a person listed in Section 692A.009 cannot be identified and contacted within four hours after death is pronounced and the county court determines that no reasonable likelihood exists that a person can be identified and contacted during the four-hour period, the county court may permit the removal of a nonvisceral organ or tissue.

In a civil action brought by a person listed in Section 692A.009 who did not object before the removal of tissue or a body part specified by Section 693.002, a medical examiner, justice of the peace, county judge, medical facility, physician acting on permission of a medical examiner, justice of the peace, or county judge, or person assisting a physician is not liable for damages on a theory of civil recovery based on a contention that the plaintiff's consent was required before the body part or tissue could be removed.

Sec. 693.006. REMOVAL OF CORNEAL TISSUE. On a request from an eye bank, as defined in Section 692A.002, the medical examiner, justice of the peace, county judge, or physician designated by the justice of the peace or county judge may permit the removal of corneal tissue subject to the same provisions that apply to removal of a visceral organ on the request of a procurement organization under this subchapter. The provisions of Chapter 692A relating to immunity and consent apply to the removal of the corneal tissue.

Sec. 712.008. RULES. (a) The Finance Commission of Texas may adopt rules to enforce and administer this chapter, including rules establishing fees to defray the costs of enforcing and administering this chapter.

(b) The Finance Commission of Texas shall adopt rules establishing reasonable standards for:

(1) timely placement of burial markers or monuments in a perpetual care cemetery; and

(2) timely response to consumer complaints made to a corporation that operates a perpetual care cemetery.

Sec. 712.009. LIMITATIONS ON BURIALS; DAMAGES. (a) The Finance Commission of Texas shall adopt rules to administer and enforce this section.

(b) An individual, corporation, partnership, firm, trust, or association that operates or owns a perpetual care cemetery may not inter the remains of an individual who may have caused the death of another person if:

(1) the victim is interred in that cemetery; and

(2) the person having the right to control the disposition of the victim's remains under Section 711.002(a) gives written notice to the cemetery requesting that the individual not be interred in that cemetery if:

(A) the individual was convicted under Section 19.02, 19.03, 19.05, or 49.08, Penal Code, for causing the death of the victim, or convicted under a similar statute of another state; or

(B) the individual was identified as causing the death of the victim, in violation of a provision described by Paragraph (A), by the medical examiner or law enforcement agency having jurisdiction over the offense, and the individual dies before being convicted of the offense.

(c) An individual, corporation, partnership, firm, trust, or association that violates Subsection (b) is liable to the person
having the right to control the disposition of the victim's remains under Section 711.002(a) for:

(1) any actual damages incurred;
(2) punitive damages not to exceed $10,000; and
(3) reasonable attorney's fees and court costs incurred in an effort to enforce compliance with Subsection (b).

(d) Damages under Subsection (c) may not be assessed if the individual, corporation, partnership, firm, trust, or association that operates the cemetery proves by a preponderance of the evidence that:

(1) the cemetery is the only cemetery serving the municipality or county in which the victim and individual causing the victim's death lived; and
(2) the bodies of the victim and individual causing the victim's death were placed as far apart as possible in, or in different parts of, the cemetery.

(e) An individual, corporation, partnership, firm, trust, or association operating or owning a perpetual care cemetery and barred from interring remains of an individual under this section may not be held liable for damages by a person having the right to control the disposition of the individual's remains under Section 711.002(a), including damages for failure to provide for interment under a contract executed before the delivery of the written notice under Subsection (b)(2).

(f) A notice under Subsection (b)(2) expires seven years after the date the notice is delivered. A new notice may be delivered on the expiration of each previous notice.

SUBCHAPTER B. PERPETUAL CARE TRUST FUND

Sec. 712.021. ESTABLISHMENT AND PURPOSES OF FUND. (a) A corporation that operates a perpetual care cemetery in this state shall have a fund established with a trust company or a bank with trust powers that is located in this state. The trust company or bank may not have more than one director who is also a director of the corporation.

(b) The principal of the fund may not be reduced voluntarily, and it must remain inviolable. The trustee shall maintain the
principal of the fund separate from all operating funds of the corporation.

(c) In establishing a fund, the corporation may adopt plans for the general care, maintenance, and embellishment of its perpetual care cemetery.

(d) The fund and the trustee are governed by the Texas Trust Code (Section 111.001 et seq., Property Code).

(e) A corporation that establishes a fund may receive and hold for the fund and as a part of the fund or as an incident to the fund any property contributed to the fund.

(f) The fund and contributions to the fund are for charitable purposes. The perpetual care financed by the fund is:

(1) the discharge of a duty due from the corporation to persons interred and to be interred in its perpetual care cemetery; and

(2) for the benefit and protection of the public by preserving and keeping the perpetual care cemetery from becoming a place of disorder, reproach, and desolation in the community in which the perpetual care cemetery is located.

(g) The trustors of two or more perpetual care trust funds may establish a common trust fund in which deposits required by this chapter are made, provided that separate records of principal and income are maintained for each perpetual care cemetery for the benefit of which the common trust fund is established, and further provided that the income attributable to each perpetual care cemetery is used only for the perpetual care of that cemetery.

Sec. 712.022. OPERATION OF PERPETUAL CARE CEMETERY. A corporation authorized by law to operate a perpetual care cemetery but not doing so may do so if the corporation:

(1) complies with the requirements of this chapter for obtaining a certificate of authority; and

(2) establishes a fund as provided by Section 712.021 in an amount equal to the larger of:

(A) the amount that would have been paid into the fund if the cemetery operated as a perpetual care cemetery from the date
of the cemetery's first sale of plots; or

(B) the minimum amount provided by Section 712.004.

Acts 2011, 82nd Leg., R.S., Ch. 532 (H.B. 2495), Sec. 9, eff. September 1, 2011.

Acts 2011, 82nd Leg., R.S., Ch. 1336 (S.B. 1167), Sec. 9, eff. September 1, 2011.

Sec. 712.023. VALIDITY OF CONTRIBUTIONS. A contribution to a fund for perpetual care is not invalid because of:

(1) indefiniteness or uncertainty of the person designated as beneficiary in the instrument establishing the fund; or

(2) a violation of the law against perpetuities or the law against the suspension of the power of alienation of title to or use of property.

Sec. 712.024. AMENDMENT OF TRUST INSTRUMENT. A corporation and the trustee of a fund may, by agreement, amend the instrument that established the fund to include any provision that is consistent with this chapter.

Sec. 712.025. USE OF FUND INCOME. Fund income may be used only to provide the perpetual care described by the instrument that established the fund, including the general care and maintenance of the property entitled to perpetual care in the perpetual care cemetery.

Sec. 712.026.  SUIT BY PLOT OWNERS TO MAINTAIN PERPETUAL CARE.  (a) If the directors of a corporation do not generally care for and maintain the corporation's perpetual care cemetery, the district court of the county in which the perpetual care cemetery is located may:

(1) by injunction compel the directors to expend the net income of the corporation's fund as required by this chapter; or  
(2) appoint a receiver to take charge of the fund and expend the net income of the fund as required by this chapter.

(b) The suit for relief under this section must be brought by at least five owners of plots located in the perpetual care cemetery.

(c) In a suit for relief under this section, court costs and attorney's fees shall be awarded:

(1) to the directors of the corporation, if it is found that the directors are substantially expending the available net income of the fund as required by this subchapter; or

(2) to the plot owners initiating the suit, if it is found that the directors are not substantially expending the available net income of the fund as required by this subchapter.

Sec. 712.027.  INVESTMENT OF FUND.  (a) A trustee shall invest and manage the investment of the principal of a fund in accordance with the Texas Trust Code (Section 111.001 et seq., Property Code).

(b) An investment must be made at not more than the prevailing market value of the securities at the time of acquisition.

Sec. 712.028.  AMOUNT OF FUND DEPOSITS FROM SALES.  (a) A corporation shall deposit in its fund an amount that is at least:

(1) the greater of:
(A) $1.75 a square foot of ground area conveyed as perpetual care property; or
(B) 15 percent of the total purchase price of that ground area;

(2) the greater of:
(A) $105 for each crypt interment right for mausoleum interment or lawn crypt interment conveyed as perpetual care property, or $60 for each crypt interment right if that crypt is accessible only through another crypt; or
(B) seven percent of the total purchase price of that crypt interment right; and

(3) the greater of:
(A) $35 for each niche interment right for columbarium interment conveyed; or
(B) 15 percent of the total purchase price of that niche interment right.

(b) Subsection (a) does not apply to deposits from sales required to be made by a corporation in its fund before September 1, 1993, under a corresponding statute in effect before that date.

(c) If a plot owner exchanges a plot for another plot in a corporation's perpetual care cemetery, the amount to be deposited in the corporation's fund in respect of the plot received by the plot owner in the exchange may be reduced by the amount deposited in the fund in respect of the plot contributed by the plot owner in the exchange. The amount required to be deposited with respect to an exchanged plot is the amount required at the time the plot owner originally contracted to purchase the plot.

Sec. 712.029. ACCOUNTING FOR AND DEPOSITING AMOUNTS. (a) The part of the purchase price of a plot in a perpetual care cemetery that is to be deposited in a fund must be shown separately on the original purchase agreement from the total purchase price. A copy of the agreement shall be delivered to the purchaser of the plot.

(b) On the sale of a plot, a commission may not be paid to a
broker or salesman on the amount to be deposited in the fund.

(c) A corporation shall deposit in its fund the amount required under Section 712.028 not later than the 20th day after the end of the month in which the original purchase agreement has been paid in full. A corporation may prepay funds into its fund at any time and, if a surplus exists in the fund from the prepayments, may credit against the surplus the amounts otherwise required to be deposited in the fund under Section 712.028 until the surplus has been depleted. In determining whether a surplus exists from prepayments, no part of the fund resulting from gifts to the fund under Section 712.030 may be considered.

Sec. 712.030. USE OF GIFT FOR SPECIAL CARE OF PLOT IN PERPETUAL CARE CEMETERY. A trustee may take and hold property transferred to the trustee in trust in order to apply the principal, proceeds, or income of the property for any purpose consistent with the purpose of a corporation's perpetual care cemetery, including:

(1) the improvement or embellishment of any part of the perpetual care cemetery;

(2) the erection, renewal, repair, or preservation of a monument, fence, building, or other structure in the perpetual care cemetery;

(3) planting or cultivating plants in or around the perpetual care cemetery; or

(4) taking special care of or embellishing a plot, section, or building in the perpetual care cemetery.

SUBCHAPTER C. REGULATION AND ENFORCEMENT

Sec. 712.041. ANNUAL STATEMENT OF FUNDS. (a) A corporation shall file in its office and with the commissioner a statement for each perpetual care cemetery operated in this state in duplicate that shows:

Sec. 712.043. ADDITIONAL FUND REPORT. The commissioner may require, as often as the commissioner determines necessary, the trustee of a corporation's fund to make under oath a detailed report
of the condition of the fund. The report must include:

(1) a detailed description of the assets of the fund;
(2) a description of securities held by the fund;
(3) if a security held by the fund is a lien, a description of the property against which the lien is taken;
(4) each security's acquisition cost;
(5) each security's market value at the time of acquisition;
(6) each security's current market value;
(7) each security's status with reference to default;
(8) a statement that a security is not encumbered by debt;
and
(9) any other information the commissioner determines is pertinent.

Sec. 712.044. EXAMINATION OF RECORDS; EXAMINATION FEES AND EXPENSES. (a) The commissioner may examine on a periodic basis as the commissioner reasonably considers necessary or appropriate to protect the interest of plot owners and efficiently administer and enforce this chapter:

(1) the books and records of a corporation relating to its fund, including deposits to or withdrawals from the fund, income of the fund, and uses and expenditures of that income;
(2) the books and records of a corporation relating to sales of undeveloped mausoleum spaces and any preconstruction trust established by the corporation as provided by Section 712.063, including deposits to or withdrawals from the preconstruction trust, income of the preconstruction trust, and uses and expenditures of principal and income of the preconstruction trust; and
(3) the consumer complaint files of a corporation relating to the fund, sales of undeveloped mausoleum spaces, a preconstruction trust, or to discharge of the corporation's perpetual care responsibilities, minutes of the corporation's board of directors, cemetery dedication statements and plat maps, and mausoleum and lawn crypt construction contracts and specifications.

(b) A corporation that is examined under this section shall
make the specified books and records available for examination by the banking department upon reasonable notice to the corporation and shall pay to the commissioner for the examination a reasonable and necessary fee set by rules adopted by the Finance Commission of Texas under Section 712.008 to defray:
   (1) the cost of examination;
   (2) the equitable or proportionate cost of maintenance and operation of the department; and
   (3) the cost of administering and enforcing this chapter.

Sec. 712.0441. ENFORCEMENT. (a) After notice and opportunity for hearing, the commissioner may impose an administrative penalty on a person who:
   (1) violates this chapter or a final order of the commissioner or rule of the Finance Commission of Texas and does not correct the violation before the 31st day after the date the person receives written notice of the violation from the banking department; or
   (2) engages in a pattern of violations, as determined by the commissioner.
   (b) The amount of the penalty for each violation may not exceed $1,000 for each day the violation occurs.
   (c) In determining the amount of the penalty, the commissioner shall consider the seriousness of the violation, the person's history of violations, and the person's good faith in attempting to comply with this chapter. The imposition of a penalty under this section is
subject to judicial review as a contested case under Chapter 2001, Government Code. The commissioner may collect the penalty in the same manner that a money judgment is enforced in district court.

(d) In addition to any penalty that may be imposed under Subsection (a), the commissioner may bring a civil action against a corporation to enjoin a violation described in Subsection (a) that has not been corrected within 30 days after the receipt by the corporation of written notice from the commissioner of the violation. Any such civil action may be brought in the district court of the county in which the corporation's perpetual care cemetery is operated.

(e) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 1336, Sec. 15, eff. September 1, 2011.

(f) The commissioner may issue an order requiring restitution by a person to the cemetery's fund or to a preconstruction trust if, after notice and opportunity for hearing held in accordance with the procedures for a contested case hearing under Chapter 2001, Government Code, the commissioner finds that the corporation has not made a deposit in the fund as required by Section 712.028 or in the preconstruction trust as required by Section 712.063.

(f-1) The commissioner may issue an order requiring restitution by a person if, after notice and opportunity for a hearing held in accordance with the procedures for a contested case hearing under Chapter 2001, Government Code, the commissioner finds that the corporation has not ordered memorials, as defined by Section 711.001(20-a), in compliance with the deadlines established by rules adopted under this chapter.

(g) If a violation described in Subsection (a) has not been corrected before the 31st day after the date the corporation receives written notice from the commissioner of the violation, the commissioner may report the violation to the attorney general, who shall bring suit or quo warranto proceedings for the forfeiture of the corporation's charter and dissolution of the corporation in a district court of Travis County or of any county in which the corporation's perpetual care cemetery is operated.

(h) If a fund is misappropriated by its trustee or is not otherwise handled as required by this chapter, the commissioner may take action against the trustee as provided in Chapter 185, Finance Code.
Sec. 712.0442. PATTERN OF WILFUL DISREGARD.  (a) If, after a hearing conducted as provided by Chapter 2001, Government Code, the trier of fact finds that a violation of this chapter or a rule of the Finance Commission of Texas establishes a pattern of wilful disregard for the requirements of this chapter or rules of the finance commission, the trier of fact may recommend to the commissioner that the maximum administrative penalty permitted under Section 712.0441 be imposed on the person committing the violation or that the commissioner cancel or not renew the corporation's certificate of authority under this chapter if the person holds such a certificate.

(b) For the purposes of this section, violations corrected as provided by Section 712.0441 may be included in determining whether a pattern of wilful disregard for the requirements of this chapter or rules of the finance commission exists.
Acts 2011, 82nd Leg., R.S., Ch. 1336 (S.B. 1167), Sec. 12, eff. September 1, 2011.

Sec. 712.0443. CEASE AND DESIST ORDER. (a) The commissioner may issue an order to cease and desist to a person if:

(1) the commissioner finds by examination or other credible evidence that the person has violated a law of this state relating to perpetual care cemeteries, including a violation of this chapter, the commissioner's final order, or a Finance Commission of Texas rule; and

(2) the violation was not corrected by the 31st day after the date the person receives written notice of the violation from the department.

(b) An order proposed under this section shall be served on the person and must state the grounds for the proposed order with reasonable certainty and the proposed effective date, which may not be less than the 20th day after the date the order is mailed or delivered. The order becomes effective on the proposed date unless the person requests a hearing not later than the 19th day after the date the order is mailed or delivered. If the person requests a hearing, the hearing shall be conducted in accordance with the procedures for a contested case hearing under Chapter 2001, Government Code.

Sec. 712.0444. EMERGENCY ORDER. (a) The commissioner may issue an emergency order that takes effect immediately if the commissioner finds that immediate and irreparable harm is threatened to the public or a plot owner, marker purchaser, or other person whose interests are protected by this chapter.

(b) An emergency order remains in effect unless stayed by the commissioner.

(c) The person named in the emergency order may request in writing, not later than the 18th day after the date the order is
mailed, a hearing to show that the emergency order should be stayed. On receipt of the request, the commissioner shall set a time for the hearing not later than the 21st day after the date the commissioner received the request, unless extended at the request of the person named in the order.

(d) The hearing is an administrative hearing relating to the validity of findings that support immediate effect of the order.

Sec. 712.0445. RECEIVERSHIP PROCEEDINGS. (a) In conjunction with a proceeding to forfeit the right to do business in this state brought by the attorney general, the attorney general may seek the appointment of a receiver. This remedy is in addition to other grounds for the appointment of a receiver.

(b) If the receiver is a private party, the receiver shall be compensated from the corporation or, if the corporation has no assets available to pay the receiver, from the income only of the perpetual care fund. The receiver may not invade the principal of the fund.

(c) The court may appoint a department employee as receiver. If the receiver is a department employee, the employee may not receive compensation for serving as receiver in addition to the employee's regular salary. The department may receive reimbursement from the corporation for the travel expenses and the fully allocated personnel costs associated with the employee's service as receiver.

(d) A department employee serving as receiver is not personally liable for damages arising from the employee's official act or omission unless the act or omission is corrupt or malicious. The attorney general shall defend an action brought against an employee serving as receiver because of an official act or omission as receiver regardless of whether the employee has terminated service with the department before the action commences.

Sec. 712.048. CRIMINAL PENALTIES. (a) A person who is an individual, firm, association, corporation, or municipality, or an officer, agent, or employee of an individual, firm, association, corporation, or municipality, commits an offense if the person sells, offers to sell, or advertises for sale an interment right in a plot, and, before a fund is established for the cemetery in which the plot is located as provided by this chapter, represents that the plot is under perpetual care. An offense under this subsection is a Class A misdemeanor. This subsection does not prevent an aggrieved party or the attorney general from maintaining a civil action for the recovery of damages caused by an injury resulting from an offense under this subsection.

(b) A person who is an individual, firm, association, corporation, or municipality, or an officer, agent, or employee of an individual, firm, association, corporation, or municipality, commits an offense if the person knowingly defalcates or misappropriates assets of a fund. An offense under this subsection is punishable as if it were an offense under Section 32.45, Penal Code.

(c) A person commits an offense if the person collects money for the purchase of a memorial, as defined by Section 711.001, and knowingly defalcates or misappropriates the funds. An offense under this subsection is punishable as if it were an offense under Section 32.45, Penal Code. This subsection does not prevent an aggrieved party or the attorney general from maintaining a civil action for the recovery of damages, or the commissioner from maintaining an administrative action for restitution, caused by an injury resulting from an offense under this subsection.

Sec. 712.061. OFFER AND SALE OF UNDEVELOPED MAUSOLEUM SPACE. 
(a) A corporation may not directly or indirectly sell or offer for
sale an undeveloped mausoleum space unless before the sale or offer
the corporation:
(1) establishes a preconstruction trust as provided by
Section 712.063 or executes and submits a performance bond payable to
the commissioner as provided by Section 712.067; and
(2) submits a written notice to the commissioner as
required by Subsection (b).
(b) The written notice to the commissioner must set forth:
(1) the date the corporation anticipates that sales of
undeveloped mausoleum spaces will begin;
(2) a copy of the sales contract proposed for use that
complies with Section 712.066;
(3) if the corporation establishes a preconstruction trust
as provided by Section 712.063, a copy of the executed
preconstruction trust agreement that complies with this subchapter
and identifies the preconstruction trustee;
(4) if the corporation submits a performance bond payable
to the commissioner as provided by Section 712.067, the executed,
original performance bond in the amount required by Section 712.067
and documentation supporting the corporation's computation of that
amount; and
(5) other information the commissioner reasonably requires
to properly administer and enforce this subchapter.
(c) At any time before beginning construction of the mausoleum
or mausoleum section in which undeveloped mausoleum spaces are being
sold, a corporation that has established a preconstruction trust may
substitute a performance bond that meets the requirements of Section
712.067. On acceptance of the performance bond by the commissioner,
the corporation may terminate and withdraw all proceeds deposited in
the preconstruction trust.

Sec. 712.063. PRECONSTRUCTION TRUST. (a) Except as provided by Section 712.067, a corporation that intends to directly or indirectly sell or offer for sale undeveloped mausoleum spaces shall establish a preconstruction trust by written declaration and agreement appointing as preconstruction trustee a financial institution with trust powers that is located in this state.

(b) The corporation shall deposit in the preconstruction trust an amount equal to at least 40 percent of all proceeds received directly or indirectly from the sale of undeveloped mausoleum spaces, not including interest, finance charges, sales taxes, credit life insurance premiums, or deposits to the corporation's fund required by Section 712.029(c).

(c) On application, the commissioner may authorize a corporation to deposit less than the amount required by Subsection (b) if the corporation demonstrates to the reasonable satisfaction of the commissioner that:

(1) the sales projections of the corporation are prudent and based on reasonable assumptions;

(2) the projected cost of construction is objectively determined based on documentation similar to that required by Section 712.067(b); and

(3) the amount of money projected to be deposited in the preconstruction trust under the proposed lesser amount will equal or exceed 120 percent of the cost of constructing the mausoleum or mausoleum section.

(d) The corporation shall deposit the required amount into the preconstruction trust on or before the 30th day after the end of the month in which payment is received. At the time of making a deposit, the corporation shall furnish to the preconstruction trustee the name of each payor and the amount of payment on each account for which the deposit is being made. A contract between the corporation and an
agent or third party developer may not restrict or waive the corporation's primary liability for making the deposits required by this section.

(e) The preconstruction trustee may commingle deposits received if the accounting records accurately establish a separate account for each contract and reflect the amounts deposited and the income and loss allocable to each contract.

(f) Money in a preconstruction trust may be invested only in:

(1) demand deposits, savings accounts, certificates of deposit, or other accounts in financial institutions if the amounts deposited in those accounts are fully covered by federal deposit insurance or otherwise fully secured by a separate fund of securities in the manner provided by Section 184.301, Finance Code;

(2) marketable notes, bonds, evidences of indebtedness, or obligations with a term to maturity of five years or less and:

(A) issued by the United States or an instrumentality of the United States; or

(B) the principal and interest of which are guaranteed by the full faith and credit of the United States; and

(3) a mutual fund the portfolio of which consists wholly of investments permitted by Subdivisions (1) and (2).

(g) The preconstruction trustee may withdraw money from earnings on a preconstruction trust for the purpose of paying reasonable and necessary costs of operation of the preconstruction trust, including trustee or depository fees and expenses, and any special examination fees due to the department related to an examination of the preconstruction trust that is not incidental to examination of the corporation's fund. With the department's prior approval, the corporation may withdraw money from earnings on a preconstruction trust to pay any tax incurred because of the existence of the preconstruction trust.

(h) The preconstruction trust and the preconstruction trustee are governed by Subtitle B, Title 9, Property Code.

Sec. 714.003. ABANDONED PLOTS IN PRIVATE CEMETERIES. (b) If there is no perpetual care cemetery in the county that under its rules permits the interment of the bodies of the persons that are to be removed, the bodies, monuments, tombs, and other similar items may be removed to a nonperpetual care cemetery that has provided for assessments for the cemetery's future care.

The executive director shall notify the inspection agency that insures that boiler and request the authorized inspector employed by that agency to participate with the chief inspector or a deputy inspector in a joint inspection of the boiler not later than the 20th day after the date on which the executive director notifies the inspection agency. An additional charge may not be made for the joint inspection.

Sec. 755.026. EXTENSIONS. (a) With the approval of the executive director and the inspection agency that has jurisdiction for the power boiler, the interval between internal inspections may be extended to a period not exceeding a total of 60 months. For unfired steam boilers or steam collection or liberation drums of process steam generators, the inspection interval may be extended to the next scheduled downtime of the boiler, but not exceeding a total of:

(1) 84 months for unfired steam boilers; or
(2) 120 months for steam collection or liberation drums of process steam generators.

(b) The interval between internal inspections of a boiler may be extended only if:

(2) the last internal and current external inspection of the boiler indicates that the interval may safely be extended; and

(3) accurate and complete records are available that show:

(A) that since the last internal inspection samples of boiler water have been taken or monitored at regular intervals not exceeding 24 hours of operation and that the water condition in the boiler is satisfactorily controlled;

(B) the dates that the boiler was out of service since the last internal inspection and the reasons that the boiler was taken out of service; and

(C) the nature of the repairs made to the boiler and the reasons that those repairs were made.

(c) In addition to an extension authorized under Subsection (a), the executive director and the inspection agency may grant an emergency extension for a period not exceeding 120 days to the inspection interval covered by the boiler's certificate of operation on receipt of a request for extension stating that an emergency exists. Before the extension may be granted, the inspection agency must make an external inspection of the boiler, and the conditions imposed under Subsection (b) must be met. The commissioner and the inspection agency may not grant more than one emergency extension under this subsection in an interval between internal inspections.

(d) If an extended period between internal inspections is approved by the executive director and the inspection agency, the executive director shall issue a new certificate of operation for the extended period of operation.

(e) If the interval between internal inspections of a gas fired boiler is extended under Subsection (a), the executive director and inspection agency shall require that an inspection of the gas regulator or pressure reducing valve that services the boiler be performed as part of the next regularly scheduled external certificate inspection of the boiler to verify proper venting of gas to a safe point of discharge.
Sec. 755.027. REPORTS BY INSPECTION AGENCY; JOINT INSPECTIONS.

(a) Not later than the 30th day after the date on which a certificate inspection is performed by an authorized inspector, the inspection agency employing the authorized inspector shall file a report with the executive director in the manner specified by the executive director.

       operation;  and
   (2) the owner or operator has paid the fees assessed under
       Section 755.030.
   (b) The certificate of operation is valid for not longer than
       the interval required for certificate inspections of that boiler.

       setting the amount of a fee for:
       (1) a boiler inspection, including a fee for a special
           inspection;
       (2) a certificate of operation;
       (3) the administration of an examination under this
           chapter;  or
       (4) any other activity administered by the boiler
           inspection section.
   (c) The fees, travel, and per diem collected under this chapter
       may be appropriated only to the department.

Sec. 755.032. RULES. (a) The commission may adopt and enforce rules, in accordance with standard boiler usage, for the construction, inspection, installation, use, maintenance, repair, alteration, and operation of boilers.

(b) The executive director may exchange information, including data on experience, with other authorities that inspect boilers or their appurtenances, to obtain information necessary to adopt rules.

(c) The executive director or a department employee may not prescribe the make, brand, or kind of boilers or any appurtenances on the boiler to purchase.

(d) The executive director or a department employee may not prescribe the make, brand, or kind of boilers to purchase.

Sec. 755.033. INTERAGENCY INSPECTION AGREEMENTS. (a) The executive director shall enter into interagency agreements with the Texas Department of Health, the Texas Commission on Fire Protection, and the Texas Department of Insurance under which inspectors, marshals, or investigators from those agencies who discover unsafe or unregistered boilers in the course and scope of inspections conducted as part of regulatory or safety programs administered by those agencies are required to report the unsafe or unregistered boilers to the executive director.

(b) The executive director may enter into analogous agreements with local fire marshals.

(c) The commission shall adopt rules relating to the terms and conditions of an interagency agreement entered into under this section.

SUBCHAPTER D. ENFORCEMENT AND PENALTIES

Sec. 755.041. REGULATION OF UNSAFE BOILERS. (a) If an inspection shows that a boiler is unsafe, the chief inspector or any
deputy inspector shall issue a written preliminary order requiring repairs and alterations as necessary to make the boiler safe for use. The inspector may also order discontinuing the use of the boiler until the repairs and alterations are made or the unsafe conditions are remedied.

(b) On written request, an owner or operator who does not comply with a preliminary order is entitled to a hearing before the executive director to show cause for not enforcing the preliminary order. If, after the hearing, the executive director determines that the boiler is unsafe and that the preliminary order should be enforced, or that other acts are necessary to make the boiler safe, the executive director may order or confirm the withholding of the certificate of operation for that boiler, and may impose additional requirements as necessary for the repair or alteration of the boiler or the correction of the unsafe conditions.

(c) The chief inspector may issue a temporary certificate of operation for a period not to exceed 30 days pending the completion of the replacement or repairs.

(d) This section does not limit the executive director's authority under Section 755.028 or the commission's authority under Section 755.032.

(e) A boiler that cannot be made safe for use shall be condemned and the use of that boiler prohibited.

Sec. 755.042. PROSECUTION; INJUNCTION. (a) A prosecution may not be maintained if the issuance or renewal of a certificate of operation has been requested for a boiler but has not been acted on. However, the executive director may petition a district court for an injunction to restrain the operation of the boiler until the condition restraining its use is corrected and a certificate of operation is issued if the executive director determines that the operation of the boiler without a certificate of operation constitutes a serious menace to the life and safety of the persons in or about the premises. The attorney general or the district or county attorney may bring the suit, and venue is in the county in which the boiler is located or in Travis County. It is not necessary
for the prosecutor to verify the pleadings or for the state to execute a bond.

(b) The executive director's affidavit that a certificate of operation or an application for a certificate does not exist for a boiler, and the affidavit of the chief inspector or a deputy inspector that the operation of the boiler constitutes a menace to the life and safety of persons in or about the premises, are sufficient proof to warrant the immediate issuance of a temporary restraining order.

Sec. 755.043. GENERAL CRIMINAL PENALTY. (a) A person, firm, or corporation commits an offense if:

(1) the person, firm, or corporation owns a boiler in this state, has the custody, management, use, or operation of a boiler in this state, or is otherwise subject to this chapter or a rule adopted under this chapter; and

(2) the person, firm, or corporation violates this chapter, a rule adopted under this chapter, or an order issued by the commission, the executive director, or a regularly employed inspector authorized to enforce this chapter and rules and orders.

(b) An offense under this section is a Class B misdemeanor.

Sec. 755.045. NOTICE OF RULE OR ORDER REQUIRED BEFORE PROSECUTION. A criminal action may not be maintained against any person relating to the violation of a rule adopted or an order issued under this chapter until the commission gives notice of the rule or order.

Sec. 755.046. AFFIDAVIT OF ORDERS. An affidavit is admissible as evidence in any civil or criminal action involving an order adopted by the commission or the executive director and the publication of the order, without further proof of the order's issuance or publication or of the contents of the order, if the affidavit:

(1) is issued under the seal of the commission or the executive director;
(2) is executed by the commission, the executive director, the chief inspector, or a deputy inspector;
(3) states the terms of the order;
(4) states that the order was issued and published; and
(5) states that the order was in effect during the period specified by the affidavit.

(1) if the enclosure is constructed with chain link metal
fencing material, the openings in the enclosure may not allow a
sphere 2-1/4 inches in diameter to pass through the enclosure; or
(2) if the enclosure is constructed with horizontal and
vertical members and the distance between the tops of the horizontal
members is at least 36 inches, the openings in the enclosure may not
allow a sphere four inches in diameter to pass through the enclosure.

(b) If a pool yard enclosure is constructed or modified before
January 1, 1994, and if the enclosure is in compliance with
applicable municipal ordinances existing on January 1, 1994, and
containing standards for pool yard enclosures, Sections 757.003,

A wall of a building constructed before January 1, 1994, may not be used as part of a pool yard enclosure unless each window in the wall has a latch and unless each window screen on a window in the wall is affixed by a window screen latch, screws, or similar means. This section does not require the installation of window screens. A wall of a building constructed on or after January 1, 1994, may not be used as part of a pool yard enclosure unless each ground floor window in the wall is permanently closed and unable to be opened.

Sec. 757.008. BUILDING IN POOL YARD. Each door, sliding glass door, window, and window screen of each dwelling unit in a residential building located in the enclosed pool yard must comply with Sections 757.006 and 757.007.

A request or notice under this subsection may be given orally unless a written lease applicable to the tenant or written rules governing the property owners association require the request or notice to be in writing. The requirement in the lease or rules must be in capital letters and underlined or in 10-point boldfaced print.

(c) An owner of a multiunit rental complex or a rental dwelling in a condominium, cooperative, or town home project with a pool or a property owners association that owns, controls, or maintains a pool shall inspect the pool yard enclosures, gates, and self-closing and self-latching devices on gates no less than once every 31 days.

Sec. 771.061. STATEWIDE CONFIDENTIALITY OF INFORMATION. (a) Information that a service provider of communications service is required to furnish to a governmental entity, including a regional planning commission, emergency communications district, or public safety answering point, in providing 9-1-1 service or that a service provider, third party, or other entity voluntarily furnishes at the
request of a governmental entity in providing 9-1-1 service is confidential and is not available for public inspection. Information that is contained in an address database maintained by a governmental entity or a third party used in providing 9-1-1 service is confidential and is not available for public inspection. The service provider or third party is not liable to any person who uses a 9-1-1 service for the release of information furnished by the service provider or third party in providing 9-1-1 service, unless the act or omission proximately causing the claim, damage, or loss constitutes gross negligence, recklessness, or intentional misconduct.

(c) The advisory commission shall annually review the definitions of a local exchange access line and an equivalent local exchange access line to address technical and structural changes in
the provision of telecommunications and data services. In that
annual review, the advisory commission may include previously
excluded Internet service provider data modem lines if it determines
that circumstances have changed sufficiently enough that 9-1-1
emergency calls through those lines are done on a regular basis or
that the data lines are voice-capable or that the lines are
functionally equivalent.

(d) An emergency communication district described by Section
771.001(3)(A) or (B) that has not participated in a regional plan
shall use the advisory commission's definitions of a local exchange
access line and an equivalent local exchange access line for purposes
of imposing its emergency service fees and may not impose an
emergency service fee on any line excluded from the advisory
commission's definitions.

(e) A service provider shall collect and remit the emergency
service fees to the advisory commission or the appropriate emergency

SUBCHAPTER D. FINANCING STATE EMERGENCY COMMUNICATIONS

Sec. 771.071. EMERGENCY SERVICE FEE. (a) Except as otherwise
provided by this subchapter, the commission may impose a 9-1-1
emergency service fee on each local exchange access line or
equivalent local exchange access line, including lines of customers
in an area served by an emergency communication district
participating in the applicable regional plan. If a business service
user provides residential facilities, each line that terminates at a
residential unit, and that is a communication link equivalent to a
residential local exchange access line, shall be charged the 9-1-1
emergency service fee. The fee may not be imposed on a line to coin-
operated public telephone equipment or to public telephone equipment
operated by coin or by card reader. The fee may also not be imposed
on any line that the commission excluded from the definition of a
local exchange access line or an equivalent local exchange access
line pursuant to Section 771.063.

(b) The amount of the fee may not exceed 50 cents a month for
(c) The commission may set the fee in a different amount in each regional planning commission region based on the cost of providing 9-1-1 service to each region.

(d) The fee does not apply to an emergency communication district not participating in the applicable regional plan. A customer in an area served by an emergency communication district not participating in the regional plan may not be charged a fee under this section. Money collected under this section may not be allocated to an emergency communication district not participating in the applicable regional plan.

(e) A service provider shall collect the fees imposed on its customers under this section. Not later than the 30th day after the last day of the month in which the fees are collected, the service provider shall deliver the fees to the comptroller. The comptroller shall deposit money from the fees to the credit of the 9-1-1 services fee account in the general revenue fund. The comptroller may establish alternative dates for payment of fees under this section, provided that the required payment date be no earlier than the 30th day after the last day of the reporting period in which the fees are collected.

(f) The commission shall distribute money appropriated to the commission from the 9-1-1 services fee fund to regional planning commissions for use in providing 9-1-1 services as provided by contracts executed under Section 771.078. The regional planning commissions shall distribute the money to public agencies for use in providing those services.

(g) Repealed by Acts 1999, 76th Leg., ch. 1045, Sec. 18, eff. June 18, 1999.

Sec. 771.0711. EMERGENCY SERVICE FEE FOR WIRELESS TELECOMMUNICATIONS CONNECTIONS. (a) To provide for automatic number identification and automatic location identification of wireless 9-1-1 calls, the commission shall impose on each wireless telecommunications connection a 9-1-1 emergency service fee. A political subdivision may not impose another fee on a wireless service provider or subscriber for 9-1-1 emergency service.

(b) A wireless service provider shall collect the fee in an amount equal to 50 cents a month for each wireless telecommunications connection from its subscribers and shall pay the money collected to the comptroller not later than the 30th day after the last day of the month during which the fees were collected. The comptroller may establish alternative dates for payment of fees under this section. The wireless service provider may retain an administrative fee of one percent of the amount collected. The comptroller shall deposit the money from the fees to the credit of the 9-1-1 services fee account.

(c) Money collected under Subsection (b) may be used only for services related to 9-1-1 services, including automatic number identification and automatic location information services, or as authorized by Section 771.079(c). Not later than the 15th day after the end of the month in which the money is collected, the commission shall distribute to each emergency communication district that does not participate in the state system a portion of the money that bears the same proportion to the total amount collected that the population of the area served by the district bears to the population of the state. The remaining money collected under Subsection (b) shall be deposited to the 9-1-1 services fee account.

(d) A service provider of telecommunications service involved in providing wireless 9-1-1 service is not liable for any claim, damage, or loss arising from the provision of wireless 9-1-1 service unless the act or omission proximately causing the claim, damage, or loss constitutes gross negligence, recklessness, or intentional misconduct.

(e) A member of the commission, the governing body of a public agency, or the Department of Information Resources is not liable for
any claim, damage, or loss arising from the provision of wireless 9-1-1 service unless the act or omission causing the claim, damage, or loss violates a statute or ordinance applicable to the action.

(f) A wireless service provider is not required to take legal action to enforce the collection of any wireless 9-1-1 service fee. The comptroller may establish collection procedures and recover the cost of collection from the subscriber liable for the fee. The comptroller may institute legal proceedings to collect a fee and in those proceedings is entitled to recover from the subscriber court costs, attorney's fees, and interest on the amount delinquent.

(g) On receipt of an invoice from a wireless service provider for reasonable expenses for network facilities, including equipment, installation, maintenance, and associated implementation costs, the commission or an emergency services district of a home-rule municipality or an emergency communication district created under Chapter 772 shall reimburse the wireless service provider in accordance with state law for all expenses related to 9-1-1 service.

(h) Information that a wireless service provider is required to furnish to a governmental entity in providing 9-1-1 service is confidential and exempt from disclosure under Chapter 552, Government Code. The wireless service provider is not liable to any person who uses a 9-1-1 service created under this subchapter for the release of information furnished by the wireless service provider in providing 9-1-1 service. Information that is confidential under this section may be released only for budgetary calculation purposes and only in aggregate form so that no provider-specific information may be extrapolated.

(i) Nothing in this section may be construed to apply to wireline 9-1-1 service.

(j) Nothing in this section precludes funds collected under Section 771.072 (Equalization Surcharge) from being used to cover costs under Subsection (g), as necessary and appropriate, including for rural areas that may need additional funds for wireless 9-1-1.

Sec. 771.0712. PREPAID 9-1-1 EMERGENCY SERVICE FEE. (a) To ensure that all 9-1-1 agencies under Section 418.051, Government Code, are adequately funded, beginning on June 1, 2010, a prepaid wireless 9-1-1 emergency services fee of two percent of the purchase price of each prepaid wireless telecommunications service purchased by any method, shall be collected by the seller from the consumer at the time of each retail transaction of prepaid wireless telecommunications service occurring in this state and remitted to the comptroller consistent with Chapter 151, Tax Code, and distributed consistent with the procedures in place for the emergency services fee in Section 771.0711, Health and Safety Code. A seller may deduct and retain two percent of prepaid wireless 9-1-1 emergency services fees that it collects under this section to offset its costs in administering this fee.

(b) The comptroller shall adopt rules to implement this section by June 1, 2010.

(c) A seller who fails to file a report or remit a fee collected or payable as provided by this section and comptroller rules shall pay five percent of the amount due and payable as a penalty, and if the seller fails to file the report or remit the fee within 30 days after the day the fee or report is due, the seller shall pay an additional five percent of the amount due and payable as an additional penalty.

(d) In addition to any other penalty authorized by this section, a seller who fails to file a report as provided by this section shall pay a penalty of $50. The penalty provided by this subsection is assessed without regard to whether the seller subsequently files the report or whether any taxes were due from the seller for the reporting period under the required report.

Sec. 771.072. EQUALIZATION SURCHARGE. (a) In addition to the fees imposed under Sections 771.071 and 771.0711, the commission shall impose a 9-1-1 equalization surcharge on each local exchange access line or equivalent local exchange access line and each wireless telecommunications connection. The surcharge may not be imposed on:

(1) a line to coin-operated public telephone equipment or to public telephone equipment operated by coin or by card reader;

(2) any line that the commission excluded from the definition of a local exchange access line or an equivalent local exchange access line under Section 771.063; or

(3) any wireless telecommunications connection that constitutes prepaid wireless telecommunications service subject to Section 771.0712.

(b) The surcharge must be a fixed amount, not to exceed 10 cents per month for each local exchange access line, equivalent local exchange access line, or wireless telecommunications connection.

(c) Except as provided by Section 771.073(f), each service provider shall collect the surcharge imposed on its customers under this section and shall deliver the surcharges to the comptroller not later than the date specified by the comptroller, provided that the required payment date be no earlier than the 30th day after the last day of the reporting period in which the surcharge is collected. If the comptroller does not specify a date, the provider shall deliver the surcharges to the comptroller not later than the 30th day after the last day of the month in which the surcharges are collected.

(d) From the revenue received from the surcharge imposed under this section, not more than 40 percent of the amount derived from the application of the surcharge shall be allocated to regional planning commissions or other public agencies designated by the regional planning commissions for use in carrying out the regional plans provided for by this chapter. The allocations to the regional planning commissions are not required to be equal, but should be made to carry out the policy of this chapter to implement 9-1-1 service statewide. Money collected under this section may be allocated to an emergency communication district regardless of whether the district is participating in the applicable regional plan.

(e) From the revenue received from the surcharge imposed by this section, not more than 60 percent of the amount derived from the application of the surcharge shall be periodically allocated to fund
grants awarded under Section 777.009 and other activities related to the poison control centers as required by Chapter 777.

(f) The comptroller shall deposit the surcharges and any prior balances in accounts in the general revenue fund in the state treasury until they are allocated to regional planning commissions, other 9-1-1 jurisdictions, and regional poison control centers in accordance with this section. From those accounts, the amount necessary for the commission to fund approved plans of regional planning commissions and regional poison control centers and to carry out its duties under this chapter shall be appropriated to the commission. Section 403.095, Government Code, does not apply to an account established by this subsection.

(g) Notwithstanding any other law, revenue derived from the equalization surcharge imposed under this section may be appropriated to the commission only for the purposes described by Sections 773.122 through 773.124.

(e) The commission shall establish the rate for the equalization surcharge imposed under Section 771.072 for each state fiscal biennium in an amount that ensures the aggregate of the anticipated surcharges collected from all customers for the following 12 months does not exceed the aggregate of the surcharges collected from all customers during the preceding 12 months. Any change in the equalization surcharge rate may not become effective before the 90th day after the date notice of the change is provided by the commission to the service providers.

Sec. 771.073. COLLECTION OF FEES AND SURCHARGES. (a) A customer on which a fee or surcharge is imposed under this subchapter is liable for the fee or surcharge in the same manner as the customer is liable for the charges for services provided by the service provider. The service provider shall collect the fees and surcharges in the same manner it collects those charges for service, except that the service provider is not required to take legal action to enforce the collection of the fees or surcharges. Other than the fee imposed under Section 771.0712, a fee or surcharge imposed under this subchapter must be either stated separately on the customer's bill or combined in an appropriately labeled single line item on the customer's bill with all other fees and surcharges that are imposed under this subchapter or that are imposed for 9-1-1 emergency service by a political subdivision. A service provider that combines the fees and surcharges into a single line item for billing purposes must maintain books and records reflecting the collection of each separate fee and surcharge.

(b) A business service user that provides residential facilities and owns or leases a private telephone switch used to provide telephone service to facility residents shall collect the 9-
1-1 emergency service fee and transmit the fees monthly to the comptroller. A business service user that does not collect and remit the 9-1-1 emergency service fee as required is subject to a civil cause of action. A court may award to the comptroller court costs, attorney's fees, and interest on the amount delinquent, to be paid by the nonpaying business service user. A certificate of the comptroller specifying the unremitted fees is prima facie evidence that the fees were not remitted and of the amount of the unremitted fees.

   (c) The comptroller may establish collection procedures and recover the cost of collection from the customer liable for the fee or surcharge. The comptroller may institute legal proceedings to collect a fee or surcharge and in those proceedings is entitled to recover from the customer court costs, attorney's fees, and an interest on the amount delinquent.

   (d) A service provider may not disconnect services for nonpayment of a fee or surcharge imposed under this subchapter.

   (e) A service provider collecting fees or surcharges under this subchapter may retain as an administrative fee an amount equal to one percent of the total amount collected.

   (f) The commission may establish payment schedules and minimum payment thresholds for fees and surcharges imposed under this subchapter.

   (g) A 9-1-1 service provider is responsible for correctly billing and remitting applicable 9-1-1 fees, charges, and equalization surcharges. Any 9-1-1 fees, charges, or equalization surcharges erroneously billed to a subscriber by a 9-1-1 service provider and erroneously remitted to the commission or an emergency communication district may not be recovered from the commission or emergency communication district unless the fees or charges were adjusted due to a refund to the subscriber by the local exchange carrier or interexchange carrier.

Sec. 771.0735. SOURCING OF CHARGES FOR MOBILE TELECOMMUNICATIONS SERVICES. The federal Mobile Telecommunications Sourcing Act (4 U.S.C. Sections 116-126) governs the sourcing of charges for mobile telecommunications services. In accordance with that Act:

(1) mobile telecommunications services provided in a taxing jurisdiction to a customer, the charges for which are billed by or for the customer's home service provider, shall be deemed to be provided by the customer's home service provider;

(2) all charges for mobile telecommunications services that are deemed to be provided by the customer's home service provider in accordance with the Act are authorized to be subjected to tax, charge, or fee by the taxing jurisdictions whose territorial limits encompass the customer's place of primary use, regardless of where the mobile telecommunications services originate, terminate, or pass through, and no other taxing jurisdiction may impose taxes, charges, or fees on charges for such mobile telecommunications services; and

(3) the fee and the surcharge imposed on wireless telecommunications bills shall be administered in accordance with Section 151.061, Tax Code.

Sec. 771.076. AUDITS. (a) The commission or an employee of the commission may notify the comptroller of any irregularity that may indicate that an audit of a service provider collecting a fee or surcharge under this subchapter is warranted. The comptroller also may audit a service provider at the comptroller's discretion, without first receiving a notification from the commission or an employee of the commission. The cost of the audit shall not be assessed against the service provider. The commission may require at its own expense that an audit be conducted of a public agency receiving money under this chapter.

(b) If the comptroller conducts an audit of a service provider that collects and disburses fees or surcharges under this subchapter, the comptroller shall also audit those collections and disbursements to determine if the provider is complying with this chapter.

(c) At the request of the Public Utility Commission of Texas, the state auditor may audit a regional planning commission or other public agency designated by the regional planning commission that receives money under this subchapter.

(d) The audit of a public agency under Subsection (a) or (c) must be limited to the collection, remittance, and expenditure of
money collected under this subchapter.

Sec. 771.077. COLLECTION OF FEES AND SURCHARGES. (a) The comptroller may establish collection procedures to collect past due amounts and may recover the costs of collection from a service provider or business service user that fails to timely deliver the fees and the equalization surcharge to the comptroller. Subtitles A and B, Title 2, Tax Code, apply to the administration and collection of amounts by the comptroller under this subchapter.

(b) The comptroller may establish procedures to be used by the commission to notify the comptroller of a service provider's or business service user's failure to timely deliver the fees or surcharges.

(c) The comptroller shall deposit amounts received as costs of collection in the general revenue fund.

(d) The comptroller shall:
   (1) remit to the commission money collected under this section for fees provided by Section 771.0711 and associated late penalties;
   (2) deposit to the 9-1-1 services fee account any money collected under this section for fees provided by Section 771.071 and associated late penalties; and

Sec. 771.078. CONTRACTS FOR SERVICES. (a) The commission shall contract with regional planning commissions for the provision of 9-1-1 service. The commission by rule shall adopt standard provisions for the contracts.

(b) In making contracts under this section, the commission shall ensure that each regional planning commission receives money for 9-1-1 service in two separately computed amounts as provided by this subsection. The commission must provide each regional planning commission with:

(1) an amount of money equal to the total of the revenue from the emergency service fees collected under Section 771.071 that is deposited in the treasury and appropriated to the commission multiplied by a fraction, the numerator of which is the amount of those fees collected from the region and the denominator of which is the total amount of those fees collected in this state; and

(2) an amount of money equal to the total of the revenue from the emergency service fee for wireless telecommunications connections under Section 771.0711 that is deposited in the treasury and appropriated to the commission multiplied by a fraction, the numerator of which is the population of the region and the denominator of which is the population of this state.

(c) Contracts under this section must provide for:

(1) the reporting of financial information regarding administrative expenses by regional planning commissions in accordance with generally accepted accounting principles;

(2) the reporting of information regarding the current performance, efficiency, and degree of implementation of emergency communications services in each regional planning commission's service area;

(3) the collection of efficiency data on the operation of 9-1-1 answering points;

(4) standards for the use of answering points and the creation of new answering points;

(5) quarterly disbursements of money due under the contract, except as provided by Subdivision (6);

(7) a means for the commission to give an advance on a quarterly distribution under the contract to a regional planning commission that has a financial emergency.

(d) Not more than 10 percent of the money received by a regional planning commission under Subsection (b) may be used for the regional planning commission's indirect costs. In this subsection, "indirect costs" means costs that are not directly attributable to a single action of a commission. The governor shall use the federal Office of Management and Budget circulars A-87 and A-122 or use any rules relating to the determination of indirect costs adopted under Chapter 783, Government Code, in administering this section.

(e) The commission may allocate surcharges under Section 771.072(d) by means of a contract under this section.

(b) The account consists of:

(1) fees deposited in the fund as provided by Sections 771.071 and 771.0711; and

(2) notwithstanding Section 404.071, Government Code, all interest attributable to money held in the account.

(c) Except as provided by Subsection (c-1), money in the account may be appropriated only to the commission for planning, development, provision, or enhancement of the effectiveness of 9-1-1 service or for contracts with regional planning commissions for 9-1-1 service, including for the purposes of:

(3) updating geospatial mapping technologies.

(c-1) The legislature may appropriate money from the account to provide assistance to volunteer fire departments under Subchapter G, Chapter 614, Government Code, only if:

(1) the purposes described by Subsection (c) have been accomplished or are fully funded for the fiscal period for which an appropriation under this subsection is made; and

(2) all other sources of revenue dedicated for the purposes of providing assistance to volunteer fire departments under Subchapter G, Chapter 614, Government Code, are obligated for the fiscal period for which an appropriation under this subsection is made.

while awaiting the arrival of emergency medical personnel. The purpose of a regional emergency medical dispatch resource center is not to dispatch personnel or equipment resources but to serve as a resource to provide pre-arrival instructions that may be accessed by selected public safety answering points that are not adequately staffed or funded to provide those services.

(b) The commission shall provide technical assistance to the center to facilitate the implementation of the project.

(c) The center, with the assistance of the advisory council, shall:

EMERGENCY MEDICAL DISPATCH RESOURCE CENTERS. (a) The center, with the assistance of the advisory council, may select public safety answering points to participate in the program or to serve as regional emergency medical dispatch resource centers. A public safety answering point may participate in the program and serve as a regional emergency medical dispatch resource center. A public safety answering point selected for the program or to serve as a resource center must:

1. have a fully functional quality assurance program that measures each emergency medical dispatcher's compliance with the medical protocol;
2. have dispatch personnel who meet the requirements for emergency medical dispatcher certification or the equivalent as determined by the Department of State Health Services;
3. use emergency medical dispatch protocols approved by a physician medical director knowledgeable in emergency medical dispatch;
4. have sufficient experience in providing pre-arrival instructions; and
5. have sufficient resources to handle the additional workload and responsibilities of the program.

(b) In selecting an existing public safety answering point to act as a resource center, the center shall consider a public safety answering point's ability to keep records and produce reports to measure the effectiveness of the program. The center shall share information regarding a public safety answering point's abilities with the advisory council.

safety answering points to determine which calls are to be
transferred to the regional emergency medical dispatch resource
center for emergency medical dispatch intervention.

Sec. 771.106. FUNDING OF PROGRAM. (a) Money in the 9-1-1
services fee fund and other state funds may be appropriated to The
University of Texas Medical Branch at Galveston on behalf of the
center to fund the program.
(b) The University of Texas Medical Branch at Galveston on
behalf of the center and the center are also authorized to seek grant
funding for the program.
(c) A political subdivision that participates in the program
may pay an appropriate share of the cost of the program.
(d) The provisions in this subchapter that require the center
to establish, conduct, and evaluate the program are contingent on the
center receiving funding in accordance with this section. If a
sufficient number of political subdivisions in a region that could be
served by a program offer to pay the center an amount that in the
aggregate, together with any other funding received under this
section, is sufficient to fund the program for the region, The
University of Texas Medical Branch at Galveston, on behalf of the
center:
(1) shall enter into contracts with the offering political
subdivisions under which each will pay an appropriate share of the
cost; and
(2) when the amount under the signed contracts, together
with any other funding received under this section, is sufficient to
fund the program for the region, shall implement the program for the
region.

Sec. 771.109. WORK GROUP. (a) The center may appoint a program work group to assist the center in developing, implementing, and evaluating the program and preparing a report on the center's findings.

(b) A member of the work group receives no additional
compensation for serving on the program work group and may not be reimbursed for travel or other expenses incurred while conducting the business of the program work group.

Sec. 772.001. DEFINITIONS. In this chapter:

(1) "Automatic location identification" means a feature corresponding to automatic number identification by which the number provided by the automatic number identification feature is matched with the address or location of the telephone from which the call is made and is presented to the public safety answering point along with the number in a computerized 9-1-1 system.

(2) "Automatic number identification" means a feature that enables a service supplier to identify the telephone number of a caller and that operates by forwarding the caller's telephone number to the public safety answering point, where the data is received by equipment that translates it into a visual display.

(3) "Base rate" means the rate or rates billed by a service supplier, as stated in the service supplier's charges approved by the appropriate regulatory authority, that represent the service supplier's recurring charges for local exchange access lines or their equivalent, exclusive of all taxes, fees, license costs, or similar charges.

(4) "Dispatch method" means the method of responding to a telephone request for emergency service by which a public safety answering point decides on the proper action to be taken and dispatches, when necessary, the appropriate emergency service unit.

(5) "Local exchange access lines" means all types of lines or trunks that connect a service user to the service supplier's local
telephone exchange office.

(6) "9-1-1 service" means a communications service that connects users to a public safety answering point through a 9-1-1 system.

(12) "Public safety agency" means the division of a public agency that provides fire-fighting, law enforcement, ambulance, medical, or other emergency services.

(13) "Public safety answering point" means a communications facility that:

(A) is operated continuously;

(B) is assigned the responsibility to receive 9-1-1 calls and, as appropriate, to dispatch emergency response services directly or to transfer or relay emergency 9-1-1 calls to other public safety agencies;

(C) is the first point of reception by a public safety agency of a 9-1-1 call; and

(D) serves the jurisdictions in which it is located or other participating jurisdictions.

(14) "Relay method" means the method of responding to a telephone request for emergency service by which a public safety answering point notes pertinent information and relays that information to the appropriate public safety agency or other provider of emergency services for appropriate action.

Amended by:
Acts 2013, 83rd Leg., R.S., Ch. 331 (H.B. 1972), Sec. 5, eff. September 1, 2013.

Sec. 772.002. INFORMATION RELATING TO COLLECTION AND REMITTANCE OF 9-1-1 EMERGENCY SERVICE FEE. (a) This section applies only to a district created under this chapter that collects a 9-1-1 emergency service fee from a service supplier or business service user. This section does not apply to an incumbent local exchange company as defined in Section 51.002, Utilities Code.

(b) The board of managers of a district by order may require a
service supplier or business service user to provide to the district any information the board requires so long as that information and the format requested are readily available for the service provider's records to determine whether the service provider or business service user is correctly billing and collecting the 9-1-1 emergency service fee and remitting the fee to the district. The information required from a service provider under this subsection may include:

(1) the number of local exchange access lines that the service provider has in the district; and

(2) the number of those local exchange access lines that the Commission on State Emergency Communications excluded from the definition of a local exchange access line or an equivalent local exchange access line under Section 771.063.

(c) The district shall maintain the confidentiality of information provided under this section that a service provider or business service user claims is confidential for competitive purposes. The confidential information is exempt from disclosure under Chapter 552, Government Code.

(d) The district may bring suit to enforce this section or to collect fees billed and collected by a service provider or business service user but not remitted to the district. In a proceeding to collect unremitted fees, a sworn affidavit of the district specifying the amount of unremitted fees is prima facie evidence that the fees were not remitted and of the amount of the unremitted fees.

(e) The Public Utility Commission of Texas may impose an administrative penalty under Subchapter B, Chapter 15, Utilities Code, against a service provider who is a person regulated under the Utilities Code if the person:

(1) does not provide information required by a district under this section; or

(2) bills and collects a 9-1-1 emergency service fee as required by this chapter but does not remit the fee to the appropriate district.

Added by Acts 2005, 79th Leg., Ch. 952 (H.B. 1583), Sec. 1, eff. September 1, 2005.
MOBILE SERVICE OR WIRELINE SERVICE. Defining "9-1-1 service" as a communications service and other amendments effective September 1, 2013, do not expand or change the authority or jurisdiction of a public agency or the commission over commercial mobile service or wireline service including Voice over Internet Protocol service or Internet Protocol enabled service or expand the authority of a public agency or the commission to assess 911 fees. Nothing in this chapter affects Section 52.002(d), Utilities Code. In this section, "Voice over Internet Protocol service," "Internet Protocol enabled service," and "commercial mobile service" have the meanings assigned by Sections 51.002 and 51.003, Utilities Code.

Added by Acts 2013, 83rd Leg., R.S., Ch. 331 (H.B. 1972), Sec. 11, eff. September 1, 2013.

SUBCHAPTER B. EMERGENCY COMMUNICATION DISTRICTS: COUNTIES WITH POPULATION OVER TWO MILLION

Sec. 772.101. SHORT TITLE. This subchapter may be cited as the 9-1-1 Emergency Number Act.

Sec. 772.102. PURPOSE. It is the purpose of this subchapter to establish the number 9-1-1 as the primary emergency telephone number for use by certain local governments in this state and to encourage units of local government and combinations of the units to develop and improve emergency communication procedures and facilities in a manner that makes possible the quick response to any person calling the telephone number 9-1-1 seeking police, fire, medical, rescue, and other emergency services. To this purpose the legislature finds that:

(1) it is in the public interest to shorten the time required for a citizen to request and receive emergency aid;

(2) there exist thousands of different emergency telephone numbers throughout the state, and telephone exchange boundaries and central office service areas do not necessarily correspond to public safety and political boundaries;

(3) a dominant part of the state's population is located in rapidly expanding metropolitan areas that generally cross the
boundary lines of local jurisdictions and often extend into two or more counties; and

(4) provision of a single, primary three-digit emergency number through which emergency services can be quickly and efficiently obtained would provide a significant contribution to law enforcement and other public safety efforts by making it less difficult to notify public safety personnel quickly.

Sec. 772.103. DEFINITIONS. In this subchapter:
(1) "Board" means the board of managers of a district.
(2) "District" means a communication district created under this subchapter.
(3) "Principal municipality" means the municipality with the largest population in a county.

Sec. 772.104. APPLICATION OF SUBCHAPTER. This subchapter applies to a county with a population of more than 3.3 million and the adjacent territory described by Section 772.105 in which a district was created under Chapter 97, Acts of the 68th Legislature, Regular Session, 1983, before January 1, 1988.

Sec. 772.105. TERRITORY OF DISTRICT. (a) The territory of a district consists of:
(1) the territory of the county for which the district is established; and
(2) for each municipality partially located in the county for which the district is established, the territory of that municipality located in another county.

(b) If a municipality that is part of a district annexes territory that is not part of the district, the annexed territory becomes part of the district.
(c) A public agency located wholly or partly in a county adjoining the county for which the district is created and that has received 9-1-1 service through a regional planning commission interlocal agreement with the district for at least 10 years may become part of the district by resolution of the agency's governing body and approval by the board.

Amended by:
Acts 2005, 79th Leg., Ch. 314 (S.B. 621), Sec. 1, eff. September 1, 2005.

Sec. 772.106. BOARD OF MANAGERS. (a) The district is governed by a board of managers consisting of:

(1) one member appointed by the commissioners court of the county;

(2) two members appointed by the mayor of the principal municipality, with approval of the city council;

(3) one member appointed jointly by the volunteer fire departments operating in whole or part in the district, with the selection process coordinated by the county fire marshal;

(4) one member appointed jointly by the municipalities other than the principal municipality that are participating jurisdictions; and

(5) one member appointed by the principal service supplier.

(b) The board member appointed by the principal service supplier is a nonvoting member.

(c) Board members are appointed for staggered terms of two years, with three members' terms expiring each year.

(d) A board member may be removed from office at will by the entity that appointed the member.

(e) A vacancy on the board shall be filled for the remainder of the term in the manner provided for the original appointment to that position.

(f) Board members serve without compensation. The district shall pay all expenses necessarily incurred by the board in performing its functions under this subchapter.

(g) The board may appoint from among its membership a presiding officer and any other officers it considers necessary.
(h) The director of the district or a board member may be appointed as secretary of the board. The board shall require the secretary to keep suitable records of all proceedings of each board meeting. After each meeting the presiding officer or other member presiding at the meeting shall read and sign the record and the secretary shall attest the record.

(i) A majority of the voting members of the board constitutes a quorum.

(j) Voting members of the board may meet in executive session in accordance with Chapter 551, Government Code.

Sec. 772.107. POWERS AND DUTIES OF BOARD. (a) The board shall name, control, and manage the district.

(b) The board may adopt rules for the operation of the district.

(c) The board may contract with any public or private entity to carry out the purposes of this subchapter, including the operation of a 9-1-1 system.

Sec. 772.108. DIRECTOR OF DISTRICT. (a) The board shall appoint a director of the district and shall establish the director's compensation. The director must be qualified by training and experience for the position.

(b) The board may remove the director at any time.

(c) With the board's approval, the director may employ any experts, employees, or consultants that the board considers necessary to carry out the purposes of this subchapter.

(d) The director shall perform all duties that the board requires and shall supervise as general manager the operations of the district subject to any limitations prescribed by the board.

Sec. 772.109. BUDGET; ANNUAL REPORT; AUDIT. (a) The director shall prepare under the direction of the board an annual budget for the district. To be effective, the budget must be approved by the board and then presented to and approved by the commissioners court of the county for which the district is established and the governing body of the principal municipality. A revision of the budget must be approved by the same entities in the same manner as the budget.

(b) As soon as practicable after the end of each district fiscal year, the director shall prepare and present to the board and to all participating public agencies in writing a sworn statement of all money received by the district and how the money was disbursed or otherwise disposed of during the preceding fiscal year. The report must show in detail the operations of the district for the period covered by the report.

(c) The board shall perform an independent financial audit of the district annually.

Sec. 772.110. ESTABLISHMENT OF 9-1-1 SERVICE. (a) A district shall provide 9-1-1 service to each participating jurisdiction through one or a combination of the following methods and features or equivalent state-of-the-art technology:

(1) the transfer method;
(2) the relay method;
(3) the dispatch method;
(4) automatic number identification;
(5) automatic location identification; or
(6) selective routing.

(b) A district shall provide 9-1-1 service using one or both of the following plans:

(1) the district may design, implement, and operate a 9-1-1 system for each participating jurisdiction with the consent of the jurisdiction; or

(2) the district may design, implement, and operate a 9-1-1 system for two or more participating jurisdictions with the consent of each of those jurisdictions if a joint operation would be more economically feasible than separate systems for each jurisdiction.
(c) Under either plan authorized by Subsection (b), the final plans for the particular system must have the approval of each participating jurisdiction covered by the system.

(d) The district shall recommend minimum standards for a 9-1-1 system. A 9-1-1 system in a district under this subchapter must be computerized.

(e) 9-1-1 service is mandatory for each individual telephone subscriber in the district and is not an optional service under any definitions of terms relating to telephone service.

(f) A service supplier involved in providing 9-1-1 service, a manufacturer of equipment used in providing 9-1-1 service, or an officer or employee of a service supplier involved in providing 9-1-1 service is not liable for any claim, damage, or loss arising from the provision of 9-1-1 service unless the act or omission proximately causing the claim, damage, or loss constitutes gross negligence, recklessness, or intentional misconduct.

Sec. 772.111. PRIMARY EMERGENCY TELEPHONE NUMBER. The digits 9-1-1 are the primary emergency telephone number in a district. A public safety agency whose services are available through a 9-1-1 system may maintain a separate number or numbers for emergencies and shall maintain a separate number or numbers for nonemergency telephone calls.

Sec. 772.112. TRANSMITTING REQUESTS FOR EMERGENCY AID. (a) A 9-1-1 system established under this subchapter must be capable of transmitting requests for fire-fighting, law enforcement, ambulance, and medical services to a public safety agency or agencies that provide the requested service at the place from which the call originates. A 9-1-1 system may also provide for transmitting requests for other emergency services such as poison control, suicide prevention, and civil defense.

(b) A public safety answering point may transmit emergency response requests to private safety entities.
(c) With the consent of a participating jurisdiction, a privately owned automatic intrusion alarm or other privately owned automatic alerting device may be installed to cause the number 9-1-1 to be dialed in order to gain access to emergency services.

Sec. 772.113. POWERS OF DISTRICT. (a) The district is a public body corporate and politic, exercising public and essential governmental functions and having all the powers necessary or convenient to carry out the purposes and provisions of this subchapter, including the capacity to sue or be sued.

(b) To fund the district, the district may receive federal, state, county, or municipal funds and private funds and may spend those funds for the purpose of this subchapter. The board shall determine the method and sources of funding for the district.

Sec. 772.114. 9-1-1 EMERGENCY SERVICE FEE. (a) The board may impose a 9-1-1 emergency service fee on service users in the district if authorized to do so by a majority of the votes cast in the election to confirm the creation of the district and by a majority vote of the governing body of each participating jurisdiction. For purposes of this subsection, the jurisdiction of the county is the unincorporated area of the county.

(b) The fee may be imposed only on the base rate charge or its equivalent, excluding charges for coin-operated telephone equipment. The fee may not be imposed on more than 100 local exchange access lines or their equivalent for a single business entity at a single location, unless the lines are used by residents of the location. The fee may also not be imposed on any line that the Advisory Commission on State Emergency Communications excluded from the definition of a local exchange access line or an equivalent local exchange access line pursuant to Section 771.063. If a business service user provides residential facilities, each line that terminates at a residential unit and that is a communication link equivalent to a residential local exchange access line, shall be charged the 9-1-1 emergency service fee. The fee must have uniform
application and must be imposed in each participating jurisdiction.

(c) The rate of the fee may not exceed six percent of the monthly base rate charged a service user by the principal service supplier in the participating jurisdiction.

(d) The board shall set the amount of the fee each year as part of the annual budget. The board shall notify each service supplier of a change in the amount of the fee not later than the 91st day before the date the change takes effect.

(e) In imposing the fee, the board shall attempt to match the district's revenues to its operating expenditures and to provide reasonable reserves for contingencies and for the purchase and installation of 9-1-1 emergency service equipment. If the revenue received from the fee exceeds the amount of money needed to fund the district, the board by resolution shall reduce the rate of the fee to an amount adequate to fund the district as required by this subsection or suspend the imposition of the fee. If the board suspends the imposition of the fee, the board by resolution may reinstitute the fee if money received by the district is not adequate to fund the district.

(f) In a public agency whose governing body at a later date votes to receive 9-1-1 service from the district, at a later date, the fee is imposed beginning on the date specified by the board. The board may charge the incoming agency an additional amount of money to cover the initial cost of providing 9-1-1 service to that agency. The fee authorized to be charged in a district applies to new territory added to the district under Section 772.105(b) when the territory becomes part of the district.

Acts 2005, 79th Leg., Ch. 1342 (S.B. 314), Sec. 1, eff. September 1, 2005.

Sec. 772.115. COLLECTION OF FEE. (a) Each billed service user is liable for the fee imposed under Section 772.114 until the fee is paid to the service supplier. The fee must be added to and stated separately in the service user's bill from the service supplier. The
service supplier shall collect the fee at the same time as the
service charge to the service user in accordance with the regular
billing practice of the service supplier. A business service user
that provides residential facilities and owns or leases a publicly or
privately owned telephone switch used to provide telephone service to
facility residents shall collect the 9-1-1 emergency service fee and
transmit the fees monthly to the district.

(b) The amount collected by a service supplier from the fee is
due quarterly. The service supplier shall remit the amount collected
in a calendar quarter to the district not later than the 60th day
after the last day of the calendar quarter. With each payment the
service supplier shall file a return in a form prescribed by the
board.

(c) Both a service supplier and a business service user under
Subsection (a) shall maintain records of the amount of fees it
collects for at least two years after the date of collection. The
board may require at the board's expense an annual audit of a service
supplier's books and records or the books and records of a business
service user described by Subsection (a) with respect to the
collection and remittance of the fees.

(d) A business service user that does not collect and remit the
9-1-1 emergency service fee as required is subject to a civil cause
of action under Subsection (g). A sworn affidavit by the district
specifying the unremitted fees is prima facie evidence that the fees
were not remitted and of the amount of the unremitted fees.

(e) A service supplier is entitled to retain an administrative
fee from the amount of fees it collects. The amount of the
administrative fee is two percent of the amount of fees it collects
under this section.

(f) A service supplier is not required to take any legal action
to enforce the collection of the 9-1-1 emergency service fee.
However, the service supplier shall provide the district with an
annual certificate of delinquency that includes the amount of all
delinquent fees and the name and address of each nonpaying service
user. The certificate of delinquency is prima facie evidence that a
fee included in the certificate is delinquent. A service user
account is considered delinquent if the fee is not paid to the
service supplier before the 31st day after the payment due date
stated on the user's bill from the service supplier.

(g) The district may institute legal proceedings to collect
fees not paid and may establish internal collection procedures and recover the cost of collection from the nonpaying service user. If legal proceedings are established, the court may award the district court costs, attorney's fees, and interest to be paid by the nonpaying service user. A delinquent fee accrues interest at an annual rate of 12 percent beginning on the date the payment becomes due.

Sec. 772.116. DISTRICT DEPOSITORY. (a) The board shall select a depository for the district in the manner provided by law for the selection of a county depository.

(b) A depository selected by the board is the district's depository for two years after the date of its selection and until a successor depository is selected and qualified.

Sec. 772.117. ALLOWABLE EXPENSES. Allowable operating expenses of a district include all costs attributable to designing a 9-1-1 system and to all equipment and personnel necessary to establish and operate a public safety answering point and other related answering points that the board considers necessary.

Sec. 772.118. NUMBER AND LOCATION IDENTIFICATION. (a) As part of computerized 9-1-1 service, a service supplier shall furnish for each call the telephone number of the subscribers and the address associated with the number.

(b) A business service user that provides residential facilities and owns or leases a publicly or privately owned telephone switch used to provide telephone service to facility residents shall provide to those residential end users the same level of 9-1-1 service that a service supplier is required to provide under
Subsection (a) to other residential end users in the district.

(c) Information furnished under this section is confidential and is not available for public inspection.

(d) A service supplier or a business service user under Subsection (b) is not liable to a person who uses a 9-1-1 system created under this subchapter for the release to the district of the information specified in Subsections (a) and (b).

Sec. 772.119. PUBLIC REVIEW. (a) Periodically, the board shall solicit public comments and hold a public review hearing on the continuation of the district and the 9-1-1 emergency service fee. The first hearing shall be held three years after the date the order certifying the creation of the district is filed with the county clerk. Subsequent hearings shall be held three years after the date each order required by Subsection (d) is adopted.

(b) The board shall publish notice of the time and place of the hearing once a week for two consecutive weeks in a daily newspaper of general circulation published in the district. The first notice must be published not later than the 16th day before the date set for the hearing.

(c) At the hearing, the board shall also solicit comments on the participation of the district in the applicable regional plan for 9-1-1 service under Chapter 771. After the hearing, the board may choose to participate in the regional plan as provided by that chapter.

(d) After the hearing, the board shall adopt an order on the continuation or dissolution of the district and the 9-1-1 emergency service fee.

Sec. 772.120. DISSOLUTION PROCEDURES. (a) If a district is dissolved, 9-1-1 service must be discontinued on the date of the dissolution. The commissioners court of the county in which the principal part of the district was located shall assume the assets of
the district and pay the district's debts. If the district's assets are insufficient to retire all existing debts of the district on the date of dissolution, the commissioners court shall continue to impose the 9-1-1 service fee, and each service supplier shall continue to collect the fee for the commissioners court. Proceeds from the imposition of the fee by the county after dissolution of the district may be used only to retire the outstanding debts of the district.

(b) The commissioners court shall retire the district's debts to the extent practicable according to the terms of the instruments creating the debts and the terms of the orders and resolutions authorizing creation of the debts.

(c) The commissioners court by order may adopt the rules necessary to administer this section.

Sec. 772.121. ISSUANCE OF BONDS. The board may issue and sell bonds in the name of the district to finance:

(1) the acquisition by any method of facilities, equipment, or supplies necessary for the district to begin providing 9-1-1 service to all participating jurisdictions; or

(2) the installation of equipment necessary for the district to begin providing 9-1-1 service to all participating jurisdictions.

Sec. 772.122. REPAYMENT OF BONDS. The board may provide for the payment of principal of and interest on the bonds by pledging all or any part of the district's revenues from the 9-1-1 emergency service fee or from other sources.

Sec. 772.123. ADDITIONAL SECURITY FOR BONDS. (a) The bonds may be additionally secured by a deed of trust or mortgage lien on part or all of the physical properties of the district and rights appurtenant to those properties, vesting in the trustee power to sell
the properties for payment of the indebtedness, power to operate the properties, and all other powers necessary for the further security of the bonds.

(b) The trust indenture, regardless of the existence of the deed of trust or mortgage lien on the properties, may contain provisions prescribed by the board for the security of the bonds and the preservation of the trust estate, may make provisions for amendment or modification, and may make provisions for investment of funds of the district.

(c) A purchaser under a sale under the deed of trust or mortgage lien is the absolute owner of the properties and rights purchased and may maintain and operate them.

Sec. 772.124. FORM OF BONDS. (a) A district may issue its bonds in various series or issues.

(b) Bonds may mature serially or otherwise not more than 25 years after their date of issue and shall bear interest at any rate permitted by state law.

(c) A district's bonds and interest coupons, if any, are investment securities under the terms of Chapter 8, Business & Commerce Code, may be issued registrable as to principal or as to both principal and interest, and may be made redeemable before maturity, at the option of the district, or contain a mandatory redemption provision.

(d) A district may issue its bonds in the form, denominations, and manner and under the terms, and the bonds shall be signed and executed, as provided by the board in the resolution or order authorizing their issuance.

Sec. 772.125. PROVISIONS OF BONDS. (a) In the orders or resolutions authorizing the issuance of bonds, including refunding bonds, the board may provide for the flow of funds and the establishment and maintenance of the interest and sinking fund, the reserve fund, and other funds, and may make additional covenants with respect to the bonds, the pledged revenues, and the operation and
maintenance of any facilities the revenue of which is pledged.

(b) The orders or resolutions of the board authorizing the issuance of bonds may also prohibit the further issuance of bonds or other obligations payable from the pledged revenue or may reserve the right to issue additional bonds to be secured by a pledge of and payable from the revenue on a parity with or subordinate to the lien and pledge in support of the bonds being issued.

(c) The orders or resolutions of the board issuing bonds may contain other provisions and covenants as the board may determine.

(d) The board may adopt and have executed any other proceedings or instruments necessary and convenient in the issuance of bonds.

Sec. 772.126. APPROVAL AND REGISTRATION OF BONDS. (a) Bonds issued by a district must be submitted to the attorney general for examination.

(b) If the attorney general finds that the bonds have been authorized in accordance with law, the attorney general shall approve them. On approval by the attorney general, the comptroller shall register the bonds.

(c) After the approval and registration of bonds, the bonds are incontestable in any court or other forum for any reason and are valid and binding obligations in accordance with their terms for all purposes.

Sec. 772.127. REFUNDING BONDS. (a) A district may issue bonds to refund all or any part of its outstanding bonds, including matured but unpaid interest coupons.

(b) Refunding bonds shall mature serially or otherwise not more than 25 years after their date of issue and shall bear interest at any rate or rates permitted by state law.

(c) Refunding bonds may be payable from the same source as the bonds being refunded or from other sources.

(d) The refunding bonds must be approved by the attorney general in the same manner as the district's other bonds and shall be registered by the comptroller on the surrender and cancellation of
the bonds being refunded.

(e) The orders or resolutions authorizing the issuance of the refunding bonds may provide that they be sold and the proceeds deposited in the place or places at which the bonds being refunded are payable, in which case the refunding bonds may be issued before the cancellation of the bonds being refunded. If refunding bonds are issued before cancellation of the other bonds, an amount sufficient to pay the principal of the bonds being refunded and interest on those bonds accruing to their maturity dates or to their option dates if the bonds have been duly called for payment before maturity according to their terms shall be deposited in the place or places at which the bonds being refunded are payable. The comptroller shall register the refunding bonds without the surrender and cancellation of bonds being refunded.

(f) A refunding may be accomplished in one or in several installment deliveries. Refunding bonds and their interest coupons are investment securities under Chapter 8, Business & Commerce Code.

(g) In lieu of the method set forth in Subsections (a)-(f), a district may refund bonds, notes, or other obligations as provided by the general laws of the state.

Sec. 772.128. BONDS AS INVESTMENTS AND SECURITY FOR DEPOSITS.
(a) District bonds are legal and authorized investments for:
   (1) a bank;
   (2) a savings bank;
   (3) a trust company;
   (4) a savings and loan association;
   (5) an insurance company;
   (6) a fiduciary;
   (7) a trustee;
   (8) a guardian; and
   (9) a sinking fund of a municipality, county, school district, and other political subdivision of the state and other public funds of the state and its agencies, including the permanent school fund.

(b) District bonds are eligible to secure deposits of public funds of the state and municipalities, counties, school districts,
and other political subdivisions of the state. The bonds are lawful and sufficient security for deposits to the extent of their value when accompanied by all unmatured coupons.

Sec. 772.129. TAX STATUS OF BONDS. Because a district created under this subchapter is a public entity performing an essential public function, bonds issued by the district, any transaction relating to the bonds, and profits made in the sale of the bonds are exempt from taxation by the state or by any municipality, county, special district, or other political subdivision of the state.

SUBCHAPTER C. EMERGENCY COMMUNICATION DISTRICTS: COUNTIES WITH POPULATION OVER 1.5 MILLION

Sec. 772.201. SHORT TITLE. This subchapter may be cited as the Emergency Communication District Act.

Sec. 772.202. PURPOSE. It is the purpose of this subchapter to establish the number 9-1-1 as the primary emergency telephone number for use by certain local governments in this state and to encourage units of local government and combinations of those units to develop and improve emergency communication procedures and facilities in a manner that will make possible the quick response to any person calling the telephone number 9-1-1 seeking police, fire, medical, rescue, and other emergency services. To this purpose the legislature finds that:

(1) it is in the public interest to shorten the time required for a citizen to request and receive emergency aid;

(2) there exist thousands of different emergency telephone numbers throughout the state, and telephone exchange boundaries and central office service areas do not necessarily correspond to public safety and political boundaries;

(3) a dominant part of the state's population is located in
rapidly expanding metropolitan areas that generally cross the boundary lines of local jurisdictions and often extend into two or more counties; and

(4) provision of a single, primary three-digit emergency number through which emergency services can be quickly and efficiently obtained would provide a significant contribution to law enforcement and other public safety efforts by making it less difficult to notify public safety personnel quickly.

Sec. 772.203. DEFINITIONS. In this subchapter:
(1) "Board" means the board of managers of a district.
(2) "Director" means the director of communication for a district.
(3) "District" means an emergency communication district created under this subchapter.

Sec. 772.204. APPLICATION OF SUBCHAPTER. This subchapter applies to a county with a population of more than 1.5 million in which an emergency communication district was created under Chapter 7, Acts of the 68th Legislature, 2nd Called Session, 1984, before January 1, 1988.

Acts 1989, 71st Leg., ch. 678, Sec. 1, eff. Sept. 1, 1989. Amended by:
Acts 2011, 82nd Leg., R.S., Ch. 1163 (H.B. 2702), Sec. 51, eff. September 1, 2011.

Sec. 772.205. ADDITIONAL TERRITORY. (a) If a municipality that is part of a district annexes territory that is not part of the district, the annexed territory becomes part of the district.

(b) A public agency located in the county for which the district is created or a public agency located in whole or part in a county adjoining the county for which the district is created, by resolution adopted by its governing body and approved by the board of
the district, may become part of the district and subject to its
benefits and requirements.

Sec. 772.206. BOARD OF MANAGERS. (a) A district is governed
by a board of managers consisting of:

(1) one member appointed by the commissioners court of the
county for which the district is established;

(2) two members appointed by the governing body of the most
populous municipality located wholly or partly in the county for
which the district is established, if that municipality has a
population of more than 150,000, or, if that municipality has a
population of 150,000 or less, one member appointed by the governing
body;

(3) one member appointed by the governing body of the
second most populous municipality located wholly or partly in the
county for which the district is established;

(4) one member appointed by the governing body of the third
most populous municipality located wholly or partly in the county for
which the district is established;

(5) one member appointed by the principal service supplier;

(6) one member appointed by the governing body of the most
populous municipality that is a member of the district and is located
wholly outside the county for which the district is established; and

(7) one member appointed as provided by this section to
represent the other municipalities located wholly or partly in the
district.

(b) The board member appointed by the principal service
supplier is a nonvoting member.

(c) The board member appointed under Subsection (a)(7) is
appointed by the mayor's council established to administer urban
development block grant funds, if one exists in the district.
Otherwise, the member is appointed by the other members of the board
on the advice and recommendation of the governing bodies of all the
municipalities represented by the member. The governing bodies of
those municipalities, by agreement of their presiding officers, shall
set the time and place to meet and the procedures for selecting the
board member.
(d) Board members are appointed for staggered terms of two years, with as near as possible to one-half of the members' terms expiring each year.

(e) A board member may be removed from office at will by the entity that appointed the member.

(f) A vacancy on the board shall be filled for the remainder of the term in the manner provided for the original appointment to that position.

(g) Board members serve without compensation. The district shall pay all expenses necessarily incurred by the board in performing its functions under this subchapter.

(h) The board may appoint from among its membership a presiding officer and any other officers it considers necessary.

(i) The director or a board member may be appointed as secretary of the board. The board shall require the secretary to keep suitable records of all proceedings of each board meeting. After each meeting the presiding officer at the meeting shall read and sign the record and the secretary shall attest the record.

(j) Voting members of the board may meet in executive session in accordance with Chapter 551, Government Code.

(k) A majority of the voting members of the board constitutes a quorum.

Sec. 772.207. POWERS AND DUTIES OF BOARD. (a) The board shall control and manage the district.

(b) The board may adopt rules for the operation of the district.

(c) The board may contract with any public or private entity to carry out the purposes of this subchapter, including the operation of a 9-1-1 system.

Sec. 772.208. DIRECTOR OF DISTRICT. (a) The board shall
appoint a director of communication for the district and shall establish the director's compensation. The director must be qualified by training and experience for the position.

(b) The board may remove the director at any time.

(c) With the board's approval, the director may employ any experts, employees, or consultants that the director considers necessary to carry out the purposes of this subchapter.

(d) The director shall perform all duties that the board requires and shall supervise as general manager the operations of the district subject to any limitations prescribed by the board.

Sec. 772.209. BUDGET; ANNUAL REPORT; AUDIT. (a) The director shall prepare under the direction of the board an annual budget for the district. To be effective, the budget must:

(1) be approved by the board;

(2) be presented to the commissioners court of the county in which the majority of the district is located;

(3) be presented to the governing body of each municipality eligible to appoint a member of the board of managers under Sections 772.206(a)(2)-(4) and (6);

(4) be presented to the governing body of each other participating jurisdiction as provided by Subsection (b); and

(5) subject to Subsection (c), be approved by a majority of the entities to which the budget must be presented under Subdivisions (2) through (4).

(b) For purposes of Subsection (a)(4), the proposed budget must be presented to:

(1) the mayor's council established to administer urban development block grant funds, if one exists in the district; or

(2) if a mayor's council does not exist in the district, the governing bodies of the other participating jurisdictions.

(c) For the purpose of determining approval by a majority under Subsection (a)(5) if the budget is required to be presented under Subsection (b)(2), the other participating jurisdictions are considered to be acting jointly as one entity.

(d) A revision of the budget must be approved in the same manner as the budget.
(e) As soon as practicable after the end of each district fiscal year, the director shall prepare and present to the board and to each participating jurisdiction in writing a sworn statement of all money received by the district and how the money was used during the preceding fiscal year. The report must state in detail the operations of the district for the fiscal year covered by the report.

(f) The board shall have an independent financial audit of the district performed annually.

Sec. 772.210. ESTABLISHMENT OF 9-1-1 SERVICE. (a) A district shall provide 9-1-1 service to each participating jurisdiction through one or a combination of the following methods and features:

(1) the transfer method;
(2) the relay method;
(3) the dispatch method;
(4) automatic number identification;
(5) automatic location identification;
(6) selective routing; or
(7) any equivalent method.

(b) A district shall provide 9-1-1 service using one or both of the following plans:

(1) the district may design, implement, and operate a 9-1-1 system for each participating jurisdiction with the consent of the jurisdiction; or

(2) the district may design, implement, and operate a 9-1-1 system for two or more participating jurisdictions with the consent of each of those jurisdictions if a joint operation would be more economically feasible than separate systems for each jurisdiction.

(c) Under either plan authorized by Subsection (b), the final plans for the particular system must have the approval of each participating jurisdiction covered by the system.

(d) The district shall recommend minimum standards for a 9-1-1 system. A 9-1-1 system in a district created under this subchapter must be computerized.

(e) A service supplier involved in providing 9-1-1 service, a manufacturer of equipment used in providing 9-1-1 service, or an
officer or employee of a service supplier involved in providing 9-1-1 service is not liable for any claim, damage, or loss arising from the provision of 9-1-1 service unless the act or omission proximately causing the claim, damage, or loss constitutes gross negligence, recklessness, or intentional misconduct.

Sec. 772.211. PRIMARY EMERGENCY TELEPHONE NUMBER. The digits 9-1-1 are the primary emergency telephone number in a district. A public safety agency whose services are available through a 9-1-1 system may maintain a separate number or numbers for emergencies and shall maintain a separate number or numbers for nonemergency telephone calls.

Sec. 772.212. TRANSMITTING REQUESTS FOR EMERGENCY AID. (a) A 9-1-1 system established under this subchapter must be capable of transmitting requests for fire-fighting, law enforcement, ambulance, and medical services to a public safety agency or agencies that provide the requested service at the place from which the call originates. A 9-1-1 system may also provide for transmitting requests for other emergency services, such as poison control, suicide prevention, and civil defense, with the approval of the board and the consent of the participating jurisdiction.

(b) A public safety answering point may transmit emergency response requests to private safety entities, with the approval of the board and the consent of the participating jurisdiction.

(c) With the consent of a participating jurisdiction, a privately owned automatic intrusion alarm or other privately owned automatic alerting device may be installed to cause the number 9-1-1 to be dialed in order to gain access to emergency services.

Sec. 772.213. POWERS OF DISTRICT. (a) The district is a body
corporate and politic, exercising public and essential governmental functions and having all the powers necessary or convenient to carry out the purposes and provisions of this subchapter, including the capacity to sue or be sued.

(b) To fund the district, the district may apply for, accept, and receive federal, state, county, or municipal funds and private funds and may spend those funds for the purposes of this subchapter. The board shall determine the method and sources of funding for the district.

Sec. 772.214. 9-1-1 EMERGENCY SERVICE FEE. (a) The board may impose a 9-1-1 emergency service fee on service users in the district.

(b) The fee may be imposed only on the base rate charge or its equivalent, excluding charges for coin-operated telephone equipment. The fee may not be imposed on more than 100 local exchange access lines or their equivalent for a single business entity at a single location, unless the lines are used by residents of the location. The fee may also not be imposed on any line that the Advisory Commission on State Emergency Communications excluded from the definition of a local exchange access line or an equivalent local exchange access line pursuant to Section 771.063. If a business service user provides residential facilities, each line that terminates at a residential unit and that is a communication link equivalent to a residential local exchange access line shall be charged the 9-1-1 emergency service fee. The fee must have uniform application and must be imposed in each participating jurisdiction.

(c) The rate of the fee may not exceed six percent of the monthly base rate charged a service user by the principal service supplier in the participating jurisdiction.

(d) The board shall set the amount of the fee each year as part of the annual budget. The board shall notify each service supplier of a change in the amount of the fee not later than the 91st day before the date the change takes effect.

(e) In imposing the fee, the board shall attempt to match the district's revenues to its operating expenditures and to provide reasonable reserves for contingencies and for the purchase and

installation of 9-1-1 emergency service equipment. If the revenue received from the fee exceeds the amount of money needed to fund the district, the board by resolution shall reduce the rate of the fee to an amount adequate to fund the district or suspend the imposition of the fee. If the board suspends the imposition of the fee, the board by resolution may reinstitute the fee if money received by the district is not adequate to fund the district.

(f) In a public agency whose governing body at a later date votes to receive 9-1-1 service from the district, the fee is imposed beginning on the date the board approves making the public agency a participating jurisdiction. The fee authorized to be charged in a district applies to new territory added to the district when the territory becomes part of the district.

Acts 2005, 79th Leg., Ch. 1340 (S.B. 171), Sec. 1, eff. September 1, 2005.

Sec. 772.215. COLLECTION OF FEE. (a) Each billed service user is liable for the fee imposed under Section 772.214 until the fee is paid to the service supplier. The fee must be added to and stated separately in the service user's bill from the service supplier. The service supplier shall collect the fee at the same time as the service charge to the service user in accordance with the regular billing practice of the service supplier. A business service user that provides residential facilities and owns or leases a publicly or privately owned telephone switch used to provide telephone service to facility residents shall collect the 9-1-1 emergency service fee and transmit the fees monthly to the district.

(b) The amount collected by a service supplier from the fee is due monthly. The service supplier shall remit the amount collected in a calendar month to the district not later than the 60th day after the last day of the calendar month. With each payment the service supplier shall file a return in a form prescribed by the board.

(c) Both a service supplier and a business service user under Subsection (a) shall maintain records of the amount of fees it
collects for at least two years after the date of collection. The board may require at the board's expense an annual audit of a service supplier's books and records or the books and records of a business service user described by Subsection (a) with respect to the collection and remittance of the fees.

(d) A business service user that does not collect and remit the 9-1-1 emergency service fee as required is subject to a civil cause of action under Subsection (g). A sworn affidavit by the district specifying the unremitted fees is prima facie evidence that the fees were not remitted and of the amount of the unremitted fees.

(e) A service supplier is entitled to retain an administrative fee from the amount of fees it collects. The amount of the administrative fee is two percent of the amount of fees it collects under this section.

(f) A service supplier is not required to take any legal action to enforce the collection of the 9-1-1 emergency service fee. However, the service supplier shall provide the district with an annual certificate of delinquency that includes the amount of all delinquent fees and the name and address of each nonpaying service user. The certificate of delinquency is prima facie evidence that a fee included in the certificate is delinquent. A service user account is considered delinquent if the fee is not paid to the service supplier before the 31st day after the payment due date stated on the user's bill from the service supplier.

(g) The district may institute legal proceedings to collect fees not paid and may establish internal collection procedures and recover the cost of collection from the nonpaying service user. If the district prevails in legal proceedings instituted to collect a fee, the court may award the district court costs, attorney's fees, and interest in addition to other amounts recovered. A delinquent fee accrues interest at an annual rate of 12 percent beginning on the date the payment becomes due.

Sec. 772.216. DISTRICT DEPOSITORY. (a) The board shall select a depository for the district in the manner provided by law for the
selection of a county depository.

(b) A depository selected by the board is the district's depository for two years after the date of its selection and until a successor depository is selected and qualified.

Sec. 772.217. ALLOWABLE EXPENSES. Allowable operating expenses of a district include all costs attributable to designing and operating a 9-1-1 system and costs for related services that the board considers necessary.

Sec. 772.218. NUMBER AND LOCATION IDENTIFICATION. (a) As part of computerized 9-1-1 service, a service supplier shall furnish for each call the telephone number of the subscriber and the address associated with the number.

(b) A business service user that provides residential facilities and owns or leases a publicly or privately owned telephone switch used to provide telephone service to facility residents shall provide to those residential end users the same level of 9-1-1 service that a service supplier is required to provide under Subsection (a) to other residential end users in the district.

(c) Information furnished under this section is confidential and is not available for public inspection.

(d) A business service user that owns or leases a publicly or privately owned telephone switch used to provide telephone services to nonaffiliated businesses shall provide to those business end users the same level of 9-1-1 service that a service supplier is required to provide under Subsection (a) to other business end users in the district.

(e) A business service user that owns or leases a publicly or privately owned telephone switch used to consolidate telephone services at two or more physical addresses shall provide a level of 9-1-1 service that identifies an accurate physical address and telephone number for each 9-1-1 call. For purposes of this section, each floor of a multitenant building is a different physical address.
(f) A hotel, motel, or similar lodging facility that does not operate with a 24-hour, seven-day on-site telephone operator must use a system that furnishes the telephone number and location of the individual unit from which a 9-1-1 call is placed.

(g) A service supplier, business service user, or lodging facility that implements the network and database enhancements necessary to provide a service described in Subsection (b), (d), (e), or (f), including a supplier, user, or facility that is not required to provide the service, is not liable to a person who uses a 9-1-1 system created under this subchapter for the release to the district of the information specified in this section.

(h) Subsections (d) and (e) do not apply to a telecommunications system installed by a public school district or a state agency.

(i) Subsections (d), (e), and (f) apply only to a telecommunications system installed on or after September 1, 2003.

Sec. 772.219. PUBLIC REVIEW. (a) Periodically, the board shall solicit public comments and hold a public review hearing on the continuation of the district and the 9-1-1 emergency service fee. The first hearing shall be held three years after the date the order certifying the creation of the district is filed with the county clerk. Subsequent hearings shall be held three years after the date each order required by Subsection (d) is adopted.

(b) The board shall publish notice of the time and place of the hearing once a week for two consecutive weeks in a daily newspaper of general circulation published in the district. The first notice must be published not later than the 16th day before the date set for the hearing.

(c) At the hearing, the board shall also solicit comments on the participation of the district in the applicable regional plan for 9-1-1 service under Chapter 771. After the hearing, the board may choose to participate in the regional plan as provided by that chapter.
(d) After the hearing, the board shall adopt an order on the continuation or dissolution of the district and the 9-1-1 emergency service fee.

Sec. 772.220. DISSOLUTION PROCEDURES. (a) If a district is dissolved, 9-1-1 service must be discontinued on the date of the dissolution. The commissioners court of the county in which the district was located shall assume the assets of the district and pay the district's debts. If the district's assets are insufficient to retire the outstanding bonded indebtedness of the district, the commissioners court shall continue to impose the 9-1-1 service fee, and each service supplier shall continue to collect the fee for the commissioners court. Proceeds from the imposition of the fee after dissolution of the district may be used only to retire the outstanding bonded indebtedness of the district.

(b) The commissioners court shall retire the district's indebtedness to the extent practicable according to the terms of the bonds and the terms of the orders and resolutions authorizing issuance of the bonds.

(c) The commissioners court by order may adopt the rules necessary to administer this section.

Sec. 772.221. ISSUANCE OF BONDS. The board may issue and sell bonds in the name of the district to finance:

(1) the acquisition by any method of facilities, equipment, or supplies necessary for the district to begin providing 9-1-1 service to all participating jurisdictions; and

(2) the installation of equipment necessary for the district to begin providing 9-1-1 service to all participating jurisdictions.

Sec. 772.222. REPAYMENT OF BONDS. The board may provide for
the payment of the principal of and interest on the bonds by pledging all or any part of the district's revenues from the 9-1-1 emergency service fee or from other sources.

Sec. 772.223. ADDITIONAL SECURITY FOR BONDS. (a) The bonds may be additionally secured by a deed of trust or mortgage lien on part or all of the physical properties of the district and rights appurtenant to those properties, vesting in the trustee power to sell the properties for payment of the indebtedness, power to operate the properties, and all other powers necessary for the further security of the bonds.

(b) The trust indenture, regardless of the existence of the deed of trust or mortgage lien on the properties, may include provisions prescribed by the board for the security of the bonds and the preservation of the trust estate and may make provisions for investment of funds of the district.

(c) A purchaser under a sale under the deed of trust or mortgage lien is the absolute owner of the properties and rights purchased and may maintain and operate them.

Sec. 772.224. FORM OF BONDS. (a) A district may issue its bonds in various series or issues.

(b) Bonds may mature serially or otherwise not more than 25 years after their date of issue and shall bear interest at any rate permitted by state law.

(c) A district's bonds and interest coupons, if any, are investment securities under the terms of Chapter 8, Business & Commerce Code, may be issued registrable as to principal or as to both principal and interest, and may be made redeemable before maturity, at the option of the district, or contain a mandatory redemption provision.

(d) A district may issue its bonds in the form, denominations, and manner and under the terms, and the bonds shall be signed and executed, as provided by the board in the resolution or order authorizing their issuance.
Sec. 772.225. PROVISIONS OF BONDS. (a) In the orders or resolutions authorizing the issuance of bonds, including refunding bonds, the board may provide for the flow of funds and the establishment and maintenance of the interest and sinking fund, the reserve fund, and other funds and may make additional covenants with respect to the bonds, the pledged revenues, and the operation and maintenance of any facilities, the revenue of which is pledged.

(b) The orders or resolutions of the board authorizing the issuance of bonds may also prohibit the further issuance of bonds or other obligations payable from the pledged revenue or may reserve the right to issue additional bonds to be secured by a pledge of and payable from the revenue on a parity with or subordinate to the lien and pledge in support of the bonds being issued.

(c) The orders or resolutions of the board issuing bonds may contain other provisions and covenants as the board may determine.

(d) The board may adopt and have executed any other proceedings or instruments necessary and convenient in the issuance of bonds.

Sec. 772.226. APPROVAL AND REGISTRATION OF BONDS. (a) Bonds issued by a district must be submitted to the attorney general for examination.

(b) If the attorney general finds that the bonds have been authorized in accordance with law, the attorney general shall approve them. On approval by the attorney general, the comptroller shall register the bonds.

(c) After the approval and registration of bonds, the bonds are incontestable in any court or other forum for any reason and are valid and binding obligations according to their terms for all purposes.

Sec. 772.227. REFUNDING BONDS. (a) A district may issue bonds to refund all or any part of its outstanding bonds, including matured
but unpaid interest coupons.

(b) Refunding bonds shall mature serially or otherwise not more than 25 years after their date of issue and shall bear interest at any rate or rates permitted by state law.

(c) Refunding bonds may be payable from the same source as the bonds being refunded or from other sources.

(d) The refunding bonds must be approved by the attorney general as provided by Section 772.226 and shall be registered by the comptroller on the surrender and cancellation of the bonds being refunded.

(e) The orders or resolutions authorizing the issuance of the refunding bonds may provide that they be sold and the proceeds deposited in the place or places at which the bonds being refunded are payable, in which case the refunding bonds may be issued before the cancellation of the bonds being refunded. If refunding bonds are issued before cancellation of the other bonds, an amount sufficient to pay the principal of the bonds being refunded and interest on those bonds accruing to their maturity dates or to their option dates if the bonds have been duly called for payment before maturity according to their terms shall be deposited in the place or places at which the bonds being refunded are payable. The comptroller shall register the refunding bonds without the surrender and cancellation of bonds being refunded.

(f) A refunding may be accomplished in one or in several installment deliveries. Refunding bonds and their interest coupons are investment securities under Chapter 8, Business & Commerce Code.

(g) In lieu of the method set forth in Subsections (a)-(f), a district may refund bonds, notes, or other obligations as provided by the general laws of this state.

(6) a fiduciary;
(7) a trustee;
(8) a guardian; and
(9) a sinking fund of a municipality, county, school district, and other political subdivision of the state and other public funds of the state and its agencies, including the permanent school fund.

(b) District bonds are eligible to secure deposits of public funds of the state and municipalities, counties, school districts, and other political subdivisions of the state. The bonds are lawful and sufficient security for deposits to the extent of their value when accompanied by all unmatured coupons.

Sec. 772.229. TAX STATUS OF BONDS. Because a district created under this subchapter is a public entity performing an essential public function, bonds issued by the district, any transaction relating to the bonds and profits made in the sale of the bonds are exempt from taxation by the state or by any municipality, county, special district, or other political subdivision of the state.

SUBCHAPTER D. EMERGENCY COMMUNICATION DISTRICTS: COUNTIES WITH POPULATION OVER 20,000

Sec. 772.301. SHORT TITLE. This subchapter may be cited as the Emergency Telephone Number Act.

Sec. 772.302. PURPOSE. It is the purpose of this subchapter to establish the number 9-1-1 as the primary emergency telephone number for use by certain local governments in this state and to encourage units of local government and combinations of those units to develop and improve emergency communication procedures and facilities in a manner that will make possible the quick response to any person calling the telephone number 9-1-1 seeking police, fire, medical,
rescue, and other emergency services. To this purpose the legislature finds that:

(1) it is in the public interest to shorten the time required for a citizen to request and receive emergency aid;

(2) there exist thousands of different emergency telephone numbers throughout the state, and telephone exchange boundaries and central office service areas do not necessarily correspond to public safety and political boundaries;

(3) a dominant part of the state's population is located in rapidly expanding metropolitan areas that generally cross the boundary lines of local jurisdictions and often extend into two or more counties; and

(4) provision of a single, primary three-digit emergency number through which emergency services can be quickly and efficiently obtained would provide a significant contribution to law enforcement and other public safety efforts by making it less difficult to notify public safety personnel quickly.

Sec. 772.303. DEFINITIONS. In this subchapter:

(1) "Board" means the board of managers of a district.

(2) "Director" means the director of communication for a district.

(3) "District" means an emergency communication district created under this subchapter.

Sec. 772.304. APPLICATION OF SUBCHAPTER. (a) This subchapter applies only to a county with a population of more than 20,000 or to a group of two or more contiguous counties each with a population of 20,000 or more in which an emergency communication district was created under Chapter 288, Acts of the 69th Legislature, Regular Session, 1985, before January 1, 1988, or to a public agency or group of public agencies that withdraws from participation in a regional plan under Section 771.058(d).

(b) This subchapter does not affect the authority of a public agency to operate under another law authorizing the creation of a
district in which 9-1-1 service is provided.

Sec. 772.305. ADDITIONAL TERRITORY. (a) If a municipality that is part of a district annexes territory that is not part of the district, the annexed territory becomes part of the district.

(b) A public agency located in whole or part in a county adjoining the district, by resolution adopted by its governing body and approved by the board of the district, may become part of the district and subject to its benefits and requirements.

Sec. 772.306. BOARD OF MANAGERS. (a) A district is governed by a board of managers.

(b) If the most populous municipality in the district has a population of more than 140,000, the board consists of:

(1) one member for each county in the district appointed by the commissioners court of each county;

(2) two members appointed by the governing body of the most populous municipality in the district;

(3) one member appointed by the governing body of the second most populous municipality in the district;

(4) one member appointed as provided by this section to represent the other municipalities located in whole or part in the district; and

(5) one member appointed by the principal service supplier.

(c) If Subsection (b) does not apply to a district, the board consists of:

(1) the following members representing the county or counties in the district:

(A) if the district contains only one county, two members appointed by the commissioners court of the county;

(B) if the district originally contained only one county but contains more than one county when the appointment is made, two members appointed by the commissioners court of the county in which the district was originally located, and one member
appointed by the commissioners court of each other county in the district; or

(C) if the district originally contained more than one county and the district contains more than one county when the appointment is made, one member appointed by the commissioners court of each county in the district;

(2) two members appointed jointly by the majority vote of the municipalities voting on the appointment and located in whole or part in the district;

(3) one member appointed jointly by the volunteer fire departments operating wholly or partly in the district, with the appointment process coordinated by the county fire marshal or marshals of the county or counties in the district; and

(4) one member appointed by the principal service supplier.

d) The board member appointed by the principal service supplier is a nonvoting member. If the board is appointed under Subsection (c), the principal service supplier may waive its right to appoint the board member and designate another service supplier serving all or part of the district to make the appointment.

e) The board member appointed under Subsection (b)(4) is appointed by the mayor's council established to administer urban development block grant funds, if one exists in the district. Otherwise, the member is appointed by the other members of the board on the advice and recommendation of the governing bodies of all the municipalities represented by the member.

f) The initial board members appointed by municipalities under Subsection (c)(2) are appointed by all the municipalities located in whole or part in the district.

g) Board members are appointed for staggered terms of two years, with as near as possible to one-half of the members' terms expiring each year.

h) A board member may be removed from office at will by the entity that appointed the member.

i) A vacancy on the board shall be filled for the remainder of the term in the manner provided for the original appointment to that position.

j) Board members serve without compensation. The district shall pay all expenses necessarily incurred by the board in performing its functions under this subchapter.

k) The board may appoint from among its membership a presiding
officer and any other officers it considers necessary.

(1) The director or a board member may be appointed as secretary of the board. The board shall require the secretary to keep suitable records of all proceedings of each board meeting. After each meeting the presiding officer at the meeting shall read and sign the record and the secretary shall attest the record.

(m) Voting members of the board may meet in executive session in accordance with Chapter 551, Government Code.

(n) A majority of the voting members of the board constitutes a quorum.

(o) In an emergency communication district subject to this subchapter located entirely in a county with a population of less than 30,000, the board consists of:

(1) the appropriate members listed in Subsection (c); and

(2) a peace officer licensed under Chapter 1701, Occupations Code, appointed by the county sheriff.

Acts 1989, 71st Leg., ch. 678, Sec. 1, eff. Sept. 1, 1989. Amended by Acts 1995, 74th Leg., ch. 76, Sec. 5.95(82), eff. Sept. 1, 1995; Acts 1995, 74th Leg., ch. 638, Sec. 15, eff. Sept. 1, 1995; Acts 2003, 78th Leg., ch. 901, Sec. 1, eff. June 20, 2003. Amended by:

Acts 2009, 81st Leg., R.S., Ch. 622 (H.B. 1187), Sec. 1, eff. June 19, 2009.

Sec. 772.307. POWERS AND DUTIES OF BOARD. (a) The board shall control and manage the district.

(b) The board may adopt rules for the operation of the district.

(c) The board may contract with any public or private entity to carry out the purposes of this subchapter, including the operation of a 9-1-1 system.

Sec. 772.308. DIRECTOR OF DISTRICT. (a) The board shall appoint a director of communication for the district and shall establish the director's compensation. The director must be qualified by training and experience for the position.
(b) The board may remove the director at any time.

(c) With the board's approval, the director may employ any experts, employees, or consultants that the director considers necessary to carry out the purposes of this subchapter.

(d) The director shall perform all duties that the board requires and shall supervise as general manager the operations of the district subject to any limitations prescribed by the board.

Sec. 772.309. BUDGET; ANNUAL REPORT; AUDIT. (a) The director shall prepare under the direction of the board an annual budget for the district. To be effective, the budget must:

1. be approved by the board;
2. be presented to and approved by the commissioners court of each county in the district;
3. be presented to and approved by the governing body of the most populous municipality in the district, if that municipality has a population of more than 140,000; and
4. be presented to the governing body of each other participating jurisdiction and approved by a majority of those jurisdictions.

(b) The board shall submit a draft of the proposed budget to the governing bodies of the participating jurisdictions not later than the 45th day before the date the board adopts the budget. The participating jurisdictions shall review the proposed budget and submit any comments regarding the budget to the board.

(c) If the governing body of a county, municipality, or other participating jurisdiction does not approve or disapprove the budget before the 61st day after the date the body received the proposed budget for review, the budget is approved by operation of law.

(d) A revision of the budget must be approved in the same manner as the budget.

(e) As soon as practicable after the end of each district fiscal year, the director shall prepare and present to the board and to each participating jurisdiction in writing a sworn statement of all money received by the district and how the money was used during the preceding fiscal year. The report must show in detail the operations of the district for the fiscal year covered by the report.
(f) The board shall have an independent financial audit of the district performed annually.

Sec. 772.310. ESTABLISHMENT OF 9-1-1 SERVICE. (a) A district shall provide 9-1-1 service to each participating jurisdiction through one or a combination of the following methods and features:

(1) the transfer method;
(2) the relay method;
(3) the dispatch method;
(4) automatic number identification;
(5) automatic location identification;
(6) selective routing; or
(7) any equivalent method.

(b) A district shall provide 9-1-1 service using one or both of the following plans:

(1) the district may design, implement, and operate a 9-1-1 system for each participating jurisdiction with the consent of the jurisdiction; or

(2) the district may design, implement, and operate a 9-1-1 system for two or more participating jurisdictions with the consent of each of those jurisdictions if a joint operation would be more economically feasible than separate systems for each jurisdiction.

(c) Under either plan authorized by Subsection (b), the final plans for the particular system must have the approval of each participating jurisdiction covered by the system.

(d) The district shall recommend minimum standards for a 9-1-1 system.

(e) A service supplier involved in providing 9-1-1 service, a manufacturer of equipment used in providing 9-1-1 service, or an officer or employee of a service supplier involved in providing 9-1-1 service is not liable for any claim, damage, or loss arising from the provision of 9-1-1 service unless the act or omission proximately causing the claim, damage, or loss constitutes gross negligence, recklessness, or intentional misconduct.

Sec. 772.311. PRIMARY EMERGENCY TELEPHONE NUMBER. The digits 9-1-1 are the primary emergency telephone number in a district. A public safety agency whose services are available through a 9-1-1 system may maintain a separate number or numbers for emergencies and shall maintain a separate number or numbers for nonemergency telephone calls.

Sec. 772.312. TRANSMITTING REQUESTS FOR EMERGENCY AID. (a) A 9-1-1 system established under this subchapter must be capable of transmitting requests for fire-fighting, law enforcement, ambulance, and medical services to a public safety agency or agencies that provide the requested service at the place from which the call originates. A 9-1-1 system may also provide for transmitting requests for other emergency services such as poison control, suicide prevention, and civil defense.

(b) A public safety answering point may transmit emergency response requests to private safety entities.

Sec. 772.313. POWERS OF DISTRICT. (a) The district is a body corporate and politic, exercising public and essential governmental functions and having all the powers necessary or convenient to carry out the purposes and provisions of this subchapter, including the capacity to sue or be sued.

(b) To fund the district, the district may apply for, accept, and receive federal, state, county, or municipal funds and private funds and may spend those funds for the purposes of this subchapter. The board shall determine the method and sources of funding for the district.

Sec. 772.314. 9-1-1 EMERGENCY SERVICE FEE. (a) The board may
impose a 9-1-1 emergency service fee on service users in the district.

(b) The fee may be imposed only on the base rate charge or its equivalent, excluding charges for coin-operated telephone equipment. The fee may not be imposed on more than 100 local exchange access lines or their equivalent for a single business entity at a single location, unless the lines are used by residents of the location. The fee may also not be imposed on any line that the Advisory Commission on State Emergency Communications excluded from the definition of a local exchange access line or an equivalent local exchange access line pursuant to Section 771.063. If a business service user provides residential facilities, each line that terminates at a residential unit and that is a communication link equivalent to a residential local exchange access line shall be charged the 9-1-1 emergency service fee. The fee must have uniform application and must be imposed in each participating jurisdiction.

(c) The rate of the fee may not exceed six percent of the monthly base rate in a service year charged a service user by the principal service supplier in the participating jurisdiction. For purposes of this subsection, the jurisdiction of the county is the unincorporated area of the county.

(d) The board shall set the amount of the fee each year as part of the annual budget. The board shall notify each service supplier of a change in the amount of the fee not later than the 91st day before the date the change takes effect.

(e) In imposing the fee, the board shall attempt to match the district's revenues to its operating expenditures and to provide reasonable reserves for contingencies and for the purchase and installation of 9-1-1 emergency service equipment. If the revenue generated by the fee exceeds the amount of money needed to fund the district, the board by resolution shall reduce the rate of the fee to an amount adequate to fund the district or suspend the imposition of the fee. If the board suspends the imposition of the fee, the board by resolution may reinstitute the fee if money generated by the district is not adequate to fund the district.

(f) In a public agency whose governing body at a later date votes to receive 9-1-1 service from the district, the fee is imposed beginning on the date specified by the board. The board may charge the incoming agency an additional amount of money to cover the initial cost of providing 9-1-1 service to that agency. The fee
authorized to be charged in a district applies to new territory added to the district when the territory becomes part of the district.

(g) For the purposes of this section, the jurisdiction of the county is the unincorporated area of the county.

Sec. 772.315. COLLECTION OF FEE. (a) Each billed service user is liable for the fee imposed under Section 772.314 until the fee is paid to the service supplier. The fee must be added to and stated separately in the service user's bill from the service supplier. The service supplier shall collect the fee at the same time as the service charge to the service user in accordance with the regular billing practice of the service supplier. A business service user that provides residential facilities and owns or leases a publicly or privately owned telephone switch used to provide telephone service to facility residents shall collect the 9-1-1 emergency service fee and transmit the fees monthly to the district.

(b) The amount collected by a service supplier from the fee is due monthly. The service supplier shall remit the amount collected in a calendar month to the district not later than the 60th day after the last day of the calendar month. With each payment the service supplier shall file a return in a form prescribed by the board.

(c) Both a service supplier and a business service user under Subsection (a) shall maintain records of the amount of fees it collects for at least two years after the date of collection. The board may require at the board's expense an annual audit of a service supplier's books and records or the books and records of a business service user described by Subsection (a) with respect to the collection and remittance of the fees.

(d) A business service user that does not collect and remit the 9-1-1 emergency service fee as required is subject to a civil cause of action under Subsection (g). A sworn affidavit by the district specifying the unremitted fees is prima facie evidence that the fees were not remitted and of the amount of the unremitted fees.

(e) A service supplier is entitled to retain an administrative fee from the amount of fees it collects. The amount of the
administrative fee is two percent of the amount of fees it collects under this section.

(f) A service supplier is not required to take any legal action to enforce the collection of the 9-1-1 emergency service fee. However, the service supplier shall provide the district with an annual certificate of delinquency that includes the amount of all delinquent fees and the name and address of each nonpaying service user. The certificate of delinquency is prima facie evidence that a fee included in the certificate is delinquent. A service user account is considered delinquent if the fee is not paid to the service supplier before the 31st day after the payment due date stated on the user's bill from the service supplier.

(g) The district may institute legal proceedings to collect fees not paid and may establish internal collection procedures and recover the cost of collection from the nonpaying service user. If the district prevails in legal proceedings instituted to collect a fee, the court may award the district court costs, attorney's fees, and interest in addition to other amounts recovered. A delinquent fee accrues interest at an annual rate of 12 percent beginning on the date the payment becomes due.

Sec. 772.316. DISTRICT DEPOSITORY. (a) The board shall select a depository for the district in the manner provided by law for the selection of a county depository.

(b) A depository selected by the board is the district's depository for two years after the date of its selection and until a successor depository is selected and qualified.

Sec. 772.317. ALLOWABLE EXPENSES. Allowable operating expenses of a district include all costs attributable to designing a 9-1-1 system and to all equipment and personnel necessary to establish and operate a public safety answering point and other related answering points that the board considers necessary.

Sec. 772.318. NUMBER AND LOCATION IDENTIFICATION. (a) As part of computerized 9-1-1 service, a service supplier shall furnish current telephone numbers of subscribers and the addresses associated with the numbers on a call-by-call basis.

(b) A business service user that provides residential facilities and owns or leases a publicly or privately owned telephone switch used to provide telephone service to facility residents shall provide to those residential end users the same level of 9-1-1 service that a service supplier is required to provide under Subsection (a) to other residential end users in the district.

(c) Information furnished under this section is confidential and is not available for public inspection.

(d) A service supplier or business service user under Subsection (b) is not liable to a person who uses a 9-1-1 system created under this subchapter for the release to the district of the information specified in Subsections (a) and (b).

Sec. 772.319. PUBLIC REVIEW. (a) Periodically, the board shall solicit public comments and hold a public review hearing on the continuation of the district and the 9-1-1 emergency service fee. The first hearing shall be held three years after the date the order certifying the creation of the district is filed with the county clerks. Subsequent hearings shall be held three years after the date each order required by Subsection (d) is adopted.

(b) The board shall publish notice of the time and place of the hearing once a week for two consecutive weeks in a daily newspaper of general circulation published in the district. The first notice must be published not later than the 16th day before the date set for the hearing.

(c) At the hearing, the board shall also solicit comments on the participation of the district in the applicable regional plan for 9-1-1 service under Chapter 771. After the hearing, the board may
choose to participate in the regional plan as provided by that chapter.

(d) After the hearing, the board shall adopt an order on the continuation or dissolution of the district and the 9-1-1 emergency service fee.

Sec. 772.320. DISSOLUTION PROCEDURES. (a) If a district is dissolved, 9-1-1 service must be discontinued on the date of the dissolution. The commissioners court of the county in which the district was located or, if the district contains more than one county, the commissioners courts of those counties acting jointly, shall assume the assets of the district and pay the district's debts. If the district's assets are insufficient to retire all existing debts of the district on the date of dissolution, the commissioners court or courts acting jointly shall continue to impose the 9-1-1 service fee, and each service supplier shall continue to collect the fee for the commissioners court or courts. Proceeds from the imposition of the fee after dissolution of the district may be used only to retire the outstanding debts of the district.

(b) The commissioners court or courts shall retire the district's debts to the extent practicable according to the terms of the instruments creating the debts and the terms of the orders and resolutions authorizing creation of the debts.

(c) The commissioners court or courts by order may adopt the rules necessary to administer this section.

Sec. 772.321. ISSUANCE OF BONDS. The board may issue and sell bonds in the name of the district to finance:

(1) the acquisition by any method of facilities, equipment, or supplies necessary for the district to begin providing 9-1-1 service to all participating jurisdictions; and

(2) the installation of equipment necessary for the district to begin providing 9-1-1 service to all participating jurisdictions.
Sec. 772.322. REPAYMENT OF BONDS. The board may provide for the payment of the principal of and interest on the bonds by pledging all or any part of the district's revenues from the 9-1-1 emergency service fee or from other sources.

Sec. 772.323. ADDITIONAL SECURITY FOR BONDS. (a) The bonds may be additionally secured by a deed of trust or mortgage lien on part or all of the physical properties of the district and the rights appurtenant to those properties, vesting in the trustee power to sell the properties for payment of the indebtedness, power to operate the properties, and all other powers necessary for the further security of the bonds.

(b) The trust indenture, regardless of the existence of the deed of trust or mortgage lien on the properties, may include provisions prescribed by the board for the security of the bonds and the preservation of the trust estate and may make provisions for investment of funds of the district.

(c) A purchaser under a sale under the deed of trust or mortgage lien is the absolute owner of the properties and rights purchased and may maintain and operate them.

Sec. 772.324. FORM OF BONDS. (a) A district may issue its bonds in various series or issues.

(b) Bonds may mature serially or otherwise not more than 25 years after their date of issue and shall bear interest at any rate permitted by state law.

(c) A district's bonds and interest coupons, if any, are investment securities under the terms of Chapter 8, Business & Commerce Code, may be issued registrable as to principal or as to both principal and interest, and may be made redeemable before maturity, at the option of the district, or contain a mandatory redemption provision.
(d) A district may issue its bonds in the form, denominations, and manner and under the terms, and the bonds shall be signed and executed, as provided by the board in the resolution or order authorizing their issuance.

Sec. 772.325. PROVISIONS OF BONDS. (a) In the orders or resolutions authorizing the issuance of bonds, including refunding bonds, the board may provide for the flow of funds and the establishment and maintenance of the interest and sinking fund, the reserve fund, and other funds and may make additional covenants with respect to the bonds, the pledge revenues, and the operation and maintenance of any facilities the revenue of which is pledged.

(b) The orders or resolutions of the board authorizing the issuance of bonds may also prohibit the further issuance of bonds or other obligations payable from the pledged revenue or may reserve the right to issue additional bonds to be secured by a pledge of and payable from the revenue on a parity with or subordinate to the lien and pledge in support of the bonds being issued.

(c) The orders or resolutions of the board issuing bonds may contain other provisions and covenants as the board may determine.

(d) The board may adopt and have executed any other proceedings or instruments necessary and convenient in the issuance of bonds.

Sec. 772.326. APPROVAL AND REGISTRATION OF BONDS. (a) Bonds issued by a district must be submitted to the attorney general for examination.

(b) If the attorney general finds that the bonds have been authorized in accordance with law, the attorney general shall approve them. On approval by the attorney general, the comptroller shall register the bonds.

(c) After the approval and registration of bonds, the bonds are incontestable in any court or other forum for any reason and are valid and binding obligations according to their terms for all purposes.
Sec. 772.327. REFUNDING BONDS. (a) A district may issue bonds to refund all or any part of its outstanding bonds, including matured but unpaid interest coupons.

(b) Refunding bonds shall mature serially or otherwise not more than 25 years after their date of issue and shall bear interest at any rate or rates permitted by state law.

(c) Refunding bonds may be payable from the same source as the bonds being refunded or from other sources.

(d) The refunding bonds must be approved by the attorney general as provided by Section 772.326 and shall be registered by the comptroller on the surrender and cancellation of the bonds refunded.

(e) The orders or resolutions authorizing the issuance of the refunding bonds may provide that they be sold and the proceeds deposited in the place or places at which the bonds being refunded are payable, in which case the refunding bonds may be issued before the cancellation of the bonds being refunded. If refunding bonds are issued before cancellation of the other bonds, an amount sufficient to pay the principal of the bonds being refunded and interest on those bonds accruing to their maturity dates or to their option dates if the bonds have been duly called for payment before maturity according to their terms shall be deposited in the place or places at which the bonds being refunded are payable. The comptroller shall register the refunding bonds without the surrender and cancellation of bonds being refunded.

(f) A refunding may be accomplished in one or in several installment deliveries. Refunding bonds and their interest coupons are investment securities under Chapter 8, Business & Commerce Code.

(g) In lieu of the method set forth in Subsections (a)-(f), a district may refund bonds, notes, or other obligations as provided by the general laws of this state.

(2) a savings bank;
(3) a trust company;
(4) a savings and loan association;
(5) an insurance company;
(6) a fiduciary;
(7) a trustee;
(8) a guardian; and
(9) a sinking fund of a municipality, county, school district, and other political subdivision of the state and other public funds of the state and its agencies, including the permanent school fund.

(b) District bonds are eligible to secure deposits of public funds of the state and municipalities, counties, school districts, and other political subdivisions of the state. The bonds are lawful and sufficient security for deposits to the extent of their value when accompanied by all unmatured coupons.

Sec. 772.329. TAX STATUS OF BONDS. Because a district created under this subchapter is a public entity performing an essential public function, bonds issued by the district, any transaction relating to the bonds, and profits made in the sale of the bonds are exempt from taxation by the state or by any municipality, county, special district, or other political subdivision of the state.

SUBCHAPTER E. EMERGENCY COMMUNICATION SERVICE: COUNTIES WITH POPULATION OVER TWO MILLION

Sec. 772.402. APPLICATION OF SUBCHAPTER. This subchapter applies only to a county having a population of more than two million in which a communication district has not been created under Subchapter B.

Amended by:
Acts 2011, 82nd Leg., R.S., Ch. 1163 (H.B. 2702), Sec. 52, eff. September 1, 2011.
Sec. 772.403. IMPLEMENTATION OF 9-1-1 SERVICE AND FEE. (a) A county to which this subchapter applies may implement a system for providing 9-1-1 service in the unincorporated areas of the county and may impose a service fee on local exchange telephone service customers in the area served. The fee may not be imposed on any line that the Advisory Commission on State Emergency Communications excluded from the definition of a local exchange access line or an equivalent local exchange access line pursuant to Section 771.063. If a business service user provides residential facilities, each line that terminates at a residential unit and that is a communication link equivalent to a residential local exchange access line shall be charged the 9-1-1 emergency service fee.

(b) The commissioners court shall set the fee in an amount reasonable to cover the costs of providing the 9-1-1 service.

(c) Revenue from the fee may be used only for the planning, development, and provision of 9-1-1 service.

Sec. 772.404. COLLECTION OF FEE. (a) A telecommunications carrier providing local exchange service in a county that imposes a fee under this subchapter shall collect the fees and deliver them to the commissioners court not later than the 60th day after the last day of the month during which the fees were collected.

(b) A customer on whom a fee is imposed under this subchapter is liable for the fee in the same manner the customer is liable for charges for service provided by the local exchange service provider. The fee must be stated separately in the customer's bill.

(c) A business service user that provides residential facilities and owns or leases a publicly or privately owned telephone switch used to provide telephone service to facility residents shall collect the 9-1-1 emergency service fee and transmit the fees monthly to the county.

(d) A local exchange service provider collecting fees under this subchapter may retain as an administrative fee an amount equal
to two percent of the total amount of the fees it collects.

Sec. 772.405. AUDIT OF SERVICE PROVIDER. The commissioners court of a county may require at the county's expense an audit of a local exchange service provider collecting fees or surcharges under this subchapter. The audit must be limited to the collection and remittance of money collected under this subchapter.

Sec. 772.406. NUMBER AND LOCATION IDENTIFICATION. A business service user that provides residential facilities and owns or leases a publicly or privately owned telephone switch used to provide telephone service to facility residents shall provide to those residential end users the same level of 9-1-1 service relating to number and location identification that a service supplier provides to other residential end users in the county.

Sec. 772.407. LIABILITY OF SERVICE PROVIDERS. A service supplier involved in providing 9-1-1 service, a manufacturer of equipment used in providing 9-1-1 service, or an officer or employee of a service supplier involved in providing 9-1-1 service is not liable for any claim, damage, or loss arising from the provision of 9-1-1 service unless the act or omission proximately causing the claim, damage, or loss constitutes gross negligence, recklessness, or intentional misconduct.

SUBCHAPTER F. CONSOLIDATED DISTRICTS

Sec. 772.451. CONSOLIDATION PROCEDURE. (a) Two or more districts governed by this chapter may consolidate into a single district as provided by this section.

(b) If the board of managers of each district to be consolidated finds that the consolidation of the districts would benefit the participating jurisdictions of the district, the board may call and hold an election in the district's participating jurisdictions to approve the consolidation.

(c) The election in each district must be held on the same uniform election date provided by Chapter 41, Election Code.

(d) Each district shall pay the election expenses for its participating jurisdictions.

(e) The ballot for the election to approve the consolidation must be printed to permit voting for or against the proposition that the district may consolidate with other named districts.

Sec. 772.452. CONSOLIDATION PLANNING. (a) If a majority of the voters voting at the election approve the consolidation, the board of managers of the district shall conduct a planning meeting with the boards of managers of the other districts whose voters have approved the consolidation.

(b) The meeting must be a public meeting. At the meeting, the boards of managers shall devise a consolidation plan to:

1. Combine the debts and assets of the districts;
2. Pay outstanding bonds of the districts and issue refunding bonds as necessary to pay the bonds;
3. Impose a uniform 9-1-1 emergency service fee; and
4. Adjust the membership and qualifications of the board of managers of the consolidated district.

(c) If a consolidated district is not created under Section 772.453 before the first anniversary of the date of the election held under Section 772.451, a consolidated district may not be created until:

1. The districts make another finding that the consolidation would benefit the participating jurisdictions; and
2. The consolidation is approved at another election held
under Section 772.451.

Sec. 772.453. CREATION OF CONSOLIDATED DISTRICT. (a) When the board of managers of each district has adopted the same consolidation plan, the combined boards of managers shall declare the consolidated district created.

Sec. 772.454. BOARD OF MANAGERS. (a) The consolidated district is governed by a board of managers appointed in accordance with the order issued by the temporary board of managers under Subsection (b). The members of the boards of managers of all the districts consolidated serve as a temporary board until all members of the initial board of managers are appointed and qualify. The temporary board has all authority necessary to operate and administer the district.

(b) Before the 45th day after the date the district is created, the temporary board of managers by order shall adjust the membership of the board. The order must be substantially in accordance with the consolidation plan and must specify:

(1) the number of members of the board;
(2) the entity or combination of entities that appoints each member;
(3) whether each member may or may not vote; and
(4) the term of each member of the initial board so that as near to one-half of the members as is practical serve terms that expire in even-numbered years and the remaining members serve terms that expire in odd-numbered years.

(c) The order issued under Subsection (b) must preserve as nearly as possible the proportional representation of interests exhibited by the memberships of the boards of managers of the several districts before consolidation.
Sec. 772.455. GOVERNANCE OF CONSOLIDATED DISTRICT. The consolidated district and its board of managers are governed by the provisions of this chapter that governed the most populous of the districts before the consolidation, except as provided by this subchapter.

Sec. 772.514. PRIMARY EMERGENCY TELEPHONE NUMBER. The digits 9-1-1 are the primary emergency telephone number in a district. A public safety agency whose services are available through a 9-1-1 system:

(1) may maintain a separate number for an emergency telephone call; and

(2) shall maintain a separate number for a nonemergency telephone call.

Added by Acts 2013, 83rd Leg., R.S., Ch. 552 (S.B. 628), Sec. 1, eff. September 1, 2013.

Sec. 772.515. TRANSMITTING REQUESTS FOR EMERGENCY AID. (a) A 9-1-1 system established under this subchapter must be capable of transmitting requests for firefighting, law enforcement, ambulance, and medical services to a public safety agency that provides the requested service at the location from which the call originates. A 9-1-1 system may provide for transmitting requests for other emergency services, including poison control, suicide prevention, and civil defense.

(b) A public safety answering point may transmit emergency response requests to private safety entities.

(c) With the consent of a participating jurisdiction, a privately owned automatic intrusion alarm or other privately owned automatic alerting device may be installed to cause the number 9-1-1 to be dialed to gain access to emergency services.

Added by Acts 2013, 83rd Leg., R.S., Ch. 552 (S.B. 628), Sec. 1, eff. September 1, 2013.

Sec. 772.516. 9-1-1 EMERGENCY SERVICE FEE. (a) The board may impose a 9-1-1 emergency service fee on service users in the district.

(b) The fee may be imposed only on the base rate charge or the charge's equivalent, excluding charges for coin-operated telephone equipment. The fee may not be imposed on:
(1) more than 100 local exchange access lines or the lines' equivalent for a single business entity at a single location, unless the lines are used by residents of the location; or
(2) any line that the Commission on State Emergency Communications has excluded from the definition of a local exchange access line or equivalent local exchange access line under Section 771.063.

(c) If a business service user provides residential facilities, each line that terminates at a residential unit and is a communication link equivalent to a residential local exchange access line shall be charged the 9-1-1 emergency service fee. The fee must have uniform application throughout the district and be imposed in each participating jurisdiction in the district.

(d) The rate of the fee may not exceed six percent of the monthly base rate the principal service supplier in the participating jurisdiction charges a service user.

(e) The board shall set the amount of the fee each year as part of the annual budget. The board shall notify each service supplier of a change in the amount of the fee not later than the 91st day before the date the change takes effect.

(f) In imposing the fee, the board shall attempt to match the district's revenues to the district's operating expenditures and to provide reasonable reserves for contingencies and for the purchase and installation of 9-1-1 emergency service equipment. If the revenue received from the fee exceeds the amount of money needed to fund the district, the board by resolution shall reduce the rate of the fee to an amount adequate to fund the district as required by this subsection or suspend the imposition of the fee. If the board suspends the imposition of the fee, the board by resolution may reinstitute the fee if money received by the district is not adequate to fund the district.

(g) For a county or municipality whose governing body at a later date votes to receive 9-1-1 service from the district, the fee is imposed beginning on the date specified by the board. The board may charge the incoming county or municipality an additional amount of money to cover the initial cost of providing 9-1-1 service to that county or municipality. The fee authorized to be charged in a district applies to new territory added to the district under Section 772.506(b) when the territory becomes part of the district.
Sec. 772.517. COLLECTION OF FEE. (a) Each billed service user is liable for the fee imposed under Section 772.516 until the fee is paid to the service supplier. The fee must be added to and stated separately in the service user's bill from the service supplier. The service supplier shall collect the fee at the same time as the service charge to the service user in accordance with the service supplier's regular billing practice. A business service user that provides residential facilities and owns or leases a publicly or privately owned telephone switch used to provide telephone service to facility residents shall collect the 9-1-1 emergency service fee and transmit the fees monthly to the district.

(b) The amount collected by a service supplier from the fee is due quarterly. The service supplier shall remit the amount collected in a calendar quarter to the district not later than the 60th day after the last day of the calendar quarter. With each payment, the service supplier shall file a return in a form prescribed by the board.

(c) Both a service supplier and a business service user under Subsection (a) shall maintain records of the amount of fees the service supplier or business service user collects until at least the second anniversary of the date of collection. The board may require, at the board's expense, an annual audit of the service supplier's or business service user's books and records with respect to the collection and remittance of the fees.

(d) A business service user that does not collect and remit the 9-1-1 emergency service fee as required is subject to a civil cause of action under Subsection (g). A sworn affidavit by the district specifying the unremitted fees is prima facie evidence that the fees were not remitted and of the amount of the unremitted fees.

(e) A service supplier may retain an administrative fee of two percent of the amount of fees the service supplier collects under this section.

(f) A service supplier is not required to take any legal action to enforce the collection of the 9-1-1 emergency service fee. The service supplier shall provide the district with an annual certificate of delinquency that includes the amount of all delinquent
fees and the name and address of each nonpaying service user. The certificate of delinquency is prima facie evidence that a fee included in the certificate is delinquent and of the amount of the delinquent fee. A service user account is considered delinquent if the fee is not paid to the service supplier before the 31st day after the payment due date stated on the user's bill from the service supplier.

(g) The district may file legal proceedings against a service user to collect fees not paid by the service user and may establish internal collection procedures and recover the cost of collection from the nonpaying service user. If legal proceedings are filed by the district, the court may award costs, attorney's fees, and interest to be paid by the nonpaying service user. A delinquent fee accrues interest at the legal rate beginning on the date the payment becomes due.

Added by Acts 2013, 83rd Leg., R.S., Ch. 552 (S.B. 628), Sec. 1, eff. September 1, 2013.

Sec. 772.520. NUMBER AND LOCATION IDENTIFICATION. (a) As part of computerized 9-1-1 service, a service supplier shall furnish, for each call, the telephone number of the subscriber and the address associated with the number.

(b) A business service user that provides residential facilities and owns or leases a publicly or privately owned telephone switch used to provide telephone service to facility residents shall provide to those residential end users the same level of 9-1-1 service that a service supplier is required to provide under Subsection (a) to other residential end users in the district.

(c) Information furnished under this section is confidential and is not available for public inspection.

(d) A service supplier or business service user under Subsection (b) may not be held liable to a person who uses a 9-1-1 system created under this subchapter for the release to the district of the information specified in Subsections (a) and (b).

Added by Acts 2013, 83rd Leg., R.S., Ch. 552 (S.B. 628), Sec. 1, eff. September 1, 2013.

The first hearing shall be held on or before the third anniversary of the date of the district's creation. Subsequent hearings shall be held on or before the third anniversary of the date each resolution required by Subsection (c) is adopted.

(b) The board shall publish notice of the time and place of a hearing once a week for two consecutive weeks in a daily newspaper of general circulation published in the district. The first notice must be published not later than the 16th day before the date set for the hearing.

(c) After the hearing, the board shall adopt a resolution on the continuation or dissolution of the district and the 9-1-1 emergency service fee.

Added by Acts 2013, 83rd Leg., R.S., Ch. 552 (S.B. 628), Sec. 1, eff. September 1, 2013.
Sec. 772.522. DISSOLUTION PROCEDURES. (a) If a district is dissolved, 9-1-1 service must be discontinued. The regional planning commission for the district's region shall assume the district's assets, provide 9-1-1 service, and pay the district's debts. If the district's assets are insufficient to retire all existing debts of the district on the date of dissolution, the regional planning commission shall continue to impose the 9-1-1 emergency service fee, and each service supplier shall continue to collect the fee for the regional planning commission. Proceeds from the imposition of the fee by the regional planning commission after dissolution of the district may be used only to retire the outstanding debts of the district.

(b) The regional planning commission shall retire the district's debts to the extent practicable according to the terms of the instruments creating the debts and the terms of the resolutions authorizing creation of the debts.

(c) The governing body of the regional planning commission for the district's region may adopt rules necessary to administer this section.

(b) The bond trust indenture, regardless of the existence of a deed of trust or mortgage lien on the properties, may:

(1) contain provisions prescribed by the board for the security of the bonds and the preservation of the trust estate; and

(c) The executive commissioner shall consider the education, training, criminal background, and experience of allied health professionals in adopting the minimum standards for emergency medical services personnel certification and may establish criteria for interstate reciprocity of emergency medical services personnel. Each out-of-state application for certification must be accompanied by a nonrefundable fee of not more than $120. The executive commissioner may also establish criteria for out-of-country emergency medical services personnel certification. Each out-of-country application for certification must be accompanied by a nonrefundable fee of not more than $180.

(c-1) In this subsection, "United States military" means the United States Army, the United States Navy, the United States Air Force, the United States Marine Corps, the United States Coast Guard,

(2) emergency medical services personnel to complete continuing education training in the administration of anaphylaxis treatment.

(h) The department may provide a prescreening criminal history record check for an emergency medical services personnel applicant to determine the applicant's eligibility to receive certification before enrollment in the educational and training requirements mandated by the executive commissioner. The department may charge a reasonable fee for the costs associated with prescreening to each applicant who requests prescreening.

Sec. 773.051. MUNICIPAL REGULATION. A municipality may establish standards for an emergency medical services provider that are stricter than the minimum standards of this chapter and department rules adopted under this chapter.

Sec. 773.052. VARIANCES. (a) An emergency medical services provider with a specific hardship may apply to the bureau chief for a variance from a rule adopted under this chapter. The board may adopt a fee of not more than $30 for filing an application for a variance.

   (2) geography; and
   (3) demography.

(c) The bureau chief shall grant to a sole provider for a service area a variance from the minimum standards for staffing and equipment for the provision of basic life-support emergency medical services if the provider is an emergency medical services provider exempt from the payment of fees under Section 773.0581.

(d) An applicant for a variance under Subsection (c) must submit a letter to the department from the commissioners court of the county or the governing body of the municipality in which the provider intends to operate an emergency medical services vehicle. The letter must state that there is no other emergency medical services provider in the service area.

(e) The department shall grant a variance under Subsection (c) if the department determines that the provider qualifies and may deny the variance if the department determines that the provider does not qualify. The department shall give a provider whose application is denied the opportunity for a contested case hearing under Chapter 2001, Government Code.

(f) The department shall issue an emergency medical services license to a provider granted a variance under this section. The license is subject to annual review by the department. A provider is encouraged to upgrade staffing and equipment to meet the minimum standards set by the rules adopted under this chapter.

Sec. 773.054. APPLICATIONS FOR PERSONNEL CERTIFICATION AND...
TRAINING PROGRAM APPROVAL. (a) This section applies to an application for:

(1) examination for certification of emergency medical services personnel;
(2) approval of a course or training program; or
(3) certification of a program instructor, examiner, or course coordinator.

(b) Each application must be made to the department on a form prescribed by the board and under rules adopted by the board.

(c) Each application under Subsection (a)(3) must be accompanied by a nonrefundable fee of not more than $30 for a program instructor or examiner or $60 for a course coordinator. The department may not require a fee for a certification from an instructor, examiner, or coordinator who does not receive compensation for providing services.

(d) Each application under Subsection (a)(2) must be accompanied by a nonrefundable fee of not more than $30 for a basic course or training program or $60 for an advanced course or training program. (3) $90 for recertification of an emergency medical technician-paramedic or emergency medical technician-intermediate;
(4) $60 for recertification of an emergency medical
technician or emergency care attendant; or

(5) $120 for certification or recertification of a licensed paramedic.

(b) Except as provided by Subsection (c), the department shall notify each examinee of the results of an examination for certification not later than the 30th day after the date on which the examination is administered.

(c) The department shall notify an examinee of the results of an examination not later than the 14th day after the date on which the department receives the results if the examination is graded or reviewed by a national testing service. If the notice of the examination results will be delayed longer than 90 days after the examination date, the department shall notify each examinee of the reason for the delay before the 90th day.

(d) The department shall furnish a person who fails an examination for certification with an analysis of the person's performance on the examination if requested in writing by that person. The board may adopt rules to allow a person who fails the examination to retake all or part of the examination. A fee of not more than $30 must accompany each application for reexamination.

(e) The department shall issue certificates to emergency medical services personnel who meet the minimum standards for personnel certification adopted under Section 773.050. A certificate is valid for four years from the date of issuance. The department shall charge a fee of not more than $10 to replace a lost certificate.

(f) A fee required by this section is the obligation of the applicant but may be paid by the emergency medical services provider. If an applicant is required to be certified as a condition of employment, the emergency medical services provider shall pay for all fees required by this section, except for a fee to replace a lost certificate, in addition to any other compensation paid to that applicant if the provider is a municipality. A municipality that requires a fire fighter to be certified as emergency medical services personnel shall pay the fees required by this section.

(g) The board by rule may adopt a system under which certificates expire on various dates during the year. For the year in which the certificate expiration date is changed, the department shall prorate certificate fees on a monthly basis so that each certificate holder pays only that portion of the certificate fee that
is allocable to the number of months during which the certificate is valid. On renewal of the certificate on the new expiration date, the total certificate renewal fee is payable.

(h) The department shall ensure that the written examinations and any other tests that the department requires a person to take and pass to obtain or retain certification as emergency medical services personnel shall be administered during the course of a year at various locations around the state so that a person who resides in any part of the state will be able to take the examinations or tests without having to travel a distance that as a practical matter requires either travel by air or an overnight stay.

Sec. 773.0615. FACTORS CONSIDERED IN SUSPENSION, REVOCATION, OR DENIAL OF CERTIFICATE. (a) In determining whether an offense directly relates to the duties and responsibilities of emergency medical services personnel under Section 773.0614(a), the commissioner shall consider:
(1) the nature and seriousness of the crime;
(2) the relationship of the crime to the purposes for requiring certification to engage in emergency medical services;
(3) the extent to which certification might offer an opportunity to engage in further criminal activity of the same type as that in which the person previously had been involved; and
(4) the relationship of the crime to the ability, capacity, or fitness required to perform the duties and discharge the responsibilities of emergency medical services personnel.

(b) In determining the fitness to perform the duties and discharge the responsibilities of emergency medical services personnel for a person who has been convicted of, or placed on deferred adjudication community supervision or deferred disposition for, a crime the commissioner shall consider, in addition to the factors listed in Subsection (a):

(1) the extent and nature of the person's past criminal activity;
(2) the age of the person when the crime was committed;
(3) the amount of time that has elapsed since the person's last criminal activity;

(b) The executive commissioner shall issue guidelines relating to the commissioner's decision-making under Sections 773.0614 and 773.0615. The guidelines must state the reasons a particular crime is considered to relate to emergency medical services personnel and include any other criterion that may affect the decisions of the commissioner.

(c) The executive commissioner shall file the guidelines with the secretary of state for publication in the Texas Register.

(d) The department annually shall issue any amendments to the guidelines.

Added by Acts 2009, 81st Leg., R.S., Ch. 1149 (H.B. 2845), Sec. 3, eff. September 1, 2009.

Sec. 773.0617. NOTICE AND REVIEW OF SUSPENSION, REVOCATION, DISQUALIFICATION FOR, OR DENIAL OF CERTIFICATION. (a) If the commissioner suspends or revokes a certification, denies a person a certificate, or denies the opportunity to be examined for a certificate under Section 773.0614, the commissioner shall notify the person in writing of:

(1) the reason for the suspension, revocation, denial, or disqualification;

(2) the review procedure provided by Subsection (b); and
(3) the earliest date the person may appeal the action of the commissioner.

(b) A person whose certificate has been suspended or revoked or who has been denied a certificate or the opportunity to take an examination and who has exhausted the person's administrative appeals may file an action in the district court in Travis County for review of the evidence presented to the commissioner and the decision of the commissioner.

(c) The petition for an action under Subsection (b) must be filed not later than the 30th day after the date the commissioner's decision is final.

Added by Acts 2009, 81st Leg., R.S., Ch. 1149 (H.B. 2845), Sec. 3, eff. September 1, 2009.

Sec. 773.062. EMERGENCY SUSPENSION. (a) The bureau chief shall issue an emergency order to suspend a certificate or license issued under this chapter if the bureau chief has reasonable cause to believe that the conduct of any certificate or license holder creates an imminent danger to the public health or safety.

(b) An emergency suspension is effective immediately without a hearing on notice to the certificate or license holder. Notice must also be given to the sponsoring governmental entity if the holder is a provider exempt from payment of fees under Section 773.0581.

(c) The holder may request in writing a hearing on the emergency suspension. The department shall conduct the hearing not earlier than the 10th day or later than the 30th day after the date on which the request is received and may continue, modify, or rescind the suspension. The department hearing rules and Chapter 2001, Government Code govern the hearing and any appeal from a disciplinary action related to the hearing.

Sec. 773.063. CIVIL PENALTY. (a) The attorney general, a district attorney, or a county attorney may bring a civil action to compel compliance with this chapter or to enforce a rule adopted
under this chapter.

(b) A person who violates this chapter or a rule adopted under this chapter is liable for a civil penalty in addition to any injunctive relief or other remedy provided by law. The civil penalty may not exceed $250 a day for each violation.

(c) Civil penalties recovered in a suit brought by the state at the department's request shall be deposited in the state treasury to the credit of the general revenue fund.

(d) Civil penalties recovered in a suit brought by a local government shall be paid to the local government that brought the suit. A municipality or county is encouraged to use the amount of recovered penalties that exceed the cost of bringing suit to improve the delivery of emergency medical services in the municipality or county.

Sec. 773.064. CRIMINAL PENALTIES. (a) A person commits an offense if the person knowingly practices as, attempts to practice as, or represents himself to be an emergency medical technician-paramedic, emergency medical technician-intermediate, emergency medical technician, emergency care attendant, or licensed paramedic and the person does not hold an appropriate certificate issued by the department under this chapter. An offense under this subsection is a Class A misdemeanor.

(b) An emergency medical services provider commits an offense if the provider knowingly advertises or causes the advertisement of a false, misleading, or deceptive statement or representation concerning emergency medical services staffing, equipment, and vehicles. An offense under this subsection is a Class A misdemeanor.

(c) A person commits an offense if the person knowingly uses or permits to be used a vehicle that the person owns, operates, or controls to transport a sick or injured person unless the person is licensed as an emergency medical services provider by the department. An offense under this subsection is a Class A misdemeanor.

(d) It is an exception to the application of Subsection (c) that the person transports a sick or injured person:

(1) to medical care as an individual citizen not ordinarily engaged in that activity;
in a casualty situation that exceeds the basic vehicular capacity or capability of an emergency medical services provider; or

(3) as an emergency medical services provider in a vehicle for which a variance has been granted under Section 773.052.

(e) Venue for prosecution of an offense under this section is in the county in which the offense is alleged to have occurred.

Sec. 773.065. ADMINISTRATIVE PENALTY. (a) The commissioner may assess an administrative penalty against an emergency medical services provider or a course coordinator who violates this chapter or a rule adopted or an order issued under this chapter.

(b) In determining the amount of the penalty, the commissioner shall consider:

(1) the emergency medical services provider's or course coordinator's previous violations;

(2) the seriousness of the violation;

(3) any hazard to the health and safety of the public;

(4) the emergency medical services provider's or course coordinator's demonstrated good faith; and

(5) any other matter as justice may require.

(c) The penalty may not exceed $7,500 for each violation. The board by rule shall establish gradations of penalties in accordance with the relative seriousness of the violation.

(d) Each day a violation continues may be considered a separate violation.

Sec. 773.066. ASSESSMENT OF ADMINISTRATIVE PENALTY. (a) An administrative penalty may be assessed only after an emergency medical services provider or course coordinator charged with a
violation is provided notice and given an opportunity to request a hearing.

(b) If a hearing is held, the commissioner shall make findings of fact and shall issue a written decision regarding whether the emergency medical services provider or course coordinator committed a violation and the amount of any penalty to be assessed.

(c) If the emergency medical services provider or course coordinator charged with the violation does not request a hearing, the commissioner shall determine whether the provider or course coordinator committed a violation and the amount of any penalty to be assessed.

(d) After making a determination under Subsection (b) or (c) that a penalty is to be assessed against an emergency medical services provider or a course coordinator, the commissioner shall issue an order requiring that the emergency medical services provider or course coordinator pay the penalty.

(e) Not later than the 30th day after the date an order is issued under Subsection (d), the commissioner shall give written notice of the order to the emergency medical services provider or course coordinator.

(f) The commissioner may consolidate a hearing held under this section with another proceeding.

Sec. 773.067. PAYMENT OF ADMINISTRATIVE PENALTY. (a) Not later than the 30th day after the date on which an order charging the emergency medical services provider or course coordinator with a penalty is final as provided by Chapter 2001, Government Code, the person charged shall:

(1) pay the penalty in full;

(2) pay the penalty and file a petition for judicial review contesting the occurrence of the violation, the amount of the penalty, or both the occurrence of the violation and the amount of the penalty; or

(3) without paying the penalty, file a petition for judicial review contesting the occurrence of the violation, the
amount of the penalty, or both the occurrence of the violation and the amount of the penalty.

(b) Within the 30-day period, a person who acts under Subsection (a)(3) may:
   (1) stay enforcement of the penalty by:
       (A) paying the amount of the penalty to the court for placement in an escrow account; or
       (B) giving to the court a supersedeas bond that is approved by the court for the amount of the penalty and that is effective until all judicial review of the commissioner's order is final; or
   (2) request the court to stay enforcement of the penalty by:
       (A) filing with the court a sworn affidavit of the person stating that the person is financially unable to pay the amount of the penalty and is financially unable to give the supersedeas bond; and
       (B) giving a copy of the affidavit to the commissioner by certified mail.

(c) If the commissioner receives a copy of an affidavit under Subsection (b)(2), the commissioner may file with the court, within five days after the date the copy is received, a contest to the affidavit. The court shall hold a hearing on the facts alleged in the affidavit as soon as practicable and shall stay the enforcement of the penalty on finding that the alleged facts are true. The person who files an affidavit has the burden of proving that the person is financially unable to pay the amount of the penalty and to give a supersedeas bond.

(d) If the person does not pay the amount of the penalty and the enforcement of the penalty is not stayed, the commissioner may refer the matter to the attorney general for collection of the amount of the penalty.

(e) Judicial review of the order of the commissioner:
   (1) is instituted by filing a petition as provided by Subchapter G, Chapter 2001, Government Code; and
   (2) is under the substantial evidence rule.

(f) If the court sustains the occurrence of the violation, the court may uphold or reduce the amount of the penalty and order the person to pay the full or reduced amount of the penalty. If the court does not sustain the occurrence of the violation, the court
shall order that no penalty is owed.

(g) When the judgment of the court becomes final, the court shall proceed under this subsection. If the person paid the penalty and if the amount of the penalty is reduced or the penalty is not upheld by the court, the court shall order that the appropriate amount plus accrued interest be remitted to the person. The rate of the interest is the rate charged on loans to depository institutions by the New York Federal Reserve Bank, and the interest shall be paid for the period beginning on the date the penalty was paid and ending on the date the penalty is remitted. If the person gave a supersedeas bond and if the penalty is not upheld by the court, the court shall order the release of the bond. If the person gave a supersedeas bond and if the amount of the penalty is reduced, the court shall order the release of the bond after the person pays the amount.

Sec. 773.069. RECOVERY OF ADMINISTRATIVE PENALTY BY ATTORNEY GENERAL. The attorney general at the request of the commissioner may bring a civil action to recover an administrative penalty assessed under this subchapter.

Sec. 773.070. ACCESS TO CERTAIN CRIMINAL HISTORY RECORD INFORMATION. (a) to (d) Repealed by Acts 1993, 73rd Leg., ch. 790, Sec. 46(22), eff. Sept. 1, 1993.

(e) The board may deny licensure or certification to an applicant who does not provide a complete set of the required fingerprints.

(f) to (i) Repealed by Acts 1993, 73rd Leg., ch. 790, Sec. 46(22), eff. Sept. 1, 1993.

Sec. 773.071. FEES. (a) To the extent feasible, the board by rule shall set the fees under this subchapter in amounts necessary for the department to recover the cost of administering this subchapter.

(b) Subsection (a) does not apply to fees for which Section 773.059 prescribes the method for determining the amount of the fees.

Added by Acts 2003, 78th Leg., ch. 198, Sec. 2.84(j), eff. Sept. 1, 2003.

SUBCHAPTER D. CONFIDENTIAL COMMUNICATIONS

Sec. 773.091. CONFIDENTIAL COMMUNICATIONS. (a) A communication between certified emergency medical services personnel or a physician providing medical supervision and a patient that is made in the course of providing emergency medical services to the patient is confidential and privileged and may not be disclosed except as provided by this chapter.

(b) Records of the identity, evaluation, or treatment of a patient by emergency medical services personnel or by a physician providing medical supervision that are created by the emergency medical services personnel or physician or maintained by an emergency medical services provider are confidential and privileged and may not be disclosed except as provided by this chapter.

(c) Any person who receives information from confidential communications or records as described by this chapter, other than a person listed in Section 773.092 who is acting on the survivor's behalf, may not disclose the information except to the extent that disclosure is consistent with the authorized purposes for which the information was obtained.

(d) This subchapter governs confidential communications or records concerning a patient regardless of when the patient received the services of emergency medical services personnel or a physician providing medical supervision.

(e) Notwithstanding Rule 501, Texas Rules of Evidence, the privilege of confidentiality may be claimed in any criminal, civil, or administrative proceeding and may be claimed by the patient or the emergency medical services personnel or physician acting on the
patient's behalf.

(f) If the emergency medical services personnel or physician claims the privilege of confidentiality on behalf of the patient, the authority to do so is presumed in the absence of evidence to the contrary.

(g) The privilege of confidentiality under this section does not extend to information regarding the presence, nature of injury or illness, age, sex, occupation, and city of residence of a patient who is receiving emergency medical services. Nothing in this subsection shall be construed as requiring or permitting emergency services personnel to make a diagnosis.

Sec. 773.092. EXCEPTIONS. (a) Exceptions to the confidentiality or privilege in court or administrative proceedings exist:

(1) when proceedings are brought by the patient against emergency medical services personnel, a physician providing medical supervision, or an emergency medical services provider, and in any criminal proceeding or certification revocation or license revocation proceeding in which the patient is a complaining witness and in which disclosure is relevant to the claim or defense of emergency medical services personnel, a physician providing medical supervision, or an emergency medical services provider;

(2) when the patient or someone authorized to act on behalf of the patient submits a written consent to release any of the confidential information as provided by Section 773.093;

(3) when the purpose of the proceedings is to substantiate and collect on a claim for emergency medical services rendered to the patient;

(4) in any civil litigation or administrative proceeding, if relevant, brought by the patient or someone on the patient's behalf, if the patient is attempting to recover monetary damages for any physical or mental condition, including death of the patient;

(5) when the proceeding is a disciplinary investigation or proceeding against emergency medical services personnel conducted
under this chapter, provided that the department shall protect the identity of any patient whose medical records are examined, unless the patient is covered under Subdivision (1) or has submitted written consent to the release of the patient's emergency medical services records under Section 773.093; or

(6) when the proceeding is a criminal prosecution in which the patient is a victim, witness, or defendant.

(b) Information under Subdivision (4) is discoverable in any court or administrative proceeding in this state if the court or administrative body has jurisdiction of the subject matter, pursuant to rules of procedure specified for the matter.

(c) Subdivision (5) does not authorize the release of confidential information to instigate or substantiate criminal charges against a patient.

(d) Confidential records or communications are not discoverable in a criminal proceeding until the court in which the prosecution is pending makes an in camera determination as to the relevancy of the records or communications or any portion of the records or communications. A determination that confidential records or communications are discoverable is not a determination as to the admissibility of the records or communications.

(e) Communications and records that are confidential under this section may be disclosed to:

(1) medical or law enforcement personnel if the emergency medical services personnel, the physician providing medical supervision, or the emergency medical services provider determines that there is a probability of imminent physical danger to any person or if there is a probability of immediate mental or emotional injury to the patient;

(2) governmental agencies if the disclosure is required or authorized by law;

(3) qualified persons to the extent necessary for management audits, financial audits, program evaluation, system improvement, or research, except that any report of the research, audit, or evaluation may not directly or indirectly identify a patient;

(4) any person who bears a written consent of the patient or other persons authorized to act on the patient's behalf for the release of confidential information as provided by Section 773.093;

(5) the department for data collection or complaint.
investigation;

(6) other emergency medical services personnel, other physicians, and other personnel under the direction of a physician who are participating in the diagnosis, evaluation, or treatment of a patient;

(7) individuals, corporations, or governmental agencies involved in the payment or collection of fees for emergency medical services rendered by emergency medical services personnel.

Sec. 773.093. CONSENT. (a) Consent for the release of confidential information must be in writing and signed by the patient, a parent or legal guardian if the patient is a minor, a legal guardian if the patient has been adjudicated incompetent to manage the patient's personal affairs, an attorney ad litem appointed for the patient, or a personal representative if the patient is deceased. The written consent must specify:

(1) the information or records to be covered by the release;

(2) the reasons or purpose for the release; and

(3) the person to whom the information is to be released.

(b) The patient or other person authorized to consent may withdraw consent to the release of any information by submitting a written notice of withdrawal to the person or program to which consent was provided. Withdrawal of consent does not affect any information disclosed before the date on which written notice of the withdrawal was received.

(c) A person who receives information made confidential by this chapter may disclose the information to others only to the extent consistent with the authorized purposes for which consent to release the information was obtained.

Added by Acts 1991, 72nd Leg., ch. 605, Sec. 8, eff. Sept. 1, 1991.

Sec. 773.094. INJUNCTION; DAMAGES. A person aggrieved by an unauthorized disclosure of communications or records that are confidential under this subchapter may petition the district court of
the county in which the person resides or, in the case of a nonresident of the state, a district court of Travis County for appropriate injunctive relief. The petition takes precedence over all civil matters on the docketed court except those matters to which equal precedence on the docket is granted by law. A person injured by an unauthorized disclosure of communications or records that are confidential under this subchapter may bring an action for damages.

Added by Acts 1991, 72nd Leg., ch. 605, Sec. 8, eff. Sept. 1, 1991.

Sec. 773.095. RECORDS AND PROCEEDINGS CONFIDENTIAL. (a) The proceedings and records of organized committees of hospitals, medical societies, emergency medical services providers, emergency medical services and trauma care systems, or first responder organizations relating to the review, evaluation, or improvement of an emergency medical services provider, a first responder organization, an emergency medical services and trauma care system, or emergency medical services personnel are confidential and not subject to disclosure by court subpoena or otherwise.

(b) The records and proceedings may be used by the committee and the committee members only in the exercise of proper committee functions.

(c) This section does not apply to records made or maintained in the regular course of business by an emergency medical services provider, a first responder organization, or emergency medical services personnel.

Sec. 773.096. IMMUNITY FOR COMMITTEE MEMBERS. A member of an organized committee under Section 773.095 is not liable for damages to a person for an action taken or recommendation made within the scope of the functions of the committee if the committee member acts without malice and in the reasonable belief that the action or recommendation is warranted by the facts known to the committee member.
SUBCHAPTER E. EMERGENCY MEDICAL SERVICES AND TRAUMA CARE SYSTEMS

Sec. 773.111. LEGISLATIVE FINDINGS. (a) The legislature finds that death caused by injury is the leading cause of death for persons one through 44 years of age, and the third overall cause of death for all ages. Effective emergency medical services response and resuscitation systems, medical care systems, and medical facilities reduce the occurrence of unnecessary mortality.

(b) It is estimated that trauma costs more than $63 million a day nationally, which includes lost wages, medical expenses, and indirect costs. Proportionately, this cost to Texas would be more than $4 million a day. Many hospitals provide emergency medical care to patients who are unable to pay for catastrophic injuries directly or through an insurance or entitlement program.

(c) In order to improve the health of the people of the state, it is necessary to improve the quality of emergency and medical care to the people of Texas who are victims of unintentional, life-threatening injuries by encouraging hospitals to provide trauma care and increasing the availability of emergency medical services.

Added by Acts 1991, 72nd Leg., ch. 605, Sec. 8, eff. Sept. 1, 1991.

Sec. 773.112. DUTIES OF BOARD; RULES. (a) The board by rule shall adopt minimum standards and objectives to implement emergency medical services and trauma care systems. The board by rule shall provide for the designation of trauma facilities and for triage, transfer, and transportation policies. The board shall consider guidelines adopted by the American College of Surgeons and the American College of Emergency Physicians in adopting rules under this section.

(b) The rules must provide specific requirements for the care of trauma patients, must ensure that the trauma care is fully coordinated with all hospitals and emergency medical services in the delivery area, and must reflect the geographic areas of the state, considering time and distance.
(c) The rules must include:
   (1) prehospital care management guidelines for triage and transportation of trauma patients;
   (2) flow patterns of trauma patients and geographic boundaries regarding trauma patients;
   (3) assurances that trauma facilities will provide quality care to trauma patients referred to the facilities;
   (4) minimum requirements for resources and equipment needed by a trauma facility to treat trauma patients;
   (5) standards for the availability and qualifications of the health care personnel, including physicians and surgeons, treating trauma patients within a facility;
   (6) requirements for data collection, including trauma incidence reporting, system operation, and patient outcome;
   (7) requirements for periodic performance evaluation of the system and its components; and
   (8) assurances that designated trauma facilities will not refuse to accept the transfer of a trauma patient from another facility solely because of the person's inability to pay for services or because of the person's age, sex, race, religion, or national origin.

Sec. 773.113. DUTIES OF BUREAU. (a) The bureau shall:
   (1) develop and monitor a statewide emergency medical services and trauma care system;
   (2) designate trauma facilities;
   (3) develop and maintain a trauma reporting and analysis system to:
      (A) identify severely injured trauma patients at each health care facility in this state;
      (B) identify the total amount of uncompensated trauma care expenditures made each fiscal year by each health care facility in this state; and
      (C) monitor trauma patient care in each health care
facility, including each designated trauma center, in emergency medical services and trauma care systems in this state; and

(4) provide for coordination and cooperation between this state and any other state with which this state shares a standard metropolitan statistical area.

(b) The bureau may grant an exception to a rule adopted under Section 773.112 if it finds that compliance with the rule would not be in the best interests of the persons served in the affected local emergency medical services and trauma care delivery area.

Sec. 773.1135. DUTIES OF DEPARTMENT. The department shall develop performance measures for regional advisory councils in trauma service areas to:

(1) promote the provision of a minimum level of emergency medical services in a trauma service area in accordance with the rules adopted under Section 773.112;

(2) promote the provision of quality care and service by the emergency medical services and trauma care system in accordance with the rules adopted under Section 773.112; and

(3) maximize the accuracy of information provided by a regional advisory council to the department or bureau for increased council effectiveness.

Added by Acts 2003, 78th Leg., ch. 849, Sec. 1, eff. Sept. 1, 2003.

Sec. 773.114. SYSTEM REQUIREMENTS. (a) Each emergency medical services and trauma care system must have:

(1) local or regional medical control for all field care and transportation, consistent with geographic and current communications capability;

(2) triage, transport, and transfer protocols; and

(3) one or more hospitals categorized according to trauma care capabilities using standards adopted by board rule.

(b) This subchapter does not prohibit a health care facility from providing services that it is authorized to provide under a
license issued to the facility by the department.

Sec. 773.115. TRAUMA FACILITIES. (a) The bureau may designate trauma facilities that are a part of an emergency medical services and trauma care system. A trauma facility shall be designated by the level of trauma care and services provided in accordance with the American College of Surgeons guidelines for level I and II trauma facilities and rules adopted by the board for level III and IV trauma facilities. In adopting rules under this section, the board may consider trauma caseloads, geographic boundaries, or minimum population requirements, but the bureau may not deny designation solely on these criteria. The board may not set an arbitrary limit on the number of facilities designated as trauma facilities.

(b) A health care facility may apply to the bureau for designation as a trauma facility, and the bureau shall grant the designation if the facility meets the requirements for designation prescribed by board rules.

(c) After September 1, 1993, a health care facility may not use the terms "trauma facility," "trauma hospital," "trauma center," or similar terminology in its signs or advertisements or in the printed materials and information it provides to the public unless the facility has been designated as a trauma facility under this subchapter.

Sec. 773.116. FEES. (a) The bureau shall charge a fee to a health care facility that applies for initial or continuing designation as a trauma facility.

(b) The board by rule shall set the amount of the fee schedule for initial or continuing designation as a trauma facility according
to the number of beds in the health care facility. The amount of the fee may not exceed:

1. $5,000 for a Level I or II facility;
2. $2,500 for a Level III facility; or
3. $1,000 for a Level IV facility.

(c) Repealed by Acts 2003, 78th Leg., ch. 198, Sec. 2.84(l).

(d) To the extent feasible, the board by rule shall set the fee in an amount necessary for the department to recover the cost directly related to designating trauma facilities under this subchapter.

(e) This section does not restrict the authority of a health care facility to provide a service for which it has received a license under other state law.

Sec. 773.117. DENIAL, SUSPENSION, OR REVOCATION OF DESIGNATION. (a) The department may deny, suspend, or revoke a health care facility's designation as a trauma facility if the facility fails to comply with the rules adopted under this subchapter.

(b) The denial, suspension, or revocation of a designation by the department and the appeal from that action are governed by the department's rules for a contested case hearing and by Chapter 2001, Government Code.

Sec. 773.119. GRANT PROGRAM. (a) The department shall establish a program to award grants to initiate, expand, maintain, and improve emergency medical services and to support medical systems and facilities that provide trauma care.

(b) The board by rule shall establish eligibility criteria for awarding the grants. The rules must require the department to
consider:
(1) the need of an area for the provision of emergency medical services or trauma care and the extent to which the grant would meet the identified need;
(2) the availability of personnel and training programs;
(3) the availability of other funding sources;
(4) the assurance of providing quality services;
(5) the use or acquisition of helicopters for emergency medical evacuation; and
(6) the development or existence of an emergency medical services system.
(c) The department may approve grants according to the rules adopted by the board. A grant awarded under this section is governed by the Uniform Grant and Contract Management Act of 1981 (Article 4413(32g), Vernon's Texas Civil Statutes) and by the rules adopted under that Act.
(d) The department may require a grantee to provide matching funds equal to not more than 75 percent of the amount of the grant.

Sec. 773.120. ACCEPTANCE OF GIFTS. A trauma facility or an emergency medical services and trauma care system may accept gifts or other contributions for the purposes of this subchapter.

Sec. 773.122. PAYMENTS FROM THE ACCOUNTS. (a) The commissioner, with advice and counsel from the chairpersons of the trauma service area regional advisory councils, shall use money in the accounts established under Sections 771.072(f) and 773.006 to fund county and regional emergency medical services, designated trauma facilities, and trauma care systems in accordance with this section.
(a-1) A grant recipient may not before the fourth anniversary
of the date a grant is awarded under Subsection (a) dispose of an
ambulance for which the total costs of purchasing the ambulance were
paid only from grants awarded under Subsection (a) or Section
780.004(a) unless the grant recipient obtains the department's prior
approval.

(b) The commissioner shall maintain a reserve of $500,000 of
money appropriated from the accounts for extraordinary emergencies.

(c) In any fiscal year the commissioner shall use 50 percent of
the appropriated money remaining from the accounts, after any amount
necessary to maintain the reserve established by Subsection (b) is
deducted, to fund, in connection with an effort to provide
coordination with the appropriate trauma service area, the cost of
supplies, operational expenses, education and training, equipment,
vehicles, and communications systems for local emergency medical
services. The money shall be distributed on behalf of eligible
recipients in each county to the trauma service area regional
advisory council for that county. To receive a distribution under
this subsection, the regional advisory council must be incorporated
as an entity that is exempt from federal income tax under Section
501(a), Internal Revenue Code of 1986, and its subsequent amendments,
by being listed as an exempt organization under Section 501(c)(3) of
the code. The share of the money allocated to the eligible recipients
in a county's geographic area shall be based on the relative
geographic size and population of the county and on the relative
number of emergency or trauma care runs performed by eligible
recipients in the county. Money that is not disbursed by a regional
advisory council to eligible recipients for approved functions by the
end of the fiscal year in which the funds were disbursed may be
retained by the regional advisory council to be used during the
following fiscal year in accordance with this subsection. Money that
is not disbursed by the regional advisory council during the
following fiscal year shall be returned to the account.

(d) In any fiscal year, the commissioner may use not more than
20 percent of the appropriated money remaining from the accounts,
after any amount necessary to maintain the reserve established by
Subsection (b) is deducted, for operation of the 22 trauma service
areas and for equipment, communications, and education and training
for the areas. Money distributed under this subsection shall be
distributed on behalf of eligible recipients in each county to the
trauma service area regional advisory council for that county. To
receive a distribution under this subsection, the regional advisory council must be incorporated as an entity that is exempt from federal income tax under Section 501(a), Internal Revenue Code of 1986, and its subsequent amendments, by being listed as an exempt organization under Section 501(c)(3) of the code. A regional advisory council's share of money distributed under this section shall be based on the relative geographic size and population of each trauma service area and on the relative amount of trauma care provided. Money that is not disbursed by a regional advisory council to eligible recipients for approved functions by the end of the fiscal year in which the funds were disbursed may be retained by the regional advisory council to be used during the following fiscal year in accordance with this subsection. Money that is not disbursed by the regional advisory council during the following fiscal year shall be returned to the account.

(e) In any fiscal year, the commissioner may use not more than three percent of the appropriated money from the accounts after any amount necessary to maintain the reserve established by Subsection (b) is deducted to fund the administrative costs of the bureau of emergency management of the department associated with administering the state emergency medical services program, the trauma program, and the accounts and to fund the costs of monitoring and providing technical assistance for those programs and the accounts.

(f) In any fiscal year, the commissioner shall use at least 27 percent of the appropriated money remaining from the accounts after any amount necessary to maintain the reserve established by Subsection (b) is deducted and the money from the accounts not otherwise distributed under this section to fund a portion of the uncompensated trauma care provided at facilities designated as state trauma facilities by the department. The administrator of a designated facility may request a regional advisory council chairperson to petition the department for disbursement of funds to a designated trauma facility in the chairperson's trauma service area that has provided uncompensated trauma care. Funds may be disbursed under this subsection based on a proportionate share of uncompensated trauma care provided in the state and may be used to fund innovative projects to enhance the delivery of patient care in the overall emergency medical services and trauma care system.

(g) The department shall review the percentages for disbursement of funds in the accounts on an annual basis and shall

(2) require the district to ensure that its equipment is compatible with the municipality's equipment; and
(3) require the district to enter into mutual aid agreements.

   (i) A request submitted under this section to a municipality described by Subsection (h) must include:

The commissioners court may adjourn the hearing as necessary.

Sec. 775.017. PETITION APPROVAL. (a) If after the hearing the commissioners court finds that creation of the district is feasible and will promote the public safety, welfare, health, and convenience
of persons residing in the proposed district, the commissioners court shall grant the petition, fix the district's boundaries, and impose any conditions negotiated under Section 775.014(h). If the proposed district, according to its boundaries stated in the petition, is located wholly in a county with a population of more than 3.3 million, the commissioners court may amend the petition to change the boundaries of the proposed district if the commissioners court finds the change is necessary or desirable. For the purposes of this provision, the population of the county is determined according to the most recent federal decennial census available at the time the petition is filed.

(b) If the proposed district will include territory in the municipal limits or extraterritorial jurisdiction of one or more municipalities, the commissioners court of the county in which the municipality is located must determine if the district would still meet the requirements prescribed by Subsection (a) if the territory in the municipality's limits or extraterritorial jurisdiction is excluded from the district. The commissioners court must make this finding for each municipality the territory of which will be included in the district.

(c) If the commissioners court finds that the proposed district does not meet the requirements prescribed by Subsection (a), the commissioners court shall deny the petition.

(b) Repealed by Acts 2005, 79th Leg., Ch. 123, Sec. 2, eff. September 1, 2005.
(c) If the petition indicates that the proposed district will contain territory in more than one county, the commissioners court may not order an election until the commissioners court of each county in which the district will be located has granted the petition.

(d) Subject to Section 4.003, Election Code, the notice of the election shall be given in the same manner as the notice of the petition hearing.

(e) The election shall be held on the first authorized uniform election date prescribed by the Election Code that allows sufficient time to comply with other requirements of law.

(f) If the territory of a district proposed under this chapter overlaps with the boundaries of another district created under this chapter, the commissioners court of each county in which the proposed district is located shall send to the board of the existing district a copy of the petition for creation of the proposed district. This subsection does not apply to a proposed district located wholly in a county with a population of more than three million.

(g) The board of the existing district shall adopt a statement before the date of the election required by this section that specifies the types of emergency services the existing district will provide or continue to provide in the overlapping territory if the proposed district is created. This subsection does not apply to a proposed district located wholly in a county with a population of more than three million.

Sec. 775.019. ELECTION RESULT AND COMMISSIONERS COURT ORDER. 

(a) A district is created and organized under this chapter if a majority of the votes cast in the election favor creation of the district.

(b) A district may not include territory in a municipality's limits or extraterritorial jurisdiction unless a majority of the voters residing in that territory who vote at the election vote in favor of creating the district subject to any conditions negotiated under Section 775.014(h) and imposing a tax. The exclusion of that territory does not affect the creation of a district that includes the remainder of the proposed territory if the commissioners court's findings under Section 775.017 are favorable to the district's creation.

(d) If a majority of those voting at the election vote against creation of the district, the commissioners court may not order another election for at least one year after the date of the official canvass of the most recent election concerning creation of the district. A subsequent election must be held in the same manner provided by this chapter for the original creation election.

(e) When a district is created, the commissioners court of each county in which the district is located shall enter in its minutes an order that reads substantially as follows:

Whereas, at an election held on the _____ day of ____________, 19___, in that part of ____________ County, State of Texas, described as (insert description unless the district is countywide), there was submitted to the qualified voters the question of whether that territory should be formed into an emergency services district under state law; and

Whereas, at the election _____ votes were cast in favor of formation of the district and _____ votes were cast against formation; and

Whereas, the formation of the emergency services district received the affirmative vote of the majority of the votes cast at the election as provided by law;

Now, therefore, the Commissioners Court of ____________ County, State of Texas, finds and orders that the tract described in this order has been duly and legally formed into an emergency services district (or a portion thereof) under the name of ____________, under
Article III, Section 48-e, of the Texas Constitution, as proposed by S.J.R. No. 27, Acts of the 70th Legislature, Regular Session, 1987, and adopted by the voters at an election held November 3, 1987, and has the powers vested by law in the district.

(f) Any conditions that were negotiated under Section 775.014(h) and included on the ballot must be included in the order entered under this section.

Sec. 775.020. OVERLAPPING DISTRICTS LOCATED WHOLLY IN POPULOUS COUNTY. (a) This section applies only to a district located wholly in a county with a population of more than three million.

(b) If the territory in a district created under this chapter overlaps with the boundaries of another district created under this chapter, a district converted under this chapter, or a district converted under former Section 794.100, the most recently created district may not provide services in the overlapping territory that duplicate the services provided by the other district at the time the overlapping district was created.

(c) For purposes of this section, a district is created on the date on which the election approving its creation was held. If the elections approving the creation of two or more districts are held on the same date, the most recently created district is the district for which the hearing regarding approval of the petition for creation of the district was most recently held.

(d) The creation of a district with boundaries that overlap the boundaries of another district does not affect the validity of either district.

Sec. 775.0205. OVERLAPPING DISTRICTS. (a) If the territory in a district created under this chapter overlaps with the boundaries of another district created under this chapter, the most recently
created district may not provide services in the overlapping territory that duplicate the services described in the statement required by Section 775.018(g).

(b) If the territory in more than two districts overlaps, the commissioners court of the county in which the most recently created district is located by order shall exclude the overlapping territory from that district.

(c) For purposes of this section, a district is created on the date on which the election approving its creation was held. If the elections approving the creation of two or more districts are held on the same date, the most recently created district is the district for which the hearing regarding approval of the petition for creation of the district was most recently held.

(d) The creation of a district with boundaries that overlap the boundaries of another district does not affect the validity of either district.

(d-1) The legislature finds that the performance of non-duplicative emergency services in the overlapping territory of emergency service districts is complementary to and not in conflict with the powers and duties of the respective districts.

(d-2) A person may serve as an emergency services commissioner of a district created under this chapter at the same time that the person serves as an emergency services commissioner of another district with overlapping territory created under this chapter.

(d-3) A person serving as a commissioner of more than one district under this section:

(1) may receive compensation for serving on only one board; and

(2) is entitled to reimbursement for reasonable and necessary expenses incurred in performing official duties for both boards.

(e) This section does not apply to a district located wholly in a county with a population of more than three million.

Amended by:
Acts 2011, 82nd Leg., R.S., Ch. 639 (S.B. 917), Sec. 2, eff. June 17, 2011.
Sec. 775.021. EXCLUSION OF TERRITORY LOCATED WITHIN OTHER TAXING AUTHORITY. (a) This section applies only to a district located in whole or in part in a county that:

1. borders the Gulf of Mexico; and
2. has a population of less than 1.5 million.

(b) The board of a district may exclude from the district the territory located within the boundaries of another taxing authority if the other taxing authority provides the same services to the territory as those provided by the district.

(c) The board, at its discretion, may hold a hearing to consider the exclusion of the territory.

(d) The board shall hold a hearing to consider the exclusion of the territory if the board receives a petition requesting a hearing on the issue that is signed by at least five percent of the qualified voters who own taxable real property in the district. A petition submitted under this subsection must describe the proposed new boundaries of the district or describe the boundaries of the territory to be excluded from the district.

(e) The board shall issue a notice of a hearing to be held under Subsection (c) or (d). The provisions of Section 775.015 relating to the procedure for issuing notice of a hearing to create the district apply to the notice for the hearing under this section. The notice must state:

1. the proposed new boundaries of the district or of the territory to be excluded;
2. the time and place of the hearing; and
3. that each person who has an interest in the exclusion or nonexclusion of the territory may attend the hearing and present the person's opinion for or against the exclusion of the territory.

(f) After the hearing the board either may order an election on the question of the exclusion of the territory or may declare by resolution the territory excluded from the district. However, the board may not declare the territory as excluded if the owners of at least three percent of the property located in the district protest the exclusion.

(g) If the board excludes the territory by resolution, the board shall state in the resolution the new boundaries of the district. The board shall file a copy of the resolution in the
office of the county clerk of each county in which the district is located. The county clerk of each affected county shall record the resolution in the county records. After the resolution is recorded, the excluded territory is no longer a part of the district.

(h) The board shall order an election on the question of exclusion if:
(1) the owners of at least three percent of the property located in the district protest the exclusion; or
(2) the board:
(A) despite the lack of a protest, refuses to exclude the territory; and
(B) after refusing to exclude the territory, receives a petition requesting an election that is signed by a majority of the qualified voters who own taxable real property in the territory proposed to be excluded.

(i) Except as otherwise required by the Election Code, the election notice, the manner and time of giving the notice, and the manner of holding the election are governed by the applicable provisions of this chapter relating to the original election to create the district.

(j) If a majority of the voters voting in the election favor excluding the territory from the district, the board shall enter an order declaring the territory excluded from the district and stating the new boundaries of the district. The board shall file a copy of the order in the office of the county clerk of each county in which the district is located. The county clerk of each affected county shall record the order in the county records. After the order is recorded, the excluded territory is no longer a part of the district.

(k) If a majority of the voters voting in the election do not favor excluding the territory, the board may not act on a petition to exclude all or part of the territory until the first anniversary of the date of the most recent election to exclude the territory from the district.

(l) The exclusion of territory under this section does not diminish or impair the rights of the holders of any outstanding and unpaid bonds, warrants, or other obligations of the district.

(m) Territory excluded under this section is not released from the payment of its pro rata share of the district's indebtedness. The district shall continue to levy taxes each year on the excluded territory at the same rate levied on territory in the district until
the taxes collected from the excluded territory equal its pro rata share of the indebtedness of the district at the time the territory was excluded. The taxes collected under this subsection shall be applied exclusively to the payment of the excluded territory's pro rata share of the indebtedness. The owner of all or part of the excluded territory may pay in full, at any time, the owner's share of the pro rata share of the district's indebtedness.

Sec. 775.022. REMOVAL OF TERRITORY BY MUNICIPALITY. (a) If a municipality completes all other procedures necessary to annex territory in a district and if the municipality intends to remove the territory from the district and be the sole provider of emergency services to the territory by the use of municipal personnel or by some method other than by use of the district, the municipality shall send written notice of those facts to the board. The municipality must send the notice to the secretary of the board by certified mail, return receipt requested. The territory remains part of the district and does not become part of the municipality until the secretary of the board receives the notice. On receipt of the notice, the board shall immediately change its records to show that the territory has been disannexed from the district and shall cease to provide further services to the residents of that territory. This subsection does not require a municipality to remove from a district territory the municipality has annexed.

(b) The disannexation of territory under this section does not diminish or impair the rights of the holders of any outstanding and unpaid bonds, warrants, or other obligations of the district including loans and lease-purchase agreements.

(c) If a municipality removes territory from a district that the municipality has annexed, the municipality shall compensate the district immediately after disannexation of the territory under Subsection (a) in an amount equal to the annexed territory's pro rata share of the district's bonded and other indebtedness as computed according to the formula in Subsection (e). The district shall apply compensation received from a municipality under this subsection exclusively to the payment of the annexed territory's pro rata share of the district's bonded and other indebtedness.
(d) On the district's request, a municipality shall purchase from the district at fair market value any real or personal property used to provide emergency services in territory disannexed under this section.

(e) The amount of compensation under Subsection (c) shall be determined by multiplying the district's total indebtedness at the time of the annexation by a fraction the numerator of which is the assessed value of the property to be annexed based on the most recent certified county property tax rolls at the time of annexation and the denominator of which is the total assessed value of the property of the district based on the most recent certified county property tax rolls at the time of annexation.

(f) For purposes of this section, total indebtedness includes loans and lease-purchase agreements but does not include:

(1) a loan or lease-purchase agreement the district enters into after the district receives notice of the municipality's intent to annex district territory; or

(2) any indebtedness attributed to any real or personal property that the district requires a municipality to purchase under Subsection (d).

Amended by: Acts 2013, 83rd Leg., R.S., Ch. 1363 (S.B. 1596), Sec. 1, eff. September 1, 2013.

Sec. 775.0221. ARBITRATION REGARDING REMOVED TERRITORY. (a) The municipality and the district shall negotiate an agreement on the amount of compensation required under Section 775.022. If the municipality and the district cannot reach an agreement, the municipality and the district shall resolve the dispute using binding arbitration.

(b) A request for binding arbitration must be in writing and may not be made before the 60th day after the date the municipality
receives notice from the district regarding the amount of compensation required under Section 775.022.

(c) The municipality and the district must agree on the arbitrator. If the parties cannot agree on the appointment of an arbitrator before the 11th business day after the date arbitration is requested, the mayor of the municipality shall immediately request a list of seven neutral arbitrators from the American Arbitration Association or the Federal Mediation and Conciliation Service or their successors in function. An arbitrator included in the list must be a resident of this state and may not be a resident of a county in which any part of the municipality or any part of the district is located. The municipality and the district must agree on the appointment of an arbitrator included in the list. If the municipality and the district cannot agree on the arbitrator before the 11th business day after the date the list is provided to the parties, each party or the party's designee may alternately strike a name from the list. The remaining person on the list shall be appointed as the arbitrator. In this subsection, "business day" means a day other than a Saturday, Sunday, or state or national holiday.

(d) The arbitrator shall:

(1) set a hearing to be held not later than the 10th day after the date the arbitrator is appointed; and

(2) notify the parties to the arbitration in writing of the time and place of the hearing not later than the eighth day before the date of the hearing.

(e) The arbitrator may:

(1) receive in evidence any documentary evidence or other information the arbitrator considers relevant;

(2) administer oaths; and

(3) issue subpoenas to require:

(A) the attendance and testimony of witnesses; and

(B) the production of books, records, and other evidence relevant to an issue presented to the arbitrator for determination.

(f) Unless the parties to the dispute agree otherwise, the arbitrator shall complete the hearing within two consecutive days. The arbitrator shall permit each party one day to present evidence and other information. The arbitrator, for good cause shown, may schedule an additional hearing to be held not later than the seventh
day after the date of the first hearing. Unless otherwise agreed to by the parties, the arbitrator must issue a decision in writing and deliver a copy of the decision to the parties not later than the 14th day after the date of the final hearing.

(g) The municipality and the district shall share the cost of arbitration.

Sec. 775.0235. REMOVAL OF CERTAIN TERRITORY ON REQUEST OF MUNICIPALITY. (a) The board shall remove territory from a district as provided by this section, on request of a municipality, if the territory:

(1) was included in the corporate limits of the municipality at the time the territory was first included in the district;

(2) is included in any part of a district that is composed of two or more territories that are not contiguous to each other; and

(3) is surrounded on at least three sides by territory inside the municipal boundaries of a municipality with a population of 400,000 or more.

(b) The board shall, on request of the municipality, immediately disannex the territory from the district and shall cease to provide further services to the residents of that territory.

(c) On request by the municipality, in connection with a disannexation under Subsection (b), the board shall immediately disannex all territory in the district that is included in the municipality's extraterritorial jurisdiction and shall cease to provide further services to the residents of such additional territory.

(d) The disannexation of territory under this section does not diminish or impair the rights of the holders of any outstanding and unpaid bonds, warrants, or other obligations of the district.

(e) If territory is disannexed under this section, the municipality shall compensate the district in an amount equal to the disannexed territory's pro rata share of the district's indebtedness at the time the territory is disannexed. The district shall apply
compensation received from a municipality under this subsection exclusively to the payment of the disannexed territory's pro rata share of the district's indebtedness.

(f) On the district's request, a municipality shall purchase from the district at fair market value any real or personal property used to provide emergency services in territory disannexed under this section. If any part of the indebtedness for which the district receives compensation under Subsection (e) was for the purchase of the real or personal property that the municipality purchases under this subsection, the fair market value of that property for the purpose of this subsection is reduced by a percentage equal to the disannexed territory's pro rata share under Subsection (e).

Sec. 775.024. CONSOLIDATION OF EMERGENCY SERVICES DISTRICTS.
(a) Two or more emergency services districts may consolidate into a single emergency services district as provided by this section. Before consolidating, the board of each district must:

(1) determine that consolidation would allow the districts to provide services more economically and efficiently; and

(2) adopt a joint order of consolidation that includes:

(A) the name and proposed territory of the consolidated district;

(B) the proposed date on which the existing districts dissolve and the consolidated district is created and will start offering services;

(C) if the maximum ad valorem tax rates in the districts are different, a statement that the districts will consolidate only if voters approve an equalized ad valorem tax rate at the election required by Section 775.0241; and

(D) a statement that the district will be consolidated only if the residents of the district and the residents of at least one other district approve the consolidation in an election held for that purpose.

(b) The boards shall agree on a name for the proposed consolidated district and choose five commissioners from among the membership of the boards to serve on the initial board for the proposed district. The boards shall agree to stagger the terms
appropriately.

(c) If the boards do not make the appointments before the 31st day after the date the boards adopted the joint order:

(1) for a consolidated district to which Section 775.0345 or 775.035 does not apply, the commissioners court shall appoint five commissioners to the board of the consolidated district; or

(2) for a consolidated district to which Section 775.0345 or 775.035 does apply, the board of the consolidated district is initially composed of the two commissioners from each existing board who have served the longest terms.

(c-1) The number of initial emergency services commissioners on a board described by Subsection (c)(2) is not required to be five.

(d) The ballot for the election to approve a consolidation shall be printed to permit voting for or against the proposition: "The consolidation of the ________ (insert district names) to create the ______________ (insert name of proposed district), which assumes all outstanding debts of the existing districts." The ballot shall include a proposition for an election required under Section 775.0241, if applicable.

(e) If a majority of the voters voting in at least two of the districts proposed to be consolidated favor the consolidation, the consolidated district is created and is composed of the districts that favored the consolidation. If less than a majority of the voters voting in any of the districts are in favor of the consolidation, that district is not part of any consolidated district.

(f) The consolidated district is created on the latest of:

(1) the date stated in the joint order;

(2) the date the consolidation is approved in an election described by Subsection (d); or

(3) the date the maximum ad valorem tax rate the consolidated district may impose under Section 775.0241 is established, if necessary.

(g) The consolidated district assumes all powers, rights, duties, assets, and liabilities of the former districts without a change in status. The consolidation does not diminish or impair the rights of the holders of any outstanding and unpaid bonds, warrants, or obligations of the district.

(h) For a consolidated district to which Section 775.0345 or 775.035 applies, the initial commissioners of the consolidated district
district serve until the next available uniform election date after the date the joint order is adopted and that allows sufficient time to comply with other requirements of law. After an election is held under Section 775.0345 or 775.035:

(1) the two commissioners who receive the fewest votes of the elected commissioners serve terms ending on December 31 of the second year following the year in which the election is held; and

(2) the remaining elected commissioners serve terms ending on December 31 of the fourth year following the year in which the election is held.

Sec. 775.0241. TAXES FOR CONSOLIDATED DISTRICT. (a) If two districts that want to consolidate under Section 775.024 have different maximum ad valorem tax rates, the board of the district with the lower maximum ad valorem tax rate shall order an election in its district under Section 775.0745 to authorize the imposition of taxes in the territory of that district at a maximum rate that equals the maximum rate authorized in the district with the higher maximum rate.

(b) If a majority of the voters do not favor the increase in the maximum ad valorem tax rate under Subsection (a), the districts may not proceed with the consolidation.

(c) If the districts have different sales and use tax rates, the board of the consolidated district shall:

(1) designate the territory of the former districts as subdistricts;

(2) continue to impose the sales and use tax in each subdistrict at the rate the tax was imposed by the former district; and

(3) send to the comptroller by registered or certified mail:

(A) a copy of the joint order described by Section 775.024(a)(2); and
Sec. 775.025. EXCLUSION OF CERTAIN TERRITORY SUBJECT TO ASSESSMENTS. (a) The board shall hold a hearing to consider the exclusion from the district of territory in a planned community if the board receives a petition requesting a hearing on the issue that is signed by at least five percent of the qualified voters residing in the territory proposed to be excluded from the district. A petition submitted under this subsection must describe the boundaries of the territory to be excluded from the district.

(b) The board shall give notice of a hearing under this section. The procedure under Section 775.015 for issuing notice of a hearing to create the district applies to the notice under this section. The notice must state:

(1) the boundaries of the territory proposed to be excluded;
(2) the time and place of the hearing; and
(3) that each person who has an interest in the exclusion or nonexclusion of the territory may attend the hearing and present the person's opinion for or against the exclusion of the territory.

(c) After the hearing, if the board finds that the entity responsible for administering and collecting the ad valorem or annual variable budget based assessments in the territory to be excluded provides or contracts for the provision of substantially the same services as provided by the district, the board shall:

(1) order an election on the question of exclusion; or
(2) declare by resolution the territory excluded from the district.

(d) The board may not exclude territory by resolution if at least three percent of the qualified voters residing in the territory to be excluded from the district protest the exclusion in writing at the hearing.
(e) In a resolution excluding territory, the board shall describe the new boundaries of the district.

(f) The board shall order an election in the territory proposed to be excluded on the question of exclusion if:

1. at least three percent of the qualified voters residing in the territory to be excluded protest the exclusion in writing at the hearing; or

2. the board:

   A. despite the lack of a sufficient protest, refuses to exclude the territory; and

   B. not later than the 90th day after refusing to exclude the territory, receives a petition requesting an election that is signed by at least 10 percent of the qualified voters residing in the territory proposed to be excluded.

(g) Except as otherwise provided by the Election Code, the provisions of this chapter relating to the election creating the district apply to the election notice, the manner and time of giving the notice, and the manner of holding the election under this section.

(h) For purposes of the election, the order calling the election shall divide the territory proposed to be excluded from the district into one or more precincts.

(i) If a majority of the votes in an election favor excluding the territory from the district, the board shall enter an order declaring the territory excluded from the district and describing the new boundaries of the district.

(j) The board shall file a copy of a resolution or order with the county clerk of each county in which the district is located. Each county clerk shall record the resolution or order. After the resolution or order is recorded, the excluded territory is no longer part of the district.

(k) If a majority of the votes in the election are against excluding the territory, the board may not act on a petition to exclude all or any part of the territory before the first anniversary of the date of the most recent election to exclude the territory.

(l) The exclusion of territory under this section does not diminish or impair the rights of the holders of any outstanding and unpaid bonds, warrants, or other district obligations. The district shall continue to impose taxes each year on the excluded territory at the same rate imposed on other territory in the district until the
total amount of taxes collected from the excluded territory equals its pro rata share of the indebtedness of the district at the time the territory was excluded. The taxes collected under this subsection shall be applied only to the payment of the excluded territory's pro rata share of indebtedness. The owner of all or part of the excluded territory at any time may pay in full the owner's share of the excluded territory's pro rata share of the district's indebtedness at the time the territory was excluded.

(m) On or after the date on which the appropriate county clerk records the resolution or order excluding the territory from the district, the district or a fire department or ambulance service that contracts with the district is not required to provide to the excluded territory emergency service facilities, emergency services, or other services to protect the life and health of residents in the territory.

(n) For purposes of Subsection (o)(1), land ownership that is separated only by the claim of title by the state to the beds and banks of rivers or streams is considered contiguous. Land ownership that is separated by a farm-to-market road right-of-way, whether fee simple ownership or an easement, is not considered contiguous.

(o) In this section:

(1) "Planned community" means a planned community of 15,000 or more acres of land originally established under the Urban Growth and New Community Development Act of 1970 (42 U.S.C. Section 4501 et seq.) that is:
   (A) located in a county adjacent to a county with a population of 2,800,000 or more according to the most recent federal census; and
   (B) subject to restrictive covenants containing ad valorem or annual variable budget based assessments on real property for use in part to finance services of the same general type provided by the district.

(2) "Territory in a planned community" means territory that:
   (A) on the effective date of this section comprises all or part of a planned community; or
   (B) on the effective date of this section is contiguous to a planned community and later becomes part of that planned community.
Sec. 775.026. CONVERSION OF RURAL FIRE PREVENTION DISTRICTS TO EMERGENCY SERVICES DISTRICTS. (a) Each rural fire prevention district created under former Chapter 794 is converted to an emergency services district operating under this chapter.

(b) The name of a district converted under this section is changed to "___ Emergency Services District No. ___," with the name of the county or counties in which the district is located and an appropriate number inserted to distinguish one district from another district.

(c) The emergency services district to which a rural fire prevention district converts assumes all obligations and outstanding indebtedness of the rural fire prevention district.

(d) A fire commissioner of a rural fire prevention district is an emergency services commissioner of the converted district on conversion of the district under this section and shall serve until the term for which the commissioner was appointed or elected expires.

Sec. 775.031. DISTRICT POWERS. (a) A district is a political subdivision of the state. To perform the functions of the district and to provide emergency services, a district may:

(9) contract with other entities, including other districts or municipalities, to make emergency services facilities and emergency services available to the district;

(11) borrow money; and
(12) perform other acts necessary to carry out the intent of this chapter.

(b) A district located wholly within a county with a population of more than 3.3 million may not provide fire prevention or fire-fighting services unless the district:
(1) was originally a rural fire prevention district and was converted to an emergency services district under this chapter or former Section 794.100; or
(2) is created after September 1, 2003.

(b-1) A district that was formerly a rural fire prevention district that is not otherwise prohibited by statute from providing fire prevention or fire-fighting services may provide those services.

(c) A district may contract with the state or a political subdivision for law enforcement services or for enforcement of the district's fire code. A district may commission a peace officer or employ a person who holds a permanent peace officer license issued under Section 1701.307, Occupations Code, as a peace officer.

(d) A district is not required to perform all the functions authorized by this chapter. A district may be created to provide
limited services.

(A) a qualified voter within areas served by the district; or
(B) the owner of land subject to taxation in the

On January 1, the court shall designate three of those emergency services commissioners to serve a two-year term and two of those emergency services commissioners to serve a one-year term.

(d) On January 1 of each year, the commissioners court shall appoint a successor for each emergency services commissioner whose term has expired.

(e) The commissioners court shall fill a vacancy on the board for the remainder of the unexpired term.

(2) with a population of more than 200,000 that borders Lake Palestine; or

(3) with a population of less than 200,000 that borders another state and the Gulf Intracoastal Waterway.

(b) The governing body of a district consists of a five-person board of emergency services commissioners elected as prescribed by this section. Except as provided by Subsections (h) and (h-1), emergency services commissioners serve four-year terms.

(b-1) Notwithstanding Subsection (b), the governing body of a district described by Subsection (a)(2) or (3) is governed by a five-member board of emergency services commissioners elected from single-member districts. One director is elected from each single-member district. As soon as possible after the district is created, the commissioners court of the county in which the district is located shall divide the district into five numbered single-member districts.

(c) After a district is created, the county judge shall establish a convenient day provided by Section 41.001, Election Code, to conduct an election to elect the initial emergency services commissioners.

The notice must state the person's name, age, and address and state that the person is serving notice of intent to run for emergency services commissioner. If the person intends to run for emergency services
commissioner in a single-member district in a district described by Subsection (a)(2) or (3), the notice must also specify the single-member district the person seeks to represent. On receipt of the notice, the voter registrar of the county shall have the candidate's name placed on the ballot.

(f) The voter registrar of the county shall appoint an election judge to certify the results of the election.

(g) After the election is held, the voter registrar or deputy registrar of the county shall prepare a sworn statement of the election costs incurred by the county. The statement shall be given to the newly elected board, which shall order the appropriate official to reimburse the county for the county's election costs.

(h) The initial emergency services commissioners' terms of office begin 30 days after canvassing of the election results. The two commissioners who received the fewest votes serve a term that expires on December 31 of the second year following the year in which the election was held. The other emergency services commissioners serve terms that expire on December 31 of the fourth year following the year in which the election was held.

(h-1) Notwithstanding Subsection (h), the five initial emergency services commissioners elected from single-member districts in a district described by Subsection (a)(2) or (3) shall draw lots to determine which two commissioners serve terms that expire on December 31 of the second year following the year in which the election was held and which three commissioners serve terms that expire on December 31 of the fourth year following the year in which the election was held.

(i) The board shall hold the general election for commissioner every two years on an authorized uniform election date as provided by Chapter 41, Election Code. (b) After a district located in more than one county is created, the county judges of each county in the district shall mutually establish a convenient day provided by Section 41.001, Election Code, to conduct an election to elect the initial emergency services commissioners.

(c) To be eligible to be a candidate for emergency services commissioner of a district located in more than one county, a person must be at least 18 years of age and a resident of the district.

(d) A candidate for emergency services commissioner must give the county clerk of each county in the district a sworn notice of the candidate's intention to run for office. The notice must state the person's name, age, and address and state that the person is serving notice of intent to run for emergency services commissioner. On receipt of the notice, the county clerk shall have the candidate's name placed on the ballot.

The other emergency services commissioners serve terms that expire on December 31 of the fourth year following the year in which the election was held.

(h) The general election for commissioner shall be held every two years on an authorized uniform election date as provided by Chapter 41, Election Code. Sec. 775.0355. DISQUALIFICATION OF EMERGENCY SERVICES COMMISSIONERS IN CERTAIN COUNTIES. (a) In this section, "emergency services organization" means:

(1) a volunteer fire department;
(2) a career or combination fire department;
(3) a municipal fire department;
(4) an emergency medical services organization under the jurisdiction of the Department of State Health Services;
(5) any other agency under the jurisdiction of the state fire marshal's office; or
(6) any other organization or corporation that governs an emergency services organization.

(b) This section applies only to a district located wholly in a county:
(1) with a population of more than three million;
(2) with a population of more than 200,000 that borders Lake Palestine; or
(3) with a population of less than 200,000 that borders another state and the Gulf Intracoastal Waterway.

(c) A person is disqualified from serving as an emergency services commissioner if that person:
(1) is related within the third degree of affinity or consanguinity to:
   (A) a person providing professional services to the district;
   (B) a commissioner of the same district; or
   (C) a person who is an employee or volunteer of an emergency services organization providing emergency services to the district;
(2) is an employee of a commissioner of the same district, attorney, or other person providing professional services to the district;
(3) is serving as an attorney, consultant, or architect or in some other professional capacity for the district or an emergency services organization providing emergency services to the district;
   or
(4) fails to maintain the qualifications required by law to serve as a commissioner.

(d) Any rights obtained by a third party through official action of a board covered by this section are not impaired or affected by the disqualification under this section of an emergency services commissioner to serve, provided that the third party had no knowledge, at the time the rights were obtained, of the fact that the commissioner was disqualified to serve.

(b) The board may adopt and enforce a fire code, including fines for any violations, that does not conflict with a fire code adopted by any county that also contains within its boundaries any portion of the land contained in the district and may require inspections in the district relating to the causes and prevention of fires and medical emergencies, except as provided by Section 775.031(b). The fire code must be similar to standards adopted by a nationally recognized standards-making association. The board may not enforce the district's fire code within the boundaries of a municipality that has adopted a fire code, except for an area that has been annexed only for limited purposes in which the municipality does not enforce a fire code. The board of a district located wholly within a county with a population of three million or more may not adopt a fire code or a fine for a violation of the district's fire code unless the commissioners court of the county consents to the adoption of the code or fine.

(b-1) If a county that contains within its boundaries any portion of the land contained in the district adopts a code after the district adopts a code under Subsection (b), the board may continue to enforce its fire code in the area subject to the county fire code. To the extent of any conflict between the county's code and the district's code, the more stringent provision prevails.

(c) The board may promote educational programs it considers proper to help carry out the purposes of this chapter.

In a district's first year of operation, the board shall publish the notice not later than the 60th day after the date the initial board is appointed.

(g) The board may commission a peace officer or employ a person who holds a permanent peace officer license issued under Section 1701.307, Occupations Code, to inspect for fire hazards any structure, appurtenance, fixture, or other real property located in the district. (d) Except as provided by Subsection (e), if a district contracts with a local government under this section to provide or obtain emergency services, the district is responsible for any civil liability that arises from furnishing those services if the district would have been responsible for furnishing the services in the absence of the contract.

(e) The parties to a contract between governmental entities under this section may agree to assign responsibility for civil liability that arises from services provided under the contract in any manner agreed to by the parties. A commissioner who receives per diem compensation may not be reimbursed for reasonable and necessary expenses. Per diem payments may not exceed $3,000 per year.

(c) To receive compensation, per diem compensation, or reimbursement for expenses, a commissioner must file with the district a verified statement showing the number of days actually spent performing the duties of a commissioner and a general description of the duties performed for each day of service.

(1) the board adopts a policy providing for differential pay for all similarly situated employees; and

(2) the employee's military pay is less than the employee's gross pay from the district.

The petition must be signed by at least 50 qualified voters who own taxable real property in the territory or a majority of those voters, whichever is less.

entered in its minutes. The board is not required to include all of
the territory described in the petition if the board finds that a
change is necessary or desirable.
(f) Annexation of territory is final when approved by a
majority of the voters at an election held in the district and by a
majority of the voters at a separate election held in the territory
to be annexed. If the district has outstanding debts or taxes, the

3. the proposal that the district be dissolved; and
4. the place, date, and time of the hearing on the petition.

(d) The notice shall be published in a newspaper of general circulation in the district once a week for two consecutive weeks. The first publication must occur not later than the 21st day before the date on which the hearing will be held.

Sec. 775.053. HEARING. (a) At the hearing on the petition to dissolve the district, the board shall consider the petition and each issue relating to the dissolution of the district.

(b) Any interested person may appear before the board to support or oppose the dissolution.

(c) The board shall grant or deny the petition.

Sec. 775.054. ELECTION TO CONFIRM DISSOLUTION. (a) On the granting of a petition to dissolve the district, the board shall order an election to confirm the district's dissolution.

(b) Notice of the election shall be given in the same manner as the notice of the petition hearing.

district may not be held for at least one year after dissolution.
(g) If a majority of those voting at the election vote against
dissolving the district, the board may not order another election on
the issue before the first anniversary of the date of the canvass of
the election.

Sec. 775.055. ADMINISTRATION OF PROPERTY, DEBTS, AND ASSETS
AFTER DISSOLUTION. (a) After a vote to dissolve a district, the
board shall continue to control and administer the property, debts,
and assets of the district until all funds are disposed of and all
district debts are paid or settled.
(b) The board may not dispose of the district's assets except
for due compensation unless the debts are transferred to another
governmental entity or agency within or embracing the district and
the transfer will benefit the district's residents.
(c) After the board issues the dissolution order, the board
shall:
(1) determine the debt owed by the district; and
(2) impose on the property included in the district's tax
rolls a tax that is in proportion of the debt to the property value.

credited to the taxpayer's county taxes. If a taxpayer requests the
credit, the board shall direct the secretary to transmit the funds to
the county tax assessor-collector.
(g) After the district pays all its debts and disposes of all
its assets and funds as prescribed by this section, the board shall
file a written report with the commissioners court of each county in which the district is located setting forth a summary of the board's actions in dissolving the district. Not later than the 10th day after the date it receives the report and determines that the requirements of this section have been fulfilled, the commissioners court of each county shall enter an order dissolving the district.

(h) Each emergency services commissioner is discharged from liability under the emergency services commissioner's bond on entry of the order prescribed by Subsection (g).

Sec. 775.056. TRANSFER OF TERRITORY BETWEEN DISTRICTS. (a) After a hearing, a district may make mutually agreeable changes in boundaries with another district, provided that the maximum tax rate authorized for such a district does not exceed the maximum tax rate previously authorized for any territory added to that district. The districts shall agree on an effective date for the changes in boundaries.

(b) The changes in boundaries under this section do not diminish or impair the rights of the holders of any outstanding and unpaid bonds, warrants, or other district obligations.

(c) A district shall compensate the district that loses territory in an amount equal to that territory's pro rata share of the losing district's bonded and other indebtedness based on the unpaid principal balances and the actual property values at the time the changes in boundaries are made. The district that loses territory shall apply compensation received from the annexing district under this subsection exclusively to the payment of the annexed territory's pro rata share of the losing district's bonds or other debt.

impose an ad valorem tax on all real and personal property located in
the district and subject to district taxation for the district's
support and the purposes authorized by this chapter.

(b) If a district issues bonds or notes that are payable wholly

authorized, set a tax rate that is sufficient to pay the principal of
and interest on the bonds or notes as the interest and principal come
due and to provide reserve funds if prescribed in the resolution
authorizing, or the trust indenture securing, the bonds or notes.

(c) If a district issues bonds or notes that are payable from

Sec. 775.0745. ELECTION TO INCREASE TAX RATE. (a) If the board decides to increase the maximum tax rate of the district to any rate at or below the rate allowed by this chapter or Section 48-e, Article III, Texas Constitution, the board must order an election to authorize the increase. The proposition on the ballot must state the proposed maximum tax rate to be authorized at the election.

(b) The board shall give notice of the election as provided by Section 4.003, Election Code. The notice shall contain the information required by Section 4.004, Election Code.

(b) The petition must state the new tax rate desired by the voters.

(c) The tax rate may not be reduced below the rate needed to pay any outstanding bonded indebtedness.

Sec. 775.0751. SALES AND USE TAX. (a) A district may adopt a sales and use tax, change the rate of its sales and use tax, or abolish its sales and use tax at an election held as provided by Section 775.0752. The district may impose the tax at a rate from one-eighth of one percent to two percent in increments of one-eighth of one percent. Revenue from the tax may be used for any purpose for which ad valorem tax revenue of the district may be used.

(b) Chapter 323, Tax Code, applies to the application, collection, and administration of the tax imposed under this section. The comptroller may make rules for the collection and administration of this tax in the same manner as for a tax imposed under Chapter 323, Tax Code. Where a county and a hospital district both impose a sales and use tax, the comptroller may by rule provide for
proportionate allocation of sales and use tax collections between a county and a hospital district on the basis of the period of time each tax is imposed and the relative tax rates.

(c) Except as provided by Subsection (c-1), a district may not adopt a tax under this section or increase the rate of the tax if as a result of the adoption of the tax or the tax increase the combined rate of all sales and use taxes imposed by the district and other political subdivisions of this state having territory in the district would exceed two percent at any location in the district.

(c-1) A district that otherwise would be precluded from adopting a sales and use tax under Subsection (c) may adopt a sales and use tax, change the rate of its sales and use tax, or abolish its sales and use tax at an election held as provided by Section 775.0752, if the board:

(2) not later than the 30th day after the date on which the board issues the election order, gives, for informational purposes, written or oral notice on the proposed imposition, increase, or abolition of the sales and use tax, including the reasons for the proposed change, to the commissioners court of each county in which the district is located.

(d) If the voters of a district approve the adoption of the tax or an increase in the tax rate at an election held on the same election date on which another political subdivision of this state adopts a sales and use tax or approves the increase in the rate of its sales and use tax and as a result the combined rate of all sales and use taxes imposed by the district and other political subdivisions of this state having territory in the portion of the district in which the district sales and use tax will apply would exceed two percent at any location in that portion of the district, the election to adopt a sales and use tax or to increase the rate of the sales and use tax in the district under this subchapter has no effect.

(c) At an election to adopt the tax, the ballot shall be prepared to permit voting for or against the proposition: "The adoption of a local sales and use tax in (name of district) at the rate of (proposed tax rate) percent."

(d) At an election to abolish the tax, the ballot shall be prepared to permit voting for or against the proposition: "The abolition of the local sales and use tax in (name of district)."

(a) The adoption or abolition of the tax or change in the tax rate takes effect on the first day of the first calendar quarter occurring after the expiration of the first complete calendar quarter occurring after the date on which the comptroller receives a notice of the results of the election.
(b) If the comptroller determines that an effective date provided by Subsection (a) will occur before the comptroller can reasonably take the action required to begin collecting the tax or to implement the abolition of the tax or the tax rate change, the effective date may be extended by the comptroller until the first day of the next succeeding calendar quarter.

(c) Except as provided by Section 775.0754, the provisions of Section 321.102, Tax Code, governing the application of a municipal sales and use tax in the event of a change in the boundaries of a municipality apply to the application of a tax imposed under this chapter in the event of a change in the district's boundaries.

(1) a municipality annexes for full purposes part of a district that imposes a sales and use tax; and
(2) the annexed area is not removed from the district.
(b) The municipality and the district may, before or after the annexation, agree on an allocation between the municipality and the district of revenue from the sales and use tax imposed in the annexed area.
(c) Under policies and procedures that the comptroller considers reasonable, the comptroller shall pay the amounts agreed to between the municipality and the district.
(d) A municipality that enters into an agreement under this section is not required to provide emergency services in that annexed territory. To the extent of a conflict between this subsection and Section 43.056, Local Government Code, or any other law, this subsection controls.
(e) Section 321.102(f), Tax Code, does not apply if the municipality and the district enter into an agreement under this section.

(d) Provision may be made for the subsequent issuance of additional parity bonds or notes or subordinate lien bonds or notes under terms and conditions stated in the resolution authorizing the issuance of the bonds or notes.

(e) to (g) Repealed by Acts 2001, 77th Leg., ch. 1140, Sec. 23(2), eff. Sept. 1, 2001.

(h) If provided by the resolution, the proceeds from the sale of the bonds or notes may be used for:

(1) paying interest on the bonds or notes during the period of the acquisition or construction of a facility to be provided through the issuance of the bonds or notes;
(2) paying expenses of operation and maintenance of the facility;
(3) creating a reserve fund to pay the principal of and interest on the bonds or notes; and
(4) creating other funds.

(i) As provided in the resolution, proceeds from the sale of the bonds and notes may be placed on time deposit or invested until
needed.

(j) If the bonds or notes are issued payable by a pledge of revenues, income, or receipts, the district may pledge all or any part of its revenues, income, or receipts from fees, rentals, rates, charges, and proceeds and payments from contracts to the payment of the bonds or notes, including the payment of principal, interest, and any other amounts required or permitted in connection with the bonds or notes. The pledged fees, rentals, rates, charges, proceeds, and payments must be established and collected in amounts that will be at least sufficient, together with any other pledged resources, to provide for:

(c) The board shall publish notice of the election at least

(c) A district may from time to time authorize the issuance of bonds to provide proceeds to pay the principal of and interest on bond anticipation notes. The bonds must be secured by a pledge of all or part of the district's ad valorem taxes or revenues, income, or receipts and may be issued on a parity with or subordinate to outstanding district bonds.

(d) If the resolution authorizing the issuance of, or the trust indenture securing, the bond anticipation notes includes a covenant that the notes are payable from the proceeds of the subsequently issued bonds, it is not necessary for the district to demonstrate, in order to receive the approval of the attorney general or registration by the comptroller, that the ad valorem taxes or revenues, income, or receipts that may be pledged to payment of the notes will be sufficient to pay the principal of and interest on the notes.

CHAPTER 778. EMERGENCY MANAGEMENT ASSISTANCE COMPACT

Sec. 778.001. EXECUTION OF INTERSTATE COMPACT. This state enacts the Emergency Management Assistance Compact and enters into the compact with all other states legally joining in the compact in
substantially the following form:

EMERGENCY MANAGEMENT ASSISTANCE COMPACT

ARTICLE I--PURPOSE AND AUTHORITIES

This compact is made and entered into by and between the participating member states which enact this compact, hereinafter called party states. For the purposes of this agreement, the term "states" is taken to mean the several states, the Commonwealth of Puerto Rico, the District of Columbia, and all U.S. territorial possessions.

The purpose of this compact is to provide for mutual assistance between the states entering into this compact in managing any emergency or disaster that is duly declared by the governor of the affected state(s), whether arising from natural disaster, technological hazard, man-made disaster, civil emergency aspects of resources shortages, community disorders, insurgency, or enemy attack.

This compact shall also provide for mutual cooperation in emergency-related exercises, testing, or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party states or subdivisions of party states during emergencies, such actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of the states' National Guard forces, either in accordance with the National Guard Mutual Assistance Compact or by mutual agreement between states.

ARTICLE II--GENERAL IMPLEMENTATION

Each party state entering into this compact recognizes many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this compact. Each state further recognizes that there will be emergencies which require immediate access and present procedures to apply outside resources to make a prompt and effective response to such an emergency. This is because few, if any, individual states have all the resources they may need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

The prompt, full, and effective utilization of resources of the participating states, including any resources on hand or available from the Federal Government or any other source, that are essential to the safety, care, and welfare of the people in the event of any
emergency or disaster declared by a party state, shall be the underlying principle on which all articles of this compact shall be understood.

On behalf of the governor of each state participating in the compact, the legally designated state official who is assigned responsibility for emergency management will be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this compact.

ARTICLE III--PARTY STATE RESPONSIBILITIES

A. It shall be the responsibility of each party state to formulate procedural plans and programs for interstate cooperation in the performance of the responsibilities listed in this article. In formulating such plans, and in carrying them out, the party states, insofar as practical, shall:

i. Review individual state hazards analyses and, to the extent reasonably possible, determine all those potential emergencies the party states might jointly suffer, whether due to natural disaster, technological hazard, man-made disaster, emergency aspects of resource shortages, civil disorders, insurgency, or enemy attack.

ii. Review party states' individual emergency plans and develop a plan which will determine the mechanism for the interstate management and provision of assistance concerning any potential emergency.

iii. Develop interstate procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans.

iv. Assist in warning communities adjacent to or crossing the state boundaries.

v. Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services, and resources, both human and material.

vi. Inventory and set procedures for the interstate loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness.

vii. Provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances that restrict the implementation of the above responsibilities.

B. The authorized representative of a party state may request assistance of another party state by contacting the authorized
representative of that state. The provisions of this agreement shall only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request shall be confirmed in writing within 30 days of the verbal request. Requests shall provide the following information:

i. A description of the emergency service function for which assistance is needed, such as but not limited to fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, and search and rescue.

ii. The amount and type of personnel, equipment, materials and supplies needed, and a reasonable estimate of the length of time they will be needed.

iii. The specific place and time for staging of the assisting party's response and a point of contact at that location.

C. There shall be frequent consultation between state officials who have assigned emergency management responsibilities and other appropriate representatives of the party states with affected jurisdictions and the United States Government, with free exchange of information, plans, and resource records relating to emergency capabilities.

ARTICLE IV--LIMITATIONS

Any party state requested to render mutual aid or conduct exercises and training for mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for such state. Each party state shall afford to the emergency forces of any party state, while operating within its state limits under the terms and conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving state), duties, rights, and privileges as are afforded forces of the state in which they are performing emergency services. Emergency forces will continue under the command and control of their regular leaders, but the organizational units will come under the operational control of the emergency services authorities of the state receiving assistance. These conditions may be activated, as needed, only subsequent to a declaration of a state of emergency or disaster by the governor of
the party state that is to receive assistance or commencement of exercises or training for mutual aid and shall continue so long as the exercises or training for mutual aid are in progress, the state of emergency or disaster remains in effect or loaned resources remain in the receiving state(s), whichever is longer.

ARTICLE V--LICENSES AND PERMITS
Whenever any person holds a license, certificate, or other permit issued by any state party to the compact evidencing the meeting of qualifications for professional, mechanical, or other skills, and when such assistance is requested by the receiving party state, such person shall be deemed licensed, certified, or permitted by the state requesting assistance to render aid involving such skill to meet a declared emergency or disaster, subject to such limitations and conditions as the governor of the requesting state may prescribe by executive order or otherwise.

ARTICLE VI--LIABILITY
Officers or employees of a party state rendering aid in another state pursuant to this compact shall be considered agents of the requesting state for tort liability and immunity purposes; and no party state or its officers or employees rendering aid in another state pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith in this article shall not include willful misconduct, gross negligence, or recklessness.

ARTICLE VII--SUPPLEMENTARY AGREEMENTS
Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that among the states that are party hereto, this instrument contains elements of a broad base common to all states, and nothing herein contained shall preclude any state from entering into supplementary agreements with another state or affect any other agreements already in force between states. Supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, and equipment and supplies.

ARTICLE VIII--COMPENSATION
Each party state shall provide for the payment of compensation and death benefits to injured members of the emergency forces of that
state and representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own state.

ARTICLE IX--REIMBURSEMENT

Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to or expense incurred in the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with such requests; provided, that any aiding party state may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the receiving party state without charge or cost; and provided further, that any two or more party states may enter into supplementary agreements establishing a different allocation of costs among those states. Article VIII expenses shall not be reimbursable under this provision.

ARTICLE X--EVACUATION

Plans for the orderly evacuation and interstate reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant, shall be worked out and maintained between the party states and the emergency management/services directors of the various jurisdictions where any type of incident requiring evacuations might occur. Such plans shall be put into effect by request of the state from which evacuees come and shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends, and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors. Such plans shall provide that the party state receiving evacuees and the party state from which the evacuees come shall mutually agree as to reimbursement of out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines and medical care, and like items. Such expenditures shall be reimbursed as agreed by the party state from which the evacuees come. After the termination of the emergency or disaster, the party state from which the evacuees come shall assume the responsibility
for the ultimate support of repatriation of such evacuees.

ARTICLE XI--IMPLEMENTATION

A. This compact shall become operative immediately upon its enactment into law by any two (2) states; thereafter, this compact shall become effective as to any other state upon its enactment by such state.

B. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until 30 days after the governor of the withdrawing state has given notice in writing of such withdrawal to the governors of all other party states. Such action shall not relieve the withdrawing state from obligations assumed hereunder prior to the effective date of withdrawal.

C. Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party states and with the Federal Emergency Management Agency and other appropriate agencies of the United States Government.

ARTICLE XII--VALIDITY

This compact shall be construed to effectuate the purposes stated in Article I hereof. If any provision of this compact is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to other persons and circumstances shall not be affected thereby.

ARTICLE XIII--ADDITIONAL PROVISIONS

Nothing in this compact shall authorize or permit the use of military force by the National Guard of a state at any place outside that state in any emergency for which the President is authorized by law to call into federal service the militia, or for any purpose for which the use of the Army or the Air Force would in the absence of express statutory authorization be prohibited under Section 1385 of Title 18, United States Code.

Sec. 780.004. PAYMENTS FROM THE ACCOUNT. (a) The commissioner:

(1) with advice and counsel from the chairpersons of the trauma service area regional advisory councils, shall use money appropriated from the account established under this chapter to fund designated trauma facilities, county and regional emergency medical services, and trauma care systems in accordance with this section; and

(2) after consulting with the executive commissioner of the Health and Human Services Commission, may transfer to an account in the general revenue fund money appropriated from the account established under this chapter to maximize the receipt of federal funds under the medical assistance program established under Chapter 32, Human Resources Code, and to fund provider reimbursement payments as provided by Subsection (j).

(a-1) A grant recipient may not before the fourth anniversary of the date a grant is awarded under Subsection (a) dispose of an ambulance for which the total costs of purchasing the ambulance were paid only from grants awarded under Subsection (a) or Section 773.122(a) unless the grant recipient obtains the department's prior approval.

(b) In each fiscal year, the commissioner shall reserve $500,000 of any money appropriated from the account for extraordinary emergencies. Money that is not spent in a fiscal year shall be transferred to the reserve for the following fiscal year.

(c) In any fiscal year, the commissioner shall use at least 96 percent of the money appropriated from the account, after any amount the commissioner is required by Subsection (b) to reserve is deducted, to fund a portion of the uncompensated trauma care provided at facilities designated as state trauma facilities by the department or an undesignated facility in active pursuit of designation. Funds may be disbursed under this subsection based on a proportionate share of uncompensated trauma care provided in the state and may be used to fund innovative projects to enhance the delivery of patient care in the overall emergency medical services and trauma care system.
(d) In any fiscal year, the commissioner shall use not more than two percent of the money appropriated from the account, after any amount the commissioner is required by Subsection (b) to reserve is deducted, to fund, in connection with an effort to provide coordination with the appropriate trauma service area, the cost of supplies, operational expenses, education and training, equipment, vehicles, and communications systems for local emergency medical services. The money shall be distributed on behalf of eligible recipients in each county to the trauma service area regional advisory council for that county. To receive a distribution under this subsection, the regional advisory council must be incorporated as an entity that is exempt from federal income tax under Section 501(a), Internal Revenue Code of 1986, and its subsequent amendments, by being listed as an exempt organization under Section 501(c)(3) of that code. The share of the money allocated to the eligible recipients in a county's geographic area shall be based on the relative geographic size and population of the county and on the relative number of emergency or trauma care runs performed by eligible recipients in the county. Money that is not disbursed by a regional advisory council to eligible recipients for approved functions by the end of the fiscal year in which the funds were disbursed may be retained by the regional advisory council for use in the following fiscal year in accordance with this subsection. Money that is not disbursed by the regional advisory council in that following fiscal year shall be returned to the department to be used in accordance with Subsection (c).

(e) In any fiscal year, the commissioner may use not more than one percent of the money appropriated from the account, after any amount the commissioner is required by Subsection (b) to reserve is deducted, for operation of the 22 trauma service areas and for equipment, communications, and education and training for the areas. Money distributed under this subsection shall be distributed on behalf of eligible recipients in each county to the trauma service area regional advisory council for that county. To receive a distribution under this subsection, the regional advisory council must be incorporated as an entity that is exempt from federal income tax under Section 501(a), Internal Revenue Code of 1986, and its subsequent amendments, by being listed as an exempt organization under Section 501(c)(3) of that code. A regional advisory council's share of money distributed under this section shall be based on the
relative geographic size and population of each trauma service area and on the relative amount of trauma care provided. Money that is not disbursed by a regional advisory council to eligible recipients for approved functions by the end of the fiscal year in which the funds were disbursed may be retained by the regional advisory council for use in the following fiscal year in accordance with this subsection. Money that is not disbursed by the regional advisory council in that following fiscal year shall be returned to the department to be used in accordance with Subsection (c).

(f) In any fiscal year, the commissioner may use not more than one percent of money appropriated from the account, after any amount the commissioner is required by Subsection (b) to reserve, to fund the administrative costs of the bureau of emergency management of the department associated with administering the trauma program, the state emergency medical services program, and the account and to fund the costs of monitoring and providing technical assistance for those programs and that account.

(g) In a trauma service area that includes a county with a population of 3.3 million or more, a trauma service area regional advisory council may enter into an agreement with a regional council of governments to execute its responsibilities and functions under this chapter.

(h) For purposes of this section "pursuit of designation" means:

(1) submission of an application with the state or appropriate agency for trauma verification and designation;
(2) submission of data to the department trauma registry;
(3) participation in trauma service area regional advisory council initiatives; and
(4) creation of a hospital trauma performance committee.

(i) This subsection applies only to an undesignated facility that applies for trauma verification and designation after September 1, 2005, and is in active pursuit of designation. The facility must file a statement of intent to seek the designation, comply with Subsection (h) not later than the 180th day after the date the statement of intent is filed, and notify the department of the facility's compliance with that subsection. If trauma designation is not attained by an undesignated facility in active pursuit of designation on or before the second anniversary of the date the facility notified the department of the facility's compliance with
Subsection (h), any funds received by the undesignated facility for unreimbursed trauma services must be returned to the state.

(j) Money in the account described by Subsection (a)(2) may be appropriated only to the Health and Human Services Commission to fund provider reimbursement payments under the medical assistance program established under Chapter 32, Human Resources Code, including reimbursement enhancements to the statewide dollar amount (SDA) rate used to reimburse designated trauma hospitals under the program.

(d) The discrimination prohibited by this section includes:

(1) refusing to allow a search and rescue dog or the dog's handler to use or be admitted to a public facility;

(2) a ruse or subterfuge calculated to prevent or discourage a search and rescue dog or the dog's handler from using or being admitted to a public facility; and

(3) failing to make a reasonable accommodation in a policy, practice, or procedure to allow a search and rescue dog or the dog's handler to be admitted to a public facility.

(e) A policy relating to the use of a public facility by a designated class of persons from the general public may not prohibit the use of the particular public facility by a search and rescue dog or the dog's handler.

(f) A search and rescue dog's handler is entitled to full and equal access, in the same manner as other members of the general public, to all housing accommodations offered for rent, lease, or compensation in this state, subject to any condition or limitation established by law that applies to all persons, except that the handler may not be required to pay an extra fee or charge or security deposit for the search and rescue dog.

SUBTITLE C. FIRE
CHAPTER 791. FIRE ESCAPES
SUBCHAPTER A. GENERAL PROVISIONS

Sec. 791.001. DEFINITIONS. In this chapter:
(1) "Owner" includes an individual, firm, association, or private corporation.
(2) "Story" has its usual architectural meaning and includes:
   (A) a basement that extends five feet or more above the grade line on one or more sides of a building;
   (B) a balcony or mezzanine floor of a building;
   (C) a roof garden; or
   (D) an attic used for any purpose.

Sec. 791.002. FIRE ESCAPE REQUIRED. (a) The owner of a building shall equip the building with at least one fire escape and with additional fire escapes as required by Subchapters C and D if the building has at least:
   (1) three stories and is used as a facility subject to Subchapter C; or
   (2) two stories and is used as a school.
   (b) A fire escape required by this chapter must meet the specifications provided by this chapter for an exterior stairway fire escape, an exterior chute fire escape, a combination of those exterior fire escapes, or an interior fire escape.

Sec. 791.003. COMPLIANCE. A building constructed after September 1, 1925, and subject to this chapter shall be equipped with fire escapes and must meet all other requirements of this chapter before the building is wholly or partially occupied or used.

Sec. 791.004. EXEMPTIONS. (a) This chapter does not apply to
the construction of a structure in a municipality that has in effect a nationally recognized model building code governing the construction if the building code requires at least one one-hour fire-resistive means of escape with a total width equal to or greater than the total exit width required under this chapter for a structure of three or more stories.

(b) This chapter does not apply to a grain elevator constructed of:

1. steel;
2. steel and concrete; or
3. wood if fewer than five persons are employed at the grain elevator.

Sec. 791.005. LOCATION OF FIRE ESCAPES. Consistent with accessibility, each fire escape subject to this chapter must be located as far as possible from stairways, elevator hatchways, and other openings in the floors of the building served by the fire escape. If possible, each fire escape must be located at the end of a hallway or unobstructed passageway and as far apart as is consistent with the construction and location of the building.

Sec. 791.006. INSPECTION; APPROVAL. (a) A fire escape subject to this chapter and each extension or addition to that fire escape shall be inspected before being approved for use.

(b) The inspection may be conducted by:

1. the state fire marshal;
2. an inspector of the State Board of Insurance;
3. the chief of a municipal fire department; or
4. a municipal fire marshal.

(c) A fire escape or an addition or extension to a fire escape may not be approved unless it meets the requirements of this chapter.

Sec. 791.007. TESTS; AFFIDAVIT. (a) The person who erects a fire escape shall test the fire escape, on its completion and before final approval of the fire escape, by the application of a live load of 160 pounds per square foot of area of balcony floor and stair treads, or a dead load of 240 pounds per square foot of area of balcony floor and stair treads. The weight must be simultaneously imposed on each balcony and the stairways connecting the balconies that lead both up and down.

(b) Sand, gravel, concrete blocks, or any other suitable commodity may be used in performing the tests. The load must be accurately weighed and applied as specified in this section.

(c) A dead load must be placed in position in whole or in part by mechanical means without a person present on the fire escape when the test is made. A live load must be placed in position by mechanical means or by persons, and persons must be present on the fire escape as part of the load when the test is made.

(d) The person who erects the fire escape shall conduct the tests in the presence of:

(1) the state fire marshal;
(2) an appointed representative of the state fire marshal;
(3) the chief of a fire department; or
(4) a municipal fire marshal.

(e) If an official listed in Subsection (d) cannot be present to witness the test, any of the officials instead may accept an affidavit from the person who erects the fire escape that states that the minimum required test has been made and that the fire escape has passed the test.

SUBCHAPTER B. MINIMUM SPECIFICATIONS FOR FIRE ESCAPES

Sec. 791.011. GENERAL REQUIREMENTS. (a) A fire escape shall be constructed and arranged in a manner that:

(1) permits exit on the fire escape from each floor of the building above the first floor; and
(2) provides an uninterrupted exit from the building to the grade.

(b) The materials, construction, erection, and test of a fire escape must comply with the minimum specifications established under
Sec. 791.012. MINIMUM SPECIFICATIONS FOR EXTERIOR STAIRWAY FIRE ESCAPES. (a) An exterior stairway fire escape is a structure that:

(1) is located on the exterior of a building;
(2) is constructed of iron, steel, or reinforced concrete; and
(3) consists of balconies and stairways.

(b) An exterior stairway fire escape may be constructed in:

(1) superimposed form;
(2) straight run form;
(3) superimposed form with intermediate balconies; or
(4) a combination of those forms.

(c) The balconies for a superimposed form stairway fire escape attached to the building at two or more floors must equal in length the horizontal length of the stair runs plus an amount at each end equal to the width of the stairs. Each balcony must be as long as the width of the exit opening in the building wall and must be at least 50 inches wide inside the balcony railings.

(d) The balconies for a superimposed form stairway fire escape with intermediate balconies attached to the building at two or more floors must be at least equal in width to the combined width of the stairways connected by the balconies leading both up and down. The landings at the head and foot of the stairs must be as deep as the width of the stairs and as long as the width of the exit opening in the building wall.

(e) The balconies for a straight run form stairway fire escape must be at least equal in width to the width of the stairs and as long as the width of the exit opening in the building wall.

(f) The floor of an iron or steel balcony must be either solid or slatted. If solid, the floor must have a scored surface to prevent slipping and, to provide drainage, must be pitched at a slope of not less than one-half inch in 10 feet. If slatted, the slats may not be placed more than three-quarters inch apart and must be secured with rivets or bolts. Material used in the floor must be at least three-sixteenths inch thick.

(g) The railing enclosures of a balcony must be at least two
feet nine inches high. If of vertical and horizontal slat or grill construction, a space between slats or within the grill may not have a horizontal width of more than eight inches. If of truss construction, the span of a panel may not exceed three feet. An opening in the railing enclosures on any type of construction may not exceed two square feet. A railing enclosure must be free throughout its length from obstructions that tend to break handholds, and the passage space must be smooth and free from obstructions or projections. A railing enclosure must be designed to withstand a horizontal pressure of 200 pounds per running foot of railing without serious deflection.

(h) A balcony must be anchored to the building with bolts at least one inch in diameter, extending through the wall of the building and provided with a wall bearing plate on the interior that is at least five inches square and three-eighths inch thick, or must be anchored by such bolts set in concrete or masonry or made integral in new buildings. A balcony may not be placed above or more than one foot below the top of the sill of the exit opening in the building wall and preferably should be level with the sill.

(i) A concrete balcony must meet the requirements of this section and must be made of reinforced concrete composed of one part cement, two parts sand, and four parts stone or gravel. The railing enclosure of a concrete balcony must meet the specifications of this section or be made of reinforced concrete, with balusters spaced not more than one foot apart.

(j) The pitch of a fire escape stairway may not exceed 45 degrees.

(k) The stairway treads must be at least eight inches wide, excluding nosings, and at least 24 inches long. Treads must be placed so that the rise, either open or closed, does not exceed eight inches. If solid, treads must have a scored surface. If slatted, the slats must be placed not more than three-quarters inch apart and be well secured by bolts or rivets. Material used in the treads must be at least three-sixteenths inch thick.

(l) Railings must be provided on both sides of stairs. The railings must be at least two feet nine inches high, measured vertically from the center of the stair treads, and must be supported by balusters spaced not more than one foot apart. If an intermediate rail is provided, it shall be provided halfway between the top rail and the stair stringers and the balusters must be placed not more
than five feet apart. Stair railings must permit at least 24 inches of unobstructed passageway and must be designed to withstand a horizontal pressure of 200 pounds per running foot of railing without serious deflection.

(m) Concrete stairs must comply with the requirements of this section and must be made of reinforced concrete composed in the same mix as provided by Subsection (i). Railing enclosures for concrete stairs must be either as provided by Subsection (g) or of reinforced concrete balustrade with balusters spaced not more than one foot apart.

(n) Stairways must be built stationary to grade where possible and must be built stationary to grade for buildings such as schools or hospitals.

(o) If a fire escape terminates over a street, alley, private driveway, or other similar situation and terminates in a hinged and counterbalanced section of stairway, the construction of that section of stairs must conform to the stationary parts of the stairway and must be balanced so that the weight of one person on the third or fourth tread will lower the stairway to the landing. Bearings for counterbalanced stairs must be either bronze bushings or have sufficient clearance to prevent sticking caused by corrosion. A latch or lock may not be attached to the counterbalanced stairs in the up position, but a latch must be provided to hold the stairs in the down position when they have been swung to the ground. The connection between stair railings on the stationary part of the stairway and the counterbalanced part of the stairway must be designed to prevent the probability of injury to persons who use the fire escape. If necessary, a suitable opening must be provided in any awning, roof, or other intervening obstruction to admit the counterbalanced stairs and permit the passage of persons on the stairs.

(p) The fire escape must be connected to the roof of the building to which it is attached. If the roof of the building is designed in such a way that escape by way of the roof may be necessary, the fire escape must extend to the roof. If the connection is only for use by the fire department, it must be made with a gooseneck-type ladder with stringers made of material at least three-eighths inch thick, and rungs at least three-quarters inch in diameter, 16 inches long, and not more than 14 inches apart. The ladder must be anchored to the wall.
(q) The minimum unobstructed width of an exterior passageway in the fire escape, whether parallel to the building or at right angles to it, is 24 inches.

(r) The clearance at all points on balconies and stairs, as measured vertically, must be at least six feet six inches.

Sec. 791.013. MINIMUM SPECIFICATIONS FOR EXTERIOR CHUTE FIRE ESCAPES. (a) An exterior chute fire escape is a structure that is located on the exterior of a building and constructed of iron or steel and that consists of balconies and a straight or spiral gravity chute.

(b) An exterior straight chute fire escape may be in:
   (1) superimposed form parallel to or at right angles to the building;
   (2) straight run form parallel to or at right angles to the building; or
   (3) a combination of those two forms.

(c) An exterior spiral chute fire escape must be constructed in a spiral form around a central column and must rest on and be anchored to a concrete base at least 18 inches thick.

(d) The chute and any intervening balconies must be constructed in a manner that provides a continuous gravity slide from the top floor to the grade and must be accessible from all floors of the building. An exterior straight chute must be placed at an angle that does not exceed 45 degrees.

(e) The balconies must meet the specifications imposed under Section 791.012 for the balconies of exterior stairway fire escapes.

(f) A straight chute must be composed of material equal to at least 14-gauge iron or steel. A spiral chute must be composed of material equal to at least 16-gauge iron or steel. The material used must be blue annealed or of equal type and must be capable of taking a smooth or polished surface.

(g) The interior of a straight chute must be 20 inches wide and 18 inches deep, and in cross section must have a concave bottom and straight sides. The interior of a spiral chute must be at least 30 inches wide. The interior of either form of chute must be free from obstructions or sharp edges.
(h) The top edges of a straight chute must be stiffened and protected throughout the length of the chute with iron or steel angles free from sharp edges. The angles must be of the size necessary to carry the maximum possible load. The chute must be reinforced crosswise underneath with iron or steel angles.

(i) The slideway of a spiral chute must be banked at the outer edge to prevent a passenger from being thrown against a guardrail or enclosure and must be enclosed by either a continuous wall or guardrail at least 30 inches high constructed of at least 18-gauge iron or steel. A spiral chute may not terminate more than two feet above the grade and must be constructed and arranged so that a normal landing is in a standing position.

(j) A landing composed of the same material as the chute must be provided at the lower end of a straight chute and must be of sufficient length in proportion to the length of the chute and the concavity of its surface to check the momentum attained through gravity and to provide a safe stop. The landing must be six inches wider than the chute on each side if wall construction does not interfere and must be without sharp edges or ragged projections. The landing must rest on and be anchored to a concrete base at least six inches thick.

(k) All rivets exposed inside a chute and on the top side of a landing of a straight chute must be countersunk and ground smooth.

Sec. 791.014. MINIMUM SPECIFICATIONS FOR INTERIOR FIRE ESCAPES.
(a) An interior fire escape may be:
   (1) a stairway composed of iron, steel, or concrete; or
   (2) a straight or spiral chute composed of iron or steel.
(b) The fire escape must be enclosed with a noncombustible material. All door and window openings in the enclosure must be protected with self-closing fireproof shutters.
(c) Balconies or landings used with an interior fire escape must meet the construction requirements imposed under Section 791.012, except that a balcony used with an interior fire escape must permit at least 40 inches of unobstructed passageway, and the balconies or landings must be located on a level with the floors of the building.
(d) The stairs of an interior stairway fire escape must meet the requirements imposed under Section 791.012, except that the stairs must permit at least 40 inches of unobstructed passageway in all parts. An interior stairway fire escape may not use stairs of the types known as "spirals" or "winders".

(e) An interior stairway fire escape must be continuous, starting at the ground floor, and may not descend to any basement. It must extend through the roof of the building and must terminate in a penthouse constructed of noncombustible material equipped with a self-closing fire door as specified in this section.

(f) An interior chute fire escape must meet the requirements of Section 791.013.

(g) An interior fire escape must be accessible from all parts of the building it is designed to serve. Each lobby, hall, or passageway that leads to a fire escape and is used in connection with it must be at least 36 inches wide and at least six feet six inches high and must be level with the floor on which the fire escape opens and which it serves. The fire escape must be constructed at the lower end in a manner that permits direct exit to the outside of the building at the grade.

(h) The enclosing walls of an interior fire escape may be constructed of:
   (1) brick;
   (2) plain solid concrete;
   (3) reinforced stone or gravel concrete;
   (4) reinforced cinder concrete;
   (5) hollow terra-cotta blocks;
   (6) hollow concrete blocks composed of stone or cinder concrete mortar;
   (7) gypsum blocks; or
   (8) metal lath on steel studding.

(i) If the enclosing walls are of brick or plain solid concrete, they must be at least eight inches thick for the top 30 feet, increasing four inches in thickness for each lower section of 30 feet or fraction of 30 feet, or at least eight inches thick for the entire height if the walls are wholly supported at intervals not to exceed 30 feet. If the enclosing walls are of reinforced stone or gravel concrete, they must be at least five inches thick for the top 30 feet, increasing two inches in thickness for each lower section of 30 feet or fraction of 30 feet, or at least three inches thick for
the entire height if supported at vertical intervals not to exceed 20 feet and if braced as necessary with lateral supports or suitable steel uprights. If the enclosing walls are of reinforced cinder concrete, the concrete must be at least five inches thick for the entire height of the enclosing walls, and the walls must be supported at vertical intervals not to exceed 15 feet and must be braced as necessary with lateral supports or suitable steel uprights.

(j) If the enclosing walls are composed of hollow terra-cotta blocks, the blocks must be laid in cement mortar, and the walls must be at least five inches thick overall. If the enclosing walls are composed of hollow concrete blocks of either stone or cinder concrete mortar, the enclosing walls must be at least five inches thick overall. If the walls are constructed of gypsum blocks, the blocks may be either solid or hollow but must contain not more than 25 percent by weight of cinders, asbestos fiber, wood chips, or vegetable fiber. The gypsum blocks must be laid in gypsum plaster or cement mortar tempered with lime, and the enclosing walls must be at least five inches thick overall. If the walls are constructed of metal lath on steel studding, they must be covered with portland cement mortar or gypsum plaster of a finished thickness of at least two inches in the case of solid partitions or of at least three inches in the case of hollow partitions. Each opening in a wall or partition must have substantial steel framing, the vertical members of which must be securely attached to the floor construction above and below.

(k) Each door opening in an interior fire escape must be protected by the use of an automatic or self-closing fire door of standard manufacture, bearing the Underwriters Laboratory label. If an automatic fire door is used, it must be enclosed in a recessed partition. All doors must be arranged and equipped to remain in closed positions at all times and under all conditions except during actual use.

(l) Each window opening must be equipped with a metal sash bearing the Underwriters Laboratory label and with wire glass.

(m) Each interior fire escape must be provided at each landing with at least one light equal in power to a 10-watt electric globe. The lighting must be on a separate circuit from that of the rest of the building and must be designed to operate if the regular lighting system of the building is disabled.
Sec. 791.015. EXIT LIGHTS; GUIDE SIGNS. (a) At least one red light must be installed and maintained in good condition at each exit to a fire escape in a building subject to Section 791.002. An exit light must be painted with the words "fire escape exit."

(b) One guide sign must be installed and maintained in good condition at each hallway intersection. An additional guide sign must be provided for every 25 lineal feet of hallway leading to a fire escape. A guide sign must be painted with the words "fire escape" and with an arrow or hand pointing to the nearest fire escape exit.

Sec. 791.016. PAINTING AND MAINTENANCE REQUIREMENTS. (a) A fire escape constructed of iron or steel must be painted with at least two coats of good metallic paint when erected. The fire escape must be repainted at least every two years or more frequently if necessary to preserve the fire escape from rust or climatic influences.

(b) The slideway of a straight or spiral chute fire escape must be thoroughly cleaned and painted at least once each year.

Sec. 791.032. APPLICATION. This subchapter applies to a building in which a school of any kind is conducted and that is:

(1) at least two stories high; and
(2) owned by a school district.

Sec. 791.033. COMPLIANCE REQUIREMENTS. Each person who has charge or supervision of a school building subject to this subchapter, or who has charge or supervision of the letting of contracts for the construction of the building, shall comply with this chapter.

Sec. 791.034. ADMINISTRATION; ENFORCEMENT. (a) The state fire marshal shall administer and supervise the enforcement of this subchapter and Section 791.024.

(c) A school building of two stories that is of fireproof or semifireproof construction or that has stairways and hallways of that type of construction is not required to have a fire escape.

Sec. 791.036. REQUIRED TYPES OF FIRE ESCAPES; SPECIFICATIONS.

(a) A fire escape for a school building constructed before March 17, 1950, may be either an interior fire escape or an exterior fire escape.

(b) A school building constructed on or after March 17, 1950, that consists of at least three stories of fireproof construction or at least two stories of ordinary construction shall have interior fire escapes.

(c) An exterior fire escape for a school building constructed before March 17, 1950, may be:

(1) an iron, steel, or concrete stairway;
(2) an iron or steel straight chute;
(3) an iron or steel spiral chute; or
(4) a fire escape that is a combination of those types.

(d) Exterior fire escapes used in school buildings must meet the construction requirements of this section or similar construction requirements approved by the successor organization to the National Board of Fire Underwriters. Except as otherwise provided by this section, exterior fire escapes must be:

(1) constructed throughout of noncombustible materials;
(2) designed for a live load of 100 pounds per square foot; and
(3) supported by vertical steel columns.

(e) If it is impossible to use vertical steel columns in the construction of an exterior fire escape, the use of steel brackets
with bolts extending through the entire thickness of the wall may be approved.

(f) The landings and treads of exterior fire escapes must be of solid hatched steel plate or of steel gratings with interstices that do not exceed three-fourths inch and must be designed so that any accumulation of ice and snow is reduced to a minimum.

(g) The guardrails of exterior fire escapes must be at least three feet six inches high and must be substantially constructed. The guardrails must be faced either with heavy wire mesh or by steel balusters or rails not more than 9-1/2 inches o.c.

(h) The fire escape must have handrails on each side of the stairs that must be securely attached to the guardrails or to the building walls. Handrails must be two feet four inches to two feet six inches above the nosings.

3. conveniently accessible from each floor above the first floor; and
4. of sufficient width and strength so that each step and landing may accommodate two adults at the same time.

(k) If the Texas Education Agency approves that construction as providing a convenient and safe passage, doorways may be used as exits from each floor. The base of a doorway must be at the same level as the corresponding floor of the building and the landing of the fire escape to which the doorway leads. A doorway must be at least three feet wide and six feet six inches high and must be fitted with panic hardware approved by the successor organization to the National Board of Fire Underwriters. Sec. 796.002. REQUIREMENTS FOR SALE OF CIGARETTE. A cigarette may not be sold or offered for sale in this state unless:

(1) the cigarette has been tested in accordance with Section 796.003;

(2) the cigarette meets the performance standard under Section 796.003;

(3) a written certification has been filed by the manufacturer with the state fire marshal in accordance with Section 796.005; and

(4) the cigarette has been marked in accordance with Section 796.006.

Sec. 796.003. TESTING. (a) A manufacturer of cigarettes shall ensure that tests on cigarettes are conducted:

(1) in accordance with Standard Test Method for Measuring the Ignition Strength of Cigarettes, E2187-04, by the American Society of Testing and Materials, as that standard existed on January 1, 2007;

(2) on 10 layers of filter paper; and

(3) in a complete test trial of 40 replica tests.

(b) Not more than 25 percent of the cigarettes tested in a test trial in accordance with this section may exhibit full-length burns.
(c) The performance standard required by this section shall only be applied to a complete test trial.

(d) A written certification shall be based on testing conducted by a laboratory that has been accredited pursuant to standard ISO/IEC 17025 of the International Organization for Standardization, or another comparable accreditation standard required by the state fire marshal.

(e) A laboratory testing in accordance with this section shall implement a quality control and quality assurance program to ensure that operator bias, systematic and nonsystematic methodological errors, and equipment-related problems do not affect the results of the testing. The program must include a procedure to determine the repeatability of the testing results. The repeatability value may not be greater than 0.19. For purposes of this subsection, "repeatability value" means the range of values within which the repeat results of cigarette test trials from a single laboratory will fall 95 percent of the time.

(f) The state fire marshal may adopt a subsequent ASTM Standard Test Method for Measuring the Ignition Strength of Cigarettes on finding that the subsequent method does not result in a change in the percentage of full-length burns exhibited by any tested cigarette when compared to the percentage of full-length burns the same cigarette would exhibit when tested in accordance with ASTM Standard E2187-04 and the performance standard in Subsection (b).

(g) A cigarette submitted for testing that uses lowered permeability bands in the cigarette paper to comply with the performance standard under this section must have at least two nominally identical bands on the paper surrounding the tobacco column and at least one complete band not less than 15 millimeters from the lighting end of the cigarette. A cigarette on which the bands are positioned by design must have at least two bands located not less than 15 millimeters from the lighting end and 10 millimeters from the filter end of the tobacco column or 10 millimeters from the labeled end of the tobacco column for nonfiltered cigarettes.

(h) This section does not require additional testing if a cigarette is tested in a manner that is consistent with this chapter for any other purpose.

(i) Testing performed or sponsored by the state fire marshal to determine a cigarette's compliance with the performance standard required under this section shall be conducted in accordance with...
Sec. 796.004. ALTERNATIVE TEST METHODS. (a) A manufacturer of a cigarette that the state fire marshal determines cannot be tested in accordance with Section 796.003 shall propose a test method and performance standard for the cigarette to the state fire marshal. If the state fire marshal determines that the performance standard proposed by the manufacturer is equivalent to the performance standard under Section 796.003, the manufacturer may use the proposed test method.

(b) Unless the state fire marshal demonstrates a reasonable basis why an alternative test should not be accepted under this chapter, the state fire marshal shall authorize a manufacturer to employ the alternative test method and performance standard to certify a cigarette for sale in this state if the state fire marshal:

(1) determines that another state has enacted reduced cigarette ignition propensity standards that include a test method and performance standard that are the same as those contained in this chapter; and

(2) finds that the officials responsible for implementing those requirements have approved an alternative test method and performance standard for a particular cigarette proposed by a manufacturer as meeting the fire safety standards of that state's law or regulation under a legal provision comparable to this section.

Added by Acts 2007, 80th Leg., R.S., Ch. 909 (H.B. 2935), Sec. 1, eff. January 1, 2009.

(8) marking approved in accordance with Section 796.006;
(9) the name, address, and telephone number of the laboratory, if different from the manufacturer that conducted the test; and
(10) the date that the testing occurred.

(c) The state fire marshal shall retain a copy of a certification and provide a copy to the comptroller to ensure compliance with this chapter.

(d) A cigarette certified under this section shall be recertified every three years.

(e) For each cigarette included in a certification, a manufacturer shall pay to the state fire marshal a fee in the amount of $250, to be deposited only to the Texas Department of Insurance operating account in the general revenue fund.

(f) A cigarette certified under this section that is altered by the manufacturer in a way likely to alter its compliance with the reduced cigarette ignition propensity standards required by this chapter may not be sold or offered for sale in this state unless the manufacturer retests the cigarette in accordance with Section 796.003 or 796.004 and maintains the records required by Section 796.007.

(3) other printed, stamped, engraved, or embossed text that indicates that the cigarettes meet the standards of this chapter.

(b) A manufacturer shall present its proposed marking to the state fire marshal for approval. Proposed markings are considered approved if the state fire marshal fails to disapprove the proposed markings on or before the 10th business day after the date the proposed markings are received. The state fire marshal must approve a marking:

(1) in use and approved for sale in another state; or

(2) with the letters "FSC" for Fire Standards Compliant appearing in eight-point or larger type and permanently printed, stamped, engraved, or embossed on the package at or near the Universal Product Code.

(c) A manufacturer shall use only one type of marking and shall apply the marking uniformly to all packages, including packs, cartons, and cases, and brands marketed by the manufacturer in this state.

(d) A manufacturer may not modify its approved marking unless the state fire marshal has approved the modification.

(e) A manufacturer shall provide sufficient copies of an illustration of the package marking to a wholesale dealer and agent to which the manufacturer sells cigarettes and provide sufficient copies of an illustration of the package marking used by the manufacturer under this section for each retailer to which the wholesale dealers or agents will sell cigarettes. A wholesale dealer and an agent shall provide a copy of package markings received from a manufacturer to a retail dealer to which the wholesale dealer or agent sells cigarettes. There is no limit on the number of extensions that may be granted under this subsection.
Sec. 828.0045. NONSURGICAL STERILIZATION. It is a presumption under this law that the failure of the new owner to deliver to the releasing agency a signed letter as required under Section 828.005, 828.006, or 828.007 is the result of the new owner's refusal to have the adopted animal sterilized. The new owner may rebut this presumption at the time of the hearing with the proof required under the above-mentioned sections.

Sec. 828.009. RECLAMATION.  (a) A releasing agency that does not receive a letter under Section 828.005, 828.006, or 828.007 after the expiration of the seventh day after the sterilization completion date agreed to under Section 828.002 may promptly reclaim the animal from the new owner.

(b) A veterinarian employed by a releasing agency may not perform nonemergency veterinary services other than sterilization on an animal that the releasing agency knows or should know has an owner. (c) A person associated with a releasing agency may not interfere with the independent professional judgment of a veterinarian employed by or under contract with the releasing agency.

Amended by:
Acts 2005, 79th Leg., Ch. 230 (S.B. 248), Sec. 6, eff. May 27, 2005.

TITLE 11. CIVIL COMMITMENT OF SEXUALLY VIOLENT PREDATORS
CHAPTER 841. CIVIL COMMITMENT OF SEXUALLY VIOLENT PREDATORS
SUBCHAPTER A. GENERAL PROVISIONS

Sec. 841.001. LEGISLATIVE FINDINGS. The legislature finds that a small but extremely dangerous group of sexually violent predators exists and that those predators have a behavioral abnormality that is not amenable to traditional mental illness treatment modalities and that makes the predators likely to engage in repeated predatory acts of sexual violence. The legislature finds that the existing involuntary commitment provisions of Subtitle C, Title 7, are inadequate to address the risk of repeated predatory behavior that sexually violent predators pose to society. The legislature further finds that treatment modalities for sexually violent predators are different from the traditional treatment modalities for persons appropriate for involuntary commitment under Subtitle C, Title 7. Thus, the legislature finds that a civil commitment procedure for the long-term supervision and treatment of sexually violent predators is necessary and in the interest of the state.
